Professor Gunnar Malmin, Director

The Choir of the West is one of PLC's more noted musical organizations doing much to further the college's public relations. The choir, under the direction of Professor Gunnar Malmin, again this year took an extended two week tour through the Pacific coast states, Washington, Oregon, and California. This tour included appearances for many civic organizations and churches. Their program consisted solely of sacred music. Besides the annual tour, the choir did recordings and radio broadcasts, and for the first time, gave a concert at the state prison.
