MISSION
The PLU School of Business is a community of engaged faculty, staff, and administrators who provide an excellent business education in a student-centered learning environment grounded in the liberal arts that inspires students to:
• LEARN for life,
• LIVE purposefully,
• LEAD responsibly, and
• CARE for others

PROGRAM DESCRIPTIONS

BBA: The PLU Bachelor of Business Administration degree program prepares you for a broad range of careers in industry, government, and nonprofit organizations. Undergraduate concentrations in accounting, finance, management & human resources, marketing, or individualized such as international business and supply chain offer specializations to complement the fundamental education required in an increasingly competitive, global business environment.

MBA: The PLU MBA is a transformational academic experience in which you will begin to see and analyze the business world differently. This strategy degree will prepare graduates to be leaders in their organizations with a focus on innovation.

MSF: The PLU MSF is pragmatic and industry-focused, yet grounded in its cross-disciplinary foundations. Graduates are equipped to hit the ground running with a powerful set of skills and tools from a curriculum designed in collaboration with industry.

MSMR: The PLU MSMR program has been developed specifically to provide students with in-demand and relevant business skills. The program prepares students to engage in thoughtful marketing research inquiry within an ethical context. Marketing research professionals provide analytical insight and inform decisions to achieve the goals of profit and non-profit organizations.

PLU SCHOOL OF BUSINESS

AACSB: PLU School of Business accreditation since 1971. Fewer than 5% of universities worldwide have achieved this elite distinction.

LOCATION: The PLU campus is located in the Seattle/Tacoma area of Washington state and is home to some of the world’s largest firms.

HOUSING: PLU offers affordable on-campus housing.

MORKEN CENTER: The School of Business offers courses in the Morken Center for Learning and Technology. It offers state-of-the-art technology in its classroom spaces and dedicated computer facilities.
