

Boys Learn from Men.

Do your part to help stop violence against girls and women in the African American community. Teach

boys that violence against girls and women is wrong. Boys need to understand from men that violence does not equal strength, and that there is honor and pride in taking a stand *for* respect and *against* violence against women.

Call 1-800-END-ABUSE to order a free brochure that gives you tips on how to talk to boys about violence.
