

PLU Internship Fund Final Report

In the two-page report, please include the following information:

1. Reflect on your tasks and achievements – what did you experience while there? Walk the reader through a particular day, discuss the way your role developed throughout your time there, and/or your most significant contribution to the site.
2. Explain your learning objectives when starting the internship. Did you achieve them? If so, how? Were there any skills you gained that you were not expecting to learn?
3. Reflect on how the internship has clarified your professional goals. What are your plans moving forward (with the organization and/or your future academic and professional pursuits)?
4. Explain how the funding impacted your ability to participate in the internship.

Upon completion, please email your report to Brandi Hilliard, Director of Career, Learning & Engagement, at **bhilliard@plu.edu**.
