

Below is a sample 4 year course plan to earn the BBA. While this plan spans four years it's important to understand that it is possible to complete this degree "on-time" even if a student begins their School of Business prerequisites in their Sophomore year. This plan is merely a guide and one of many variations on completing your requirements. If you are interested in discussing a course plan tailored to you, please see your faculty adviser or Juanita Reed in the School of Business.
