For the week of May 15, 2015

Internships

BNY Mellon – Tacoma, WA

Three intern positions are currently open that will be full time during the summer and continue through the 2015-2016 school year. We are hoping for two of these to be business/finance and one in alignment with technology/computer science.

Contact Becki ASAP if you are interested in one of these positions.

Digital-Control.com – Kent, WA

Internship will provide exposure in the following areas: General Accounting (AR/AP/GL/Fixed Assets); Cost Accounting, Inventory and Manufacturing Accounting; Foreign Accounting; Financial Reporting; Auditing and Operations Reviews. We are in the process of setting up two new companies so there will be opportunities to be involved in helping set up these companies in our fully integrated ERP system as well. While the work won't always be glamorous, because it is an internship that will include a bit of data entry work and administrative work, the internship will provide some levels of exposure to all the above areas. Juniors through Master's program accounting majors preferred. Internship is paid (30-40 hours per week through the summer).

If you are interested in being considered for any interview, please email me their cover letter and resume at the work email below. Visit the website for more information about DCI and related companies.
