Instructor Feedback: Lauren, overall you did an excellent job. I would recommend becoming more aware of details of care & carefully review positions to ensure safety & I.C. Do all of cath care before proceeding to perineal care. Draping to keep client warm will secure a more cooperative client. Your communication was very good.

Client Feedback: Water was warm, felt very good. Good job very good. working through the small towel issue way to overcome. Good time management. Support joints a little more when moving limbs.

Student's Feedback:

I was most nervous during the transitions. I was unsure about washing hands and got frustrated when I forgot supplies. I felt I had good report with
