2023-24 Academic Calendar

Pacific Lutheran University uses a 4-1-4 calendar, which consists of two 15-week semesters bridged by a four-week January Term.

Undergraduate Programs

2022-23 End of term dates

- May 26, 2023 – Friday, Spring Semester ends
- May 29, 2023 – Monday, Memorial Day Holiday (*PLU closed*)

Summer Sessions 2023 (June 5 - August 4)

- Term I: Monday, June 5 – Friday, June 30
- Juneteenth: Monday, June 19 (*No classes, PLU offices are closed*)
- Independence Day: Tuesday, July 4 (*No classes, PLU offices closed*)
- Term II: Monday, July 10 – Friday, August 4
- Accelerated BSN Full Summer Term: Tuesday, May 30 – Friday, September 1
- Summer Session Diploma Dates: Undergraduate – Friday, August 4; Accelerated BSN – Friday, September 1
- Final Grades Due: Undergraduate – 5 business days after the end of the term; Accelerated BSN – the first day before Fall Semester

Fall Semester 2023 (September 5 - December 15)

- Labor Day: Monday, September 4 (*PLU offices closed*)
- Opening Convocation: Tuesday, September 5 at 10:00 a.m.
- Classes Begin: Tuesday, September 5 at 11:50 a.m.
- Mid-Semester Break: Friday, October 20 (*No classes, PLU offices open*)
- Veterans Day: Saturday, November 11 (*Observance at Chapel Friday, November 10*)
- Thanksgiving Break: Wednesday, November 22 at 1:35 p.m. – Sunday, November 26 (*PLU offices closed Thursday and Friday, November 23-24*)
Classes resume on Monday, November 27 at 8 a.m.
- Classes End: Saturday, December 9 (*Saturday classes take final exam this day*)
- Final Examinations: Monday, December 11 – Friday, December 15
- Fall Semester Ends: Friday, December 15
- Final Grades Due: Wednesday, December 22 by 5:00 p.m.

January Term 2024 (January 2 - January 30)

- Classes Begin: Tuesday, January 2
- Martin Luther King, Jr. Day: Monday, January 15 (*No classes, PLU offices closed*)
- Classes End: Tuesday, January 30
- Final Grades Due: Tuesday, February 6 by 5:00 p.m.

Spring Semester 2024 (February 7 - May 24)

- Classes Begin: Wednesday, February 7
- Presidents' Day: Monday, February 19 (*No classes, PLU offices closed*)
- Spring Break: Monday, March 25 – Friday, March 29 (*No classes, PLU offices open*)
- Good Friday: Friday, March 29 (*No classes, PLU offices closed*)
- Classes End: Saturday, May 18 (*Saturday classes take final exam this day*)
- Final Examinations: Monday, May 20 – Friday, May 24
- Spring Semester Ends: Friday, May 24
- Commencement: Saturday, May 25
- Final Grades Due: Friday, May 31 by 5:00 p.m.

Graduate Programs

Students should consult with their program for specific calendar information on meeting dates.

Summer Session 2023 (May 30 - August 18)

- Session Begins: Tuesday, May 30
- Juneteenth: Monday, June 19 *(No classes, PLU offices closed)*
- Independence Day: Tuesday, July 4 *(No classes, PLU offices closed)*
- Sessions Ends: Friday, August 18 *(Diploma date for graduate students)*
- Final Grades Due: Friday, August 25 by 5:00 p.m.

Fall Semester 2023 (September 5 - December 15)

- Term Begins: Tuesday, September 5
- Mid-Semester Break: Friday, October 20 *(No classes, PLU offices open)*
- Veterans Day: Saturday, November 11 *(Observance at Chapel, Friday, November 10)*
- Thanksgiving Break: Wednesday, November 22 at 1:35 p.m. – Sunday, November 26 *(PLU offices are closed Thursday and Friday, November 23-24)*
- Fall Semester Ends: Friday, December 15
- Final Grades Due: Wednesday, December 22 by 5:00 p.m.

January Term 2024 (January 4 - February 12)

- Classes Begin: Tuesday, January 2
- Martin Luther King, Jr. Day: Monday, January 15 *(No classes, PLU offices closed)*
- Classes End: Tuesday, January 30
- Final Grades Due: Tuesday, February 6 by 5:00 p.m.

Spring Semester 2024 (February 7 - May 24)

- Classes Begin: Wednesday, February 7
- Presidents' Day: Monday, February 19 *(No classes, PLU offices closed)*
- Spring Break: Monday, March 25 – Friday, March 29 *(No classes, PLU offices open)*
- Good Friday: Friday, March 29 *(No classes, PLU offices closed)*
- Spring Semester Ends: Friday, May 24
- Final Grades Due: Friday, May 31 by 5:00 p.m.

2024-25 Academic Calendar

Pacific Lutheran University uses a 4-1-4 calendar, which consists of two 15-week semesters bridged by a four-week January Term.

Undergraduate Programs

2023-24 End of term dates

- May 24, 2024 – Friday, Spring Semester ends
- May 31, 2024 – Monday, Memorial Day Holiday (*PLU closed*)

Summer Sessions 2024 (June 7 – August 6)

- Term I: Monday, June 3 – Friday, June 28
- Juneteenth: Wednesday, June 19 (*No classes, PLU offices are closed*)
- Independence Day: Thursday, July 4 (*No classes, PLU offices closed*)
- Term II: Monday, July 8 – Friday, August 2
- Accelerated BSN Full Summer Term: Tuesday, May 28 – Friday, August 30
- Summer Session Diploma Dates: Undergraduate – Friday, August 2; Accelerated BSN – Friday, August 30

**Summer Term I and II grades are due 5 business days after the end of the term. Accelerated BSN Summer Full Term grades are due before the first day of the Fall semester.*

Fall Semester 2024 (September 3 – December 13)

- Labor Day: Monday, September 2 (*PLU offices closed*)
- Opening Convocation: Tuesday, September 3 at 10:00 a.m.
- Classes Begin: Tuesday, September 3 at 11:50 a.m.
- Mid-Semester Break: Friday, October 18 (*No classes, PLU offices open*)
- Veterans Day: Monday, November 11 (*Observance at Chapel*)
- Thanksgiving Break: Wednesday, November 27 at 1:35 p.m. – Sunday, December 1 (*PLU offices are closed Thursday and Friday, November 28-29*)
Classes resume on Monday, December 2 at 8:00 a.m.
- Classes End: Saturday, December 7 (*Saturday classes take final exam this day*)
- Final Examinations: Monday, December 9 – Friday, December 13
- Fall Semester Ends: Friday, December 13
- Final Grades Due: Friday, December 20 by 5:00 p.m.

January Term 2025 (January 6 – January 31)

- Classes Begin: Monday, January 6
- Martin Luther King, Jr. Birthday Holiday: Monday, January 20 (*No classes, PLU offices closed*)
- Classes End: Friday, January 31
- Final Grades Due: Tuesday, February 4 by 5:00 p.m.

Spring Semester 2025 (February 5 – May 23)

- Classes Begin: Monday, February 5
- Presidents' Day: Monday, February 17 (*No classes, PLU offices closed*)
- Spring Break: Monday, March 24 – Friday, March 28 (*No classes, PLU offices open*)
- Easter Break: Friday, April 18 (*No classes, PLU offices closed*)
Classes resume Monday, April 21 at 8:00 a.m.
- Classes End: Saturday, May 17 (*Saturday classes take final exam this day.*)
- Final Examinations: Monday, May 19 – Friday, May 23
- Spring Semester Ends: Friday, May 23
- Commencement: Saturday, May 24
- Final Grades Due: Friday, May 30 by 5:00 p.m.

Graduate Programs

Students should consult with their program for specific calendar information on meeting dates.

Summer Session 2024 (May 28 - August 23)

- Session Begins: Tuesday, May 28
- Juneteenth: Wednesday, July 19 *(No classes, PLU offices closed)*
- Independence Day: Thursday, July 4 *(No classes, PLU offices closed)*
- Sessions Ends: Friday, August 23 *(Diploma date for graduate students)*
- Final Grades Due: Friday, August 30 at 5:00 p.m.

Fall Semester 2024 (September 3 - December 13)

- Classes Begin: Tuesday, September 3
- Mid-Semester Break: Friday, October 18 *(No classes, PLU offices open)*
- Veterans Day Observed: Monday, November 11th *(Observance at chapel)*
- Thanksgiving Break: Wednesday, November 27 at 1:35 p.m. – Sunday, December 1 *(PLU offices are closed Thursday and Friday, November 28-29)*
- Fall Semester Ends: Friday, December 13
- Final Grades Due: Friday, December 20 at 5:00 p.m.

January Term 2025 (January 6 - January 31)

- Classes Begin: Monday, January 6
- Martin Luther King, Jr. Birthday Holiday: Monday, January 20 *(No classes, PLU offices closed)*
- Classes End: Friday, January 31
- Final Grades Due: Tuesday, February 4 by 5:00 p.m.

- Final Grades Due: Friday, May 29 at 5:00 p.m.

University Information

Mission

PLU seeks to educate students for lives of thoughtful inquiry, service, leadership and care—for other people, for their communities, and for the earth.

Diversity Statement

Diversity is “the condition of difference necessary to all life and creativity.” Martusewicz, Edmundson, and Lupinacci, 2011

At PLU, diversity is intrinsic to the vitality of learning, resilience, and growth.

Thus, we will:

- Be responsive to how intersections and context impact how power is experienced
- Act upon the fact that diversity and inclusion efforts must address and account for all differences born out of power and oppression
- Collectively reimagine models and practices to create inclusive environments where all members of the PLU community can learn, live, work, and — most importantly — thrive.

For more information on PLU’s Diversity & Inclusion work, visit: www.plu.edu/diversity-inclusion/.

PLU 2020 Long-Range Plan

issuu.com/pacific.lutheran.university/docs/plu-2020?mode=window&viewMode=doublePage

Faculty Philosophy

The Faculty of Pacific Lutheran University establishes the educational philosophy that shapes and supports the curriculum and programs of study. This philosophy is reflected in statements of educational goals, objectives, and principles. Of particular significance to all students are statements about learning objectives, general education, and writing throughout the curriculum.

History

Pacific Lutheran University was founded in Tacoma by Norwegian pioneers in 1890, who were led by the Reverend Bjug Harstad, PLU’s first president. In naming the University, these pioneers recognized the important role that a Lutheran educational institution on the West Coast of America could play in the emerging future of the region. They especially wanted the institution to educate immigrants, but they also wanted it to produce graduates who would serve and lead in their communities. Education—and educating for service—is a venerated part of the Scandinavian traditions from which these pioneers came.

The institution granted its first bachelor’s degrees in 1898, and then served as an academy until 1918. After two years of reorganization, it became Pacific Lutheran College in 1920, offering a two-year junior college program. PLC merged with Everett’s Columbia College in 1920 and Spokane College in 1929. In the 1930s, PLC resumed the four-year program, granting baccalaureate degrees in education in 1939 and in the liberal arts in 1942. Graduate degree programs were added in the 1950s, beginning with Nursing. The institution resumed the name Pacific Lutheran University in 1960.

PLU is affiliated with the Evangelical Lutheran Church in America (ELCA) and is sponsored by the more than five hundred congregations of the Pacific Northwest Region 1 of the ELCA. The University welcomes students from all races, religions, ethnic groups, nationalities, sexual orientation, and heritages in order to create a rich and rewarding interpersonal campus environment. PLU includes the [College of Health Professions](#), the [College of Liberal Studies](#), the [College of Natural Sciences](#), and the [College of Professional Studies](#). Undergraduate students may choose from a variety of majors and minors, and graduate degrees are offered in business administration, creative writing, education, finance, marketing research, marriage and family therapy, and nursing.

Accreditation and Institutional Research

Pacific Lutheran University is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by NWCCU indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the NWCCU is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding PLU's accreditation status by NWCCU should be directed to the NWCCU accreditation liaison officer at PLU. Individuals may contact:

Northwest Commission on Colleges and Universities
8060 165th Ave NE, Suite 100
Redmond, WA 98052
(425) 558-4224
www.nwccu.org

In addition, the following programs hold specialized accreditations and approvals:

Business: The Association to Advance Collegiate Schools of Business (AACSB International)

Computer Science (B.S.): Accredited by Computing Accreditation Commission of [ABET](#)

Marriage and Family Therapy: Commission on Accreditation for Marriage and Family Therapy Education of the American Association for Marriage and Family Therapy

Music: National Association of Schools of Music

Nursing: Commission on Collegiate Nursing Education and Washington State Nursing Care Quality Assurance Commission

Social Work: Council on Social Work Education

Any current or prospective student may, upon request directed to the Office of the President, review a copy of the documents pertaining to the University's various accreditations and approvals.

Certification

Chemistry: (including certified Biochemistry and Chemical Physics Options) – American Chemical Society

Approval

Education: State of Washington Professional Educator Standards Board

ILOs, Values, and Principles of General Education

Integrative Learning Objectives

The Integrative Learning Objectives (ILOs) provide a common understanding of the PLU approach to undergraduate education. These objectives offer a unifying framework for understanding how our community defines the general skills or abilities that should be exhibited by students who earn a PLU bachelor's degree. Therefore, they are integrative in nature. The ILOs are intended to provide a conceptual reference for every department and program to build on and reinforce in their own particular curricula the goals of the General University Requirements. They also assist the University in such assessment-related activities as student and alumni surveys. Not all ILOs are dealt with equally by every program, much less by every course. The ILOs do not represent, by themselves, all of our understanding of education. Rather, they are a part of a more complex statement of educational philosophy.

The ILOs are meant to serve as a useful framework that unifies education throughout the University, while disciplinary study provides students with the knowledge and understanding of a field that will allow them to function effectively in their chosen area.

• Knowledge Base

These four statements describe the knowledge base expected of all PLU graduates:

- A broad knowledge of the basic liberal arts and sciences.
- An understanding of the interconnections among these basic liberal arts and sciences that provide the broad framework for living with the complexities of life.
- An in-depth knowledge of a specified area of knowledge designated as a major within the University.
- An understanding of the interconnections among the basic liberal arts and sciences and the in-depth knowledge of her/his specified major area.

In addition to the knowledge base described above, and an awareness of how different disciplinary methodologies are used, every student at Pacific Lutheran University is expected to develop the following abilities:

• Critical Reflection

- Select sources of information using appropriate research methods, including those employing technology, and make use of that information carefully and critically consider issues from multiple perspectives.
- Evaluate assumptions and consequences of different perspectives in assessing possible solutions to problems.
- Understand and explain divergent viewpoints on complex issues, critically assess the support available for each, and defend one's own judgments.

• Expression

- Communicate clearly and effectively in both oral and written forms.
- Adapt messages to various audiences using appropriate media, convention or styles.
- Create symbols of meaning in a variety of expressive media, both verbal and nonverbal.

• Interaction With Others

- Work creatively to identify and clarify the issues of concern.
- Acknowledge and respond to conflicting ideas and principles, and identify common interests where possible.
- Develop and promote effective strategies and interpersonal relationships for implementing cooperative actions.

• Valuing

- Articulate and assess one's own values, with an awareness of the communities and traditions that have helped to shape them.
- Recognize how others have arrived at values different from one's own, and consider their views charitably and with an appreciation for the context in which they emerged.
- Develop a habit of caring for oneself, for others, and for the environment.
- Approach moral, spiritual, and intellectual development as a life-long process of making informed choices in one's commitments.
- Approach one's commitments with a high level of personal responsibility and professional accountability.

• Multiple Frameworks

- Recognize and understand how cultures profoundly shape different assumptions and behaviors.

- Identify issues and problems facing people in every culture (including one's own), seeking constructive strategies for them.
- Cultivate respect for diverse cultures, practices, and traditions.

Adopted by Faculty Assembly on November 11, 1999

Principles of General Education

The University's mission is to "educate students for lives of thoughtful inquiry, leadership, service, and care—for other people, for their communities, and for the earth." Emerging from the University's Lutheran heritage, our mission emphasizes both freedom of inquiry and a life engaged in the world. Our location in the Pacific Northwest, and our commitment to educate students for the complexities of life in the 21st century, also shape the University's educational identity.

The University aims to produce global citizens, future leaders, and whole, richly-informed persons. At the heart of the University is the general education curriculum. Through this program of study, students begin the process of shaping not only a career, but more importantly a life of meaning and purpose. This general education, in which students grapple with life's most fundamental questions, is deepened and complemented by the specialized work students undertake in their majors. An education is a process, and the following three components that inform the general university requirements are not discrete, but interconnected and mutually supportive.

• Values

The University sustains the Lutheran commitment to the life of the mind, to engagement and service in the world, and to nurturing the development of whole persons—in body, mind, and spirit. As described in the University's long-range plan PLU 2010, these values are fundamental, and they are inseparable from each other. As important, PLU offers an education not only in values, but in valuing. Pacific Lutheran University helps students thoughtfully shape their values and choices, realizing that imagination and decision give to a human life its unique trajectory and purpose, and always understanding that life gains meaning when dedicated to a good larger than oneself. Located in the Pacific Northwest and on the Pacific Rim, the University is well-situated to address global issues, social diversity and justice, and care for the earth.

• Knowledge

An education at Pacific Lutheran University makes students the center of their own education. The best education understands knowledge as saturated with value and meaning, as much produced as acquired. It is a communal undertaking, involving both knower and context. We understand academic disciplines, as well as multi-disciplinary fields of inquiry, as ways of knowing. They do more than organize knowledge. They define the questions, methods, and modes of discourse by which knowledge is produced. Students are required to study across a range of these disciplines to gain an understanding of the ways in which educated people understand themselves and the world.

• Skills and Abilities

As described by the University's Integrative Learning Objectives, skills and abilities that characterize an education at Pacific Lutheran University are essential for the cultivation of the potentials of mind, heart, and hand. They are inseparable from what it means to know and to value. They include the ability to express oneself effectively and creatively, to think critically, to discern and formulate values, to interact with others, and to understand the world from various perspectives.

A general education at Pacific Lutheran University affirms the relationships among rigorous academic inquiry, human flourishing in a diverse world, and a healthy environment. Such an education requires first and foremost a faculty of exceptional scholar-teachers, committed to educating the whole student, and understanding that learning is active, engaged, and in the best sense transformative.

Adopted by the Faculty Assembly, December 10, 2004

Writing Throughout the Curriculum

Pacific Lutheran University is a community of scholars, a community of readers and writers. Reading informs the intellect and liberates the imagination. Writing pervades our academic lives as teachers and students, both as a way of communicating what we learn and as a means of shaping thoughts and ideas.

All faculty members share the responsibility for improving the literacy of their students. Faculty in every department and school make writing an essential part of their courses and show students how to ask questions appropriate to the kinds of reading done in their fields. Students write both formal papers and reports and informal notes and essays in order to master the content and methods of the various disciplines. They are encouraged to prepare important papers in multiple drafts.

Academic Program

Pacific Lutheran University uses a 4-1-4 calendar, which consists of two 15-week semesters bridged by a four-week January Term. The January Term's intensive, four-week format is designed to offer students a unique pedagogical opportunity. It supports study away, in-depth focus on a single theme or topic, and the use of student-centered and active-learning pedagogies. The January Term's intensive format also supports other pedagogical activities that contribute to building an intentional culture of learning inside and outside the classroom. It offers an opportunity for an intensive First-Year Experience Program (FYEP) that combines rigorous academic study with co-curricular activities that serve the goals of the First-Year program—thinking, literacy and community. Further, the January Term offers the opportunity to orient students to PLU's mission, support them in understanding how they position themselves within the PLU community and the world, and support them as they embrace their role as active citizens.

Course credit is computed by semester hours. The majority of courses are offered for four semester hours. Each undergraduate degree candidate must complete a minimum of 128 semester hours with an overall 2.00 grade point average. Departments or schools may set higher grade point requirements.

Degree requirements are specifically stated in this catalog. Students are responsible for becoming familiar with these requirements and meeting them.

General Education Program Information

PLU's General Education Program prepares graduates to ask significant questions, engage relevant knowledge, and wrestle with complex issues. The program is rooted in the classical liberal arts and sciences as understood within the Lutheran educational tradition, and is grounded in an understanding of scientific perspectives, mathematics, languages, and the long-standing traditions of critical discourse about nature, humanity and the world. The array of academic disciplines has developed as a set of lenses through which we view the world. Through exposure to current procedures, methods, and accumulated knowledge of those disciplines, PLU welcomes students into on-going conversations about nature and the human condition. While immersed in these rigorous conversations, students are challenged to think critically, discern and formulate values, express themselves effectively and creatively, interact with others respectfully, and understand the world from various perspectives. By this means, PLU educates students for courageous lives: lives of thoughtful inquiry, service, leadership, and care—for other people, their communities, and the earth.

The following are the specific elements of the PLU General Education Program.

1. The PLU Core (15-19)

◦ First-Year Experience Program (9)

- **FYEP 101 (FW) (4):** Students will learn strategies for writing, thinking, speaking, and reading. They encounter writing as a way of thinking, of learning, and of discovering and ordering ideas. Working with interdisciplinary themes, students practice the various academic conventions of writing.
- **FYEP 102 (FD) (4):** Students will engage with themes and questions related to Diversity, Justice, and Sustainability, and their intersections, via the methods and topics of a particular discipline or field of study. FYEP 102 is the first course in the PLU Diversity Requirement.
- **PLUS 100 (1):** Students will learn to identify and overcome unforeseen barriers in adjusting to college academic and social life.

- **The Academic Study of Religion (RL) (4):** Students will engage in critical and empathetic analysis of religious traditions.
- **Fitness and Wellness (FT) (2):** Students will develop skills for lifelong physical and mental wellness.
- **Global Engagement (GE) (4):** Students will learn about the factors that shape human experience in transnational, cross-cultural, or non-US contexts. Study away and world language courses with these emphases will also meet this requirement. Global Engagement is the second course in the PLU Diversity Requirement.

2. The Distributive Core: Ways of Being and Knowing (24):

- **Creative Expression (CX) (4):** Students will learn artistic processes and evaluate print, visual, and performing arts.
- **Engaging the Natural World (NW) (4):** Students will learn methods to develop and test theories and understandings of the physical and natural phenomena that shape our world. A lab, field experience, or applied component is required.
- **Interpreting Text (IT) (4):** Students will learn to analyze texture, examining their constructions and the cultural, social, philosophical, and/or historical contexts from which they stem.
- **Examining Self and Society (ES) (4):** Students will explore methods and models for understanding human behavior within a variety of cultural, social, or structural contexts, both contemporary and historical.
- **Exploring Values and Worldviews (VW) (4):** Students will learn how beliefs and values inform action and shape how individuals and groups interpret reality and human experience.
- **Quantitative Reasoning (QR) (4):** Students will develop skills to interpret quantitative information and use it to create and critique logic and data-driven arguments.

3. Integrative Learning (1-4)

- **Culminating Experience (SR) (1-4):** Students will participate in a culminating experience that provides an opportunity to apply what they have learned throughout their time at PLU to a project, activity, or experience defined by their major department. Students will successfully complete one culminating experience course to satisfy their general education graduation requirements.

Total Program Specific Semester Hours: 40-47

General education matters for who you are and who you will become. We invite you to see the way in which this program intersects with your major and electives and prepares you for meaningful careers and courageous lives.

Supplemental GenEd Program Information

All students must satisfactorily complete the General Education Program. No course used to satisfy one General Education Program element may be used to satisfy another except for the Global Engagement element.

Note: Listed below are further specifications related to particular elements of the General Education Program (GenEd).

The First-Year Experience

- FYEP 101, FYEP 102, PLUS 100 and a PLU January Term course must be completed by all students entering PLU as first-year students with fewer than 30 semester hours.
- Both the FYEP 101 and 102 must be taken in the student's first year at PLU.
- The FYEP 101 is usually taken in the student's first semester at PLU.
- The FYEP 102 may not concurrently count for any other general education requirement, but it may concurrently count for a requirement in a major or minor.
- All first-year students must take a four-semester hour January term course.
- Transfer students are typically not eligible to participate in the First-Year Experience Program regardless of their class standing at matriculation.
- Students who do not successfully complete FYEP 101 must take an approved writing course.
- Students who do not successfully complete FYEP 102 must take an approved diversity course in order to meet the two-course PLU Diversity Education requirement.

The Academic Study of Religion

- All students take four semester hours focused on the Academic Study of Religion (RL).
- The course used to satisfy the RL requirement may not concurrently count for any other general education requirement.
- Transfer students entering as juniors or seniors must take four semester hours from the Academic Study of Religion (RL); this requirement must be completed at PLU and may not be met by courses taken at another university.

Fitness and Wellness

- A. Fitness and Wellness (FT) – two different fitness and wellness activity courses, of which one must be FTWL 100. FTWL 250 may not be used to meet the general education fitness and wellness requirement.

Global Engagement

- Global Engagement is the second course in the PLU Diversity Requirement.
- Students must complete four semester hours from Global Engagement (GE).
- Some Global Engagement courses may concurrently count toward Ways of Being and Knowing.
- Only approved study away courses will meet the Global Engagement requirement. Approval is indicated by the GE attribute on the course.
- Transfer students entering as juniors or seniors must take four semester hours from Global Engagement (GE); this requirement must be completed at PLU and may not be met by courses taken at another university.

Ways of Being and Knowing: The Distributional Core

- The six Ways of Being and Knowing requirements must be taken from six different program prefixes.
- All students will take one course in the Academic Study for Religion (RL). An additional Religion course may be used to satisfy one of the Ways of Being and Knowing.
- Engaging the Natural World (NW) courses require a lab, field experience, or applied learning component.
- If the student scores a 70 or higher on the Mathematics Placement Evaluation, that student will have their Quantitative Reasoning (QR) requirement met.

The Senior Culminating Experience

- Students are required to complete at least one senior culminating experience course (SR).
- Senior culminating experience courses may be between one and four semester hours.
- With approval of the student's major department, an interdisciplinary culminating experience course such as the Global Studies Research Seminar may fulfill this element.

International Honors Program

28 semester hours

The International Honors Program (IHON) provides a select group of entering first-year students a challenging and creative alternative to the General Education Program, which reflects PLU's unique mission and emphasis upon the liberal arts. The program fulfills 24 semester hours of General Education due to the interdisciplinary nature of the program. Accordingly, students who have satisfactorily completed the Honors Program receive credit for the following: Creative Expression (4); Examining Self and Society (4); Exploring Values and Worldviews (4); Interpreting Text (4); Global Engagement (4); The Academic Study of Religion (4).

International Honors students must complete the remaining semester hours of the General Education Program prior to graduation from the University: First-Year Experience Program: FYEP 101 (4); FYEP 102 (4); Fitness and Wellness (2); Quantitative Reasoning (4); and Engaging the Natural World (4). Students must also complete the senior Culminating Experience requirement (1-4). For a full description of IHON and for details about applying to the program, go to the [International Honors Program](#) section of this catalog.

PLU Success Program

253.535.7549	advising@plu.edu
---------------------	-------------------------

The PLU Program is built upon a foundation within a set of courses that focus specifically on transitioning into PLU. All the courses focus on building and sustaining success at PLU. For further questions, contact the Office of Academic Advising.

PLU Success (PLUS) - Undergraduate

PLUS 100 : Transitions to PLU

Specifically designed for first-year students. Affirming students' past experiences, this course assists an individual student's successful navigation of the complex transition to Pacific Lutheran University. This course is designed to identify and overcome unforeseen barriers in adjusting to college academic and social life. Course topics include increasing hope, understanding vocation, appreciating liberal arts, developing metacognition, maximizing campus resources, creating an academic plan, and learning professional communication skills. (1)

PLUS 110 : College Learning Strategies

Effective strategies for college learning. Emphasizes a metacognitive and self-regulated approach to deep learning through reading, note taking, test preparation and test taking strategies. Coursework supplemented by two individual academic counseling appointments. (1)

PLUS 115 : Career and Educational Planning: Finding Your Way

Personal decision-making process applied to career and educational choices, self-assessment, exploration of the world of work, educational planning, reality testing, and building career-related experience. Includes zero-hour required discussion section for required supplemental workshops. (1)

PLUS 287 : Special Topics in PLU Success

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PLUS 288 : Special Topics in PLU Success

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PLUS 320 : Effective Tutoring Methods

Typically offered during Summer Session II, this course is designed to train peer tutors in the application of learning theory to one-on-one and group tutoring situations. The online course will be followed by an on-site practical workshop at the beginning of the semester. Enrollment with instructor's permission. (0-1)

PLUS 387 : Special Topics in PLU Success

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

Courses that Fulfill General Education Program Elements (GenEd)

Abbreviations denote those courses which fulfill the General Education Program Elements (GenEd).

1. **The PLU Core**
 - FYEP 101 (FW)
 - FYEP 102 (FD)
 - The Academic Study of Religion (RL)
 - Fitness and Wellness (FT)
 - Global Engagement (GE)
2. **The Distributive Core: Ways of Being and Knowing**
 - Creative Expression (CX)
 - Engaging the Natural World (NW)
 - Interpreting Text (IT)
 - Examining Self and Society (ES)
 - Exploring Values and Worldviews (VW)
 - Quantitative Reasoning (QR)
3. **Integrative Learning**
 - Culminating Experience (SR)
4. **International Honors Program**
 - International Honors 100-Level (H1)
 - International Honors 200-Level (H2)
 - International Honors 300-Level (H3)

Academic Study of Religion (RL)

RELI 131	The Religions of South Asia - RL, VW, GE
RELI 211	Religion and Literature of the Hebrew Bible - RL, IT

Undergraduate Admission

253.535.7151	admission@plu.edu	www.plu.edu/admission/
---------------------	---	---

Pacific Lutheran University welcomes applications from students who exhibit capacities for success at the baccalaureate level. Applicants must present evidence of scholastic ability and demonstrate qualities of good character in order to be accepted for admission. The Office of Admission reserves the right to admit, deny, or withdraw admission for any applicant/student based on these criteria. Applications for admission are evaluated without regard to race, color, creed, religion, gender, national origin, age, mental or physical disability, marital status, sexual orientation, or any other status protected by law.

First-Year Students

Entrance Requirements

In evaluating applications, the Office of Admission interprets grade point average and class rank in relation to the quality of the curriculum that the applicant has pursued in high school. A standard high school program in preparation for college should include the following:

- **English:** four years
- **Mathematics:** three years: (algebra, two years; and geometry, one year)
- **World Language:** two years
- **Social Studies:** two years
- **Laboratory Sciences:** two years
- **Fine, Visual, or Performing Arts:** one year
- **Electives:** three years (selected from the areas listed above, as well as courses in computer science, speech, and debate.)

Application Procedures

PLU has four admission decision priority dates—October 15, November 15, December 15, and January 15. Students who complete their application materials prior to one of these dates can expect an admission decision and notification of academic scholarship eligibility prior to the next decision date. Applications received after January 15 will be reviewed on a rolling basis.

Credentials required are:

- **Formal Application:** Submit the Common Application online at www.commonapp.org. There is no application fee – it is free to apply to PLU.
- **Transcripts:** Official transcripts must be submitted for all high school and college coursework. Transcripts must be sent directly from the school to PLU. All accepted students must submit a final high school transcript that indicates satisfactory completion of high school and attainment of a diploma. The University accepts the General Equivalency Diploma (GED) for those students who may not have completed a traditional high school program. Transcripts become the property of PLU and may not be returned or forwarded.
- **Recommendation:** One academic recommendation must be completed.
- **Personal Essay:** Applicants will also include one essay with their application. Choice of topics is included in the application.

Pacific Lutheran University (PLU) is test optional. Students may decide for themselves whether they wish to have their ACT or SAT test scores considered as part of their application for admission. However, some homeschooled students and students from schools with written evaluations rather than grades are required to submit their official ACT or SAT test scores.

PLU Scholarship Opportunities: Scholarship information, including academic merit based and artistic achievement scholarships, may be found at www.plu.edu/admission/scholarships. Students are also encouraged to indicate their intent to apply for financial aid via the FAFSA. Qualified first-year students are encouraged to apply for PLU's top academic and leadership Presidential Scholarships.

Transfer Students

Entrance Requirements

Transfer students who began their higher education at other regionally-accredited colleges or universities are encouraged to apply for admission with advanced standing. Candidates must have good academic and personal standing at the institution last attended full-time. The recommended minimum grade point average to be considered for admission as a transfer student is a 2.50 cumulative grade point average in college-level work from regionally-accredited institutions. In reviewing an applicant's file, the Office of Admission examines grade point average, academic progress, essay, and recommendations. For applicants with less than sophomore standing (30 semester hours or 45 quarter hours), secondary school records are required.

PLU does not have a world language entrance requirement. However, we strongly recommend that students applying to PLU should have taken at least two years of a world language in high school or one year in college. Students with prior background in languages are encouraged to continue their language studies at PLU. Before enrolling in a language course, students should consult with Language Placement Guide found on the [Language Resource Center](#) webpage.

Application Procedures

Students are admitted for either a fall or spring semester start. Acceptance to the fall semester carries permission to attend the previous summer sessions. Acceptance to the spring semester carries permission to attend the previous J-Term session.

PLU has four transfer admission decision priority dates for fall semester—January 1, February 1, March 1, and April 1. Students who complete their application materials prior to one of these dates can expect an admission decision notification of academic scholarship eligibility and an official report of transferable credits within four weeks. Applications received after April 1 will be reviewed on a rolling basis until the final July 1 priority date. The admission decision priority dates for a spring semester start are October 1 and December 1.

Credentials required are:

- **Formal Application:** The PLU Transfer Application for Admission can be found at www.plu.edu/transfer/apply.
- **Transcripts:** Official transcripts must be submitted for all college coursework. Transfer students entering with less than sophomore standing (30 semester hours or 45 quarter hours) must submit an official high school transcript or equivalent. Transcripts must be official copies delivered electronically by the college/university or delivered in person to the Office of Admission in an official sealed envelope. The University accepts the General Equivalency Diploma (GED) for those students who may not have completed a traditional high school program. Transcripts become the property of PLU and may not be returned or forwarded.
- **Recommendation:** One academic recommendation must be completed.
- **Personal Essay:** Applicants will also include one essay with their application. Choice of topics is included in the application.

International Students

Application Procedures

International students who are qualified academically, financially, and in English proficiency are encouraged to join the University community. Interested students can apply for admission for Fall Semester or Spring Semester. PLU has four admission decision priority dates for Fall Semester—October 15, November 15, December 15, and January 15. Students who complete their application materials prior to one of these dates can expect an admission decision and notification of academic scholarship eligibility prior to the next decision date. Applications received after January 15 will be reviewed on a rolling basis. Spring Semester Applications will be due December 1st.

Credentials required are:

- A completed [International Student Application](#)
- School Records:
 - Documentation of completion of secondary school. For incoming freshmen international students, official secondary school records are required.
 - An official school record (transcript) with English translation from all colleges or universities attended in the United States, home country, or other country.
 - Documentation of any English as a second language program attended.
- At least one academic reference, no more than three, from school officials or others in a position to evaluate the student's ability to succeed in a baccalaureate program. International transfer students from a U.S. college or university must have a reference from the international student advisor.
- A completed International Student Declaration of Finances
- Personal Essay on one of the topics listed on the application form.

PLU English Proficiency Policy

Undergraduate General Admission Only

English Proficiency Assessment (one of the following):

- TOEFL: 79
- IELTS: 6.5
- PTE: 56
- Completion of one College level English class w/ B or better (Semester System)
- Completion of two College level English classes w/ B or better (Quarter System)
- SAT (English): 500
- ACT (English): 21
- GCE O-Level (English): B
- Completion of PLU International Pathway Program
- Completion of pre-approved non-PLU ESL program (CEFR B2 Level)

Special Consideration:

- PLU will accept Duolingo English Test Scores from applicants who are unable to complete the TOEFL iBT Special Home Edition. Applicants will need to score a minimum of 105 to meet PLU's English proficiency requirement.
- PLU will accept TOEFL ITP Plus for China from applicants who are currently unable to take the TOEFL iBT test due to testing suspensions. PLU will require CEFR Level C1 or higher to meet English proficiency requirements for admission.

English proficiency assessment may be waived if a student meets one of the criteria below. However, PLU Admissions reserve the right to require English proficiency assessment regardless of the applicant's country of origin and/or citizenship if determined to be deemed necessary:

1. A secondary school diploma from an institution in Nordic countries (Norway, Sweden, Denmark, Finland, Iceland) and Netherlands (with a high school English score of 7 or higher).
2. A secondary school diploma from an institution in the United States, Australia, Bahamas, Canada, Ireland, Jamaica, New Zealand, Trinidad and Tobago, United Kingdom, Botswana, Gambia, Ghana, Kenya, Lesotho, Liberia, Malawi, Mauritius, Namibia, Nigeria, Seychelles, Sierra Leone, South Africa, Swaziland, Tanzania, Uganda, Zambia, Zimbabwe, Anguilla, Antigua

and Barbuda, Barbados, Belize, Bermuda, British Virgin Islands, Cayman Islands, Dominica, Fiji , Gibraltar, Grenada , Guyana, Malta , Montserrat, Papua New Guinea, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Solomon Islands, Tonga, Turks and Caicos Islands, Vanuatu where English is the general medium of instruction.

3. Official documentation from the applicant's secondary diploma granting institution (if the institution is in a country other than those listed in #1 and #2 above) verifying that all instruction is in English. A minimum of two years of enrollment at the institution is required. Acceptable documentation must be one of the following:
 - Official or attested letter from the school principal, guidance counselor, English Teacher, Registrar or Controller of Examinations office.
 - Official transcripts, attested mark sheets or diploma statements are also accepted if English is stated as the medium of instruction.

International Pathway Program (Undergraduate Studies)

International students who do not meet the English proficiency requirement for undergraduate admission at PLU are encouraged to join the University community through the International Pathway Program (IPP).

To join the International Pathway Program (IPP), students are required to submit the following:

- A completed IPP application
- School Records:
 - Documentation of completion of secondary school. For incoming freshmen international students, official secondary school records are required.
 - An official school record (transcript) with English translation from all colleges or universities attended in the United States, home country, or other country.
- Evidence of English proficiency:
 - Test of English as a Foreign Language (TOEFL) with a minimum score of 497 (paper test format), 170 (computer-based), 59 (internet-based), or either
 - International English Language Testing System (IELTS) with a minimum score of 5.5
 - Pearson Test of English (PTE) with a minimum score of 44
- A completed International Student Declaration of Finances.

Students have up to twelve months to complete the IPP. Upon completion of the IPP, students will be considered for admission to undergraduate study at PLU. For more information, please contact PLU International Admission at 1.253.535.7264 or email: intl@plu.edu.

Evaluation of Credits

The Office of the Registrar evaluates all transfer records and provides advising materials designed to assist students to complete the University requirements. These materials include a summary of core requirements completed and the total hours accepted. Individual schools and departments determine which courses satisfy major requirements.

The University awards credit to high school students for certain courses completed before high school graduation. The University may award college credit to high school students who have completed courses in approved programs, as described below.

- **Advanced Placement Program (AP):** Students who complete advanced placement or credit toward graduation through the examination program of the College Board may receive credit for such courses. Inquiries should be addressed to the Office of Admission.
- **International Baccalaureate (IB):** A maximum of 32 semester hours may be granted for completion of the IB Diploma. A maximum of four semester hours per course may be granted for courses identified on an IB Certificate if a grade of 4 or higher is awarded. Students are advised to contact the Office of Admission for specific details.
- **Running Start Program:** Accepted students who have completed courses under the Washington State Running Start Program are considered first-year students with advanced standing. Students who participate in this program will be awarded college credit in a manner consistent with PLU's policy on transfer of credit from other institutions.
- **Other Programs:** Students who have completed college courses while in high school may receive credit in a manner consistent with PLU's policy on transfer of credit from other institutions. The University reserves the right to make decisions on an individual basis.
- **Cambridge International Examinations (A-Level exams):** A maximum of 30 semester hours may be granted to completion of Cambridge International Examinations. Students must earn a passing grade (C or better) to earn credit. No credit will be awarded for AS-Level or O-Level exams. Students are advised to contact the Office of Admission for specific details.

Transfer of Credits from Other Universities

Courses must be listed in the official college catalog, be a part of the regular college curriculum of a regionally accredited college or university, and be posted on an official college or university transcript.

- Courses completed with a grade of C- or higher at other regionally-accredited colleges or universities normally will be accepted for graduation credit with passing grades and will not be calculated into the PLU grade point average. Courses from all institutions are subject to course-by-course evaluation.
- A student may transfer a maximum of 96 semester or 144 quarter hours. Of these, the maximum transferable from a two-year school is 64 semester or 96 quarter hours.
- Admitted students who complete the Direct Transfer Associate degree (DTA) from an accredited Washington state community college, the Associate of Arts Oregon Transfer degree (AAOT) from an accredited Oregon community college, or an Associate in Art for Transfer degree (AA-T) or an Associate in Science for Transfer degree (AS-T) from an accredited California community college before matriculation at PLU will be granted junior standing and will have satisfied all General Education Program elements except for three requirements: The Academic Study of Religion (four semester hours), Global Engagement (four semester hours), and the Culminating Experience (one to four semester hours).
- Students admitted to PLU as a transfer student with no more than 15 quarter hours remaining to the completion of an Associate of Arts DTA (AA-DTA) at a Washington State Community or Technical College (CTC) upon their start at PLU may qualify for reverse transfer benefit. This process will allow students to complete their remaining AA-DTA requirements with appropriate PLU coursework within one academic year from their first term at PLU. Interested students initiate this process within the first term of enrollment. Successful completion of the Reverse Transfer process will award the student the same benefits as completing the AA-DTA prior to enrollment at PLU.

Other Educational Experiences

Credits earned in non-accredited schools are not transferable. Students who have matriculated at Pacific Lutheran University may petition a department or school to waive a particular requirement on the basis of previous non-accredited course work or may petition a department or school to receive credit by examination.

- The University allows up to 20 semester hours of United States Armed Forces Institute (USAFI)/Defense Activity for Non-Traditional Education Support (DANTES) credit, up to 20 semester hours for military credit, and up to 30 semester hours of College-Level Examination Program (CLEP) credit, providing the total of the three does not exceed 30 semester hours. Official transcripts bearing American Council on Education (ACE) recommendations should be submitted for evaluation.
- For information on the College Level Examination program (CLEP), refer to the Credit by Examination section under Academic Procedures.
- The University does not grant credit for college-level General Equivalency Diploma (GED) tests.
- **Global Assessment Certificate Program (GAC):** A maximum of 30 semester hours may be granted for completion of ACT Education Solutions, Global Assessment Certificate program courses. Only certain courses are eligible for course credit

based on faculty assessment. Students must earn a GAC grade point average of 2.60 (equivalent to a B-) or better. This GPA is separate from the GPA required for admission purposes. Students are advised to contact the Office of International Admission for specific details.

Finalizing an Offer of Admission

Enrollment Deposit: A \$200.00 enrollment deposit is necessary in order to confirm an offer of admission. This deposit guarantees a place in the student body, reserves housing on campus if requested, holds financial assistance that may have been awarded, and is required before class registration. It is credited to the student's account and is applied toward expenses of the first semester. Fall applicants offered admission before May 1 must postmark the deposit by May 1. If circumstances necessitate cancellation of enrollment and the Office of Admission is notified in writing before May 1, the \$200 will be refunded. The refund date for the January Term is December 1, and for Spring Semester January 1.

Living Plans & Learning Community Application: This form must be completed by all students, whether they plan to live on or off campus.

Final Official Transcripts: Final **official** transcripts from high school and any college/university attended are required to start classes. This includes transcripts for credit by exam (AP, IB, CLEP, etc.).

High school transcripts must show your graduation date and should be sent in the month of June, but **no later than July 1st**. They can be mailed or delivered electronically by the high school or delivered in person to the Office of Admission (Hauge Admin 109) in an official sealed envelope.

College/University transcripts must show final grades for all courses enrolled and should be sent **no later than August 1st**. They can be mailed or delivered electronically by the college/university or delivered in person to the Office of Admission in an official sealed envelope.

Medical Requirement: Before actual enrollment each new student must submit a Meningococcal Release Acknowledgement (per Washington State law) and a Student Immunization History & Emergency Contact Form.

Time Limits

An undergraduate student's degree requirements are valid for seven years. The seven-year period begins when a student matriculates and has a PLU transcript record. Students who leave and return to PLU after the seven-year period must re-enter the University and meet the requirements of the most current PLU catalog in order to earn a degree. Students that leave for a semester or longer must complete the University's re-entry process to return.

Undergraduate Academic Policies and Procedures

Students are expected to be familiar with the academic policies and procedures of the University. The policies and procedures of greatest importance to students are listed in this section of the catalog. Additional information about these policies and procedures is available in the Office of the Registrar and the Office of the Provost.

Philosophy of Student Conduct

www.plu.edu/srr/

www.plu.edu/srr/code-of-conduct/

Academic Integrity

www.plu.edu/srr/student-code-of-conduct/

Academic Advising

www.plu.edu/academic-advising/

Academic Standing Policy

The following terms are used to describe academic standing at PLU; separate progression and retention policies may be in place in individual programs; please see the individual program section of the catalog for details. Academic standing is determined by the Academic Performance and Integrity Committee, which reserves the right to review any student's record to determine academic standing. Academic standing will be reviewed at the end of each semester and term.

Good Standing

All students enrolled at the University are expected to stay in good academic standing. Good standing requires a cumulative grade point average (GPA) of 2.00 or higher.

Academic Warning

- **Students completing their first semester:**
Students placed on academic probation at the completion of their first semester at PLU may have their standing changed to academic warning if they complete the requirements set forth in the academic probation notification letter by the specified deadline. Academic warning is noted permanently on the transcript.
- **Continuing students:**
All other students whose most recent semester GPA was less than 2.00 but whose cumulative GPA is 2.00 or higher will receive an academic warning notification. Students are required to follow the guidelines set forth in the letter. For these students, academic warning is not noted on the transcript.

Academic Probation

Students are placed on academic probation if their cumulative GPA falls below 2.00. Students on academic probation must satisfactorily complete each course they attempt in the subsequent semester. Satisfactory completion means no grades of W (withdrawal), I (incomplete), E or F for the term. Students who do not satisfactorily complete each course attempted in a probationary semester are dismissed from the University. Academic probation is noted permanently on the transcript. Students who successfully complete January Term or Summer Term course(s) and who achieve a cumulative GPA of at least 2.00 will be considered in good academic standing. Students who complete a January Term or Summer Term course(s) and who achieve a term GPA of 2.00 or higher but whose cumulative GPA still remains below 2.00 must raise their cumulative GPA to at least 2.00 with their coursework in the next Fall or Spring Semester.

Continued Probation

Students whose cumulative GPA remains below 2.00 after a probationary semester but whose semester GPA for their first probationary semester is above 2.00 are granted an additional semester of probation. Students on continued probation must satisfactorily complete each course they attempt. Satisfactory completion means no grades of W (withdrawal), I (incomplete), E

or F for the term. At the end of the continued probationary semester, students must have earned a cumulative GPA of at least 2.00 and must have satisfactorily completed each course or they are dismissed from the University. Continued probation is noted permanently on the transcript.

First Academic Dismissal

Students are given a first academic dismissal from the University if they fail to meet the conditions set forth in the requirements for students on academic probation or on continued probation. A notation of first academic dismissal will be made on the transcript. Students are dismissed after Fall and Spring Semester. Students dismissed after the fall semester may remain in their January Term courses, but are withdrawn from their Spring Semester courses unless the committee grants reinstatement (see below). Students dismissed after the Spring Semester are withdrawn from all Summer Term courses. If there were extraordinary circumstances that the student believes warrant consideration of an appeal, students may apply for reinstatement by petitioning the Academic Performance and Integrity Committee. If the petition is approved, students are reinstated on continued probation and must earn a semester GPA of 2.00 or better. At the end of the following semester, students must have reached the 2.00 cumulative GPA. Students who are reinstated must also satisfactorily complete each course they attempt. Satisfactory completion means no grades of W (withdrawal), I (incomplete), E or F for the term.

Second Academic Dismissal

Students who are reinstated after the first academic dismissal must earn a semester GPA of at least 2.00 in order to be granted one additional semester of continued probation to reach the required 2.00 cumulative GPA. Students who fail to attain at least a 2.00 term GPA in the semester after reinstatement, or who fail to achieve a 2.00 cumulative GPA or higher in the second semester after reinstatement, are given a second academic dismissal. These students are not allowed to petition the Academic Performance and Integrity Committee for reinstatement.

Eligibility for Student Activities

Any regularly enrolled, full-time student (at least 12 semester hours) is eligible for participation in University activities. Limitations on a student's activities based upon academic performance may be set by individual schools, departments or organizations. A student on academic probation is not eligible for certification in intercollegiate competitions and may be advised to curtail participation in other co-curricular activities.

Progress Alerts

Faculty members are asked to report to the Office of the Registrar any student who is not meeting expectations for satisfactory academic progress in a specific course within the first six weeks of a Fall or Spring Semester (or a modified timeline in shorter terms). The student and his/her academic advisor are then sent notification that a progress alert has been issued by the instructor. The student is responsible for communicating with the academic advisor and instructor to develop a plan for academic success and following up on any recommendations to improve course performance. No transcript notation is made, and academic standing is not affected.

Exception to Academic Policy

Pacific Lutheran University students are expected to follow the standard degree sequence, general education curriculum; and the individual requirements for each degree, major and minor. In unusual circumstances, normally those beyond the student's control, students are given the opportunity to request an exception to academic policies/requirements. Requests for substitutions or waivers of a course or policy requirement in a major or minor are approved by the relevant department chair. Requests for substitutions or waivers of a general education requirement or other academic policy require approval of the deciding official. A request for a waiver or substitution to a policy does not mean the request will be granted, but instead provides a procedure for the student's request to be heard and considered by the relevant officials. While a committee or individual chair/dean may be understanding about a student's situation, missing deadlines, failing to achieve grade point average requirements, or misunderstanding requirements does not release the student from personal responsibility for completing the requirements. Typically, it takes one week to a month to receive a decision depending on the nature of the request. Students are notified via their official PLU email account when a decision has been made by the chair/dean or other approving officials or committees.

Class Attendance

The University assumes that every student has freely accepted personal responsibility for regular class attendance. Although attendance itself is not a measure of successful learning, and course grades are issued on the basis of academic performance and not on the basis of attendance alone, such performance normally includes regular participation in the total class experience and is evaluated accordingly. In the event of unavoidable absence students are strongly encouraged as a matter of courtesy to inform their instructors and may be required to do so. Any arrangements for missed work are discretionary between instructor and student, except as specified below.

Undergraduate students officially representing the university off campus for a performance, competition, or academic presentation shall not be penalized solely for missing class due to such events (including travel time). With prior documentation of such involvement, these students shall be allowed to complete missed exams or, at the discretion of the course instructor, substitute an alternative assignment. However, whether a missed lab, clinical, or other in-class activity may be made up shall be up to the academic unit.

The burden is always on the student, not the faculty member, to take steps to remedy the effects of absences from class. In particular, the student is responsible for making prior arrangements with the instructor to complete missed work or to substitute comparable work instead. An academic unit may adopt shared policies to govern such assignments, including an expectation that the work be submitted or the test taken prior to the absence.

Classifications of Students

- **First-Year:** students who have met first-year entrance requirements
- **Sophomore:** students who have satisfactorily completed 30 semester hours
- **Junior:** students who have satisfactorily completed 60 semester hours
- **Senior:** students who have satisfactorily completed 90 semester hours
- **Graduate:** students who have met graduate entrance requirements and have been accepted into the Division of Graduate Studies

Non-Matriculated Students

Note: Students who are not officially admitted to the University may accrue a maximum of nine semester hours. Exceptions may be granted by individual departments in conjunction with the Office of the Registrar.

- **Non-Matriculated Undergraduates:**
Undergraduate students who are attending part-time for a maximum of nine semester hours, but are not officially admitted to a degree program.
- **Non-Matriculated Graduate Students:**
Graduate students who are attending part-time for a maximum of nine semester hours, but are not officially admitted to a degree program.

Course Load

The normal course load for undergraduate students during Fall and Spring Semesters is 13 to 17 semester hours per semester, including fitness and wellness. The minimum full-time course load is 12 semester hours. The minimum full-time load for graduate students is eight semester hours. A normal course load during the January Term is four semester hours with a maximum of five semester hours. For undergraduate students, a normal course load during a Summer Term is four semester hours with a maximum of five semester hours.

- In order for a student to take a full-time course load, the student must be formally admitted to the University. See the [Undergraduate Admission](#) section of this catalog for application procedures.
- Students who wish to register for 18 or more hours in a semester are required to obtain the approval of their academic advisor as well as meet with Student Financial Services to confirm tuition costs.
- Students engaged in considerable outside work may be restricted to a reduced academic load.

To achieve the minimum 128 semester hours required for graduation within a four-year time frame, students must complete at least 32 semester hours within any given academic year.

Credit By Examination

Students are permitted, within limits, to obtain credit by examination in lieu of regular enrollment and class attendance. No more than 30 semester hours may be counted toward graduation whether from the College Level Examination Program (CLEP) or any other examination. Exceptions to this rule for certain groups of students or programs may be made, subject to recommendation by the Educational Policies Committee and approval by the faculty. Credit by examination is open to formally admitted, regular-status students only and does not count toward the residency requirement for graduation. To receive credit by examination for a PLU course, students must complete a Credit By Examination Registration Form available on the Office of the Registrar and [online](#), obtain the signatures of the respective departmental dean or chair plus instructor and arrange for the examination. The completed form must be returned to the Office of the Registrar by the add/drop deadline for the appropriate term. There is both tuition and a separate fee charged for credit by exam.

- CLEP subject examinations may be used to satisfy general university requirements as determined by the Office of the Registrar.
- CLEP subject examinations may be used to satisfy requirements for majors, minors or programs as determined by the various schools, divisions and departments.
- CLEP general examinations are given elective credit only.
- CLEP examinations are subject to recommendations by the Educational Policies Committee and approval by the faculty

- Official CLEP transcripts must be submitted for evaluation of credit.

The University does not grant credit for college-level general equivalency diploma (GED) tests.

Credit Restrictions

Credit is not allowed for a mathematics or a world language course listed as a prerequisite if taken after a higher-level course. For example, a student who has completed Hispanic Studies 201 cannot later receive credit for Hispanic Studies 102.

Auditing Courses

To audit a course requires the permission of the instructor and enrollment is on a non-credit basis. An auditor is not held accountable for examinations or other written work and does not receive a grade. If the instructor approves, the course grade will be entered on the transcript as audit (AU). Auditing a class is the same price as regular tuition.

Repeating Courses

An undergraduate may repeat any course two times (including withdrawals); however, an academic unit may require permission to repeat a course within the major or minor. The student's cumulative grade point average is computed using the highest of the grades earned. Credit toward graduation is allowed only once. Students should be aware that repeated courses are covered by financial aid funding only once. Credits for repeating a course a second time will not be counted as part of the student's enrollment for financial aid purposes and may result in a reduction or cancellation of aid. Students should consult the Office of Student Financial Services before repeating any course.

Grading System

Students are graded according to the following designations:

Grade	Points per Hour	Credit Awarded
A (Excellent)	4	Yes
A-	3.67	Yes
B+	3.33	Yes
B (Good)	3	Yes
B-	2.67	Yes
C+	2.33	Yes
C (Satisfactory)	2	Yes
C-	1.67	Yes
D+	1.33	Yes
D (Poor)	1	Yes
D-	0.67	Yes
E (Fail)	0	No

The grades listed below are not used in calculating grade point averages. No grade points are earned under these designations.

Grade	Description	Credit Awarded
P	Pass	Yes
F	Fail	No
I	Incomplete	No
IP	In Progress	No
AU	Audit	No
W	Withdrawal	No
WM	Medical Withdrawal	No
NG	No Grade Submitted	No

Pass (P) and Fail (F) grades are awarded to students who select the pass/fail option or who are enrolled in exclusive pass/fail courses. These grades do not affect a student's grade point average.

Pass/Fail Option

The pass/fail option permits students to explore subject areas outside their known abilities by experiencing courses without competing directly with students who are specializing in those areas of study. Grades of A through C- are regarded as pass; grades of D+ through E are regarded as fail. Pass/fail grades do not affect the grade point average. The pass/fail option is limited to eight semester hours regardless of repeats, pass or fail. The pass/fail option may not be applied to a course taken for fulfillment of a major or minor program. An exception to this is allowed for one course in the major or minor field if it was taken before the major or minor was declared. Students must file their intention to exercise the pass/fail option with the Office of the Registrar by the deadline listed in the academic calendar. The pass/fail option is limited to undergraduate students only. IHON students may not pass/fail an International Honors course.

Exclusive Pass/Fail Courses

Some courses award only pass/fail grades. The goals of these courses are typically concerned with appreciation, value commitment, or creative achievement. Exclusive pass/fail courses do not meet major or University requirements without faculty approval. If a student takes an exclusive pass/fail course, the student's individual pass/fail option is not affected.

Grade Changes

Faculty may not change a grade once it has been recorded in the registrar's records unless an error was made in assigning the original grade. The error must be reported to the Office of the Registrar by the end of the following long term after which it was entered (by the spring grade submission deadline for fall and January, and by the fall grade deadline for spring and summer). Any grade change requested after the designated date must be approved by the respective department chair and dean. The Grade Change Policy does not apply to I or IP grades, which are subject to separate policies.

Incomplete Grades

Incomplete (I) grades indicate that students did not complete their work because of circumstances beyond their control. To receive credit, all work must be completed and a passing grade recorded. Incompletes from Spring Semester and the Summer Term are due six weeks into the Fall Semester. Fall Semester and J-Term incompletes are due six weeks into the Spring Semester. Faculty may assign an earlier deadline for completion of the work by the student. The earned grade is recorded immediately following the I designation (for example, IB) and remains on the student record. Incomplete grades that are not completed are changed to the default grade assigned by the instructor when the incomplete grade is awarded at the end of the term. If a default grade was not indicated, the incomplete grade will be defaulted to an E or F grade upon expiration of the time limit for submitting grades for an incomplete from that term. An incomplete does not entitle a student to attend the class again without re-enrollment and payment of tuition. An incomplete contract is available and may be required by the faculty member.

In-Progress Grade

In-Progress (IP) grade signifies progress in a course that normally runs more than one term to completion. In Progress carries no credit until replaced by a permanent grade. A permanent grade must be submitted to the Office of the Registrar within one year of the original IP grade submission. Any IP grade that is not converted to a permanent grade within one year will automatically convert to an Incomplete (I) and will then be subject to the policy governing Incomplete grades.

No Grade

A temporary grade entered by the Office of the Registrar when no grade has been submitted by the faculty member by the established deadline.

Medical Withdrawal

Medical Withdrawal is entered when courses are not completed due to medical cause. A medical withdrawal does not affect a student's grade point average, but may affect progression in a major or timely completion of the degree. For further information, go to Withdrawal from the University at the end of this section or to the Tuition, Financial Aid and Payment Undergraduate section in this catalog.

Major Declaration

Students must declare a major by the time they have earned 60 or more semester hours. Students may not register for additional coursework until they have declared their first major via the standard declaration process. PLU makes very limited exceptions to this rule. Students re-entering after academic dismissal and first-year students entering with 60 or more hours may be given individual exceptions. Students are permitted to declare multiple majors and to add/drop majors during their academic career. Students should be aware that some majors have limited enrollment and/or require application and acceptance into a program along with specific sequencing of courses. Students may be delayed in graduation if they declare such a major later in their academic career. PLU students complete the requirements for the major/minor as of the catalog when they are

declared into the major/minor. The degree audit will reflect the requirements that were in place when the major was declared. Whenever a major or academic program is revised, the new requirements appear in the next edition of the PLU Catalog.

Second Bachelor's Degree Earned

Second Bachelor's Degree Earned - Simultaneously

A student may earn two baccalaureate degrees at the same time. For a second bachelor's degree awarded simultaneously, requirements for both degrees in addition to GenEds must be completed prior to any degree being awarded. A minimum of 16 semester hours must be earned in the second degree that are separate from hours applied to the first degree. At least eight of the 16 semester hours that are earned for the second degree must be upper-division hours. Students must complete all GenEd elements required for each degree. Students must consult with advisors from both departments in regards to meeting the specific requirements for each major. Students cannot be awarded two degrees within the same discipline. (Example, B.A. and B.S. in Psychology).

Second Bachelor's Degree Earned - Returning Students

Students cannot return to have additional majors or minors posted to their records once they graduate unless they complete an entirely new degree. Students who return to PLU to earn a second bachelor's degree after earning a first bachelor's degree or those who earned their first degree at another institution must meet the following requirements:

- **Current Catalog:**
Apply for admission through the Office of Admission and acceptance under the current catalog.
- **32 Semester Hours:**
Earn a minimum of 32 new semester hours that apply to the degree.
- **GenEd Requirement:**
If the previous degree was earned at PLU, no additional general education requirements will be added.
- **96 Semester Hours Maximum:**
Students who complete a bachelor's degree, excluding the Bachelor of Applied Science, from an accredited college or university before matriculation at PLU will be admitted with senior standing of 90 semester hours. Students may transfer in a maximum of 96 semester hours or 144 quarter hours; of these the maximum transferable from a two-year school is 64 semester or 96 quarter hours. These students will have satisfied all General Education Program elements except for four hours in The Academic Study of Religion (RL); four hours in Global Engagement (GE); and the Culminating Experience (SR).
- **Applied Science Degrees:**
Students with a Bachelor of Applied Science degree seeking a second bachelor's with PLU will have a course by course evaluation completed to determine final transfer credit and course applicability.

Second bachelor's degrees will not be awarded for a discipline in which the student has already received a major or degree. (Example: B.S. in chemistry when the student already has a B.A. in chemistry).

Determining Degree Requirements

Students must meet the University's general education requirements as they are stated in the catalog that is current for the semester in which they matriculate at PLU. Students must meet the major and minor requirements as they are stated in the catalog that is current for the semester in which they are accepted into the program, i.e., the semester they are declared as majors/minors by the department chair or dean of the school, as appropriate, showing admission into the major or minor.

Time Limits

An undergraduate student's degree requirements are valid for seven years. The seven-year period begins when a student matriculates and has a PLU transcript record. Students who leave and return to PLU after the seven-year period must re-enter the University and meet the requirements of the most current PLU catalog in order to earn a degree. Students that leave for a semester or longer must complete the University's re-entry process to return.

Transfer of Credit

Transfer of Credit from Other Colleges/Universities

The Office of the Registrar evaluates all transfer records and provides advising materials designed to assist students in the completion of University requirements. Undergraduate students who attend other regionally accredited colleges or universities may have credits transferred to Pacific Lutheran University according to the following policies and procedures:

- **Official Transcript:**

An official transcript is required for any course to be transferred to PLU. It is the responsibility of the student to obtain all needed documentation from the other college or university. Transcripts become the property of the University and will not be returned to the student, photocopied for the student, or forwarded to another site. Official transcripts are documents that have appropriate certification (seal/signature) from the other college/university and have been submitted in an official manner (normally sealed by the institution and submitted directly from the institution). Official transcripts are required from all colleges/universities attended.

◦ **Grade Requirement:**

Courses completed with a grade of C- or higher at regionally-accredited colleges or universities normally will be accepted for credit as passing grades. Transfer courses are not calculated into the PLU grade point average. Courses from all other colleges/universities are subject to course-to-course evaluation by the Office of the Registrar. Not all courses offered by other colleges and universities are transferable to PLU. Guidance is available through the [Transfer Equivalency Guides](#) for community colleges online.

◦ **96 Semester Hour Maximum:**

A student may transfer a maximum of 96 semester hours. Of these, the maximum transferable from a two-year school is 64 semester hours. Credits from quarter-hour colleges or universities transfer on a two-thirds equivalency basis. (Example: a five-quarter-hour course transfers as 3.33 semester hours).

◦ **Semester Hours Minimum:**

Transfer courses must be a minimum of 2.67 semester hours to fulfill a PLU four-hour general education element requirement. Transfer courses to fulfill any other semester hour General Education Program element (for example, fitness and wellness course) must be a minimum of two-thirds of the PLU hour requirement.

◦ **Lower-Division Community College Credit Only:**

All two-year and community college courses transfer as lower-division credit regardless of upper-division equivalency.

◦ **32-Hour Residency Rule:**

At least 32 semester hours must be completed in residence at PLU.

◦ **Unaccredited Schools:**

Credits from unaccredited schools or non-traditional programs are subject to review by the appropriate academic departments and the Office of the Registrar and are not normally transferable to PLU.

Students are also subject to any school/division/department policies concerning transfer of courses. Exceptions to academic policies are based on submitted documentation and rationale and are approved by the appropriate officials as indicated on the [Exception to Academic Policy Form](#).

Evaluation of Credits

Individual schools and departments determine which courses satisfy major requirements.

◦ **Transfer of Credits Earned While in High School.**

The University awards credit to high school students for certain courses completed before high school graduation. The University may award college credit to high school students who have completed courses in approved programs, as described below:

◦ **Advanced Placement Program (AP):**

Students who complete advanced placement or credit toward graduation through the examination program of the College Board may receive credit for such courses. Inquiries should be addressed to the Office of the Registrar.

◦ **International Baccalaureate (IB):**

The IB Diploma meets 32 semester hours toward General Education; including, FYEP 101 (4), FYEP 102 (4), Creative Expression (4), Engaging the Natural World (4), Examining Self and Society (4), Exploring Values and Worldviews (4), Interpreting Text (4), and Quantitative Reasoning (4). A maximum of four semester hours per course may be granted for courses identified on an IB Certificate if a grade of 4 or higher is awarded. Students are advised to contact the Office of the Registrar for specific details.

◦ **Running Start Program:**

Accepted students who have completed courses under the Washington State Running Start Program are considered first-year students with advanced standing. Students who participate in this program will be awarded college credit in a manner consistent with PLU's policy on transfer of credit from other institutions.

◦ **Other Programs:**

Students who have completed college courses while in high school may receive credit in a manner consistent with PLU's policy on transfer of credit from other institutions. The University reserves the right to make decisions on an individual basis.

◦ **Admitted students who complete the Direct Transfer Associate degree (DTA) from an accredited Washington state community college, the Associate of Arts Oregon Transfer degree (AAOT) from an accredited Oregon community college, or the Associate of Arts-Transfer/Associate of Science-Transfer from an accredited California community college before matriculation at PLU will be granted junior standing and will have satisfied all General Education Program elements except for four semester hours in The Academic Study of Religion (RL); four semester hours in Global Engagement (GE); and the one to four semester hour Culminating Experience (SR).**

◦ **Students admitted to PLU as a transfer student with no more than 15 quarter hours remaining to the completion of an Associate of Arts DTA (AA-DTA) at a Washington State Community or Technical College (CTC) upon their start at PLU may qualify for reverse transfer benefit. This process will allow students to complete their remaining AA-DTA requirements with appropriate PLU coursework within one academic year from their first term at PLU. Interested students initiate this process within the first term of enrollment. Successful completion of the Reverse Transfer process will**

award the student the same benefits as completing the AA-DTA prior to enrollment at PLU.

- **Cambridge International Examinations (A-level exams):**

A maximum of 30 semester hours may be granted for completion of Cambridge International Examinations. Students must earn a passing grade (C or better) to earn credit. No credit will be awarded for AS-Level or O-Level exams. Students are advised to contact the Office of the Registrar for specific details.

Other Educational Experiences

Credits earned in non-accredited schools are not transferable. Students who have matriculated at Pacific Lutheran University may petition a department or school to waive a particular requirement on the basis of previous non-accredited coursework or may petition a department of school to receive credit by examination.

- **Military and CLEP Hours:**

The University allows up to 20 semester hours of United States Armed Forces Institute (USAFI)/Defense Activity for Non-Traditional Education Support (DANTES) credit, up to 20 semester hours for military credit, and up to 30 semester hours of College-level Examination Program (CLEP) credit, providing the total of the three does not exceed 30 semester hours. Official transcripts bearing American Council on Education (ACE) recommendations should be submitted for evaluation.

- **GED Restriction:**

The University does not grant credit for college-level General Equivalency Diploma (GED) tests.

- **Global Assessment Certificate Program (GAC):**

A maximum of 30 semester hours may be granted for completion of ACT Education Solutions, Global Assessment Certificate program courses. Only certain courses are eligible for course credit based on faculty assessment. Students must earn a GAC grade point average of 2.60 (equivalent to a B-) or better. This GPA is separate from the GPA required for admission purposes. Students are advised to contact the Office of the Registrar for specific details.

Graduation and Commencement

Students expecting to fulfill degree requirements within the academic year (including August) are required to file an application for graduation with the Office of the Registrar by the following dates:

Graduation Application Deadlines

Degree Completion Term	Application Deadlines
December 2023	October 2, 2023
January 2024	December 1, 2023
May 2024	March 1, 2024
August 2024	June 3, 2024

All courses must be completed, final grades recorded, and university requirements fulfilled in order for a degree to be awarded. There are four degree award dates (August, December, January, and May). Degrees are formally recognized at Spring commencement. Students must have completed their degree the previous August, December or January Term or be enrolled in their final classes in the Spring Semester to participate. (The exception to this is that students in programs with eight semesters of coursework followed by student teaching may participate so long as all requirements have been satisfied other than student teaching and concurrent seminar.) Students intending to complete their degree the August following the Spring ceremony may petition the Office of the Provost to participate in the Spring ceremony. Participation in a commencement ceremony and/or inclusion of a student's name in the commencement bulletin does not indicate that a degree will be awarded. All degree requirements must be successfully completed by the term deadline for a degree to be awarded. The actual term of degree completion recorded is the graduation date on the permanent records.

Graduation Honors

Degrees with honors of *cum laude*, *magna cum laude*, and *summa cum laude* are granted. A student must earn a cumulative grade point average of 3.50 for *cum laude*, 3.75 for *magna cum laude*, and 3.90 for *summa cum laude* (applicable to undergraduate level only). Graduation honors are determined by the cumulative grade point average of all PLU coursework (defined as courses taught by PLU faculty for PLU). Students must complete a minimum of 32 semester hours at PLU to be eligible for graduation honors. Study Away courses at a PLU-approved program count toward the 32-hour minimum, but do not count toward graduation honors unless the courses are taught by PLU faculty. Term honors will be determined on the same basis as graduation honors.

Dean's List

A Dean's List is created at the end of Fall and Spring semesters. To be eligible, a student must have attained a semester grade

point average of 3.50 with a minimum of 12-graded semester hours (applicable to undergraduate level only).

Honor Societies

Areté Society: Election to the Areté Society is a special recognition of a student's commitment to the liberal arts together with a record of high achievement in relevant coursework. The society was organized in 1969 by Phi Beta Kappa members of the faculty to encourage and recognize excellent scholarship in the liberal arts. Student members are elected by the faculty fellows of the society each spring. Both juniors and seniors are eligible; however, the qualifications for election as a junior are more stringent. Students must have:

- attained a high grade point average (for seniors, normally above 3.70; for juniors, normally above 3.90);
- completed 110 credit hours in liberal studies;
- demonstrated the equivalent of two years of college work in world language;
- completed one year of college mathematics (including statistics or computer science) or four years of college preparatory mathematics in high school; and one college mathematics course; and
- completed a minimum of three semesters in residence at the University.

The University also has chapters of a number of national honor societies in the disciplines, including the following:

Alpha Kappa Delta (Sociology & Criminal Justice)	Phi Alpha (Social Work)
Alpha Psi Omega (Theatre)	Phi Alpha Theta (History)
Beta Alpha Psi (Accounting)	Pi Kappa Delta (Forensics)
Beta Gamma Sigma (Business)	Phi Kappa Phi (University-Wide)
Chi Alpha Sigma (Athletics)	Psi Chi (Psychology)
Iota Iota Iota (Triota) (Gender, Sexuality, and Race Studies)	Sigma Tau Delta (English)
Lambda Pi Eta (Communication)	Sigma Theta Tau International (Nursing)
Mu Phi Epsilon (Music)	Theta Alpha Kappa (Religious Studies and Theology)
Omicron Delta Epsilon (Economics)	

Registration Process

Pacific Lutheran University's registration process begins with the idea that all students have opportunity to register for classes in an orderly manner. Advising and Registration are intertwined at PLU and students are encouraged to meet with their advisor early in the registration process to determine the number, level and distribution of courses that meet major/minor and general education elements towards a degree. As with most institutions, fairness is the governing principle—balancing seniority with access to courses for all students. Seniority is the ruling principle of registration (students register in descending order starting with graduate students, then undergraduate students with senior-level hours, juniors, etc.). Students' registration "windows" open at their specific time and remain open until the close of registration (normally the end of the current term).

Registration for January Term and Spring Semester is divided into multiple periods: the first week for currently enrolled seniors and juniors; the second week for currently enrolled sophomores and first-year students. Incoming students will be registered as designated by Academic Advising after the currently enrolled student registration period. Registration for Summer and Fall Semester is divided into multiple periods: the first week for currently enrolled seniors and juniors; the second week for currently enrolled sophomores and first-year students. Incoming students will be registered as designated by Academic Advising after the currently enrolled student registration period. The non-seniority exceptions to registration include:

- International Honors Program students: These students' registration windows open at the beginning of their class-level cohort.
- Students with documented disabilities requiring early registration, as determined by the director of disability support services: These students' registration windows open on the first day of registration if it is a needs-based accommodation for their disability.
- Study Away students enrolled in a semester-long Study Away program affiliated with the Wang Center: These students' registration windows open at the beginning of their class-level cohort.
- Military Veterans using federal benefits as designated by a certifying official: These students' registration windows open at the beginning of their class-level cohort.
- International students completing a Study Away from their home university at PLU and intending to transfer credits back: These students' registration window opens at the beginning of the sophomore-level cohort.

Any changes to the order of registration is decided upon and approved by the faculty. Students register by using Banner Web, an online registration system. In addition to registering, Banner Web also offers students the ability to add or drop a class, check their schedules, and access final grades. Banner Web may be accessed through the PLU home page (www.plu.edu). Students

may contact their academic advisor, the Academic Advising Office, or the Office of the Registrar with registration questions.

- Students are not officially enrolled until their registration has been cleared by the Office of Student Accounts.
- Students are responsible for selecting their courses.
- Advisors are available to assist with planning and to make suggestions.
- Students should be thoroughly acquainted with all registration materials, including the current catalog and class schedule.
- Students are responsible for knowing the requirements of all academic programs in which they may eventually declare a major.

Adding or Dropping a Course

All add or drop activity must be completed by the listed add/drop deadline for the specific term or semester. All students are encouraged to consult with their academic advisor prior to making any significant schedule changes. Please go online at www.plu.edu/registrar/ for the most current class schedule information. Students may add a course without an instructor signature that meets multiple times per week only during the first five business days for a full or half semester-length class. For courses that meet only one time per week, students may not add the course without instructor permission after the first class meeting. A student may drop a course without an instructor's signature only during the first ten business days of a full semester-length class and during the first five business days of a half-semester length class.

For all courses, registered students must attend the first class meeting or contact the instructor to receive permission to miss the first meeting or they may be dropped from the class by the instructor. Students dropped for non-attendance may not re-register for the course without faculty permission. Faculty must notify the Office of the Registrar to drop a student. In most cases, adding and dropping can be accomplished using Banner Web. See the January Term and Summer class schedules online for the add/drop/withdraw periods for those terms. Registration changes may result in additional tuition charges and fees and may also affect the student's financial aid (if applicable). A \$100 late registration fee is charged for any adding registration changes after the printed deadline dates.

Withdrawal from a Course

A student may withdraw from a class with an instructor's signature after the add/drop deadline and before the withdrawal deadline published in the important dates section on the [Office of the Registrar website](#). Tuition is not refunded and any additional tuition will be charged for adding any other classes. A grade of W is recorded on the student's academic transcript.

If a student is enrolled in a class, has never attended and did not drop the course before the published deadline, tuition will be charged to the student's account, unless the instructor's signature has been obtained. If the student obtains the instructor's signature, tuition is not charged, but a \$100 late registration fee is assessed. The [add/drop/withdraw form](#) may be found on the Office of the Registrar or [online](#), filled in, instructor signature obtained, and returned to the Office of the Registrar by the appropriate dates that impact fee assessment.

Withdrawal from the University (all classes)

Students are entitled to withdraw honorably from the University if their record is satisfactory and all financial obligations are satisfied. Students must complete and sign the [Notification of Student Withdrawal](#) form. Partial tuition refunds may be available depending on when the student withdraws. Refer to the [Tuition, Charges, and Fees section](#) of this catalog for more information. Grades of W will appear on the student's transcript for the term.

Withdrawal from a Future Term

Students are required to notify PLU if they do not plan to return for the following term. Students are entitled to withdraw honorably from the University if their record is satisfactory and all financial obligations are satisfied. Students must complete and sign the [Notification of Student Withdrawal](#) form.

Medical Withdrawal

Students may also petition to withdraw completely from the University for a term for medical reasons. The student must complete a Medical Withdrawal Petition, provide written evidence from a physician and a personal explanation to the dean of students. This must be completed in a timely manner and in no case later than the last day of a class in any given term. If granted, the grade of WM will appear on the student's transcript. Physician clearance is required prior to re-enrollment. For more information contact the dean of students at 253.535.7159 or srr@plu.edu.

Limitations: All Baccalaureate Degrees

(All credit hours referred to in listings of requirements are semester hours.)

Total Required Hours and Cumulative GPA

A minimum of 128 semester hours must be completed with a grade point average (GPA) of 2.00. A 2.50 is required in the Schools of Business and Education and Kinesiology, plus the Departments of Economics, History, Languages and Literatures (Hispanic Studies), Sociology & Criminal Justice, and Social Work.

Upper-Division Courses: 40-Hour Rule

A minimum of 40 semester hours must be completed from courses numbered 300 or above. Courses from two-year institutions are not considered upper division regardless of subject matter parallels (and regardless of major/minor exceptions). At least 20 of the 40 semester hours of upper-division work must be taken at PLU.

32-Hour Residency Rule

At least 32 semester hours must be completed in residence at PLU.

Academic Major: 8-Hour Rule

A major must be completed as detailed by each school or department. At least eight semester hours must be taken in residence. Departments, divisions, or schools may set higher residency requirements.

Minimum Grades: Courses in the Major and Minor

All courses counted toward a major or minor must be completed with grades of C- or higher and with a cumulative grade point average of 2.00 or higher in those courses. Departments, divisions, or schools may set higher grade requirements.

Music Ensembles: 8-Hour Rule

Non-music majors may not count more than eight semester hours in music ensembles toward graduation requirements.

Correspondence/Extension Courses: Limitations

A maximum of 24 semester hours in accredited correspondence or extension studies may be credited toward degree requirements, contingent on approval by the Office of the Registrar.

64-Hour and 96-Hour Rule

A student may transfer a maximum of 96 semester hours. Of these, the maximum transferable from a two-year school is 64 semester hours.

Fitness and Wellness Courses: 8-Hour Rule

Two different one-semester hour courses (FTWL 100-259), which must include FTWL 100, are required for graduation. No more than eight of the one-semester hour FT activity courses may be counted toward graduation. Students are encouraged to select a variety of activities at appropriate skill levels. All fitness and wellness activity courses are graded on the basis of A, Pass, or Fail and are taught on a coeducational basis.

Understanding Regarding All Requirements

Consult particular departmental sections of the catalog for detailed specification of courses that count for these requirements.

For those elements of the General Education Program that refer to academic disciplines or units, selected courses outside those units may count for the requirement when approved both by the units and by the committee overseeing the General Education Program.

Academic Internship/Cooperative Education

253.535.7415	www.plu.edu/career	career@plu.edu
---------------------	--	--

Academic Internship/Cooperative Education courses are unique opportunities for “hands-on” job experience with directed academic learning. Students gain an appreciation of the relationship between theory and application, and learn firsthand about new developments in a particular field. An academic internship/cooperative education experience enables students to gain skills and competencies, apply academic learning to the workplace, and receive training from professionals in the industry.

The program features cooperation between the University and employers. The office of Alumni & Student Connections assists students with the internship/cooperative education search process and ensures that experiences are approved by the appropriate academic parties. Students may participate in an academic internship experience internationally when arranged and approved through the Wang Center for Global Education.

Academic Internships/Cooperative Education (AICE) - Undergraduate Courses

AICE 276 : Part-Time Internship

A supervised educational experience in a work setting on a part-time basis, no less than two four-hour work periods per week. Intended for students who have not yet declared a major or for students seeking an exploratory experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (1 to 8)

AICE 476 : Part-Time Advanced Internship

A supervised educational experience in a work setting on a part-time basis, no less than two four-hour work periods per week. Intended for students enrolled in a major who are seeking a professionally-related experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (1 to 8)

Academic Internships/Cooperative Education (COOP) - Undergraduate Courses

COOP 276 : Full-Time Internship

A supervised educational experience in a work setting on a full-time basis. Student must work at least 360 hours in their internship. Intended for students who have not declared a major or who are seeking an exploratory experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (12)

COOP 476 : Full-Time Advanced Internship

A supervised educational experience in a work setting on a full-time basis. Student must work at least 360 hours in their internship. Intended for students enrolled in a major or who are seeking a professional experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (12)

COOP 477 : International Work Experience

To be arranged and approved through the Wang Center for Global Education and a faculty sponsor. Prerequisites: completion of a minimum of one full year (32 credits) in residence prior to the program start. Recommended: a minimum GPA of 3.00, relevant work experience or academic background, language competency and significant cross-cultural experience. (1 to 12)

Anthropology

253.535.8389	www.plu.edu/anthropology/	anthro@plu.edu
Bradford Andrews, Ph.D., Chair		

Minor

Minor in Anthropology

16 semester hours

- Required: ANTH 102.
- Choose: ANTH 101, 103, or 203; 4 semester hours from ANTH 330-345; 4 semester hours from ANTH 350-499
- At least 8 semester hours of ANTH courses must be taken at PLU and at least 4 semester hours of the 8 semester hours must be earned from 300-level courses.

Anthropology Honors

In recognition of outstanding work, the designation with anthropology honors may be granted by vote based on the student's performance in the following areas:

- Anthropology coursework requires minimum 3.50 GPA.
- Demonstration of active interest in anthropological projects and activities outside of class work.
- Completion of a senior thesis. A paper describing independent research must be conducted under the supervision of anthropology faculty. A proposal must be approved by the faculty by the third week of class of the Fall Semester for May and August graduates, and the third week of class of the Spring Semester for December and January graduates. After receiving the proposal approval, a student must closely work with, and regularly show/demonstrate progress to the faculty. At the latest, the first full draft must be turned into the faculty by the third week of the Spring Semester for May and August graduates, or the third week of the fall semester for December and January graduates. The final draft must be turned in by April 10 for May and August graduates, or November 10 for December and January graduates.
- The honors designation will appear on the transcript of a student graduating with an anthropology minor.

Anthropology (ANTH) - Undergraduate Courses

ANTH 101 : Introduction to Human Biological Diversity - NW

Introduction to biological anthropology with a special focus on human evolution, the fossil evidence for human development, the role of culture in human evolution, and a comparison with the development and social life of the nonhuman primates. (4)

ANTH 102 : Introduction to Human Cultural Diversity - ES, GE

Introduction to social-cultural anthropology, concentrating on the exploration of the infinite variety of human endeavors in all aspects of culture and all types of societies: religion, politics, law, kinship, and art. (4)

ANTH 103 : Introduction to Archaeology and World Prehistory - ES, GE

Introduction to the ideas and practice of archaeology used to examine the sweep of human prehistory from the earliest stone tools to the development of agriculture and metallurgy and to enrich our understanding of extinct societies. (4)

ANTH 203 : Great Discoveries in Archaeology - ES, GE

This course will teach you the basics of archaeology and about a few of the more exciting archaeological discoveries worldwide (Kennewick Man, King Tut, Machu Picchu, etc.). This will include seeing the instructor make flaked stone tools out of obsidian and discuss how such knowledge helps to inform us about the past. The course will also explore what has influenced the nature of "knowledge" about archaeological discoveries by looking at how they have been interpreted and understood in the sociopolitical contexts of the modern countries where they are located. Science makes lofty claims that it is an objective mode of inquiry. In

other words, science claims that the analysis and interpretation of data (in this case, bones, stones, and pottery, etc.) is carried out free of bias. This course will take care to evaluate this proposition. This course may substitute for ANTH 103 under special circumstances with consent of department chair. (4)

ANTH 287 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 288 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 289 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ANTH 335 : The Aztecs, Mayans, and Their Predecessors - ES, GE

This course is an archaeological and ethnohistoric survey of the emergence and nature of complex societies in ancient Mesoamerica. Besides the Aztecs and Mayans, other fascinating cultures of study include the Olmecs, Teotihuacanos, and the Toltecs. Emphasis is placed on how these Mesoamerican societies were structured and how they changed over time. (4)

ANTH 343 : East Asian Cultures - ES, GE

A survey of the cultures and peoples of Eastern Asia, concentrating on China but with comparative reference to Japan, Korea, and Vietnam. Cultural similarities as well as differences between these nations are stressed. Topics include religion, art, politics, history, kinship, and economics. (4)

ANTH 368 : Edible Landscapes: The Foraging Spectrum - ES, GE

The course examines foragers in Africa, North America, and Australia. Using classic ethnographic literature, it provides a cultural ecological perspective of foraging societies in a variety of environments. It also examines how foraging studies inform archaeological research and the challenges that these peoples now face in a rapidly changing world. (4)

ANTH 370 : The Archaeology of Ancient Empires - ES, GE

The origins of agriculture, writing, cities, and the state in many parts of the world, comparing and contrasting the great civilizations of antiquity, including Mesopotamia, Egypt, India, Asia, Mesoamerica, and South America. (4)

ANTH 387 : Special Topics in Anthropology

Selected topics as announced by the department. Course will address important issues in archaeology and cultural anthropology. (1 to 4)

ANTH 388 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 389 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 480 : Anthropological Inquiry

Historic and thematic study of the theoretical foundations of anthropology: research methods; how theory and methods are used to establish anthropological knowledge. Required of majors in their junior or senior year. Prerequisite: at least two 300-level anthropology courses or consent of instructor. (4)

ANTH 487 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 488 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 489 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 491 : Independent Studies: Undergraduate Readings

Reading in specific areas or issues of anthropology under supervision of a faculty member. Prerequisite: departmental consent. (1 to 4)

ANTH 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ANTH 499 : Capstone: Seminar in Anthropology - SR

Examine anthropological methods and apply anthropological theory to an investigation of a selected topic in contemporary anthropology. Required of majors in their junior or senior year. Prerequisite: at least two 300-level anthropology courses or consent of instructor. Prerequisite for non-majors: departmental approval. (4)

Biology

253.535.7561	www.plu.edu/biology/	biology@plu.edu
Matthew J. Smith, Ph.D., Chair		

To learn biology is more than to learn facts: it is to learn how to ask and answer questions, how to develop strategies that might be employed to obtain answers, and how to recognize and evaluate the answers that emerge. The department is, therefore, dedicated to encouraging students to learn science in the only way that it can be effectively made a part of their thinking: to independently question it, probe it, try it out, experiment with it and experience it.

Each major completes a two-course core sequence in introductory biology, followed by a semester of genetics. Upper-division courses in the biology program are designed so that students can continue to develop both breadth and depth of understanding of biology, expanding on the logical framework that core courses provide; breadth of knowledge and conceptual understanding are required for investigating biological questions and the application of knowledge in practical ways. The breadth of study allows students to integrate their knowledge from various sub-disciplines and understand different methodological approaches. At the same time, the curriculum provides room for students to pursue their special interests in depth. Therefore, biology graduates are prepared for a wide range of opportunities after graduation.

The upper-division courses are grouped by major conceptual ideas as such ideas are applied at the different levels of biological organization (cell, organism, population)—in sequence of scale from small to large. Important questions in biology span the range of these levels of organization. Emphasis is on understanding biological relationships within and between plants and animals.

The major requirements also stress the balance of importance of both plant and animal life, including use of selected plants and animals as model organisms. The curriculum offers opportunity for students to discover similarities and differences of structure, function, and relationships within and between plants and animals.

Faculty members are also committed to helping students investigate career opportunities and pursue careers that most clearly match their interests and abilities. Students are invited to use departmental facilities for independent study and are encouraged to participate in ongoing faculty research.

Bachelor of Arts or Bachelor of Science Degree

For either the Bachelor of Arts or Bachelor of Science degree, the student must take our introductory core sequence (BIOL 225 and 226) and a semester of genetics (BIOL 330). Completion of the two-course introductory core with grades of C- or higher is required before upper-division biology courses can be taken. Furthermore, BIOL 330 must be completed within five semesters of starting the introductory core series. To ensure breadth of study in biology, students must complete at least one upper-division course in each of the three categories below.

Each of the courses taken for the biology major including the required supporting courses must be completed with a grade of C- or higher and the cumulative GPA must be at least 2.00. Courses not designed for biology majors (BIOL 111, 116, 201, 205, 206) cannot be used to satisfy major requirements. Independent study (BIOL 491) and internship (BIOL 495) may be used for no more than a total of four of the upper-division biology hours required for the B.S. degree, and for no more than a total of two of the upper-division biology hours required for the B.A. degree.

Students who plan to apply biology credits earned at other institutions toward a PLU degree with a biology major should be aware that at least 14 hours in biology, numbered 300 or higher and including BIOL 499, must be earned in residence at PLU. Each student must consult with a biology advisor to discuss selection of electives appropriate for educational and career goals. Basic requirements under each plan for the major are listed below.

Bachelor of Arts Degree

Major in Biology

34 semester hours in biology, plus 8 semester hours in required supporting courses

- BIOL 225, 226, 330, and 499
 - **Plus:** 20 additional upper-division biology hours that satisfy the following requirements:
 - Cellular and Molecular Biology (one course): BIOL 341, 342, 442, 443, 444, 445, 448, or 449
 - Organism Structure and Function (one course): BIOL 352, 354, 355, 356, 357, 358, or 453

- Ecology and Evolution (one course): BIOL 362, 367, 368, 369, 461, or 462
- NSCI 350 may count as an upper-division biology course that does not satisfy any of the distribution requirements listed above. A student cannot use both NSCI 350 and BIOL 491 or BIOL 495 to satisfy their total number of upper-division biology courses.
- **Required supporting courses:** CHEM 115 and MATH 140
- **Recommended supporting courses:** PHYS 125 (with 135 Lab) and PHYS 126 (with 136 Lab)

Bachelor of Science Degree

Major in Biology

42 semester hours in biology, plus 27 semester hours in required supporting courses

- BIOL 225, 226, 330, and 499
 - **Plus:** 28 additional upper-division biology hours that satisfy the following requirements:
 - Cellular and Molecular Biology (one course): BIOL 341, 342, 442, 443, 444, 445, 448, or 449
 - Organism Structure and Function (one course): BIOL 352, 354, 355, 356, 357, 358, or 453
 - Ecology and Evolution (one course): BIOL 362, 367, 368, 369, 461, or 462
- NSCI 350 may count as an upper-division biology course that does not satisfy any of the distribution requirements listed above. A student cannot use both NSCI 350 and BIOL 491 or BIOL 495 to satisfy their total number of upper-division biology courses.
- For the B.S. degree only, CHEM 403 may count as an upper-division biology course with approval of the department chair. The use of CHEM 403 for the B.S. degree cannot be used to satisfy any of the distribution requirements listed above.
- **Required supporting courses:**
 - CHEM 115 and 116, 331 (with 333 Lab)
 - MATH 151 or MATH 145
 - PHYS 125 (with 135 Lab) or PHYS 153 (with 163 Lab)
 - PHYS 126 (with 136 Lab) or PHYS 154 (with 164 Lab)

Biology Secondary Education

Students planning to be certified to teach biology in high school should plan to complete a B.A. or B.S. in biology. Upper-division biology course selection should be made in consultation with a biology advisor. See the [School of Education](#) section of the catalog for biology courses required for certification.

Minor

20 semester hours including:

- BIOL 225, 226
- 12 semester hours elective coursework in biology
(minimum 4 semester hours upper division required)*

*No more than one 100-level course can be applied to the minor; this course must be taken prior to enrolling in BIOL 225. At least 8 semester hours for the minor must be earned in courses taken at PLU. For those students applying only 8 semester hours of PLU biology credit toward the minor, those hours cannot include independent study (BIOL 491) or internship (BIOL 495).

Course Offerings by Semester/Term

[Click here for the Department of Biology two-year course cycle](#)

Biology (BIOL) - Undergraduate Courses

BIOL 111 : Biology and the Modern World - NW

This course is intended to introduce students to the principles and concepts that pertain to all living organisms, with special emphasis on those topics typically encountered in everyday life, including human physiology and disease, environmental issues, and the fundamentals of genetics. Lecture and laboratory. Not intended for biology majors. (4)

BIOL 116 : Introductory Ecology - NW

A study of the interrelationships between organisms and their environment examining concepts in ecology that lead to understanding the nature and structure of ecosystems and how humans impact ecosystems. Includes laboratory. Not intended for biology majors. (4)

BIOL 201 : Introductory Microbiology - NW

The structure, metabolism, growth and genetics of microorganisms, especially bacteria and viruses, with emphasis on their roles in human disease. Laboratory focuses on cultivation, identification, and control of growth of bacteria. Prerequisite: CHEM 105. Not intended for biology majors. (4)

BIOL 205 : Human Anatomy and Physiology I - NW

The first half of a two-course sequence. Students are introduced to human form and function and, in particular, to the integration and connections between the cellular function and the synergetic functions of the body's organ systems. Topics include chemistry, cellular biology, tissues, the integument, and the anatomy and physiology of four systems: skeletal, muscular, nervous, and endocrine. Laboratory includes anatomical structure identification on preserved human cadavers, dissection of preserved organs, and experiments in physiology. Not intended for biology majors. Prerequisite: PLU Math placement in MATH 140 or higher; or completion of MATH 115 with a C or higher. (4)

BIOL 206 : Human Anatomy and Physiology II - NW

The second half of a two-course sequence. The integration and connections between the cellular function and the synergetic functions of the body's organ systems are further expanded. Topics include metabolism, temperature regulation, development, inheritance, and the anatomy and physiology of five systems: circulatory, respiratory, digestive, excretory, and reproductive. Laboratory includes cat and preserved organ dissection, anatomical structure identification on human cadavers, physiology experiments, and study of developing organisms. Not intended for biology majors. Prerequisite: BIOL 205 with a C- or better. (4)

BIOL 225 : Molecules, Cells, and Organisms - NW

An introduction to the concepts and study of the molecular, cellular, and organismal levels of biological organization. Cell structure and function, energy transformation, the central dogma of molecular biology, plant and animal anatomy and physiology, response to environmental changes, plant and animal reproduction, and development. Includes laboratory. Prerequisite: Math placement in MATH 140 or higher; or completion of MATH 115 with a C or higher. One year of high school chemistry is recommended. (4)

BIOL 226 : Genes, Evolution, Diversity, and Ecology - NW

An introduction to the concepts and study of Mendelian and population genetics, evolution, ecology, and a systematic survey of life on earth. Includes laboratory. Prerequisite: BIOL 225 with a C- or better. (4)

BIOL 287 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 288 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 289 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

BIOL 305 : Cadaver Prosection

This course is a practicum in which students dissect a human cadaver and prepare anatomical specimens for use in Pacific Lutheran University Human Anatomy and Physiology classes. Students will learn proper dissection techniques and pertinent details of the human form needed to complete quality dissection work. Prerequisites: Consent of instructor; and students must have successfully completed BIOL 205/206 or BIOL 352. Prospective students must apply for placement in the course during the

semester preceding enrollment. (1)

BIOL 330 : Genetics

Basic concepts considering the molecular basis of gene expression, recombination, genetic variability, as well as cytogenetics and Mendelian and transmission genetics. Laboratory includes molecular biology techniques and problem solving exercises. Prerequisite: BIOL 226. (4)

BIOL 341 : Developmental Biology

The embryonic and larval development of multicellular organisms (primarily animals). Examples are chosen from popular contemporary model systems, and the emphasis is on cellular, and molecular aspects of development. The laboratory includes descriptive and quantitative experiments, as well as student-planned projects. Prerequisite: BIOL 226. (4)

BIOL 342 : Microbiology

The structure, physiology, genetics, and metabolism of microorganisms with emphasis on their diversity and ecology. The laboratory emphasizes design, implementation, and evaluation of both descriptive and quantitative experiments as well as isolation of organisms from natural sources. Prerequisites: BIOL 226; CHEM 331 with CHEM 333 recommended. (4)

BIOL 352 : Comparative Anatomy

An evolutionary approach to the study of structural and functional relationships in the vertebrate body. Includes examination and dissection of major organs and organ systems using preserved animal organs and cadavers (including humans). The course emphasizes the analysis of similarities and differences across groups to assess the significance of adaptations and explore the historical and present diversity of vertebrate morphology. Prerequisite: BIOL 226. (4)

BIOL 354 : Natural History of Vertebrates

A systematic survey of vertebrate diversity including fishes, amphibians, non-avian reptiles, and mammals. Coverage emphasizes phylogenetic relationships, evolutionary trends, natural history, and anatomy. Field trips and laboratory focus on observation and identification of local species. Prerequisite: BIOL 226. (4)

BIOL 355 : Ornithology

The study of birds inclusive of their anatomy, physiology, behavior, ecology, and distribution. Special emphasis on those attributes of birds that are unique among the vertebrates. Laboratory emphasis on field identification, taxonomy, and anatomy/topology. Prerequisite: BIOL 226 or consent of instructor. (4)

BIOL 356 : Economic and Cultural Botany

Botany of plants used by humans in a global context; traditional and contemporary uses of plants. General plant morphology and anatomy, overview of taxonomy of plants useful to humans, evolution of plant secondary metabolites, medical botany (medicines, poisons, psychoactive plants), genetic engineering, bio-prospecting, and socio-economic issues surrounding botanical commodities. Prerequisite: BIOL 226. (4)

BIOL 358 : Plant Physiology

A study of how plants obtain and utilize nutrients, react to environmental factors, and adapt to stress. Focuses on mechanisms at the molecular, cellular, and organismal levels. Explores connections to agriculture and ecology. Relies significantly on primary literature. Includes laboratory. Prerequisite: BIOL 226. (4)

BIOL 359 : Biology of Reproduction

This course will explore human reproduction focusing on anatomical and physiological aspects but also examining its influence on behavior and society. Although the main attention will be focused on humans, examples will be drawn from other vertebrate species ranging from the effects of testosterone on songbird vocalizations to the estrous cycle in rats to seasonal reproduction in sheep in order to provide comparative perspectives. Prerequisite: BIOL 226. (4)

BIOL 362 : Animal Behavior

A survey of the field of animal behavior with an emphasis on integrating behavioral analyses into an explicitly evolutionary

framework. An understanding of both the proximate and ultimate mechanisms underlying behavior is emphasized. Laboratory/discussion in addition to lecture. Prerequisite: BIOL 226. (4)

BIOL 367 : Conservation Biology and Management

Based upon the principles of population ecology and ecological genetics, an integrated study of the impacts of people on nature—specifically the diversity of plants and animals. Includes practical applications, techniques, and case studies in forest, fish, wildlife, and land management. Laboratories and field trips concern resource management and use. Course may not be repeated for credit. Prerequisite: BIOL 226 or consent of instructor. (4)

BIOL 368 : Ecology

Organisms in relation to their environment, including organismal adaptations, population growth and interactions, and ecosystem structure and function. Laboratory/discussion in addition to lecture. Prerequisite: BIOL 226. (4)

BIOL 369 : Marine Biology

The ocean as environment for plant and animal life; an introduction to structure, dynamics, and history of marine ecosystems. Lab, field trips, and term project in addition to lecture. Prerequisite: BIOL 226. (4)

BIOL 387 : Special Topics in Biology

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

BIOL 388 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 389 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 442 : Cell Biology

Focuses on cellular organization and function, enzyme kinetics, membrane structure and function, energetics, signaling, and cell cycle. Laboratory employs modern techniques including animal cell culture, cell fractionation, molecular, genetic, and biochemical assays, and microscopy (light, phase contrast, fluorescence). Prerequisite: BIOL 330 and CHEM 331 with 333, or consent of instructor. (4)

BIOL 443 : Plant Development and Genetic Engineering

A study of how plant structures form and change through the life cycle and how genetic engineering is used to alter plant biology for research and commercial applications. Specific GMOs considered as case studies. Focus on molecular biology and application of concepts. Prerequisite: BIOL 330. Recommended: BIOL 358, 442, or 445. (4)

BIOL 444 : Neurobiology

Neurobiology is the study of the nervous system and its relationship to behavior and disease. This course examines the structure and function of neurons and glia, neural development, gross organization of the brain, sensory and motor systems, and higher functions such as learning, memory, and speech. Prerequisite: BIOL 330 or consent of instructor. (4)

BIOL 445 : Molecular Biology

An introduction to molecular biology, emphasizing the central role of DNA: structure of DNA and RNA, structure and expression of genes, genome organization and rearrangement, methodology, and applications of recombinant DNA technology. Laboratory features basic recombinant DNA techniques. Prerequisite: BIOL 330. (4)

BIOL 448 : Immunology

Explores the physical, cellular, and molecular components of innate and adaptive immune responses. Emphasizes an integrated approach to exploring immunological concepts within the context of human health and disease. Prerequisites: BIOL 330 and one of the following courses BIOL 341, 342, 352, 442, 445, or 453. (4)

BIOL 449 : Virology

The diversity that exists among viruses is staggering, and there is no type of life on Earth that is not subject to infection by viruses. This course will explore viral origins, replication, transmission, pathogenesis, oncogenesis, and host immunity. Emerging viruses, pandemics, and vaccines will also be discussed. Students will gain hands-on experience in a wide range of techniques and will work with both bacteriophages and animal viruses. Prerequisite: BIOL 330. (4)

BIOL 453 : Mammalian Physiology

An investigation of the principles of physiological regulation. Part I: fundamental cellular, neural, and hormonal mechanisms of homeostatic control; Part II: interactions in the cardiovascular, pulmonary, renal, and neuromuscular organ systems. Laboratory allows direct observation of physiological regulation in living animals. Prerequisites: BIOL 330, CHEM 115; BIOL 352 recommended. (4)

BIOL 461 : Evolution

An introduction to evolutionary theory and its broad explanatory power in biology. Coverage includes: a brief history of evolutionary thought, population genetics and the mechanisms of evolutionary change, phylogenetics, speciation, macroevolutionary processes, origins of life on earth, and evo-devo. Laboratory includes simulations and empirical examples of concepts covered in lecture. Prerequisite: BIOL 330. (4)

BIOL 462 : Plant Diversity and Distribution

A systematic introduction to plant diversity. Interaction between plants, theories of vegetational distribution. Emphasis on higher plant taxonomy. Includes laboratory and field trips. Prerequisite: BIOL 330. (4)

BIOL 487 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 488 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 489 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 491 : Independent Studies

Investigations or research in areas of special interest not covered by regular courses. Open to qualified junior and senior majors. Prerequisite: Written proposal for the project approved by a faculty sponsor and the department chair. (1 to 4)

BIOL 495 : Internship in Biology

An approved off-campus work activity in the field of biology with a private or public sector agency, organization, or company. Students will be expected to adhere to and document the objectives of a learning plan developed with and approved by a faculty sponsor. Credit will be determined by hours spent in the working environment and the depth of the project associated with the course of study. Prerequisites: BIOL 226 and consent of department chair. (1 to 4)

BIOL 499 : Capstone: Senior Seminar - SR

Capstone is a topical course in which students will work in small groups with a faculty mentor to explore the primary literature in a topic within that faculty member's area of expertise. Students will develop their skills interpreting, summarizing, and critically analyzing the primary literature. They will produce written and oral products as a result of the semester's work. Meets the senior

seminar requirement. Prerequisites: Consent of instructor; and students must have successfully completed, with a C- or better, at least two upper-division classes in addition to BIOL 330 prior to enrolling in Capstone. Student performance in courses in the Capstone distribution area influences student placement into Capstone sections. (2)

Business

253.535.7244	www.plu.edu/bus/	business@plu.edu
Mark Mulder, Ph.D., Dean	Juanita Reed, M.Ed., Associate Dean	

Mission

The PLU School of Business is a community of compassionate faculty, staff, and administrators who provide an excellent business education in a student-centered learning environment grounded in the liberal arts that inspires students to: LEARN for life; LIVE purposefully; LEAD responsibly; and CARE for others.

Bachelor of Business Administration Degree Overall Requirements

- A minimum of 128 semester hours
- An overall minimum grade point average of 2.50
- A minimum 2.50 grade point average separately in business courses
- C- minimum grade in all business and supplemental foundation courses
- At least 55 semester hours business, including 16 semester hours of business electives
- A minimum of 28 semester hours in business must be taken in residence at PLU
- Business degree and concentration requirements are established at time of major declaration

Students with a declared major in business who have not attended the University for a period of three years or more will be held to the business degree requirements in effect at the time of re-entry to the University. Transfer and continuing students should see the catalog under which they entered the program and consult with the undergraduate coordinator regarding degree requirements.

Upper-division business course access is limited to students who have been admitted to the School of Business.

Admission Criteria

The professional Bachelor of Business Administration degree program is composed of an upper-division business curriculum with a strong base in the liberal arts.

To be admitted to the School of Business, a student must:

- be officially admitted to the University and indicate intentions of studying business.

Academic Policies

Pass/Fail of Foundation Classes

Pass/Fail is allowed for no more than one supplemental class from MATH 128, CSCE 120, ECON 101 or STAT 231 only, and as defined in the Pass/Fail section of this catalog. Other supplemental and business courses may not be taken Pass/Fail, except for BUSA 495: Internship which is only offered Pass/Fail.

Bachelor of Business Administration Degree

Major in Business Administration

B.B.A. Core

40 semester hours

- BUSA 201: Introduction to Business in the Global Environment (*May be offered as BUSA 190*)
- BUSA 202: Financial Accounting (4)
- BUSA 203: Managerial Accounting (4)

- BUSA 302: Business Finance (4)
- BUSA 303: Business Law and Ethics (4)
- BUSA 305: Behavior in Organizations (4)
- BUSA 308: Principles of Marketing (4)
- BUSA 309: Creating Value in Operations (4)
- BUSA 310: Information Systems and Database Management (4)
- BUSA 499: Capstone: Strategic Management (4)
- **B.B.A. Elective Requirement:** Any 16 semester hours of upper-division business electives or any non-business elective courses approved by a student's faculty advisor. Minimum of 12 semester hours elective in business required.

Supplemental Course Requirements

Supplemental courses may also satisfy the General Education Program (GenEd). See the General Education Program section of this catalog.

Supplemental Courses

- ECON 101: Principles of Microeconomics (4)
- MATH 128: Linear Models and Calculus, An Introduction (4) **or** MATH 151: Introduction to Calculus (4) (*Math 151 recommended for finance concentration*)
- STAT 231: Introductory Statistics (4)
- PHIL 225: Business Ethics (4)
- Strongly recommended: CSCI 120: Computerized Information Systems

Concentrations

16 to 24 semester hours

This requirement is filled if a concentration is completed. Concentration designations are available in the following: accounting, finance, management, marketing, and individualized.

Concentration Requirements

- 3.00 GPA required in the concentration area courses
- C- is the minimum acceptable grade in any concentration course
- A minimum of 12 semester hours of the total concentration requirements must be taken in residency at PLU
- Internship highly recommended but does not apply toward concentrations' requirements

Accounting

24 semester hours

- BUSA 320: Accounting Information Systems and Data Analytics (4)
- BUSA 321: Intermediate Accounting I (4)
- BUSA 322: Intermediate Accounting II (4)
- BUSA 422: Advanced Accounting (4)
- BUSA 424: Auditing (4)
- BUSA 427: Tax Accounting (4)
- **Recommended:**
 - BUSA 323: Cost Accounting and Control Systems (4)
 - BUSA 423: Accounting for Nonprofits and Government Entities (4)

Finance

20 semester hours

- BUSA 335: Investments and Portfolio Management (4)
- BUSA 337: International Finance and Risk Management (4)
- BUSA 437: Financial Analysis and Strategy (4)
- BUSA 438: Empirical Finance (4)
- And 4 credits from the following:
 - BUSA 432: Financial Derivatives and Trends (4)
 - ECON 344: Econometrics (4)
- Recommended:
 - MATH 151/152 as a substitute for MATH 128
 - ECON 302

- Minor in economics, data science, mathematics

NOTE: ECON 102 is a prerequisite for the upper-division economics course included in the Finance Concentration.

Management

16 semester hours from the following in a purposeful selection:

- BUSA 340: Nonprofit Management (4)
- BUSA 342: Human Resource Management (4)
- BUSA 352: Global Management (4)
- BUSA 358: Entrepreneurship (4)
- BUSA 442: Leadership and Change (4)
- BUSA 444: Project Management (4)
- Approved BUSA Special Topics courses

Management students are encouraged to tailor their course of study in consultation with their faculty advisor to gain the knowledge and skills needed for the type of organization or function they envision will fit their post-graduation interests. Although there are many possible options, example courses of study include:

- Entrepreneurship or Family Business: BUSA 342, 358, 442, and one Management course of student's choice
- Global Corporate Business: BUSA 342, 352, 442, and 444
- Human Resource Management: BUSA 342, 442, 444, and one Management course of student's choice
- Nonprofit Management: BUSA 340, 342, 442, and one Management course of student's choice

Marketing

16 semester hours

- BUSA 363: Consumer Behavior (4)
- BUSA 467: Marketing Research (4)
- BUSA 468: Marketing Management (4)
- **And 4 semester hours from the following:**
 - BUSA 361: e-Marketing (4)
 - BUSA 366: Multicultural Marketing (4)
 - BUSA 460: International Marketing (4)

Individualized

16 semester hours

Hours must be upper-division electives in purposeful selection. Proposal must be made in advance and not later than second semester of the junior year. Proposal to include statement of objectives, rationale, program of study, and endorsement of a business faculty sponsor. Requires approval of the dean or his/her designate. Only 4 semester hours of independent study, if approved, may apply to the concentration. Variations on existing concentrations are not acceptable.

Minors

20 semester hours minimum

All courses in a minor must be completed with a grade of C- or higher. A cumulative grade point average of 2.50 for all courses in a minor is required; and at least 12 semester hours must be completed in residence. Internships and independent study do not apply to the business administration minor.

Business Administration Minor

A minimum of 20 semester hours, including:

- BUSA 201: Introduction to Business in the Global Environment (4)
- BUSA 202: Financial Accounting (4)
- BUSA 305: Behavior in Organizations (4)
- BUSA 308: Principles of Marketing (4)
- **And** any 4 semester hours from accounting courses or upper-division business courses in addition to those listed above. See Business Minor rules above.

Nonprofit Leadership Minor

A minimum of 20 semester hours, including:

- BUSA 308: Principles of Marketing (4)
- BUSA 340: Nonprofit Management (4)
- BUSA Course (4)
- Elective: 4 semester hours
- Internship: 4 semester hours

Students in the nonprofit leadership minor (NPLM) are required to take BUSA 340 before BUSA 308 unless they are declared business majors or general business minors.

BUSA Course: Students may select any business course (excluding BUSA 201 and 495) that aligns with their interests and goals to understand nonprofit organizations or apply discipline specific learning in a nonprofit setting. Business majors pursuing the NPLM select an upper division business elective that is not in their concentration or meeting the business elective requirement.

Elective: Students must choose an elective, outside of the School of Business, in consultation with both their major advisor and the NPLM advisor. Final approval is made by a representative of the School of Business. The elective connects nonprofit study to the student's major, minor or other area of interest by enhancing the student's ability to understand nonprofit organizations or apply discipline specific learning in a nonprofit setting. Other courses within the School of Business, even if the student is a business major, may not be used to fulfill the elective hours. Courses used for General Education Program Elements may not be used to fulfill the elective hours.

The internship may be from any department or school but must be in a nonprofit setting.

Up to two courses (8 semester hours) may be counted toward both a nonprofit leadership minor and another minor or major.

Specialized Minor in Business Administration

A minimum of 20 semester hours in business courses, including: BUSA 201

Specific business courses shall be designated by the School of Business faculty in consultation with the chair or dean of the discipline in which the student is majoring. See business minor rules above.

Specialized Business Minor in Marketing

A minimum of 20 semester hours in business including:

- BUSA 201: Introduction to Business in the Global Environment
- BUSA 308: Principles of Marketing
- BUSA 363: Consumer Behavior
- And, any 8 semester hours from the following:
 - BUSA 366: Multicultural Marketing
 - BUSA 460: International Marketing
 - BUSA 467: Marketing Research
 - BUSA 468: Marketing Management

Fast Track Admission to Graduate Programs

PLU undergraduate students from any major, wishing to attend a PLU School of Business graduate program, may do so through Fast Track Admission. Students may apply at any time during their PLU undergraduate experience. Candidates, who meet the Fast Track criteria, remain admitted to a master's program in the School of Business as they complete their PLU undergraduate degree with at least minimum qualifications. Please contact the appropriate graduate program director for details.

Certificates

Accounting Certificate Program

24 semester hours

The Accounting Certificate program is available for students who hold a baccalaureate degree, or are pursuing a baccalaureate degree (any field) and wish to complete the accounting course educational requirements to sit for the Certified Public Account (CPA) examination.

Requirements for the certificate include: 24 semester hours from BUSA 202, 203, 320, 321, 322, 323, 422, 423, 424, and 427; a cumulative 3.00 GPA in accounting courses; and a minimum of C- in any course.

Please note that there are additional courses and experience requirements to sit for the CPA exam which are not met by this certificate program; completion of these other requirements is the student's responsibility. Contact the School of Business at 253.535.7252 for further information.

Experiential Certificates

0-1 semester hours

The School of Business offers certificates in the following areas:

- Certificate in Diversity and Equity in Business
 - BUSA 300: Certificate in Diversity and Equity in Business (0-1)
- Certificate in Consulting for Business and Entrepreneurship
 - BUSA 401: Certificate in Consulting for Business and Entrepreneurship (0-1)
- Certificate in Consultative Engagements and Professional Sales
 - BUSA 402: Certificate in Consultative Engagements and Professional Sales (0-1)

The certificate program and courses are open to all students of PLU. Credits may be applied towards graduation (e.g. the 128 credit requirement for PLU). A student may enroll for more than one certificate course.

Note that for business students (major or minor), certificate credits cannot be applied towards fulfillment of the requirements of the Business program major and/or the requirements of any minors in the School of Business. Students who declared a Business major and/or minor still need to complete all the major and/or minor requirements as listed in this catalog.

Business (BUSA) - Undergraduate Courses

BUSA 201 : Introduction to Business in the Global Environment

Introduces global business as a connected form of decision-making and problem solving across disciplines such as marketing, accounting, finance, operations, and management. Introduces value-generating innovation and explores ethical, cultural, operational, and legal issues in both smaller entrepreneurial organizations and larger global entities. Provides opportunity to explore potential disciplines and careers in business. (4)

BUSA 202 : Financial Accounting

Accounting for financial performance for the use of external decision-makers considering investment in a business organization. Origins and uses of financial information; accounting concepts and principles; logic, content, and format of financial statements; accounting issues in the U.S. and other nations. Prerequisite: MATH 128 or 151 or higher or co-enrollment in MATH 128 or 151 or higher. (4)

BUSA 203 : Managerial Accounting

Introduction to the use of accounting data for decision making, managerial planning, and operational control. Topics include cost-volume-profit relationships, costing systems, budgeting, and performance evaluation. Familiarity with Microsoft Excel or other spreadsheet software is expected. Prerequisite: BUSA 202. (4)

BUSA 287 : Special Topics in Business

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 288 : Special Topics in Business

Seminar on selected topic in business. (1 to 4)

BUSA 289 : Special Topics in Business

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

BUSA 300 : Certificate in Diversity and Equity in Business

This course leads to a certificate in Diversity and Equity in Business. The course introduces students to historical and emergent perspectives on business and social justice. Students will learn to see their role as future business leaders and , in particular,

explore historical and present case examples of inequity in business. Students will also explore the issues of diversity and justice through interaction and engagement with community and business leaders and seek to address inequity and inequality in business. A certificate will be awarded upon the successful completion of the course with a Pass grade. Prerequisites: Sophomore level standing. Open to Sophomore, Junior, and Senior students. (0 to 1)

BUSA 302 : Business Finance

Introduces principles used in financing and investment decisions to maximize stakeholders' value. Covers the fundamental process of ethical planning for, acquiring, and allocating funds by a business enterprise. Explores general financial decision tools including time value of money, basic bond valuation, basic stock valuation, the cost of capital, capital budgeting, working capital management, and other key finance topics. Prerequisites: BUSA 202, ECON 101, and STAT 231. (4)

BUSA 303 : Business Law and Ethics

Explores business law as a management tool for risk decision-making and management of business organizations from formation through capital raising, asset acquisition and protection, business regulation, and bankruptcy. Explore the interrelationship of business management, business ethics, legal risk management, and the global business environment. Prerequisite: BUSA 201. (4)

BUSA 305 : Behavior in Organizations

Working with and leading others in the global environment at individual, group, and organizational levels. Learning skills to organize and manage people with emphasis on individual and team dynamics, personality and values, diversity, motivation, leadership, decision-making, conflict, organizational culture, and change. Prerequisite: BUSA 201. (4)

BUSA 308 : Principles of Marketing

Introduces the role of sustainable marketing in a global society. Topics covered include marketing planning, consumer behavior, marketing research, and an emphasis on marketing mix decisions for firms and nonprofit organizations. Prerequisite: BUSA 201 or 340. (4)

BUSA 309 : Operations and Supply Chain Management

Creating value through the production and distribution of goods, services, and other economic activities with a focus on quantitative problem solving techniques. Operations and supply chain management applications through modeling tools including forecasting, resource allocation, capacity management, quality control, and materials requirement planning. Prerequisites: BUSA 201, STAT 231 and MATH 128 or 151 or higher. (4)

BUSA 310 : Information Systems and Database Management

Introduction to information technology and systems from a management perspective. Strategic use of technology and systems, and impacts on industry competition, corporate strategy, organization structure, and the firm's value creation process. Basic concepts, strategies, and features of database design and management and how database applications support managerial decision-making and business operations. Prerequisite: BUSA 201. Recommended: CSCI 120. (4)

BUSA 320 : Accounting Information Systems and Data Analytics

Study of the flow of accounting information through an enterprise, systems documentation, internal controls, and database applications in accounting. It also includes data analytics and visualization in Excel, Access, and other data analytic tools. Prerequisite: BUSA 201 and 202. (4)

BUSA 321 : Intermediate Accounting I

Concentrated study of the conceptual framework of accounting, valuation theories, asset and income measurement, and financial statement disclosures in the U.S. and abroad. Familiarity with Microsoft Excel is expected. Prerequisite: BUSA 201 and 202. (4)

BUSA 322 : Intermediate Accounting II

Advanced study of, and research on measurement and valuation of assets, liabilities and income, and financial statement disclosure issues. Includes evaluation of U.S. framework relative to those of other international frameworks. Prerequisite: BUSA 321. (4)

BUSA 323 : Cost Accounting and Control Systems

A critical examination of systems for cost accounting and managerial control. Emphasis on development of skills to critique cost and control systems and to understand the dynamic relationship between systems, operations, strategy, and performance evaluation. Prerequisite: BUSA 203. (4)

BUSA 335 : Investments and Portfolio Management

Theory and practice of securities (e.g., stocks, bonds, derivatives, hybrids) valuation as well as portfolio construction and evaluation. Emphasis on applying classroom concepts in real-time to student-managed portfolios. Exposure to complicating factors including taxes, the risk-return relationship, pricing anomalies, and behavioral issues in investing. Prerequisite: BUSA 302. (4)

BUSA 337 : International Finance and Risk Management

Management of cross-border financial issues, including managing exchange rates, accessing global capital markets, conducting foreign investment, and financing foreign trade. Techniques (e.g., options, swaps, futures, insurance) and firm decisions (degrees of economic, operating, and financial leverage) are considered both generally (to firm risk) and specifically to international issues. Prerequisite: BUSA 302. (4)

BUSA 340 : Nonprofit Management

Overview of the nonprofit sector. Topics include: scope and context of the sector; operating strategies and organizing principles of nonprofit entities; nonprofit financial literacy; management and leadership challenges unique to the sector such as HRM strategies and accountability mechanisms, working with volunteers, fundraising, ethics, stewardship, and compliance/legal issues. Students will have the opportunity to engage with leaders of nonprofit organizations. No prerequisites and open to any major. (4)

BUSA 342 : Human Resource Management

Introduction to the essential skills necessary to hire, retain, and manage the right people for the right job at the right time in organizations. Topics include workforce planning, job analysis and design, staffing, talent and performance management, diversity, compensation, retention, risk management, and employee and labor relations, in the global environment. Prerequisite: BUSA 305. (4)

BUSA 352 : Global Management

Integrated study of challenges faced by managers in large and small organizations as they do business globally. Competencies involved in communicating, negotiating, strategizing, organizing, making decisions, leading people, and managing a multicultural workforce across borders and cultures. Prerequisite: BUSA 305. (4)

BUSA 358 : Entrepreneurship

Intensive study of issues and challenges associated with start-up, growth, and maturation of a new enterprise. Emphasizes reduction of risk through planning for and assessing possible future conditions. Prerequisite: BUSA 201. (4)

BUSA 361 : e-Marketing

Provides an overview of marketing issues associated with marketing by electronic means, including the Internet, by businesses and nonprofit organizations. Explores how e-marketing fits in the organization's overall marketing strategy. Prerequisite: BUSA 308. (4)

BUSA 363 : Consumer Behavior

Processes involved as consumers gain awareness, establish purchasing criteria, screen information, make decisions and dispose of consumer goods, services, ideas, or experiences. Consumer behavior will be examined to identify how it affects marketing, strategy and how marketing affects behavior. Prerequisite: BUSA 308. (4)

BUSA 366 : Multicultural Marketing

Application of marketing principles to identify and reach the growing ethnic subcultures in the U.S. Historical context and ethical implications of multicultural marketing activities. Emphasis on practical aspects of multicultural business development.

Prerequisite: BUSA 308. (4)

BUSA 387 : Special Topics in Business Administration

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 388 : Special Topics in Business Administration

Special Topics. (1 to 4)

BUSA 389 : Special Topics in Business Administration

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 401 : Certificate in Consulting for Business and Entrepreneurship

This course leads to a certificate in Consulting for Business and Entrepreneurship. The course trains students in the art and science of consulting with small businesses and entrepreneurial firms. Students will learn the requisite skills and knowledge through interaction and engagement with industry experts, alumni, and businesses, with the purpose to help nourish businesses in the community. The program provides a focus on women and minority-owned businesses. Students will develop their skills through experiential assignments, helping businesses in the community identify areas for improvement and to generate a plan to develop those areas. A certificate will be awarded upon the successful completion of the course with a Pass grade.

Prerequisites: Junior level standing. Open to Junior and Senior students. (0 to 1)

BUSA 402 : Certificate in Consultative Engagements and Professional Sales

This course leads to a certificate in Consultative Engagements and Professional Sales. Students will learn the practical skills to navigate decision steps, ask high-gain questions, explore consequences and payoffs, lead problem-solving sessions, persuade through involvement, and develop trust with clients in for-profit, non-profit, and governmental sectors. Focus on practical career tools. A certificate will be awarded upon the successful completion of the course with a Pass grade. Prerequisites: Junior level standing. Open to Junior and Senior students. (0 to 1)

BUSA 422 : Advanced Accounting

Concentrated study of equity measurement including the accounting aspects of partnerships, corporations, and consolidations. Also includes accounting for multinational corporations. Prerequisite: BUSA 321 and senior standing. (4)

BUSA 423 : Accounting for Nonprofits and Governmental Entities

Study of fund accounting, including its conceptual basis, its institutional standard setting, framework, and current principles and practices. Prerequisite: BUSA 202. (4)

BUSA 424 : Auditing

Comprehensive study of auditing concepts and procedures. Recommended: BUSA 320 as prerequisite or co-requisite. (4)

BUSA 427 : Tax Accounting

Study of income tax concepts, regulation, and tax planning principles. Both individual income taxation and business taxation are discussed. Prerequisite: BUSA 202. (4)

BUSA 430 : Finance for Entrepreneurial and Privately-Held Firms

Methods of financing and managing privately-held firms. Topics include private firm valuation issues, financing sources and methods, venture and private equity markets, and exit and outcomes for entrepreneurial and privately-held firms. Prerequisite: BUSA 302. (4)

BUSA 432 : Financial Derivatives and Trends

Examines financial derivatives including forward and futures contracts, swaps, and options. Topics include the role of derivative instruments in capital markets; mechanics and basic pricing techniques of forward and futures, swaps, and options; and hedging strategies based on derivatives. Trends of financial markets such as cryptocurrencies and fintech are also discussed.

Prerequisite: BUSA 302. (4)

BUSA 437 : Financial Analysis and Strategy

Intermediate treatment of capital budgeting (and decision-making), valuation, forecasting, risk and return analysis, capital structure, and cost of capital. This course covers the essential tools of corporate finance, while illustrating corporate finance/corporate strategy interdependences through the use of cases. Prerequisite: BUSA 302. (4)

BUSA 438 : Empirical Finance

Covers selected seminal finance theories, as well as relevant empirical methods. Applying empirical methods to test key asset pricing and corporate finance topics using real data. Theories covered and empirical methods employed will depend on instructor. Prerequisites: BUSA 302 and four hours from BUSA 335, 337, 430, or 437; or BUSA 302 and co-enrollment in one of BUSA 335, 337, 430, or 437; or permission of instructor. (4)

BUSA 442 : Leadership and Change

Developing leaders and leadership competencies in individual and organizational context with emphasis on creating change in organizations. Learning leadership skills to advance change through systemic learning, respect for diversity, organizational culture change, cross cultural perspective, coaching others, and organizational development. Prerequisite: BUSA 305. (4)

BUSA 444 : Project Management

Applications and experiences in planning, scheduling, organizing, and managing projects for a variety of settings. Emphasis on the project management process and tools. Specific outcomes include understanding concepts, techniques, and decision tools available to project managers, how to apply work breakdown structures and networks to projects, how to recognize and manage problems that can occur on projects, and how to effectively participate as a project team member. Focus is on learning and applying practical tools that are valuable in the workplace. Prerequisite: BUSA 305. (4)

BUSA 449 : Strategic Human Resource Management

Seminar course on topics of strategic transformation: HRM as a decision science to measure its impact and build competitive advantage and workforce engagement in alignment with organizational strategy, and internal/external environments. Advanced business students, in consultation with the instructor, select appropriate topics for research and discussion. Prerequisite: BUSA 342 or co-enrollment in BUSA 342. (4)

BUSA 460 : International Marketing

Introduction to marketing problems and opportunities in an international context. Investigation of economic, cultural, and business forces that require changes in marketing plans for international companies. Prerequisites: BUSA 308 or permission of instructor for non-business majors. (4)

BUSA 467 : Marketing Research

Investigation of techniques and uses of marketing research in the business decision-making process. Research design, survey methods, sampling plans, data analysis, and field projects. Prerequisites: BUSA 308, STAT 231. (4)

BUSA 468 : Marketing Management

Choosing target markets, acquiring and keeping customers by creating, delivering, and communicating customer value. The course may include a service-learning project. Prerequisites: BUSA 363, 467. (4)

BUSA 485 : Study Away in Business

PLU-sponsored academic or experiential study in other countries. (0 to 32)

BUSA 487 : Special Topics in Business Administration

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The

title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 488 : Special Topics in Business Administration

Seminar on specifically selected topics in business. (1 to 4)

BUSA 489 : Special Topics in Business Administration

Seminar on specifically selected topics in business. (1 to 4)

BUSA 491 : Independent Study

Individualized studies in consultation with an instructor. Prerequisites: junior standing, instructor approval, and approval by dean or his/her designate. (1 to 4)

BUSA 495 : Internship

Application of business knowledge in field setting. Credit granted determined by hours spent in working environment and depth of project associated with the course of study. Internships do not apply to concentration requirements. Pass/Fail. (1 to 4)

BUSA 499 : Capstone: Strategic Management - SR

Capstone seminar for business majors. Strategic decision-making by integrating all business functions to formulate and implement business policies and strategies to achieve organizational objectives; apply appropriate methodologies, concepts, and tools pertinent to strategic analyses; and discuss implications of industry structure, organization resources and capabilities, business ethics and social responsibility, sustainability, and global competitive conditions in selecting courses of action. Prerequisites: BUSA 203, 302, 303 or 304, 305, 308, 309, 310, and senior standing. Last semester or permission of dean or his/her designate. (4)

Chemistry

253.538.6393	www.plu.edu/chemistry/	chair@chem.plu.edu
Andrea Munro, Ph.D., Chair		

Chemistry involves the study of matter at the atomic and molecular level. Concepts and tools of chemistry are used to study the composition, structure, reactivity, and energy changes of materials in the world around us. At PLU, students will find a chemistry program that supports their interests, whether in the chemistry of natural products, forensics, the environment, biological systems, polymers, or inorganic compounds, and that supports their educational goals, whether toward graduate study, the medical and health professions, biotechnology, forensic science, education, business, or as a complement to other studies. For good reason, chemistry is often called “the central science.”

The Department of Chemistry’s courses, curriculum, faculty, and facilities are approved by the American Chemical Society (ACS) and the department offers ACS certified degrees.

Students get hands-on experience using sophisticated instrumentation in coursework and when doing research with faculty. They learn techniques used in the chemical industry, in graduate research, and in analytical or forensics laboratories; including, 500 MHz Fourier transform nuclear magnetic resonance (NMR) spectroscopy, inductively coupled plasma mass spectrometry (ICP-MS), and gas chromatography with mass spectrometry (GC/MS).

Chemistry Major Declaration Process

- Consultation with chemistry faculty member required.
- Declare major early and preferably by completion of CHEM 331.
- Transfer students must consult with a department advisor no later than the start of the junior year.
- A minimum grade of C- in all courses required by the major; overall chemistry GPA of 2.00 or higher.
- A minimum grade of C in courses required by the minor.
- Departmental Honors requires a 3.50 overall GPA in chemistry courses; and other qualifications as described below.
- A grade of C- or higher is required for all prerequisite courses. Students may enroll in courses that have prerequisites only if they have completed the prerequisite course(s) with a grade of C- or higher. This grade requirement applies to prerequisite courses offered by the Department of Chemistry and to supporting courses offered by other departments.

Bachelor of Arts Degree

Major in Chemistry

51 semester hours: 47 semester hours in Foundation courses, plus 4 semester hours in CHEM 342

• Foundation Courses

47 semester hours

◦ Chemistry Courses

29 semester hours

- CHEM 115, 116, 320, 331, 332, 333, 334 (or 336), 341, 343, 499A, 499B

◦ Supporting Courses

18 semester hours

- MATH 151, 152
- PHYS 153, 154, 163, 164

• CHEM 342

4 semester hours

Bachelor of Science Degree

Major in Chemistry

47 semester hours in Foundation courses and selection of emphasis area with subsequent requirements

- **Foundation Courses**

47 semester hour

- **Chemistry Courses**

29 semester hours

- CHEM 115, 116, 320, 331, 332, 333, 334 (or 336), 341, 343, 499A, 499B

- **Supporting Courses**

18 semester hours

- MATH 151, 152
 - PHYS 153, 154, 163, 164

Emphasis Areas

General Emphasis

14 semester hours beyond the Foundation courses (see listing above)

- CHEM 342, 344
- CHEM 405 or 450 or 456; CHEM 410, 420

The General Emphasis can lead to American Chemical Society Certification if the following courses are included: CHEM 403, 450 and either CHEM 405, 440 or 456.

Biochemistry Emphasis

25 semester hours beyond the Foundation courses (see listing above)

B.S. in chemistry with biochemistry emphasis is often done as a double major with biology

- CHEM 403, 405, 410, 420
- BIOL 225, 226
- 4 semester hours from: CHEM 342 or BIOL 330, 342, 358, 442, 445, 448, or 453
- American Chemical Society Certification for Biochemistry requires CHEM 342, 344, and 450.

Chemical-Physics Emphasis

29 semester hours beyond the Foundation courses (see listing above)

- CHEM 342, 344
- MATH 253
- PHYS 331, 332, 336, 354, 356

Bachelor of Science Degree - Generalized Chemistry Curriculum

First Year: Fall Semester

- CHEM 115
- FYEP 101 or 102 (and/or BIOL 225 for students interested in B.S. in chemistry, biochemistry emphasis)
- MATH 151
- FTWL 100 or other activity course
- A General Education Program Element course

First Year: Spring Semester

- CHEM 116
- FYEP 101 or 102 and/or BIOL 226
- MATH 152
- FTWL 100 or other activity course

Second Year: Fall Semester

- CHEM 331, 333
- PHYS 153, 163
- Two additional courses

Second Year: J-Term

- CHEM 410 (Can also be done in J-Term of the third year; confirm scheduling with the chair)

Second Year: Spring Semester

- CHEM 332, 334 (or 336), 320
- PHYS 154, 164

Third Year: Fall Semester

- CHEM 341, 343, 403
- General Education Program course(s)
- Elective

Third Year: J-Term

- CHEM 410 (Can also be done in J-Term of the second year; confirm scheduling with the chair)

Third Year: Spring Semester

- CHEM 342, 344
- For B.S. in chemistry with biochemistry emphasis, BIOL 330, 342, 358, 442, 445, 448, 453 may be substituted for CHEM 342 and 344.
- CHEM 405 (for biochemistry emphasis)
- General Education Program course(s)
- Elective

Fourth Year: Fall Semester

- CHEM 499A
- Alternate Year Advanced CHEM Elective (for ACS Certification and/or B.S.)
- Electives

Fourth Year: Spring Semester

- CHEM 420, 499B
- Electives

Alternate Year Advanced Courses

In the third or fourth year and if prerequisite or corequisite requirements are met, B.S. students may choose to enroll in CHEM 450 (required for ACS degree certification), CHEM 440, CHEM 456, or CHEM 487 Special Topics. These classes are typically offered in Fall or J-Term in alternating years

Refer to the Division of Natural Sciences section of this catalog for other beginning curriculum options. Students interested in the Bachelor of Science with biochemistry emphasis should start biology in the fall of the first or second year. Physics should be started in either the first or the second year, so as to prepare students for upper-division chemistry courses.

Departmental Honors

In recognition of outstanding work the designation of Departmental Honors may be granted to bachelor of science graduates by vote of the faculty of the Department of Chemistry, based on the student's performance in the following areas:

- **Course Work:**
A minimum 3.50 grade point average in all chemistry courses taken at PLU.
- **Written Work:**
At time of declaration of the chemistry major, all copies of outstanding work (e.g., laboratory, seminar and research projects) need to be maintained by the student for later faculty evaluation for departmental honors.
- **Oral Communication:**
Students must evidence ability to communicate effectively as indicated by the sum of their participation in class discussion, seminars, help session leadership, and teaching assistantship work.
- **Independent chemistry-related activities:**
Positive considerations include the extent and quality of extracurricular work done in background reading, independent study, and research; assisting in laboratory preparation, teaching, or advising; any other chemistry-related employment, on campus or elsewhere; and participation in campus and professional chemistry-related organizations.

The departmental honors designation will appear on the transcript of a student graduating with a chemistry major.

Chemical Engineering

Students interested in pursuing studies in chemical engineering should see the course outline in the [Engineering Dual-Degree section](#) of this catalog. The department chair should be consulted for assignment of a program advisor.

Pre-Professional Health Sciences

Students interested in pursuing studies in medicine, dentistry, pharmacy, or other professional health science fields should consult the Pre-Professional Studies Health Sciences section of this catalog.

Minor in Chemistry

22 semester hours

- CHEM 115, 116
- CHEM 320, 331, 332, 333, 334 (or 336) completed with grades of C or higher.

Prerequisite and co-requisite requirements are strictly enforced.

Bachelor of Arts in Education

Students interested in a high school chemistry teaching endorsement should plan to complete a B.A. or B.S. in chemistry. The degree program is developed through the Department of Chemistry in conjunction with the Department of Education. Go to the [School of Education](#) section of this catalog for further information.

Chemistry (CHEM) - Undergraduate Courses

CHEM 101 : Introductory Chemistry

An introduction to basic chemical principles, reactions and mathematical skills relating to chemistry. Specifically tailored to students with limited previous chemical experience or those that desire a review of these topics before taking CHEM 105/115. (1)

CHEM 103 : Food Chemistry - NW

Basic chemistry and the scientific method are applied to cooking, baking, and food preparation. This course includes laboratory experiences and written laboratory reports. No prerequisites. (4)

CHEM 104 : Environmental Chemistry - NW

Basic principles of chemistry and reactions, with applications to human activities and the natural environment. Includes laboratory. No prerequisites. Suitable for environmental studies, general science teachers, elementary education, B.A. in geosciences, or fulfilling university general education requirements. (4)

CHEM 105 : Chemistry of Life

Basic organic and biochemistry applied to chemical processes in human systems; suitable for liberal arts students, nursing students, physical education majors, and prospective teachers. Students who have not completed high school chemistry recently should take CHEM 101 before taking CHEM 105. Prerequisite: Math placement in MATH 140 or higher; or completion of MATH 115 with a C or higher. (4)

CHEM 115 : General Chemistry I - NW

Topics explored include the structure of matter, nomenclature, atomic and molecular theory, periodic relationships, states of matter, quantitative relationships, and thermochemistry. The course includes laboratory experiences. Corequisite: MATH 140 or math placement in MATH 151 or higher. Recommended: one year of high school chemistry. (4)

CHEM 116 : General Chemistry II - NW

Introduces students to chemical kinetics, chemical equilibrium, acid-base chemistry thermodynamics, electrochemistry, chemistry of the elements, and coordination compounds. The course includes laboratory experiences. Prerequisite: MATH 140 or

higher and CHEM 115. (4)

CHEM 287 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 288 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 289 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

CHEM 320 : Analytical Chemistry

Chemical methods of quantitative analysis, including volumetric, gravimetric, and selected instrumental methods. Includes laboratory. Prerequisites: CHEM 116; MATH 140. (4)

CHEM 331 : Organic Chemistry I

An introduction to structure, reactivity, and general properties of organic molecules. Prerequisite: CHEM 116. Corequisite: CHEM 333. (4)

CHEM 332 : Organic Chemistry II

Chemistry of aromatic compounds, carbonyl-containing functional groups, amines, phenols, and an introduction to biologically important molecules. Prerequisites: CHEM 331 and 333. Corequisite: CHEM 334 or 336. (4)

CHEM 333 : Organic Chemistry I Laboratory

Reactions and methods of synthesis, separation and analysis of organic compounds. Microscale techniques. Practical investigation of reactions and classes of compounds discussed in CHEM 331. Corequisite: CHEM 331. (1)

CHEM 334 : Organic Chemistry II Laboratory

Synthesis of organic compounds, including instrumental and spectroscopic analyses. Practical investigation of reactions and classes of compounds discussed in CHEM 332. Prerequisite: CHEM 333. Corequisite: CHEM 332. (1)

CHEM 336 : Organic Special Projects Laboratory

Individual projects emphasizing current professional-level methods of synthesis and property determination of organic compounds. This course is an alternative to CHEM 334 and typically requires somewhat more time commitment. Students who wish to prepare for careers in chemistry or related areas should apply for departmental approval of their admission to this course. Corequisite: CHEM 332. (1)

CHEM 341 : Physical Chemistry

A study of the relationship between the energy content of systems, work, and the physical and chemical properties of matter. Classical and statistical thermodynamics, thermochemistry, solution properties, phase equilibria, and chemical kinetics. Prerequisites: CHEM 116, MATH 152, PHYS 154. (4)

CHEM 342 : Physical Chemistry

A study of the physical properties of atoms, molecules and ions, and their correlation with structure. Classical and modern quantum mechanics, bonding theory, atomic and molecular structure, spectroscopy. Prerequisites: CHEM 116, MATH 152, PHYS 154. (4)

CHEM 343 : Physical Chemistry Laboratory

Experiments in kinetics and thermodynamics. Attention given to data handling, error analysis, instrumentation, computational analysis, and correlation with theory. Prerequisite or corequisite: CHEM 341. (1)

CHEM 344 : Physical Chemistry Laboratory

Experiments in molecular structure and spectroscopy. Attention given to data handling, error analysis, instrumentation, computational analysis, and correlation with theory. Prerequisite or corequisite: CHEM 342. (1)

CHEM 387 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 388 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 389 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 403 : Biochemistry I

An overview of the structures, function, and regulation of proteins, carbohydrates, lipids, and nucleic acids, and an introduction to metabolic and regulatory cellular processes. Majors are encouraged to take both CHEM 403 and 405 for a comprehensive exposure to biochemical theory and techniques. Prerequisites: CHEM 332 and 334 (or 336) (4)

CHEM 405 : Biochemistry II

A continuation of CHEM 403 that provides further insight into cellular metabolism and regulation, enzyme kinetics and mechanisms of catalysis, protein synthesis, nucleic acid chemistry, and biotechnology. Concepts introduced in Physical Chemistry and Biochemistry I will be applied to this course. Laboratory designed to stimulate creativity and problem-solving abilities through the use of modern biochemical techniques. Prerequisite: CHEM 403. (3)

CHEM 410 : Introduction to Research

An introduction to laboratory research techniques, use of the chemical literature, including computerized literature searching, research proposal, and report writing. Students develop an independent chemical research problem chosen in consultation with a member of the chemistry faculty. Students attend seminars as part of the course requirement. (2)

CHEM 420 : Instrumental Analysis

Theory and practice of instrumental methods along with basic electronics. Special emphasis placed on electronics, spectrophotometric, chromatographic, and mass spectrometric methods. Prerequisites: CHEM 320; 341 and/or CHEM 342; 343. (4)

CHEM 440 : Advanced Organic Chemistry

Students will develop a repertoire of synthetic methodology and a general understanding of a variety of organic reaction mechanisms. Synthetic organic strategies and design, the analysis of classic and recent total syntheses from the literature, and advanced applications of instrumentation in organic chemistry. Prerequisite: CHEM 332. (2)

CHEM 450 : Inorganic Chemistry

Techniques of structural determination (IR, UV, VIS, NMR, X-ray, EPR), bonding principles, nonmetal compounds, coordination chemistry, organometallics, donor/acceptor concepts, reaction pathways, and biochemical applications are covered. Laboratory: synthesis and characterization of non-metal, coordination and organometallic compounds. Prerequisites: CHEM 332, 341; Prerequisite or corequisite: CHEM 342. (3)

CHEM 456 : Polymers and Biopolymers

A course presenting the fundamentals of polymer synthesis, solution thermodynamic properties, molecular characterization, molecular weight distribution, and solution kinetics. Free radical, condensation, ionic, and biopolymer systems, with emphasis on applications. Prerequisite: CHEM 341; prerequisite or corequisite: CHEM 342. (3)

CHEM 487 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 488 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 489 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 491 : Independent Studies

Library and/or laboratory study of topics not included in regularly offered courses. Proposed project must be approved by department chair and supervisory responsibility accepted by an instructor. May be taken more than once. A specific title for the project may be appended to the general title of Independent Studies for CHEM 491. (1 to 4)

CHEM 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

CHEM 497 : Research

Experimental or theoretical investigation open to upper-division students with consent of department chair. May be taken more than once. Generally consists of a research project developed in consultation with a chemistry faculty member. A specific title for the project may be appended to the general title of Research for CHEM 497. (1 to 4)

CHEM 499A : Capstone Seminar I - SR

Students are trained in the practice of scientific writing and presentation by initiation of a project developed through independent library or laboratory research under the mentorship of a faculty advisor. Effective oral presentation skills are critically evaluated in seminars by practicing scientists and fellow students. Participation by all senior chemistry majors is required; meets the senior seminar/project requirement with CHEM 499B. (1)

CHEM 499B : Capstone Seminar II - SR

Continuation of CHEM 499A with emphasis on completion of an independent library or laboratory research project with a faculty advisor. This includes presentation of their research in a department seminar and submission of the final capstone paper. Participation by all senior chemistry majors is required; meets the senior seminar/project requirements with CHEM 499A. (1)

Communication, Media, & Design Arts

253.535.7761	www.plu.edu/comm-media-designarts	cmda@plu.edu
Heather Mathews, Ph.D., Chair		

The Department of Communication, Media, and Design Arts offers majors in the fields of Communication, Studio Arts, and Art History.

Bachelor of Arts in Communication (B.A.C.) Degree

Major in Communication

40 semester hours, plus a minor

Concentrations

Students in this program select a concentration in either Film & Media Studies or Strategic Communication.

Film & Media Studies

40 semester hours, plus a minor

- **Communication Core Courses**

20 semester hours

- COMA 101: Introduction to Communication (4)
- COMA 120: Introduction to Media Studies (4)
- COMA 212: Public Speaking (4)
- COMA 215: Writing in Communication Careers (4)
- COMA 499: Capstone (4)

- **Film & Media Studies Cluster**

20 semester hours from the following:

- Applied Contexts – maximum 8 hours
 - COMA 226/426: MediaLab (0-2, repeatable up to 8)
 - COMA 229/429: Student Media (0-2, repeatable up to 8)
- COMA 301: Media and Cultural Criticism (4)
- COMA 303: Gender & Communication (4)
- COMA 342: Communication Inquiry (4)
- COMA 343: Media Writing (4)
- COMA 344: Media Production (4)
- COMA 357: Media Literacy Post-Truth Era (4)
- COMA 401: Contemporary Issues in Media and Visual Culture (4)
- COMA 421: Media, Ethics & the Law (4)
- COMA 461: Advertising, PR + Campaigns (4)
- In consultation with advisor, with Communication department chair approval, and based on availability, students may also count the following courses in the Film & Media Studies cluster: ENGL 320: Intermediate Creative Non-Fiction; ENGL 325: Personal Essay; ENGL 327: Intermediate Poetry Writing; THEA 330: Script Analysis; LANG 271: Literature Around the World; and HISP 325: Introduction to Hispanic Literary Studies.

Strategic Communication

40 semester hours, plus a minor

- **Communication Core Courses**

20 semester hours

- COMA 101: Introduction to Communication (4)
- COMA 120: Introduction to Media Studies (4)
- COMA 212: Public Speaking (4)
- COMA 215: Writing in Communication Careers (4)
- COMA 499: Capstone (4)

- **Strategic Communication Cluster**

20 semester hours from the following:

- Applied Contexts – maximum 8 hours
 - COMA 211/411: Debate (0-2, repeatable up to 8)
 - COMA 226/426: MediaLab (0-2, repeatable up to 8)
 - COMA 229/429: Student Media (0-2, repeatable up to 8)
- COMA 305: Argumentation & Advocacy (4)
- COMA 306: Persuasion (4)
- COMA 342: Communication Inquiry (4)
- COMA 343: Media Writing (4)
- COMA 344: Media Production (4)
- COMA 357: Media Literacy Post-Truth Era (4)
- COMA 361: Strategic Communication (4)
- COMA 421: Media, Ethics and the Law (4)
- COMA 461: Advertising, PR + Campaigns (4)

Declaration of Major

Students may declare a major in Communication upon enrollment in COMA 101: Introduction to Communication or COMA 120: Introduction to Media Studies.

Minor Requirement for Communication Majors

The Bachelor of Arts in Communication (B.A.C.) requires the completion of a minor.

Bachelor of Fine Arts (B.F.A.) Degree

Major in Studio Arts, Concentration in Graphic Design

70-76 semester hours

- **Foundation Courses (16):**
 - ARTD 101: Drawing 1 (4)
 - ARTD 102: 2D Design/Color Theory (4)
 - ARTD 201: Drawing 2: Figure Drawing (4)
 - ARTD 202: 3D Design (4)
- **Technique Courses (24)**
 - Go to www.plu.edu/comm-media-designarts/documents to view specific courses fulfilling requirements.
 - Two-dimensional courses (8)
 - Three-dimensional courses (8)
 - Photography course (4)
 - Technology course (4)
- **Understanding Art/Culture Courses (12)**
 - ARTD 180: History of Western Art I (4)
 - ARTD 181: History of Western Art II (4)
 - Upper-division Art History (4)
- **Artistic Practice Courses (16)**
 - ARTD 110: Graphic Design 1
 - ARTD 210: Graphic Design 2
 - ARTD 310: Graphic Design 3
 - ARTD 410: Graphic Design 4
- **Keystone/Capstone Courses (2 to 8)**
 - ARTD 499A: Keystone (1 to 4)
 - ARTD 499B: Capstone (1 to 4)

Bachelor of Arts (B.A.) Degree

Major in Art History

38-40 semester hours

- ARTD 180: History of Western Art I (4)
- ARTD 181: History of Western Art II (4)
- ARTD 280: Art Methodology and Theory (4)
- ARTD 499B: Capstone (2 to 4)
- Studio Arts Courses (8)
- Art History Courses (16)

Major in Studio Arts

42-44 semester hours

- ARTD 101: Drawing 1 (4)
- ARTD 102: 2D Design/Color Theory (4)
- ARTD 202: 3D Design (4)
- ARTD 499A: Keystone (1 to 4)
- ARTD 499B: Capstone (1 to 4)
- **Technique Courses (16):**
 - Two-dimensional course (4)
 - Three-dimensional courses (8)
 - Photography course (4)
- **Understanding Art/Culture Courses (12):**
 - ARTD 180: History of Western Art I (4)
 - ARTD 181: History of Western Art II (4)
 - Upper-division Art History (4)

Students may apply independent study ARTD 491: Special Projects on a case-by-case basis subject to approval by the department chair.

Courses in teaching methods may not be applied to the major.

Course Areas

- **Studio Courses** (*All studio courses require a lab fee in addition to tuition*): 101, 102, 110, 201, 202, 210, 220, 230, 250, 310, 315, 320, 330, 350, 355, 365, 370, 410, 420, 425, 430, 450, 465, 466, 470, 483; ENGL 313, 314; PPAP 321, 322
- **History and Theory Courses:** 180, 181, 280, 380, 381, 382, 383, 480, 481, 482, 484, 490

Minors

Art History

24 semester hours, including:

- ARTD 180 and ARTD 181 (8)
- Art history/theory electives (12)
- Studio Arts elective (4)
- Non-concentration courses, practical design courses (ARTD 110, 210, 310), and courses in teaching methods (EDUC 340) may not be applied to the minor.

Communication

16 semester hours

Courses selected in consultation with an advisor. At least 4 of the 16 semester hours must be upper-division (300 or 400-level).

Publishing and Printing Arts

24 semester hours

See the description of the minor under Publishing and Printing Arts.

Studio Arts

20 semester hours, including:

- ARTD 380: Modern Art (4)
- Two-dimensional course, based on concentration area (4)
- Three-dimensional course, based on concentration area (4)
- Studio Arts electives drawn from upper-division courses (8)
- Courses in teaching methods (EDUC 340) may not be applied to the minor.

Students pursuing a B.F.A. or B.A. in studio arts may minor in art history, but not studio arts, which is reserved for non-majors. Students pursuing a B.A. in art history may minor in studio arts.

Art & Design (ARTD) - Undergraduate Courses

ARTD 101 : Drawing I - CX

A course dealing with the basic techniques and media of drawing. (4)

ARTD 102 : 2D Design/Color Theory - CX

This course combines course work in color and composition. Students will develop a better understanding in pictorial composition, color theory, patterning, materials, and methods in the two-dimensional arts, perspective, and a range of conceptual design strategies. Required for all B.A./B.F.A. majors. (4)

ARTD 110 : Graphic Design 1 - CX

An introduction to design through the study of basic techniques, color theory, and composition. (4)

ARTD 180 : History of Western Art I - CX

A survey tracing the development of Western art and architecture from prehistory to the end of the Middle Ages. (4)

ARTD 181 : History of Western Art II - CX

A survey of Western art and architecture from the Renaissance to the 20th century. (4)

ARTD 201 : Drawing 2: Figure Drawing - CX

Drawing taken beyond the basics of 101. Expansion of media forms and solutions to compositional problems. Possibility of pursuing special individual interests, with permission. Prerequisite: ARTD 101 or consent of instructor. (4)

ARTD 202 : 3D Design - CX

Students will develop an understanding in three-dimensional design with an emphasis on spatial awareness, problem-solving, and the many varieties of sculptural form. Required for all B.A. and B.F.A. majors. (4)

ARTD 210 : Graphic Design 2

An investigation of the process of creative problem solving in a methodical and organized manner. Includes projects in a variety of design areas. Prerequisite: ARTD 110 or consent of instructor. (4)

ARTD 220 : Photography I: BW Photography - CX

A studio class in photography as an art form. Primary concentration in basic camera and darkroom techniques. Students produce a portfolio of prints with an emphasis on creative expression and experimentation. (4)

ARTD 230 : Ceramics 1 - CX

Introduction to ceramic materials, tools, and techniques including hand-built and wheel-thrown methods and glaze application. Includes a survey of ceramic art. (4)

ARTD 280 : Art Methodology and Theory - CX

Explores art historical and critical methods used for the analysis of art, including formalism, iconography, iconology, economic/social contexts, psychology, feminism, and structuralism/semiotics. Relates methods to broader cultural theories from Kant to Edward Said. (4)

ARTD 287 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 288 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 289 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ARTD 310 : Graphic Design 3

Design and execution of printed materials; emphasis on technical procedures and problems in mass communication. Prerequisite: ARTD 210 or consent of instructor. (4)

ARTD 315 : The Art of the Book I - CX

This studio course explores the history, aesthetics and creative dimensions of book design and typography. Prerequisite: Declared PPA minor or permission of instructor. Cross-listed with PPAP 321, ENGL 313. (4)

ARTD 320 : Photography 2: Digital Photography - CX

An introduction to computer-assisted photography in which students learn applications, develop aesthetic strategies, and engage the ethical issues of this new technology. Emphasis on creative exploration and problem solving within the Macintosh environment. May be taken twice. (4)

ARTD 330 : Ceramics 2

Advanced techniques in ceramic construction and experiments in glaze formation. Focus on form and craftsmanship. Prerequisite: ARTD 230 or consent of the instructor. (4)

ARTD 355 : 3D Digital Modeling - CX

An introduction to three-dimensional modeling. Students will learn to design and manipulate objects in 3D digital space. (4)

ARTD 365 : Painting I

Media and techniques of painting in oil or acrylics. Prerequisite: ARTD 101. (4)

ARTD 370 : Printmaking 1

Methods and media of fine art printmaking; both hand and photo processes involving lithographics, intaglio, and screen printing. Prerequisite: ARTD 101 or consent of instructor. (4)

ARTD 380 : Modern Art - CX

The development of art from 1900 to the present, with a brief look at European and American antecedents as they apply to contemporary directions. (4)

ARTD 383 : Studies in Art History - CX

A selected area of inquiry, such as a history of American art, Asian art, the work of Picasso, or similar topics. May be repeated for credit. (4)

ARTD 387 : Special Topics in Art

This course is intended for unique opportunities to explore artistic expression, provided by visiting artists or artists in residence who intend to focus on a particular style, element or technique used in creative and artistic expression. (1 to 4)

ARTD 388 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 389 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 410 : Graphic Design 4

Design and execution of printed materials; emphasis on technical procedures and problems in mass communication. Explores advanced techniques with multiple color, typography, and other complex problems. Prerequisite: ARTD 310 or consent of instructor. (4)

ARTD 465 : Painting 2

Media and techniques of painting in oil or acrylics. May be taken twice. Prerequisite: ARTD 365 or consent of instructor. (4)

ARTD 466 : Painting 3

Explore and develop student's portfolio of work within the area of painting. Independent project emphasis with instructor's input. Emphasis on student's development of individual style and problem solving. May be taken twice. Prerequisite: ARTD 365 or consent of instructor. (4)

ARTD 470 : Printmaking 2

Methods and media of fine art printmaking; both hand and photo processes involving lithographics, intaglio, and screen printing. May be taken twice. Prerequisite: ARTD 370 or consent of instructor. (4)

ARTD 483 : Studio Practice

This course is focused on the student's individual research towards the capstone exhibition in collaboration with their faculty mentor or advisor. Requires senior standing and may be taken twice for credit. Required for all BFA majors. (1 to 4)

ARTD 484 : Research in Art History - Theory

A tutorial course for major students with research into a particular aspect of art history or theory. May be repeated for credit. Prerequisites: senior status, consent of instructor and program approval by department faculty. (1 to 4)

ARTD 487 : Special Topics in Art

This course is intended for unique opportunities to explore artistic expression provided by visiting artists or artists in residence who intend to focus on a particular style, element, or technique used in creative and artistic expression. (1 to 4)

ARTD 488 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 489 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 490 : Gender and Art - CX

Studies the effects of race and class on the construction of femininity and masculinity in art and visual culture in the United States and in Europe, with an emphasis on 19th and 20th century modernism. May not be repeated for credit. (4)

ARTD 491 : Independent Studies: Special Projects

Exploration of the possibilities of selected studio areas, including experimental techniques. Emphasis on development of individual styles, media approaches, and problem solutions. May be repeated for credit. Prerequisites: junior status, minimum of two courses at 200 level or above in affected medium with minimum 2.50 GPA, consent of instructor and department chair. (1 to 4)

ARTD 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ARTD 499A : Keystone - SR

This "Keystone" course is intended for upper-division students to develop the process of educational assessment and program competencies. Focus is on integrating student learning objectives with student experience through initial development of portfolio projects and other assignments. Not repeatable. One of two courses required to fulfill the Senior Seminar General Education Element. Recommended as two semester hours. (1 to 4)

ARTD 499B : Capstone - SR

Capstone course for the BA in Studio Arts or Art History and the BFA in Graphic Design. Focus is on integrating student learning objectives with student experience through development and presentation of portfolio projects and other assignments. One of two courses required to fulfill the Senior Seminar General Education Element. Prerequisite: Must have completed and passed ARTD 499A. Recommended as two semester hours. (1 to 4)

Communication (COMA) - Undergraduate Courses

COMA 101 : Introduction to Communication

Introduces the study of human communication. Students will learn and apply a wide array of analytical theory and techniques across diverse human experiences from interpersonal to public communication and mass communication contexts to become more aware and effective communicators. (4)

COMA 120 : Introduction to Media Studies - CX

This course combines the study of visual media theories and analysis with the processes of actual media production. Initially, the class examines contemporary and classical genres of creative media, such as television, narrative and non-narrative film, advertising, PR, marketing and promotional campaigns to explore meanings, values and the ways in which media have become major parts of human existence, experience and expression globally. Reflecting ongoing developments in media, the course also provides an overview of the languages of creative media, exploring topics such as: fundamentals of scriptwriting, cinematography, editing, the soundtrack, directors, and the numerous and varied tasks involved with production, all culminating in student-generated creative works. (4)

COMA 211 : Debate

This course introduces the practice of academic and political debate. It introduces principles and theories of argument. Students will have opportunities for in-class and public debates. May be repeated up to 2 semester hours. (0 to 2)

COMA 212 : Public Speaking

Introduces the basic techniques of public speaking. Students complete several speeches and learn the basic skills of speechmaking, including topic selections, research, organization, audience analysis, and delivery. (4)

COMA 215 : Writing in Communication Careers

Introduces students to the fundamental standards and expectations in communication writing. Includes styles and formats routinely used in both academic and professional communication writing and research. Also includes writing for multiple audiences. Reviews basic grammar, sentence and paragraph structures. This course will conclude with an EXIT EXAM (grammar/syntax/clarity) that must be passed to proceed to any major/concentration in the department. (4)

COMA 226 : MediaLab

Students engage in all aspects of multimedia productions for various student media outlets. Professional standards of production and ethics will be used to evaluate all productions. May be repeated up to 2 semester hours. (0 to 2)

COMA 229 : Student Media

This course offers students who participate in student media outlets vast opportunities to rigorously reflect on their collective and individual projects. Each student will develop her/his own list of student media products and design deadlines and outcomes for her/his work. Students will routinely discuss the ethical and production issues involved in student media productions. Any student participating in student media is welcome to take this course. May be repeated up to 2 semester hours. (0 to 2)

COMA 287 : Special Topics in Communication

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

COMA 288 : Special Topics in Communication

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

COMA 289 : Special Topics in Communication

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

COMA 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

COMA 301 : Media and Cultural Criticism

This course examines the role of media in producing systems of meanings and artifacts that shape popular culture and ideology. Students learn to use critical perspectives as lenses for studying texts of popular culture and for writing cultural criticism for popular and specialized audiences. (4)

COMA 303 : Gender and Communication - IT

This class provides an overview of how gender and communication relate in social and cultural contexts. Focusing on contemporary American culture, we will explore how communication enables and constrains performances of gender and sexuality in everyday life. The course explores vocabulary, media, institutions, and the body. Prerequisites: COMA 101 or consent of instructor. (4)

COMA 304 : Intercultural Communication - IT, GE

Studies the nature of communication among people of diverse cultures. The course examines contemporary theory and research and examines a variety of cultural variables including: cultural backgrounds, perception, social organization, language, and nonverbal aspects of messages. Prerequisites: COMA 101 or consent of instructor. (4)

COMA 305 : Argumentation and Advocacy

Studies how people use reason giving in social decision-making. Analysis of genres, forms, and techniques of arguers. Focus is on methods of creating, understanding, and criticizing arguments. (4)

COMA 306 : Persuasion

The study of persuasion as a means of personal and social influence through rhetoric. Examines both rhetorical and social scientific traditions of study, ethical and social implications of contemporary persuasion in political, commercial, and other contexts. Opportunity for original research projects. Prerequisites: COMA 101, 120, or consent of instructor. (4)

COMA 321 : The Book in Society

A critical study of the history of book culture and the role of books in modern society. Cross-listed with PPAP 301, ENGL 311. (4)

COMA 322 : Publishing Procedures

A workshop introduction to the world of book publishing, involving students in decisions about what to publish and how to produce it. Cross-listed with PPAP 302, ENGL 312. (4)

COMA 340 : Conflict and Communication

Studies the role of communication in the development and management of human and global conflict. Research and theories of prominent conflict and peace scholars along with significant case studies are used to analyze and understand sources of conflict and methods for building peace. Prerequisite: COMA 101 or consent of instructor. (4)

COMA 342 : Communication Inquiry

An investigation of research methods critical to professional and academic communication. Key methods and constructs include informational interviewing, database search, survey and focus group design and administration, and basic data analysis. Prerequisite: COMA 215 or consent of instructor. (4)

COMA 343 : Media Writing

Introduces students to various professional methods of writing across multimedia platforms. Students will engage in research, organization and presentation of non-fiction multimedia stories. In addition, students will learn to evaluate various multimedia products. Prerequisite: COMA 215 or consent of instructor. (4)

COMA 344 : Multimedia Production

Course incorporates contemporary methods, styles and formats used in production and editing for multimedia products. Students will oversee development and design of non-fiction multimedia presentations while adhering to professional standards of media structure. Prerequisite: COMA 101, 215 or consent of instructor. (4)

COMA 357 : Media Literacy in a Post-Truth Era

This course will examine the phenomenon of "fake news" - and the misappropriation of that term - within the context of revelations surrounding social media, disinformation campaigns, and U.S. presidential elections. Lectures, discussions, viewings, and workshops will support the objective of developing critical media literacy skills within an emerging media landscape where expertise is shunned, facts are disputed, and a "post-truth" era invites controversies about the basic premises of reality. (4)

COMA 361 : Strategic Communication

Introduces the theories, methods, and practice of public relations. Emphasizes technical and analytical skills. Prerequisites: COMA 101, 212, 215, or consent of instructor. (4)

COMA 387 : Topics in Communication

Special topics in communication s intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 388 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 389 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum (1 to 4)

COMA 401 : Contemporary Issues in Media and Visual Culture

Examines the central role of visual representation in contemporary culture and the ways in which we use, understand and are used by images. Emphasis on photography, film, television, new media, and commemorative art and architecture in the realms of advertising, politics, news, public advocacy and popular culture. Students will conduct research projects that analyze elements of visual culture. Prerequisites: COMA 101, 212, 215, or consent of instructor. (4)

COMA 411 : Advanced Debate

This course is the advanced practice of academic and political debate. It builds on principles and theories of argument. Students will have opportunities for in-class and public debates. May be repeated up to 6 semester hours. Prerequisites: COMA 211, 212, or consent of instructor. (0 to 2)

COMA 421 : Media, Ethics, & the Law

Focuses on the principles of communication law and its application to various communication practices. Examines court cases, federal and state statutes, and First Amendment theories. Prerequisites: COMA 101, 120, 212, 215, or consent of instructor. (4)

COMA 426 : Advanced MediaLab

Students engage in all aspects of multimedia productions for various student media outlets. Professional standards of production and ethics will be used to evaluate all productions. May be repeated for up to 6 semester hours. (0 to 2)

COMA 429 : Advanced Student Media

This course offers students who participate in student media outlets vast opportunities to rigorously reflect on their collective and individual projects. Each student will develop her/his own list of student media products and design deadlines and outcomes for her/his work. Students will routinely discuss the ethical and production issues involved in student media productions. Any student participating in student media is welcome to take this course. May be repeated for up to 6 semester hours. (0 to 2)

COMA 461 : Advertising, PR + Campaigns

Examination of issues such as campaign planning, issue management, crisis communication, global public relations, grassroots mobilization, message strategy, and design. Integrates theoretical foundations and ethics. Focus on measurement and evaluation techniques. Prerequisite: COMA 361. (4)

COMA 487 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 488 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 489 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 491 : Independent Studies

Investigations or research in area of special interest not covered by regular courses; open to qualified junior or senior students. A student should not begin registration for independent study until the specific area for investigation has been approved by a departmental sponsor. May be repeated for credit. (1 to 4)

COMA 499 : Capstone - SR

The capstone focuses on integrating student-learning objectives with student experience through development and presentation of portfolio or projects. Students will make a public presentation of their capstone. (4)

Computer Science

253.535.7400	www.plu.edu/computer-science/	cs@plu.edu
Laurie Murphy, M.S., Chair		

Our curriculum prepares students to work in industry as professional software developers, to continue their studies in graduate school, or to apply their computational skills to another field. With a degree in computer science you might end up writing code for software simulations of proteins, creating the next big video game, or developing a social application that connects people in new ways. The possibilities are limitless.

Software is a fundamental part of modern life. Most of what we do runs on software and the world needs quality people to create that software. We strive to educate our students to be responsible citizens, critical thinkers, effective communicators, and to value life-long learning. Employers value our students for their technical ability, broad education, and excellent communication skills.

The Computer Science program at Pacific Lutheran University provides a broad base of fundamental material that stresses analysis and design experiences with substantial laboratory work, including software development. In addition, students are exposed to a variety of programming languages and systems. Students can choose from a number of upper-division courses, which ensure a depth of knowledge and an understanding of current developments in the field.

Computer Science Majors

Students majoring in computer science may choose to earn either a Bachelor of Arts degree or a Bachelor of Science degree in computer science. The Bachelor of Arts program is the minimum preparation suitable for further professional study and is often combined with extensive study or a second major in an allied field. The Bachelor of Science degree is a strong, scientific degree that contains additional courses in computer science, mathematics, and science and serves both students going directly into employment on graduation and those going into graduate programs. Students should take CSCI 144, 270 and MATH 151, 242 early in their program.

Restrictions for both majors

- A minimum grade of C is required in all CSCI and MATH courses counted for a major and a minimum grade of a C- in all other supporting courses.
- Only one CSCI special topics course (x87, x88, x89) can be used as an elective for the B.A. degree.
- No more than two CSCI special topics courses (x87, x88, x89) can be used as an elective for the B.S. degree.
- For the B.A. degree, at least 12 upper-division hours must be completed at PLU.
- For the B.S. degree, at least 16 upper-division hours must be completed at PLU.

Bachelor of Arts Degree

Major in Computer Science

28 semester hours in CSCI, plus 12 semester hours in mathematics

- CSCI 144, 270; 367 or 390; 499A, and 499B
- 12 additional hours selected from computer science courses numbered above CSCI 300.
- **Required supporting:** MATH 151, 242, and 245

Bachelor of Science Degree

Major in Computer Science

44 semester hours in CSCI, plus 24-26 semester hours of supporting courses in mathematics and science

- CSCI 144, 270, 302, 343, 371, 390, 444, 499A, and 499B
- 12 additional hours selected from computer science courses numbered above CSCI 300 or MATH 356.

- MATH 151, 242, 245, 331
- 8-10 semester hours of a year's sequence of a laboratory science. Choose one of the following options:
 - PHYS 125 and PHYS 126 (with PHYS 135 and PHYS 136)
 - PHYS 153 and PHYS 154 (with PHYS 163 and PHYS 164)
 - CHEM 115 and CHEM 116
 - BIOL 225 and BIOL 226
 - One of ESCI 102-105 and ESCI 201

Minors

Restrictions on Computer Science Minors

At least eight upper-division semester hours must be completed at PLU. All courses counted toward a minor must be completed with a grade of C or higher.

Minor in Computer Science

20 semester hours, including

- CSCI 144, 270
- Eight additional hours of upper-division computer science courses numbered above CSCI 300 (except CSCI 499A and 499B).
- **Required supporting:** MATH 128, 151, or equivalent

Minor in Data Science

For information on the Data Science Minor, see the Data Science website, www.plu.edu/computer-science/data-science or the Data Science catalog listing, [here](#).

Computer Science (CSCI) - Undergraduate Courses

CSCI 115 : Solve It With the Computer - QR

Teaches how computer use combined with mathematical reasoning can solve "real world" problems. Students use computer tools to solve everyday problems involving mathematics, data, and computing. Prerequisite: fulfillment of PLU entrance requirement in mathematics. (4)

CSCI 120 : Computerized Information Systems - QR

Introduction to computers including net-centric computing, computer ethics, operation systems, spreadsheets, graphics, and related topics. Includes a computer laboratory component. Prerequisite: MATH 128 or 140 or equivalent. (4)

CSCI 144 : Introduction to Computer Science - QR

An introduction to computer science including problem solving, algorithm design, object-oriented programming, numerical and non-numerical applications, and use of data files. Ethical and social impacts of computing. Prerequisite: four years of high school mathematics or MATH 140 or equivalent. (4)

CSCI 270 : Data Structures

Study of object-oriented programming techniques and fundamental data structure abstractions and implementations including list, stack, queue, and trees with applications to sorting, searching, and data storage. Prerequisite: CSCI 144. (4)

CSCI 287 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 288 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 289 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 291 : Directed Studies

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. Prerequisite: consent of department chair. (1 to 4)

CSCI 302 : Computer Organization

Introduction to how computer hardware implements high level language statements and data. Topics include data representations, machine level implementation of C programs, and processor architecture (Instruction Set Architecture, sequential, and pipelined processors). Laboratory component includes examining bit-level manipulations of data, reverse engineering binary code to C code, and runtime manipulation of the stack to exploit programming errors. Prerequisite: CSCI 270 or consent of instructor. (4)

CSCI 330 : Introduction to Artificial Intelligence

An introduction to the field of Artificial Intelligence (AI), the theory and practice behind the development of software systems that perform tasks that normally require human intelligence. Covers effective AI techniques (e.g. neural networks, support vector machine, clustering), usage of machine learning tools, and their application to solve programs in different fields (e.g. business, biology). Ethical and social dilemmas posed by AI will be considered. Prerequisite: CSCI 270. (4)

CSCI 340 : Formal Languages

Study of formal models of computation (finite automata, pushdown automata, and Turing machines). Study of formal language concepts, such as regular expressions and grammars. There will be a significant programming component where students implement and test algorithms. Prerequisite: CSCI 270. (4)

CSCI 343 : Programming Language Concepts

A study of the fundamental concepts of computer programming languages. Topics include: a comparison of features of modern languages, criteria for evaluating languages, and an introduction to syntax and lexical analysis including grammars and parsing. The imperative, object-oriented, functional and declarative paradigms will be studied. Prerequisite: CSCI 270. (4)

CSCI 367 : Databases and Web Programming

An introduction to the fundamental concepts necessary for design, use, and implementation of database systems, with application to web-based software. The entity-relationship and relational models are studied in detail. Individual, organization, and societal concerns related to accuracy and privacy of data. Major small group project. Prerequisite: successful completion of, or concurrent enrollment in, CSCI 270. (4)

CSCI 371 : Design and Analysis of Algorithms

Develops competencies associated with problem-solving, algorithms, and algorithm analysis. Includes efficient algorithms, time and space complexity, algorithm design techniques, and advanced data structures. Includes a programming component where students will implement and test algorithms. Prerequisites: CSCI 270 and one of MATH 245 or MATH 317. (4)

CSCI 386 : Computer Networks

An introduction to computer networks and computer communication protocols from the physical layer through the transport layer. Topics include connection oriented and connectionless networks, error detection and correction, LANs, sockets, and routing. Application layer topics can include HTTP, DNS, and email. Prerequisite: CSCI 270. Recommended: MATH 242. (4)

CSCI 387 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 388 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 389 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 390 : Objects and Design

Object-oriented programming techniques, tools, and best practices for dealing with large programs. Topics include object-oriented design and programming, specifications, quality processes, effective debugging, and software testing. Prerequisite: CSCI 270. (4)

CSCI 391 : Problem Solving and Programming Seminar

Designed to improve advanced problem solving and programming skills, including advanced data structures. A goal of the course is participation in the regional ACM programming competition. Pass/Fail only. Students may take this course more than once. Prerequisite: CSCI 270 or consent of instructor. (1)

CSCI 412 : Computer Graphics

An introduction to the principles of computer graphics in two and three dimensions. Topics may include: triangle meshes, transformations, 3D rendering, shader programming, shading techniques, 3D projection, antialiasing, texture mapping, scene graphs, and ray tracing. Course work includes several programming assignments plus a project. Prerequisites: CSCI 270, MATH 331. Recommended: PHYS 153. (4)

CSCI 444 : Operating Systems

An introduction to computer operating systems including process scheduling, memory management, and file systems. Major small group project. Prerequisite: CSCI 302 and MATH 245. Recommended: CSCI 343. (4)

CSCI 487 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 488 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 489 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 491 : Independent Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. Proposed project must be approved by the department chair and supervisory responsibility accepted by an instructor. The title will be listed on the student's term-based record as "IS:" followed by the specific title designated by the student. (1 to 4)

CSCI 495 : Computer Science Internship

To permit undergraduate students to relate theory and practice in a work situation. Students will be expected to adhere to and document the objectives of a learning plan developed with and approved by a faculty sponsor. Credit will be determined by hours spent in the working environment and the depth of the project associated with the course of study. The title will be listed on the student term-based record as "Intern:" followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

CSCI 499A : Capstone: Senior Seminar - SR

Written and oral presentation of a project in a topic of interest by the student under the supervision of a faculty member. Students normally work in small groups (two or three students). Includes gathering requirements from the client/customer, taking a product through the full life cycle, technical communication and a study of the social implications of computing. The capstone is a two-semester sequence beginning in the fall semester. May graduates should start the course in the fall of their senior year and December graduates should begin the course in the fall of their junior year. With CSCI 499B meets the senior seminar/project requirement. Prerequisites: Prerequisites depend on the major and degree. The B.S. in computer science requires CSCI 390. The B.A. in computer science requires CSCI 270; and CSCI 367 or 390. (2)

CSCI 499B : Capstone: Senior Seminar - SR

Continuation of CSCI 499A. With CSCI 499A meets the senior seminar/project requirement. Prerequisite: CSCI 499A. (2)

Data Science

253.535.7400	www.plu.edu/computer-science/data-science/	cs@plu.edu
Laurie Murphy, M.S., Chair		

Our society increasingly values decisions that are supported by data. PLU graduates who can enter their vocations and their communities with experience of collecting, managing and analyzing data will be empowered to lead and serve more thoughtfully, skillfully, and rationally.

Data science is emerging as a field that is revolutionizing science and industries alike. Work across nearly all domains is becoming more data driven, affecting both the jobs that are available and the skills that are required. As more data and ways of analyzing them become available, more aspects of the economy, society, and daily life will become dependent on data... Data science spans a broader array of activities that involve applying principles for data collection, storage, integration, analysis, inference, communication, and ethics. — National Academy of Sciences (NAS), 2018

The Data Science Minor is ideal for students who would benefit from in-depth experiences managing, analyzing, and visualizing data. The minor is designed for students from virtually any major, although quantitative literacy at or exceeding the level of PLU MATH 140 (Precalculus) is required.

Minor in Data Science

20 semester hours

Data science minors must complete a minimum of 20 credit hours in the following areas:

- Computational and Data Science Foundations (8)
- Statistical Foundations (8)
- Domain-Specific Elective (4)

Students may complete requirements for the minor in any order that meets course prerequisites.

A maximum of eight (8) credits may be double-counted for other major and minor requirements, although students minoring in statistics may not use any of their “8 additional semester hours of statistics” toward the Data Science minor.

Students may transfer a maximum of 8 semester hours toward the Data Science minor, unless they have permission from the chair.

All courses counted toward the minor must be completed with grades of C or higher.

Computational and Data Science Foundations

8 semester hours

- DATA 133: Introduction to Data Science I or CSCI 144: Introduction to Computer Science (4)
- DATA 233: Introduction to Data Science II (4)

Statistical Foundations

8 semester hours

- Any of MATH/STAT 145, STAT 231, 232, 233, or MATH/STAT 242 (4)
- MATH/STAT 348: Statistical Computing and Consulting (4)

Domain-Specific Elective

4 semester hours

Select at least one course from the list of electives below that applies data science principles in a disciplinary context or provides deeper study of data science topics. The course must go beyond introductory topics and techniques to develop advanced

statistical expertise for the respective field where at least one of the following are met:

1. Data are not easily collected (e.g., makes use of intricate study design; requires in-depth survey design), OR
2. Data are not easily managed (e.g., data are messy; data set is excessively large; data are not easily synthesized), OR
3. Data are not easily analyzed by selecting routine analyses from a series of menu items (e.g., arguments must be made for appropriate covariates), OR
4. Data are not easily presented (e.g., requires sophisticated visualization techniques)

Approved courses include:

- BUSA 310: Information Systems and Database Management (4)
- BUSA 467: Marketing Research (4)
- COMA 342: Applied Research (4)
- CSCI 330: Artificial Intelligence (4)
- CSCI 367: Databases and Web Programming (4)
- ECON 344: Econometrics (4)
- GEOS 331: Maps: Computer-Aided Mapping and Analysis (4)
- NURS 360: Nursing Research and Informatics (4)
- POLS 301: Political Science Methods (4)
- PSYC 242: Advanced Statistics and Research Design (4)
- SOCI 232: Research Methods (4)

Data Science (DATA) - Undergraduate Courses

DATA 133 : Introduction to Data Science I

Introduction to computer programming and problem-solving using real datasets from a variety of domains such as science, business, and the humanities. Introduces the basics of data science concepts through computational thinking, modeling and simulation and data visualization using the Python programming language and R statistical software. Intended for students without prior programming experience. Prerequisite: completion of PLU MATH 140 or an equivalent college-level course with a grade of C or better; or PLU mathematics placement into PLU MATH 151 or a higher numbered PLU mathematics course. (4)

DATA 233 : Introduction to Data Science II

Continuation of DATA 133, topics may include data manipulation, cleaning and visualization techniques, machine learning techniques, natural language processing, databases, text mining, data science ethics/privacy, etc. Students will collaborate with help of version control systems like GitHub. Python is the main programming language used. Prerequisite: DATA 133 or CSCI 144. Recommended: One of MATH/STAT 145, STAT 231, 232, 233, or MATH/STAT 242. (4)

Economics

253.535.7294	www.plu.edu/economics/	econ@plu.edu
Priscilla St Clair, Ph.D., Chair		

Economics is the study of how people establish social arrangements for producing and distributing goods and services to sustain and enhance human life. Its main goals are both to understand these arrangements and to improve them, seeking the best possible allocation of our scarce resources.

Bachelor of Arts Degree

Major in Economics

Minimum of 32 semester hours

Required Courses for all Economic Majors

20 semester hours

- ECON 101, 102, and 499
- ECON 301 or 302
- STAT 231 or MATH/STAT 242

Additional Required Elective

12 semester hours

- Choose three courses below:
 - ECON 313, 331, 333, 337, 344
 - ECON 301 or 302, if not used to meet the required course above
 - A maximum of 4 credits may be selected from:
 - ECON 215, 287, 387, 487, or 495

To remain in the major, junior and senior-level students must:

- maintain a minimum 2.50 overall GPA, and
- maintain a minimum 2.50 GPA in courses to be counted towards the economics major.

To register for an economics course with any prerequisites, a grade of C- or better must be attained in each of the prerequisite courses. Economics majors may transfer in a maximum of 16 semester hours toward the economics major, unless they have permission from their major advisor. ECON 499 meets the senior seminar/project requirement. For students planning graduate work in economics or business, additional math preparation will be necessary. For specific courses, consult your major advisor.

Minor

20 semester hours

- ECON 101 and 102
- ECON 301 or 302
- 8 additional semester hours of electives
 - 4 hours of which may be from ECON 301 or 302 if not used above
- A maximum of 4 semester hours may be selected from:
 - ECON 215, 287, 387, 487, or 495

All courses counted toward an economics minor must be completed with grades of C- or higher and with a cumulative GPA of 2.5 or higher in those courses. Economics minors may transfer in a maximum of 8 semester hours toward the economics minor, unless they have permission from the chair of the Department of Economics.

Economics (ECON) - Undergraduate Courses

ECON 101 : Principles of Microeconomics - ES

Introduces the study of economic decision making by firms and individuals and analyzes the effect of public policies on these. Economic tools and concepts such as markets, supply and demand, efficiency, and externalities will be applied to contemporary issues such as pollution, international trade, and health care. (4)

ECON 102 : Principles of Macroeconomics - ES

Introduces the economy as a whole and major issues such as inflation, unemployment, economic growth, and international trade. (4)

ECON 215 : Investigating Environmental and Economic Change in Europe - ES, GE

An introduction to the environmental economic problems and policy prospects of modern Europe. Focus on economic incentives and policies to solve problems of air and water pollution, sustainable forestry, global warming, and wildlife management in Austria, Germany, Hungary, the Czech Republic, and Italy. Prerequisite: ECON 101 or consent of instructor. (4)

ECON 287 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 288 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 289 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ECON 301 : Intermediate Microeconomic Analysis

Theory of consumer behavior; product and factor prices under conditions of monopoly, competition, and intermediate markets; welfare economics. Prerequisites: ECON 101 or consent of instructor; and MATH 128 or 151. (4)

ECON 302 : Intermediate Macroeconomic Analysis

National income determination including policy implications within the institutional framework of the U.S. economy. Prerequisites: ECON 101; ECON 102; MATH 128 or 151. (4)

ECON 313 : Environmental Economics

Examines the theory of externalities, pollution regulation, open-access conditions as a basis for environmental degradation, methods of non-market valuation of environmental amenities, and valuation of a statistical life. Attention will be given to both domestic and global examples. Prerequisites: ECON 101 or consent of instructor. (4)

ECON 331 : International Trade and Commercial Policy

Theories of trade based on labor productivity, factor endowments, and scale economies. Welfare analysis of commercial policy instruments. Political economy of interest groups and trade policy. Critical analysis of multilateral efforts to promote trade. Theoretical and empirical linkages among trade policy, renewable resource depletion, and environmental degradation. Prerequisites: ECON 101 or consent of instructor. (4)

ECON 333 : Economic Development - GE

Analysis of the theoretical framework for development with applications to alternative economic development strategies used in developing countries. Emphasis on comparison between countries, assessments of the relative importance of cultural values, historical experience, and governmental policies in the development process. Prerequisites: ECON 101 or consent of instructor. (4)

ECON 337 : International Macroeconomics

An introduction to international macroeconomic theory and policy, including the balance of payments accounts, foreign exchange markets, theory of exchange rates, policies under fixed and flexible exchange rates, economic integration, global financial crises, policy coordination. Prerequisite: ECON 102 or consent of instructor. (4)

ECON 344 : Econometrics

Introduction to the methods and tools of econometrics as the basis for applied research in economics. Specification, estimation, and testing in the classical linear regression model. Prerequisite: ECON 101; ECON 102; STAT 231 or equivalent, or consent of instructor. (4)

ECON 387 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 388 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 389 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 487 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 488 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 489 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisites: ECON 301 or 302 and consent of the department. (1 to 4)

ECON 495 : Internship

A research and writing project in connection with a student's approved off-campus activity. Prerequisites: ECON 101; ECON 301 or 302, sophomore standing, and consent of the department. (1 to 4)

ECON 499 : Capstone: Senior Seminar - SR

Seminar in economic problems and policies with emphasis on encouraging the student to integrate problem-solving methodology with tools of economic analysis. Topic(s) selected by class participants and instructor. Prerequisite: ECON 101, 102, 301 or 302, senior standing; satisfactory completion of two 300-level economics courses other than ECON 301 or 302, all with grade of a C- or above, and declared economics major; or consent of instructor. (4)

Education

Education (EDUC) - Undergraduate Courses

EDUC 205 : Multicultural Perspectives in the Classroom

Examination of issues of race, class, gender, sexual orientation, etc. as they relate to educational practices. (4)

EDUC 287 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 288 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 289 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

EDUC 320 : Issues in Child Abuse and Neglect

Issues of child abuse, neglect, harassment, and violence. Includes identification and reporting procedures, and the legal and professional responsibilities of all mandated reporters. (1)

EDUC 327 : Instructional Systems and Design

Explores instructional systems and design and provides a foundation for knowing how to design, plan, adapt, and modify instruction that meets the needs of diverse learners. Careful attention is given to understanding and meeting the needs of historically marginalized students, integrating skills and strategies into lesson design, and using assessment to guide instructional and programmatic decisions. Integrating concepts of anti-racist pedagogy and universal design for learning provides a foundation for the practical work. (3)

EDUC 330 : Professional Practice I

Teacher candidates will be required to complete a minimum of 45 hours of fieldwork in a local school. (0)

EDUC 332 : Communities, Schools, and Students

Explores the purposes of P-12 education, how schools intersect with local communities, and the range of differences within learners. (2)

EDUC 361 : Teaching and Learning of Science

Provides a hands-on, minds-on course designed to help pre-service elementary teachers learn to teach science to students in grades K-8 in ways that are consistent with what is known about science education and the physical, emotional, and cognitive development of children. The course will focus on inquiry learning and sense-making driven by the Next Generation Science Standards (NGSS) that serve to guide curriculum and instructional development in the state of Washington. (4)

EDUC 370 : Professional Practice II

Teacher candidates will be required to complete a minimum of 90 hours of fieldwork in a local school. Required to coregister in EDUC 371. (0)

EDUC 372 : Teaching and Learning of Reading

This course focuses on developmental stages of literacy development. Reading components phonemic awareness, phonics, fluency, vocabulary, and comprehension are addressed. Assessments and instructional activities to support students' learning in responsive, differentiated ways are taught and practiced. (4)

EDUC 373 : Teaching and Learning of Mathematics

Provides a hands-on, minds-on course designed to help pre-service elementary teachers learn to teach math to students in grades K-8 in ways that are consistent with what is known about math education and physical, emotional, and cognitive development of children. The course will focus on facilitating student discourse to drive procedural fluency through conceptual understanding grounded in the components of effective teaching and learning as outlined by National Council of Teachers of Mathematics (NCTM) and the Common Core State Standards for math (CCSS-M) that serve to guide curriculum and instructional development in the state of Washington. (4)

EDUC 374 : Management and Student Engagement

Develops management strategies for student engagement and increasing academic achievement (4)

EDUC 375 : Technology Integration

The integration of technology tools for the classroom. (2)

EDUC 385 : Comparative Education - GE

Comparison and investigation of materials and cultural systems of education throughout the world. Emphasis on applying knowledge for greater understanding of diverse populations in the K-12 educational system. (2 or 4 credits)

EDUC 387 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 388 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 389 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 391 : Foundations of Learning

Investigation into theories of learning and development and into historical and current practices, values, and beliefs that influence efforts to shape learning in educational settings. Topics include: self as learner, theories of learning, others as learners, exceptionalities, technology, values literacy, and factors influencing learning and literacy. Limited to music and health and fitness education majors. Prerequisite: admission to the School of Education and Kinesiology; completion of MUSI 340 for music education majors, and co-enrollment in KINS 490 for both health and fitness education majors. (3)

EDUC 402 : Internship I

Teacher candidates will be required to complete a minimum of 90 hours of fieldwork in a local school. (0)

EDUC 403 : Building Professional Learning Communities

Seminar groups to provide a critical inquiry bridge between university-based coursework and P-8 fieldwork through the unit's core values of care, competence, difference, service, and leadership. (2)

EDUC 404 : Teaching and Learning of Social Studies

Integration of literacy for the teaching of social studies strategies that can be incorporated into P-8 instructional models and assessments with applications to the development of lesson sequences. (4)

EDUC 405 : Teaching and Learning Art in the Elementary Classroom

Methods and procedures in teaching elementary school art as well as infusing the arts in the curriculum. (2)

EDUC 407 : Teaching and Learning of Writing

This course focuses on the multimodal teaching of writers across developmental stages, emphasizing culturally sustaining practices. This includes developmental and writing processes, genre exploration, the role of identity and community in writing, writing strategies and skills, and formative assessment and feedback. (2)

EDUC 423 : Language and Literacy Development for Multilingual Learners

This course examines stages of second language acquisition; including, examining conceptual, pedagogical, and instructional practices to support bilingualism and differentiate content instruction according to language proficiency. (2)

EDUC 428 : Assessments in Literacy

This course introduces frameworks for understanding reading difficulties and responsive assessment. Teacher candidates learn how to administer and interpret literacy assessments in order to identify areas of instructional focus and indicate those in professional reports communicated across various stakeholders. Purposes, advantages, and limitations of standardized and other assessment tools are explored. (2)

EDUC 429 : Diversity Responsive Children's Literature

Explores diversity responsive children's literature and why these texts are imperative for all readers. Emphasizing identifying, selecting, and evaluating high-quality, diversity responsive books across genres and formats (e.g. novels in verse, graphic novels, print/digital) as well as strategies for advocacy and use in K-6 classrooms. (2)

EDUC 438 : Learner-Centered Literacy Instruction

Focuses on learner-centered literacy instruction, fostering student agency, and literacy identities. Special attention is placed on instructional strategies and methods that cultivate deep comprehension, intrinsic motivation, perspective taking, and critical thinking. (2)

EDUC 446 : Mathematics in the Secondary School

Methods and materials in teaching secondary mathematics. Introduction to Common Core State Standards in Mathematics, effective and equitable mathematics teaching practices, and curriculum design through the exploration of concepts in secondary mathematics. This course includes a field experience component. Cross-listed with MATH 446. Prerequisite: EDUC 205 and MATH 253 or 331. (4)

EDUC 450 : Seminar - SR

A seminar for all education students focusing development of professionalism and competence in inquiry and reflective practice. (2)

EDUC 455 : Internship II

Teacher candidates will be required to complete a minimum of 450 hours of student teaching experience in local public schools under the supervision of PLU-assigned supervisors and classroom teachers. (15)

EDUC 460 : Professional Learning Communities

Seminar groups to provide a critical inquiry bridge between university-based coursework and P-8 fieldwork through the department's/unit's core values of care, competence, difference, service, and leadership. (2)

EDUC 468 : Student Teaching - Secondary

Teaching in public schools under the direction of classroom and university teachers. Prerequisites: Formal application; senior standing; cumulative GPA of 2.50 or higher. Concurrent with EDUC 450. (10)

EDUC 487 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 488 : ST: Higher Education Leadership

Explores the foundations of leadership. Focus is on leadership in higher education. Restricted to PLU administrations and faculty. (1 to 4)

EDUC 489 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 490 : Linguistics and Language Acquisition

Investigation of how young children acquire their first language and what they know as a result of this learning. This course explores first language acquisition and development; including, phonology, syntax, morphology, pragmatics, and semantics. These concepts are examined in relation to standard language ideologies and supporting linguistic justice. (2)

EDUC 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed

on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

EDUC 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

EDUC 497 : Special Project

Individual study and research on education problems or additional laboratory experience in public school classrooms. Prerequisite: consent of the dean. (1 to 4)

Educational Psychology (EPSY) - Undergraduate Courses

EPSY 361 : Psychology for Teaching

Principles and research in human development and learning, especially related to teaching and to the psychological growth, relationships, and adjustment of individuals. For music education majors only. Admission to the School of Education and Kinesiology and completion of MUSI 340. (3)

Special Education (SPED) - Undergraduate Courses

SPED 287 : Special Topics in Special Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 288 : Special Topics in Special Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 289 : Special Topics in Special Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 307 : Foundations in Special Education

Provides an overview of foundational Special Education concepts, laws, and processes and is taken by all undergraduate education majors. Key content will include historical foundations leading to current laws and policies including ADA, IDEA, and 504, as well as the ways current laws influence policies and processes. This preparatory course will provide a foundation for future discussion and topic exploration in theory and practice. (4)

SPED 342 : Methods of Assessment for Students with Disabilities

Provides the beginning special education candidate with the background, theories, and practice knowledge of assessment. This course will cover the basic core skills, terminology, and practice of assessments and evaluation across all categories of IDEA, using a multidisciplinary approach. Principles of RTI, MTSS, and PBIS will be covered using an embedded case study model. Principles of reducing potential bias will be explored across all categories and methods of assessment. (4)

SPED 376 : Instructional Methodologies for Inclusive Classrooms

Provides accommodations and remediation strategies connected to instructional models for the diverse learning needs of students. (3)

SPED 377 : Instructional Methodologies for Inclusive Classrooms

Provides accommodations and remediation strategies connected to instructional models for the diverse learning needs of students. (3)

SPED 404 : Collaboration, Team Building, and Supervision

Focuses on approaches and methodologies for establishing connections with communities, families, and various instructional staff members, including paraeducators. (2)

SPED 409 : Current Trends in Special Education

Provides special education undergraduate candidates with specific, current, and relevant information regarding students with disabilities who required specialized programming. This course will explore topics related to specialized supports and plans pertinent to academics, behavior, mental health, and social-emotional needs. This course will also cover topics related to transition planning for students and collaboration with outside community agencies. The course will also cover current pertinent issues related to law, policies, and practice. All topics will be covered with a focus on inclusion and evidence-based and culturally relevant practices. (4)

SPED 430 : Students with Emotional and Behavioral Disabilities

In-depth exploration of issues related to the identification of and service delivery to students with emotional and behavioral disabilities. Emphasis on specialized management techniques needed to teach this population. A field experience will be required. (3)

SPED 431 : Issues in Autism Spectrum Disorders

This course will provide an overview of Autism Spectrum Disorder for educators as well as other related professionals who may work with or serve children and families with this diagnosis. This course will explore the characteristics of children, youth and adults with autism, evidence-based practices for prevention and intervention, problems and issues in the field, methods of positive behavior support and collaborating with families. (2)

SPED 442 : Technology in Special Education

Current issues and uses of computer technology for learners with special needs. Emphasis on computer assisted instruction, and assistive technology services and devices. (2)

SPED 454 : Methods and Assessment of Students with Complex Support Needs

Exploration of the issues related to identification of and service delivery to this population. Specialized instruction, management techniques, and issues of transitioning from schools to community. A field experience component is included. (3)

SPED 487 : Special Topics in Special Education

To provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 488 : Special Topics in Special Education

To provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 489 : Special Topics

To provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

Bachelor of Arts in Education (B.A.E.) Degree

Major in Education

68-70 semester hours depending on specific program

The following information is for students entering the undergraduate degree program in Fall 2023. For candidates that entered the B.A.E. program prior to Fall 2023, please refer to earlier PLU catalogs.

Eligibility Requirements for Entrance to B.A.E. Program

The School of Education offers direct admission for the Bachelor of Arts in Education (B.A.E.) program. This allows students to pursue Elementary Education (K-8) at the time they are officially enrolled at PLU. **No additional application or interview is necessary for the B.A.E. program.** The education program which culminates in a B.A.E. degree and Washington State Teaching certificate begins in **Fall of your junior year.**

Entrance Requirements:

- Evidence of verbal and quantitative ability as illustrated by a passing score on each of the three sections of the Washington Educators Skills Test Basic (WEST-B) or equivalent SAT/ACT scores. Check www.west.nesinc.com to register (not required for Outreach Education majors).
- Official transcripts of all college/university work (must be from a regionally accredited college/university; foreign transcripts must have a professional evaluation for regional university equivalency)
- Junior standing (60 or more semester hours)
- Cumulative grade point average (GPA) of 2.75
- Psychology 101 or equivalent with a grade of C or higher
- Writing 101 or equivalent with a grade of C or higher
- MATH 123 or equivalent with a grade of C or higher

Continuation in a program of study in the school is subject to continuous assessment of student development and performance. Candidates are required to demonstrate the mastery of knowledge, skills, professionalism, attitudes, and dispositions required for effective practice. Records will be reviewed at the end of each semester to ensure candidates are meeting standards throughout the program.

Degree and Certification Requirements

- All coursework is completed with a cumulative grade point average of 2.50 or above.
- All additional courses related to and required for education programs and teacher certification have been completed with a grade of C or better. For elementary education candidates these include: MATH 123 or equivalent; MATH 124 or equivalent; life science; physical science; KINS 322 or equivalent; and MUSI 341 or equivalent.

Note: Each endorsement requires passing the designated WEST-E or NES. Refer to the student handbook for testing timelines. *The WEST-E or NES must be taken and passed prior to student teaching.*

Eligibility for Certification

Candidates become eligible for certification when they have met the requirements for a B.A.E. **and** passed all required state tests. The B.A.E. requirements are separate from the teacher certification.

Residency Teaching Certificate

Candidates who successfully complete a program of professional studies in the school, who meet all related academic requirements for a degree or a certificate, and who meet all state requirements will be recommended by the school for a Washington State residency teaching certificate. Additional state requirements include a minimum age of 18, good moral character and personal fitness as evidenced by completion of state Pre-Residency Clearance and Washington State Patrol/FBI background check via fingerprint clearance, assessment by means of passing scores on WEST-B, WEST-E or NES/ACTFL exams, and completion of state certification application and payment of state certification fee. Information regarding all state requirements and procedures for certification is available from the certification officer in the school. State requirements are subject to immediate change. Candidates should meet with school advisors each semester and the certification officer for updates in program or application requirements.

Note: The school will make every reasonable attempt to obtain and distribute the most current information regarding Washington State certification requirements, but cannot guarantee that state requirements will remain unchanged.

B.A.E. Curricula

[Elementary Certification and Endorsement Options](#)

[Elementary Education/Special Education Professional Education](#)

[Elementary Education/Reading Professional Education](#)

Preparation for Teaching in Private and/or Christian School

Preparation for Teaching in Private and/or Christian School

Candidates interested in teaching in private or Christian schools will begin their professional preparation by completing all requirements for the Washington State Residency Certificate. In addition, they are required to take the religion minor (Teacher Education option) noted under the Department of Religion course offerings, plus add a private school practicum to their program.

Early Advising

As early as possible during their study at PLU, prospective department majors should meet with the advising coordinator to discuss the various options and to determine their program of study.

Certification Options for Persons Who Hold a Baccalaureate Degree From a Regionally-Accredited Institution

Persons who hold a baccalaureate degree (or higher) from a regionally-accredited institution and who wish to pursue a teaching certificate should make an appointment with the School of Education for a planning session. Options for these individuals can be found in the Graduate and Post-Baccalaureate section of this catalog.

To view graduate-level work in the School of Education and Kinesiology, go to the [Graduate and Post-Baccalaureate section](#) of this catalog or www.plu.edu/education/ppd/

Professional Teaching Certificate

Teachers must earn their Professional Certificate during their first few years of teaching. This Certificate is earned via a passing score on the ProTeach assessment. Check with OSPI for specific timelines and requirements. Within a five-year period, after completing the probationary period for teaching in one district, teachers in Washington must earn a Professional Certificate (WAC 18-79A-145), PLU offers a preparation program to assist teachers in preparation and submission of the ProTeach assessment. More information is available on the [School of Education's](#) webpage.

Qualifications for the Professional Certificate

To qualify for a Professional Certificate, an individual must have completed provisional status as a teacher in a public school pursuant to RCW 28A.405.220 or the equivalent in a state board of education approved private school.

Additional Endorsement Options for Educators

www.plu.edu/education/ppd/summer-endorsements/

Engineering Dual-Degree Program

PLU Requirements

253.535.7653	www.plu.edu/physics/dual-degree/	nsci@plu.edu
Bogomil Gerganov, Ph.D., Director		

In order to earn a PLU degree in the Dual-Degree Program, the following requirements must be satisfied:

Completion of the following science and mathematics courses, paired with a Bachelor of Arts in Physics or Chemistry major, as specified below

44 semester hours

- MATH 151, 152, 253 (12 semester hours)
- MATH 351 or PHYS 354 (4 semester hours)
- PHYS 153, 154, 163, 164, 223 (14 semester hours)
- CHEM 115, 116 (8 semester hours)
- ENGR 131 (2 semester hours)
- DATA 133 or CSCI 144 (4 semester hours)

Completion of the General Education Program element requirements as specified in the catalog, except that the following general requirements are waived for all dual-degree (3-2) students:

- Completion of a minimum of 128 semester hours on the PLU transcript;
- Completion of a minimum of 40 semester hours from courses numbered 300 and above;
- The requirement that at least 20 of the minimum 40 semester hours of upper-division work must be taken at PLU;
- The requirement that the final 32 semester hours of a student's program be completed in residence at PLU; and
- The requirement that the senior seminar/project be completed at PLU. Senior projects from the engineering school (a characteristic of ABET-accredited schools) will satisfy the PLU senior project requirement for Dual-degree students upon approval of the project by the appropriate PLU department chair.

Bachelor of Arts Degree

Major in Physics

12 additional semester hours

Completion of an additional 12 semester hours of electives in science and mathematics from the following courses:

- MATH 331, 356
- PHYS 221, 331, 336
- ENGR 240, 333, 334, 355
- CHEM 341 may be substituted for ENGR 333

The particular courses chosen will depend on the intended subdiscipline and the engineering school's entrance requirements. Students should consult with the program director before choosing their electives.

Major in Chemistry

- Completion of organic chemistry (CHEM 331, 332, 333, 334) and physical chemistry (CHEM 341, 342, 343)

The Engineering School Program

Students are also required to complete an ABET-accredited engineering degree before the Bachelor of Arts degree can be awarded by PLU. The specific course of study in the final phase of the program at the engineering school depends on both the school and the subdiscipline. PLU maintains formal arrangements with Columbia University in New York City and with Washington University in St. Louis to facilitate the transfer process into either of those institutions. Between Columbia University

and Washington University, approximately 20 different engineering subdisciplines are available to Dual-degree students. These include the more common subdisciplines (civil, chemical, electrical, mechanical) and others such as biomedical engineering, applied mathematics, and environmental engineering. Details about the additional requirements for transfer to Columbia University and Washington University can be found at those institutions' websites: undergrad.admissions.columbia.edu/apply/combined-plan and engineering.wustl.edu/prospective-students/dual-degree/Pages/default.aspx.

Academic Expectations

Columbia University requires a cumulative PLU grade point average of 3.30 or higher, and a grade point average of 3.30 or higher in pertinent mathematics and science courses. In addition, Columbia requires that each grade earned in a mathematics or science course at PLU must be at the B level or higher the first time the course is taken. Columbia University requires that students attend at least three full-time years at PLU before transferring. Guaranteed admission is not available for candidates who began college, whether at an affiliate school or not, in Fall 2019 or later. All applicants who began college in Fall 2019 or later will be considered under a competitive review process.

For Washington University, the required grade point average is 3.25, both overall and in science and mathematics courses. Washington University also considers applicants under a competitive review process.

Although students who choose to transfer to another engineering school may be able to gain admission with slightly lower grades than those required by Columbia University and Washington University, all prospective engineering students are well advised to use the higher standard as a more realistic indication of what will be expected of them in the engineering school. Engineering schools often do not allow pass-fail courses; thus, PLU students are advised not to enroll in mathematics, science or engineering courses for pass-fail grading.

For more information, contact the dual-degree program director in the Department of Physics or visit the program website at www.plu.edu/physics/dual-degree/.

English

253.535.7698	www.plu.edu/english/	english@plu.edu
James Albrecht, Ph.D., Chair		

Bachelor of Arts Degree

All majors must complete one of the Concentrations below. Students may complete more than one Concentration.

Major in English (*Literature Concentration*)

At least 36 and up to 44 semester hours in English (excluding FYEP 101) with at least 20 hours upper division, distributed as follows:

ENGL 227: Introduction to Creative Writing CX

4 semester hours

ENGL 275: Literary Passages: An Introduction to Literatures in English

4 semester hours

The department recommends that students take ENGL 227 and 275 within their first two semesters as a declared major.

ENGL 300: Living Stories

4 semester hours

Must be taken before, and not concurrently with, the Senior Capstone (ENGL 434). Students are recommended to take ENGL 300 in their sophomore or junior year.

Literature Courses

16 semester hours (excluding ENGL 275; 12 semester hours upper division), distributed as follows:

- National and Global Traditions (at least 4 semester hours)
 - ENGL 360: Studies in British Literature IT
 - ENGL 370: Studies in American Literature IT
 - ENGL 380: Studies in Global Anglophone Literature IT,GE
- Themes in Literature (at least 4 semester hours)
 - ENGL 334: Studies in Lit for Young Readers IT
 - ENGL 394: Studies in Literature and the Environment IT,GE
 - ENGL 395: Studies in Literature, Gender, and Sexuality IT,GE
 - ENGL 396: Studies in Literature, Race, and Ethnicity IT,GE
 - ENGL 397: Literatures of Genocide and the Holocaust IT,GE

Writing

4 semester hours (excluding ENGL 227)

Any writing course from the 200-400 levels

Electives

0 to 8 semester hours

Any English-designated courses (100 to 400 level): literature, writing, or publishing and printing arts.

Capstone Senior Seminar

ENGL 434: Writing, Literature, and Public Engagement

4 semester hours

Prerequisites: ENGL 227, 275, and 300.

The capstone seminar, generally taken in the senior year, includes a capstone presentation consistent with the general university requirements.

Major in English (*Creative Writing Concentration*)

At least 36 and up to 44 semester hours in English (excluding FYEP 101) with at least 20 semester hours upper division, distributed as follows:

ENGL 227: Introduction to Creative Writing CX

4 semester hours

ENGL 275: Literary Passages: An Introduction to Literatures in English

4 semester hours

The department recommends that students take ENGL 227 and 275 within their first two semesters as a declared major.

ENGL 300: Living Stories

4 semester hours

Must be taken before, and not concurrently with, the Senior Capstone (ENGL 434). Students are recommended to take ENGL 300 in their sophomore or junior year.

Writing Courses

16 semester hours (excluding ENGL 275; 12 semester hours upper division), distributed as follows:

- Creative Writing; 12 semester hours in 2 of 3 major genres (poetry, fiction, creative nonfiction):
 - Poetry:
 - ENGL 327: Intermediate Poetry Writing
 - ENGL 339: Special Topics in Creative Writing (when taught on poetry)
 - Fiction:
 - ENGL 236: Introduction to Screenwriting CX
 - ENGL 329: Intermediate Fiction Writing CX
 - ENGL 339: Special Topics in Creative Writing (when taught on fiction)
 - Creative Nonfiction:
 - ENGL 225: Autobiographical Writing CX
 - ENGL 320: Intermediate Creative Nonfiction
 - ENGL 339: Special Topics in Creative Writing (when taught on creative nonfiction)
- Professional, Public, and Digital Literacies; 4 semester hours, any course specified in the PPDL Concentration

Upper Division Literature

4 semester hours

Any 300-400 level English-designated literature course

Electives

0 to 8 semester hours

Any English-designated courses: literature, writing, or publishing and printing arts.

Capstone Senior Seminar

ENGL 424: Seminar: Writing

4 semester hours

Prerequisites: ENGL 227, 275, 300, and two intermediate-level writing workshop courses.

The capstone seminar, generally taken in the senior year, includes a capstone presentation consistent with the general university requirements.

Major in English (Professional, Public, and Digital Literacies Concentration)

At least 36 and up to 44 semester hours in English (excluding FYEP 101) with at least 20 semester hours upper division, distributed as follows:

ENGL 227: Introduction to Creative Writing CX

4 semester hours

ENGL 275: Literary Passages: An Introduction to Literatures in English

4 semester hours

The department recommends that students take ENGL 227 and 275 within their first two semesters as a declared major.

ENGL 300: Living Stories

4 semester hours

Must be taken before, and not concurrently with, the Senior Capstone (ENGL 434). Students are recommended to take ENGL 300

in their sophomore or junior year.

Writing Courses

16 semester hours (12 semester hours upper division)

- ENGL 311: The Book in Society (PPAP)
- ENGL 312: Publishing Procedures (PPAP)
- ENGL 323: Writing in Professional & Public Settings CX
- ENGL 328: Theories of Reading and Writing ES
- ENGL 336: Digital Writing and Storytelling
- ENGL 387: Topics in Rhetoric, Writing, and Culture
- ENGL 393: The English Language

Students may satisfy 4 credits of this concentration with COMA 215 (Writing for Communication Careers), COMA 343 (Media Writing), or, with the Chair's approval, another appropriate Communication Course.

Upper Division Literature

4 semester hours

Any 300-400 level English-designated literature course

Electives

0 to 8 semester hours

Any English-designated courses: literature, writing, or publishing and printing arts.

Capstone Senior Seminar

ENGL 434: Seminar: Writing, Literature, and Public Engagement

4 semester hours

Prerequisites: ENGL 227, 275, and 300.

The capstone seminar, generally taken in the senior year, includes a capstone presentation consistent with the general university requirements.

Minors

• Literature, Culture, and Power

Study of literature in its cultural and historical contexts; focusing on the ways literature both challenges and perpetuates systems of power; may include themes like environment, race and ethnicity, or gender and sexuality.

20 semester hours (excluding FYEP 101), with at least 12 semester hours in upper-division courses, distributed as follows:

- ENGL 300: Living Stories (4 semester hours)
- Literature Electives (16 semester hours)
 - Any English-designated literature course. ENGL 227 may be substituted for 4 of these hours.

• Writing

20 semester hours (excluding FYEP 101), with at least 12 semester hours in upper-division courses, distributed as follows:

- ENGL 300: Living Stories (4 semester hours)
- Literature course (4 semester hours)
- Writing Electives (12 semester hours)
 - Any English-designated writing course. A second literature course may be substituted for 4 of these hours.

• Publishing and Printing Arts

20 semester hours.

See separate listing under Publishing and Printing Arts.

English majors with a Literature concentration may complete a complementary Writing minor. English majors with a Writing concentration (Creative Writing or Professional, Public, and Digital Literacies) may complete a complementary Literature, Culture, and Power minor. All majors may also complete a minor in Publishing and Printing Arts (PPAP).

Prospective Teachers

Students preparing to teach English in secondary schools should arrange for an advisor in both English and Education. Please also see the [School of Education](#) section of this catalog.

Secondary Education

Students preparing to teach in junior or senior high school may earn either a Bachelor of Arts in English with Certification from the [School of Education](#) or a Bachelor of Arts in Education with a teaching major in English. See course requirements in the [School of Education](#). [The English major with an emphasis in literature and the English major with an emphasis in writing](#) may both be pursued by prospective teachers. State certification for teachers also mandates the following requirements, which are an overlay to the major. Courses taken to satisfy the major can also be courses that satisfy the state certification requirements.

- English literature: one course
- American literature: one course
- Comparative literature: one course (ENGL 214, 216, 217, 232, 233, 235, 235, 334, 348, 394, 395, 396, 397, appropriate seminar)
- Linguistics or structure of language: one course (ENGL 393)
- Writing/Composition: one course (ENGL 328 is especially recommended)

Prospective teachers may take EDUC 529: Reading and Writing Across the Secondary Curriculum as an elective in the English major.

Elementary Education

Students preparing to teach in elementary schools following the Language Arts curriculum, must take 24 semester hours minimum in English, and are advised to follow the structure of the English major in satisfying state certification requirements. Consult your advisor in the School of Education.

Graduate Program [Master of Fine Arts in Creative Writing](#) (Low Residency): Go to the [Graduate and Post-Baccalaureate section](#) of this catalog.

English (ENGL) - Undergraduate Courses

ENGL 213 : Topics in Literature: Themes and Authors - IT

A variable-content course that focuses on the act of reading and interpreting texts. (4)

ENGL 214 : Introduction to Major Literary Genres - IT

Introduction to one or more of the major literary genres (fiction, poetry or drama). Focus of course varies with instructor and term. May be taken more than once for credit with approval of department chair. (4)

ENGL 216 : Topics in Literature - IT, GE

A variable-content course that focuses on literature from non-Euro-American societies. Because course topics may vary considerably, course may be repeated for credit with approval of department chair. (4)

ENGL 217 : Topics in Literature - IT, GE

A variable-content course that focuses on literature that fosters an awareness and understanding of diversity in the United States. Courses may be repeated for credit with approval of department chair. (4)

ENGL 221 : Research and Writing

Strategies for writing academic research papers are practiced, including developing appropriate research topics, locating and using a variety of relevant sources, substantiating generalizations, and using paraphrase and citation accurately. (2 or 4)

ENGL 225 : Autobiographical Writing - CX

Reading autobiography and writing parts of one's own, with an emphasis on how writing style and personal identity complement each other. (4)

ENGL 227 : Introduction to Creative Writing - CX

A beginning workshop in creative writing, focusing on the major genres of poetry, short fiction, and creative nonfiction. Includes a study of techniques and forms to develop critical standards and an understanding of the writing process. Prerequisite: WRIT 101 or its equivalent, Advanced Placement, or consent of instructor. (4)

ENGL 232 : Women's Literature - IT, GE

An introduction to fiction, poetry, and other literatures by women writers. Includes an exploration of women's ways of reading and writing. (4)

ENGL 234 : Environmental Literature - IT

Examines representations of nature in literature, and the ways in which humans define themselves and their relationship with nature through those representations. Focuses on major texts from various cultures and historical periods. Includes poetry, fiction, and non-fiction. (4)

ENGL 235 : Children's Literature - IT

An introduction to the critical reading of picture books, chapter books, novels, and nonfiction for young readers, addressing historical and cultural contexts. (4)

ENGL 236 : Intro to Screenwriting - CX

Introduces students to the elements of screenwriting; including, structure, character, dialogue, and setting. Students will learn to critically read and evaluate scripted media and to produce their own original scripts. (4)

ENGL 241 : American Traditions in Literature - IT

Selected themes that distinguish American literature from British traditions, from colonial or early national roots to current branches: for example, confronting the divine, inventing selfhood, coping with racism. (4)

ENGL 251 : British Traditions in Literature - IT

Selected themes that define British literature as one of the great literatures of the world, from Anglo-Saxon origins to post-modern rebellions: for example, identity, society, and God; love and desire; industry, science, and culture. (4)

ENGL 275 : Literary Passages: An Introduction to Literatures in English

An introduction to literatures in English from around the globe, focusing on the imaginative, critical, and social power of reading and literary study. This theme-based course is centered around an in-depth study of one of Shakespeare's plays, with other readings branching out from this seed text. Students will encounter texts from a variety of historical and geographic contexts, exploring how literary form and genre develop over time and within specific communities. Organizing themes may include: Race and Empire, Nature and the Human, Language and Power, and Gender and Sexuality. Required for all English major and strongly recommended for first-years. (4)

ENGL 287 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 288 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 289 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ENGL 300 : Living Stories

A gateway course for the intermediate-level courses in each of the English major concentrations, focusing on the imaginative, critical, and social power of reading and writing. Students will read and write in a variety of genres, engage criticism and theory, and reflect on the broad question of why reading and writing matter, with a special focus on storytelling. Required for all English majors before taking senior seminar ENGL 424 or 434. Strongly recommended for sophomore or junior year. (4)

ENGL 311 : The Book in Society

A critical study of the history of book culture and the role of books in modern society. Cross-listed with PPAP 301, COMA 321. (4)

ENGL 312 : Publishing Procedures

A workshop introduction to the world of book publishing, involving students in decisions about what to publish and how to produce it. Cross-listed with PPAP 302, COMA 322. (4)

ENGL 313 : The Art of the Book I - CX

This studio course explores the history, aesthetics, and creative dimensions of book design and typography. Prerequisites: Declared PPA minor or permission of instructor. Cross-listed with PPAP321, ARTD 315. (4)

ENGL 314 : The Art of the Book II - CX

Individual projects to explore further typography and fine bookmaking. Prerequisite: PPAP 321 / ARTD 315 / ENGL 313 with a B grade or better or permission of instructor. Cross-listed with PPAP 322. (4)

ENGL 320 : Intermediate Creative Nonfiction

Intermediate-level writing workshop that focuses on the analysis and writing of creative nonfiction. Course may focus on one or more specific sub-genres (personal essay, lyric essay, place-based writing, free-lance writing, memoir, biography, environmental writing, social justice writing, etc.). Prerequisite: ENGL 227. (4)

ENGL 323 : Writing in Professional and Public Settings - CX

Students working in professional settings analyze the rhetorical demands of their job-related writing. (4)

ENGL 327 : Intermediate Poetry Writing

An intermediate-level workshop that focuses on the analysis and writing of poems. Prerequisite: ENGL 227. (4)

ENGL 328 : Theories of Reading and Writing - ES

Students are introduced to philosophical, social, and pragmatic issues confronting teachers of writing. Required for certification by the School of Education and Kinesiology. (4)

ENGL 329 : Intermediate Fiction Writing - CX

An intermediate-level workshop that focuses on the analysis and writing of fiction. Prerequisite: ENGL 227. (4)

ENGL 334 : Studies in Literature for Young Readers - IT

Study of literature and media produced for and about young audiences, from early childhood to adolescence. Possible topics include genres, themes, historical periods, and traditions. Course content varies. Course is repeatable once with different topic. (4)

ENGL 336 : Digital Writing and Storytelling

Students analyze and practice various genres of creative and professional digital writing, visual rhetoric and narrative, and storytelling in the context of Internet and print history and culture. Students read theory, engage in research, collaborate in workshops, and learn project development. (4)

ENGL 339 : Special Topics in Creative Writing

Intermediate-level writing workshop that focuses on the analysis and writing of fiction, poetry, or nonfiction in a particular style or genre. Course topic varies by year. May be repeated once for credit. Prerequisite: ENGL 227 or instructor approval. (4)

ENGL 360 : Studies in British Literature - IT

Study of specific historical periods, literary movements, socio-cultural issues and themes, or major authors in British literature. Emphasis is on careful interpretation of literary texts with attention to their contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 370 : Studies in American Literature - IT

Study of specific historical periods, literary movements, socio-cultural issues and themes, or major authors in American literature. Emphasis is on careful interpretation of literary texts with attention to their contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 380 : Studies in Global Anglophone Literature - IT, GE

Study of specific historical periods, literary movements, socio-cultural issues and themes, or major authors in global Anglophone literature. Emphasis is on careful interpretation of literary texts with attention to their contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 387 : Topics in Rhetoric, Writing and Culture

Provides writers with a grounding in Rhetoric, the art of shaping discourse to respond to cultural context and to produce cultural and social effects. Strategies for generating discourse, appealing to audiences, and crafting a style will be studied in light of their historical origins, theoretical assumptions, social and ethical implications, and practical utility. Recommended for writing majors. (4)

ENGL 388 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 389 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 393 : The English Language

Studies in the structure and history of English, with emphasis on syntactical analysis and issues of usage. (4)

ENGL 394 : Studies in Literature and the Environment IT, GE

Study of literature and media on landscape, human/animal categories, conservation, sustainability, climate, and planet. Approaches may involve ecocritical, ecofeminist, animal studies, or green standpoints. Texts come from genres and movements including ecopoetics, realist fiction, speculative fiction, sf, creative nonfiction, blogs, film, performance, and public art. Course content varies. Course is repeatable once with different topic. (4)

ENGL 395 : Studies in Literature, Gender, and Sexuality - IT, GE

Study of literature through the lens of gender and sexuality. Students practice feminist and queer approaches to literature from a range of historical periods, genres, and 13 national/global contexts. Additionally, this course creates a venue for students and faculty to study literature written by and about sexual and gendered minority communities, including women writers of color and LGBTQ authors. Course content varies. Course is repeatable once with different topic. (4)

ENGL 396 : Studies in Literature, Race, and Ethnicity - IT, GE

Study of literature through the lens of race and ethnicity. Students explore English-language texts written by authors of color, and/or writers from marginalized ethnic, immigrant, or indigenous communities. Focus may be on specific authors, themes,

genres, or historical periods. Course content varies. Course is repeatable once with different topic. (4)

ENGL 397 : Literatures of Genocide and the Holocaust - IT, GE

Study of representations and narratives that attempt to engage and make sense of the Holocaust and other genocides. Texts may include a variety of literature written in multiple genres (poetry, fiction, creative nonfiction, life writing) and media (film, television, plays, photography, blogs) from a range of historical periods and national/global contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 424 : Seminar: Writing - SR

An advanced seminar in revision in which students produce a portfolio of their writing (in at least two genres) for public presentation. Prerequisites: ENGL 300 plus two intermediate-level writing workshop courses (ENGL 322 through 329; 339; 385; 387) or instructor permission. (4)

ENGL 434 : Seminar: Writing, Literature, and Public Engagement - SR

An advanced seminar exploring how various genres of writing, literature, and criticism function as forms of public engagement. Students compile a portfolio of work from their major and produce one substantial project for public presentation. Prerequisites: ENGL 227, 275, and 300; plus two intermediate (300-level) courses from either the Literature or the Professional, Public, and Digital Literacies concentrations; or instructor permission. (4)

ENGL 487 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 488 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 489 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 491 : Independent Study

An intensive course in reading. May include a thesis. Intended for majors only. (4)

ENGL 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

Earth Science & Environmental Studies

Earth Science and Environmental Studies are focused on the study of human interactions with the earth and its environments.

253.535.7744	www.plu.edu/earth-science/	lechlear@plu.edu
Alex Lechler, Ph.D., Chair		

The major and minor in Earth Science focus on the scientific study of the processes that shape the earth. The program offers courses that explore earth materials and what they can tell us about past climates, tectonic activity, and mountain building. We also study natural hazards and other processes that shape earth's surface and how they affect human societies.

253.535.7565	www.plu.edu/environmental-studies/	behrenmd@plu.edu
Michael Behrens, Ph.D., Director		

The major and minor in Environmental Studies examines the complex relationships between humans and the environment by exploring multiple disciplinary perspectives through elective courses from the Humanities, Natural Sciences, and Social Sciences. A required course in Environmental Justice critically interprets values and assumptions that structure communities and their relationships to the earth's ecosystem with special attention to the history of colonialism and capitalism. In ENVT 350: Environmental Methods of Investigation, students study and apply diverse disciplinary frameworks and methodologies toward an integrated understanding of the local Chambers-Clover Creek Watershed.

Bachelor of Arts Degree

Major in Earth Science

34 semester hours in the following earth science courses, plus 4 semester hours in supporting courses

The bachelor of arts degree is the minimum preparation for the field and is best combined with other degree programs, such as another major or minor. Students interested in Earth Science and completing a bachelor of arts in education often combine it with this degree.

- Required: ESCI 201, 401, 498, 499
- 8 semester hours from: ESCI 102, 103, 104, 105, 106, 107, or 109
- 16 semester hours from: ESCI 325, 327, 331, 332, 336, 345, or 387/388/389
- Required supporting non-earth science course: CHEM 104 or CHEM 115
- Recommended: Geologic Field Experience
- Course selections should reflect a student's interests and are discussed with an advisor
- All courses taken for the major must be completed with a grade of C- or higher

Major in Environmental Studies

40 semester hours, completed with a grade of C- or higher and with a cumulative GPA of 2.00 or higher in those courses.

1. Multidisciplinary Courses in Environmental Studies

4 semester hours

By examining the broad dimensions of environmental studies, these courses present various perspectives that highlight the complex relationships between people and the environment and that transcend the boundaries of any particular discipline. Students select one of the following multidisciplinary courses that anchor their understanding of environmental issues. The course should be completed prior to enrolling in either ENVT 350 or 499A.

- ECON 101: Principles of Microeconomics (4)
- ESCI 104: Conservation of Natural Resources (4)
- RELI 239: Environment and Culture (4)

2. Disciplinary Breadth in Environmental Studies

Each course explores the key content, ways of inquiry, conceptual framework and modes of communication of the discipline. Students take courses from each of three areas of study that provide an in-depth exposure to environmental issues within a discipline.

A. The Environment and Science

8 semester hours

These courses emphasize the understanding of scientific knowledge that underpins environmental issues. The interpretation and presentation of data along with concepts of science are stressed. Students select two courses (from two different departments) from the following:

- BIOL 116: Introductory Ecology (4)
- BIOL 367: Conservation Biology & Management* (4)
- BIOL 368: Ecology* (4)
- BIOL 369: Marine Biology* (4)
- CHEM 104: Environmental Chemistry# (4)
- ESCI 103: Earthquakes, Volcanoes, and Geological Hazards (4)
- ESCI 109: The Geology of Energy (4)
- ESCI 332: Geomorphology* (4)
- NSCI 350: STEM Education Partnership (4)

B. **The Environment and Society**

8 semester hours

These courses focus on the understanding of the institutions within which environmental decisions are made and investigate the implementation and implications of environmental decisions. The courses also consider how human communities have shaped and been shaped by their environment and how these relationships have changed over time. Students select two courses (from two different departments) from the following:

- ANTH 368: Edible Landscapes, The Foraging Spectrum (4)
- ECON 215: Investigating Environmental & Economic Change in Europe* (4)
- ECON 313: Environmental Economics* (4)
- HIST 370: Environmental History of the US (4)
- POLS 346: Environmental Politics and Policy (4)

C. **The Environment and Sensibility**

8 semester hours

These courses examine the ways in which nature shapes and is shaped by human consciousness and perception. The courses critically interpret the values and assumptions that structure human communities and their relationships with the earth's ecosystems. Students select two courses (from two different departments) from the following:

- ENGL 234: Environmental Literature (4)
- ENGL 394: Studies in Literature and the Environment (4)
- PHIL 226: Environmental Ethics (4)
- PHIL 327: Environmental Philosophy (4)
- RELI 236: Native American Religious Traditions (4)
- RELI 257: Christian Theology (4)

(when topic is "Green Theology" only)

3. **Environmental Justice**

4 semester hours

These courses examine intersections between environmental degradation and structural discrimination and how Indigenous and/or minoritized communities live in and experience these intersections. The courses critically interpret values and assumptions that structure human communities and their relationships to the earth's ecosystem with special attention to the history of colonialism and capitalism, questions of racism, sexism, xenophobia, and/or speciesism, the exclusions of minoritized communities from environmentalist movements and the survivance and resistance of such communities at these intersections. Students select one course from the following:

1. NAIS 244: Environmental Justice and Indigenous People (4)
2. RELI 365: Climate Justice (4)
3. RELI 397: Indigenous Religions and Cultures of the Pacific Northwest (4)

4. **Interdisciplinary Advanced Courses in Environmental Studies**

8 semester hours

Each student will complete these three synthesis courses that integrate methods and content of various academic perspectives to develop approaches to complex environmental challenges. The courses serve to raise questions, create products or produce explanations that cannot be addressed within the framework of a particular discipline.

- ENVT 350: Environmental Methods of Investigation (4)
- ENVT 499A: Capstone: Senior Project (1)
- ENVT 499B: Capstone: Senior Project (3)

Additional Requirements for an Environmental Studies Major

- A complementary major or minor in another discipline
- A minimum of 20 semester hours of upper-division coursework in the environmental studies major
- Completion of a pre-approved experiential learning activity (**see program director or website for specific requirements**)

Minors

Earth Science

16 semester hours

The minor is for students with another major who are interested in geology but do not have space to complete a second major.

- 4 semester hours from: ESCI 102, 103, 104, 105, 106, 107, or 109
- ESCI 201
- A minimum of eight upper-division semester hours of earth science courses
- All courses for the minor must be completed with a grade of C or higher

Environmental Studies

24 semester hours, completed with a grade of C- or higher and with a cumulative GPA of 2.00 or higher in those courses

1. Multidisciplinary Courses in Environmental Studies

4 semester hours

Students select one of the following multidisciplinary courses that anchor their understanding of environmental issues. This course should be completed prior to enrolling in ENVT 350.

- ECON 101: Principles of Microeconomics (4)
- ESCI 104: Conservation of Natural Resources (4)
- RELI 239: Environment and Culture (4)

2. The Environment and Science

4 semester hours

Students select one course from the following that examine the scientific foundations of environmental issues:

- BIOL 116: Introductory Ecology (4)
- BIOL 367: Conservation Biology and Management* (4)
- BIOL 368: Ecology* (4)
- BIOL 369: Marine Biology* (4)
- CHEM 104: Environmental Chemistry# (4)
- ESCI 103: Earthquakes, Volcanoes, and Geological Hazards (4)
- ESCI 109: The Geology of Energy (4)
- ESCI 332: Geomorphology* (4)
- NSCI 350: STEM Education Partnership (4)

3. The Environment and Society

4 semester hours

Students select one course from the following that pursue the study of institutions where environmental perspectives and policies are applied and how these have changed over time:

- ANTH 368: Edible Landscapes, The Foraging Spectrum (4)
- ECON 215: Investigating Environmental & Economic Change in Europe* (4)
- ECON 313: Environmental Economics* (4)
- HIST 370: Environmental History of the U.S. (4)
- POLI 346: Environmental Politics and Policy (4)

4. The Environment and Sensibility

4 semester hours

Students select one course from the following that examine the ways in which nature shapes and is shaped by human consciousness and perception:

- ENGL 234: Environmental Literature (4)
- ENGL 394: Studies in Literature and the Environment (4)
- PHIL 226: Environmental Ethics (4)
- PHIL 327: Environmental Philosophy (4)
- RELI 236: Native American Religious Traditions (4)
- RELI 257: Christian Theology (4)
(when topic is "Green Theology" only)

5. Environmental Justice

4 semester hours

Students select one course from the following that examine intersections between environmental degradation and structural discrimination and how Indigenous and/or minoritized communities live in and experience these intersections:

1. NAIS 244: Environmental Justice and Indigenous Peoples (4)
2. RELI 365: Climate Justice (4)
3. RELI 397: Indigenous Religions and Cultures of the Pacific Northwest (4)

6. Environmental Methods of Investigation

4 semester hours

- ENVT 350: Environmental Methods of Investigation (4)

Courses listed below denoted with an asterisk (*) require completion of all necessary prerequisites. In consultation with the director of the Environmental Studies Program, students majoring in a natural science discipline and who have taken a higher level CHEM course (115 or above) will be allowed to substitute another course in place of any courses listed below denoted with a pound sign (#).

Earth Science (ESCI) - Undergraduate Courses

ESCI 102 : General Oceanography - NW

Oceanography and its relationship to other fields; physical, chemical, biological, climatic, and geological aspects of the sea. Includes labs and field trips. (4)

ESCI 103 : Earthquakes, Volcanoes, and Geologic Hazards - NW

Study of the geologic environment and its relationship to humans, with emphasis on geologic features and processes that create hazards when encroached upon by human activity; including, earthquakes, volcanic eruptions, landslides and avalanches, and solutions to problems created by these hazards. Includes labs and field trips. (4)

ESCI 104 : Conservation of Natural Resources - NW

Principles and problems of public and private stewardship of our resources with special reference to the Pacific Northwest. Includes labs and field trips. (4)

ESCI 106 : Geology of National Parks - NW

Study of the significant geologic features, processes, and history as illustrated by selected National Parks. Relationship between human history and geology and the impact of geology on our lives will be included. (4)

ESCI 107 : Global Climate Changes - NW

A survey of current climate change research. Students will develop and apply a fundamental understanding of earth systems through evaluation of geologic and other scientific evidence for long- and short-term climate change. (4)

ESCI 109 : The Geology of Energy - NW

Geoscientific exploration of natural systems and processes that create non-renewable and renewable energy resources. Issues of extraction and exploitation of diverse energy resources in a global context. Includes labs. (4)

ESCI 201 : Geologic Principles - NW

This course prepares students for upper-division classes in earth science by investigating earth materials and tectonic processes across spatial scales from the microscopic to the planetary and through geologic time. Emphasis is placed on learning how to form and answer geologically appropriate questions. Includes labs and field trips outside of class time. This course meets state education certification requirements for content in physical and historical geology. (4)

ESCI 287 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 288 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 289 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ESCI 325 : Structural Geology

The form and spatial relationships of various rock masses and an introduction to rock deformation; consideration of basic processes to understand mountain building and continental formation; laboratory emphasizes practical techniques which enable students to analyze regional structural patterns. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 327 : Stratigraphy and Sedimentation

Formational principles of surface-accumulated rocks, and their incorporation in the stratigraphic record. This subject is basic to field mapping and structural interpretation. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 331 : Maps: Computer-Aided Mapping and Analysis

Computer-based Geographic Information Systems, digital maps, and data sources. The creation, interpretation, and analysis of digital maps from multiple data sources. Analysis of spatial information from sciences, social sciences, and humanities using sets of digital maps. Prerequisite: previous science (earth science preferred), math or computer science course or consent of instructor. Familiarity with maps recommended. (4)

ESCI 332 : Geomorphology

Study of the processes that shape the Earth's surface with emphasis on the effects of rock type, geologic structure, and climate on the formation and evolution of landforms. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 336 : Geochemistry

Study of fundamental geochemistry principles with focus on applications to investigations into a wide-range of earth and atmospheric processes and systems. Analysis and interpretation of student-collected and published field and lab data. Includes labs. Prerequisite: ESCI 201 and either CHEM 104 or 115 or consent of instructor. (4)

ESCI 342 : Climate and Earth Systems

Study of climate and climate change, past and present, including the impact of climate changes on earth systems, and the disproportionate impact these changes will have on communities around the globe. Prerequisite: ESCI 201. (4)

ESCI 345 : Tectonic Petrology

This class introduces igneous and metamorphic petrology by following rock compositions through several tectonic processes to see how petrology can be used to better understand large-scale tectonics. Students will interpret rock samples and 8 datasets to produce a comprehensive petro-tectonic analysis in a research-group like setting. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 387 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 388 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 389 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 401 : Field Trip

Field and on-campus study of major geologic sites in western U.S. Trips take place during spring break or at end of spring semester. Prerequisite: ESCI 201 or consent of instructor. A minimum of 4 semester hours of 300-level earth science courses. Pass/Fail. (1)

ESCI 487 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 488 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 489 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 491 : Independent Study

Investigations or research in areas of special interest not covered by regular courses. Requires regular supervision by a faculty member. (1 to 4)

ESCI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ESCI 498 : Seminar

Discussion of professional papers and introduction to directed research for the Capstone project. Required of all majors in their senior year. December graduates should complete the sequence (ESCI 498-499) in their final full year. Prerequisite: at least 8 semester hours of 300-level or above courses in earth science. Pass/Fail. (1)

ESCI 499 : Capstone: Senior Seminar - SR

Culminating experience applying geological methods and theory through original literature or field or laboratory research under the guidance of a faculty mentor, with written and oral presentation of results. Required of all majors in their senior year. Prerequisite: ESCI 498. (4)

Environmental Studies (ENVT) - Undergraduate Courses

ENVT 104 : Conservation of Natural Resources - NW

Principles and problems of public and private stewardship of our resources with specific reference to the Pacific Northwest. Cross-listed with ESCI 104. (4)

ENVT 287 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 288 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 289 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ENVT 350 : Environmental Methods

Study of a watershed using and integrating techniques and principles of environmental sciences, political science, economics, and ethics. Includes laboratory. Prerequisite: ESCI 104, ECON 101, or RELI 101; declared ENVT major or minor; or consent of instructor. (4)

ENVT 387 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 388 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 389 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 487 : Special Topics in Environmental Studies

Selected topics as announced by the program. Course will address current interdisciplinary issues in environmental studies. (1 to 4)

ENVT 488 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 489 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 491 : Independent Study

Opportunity to focus on specific topics or issues in environmental studies under the supervision of a faculty member. (1 to 4)

ENVT 495 : Internship in ENVT

An internship with a private or public sector agency, organization, or company involved in environmental issues. By consent of the chair of environmental studies only. (4)

ENVT 499A : Capstone: Senior Project - SR

An initiation of an interdisciplinary research project of the student's design that integrates the methods and contents of various academic perspectives to develop approaches to complex environmental challenges. A written prospectus is required. This course is required for all ENVT majors. Prerequisite: ENVT 350. (1)

ENVT 499B : Capstone: Senior Project - SR

An interdisciplinary research project of the student's design that integrates the methods and contents of various academic perspectives to develop approaches to complex environmental challenges. A written and oral presentation is required. Prerequisite: ENVT 499A. (3)

First-Year Experience Program

253.535.7806	www.plu.edu/first-year/	fyep@plu.edu
Rona Kaufman, Ph.D., Director		

The First-Year Experience Program prepares students for successful participating in PLU's distinctive academic and co-curricular culture by promoting critical thought, impassioned inquiry and effective expression in learning communities that are both supportive and challenging. All first-year students with fewer than 30 transfer credits are required to participate in this program.

As part of the First Year Experience Program, students complete three courses: FYEP 101, FYEP 102, and PLUS 100. FYEP 101 and PLUS 100 are described below. FYEP 102 seminars call on students to engage with themes and questions related to Diversity, Justice, and Sustainability through a disciplinary lens. FYEP 102 courses will be offered as a format for introductory courses within existing departments. They will be visible in the course title as "FYEP 102:" and will be searchable via the Interactive Schedule using the "FYEP Diversity Seminar (FD)" filter.

Course Offerings

FYEP 101 : Writing Seminar - FW

Students will learn strategies for writing, thinking, speaking, and reading. They encounter writing as a way of thinking, of learning, and of discovering and ordering ideas. Working with interdisciplinary themes, students practice the various academic conventions of writing. (4)

PLUS 100 : Transitions to PLU

Specifically designed for first-year students. Affirming students' past experiences, this course assists an individual student's successful navigation of the complex transition to Pacific Lutheran University. This course is designed to identify and overcome unforeseen barriers in adjusting to college academic and social life. Course topics include increasing hope, understanding vocation, appreciating liberal arts, developing metacognition, maximizing campus resources, creating an academic plan, and learning professional communication skills. (1)

Gender, Sexuality, & Race Studies

253.535.8227	www.plu.edu/gender-sexuality-race/	gsrs@plu.edu
Jennifer James, Ph.D., Chair		

The Gender, Sexuality, and Race Studies (GSRS) program at PLU provides students with an innovative curriculum that examines how gender, sexuality, and race are embedded in complex dynamics of power and resistance, offers intersectional and interdisciplinary ways to understand identities and imagine new configurations of power, and provides students with opportunities to develop skills that will prepare them to pursue social justice and work in diverse communities. Accordingly, GSRS graduates will be able to solve problems in diverse environments, work effectively across difference, and lead from an equity mindset, some of the most important skills and abilities desired by employers.

The gender, sexuality, and race studies major is multidisciplinary and interdisciplinary. Conferral of a baccalaureate degree with a major in gender, sexuality, and race studies requires completion of a complementary major or minor from any department or program in the University.

PLU hosts a chapter of Iota Iota Iota (Triota) Gender and Sexuality Studies Honor Society. Eligible students meet the following criteria: (1) completion of at least 60 semester hours, (2) a minimum 3.5 cumulative GPA at the time of initiation, and (3) a demonstrated academic interest in Gender and Sexuality Studies, as evidenced by being a declared GSRS major or declared Gender & Sexuality Studies minor or having completed at least three courses that meet GSRS major and GS minor requirements (including courses offered by GSRS and courses offered by other programs that have been approved as GSRS electives).

Bachelor of Arts Degree

Major in Gender, Sexuality, and Race Studies

36 semester hours

GSRS Core

16 semester hours

- GSRS 201: Introduction to Gender, Sexuality, and Race Studies (4)
 - Offered every semester
- GSRS 301: Theories of Gender, Sexuality, and Race (4)
 - Offered every Fall semester
- One course from the following:
 - HGST 200: Introduction to Holocaust and Genocide Studies (4)
 - NAIS 250: Introduction to Native American and Indigenous Studies (4)
 - LTST 241: Introduction to Latino Studies (4)
- GSRS 499: Senior Capstone (4)
 - Offered every Spring semester

Electives

20 additional semester hours

- must be selected from GSRS special topic courses or list of GSRS-approved elective courses (see list below);
- must include at least 8 hours in the Gender and Sexuality (GS) distribution
- must include at least 8 hours in the Critical Race Studies (CR) distribution
- must include at least 12 hours of upper-division (300- or 400-level) coursework
- must be selected from at least three departments or programs
- Courses that are not on the approved list, from any discipline, for which at least 60% of the assignments center on women, feminism, gender, race, and/or sexuality may also count for the GSRS major. This allows the integration of gender, sexuality, and race studies perspectives into courses that are not explicitly or entirely structured around those perspectives. Students should consult the GSRS chair about this option before the course begins (when possible) and provide syllabi and assignments to the GSRS Executive Committee for approval upon completion of the course.

Additional GSRS Major Requirement

- A complementary major or minor in another department or program.

Minor in Gender and Sexuality Studies

20 semester hours, including:

- GSRS 201: Introduction to Gender, Sexuality, and Race Studies (4)
 - Offered every semester
- GSRS 301: Theories of Gender, Sexuality, and Race (4)
 - Offered every Fall semester
- 12 additional semester hours
 - must be selected from GSRS special topics courses or from list of GSRS-approved elective courses
 - must include at least 8 hours in the Gender and Sexuality (GS) distribution
 - must be selected from at least two departments or programs
 - must include at least 8 hours of upper-division (300- or 400-level) coursework
 - Courses that are not on the approved list, from any discipline, for which at least 60% of the assignments center on women, feminism, gender, and/or sexuality may also count for the Gender and Sexuality Studies minor. This allows the integration of Gender & Sexuality Studies perspectives into courses that are not explicitly or entirely structured around those perspectives. Students should consult the GSRS chair about this option before the course begins (when possible) and provide syllabi and assignments to the GSRS Executive Committee for approval upon completion of the course.

Minor in Critical Race Studies

20 semester hours, including:

- GSRS 201: Introduction to Gender, Sexuality, and Race Studies (4)
 - Offered every semester
- GSRS 301: Theories of Gender, Sexuality, and Race (4)
 - Offered every Fall semester
- 12 additional semester hours
 - must be selected from GSRS special topics courses or from list of GSRS-approved elective courses
 - must include at least 8 hours in the Critical Race Studies (CR) distribution
 - must be selected from at least two departments or programs
 - must include at least 8 hours of upper-division (300- or 400-level) coursework
 - Courses that are not on the approved list, from any discipline, for which at least 60% of the assignments center on the critical study of race may also count for the Critical Race Studies minor. This allows the integration of Critical Race Studies perspectives into courses that are not explicitly or entirely structured around those perspectives. Students should consult the GSRS chair about this option before the course begins (when possible) and provide syllabi and assignments to the GSRS Executive Committee for approval upon completion of the course.

Because of their shared core courses, students may not double-minor in Gender & Sexuality Studies and Critical Race Studies. Majors in Gender, Sexuality, & Race Studies may not minor in either Gender & Sexuality Studies or Critical Race Studies for the same reason.

GSRS Approved Elective Courses - Gender & Sexuality Distribution

- ARTD 490: Gender and Art
- BIOL 287/387/389 when taught as "Biological Effects of Sex & Gender"
- COMA 303: Gender and Communication
- ENGL 217 when taught as "Queer American Literature"
- ENGL 232: Women's Literature
- ENGL 300 when taught as "Gender Literacies"
- ENGL 348 when taught as "19th Century American Women Writers"; "Anne Frank: Holocaust Icon"
- ENGL 397: Sex, Gender, and the Holocaust
- ENGL 395: Studies in Literature, Gender, and Sexuality
- FREN 306/406: French and Francophone Feminisms
- HISP 433 when taught as "politics and Gender Identities in Contemporary Southern-Cone Narrative and Cinema"
- HIST 289 when taught as "Women in World History"
- KINS 315: Body Image
- RELI 330 when taught as "Sex and the Bible"
- RELI 366 when taught as "Race, Gender, American Christianity"
- RELI 368: Feminist, Womanist, Latinx, and Queer Theologies
- RELI 390 when taught as "Women in the Ancient World"
- PSYC 375: Psychology of Women
- SOCI 210: Gender and Society
- SOCI 494: Gender and Violence

GSRS Approved Elective Courses - Critical Race Studies Distribution

- COMA 304: Intercultural Communication
- ENGL 216 when taught as “Literature of the Raj”
- ENGL 217 when taught as “Asian-American Literature”; “Civil Disobedience: American Protest Literature of Race and Justice”
- ENGL 380 when taught as “Global Refugee Literature”
- IHON 112: Liberty, Power, and Imagination
- NAIS 363: Race and Indigeneity
- POLS 288 when taught as “Latino Experience in America”
- POLS 365: Racial and Ethnic Politics
- POLS 370: Prisons & Prisoners
- PSYC 335: Cultural Psychology
- PSYC 387 when taught as “Race, Anti-Racism, and Child Development”
- RELI 236: Native American Religious Traditions
- RELI 240: African-American Religious Traditions
- RELI 241: Islam in America
- RELI 397: Indigenous Religions and Culture of the Pacific Northwest
- SOCI 332: Race and Racism
- SOCI 387 when taught as “Race, Class, Gender, and Crime”
- SOCI 410: Social Stratification

Gender, Sexuality, & Race Studies (GSRS) - Undergraduate Courses

GSRS 201 : Introduction to Gender, Sexuality, and Race Studies - VW

An interdisciplinary introduction to the concepts, themes, topics, and methods that are central to the study of gender, sexuality, race, and their relationship to other identity categories. Central concepts include knowledge production, the social construction of identity, theories of intersectionality, reflecting on power and privilege, and experimenting with different aspects of praxis and activism. Open to all students; required for GSRS majors and minors. (4)

GSRS 287 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 288 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 289 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 301 : Theories of Gender, Sexuality, and Race

This course explores theories of gender, sexuality, and race from global and intersectional perspectives. Students will also examine the interdisciplinary applications of such theories as well as their relevance to social justice movements and activist work. Prerequisites: GSRS 201, major/minor status, or permission of instructor; required for GSRS majors and minors. (4)

GSRS 387 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 388 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 389 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 487 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 488 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 489 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 491 : Independent Study

Readings, research projects, or service learning projects in areas of issues of gender, sexuality, and race studies, under the supervision of a faculty member. (1 to 4)

GSRS 495 : Internship

A pragmatic, employer-based experience in which students apply knowledge already acquired, build competence, and test values in settings like those in which they may seek employment. Internships require the approval of a GSRS faculty member who will supervise the work of the agency or organization supervisor who will directly supervise the student. (1 to 4)

GSRS 499 : Senior Capstone - SR

During their culminating seminar, Gender, Sexuality, and Race Studies majors will develop an academic project that applies theories of gender, sexuality, and/or race and feminist, queer, and/or anti-racist methodologies to their experiences in a community-based practicum. Prerequisites: GSRS 301, major status, or permission of instructor. Students are advised to have completed at least twelve hours of cross-listed coursework counting towards the GSRS major in addition to GSRS prerequisites. (4)

Global & Cultural Studies

253.535.7216	www.plu.edu/languages/	lang@plu.edu
Paul Manfredi, Ph.D., Chair		

Jump to... ▼

Global and Cultural Studies

The Department of Global and Cultural Studies is a dynamic curricular hub for global education made up of the following programs: Chinese and Chinese Studies, French and Francophone Studies, Global Studies, and Hispanic and Latino Studies.

Aligned with PLU's commitment to global education broadly speaking, both on campus and through study away, our courses promote global awareness and cultural competency through various types of cultural studies and interdisciplinary issue-centered courses, including:

- Immersive learning in world languages, literatures, film, and other forms of cultural expression
- Interdisciplinary analysis of contemporary global problems and possible solutions
- Exploration of past and present struggles for social justice, translational movements of people and ideas, and international affairs

The department offers majors and minor Chinese Studies, French & Francophone Studies, Global Studies, and Hispanic Studies and minors in Chinese and Latino Studies. The department also contributes to Native American and Indigenous Studies by offering introductory level courses in Southern Lushootseed.

Bachelor of Arts Degree

Chinese and Chinese Studies

PLU's Chinese and Chinese Studies Program is an interdisciplinary program which is designed to provide students interested in China a broad foundation in Chinese language, culture, and history and an opportunity to focus on the religious-philosophical world view and economic structure of China. A specific Chinese language minor is also provided.

Major in Chinese Studies

32 semester hours

Required Courses

24 semester hours

- CHIN 201: Intermediate Chinese (4)
- CHIN 202: Intermediate Chinese (4)
- HIST 109: East Asian Societies (4)
- HIST 338: Modern China (4)
- RELI 233: Religions of China (4)
- CHSP 499: Capstone: Senior Project (4)

Electives

8 semester hours

- CHIN 301: Composition and Conversation (4)
- CHIN 302: Composition and Conversation (4)
- CHIN 371: Chinese Literature in Translation (4)

French & Francophone Studies

The French & Francophone Studies program offers courses in the French language and in the literature, film, history, and cultures of French-speaking societies in Europe, Africa, North America, and the Caribbean. All French & Francophone Studies courses meet the Global Engagement (GE) Gen Ed requirement. French & Francophone Studies literature and film courses meet

the Interpreting Text (IT) Gen Ed requirement. 200- and 300-level French history and language courses meet the Values and Worldviews (VW) Gen Ed requirement. Several French & Francophone Studies courses count towards other majors and minors including Global Studies and Gender, Sexuality, and Race Studies.

Major in French & Francophone Studies

36 semester hours, from PLU courses, equivalent transfer courses, or approved study away programs, depending on placement.

Students placing into FREN 201 or 202 will have 4 semester hours waived, achieving the major in 32 semester hours. Students placing into FREN 301 will have 8 semester hours waived, achieving the major in 28 semester hours. If you have previously studied French, please refer to the Language Placement Guide to determine the appropriate level at which to start.

At least 12 semester hours must be taken in FREN-prefixed courses at PLU.

French Language

4-20 semester hours, based on placement

- May include:
 - FREN 101: Beginning French (4)
 - FREN 102: Beginning French (4)
 - FREN 201: Intermediate French (4)
 - FREN 202: Intermediate French (4)
- Must include:
 - FREN 301: Advanced French (4)

French & Francophone literature, film, history, culture

12-20 semester hours, selected from the following:

- FREN 310: French History, Culture, Society (4)
- FREN 311: Francophone Africa in Global Context (4)
- FREN 403: Topics in French Literature (4)
- FREN 404: Postcolonial Francophone Fictions and Criticism (4)
- FREN 405: French/Francophone Film (4)
- FREN 406: French/Francophone Feminisms (4)

Only one course in French & Francophone literature, film, history, culture in English translation (FREN 203, 204, 205, 206, 210, or 211) may be used toward the major.

- FREN 499: Capstone: Senior Project (4)

French & Francophone Studies majors are strongly encouraged to study in a French-speaking country on a semester program approved by French & Francophone Studies faculty and to explore residence options in the French Wing of the Hong Global Community.

Global Studies

The Global Studies Program educates students to engage critically and actively with contending perspectives on global issues, their origins, and possible solutions to global problems, drawing on methods and perspectives from multiple disciplines. To this end, the program offers courses and experiences designed to equip students with the skills and analytical methods needed to comprehend and engage with contemporary global problems and possible solutions, particularly those related to development and social justice, transnational movements of people and ideas, and international affairs.

Course of Study

Students electing the Global Studies major are required to declare a major or minor in another discipline. In addition, students may not apply more than two courses (8 semester hours) from all other majors or minors.

Major in Global Studies

36 semester hours

Global Studies Core

16 semester hours

- GLST/HIST 210: Contemporary Global Issues: Migration, Poverty, and Conflict (4)
- **Select two courses from the following:**
 - ANTH 102: Introduction to Human Cultural Diversity (4)
 - ECON 101: Principles of Microeconomics (4)
 - HIST 103: Conflicts and Convergences in the Modern World (4)
- GLST 499: Capstone: Research Seminar (4)

Issue Area Concentrations

20 semester hours

Five courses must be taken from one of the three concentrations outlined below. At least three of the five courses counted toward a concentration must be at the 300 level or higher. There is a required course for each concentration as noted for each concentration below. Students may not include more than 8 semester hours from any one discipline to fulfill concentration requirements.

Option for second concentration

Students may select a second concentration, requiring 20 semester hours. This includes the required course and four additional courses. At least three of the courses must be at the 300 level or higher. Students do not need to complete study away for the second concentration. Up to 8 of the 20 semester hours for the second concentration may be counted toward other majors or minors over and above the 8 semester hours allowed for the rest of the major requirements.

Language

Students must take through the 202-level of college coursework in a world language or demonstrate equivalent proficiency.

Off-Campus Study Component

Majors are required to participate in an off-campus study program. While off campus, students must earn eight semester hours of credit related to the student's global studies concentration. For example, this study away requirement could be met by taking two appropriate J-Term courses, or by eight semester hours of appropriate coursework taken during a semester away. Language study coursework does not necessarily count for this requirement; coursework must deal with the contemporary world and its issues. Obtaining pre-approval for credit is encouraged. Local internships related to an area concentration and involving a cross-cultural setting may be allowed. The Global Studies chair must approve exceptions. GLST 210, 499, and required concentration courses must be taken on campus.

Concentration: Development and Social Justice

Standards of living have increased dramatically worldwide over the past 100 years, yet poverty and inequality remain features of our world. Continued improvement in human well-being for all involves economic growth, reducing poverty, and addressing inequities and issues of social justice, for example in wealth, political freedom, education, and health care. Given the complexity of development processes and of the diverse array of responses to poverty and social justice concerns, the concentration incorporates the approaches of multiple disciplines such as anthropology, economics, literature, history, and religion.

- Required of all students in this concentration:
 - GLST 357: Global Development (4)
- Other Offerings
 - ECON 313: Environmental Economics (4)
 - ECON 333: Economic Development (4)
 - ENGL 216: Topics in Literature: Emphasis on Cross-Cultural Perspectives (4)
(When approved by GLST chair)
 - FREN 211/311: Francophone Africa in Global Context (4)
 - FREN 204/404: Postcolonial Francophone Fictions and Criticism (4)
 - FREN 206/406: French/Francophone Feminisms (4)
(when the topic is African Woman Writers)
 - HISP 301: Hispanic Voices for Social Change (4)
(when taught by PLU faculty on campus)
 - HISP 351: Hispanic Voices for Social Change for Heritage Speakers (4)
 - HISP 322: Latin American Cultural Studies (4)
 - HIST 218: Women and Gender in World History (4)
 - HIST 305: Slavery in the Americas (4)
 - HIST 333: Colonization and Genocide in Native North America (4)
 - HIST 335: Slavery, Pirates, and Dictatorship: History of the Caribbean (4)
 - NAIS 244: Environmental Justice and Indigenous People (4)
 - NAIS 321: Visual Sovereignty and Indigenous Film (4)
 - NAIS 363: Race and Indigeneity (4)
 - RELI 245: Global Christian Theologies (4)
 - SOCW 325: Social, Educational and Health Services in Tobago (4)
(This is a study away course)

Concentration: Transnationalism and Its Consequences

Migration, colonial occupation, refugee flows, global travel—the movement of people and ideas across national borders both historically and in the present has political, economic, social and cultural impacts for the destination and also for the place of

origin. Using multiple disciplinary perspectives, this concentration investigates the issues arising from the transnational movement of people and ideas such as those related to religious and cultural diversity and political and economic reaction and adjustment.

- Required of all students in this concentration:
 - LTST 342: U.S. Latino/a/x Literary and Cultural Studies (4)
- Other Offerings:
 - COMA 304: Intercultural Communication (4)
 - ENGL 216: Topics in Literature: Emphasis on Cross-Cultural Perspectives (4)
(When approved by GLST chair)
 - ENGL 380: Studies in Global Anglophone Literature (4)
 - FREN 211/311: Francophone Africa in Global Context (4)
 - FREN 206/406: French/Francophone Feminisms (4)
(when the topic is African Woman Writers)
 - HISP 301: Hispanic Voices for Social Change (4)
(when taught by PLU faculty on campus)
 - HISP 351: Hispanic Voices for Social Change for Heritage Speakers (4)
 - HISP 321: Iberian Cultural Studies (4)
 - HISP 322: Latin American Cultural Studies (4)
 - HIST 305: Slavery in the Americas (4)
 - HIST 335: Slavery, Pirates, and Dictatorship: History of the Caribbean (4)
 - HIST 337: The History of Mexico (4)
 - RELI 245: Global Christian Theologies (4)
 - RELI 390/393: Topics in Comparative Religions (4)
(When approved by GLST chair)

Concentration: International Affairs

Interaction on an international scale raises complex issues that are best analyzed from multiple disciplinary perspectives. Diplomacy and political relations require understanding not just of political relationships, but also of economic interactions. Conflict resolution at both domestic (such as in Rwanda) and international (such as between Israel and Palestine) levels requires diplomacy, but also deep cultural understandings. This concentration is designed to provide students with the foundations to build a comprehensive and nuanced understanding of international affairs.

- Required of all students in this concentration:
 - GLST 331: International Relations (4)
- Other Offerings
 - BUSA 337: International Finance and Risk Management (4)
 - BUSA 460: International Marketing (4)
 - COMA 304: Intercultural Communication (4)
 - COMA 340: Conflict and Communication (4)
 - ECON 331: International Trade and Commercial Policy (4)
 - ECON 333: Economic Development (4)
 - ECON 337: International Macroeconomics (4)
 - GLST 325: Global Political Thought (4)
 - GLST 332: American Foreign Policy (4)
 - GLST 357: Global Development (4)
 - GLST 431: Advanced International Relations (4)

Hispanic & Latino Studies

The Hispanic and Latino Studies Program offers a major and minor in Hispanic Studies and a minor in Latino Studies.

The major and minor in Hispanic Studies combine the study of the Spanish language with courses in Latin American, Latino, and Iberian literatures, linguistics, and cultural studies. Primarily taught in Spanish, courses that count towards the major and minor include the study of advanced Spanish language and composition for heritage and second language learners, and engage topics that include, but are not limited to, social justice struggles present and past, migration, race, gender, sexuality, memory, trauma, and the politics of language.

The Latino Studies minor engages many of the same topics, but with a special focus on the experiences of Latino/a/x communities in the United States and its transnational and cultural borderlands. The minor includes a Spanish language requirement, but its core and elective courses are primarily taught in English.

Courses marked with the HISP designation are taught in Spanish. Courses marked with the LTST designation are taught in English.

Major in Hispanic Studies

A minimum of 36 semester hours beyond HISP 102, including:

Language and Composition

4-12 semester hours of Spanish language and critical writing for second language or heritage learners. Students with prior background in Spanish should consult the Language Placement Guide for a recommendation on the appropriate level to start their studies.

- HISP 201: Intermediate Spanish (4)
- HISP 202 or 252: Intermediate Spanish/Spanish for Heritage Speakers (4)
- HISP 301 or 351: Hispanic Voices for Social Change/Hispanic Voices for Heritage Speakers (4)

Introduction to Literary and Cultural Studies

12 semester hours

- HISP 321: Iberian Cultural Studies (4)
- HISP 322: Latin American Cultural Studies (4)
- HISP 325: Introduction to Hispanic Literary Studies (4)

Advanced Literary, Linguistic, and Cultural Studies

8-16 semester hours, selected from the following:

- LTST 341: Latino/a/x Experiences in the U.S. (4)
- LTST 342: U.S. Latino/a/x Literary and Cultural Studies (4)
- HISP 401: Introduction to Hispanic Linguistics (4) OR HISP 403: Advanced Spanish (Study Away) (4)
- HISP 423: Special Topics in Iberian Literatures & Cultures (4)
- HISP 433: Special Topics in Latin American Literatures & Cultures (4)

Capstone Project

4 semester hours

- HISP 499: Capstone: Senior Project (4)

Latino Studies courses are taught in English. No more than one course taught in English may count towards the major.

Majors are strongly encouraged to pursue at least one semester of study in a Spanish-speaking country on a program approved by the Hispanic Studies faculty. Majors may not normally fulfill the requirements for the major through the election of 300-level courses during the senior year.

Continuation Policy

To remain in the Hispanic Studies major, students must maintain a 2.50 overall grade point average (GPA) and maintain a 2.50 GPA in all Hispanic and Latino Studies courses required for the major or the minor.

Minors

Minor in Chinese

20 semester hours

Language

16 semester hours

- CHIN 101: Elementary Chinese (4)
- CHIN 102: Elementary Chinese (4)
- CHIN 201: Intermediate Chinese (4)
- CHIN 202: Intermediate Chinese (4)

Elective

4 semester hours

May be in additional CHIN course(s) or any CHSP course(s).

Minor in Chinese Studies

20 semester hours

Required Courses

8 semester hours in Chinese language

- CHIN 101: Elementary Chinese (4)
- CHIN 102: Elementary Chinese (4) **OR** one equivalent year of university-level Chinese with approval of the program chair

8 semester hours of non-language courses

- CHIN 371: Chinese Literature in Translation (4)
- RELI 233: Religions of China (4)

Electives

4 semester hours

May be any additional CHIN course(s) or any CHSP course(s).

Minor in French & Francophone Studies

20 semester hours from PLU courses, equivalent transfer courses, or approved study away programs, depending on placement.

Students placing into FREN 301 may have 4 semester hours waived to achieve the French & Francophone Studies minor in 16 credits. If you have previously studied French, please refer to the Language Placement Guide to determine the appropriate level at which to start.

At least 8 semester hours must be taken in FREN-prefixed courses at PLU.

French Language

4-20 semester hours, based on placement

- May include:
 - FREN 101: Beginning French (4)
 - FREN 102: Beginning French (4)
 - FREN 201: Intermediate French (4)
 - FREN 301: Advanced French (4)
- Must include:
 - FREN 202: Intermediate French (4)

French & Francophone literature, film, history, culture

0-16 semester hours selected from the following:

- FREN 310: French History, Culture, Society (4)
- FREN 311: Francophone Africa in Global Context (4)
- FREN 403: Topics in French Literature (4)
- FREN 404: Postcolonial Francophone Fictions and Criticism (4)
- FREN 405: French/Francophone Film (4)
- FREN 406: French/Francophone Feminisms (4)

Only one course in French & Francophone literature, film, culture in English translation (FREN 203, 204, 205, 206, 210, or 211) may be used toward the minor.

French & Francophone Studies minors are strongly encouraged to study in a French-speaking country on a semester program approved by French & Francophone Studies faculty and to explore residence options in the French Wing of the Hong Global Community.

Minor in Global Studies

20 semester hours

- GLST/HIST 210: Contemporary Global Issues: Migration, Poverty, and Conflict (4)
- Select one course from the following:
 - ANTH 102: Intro to Human Cultural Diversity (4)
 - ECON 101: Principles of Microeconomics (4)
 - HIST 103: Conflicts & Convergences in the Modern World (4)
- Three courses in one concentration, including the required course for that concentration, and at least two must be at the 300 level or higher.

Students must take one semester of 200-level college coursework in a foreign language or demonstrate equivalent proficiency.

Students must take at least four semester hours of study away course work related to the student's concentration. For example, one appropriate January Term (J-Term) course that would apply toward the student's concentration. Pre-approval is recommended.

Minor in Hispanic Studies

20 semester hours beyond HISP 102, including:

Language and Composition

4-12 semester hours of Spanish language and critical writing for second language or heritage learners. Students with prior background in Spanish should consult the Language Placement Guide for a recommendation on the appropriate level to start their studies.

- HISP 201: Intermediate Spanish (4)
- HISP 202 or 252: Intermediate Spanish/Spanish for Heritage Speakers (4)
- HISP 301 or 351: Hispanic Voices for Social Change/Hispanic Voices for Heritage Speakers (4)

Introduction to Literary and Cultural Studies

4 semester hours

- HISP 325: Introduction to Hispanic Literary Studies (4)

Upper Division Literary, Linguistic, and Cultural Studies

4-12 semester hours, selected from the following:

- HISP 321: Iberian Cultural Studies (4)
- HISP 322: Latin American Cultural Studies (4)
- LTST 341: Latino/a/x Experiences in the U.S. (4)
- LTST 342: U.S. Latino/a/x Literary and Cultural Studies (4)
- HISP 401: Introduction to Hispanic Linguistics (4)
- HISP 403: Advanced Spanish (Study Away) (4)
- HISP 423: Special Topics in Iberian Literatures & Cultural (4)
- HISP 433: Special Topics in Latin American Literatures & Cultures (4)

Latino Studies courses are taught in English. No more than one course taught in English may count towards the minor.

Minor in Latino Studies

20 semester hours, including:

Language

4 semester hours of Spanish language for second language or heritage learners. Students with prior background in Spanish should consult the Language Placement Guide for a recommendation on which course to enroll in.

- HISP 101, 102, 103, 201, 202, 252, 301 or 351 (4)

Latino/a/x Literary, Cultural, and Political Studies

16 semester hours

- LTST 241: Introduction to Latino Studies (4)
- LTST 341: Latino/a/x Experiences in the U.S. (4)
- LTST 342: U.S. Latino/a/x Literary and Cultural Studies (4)
- POLS 265: Latino Politics (4)

Alternative Areas of Inquiry

Students who would like to pursue alternative areas of inquiry related to Latino Studies may substitute a core course with the approval of the Director of Hispanic and Latino Studies. Alternative options may include:

- An additional semester of Spanish language study or an upper division Hispanic Studies course focused on Latin America;
- An internship or experiential learning placement with an organization that serves the Latinx community;
- Comparative study of the experiences of other minoritized communities in the U.S. fulfilled through completion of GSRS 201, NAIS 230, NAIS 250, or any course from the approved list of electives for the Minor in Critical Race Studies

CHIN 101 : Elementary Chinese - GE

Introduction to Mandarin Chinese. Basic skills in listening, speaking, reading, and writing with an emphasis on appropriate use of language in cultural context. Laboratory practice required. (4)

CHIN 102 : Elementary Chinese - GE

A continuation of CHIN 101 or equivalent. Introduction to Mandarin Chinese. Basic skills in listening, speaking, reading, and writing with an emphasis on appropriate use of language in cultural context. Laboratory practice required. (4)

CHIN 201 : Intermediate Chinese - VW, GE

A continuation of CHIN 102 or equivalent. Develops further the ability to communicate in Mandarin Chinese, using culturally authentic material. Laboratory practice required. (4)

CHIN 202 : Intermediate Chinese - VW, GE

A continuation of CHIN 102 or equivalent. Develops further the ability to communicate in Mandarin Chinese, using culturally authentic material. Laboratory practice required. (4)

CHIN 287 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 288 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 289 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

CHIN 301 : Composition and Conversation - IT, GE

Review of grammar with emphasis on idiomatic usage; reading of contemporary authors as models of style; and conversation on topics of student interest. Conducted in Chinese. Prerequisite: CHIN 202. (4)

CHIN 302 : Composition and Conversation - IT, GE

Review of grammar with emphasis on idiomatic usage; reading of contemporary authors as models of style; and conversation on topics of student interest. Conducted in Chinese. Prerequisite: CHIN 202. (4)

CHIN 371 : Chinese Literature in Translation - IT, GE

An introduction to the most important works and writers of Chinese literary traditions, from early times to the modern period. Poetry, prose, drama, and fiction included. Film presentations supplement the required readings. No knowledge of Chinese required. (4)

CHIN 387 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 388 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 389 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 487 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 488 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 489 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

CHIN 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

CHSP 287 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4).

CHSP 288 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 289 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 387 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 388 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 389 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 487 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 488 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 489 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

CHSP 499 : Capstone: Senior Project - SR

A project, thesis, or internship which demonstrates competence in language and other dimensions of Chinese Studies. Must be approved in advance by chair of the Chinese Studies Program; tally card required. Upon prior application of the student, seminars in other departments or programs may substitute for this course. (4)

FREN 101 : Elementary French - GE

Develop basic communicative proficiency in French and learn about French-speaking culture in Europe, Africa, Asia, and/or the Americas. Intended for true beginners. (4)

FREN 102 : Elementary French - GE

A continuation of FREN 101 or equivalent. Develop basic communicative proficiency in French and learn about French-speaking cultures in Europe, Africa, Asia, and/or the Americas. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 201 : Intermediate French - VW, GE

A continuation of FREN 102 or equivalent. Review grammar, develop vocabulary, and improve oral expression through cultural content emphasizing the diverse heritage of French-speaking societies in Europe, Africa, Asia, and/or the Americas. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 202 : Intermediate French - VW, GE

A continuation of FREN 201 or equivalent. Review grammar, develop vocabulary, and improve oral expression through cultural content emphasizing the diverse heritage of French-speaking societies in Europe, Africa, Asia, and/or the Americas. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 203 : Topics in French Literature - IT, GE

The exploration of an enduring aspect of the human experience in French literature from any era. Course taught in English. No prerequisite. (4)

FREN 204 : Postcolonial Francophone Fictions and Criticism - IT, GE

Issues and debates in the fictions of French-speaking Africa, Asia, and/or the Americas, through the lens of postcolonial criticism. Course taught in English. No prerequisite. (4)

FREN 205 : French/Francophone Film - IT, GE

The history of French cinema or the thematic study of film from any region of the French-speaking world, with an introduction to film analysis. Course taught in English. No prerequisite. May be repeated once for credit. (4)

FREN 206 : French/Francophone Feminisms - IT, GE

The development of feminist thought in the literatures of French-speaking societies in Europe, Africa, Asia, and/or the Americas. Course taught in English. No prerequisite. May be repeated once for credit. (4)

FREN 210 : French History, Culture, Society - VW, GE

An introduction to a decisive episode in French history; to an iconic aspect of French culture; or to social issues in contemporary France. Course taught in English. No prerequisite. (4)

FREN 211 : Francophone Africa in Global Context - VW, GE

An introduction to the study of Francophone Africa and African Diasporas with a focus on (post)colonial development. Course taught in English. No prerequisite. (4)

FREN 287 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 288 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 289 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

FREN 301 : Advanced French - VW, GE

A continuation of FREN 202 or equivalent. Advanced grammar, composition, and conversation with an introduction to French and/or Francophone literature and film. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 305 : French/Francophone Film - IT, GE

The history of French cinema or the thematic study of film from any region of the French-speaking world, with an introduction to film analysis. Course taught in English. No prerequisite. May be repeated once for credit. (4)

FREN 310 : French History, Culture, Society - VW, GE

An introduction to a decisive episode in French history; to an iconic aspect of French culture; or to social issues in contemporary France. Coursework in French. Prerequisites: FREN 202, 301, or permission of instructor. May be repeated once for credit. (4)

FREN 311 : Francophone Africa in Global Context - VW, GE

An introduction to the study of Francophone Africa and African Diasporas with a focus on (post)colonial development. Coursework in French. Prerequisites: FREN 202, 301, or permission of instructor. May be repeated once for credit. (4)

FREN 387 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 388 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 389 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 403 : Topics in French Literature - IT, GE

The exploration of an enduring aspect of the human experience in French literature from any era. Coursework in French.

Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 404 : Postcolonial Francophone Fictions and Criticism - IT, GE

Issues of identity and justice in French language literature/film from North Africa, West Africa, North America, and/or the Caribbean, with attention to historical context and aesthetic innovation. Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 405 : French/Francophone Film - IT, GE

The history of French cinema or the thematic study of film from any region of the French-speaking world, with an introduction to film analysis. Coursework in French. Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 406 : French/Francophone Feminisms - IT, GE

The development of feminist thought in the literatures of French-speaking societies in Europe, Africa, Asia and/or the Americas. Coursework in French. Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 487 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 488 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 489 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

FREN 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

FREN 499 : Capstone: Senior Project - SR

With faculty guidance and peer support, students design and develop a research or experiential project with skills acquired in French & Francophone Studies coursework, then present their findings to the public. May be combined with a capstone project in another major contingent on approval by faculty in both units. (4)

GLST 210 : Contemporary Global Issues: Migration, Poverty, and Conflict - ES, GE

This course introduces students to central concepts in global studies and the perspectives of different peoples, states, and organizations as they relate to world events. Through specific units on global movements and reactions, global poverty and inequality, and global conflict and cooperation, students will gain global literacy and knowledge of contemporary issues. May be cross-listed with HIST 210. (4)

GLST 287 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 288 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 289 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

GLST 325 : Global Political Thought - ES, GE

A survey of major political thinkers from ancient to modern times, with particular emphasis on non-Western twentieth-century contributors. Can count for a philosophy major or minor. (4)

GLST 331 : International Relations - ES, GE

A systematic analysis of the international system highlighting patterns in state interaction. (4)

GLST 332 : American Foreign Policy - ES, GE

This course explores how factors such as the U.S. Constitution and domestic politics shape American foreign policy. In doing so, it grounds itself in two major approaches: the theoretical framework of international relations and the historical development of American foreign policy. Core themes and issues may change based on events, but may include topics such as climate change, the U.N. and NATO, humanitarian initiatives, and U.S. policy in the Middle East.

GLST 357 : Global Development - ES, GE

This course examines the emergence of international development as an idea, its effects on the livelihoods of billions of people around the world, and seeks potentials for improving the practice of development. Drawing on literature from anthropology, political science, geography, and economics, we cover theories of progress, the concept of participation, global poverty and inequality, and individual charity. (4)

GLST 387 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 388 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 389 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 431 : Advanced International Relations

Examines various theories of international conflict management, including in-depth analysis of historical examples. The development of international law and international governmental organizations are also considered. Prerequisite: GLST 331. (4)

GLST 487 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 488 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 489 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

GLST 495 : Internship

A project, usually undertaken during a study-abroad experience and supervised by a PLU faculty member, that combines field experience, research, and writing on issues related to the student's issue concentration in Global Studies. Local internships that involve transnational issues and constituencies will also be considered. Prerequisite: prior consent of the chair of the global studies committee and of the supervising PLU faculty member. (1 to 12)

GLST 499 : Capstone: Research Seminar - SR

Required of all students majoring and minoring in Global Studies, this is a capstone seminar that culminates in the writing of an extensive research paper. Prerequisite: GLST/HIST 210. (4)

GLCS 271 : Literature Around the World

Study of canonical, marginal, and/or emerging works of literature that together articulate a crucial development within an established tradition or shed light on contemporary challenges within a community, be it local, global, or virtual. All readings in English. (4)

GLCS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

GLCS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed

on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

GLCS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

HISP 101 : Elementary Spanish - GE

Development of basic communicative proficiency in listening, speaking, reading and writing in Spanish, through learning aspects of the cultures in which it is spoken. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 102 : Elementary Spanish - GE

A continuation of HISP 101 or equivalent. Development of basic communicative proficiency in listening, speaking, reading and writing in Spanish, through learning aspects of the cultures in which it is spoken. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 103 : Accelerated Elementary Spanish - GE

An overview of HISP 101 and 102 ideal for beginners or students seeking comprehensive review of introductory level Spanish. Development of basic communicative proficiency in listening, speaking, reading, and writing in Spanish, through learning aspects of the culture in which it is spoken. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 201 : Intermediate Spanish - VW, GE

A continuation of Elementary Spanish; reading selections which reflect Iberian, Latin American, and US Latinx cultural heritage as well as contemporary materials. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 202 : Intermediate Spanish - VW, GE

A continuation of HISP 201 or equivalent; reading selections which reflect Iberian, Latin American, and US Latinx cultural heritage as well as contemporary materials. Students cannot take both HISP 202 and 252 for credit. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 231 : Intensive Spanish (Study Away) - VW, GE

An intensive Spanish course offered in a Spanish speaking country and geared to students at the intermediate language level (equivalent to HISP 201, 202, or 252). Course typically includes an intensive language class, a home stay, a service project, excursions, and guest lectures on a variety of topics related to the history and culture of the host country. Prerequisite: HISP 102 or the equivalent. (4)

HISP 252 : Spanish for Heritage Speakers - VW, GE

A course designed for students who have been exposed to the Spanish language at home. The course affirms and builds upon the student's Spanish language abilities through conversation about literary and cultural texts, vocabulary expansion, composition and writing activities, and explicit study of grammar structures. Students cannot take both HISP 202 and 252 for credit. Heritage language students should consult the Language Placement Guide before enrolling. (4)

HISP 287 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 288 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 289 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 291 : DS: Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

HISP 301 : Hispanic Voices for Social Change - VW, GE

HISP 301 is a content-based intensive reading and writing course that offers an examination of diverse texts from different times and places in Spanish speaking countries, to focus on how people establish different yet coherent strategies of resistance and adaptation which in turn respond to experiences of social injustice, inequality, geographical displacement and human rights violations in their respective communities. Prerequisite: HISP 202. (4)

HISP 321 : Iberian Cultural Studies - VW, GE

Interdisciplinary exploration of the construction of "Spanish" national identity through literary and cultural productions as it relates to religion, culture, race, class and gender. Prerequisite: HISP 301 or 351. (4)

HISP 322 : Latin American Cultural Studies - VW, GE

Interdisciplinary exploration of the construction of "Latin America" throughout history as it relates to conditions of coloniality and negotiations of culture, race, religion, class, and gender. Prerequisite: HISP 301 or 351. (4)

HISP 325 : Introduction to Hispanic Literary Studies - IT, GE

Acquaints students with techniques of literary analysis, as applied to examples of narrative, poetry, drama, and essay in the Spanish and Latin American literary traditions. Reading, writing, and speaking-intensive. Ongoing review of advanced grammar. Prerequisite: HISP 301 or 351. (4)

HISP 331 : Intensive Spanish (Study Away) - VW, GE

An intensive Spanish course offered in a Spanish speaking country and geared to students at the 300-level (equivalent to 301 or 351). Course typically includes an intensive language class, a home stay, a service project, excursions, and guest lectures on a variety of topics related to the history and culture of the host country. Prerequisite: HISP 202, 252, or the equivalent. (4)

HISP 351 : Hispanic Voices for Social Change for Heritage Speakers - VW, GE

A course designed for students who have been exposed to the Spanish language at home. HISP 351 is a content-based intensive reading and writing course that offers an examination of diverse texts from different times and places in Spanish speaking countries, to focus on how people establish different yet coherent strategies of resistance and adaptation, which in turn respond to experiences of social injustice, inequality, geographical displacement and human rights violations in their respective communities. Students cannot take both HISP 301 and 351 for credit. Prerequisite: HISP 252 recommended, but not required. Heritage language students should consult the Language Placement Guide before enrolling. (4)

HISP 387 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 388 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 389 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 401 : Introduction to Hispanic Linguistics

HISP 401 is an advanced-level content-based course with an in-depth analysis of Spanish syntax, phonology, and morphology along with the evolution of the Spanish language, including the study of dialects and the history of indigenous languages. Prerequisite: HISP 301 or 351. (4)

HISP 403 : Advanced Spanish (Study Away)

An intensive language and culture course offered in a Spanish speaking country and geared to students at the 400-level. Course typically includes an intensive language course, a home stay, a service project, excursions, and guest lectures on a variety of topics related to the history and culture of the host country. Repeatable for general elective credit, but not for additional HISP major or minor credit. Prerequisite: HISP 301 or 351. (4)

HISP 423 : Special Topics in Iberian Literature & Cultures - IT, GE

An opportunity to pursue an in-depth study of a specific aspect or topic in Iberian literary and cultural productions. Topics may include: Migration; Afro-Iberian Writers; Memory and Trauma; Iberian Cities and Andalusian Spectres. May be repeated for credit with different topic. Prerequisite: HISP 321 or 325. (4)

HISP 433 : Special Topics in Latin American Literatures & Cultures - IT, GE

An opportunity to pursue an in-depth study of a specific topic, genre, or time period in Latin American literary and cultural productions. Topics may include: Memory, trauma, and testimonio in the Southern Cone; Mexican indigenismo and indigenist discourses; Caribbean and Central American migration and diaspora studies. May be repeated for credit with different topic. Prerequisite: HISP 322 or 325. (4)

HISP 487 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 488 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 489 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

HISP 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

HISP 499 : Capstone: Senior Project - SR

An opportunity for students to integrate learning objectives and demonstrate competence in Hispanic and Latino Studies through a research project, experiential learning placement, or combined project with a complementary major. With the guidance of a faculty mentor, students will work individually and as a cohort to produce written and oral products in Spanish as a result of the semester's work. (4)

LTST 241 : Introduction to Latino Studies - IT, GE

This course introduces students to the range of issues and analytical approaches that form the foundation of Latino studies. By tracing the history of the "Latino/a/x" concept in relation to key elements of sociocultural life, such as time, space, migration,

identity, class, race, gender, community, power, language, nation, and rights, students will develop understandings of the particular ways in which Latino studies takes shape as a literary as well as intellectual, artistic and political enterprise. (4)

LTST 341 : Latino/a/x Experiences in the U.S. - IT, GE

Exploration of the histories, experiences, and contributions of Latino/a/x communities in the United States as they appear in Latino literary and cultural productions. Course content is enriched through related community engagement experience. (4)

LTST 342 : U.S. Latino/a/x Literary and Cultural Studies - IT, GE

Course introduces students to critical concepts in the field of Latino/a/x literature. Through an examination of narrative texts from different times and places, we will focus on how U.S. Latino/a/x writers reinscribe native roots, cultures, and languages in order to respond to the uncertainties of geographical displacement. English majors may count this course with prior approval from the chair of the English department. (4)

SOLU 101 : Southern Lushootseed: Introduction to Oral Language - VW, GE

Introduction to Southern Lushootseed language. Fundamentals of sound system, grammar, and basic speaking and listening comprehension, as well as cultural dynamics of the language and its users. (4)

SOLU 102 : Southern Lushootseed: Oral Language Dialogue - VW, GE

Continuing development of basic vocabulary, grammar, and speaking, with additional emphasis on dialogue. The course also further develops students' understanding of the cultural contexts of Southern Lushootseed language. (4)

Global Education Opportunities

253.535.7577	www.plu.edu/wang-center/	wang.center@plu.edu
Tamara Williams, Ph.D., Executive Director		

PLU is committed to a vibrant array of global educational opportunities, linked to its mission and vision of educating to achieve a just, healthy, sustainable, and peaceful world. Consult the Wang Center for Global Education for comprehensive and more detailed information. PLU encourages majors in all fields to participate in off-campus study—for a semester, academic year, January Term, or Summer Term—where students earn major, minor, GenEd, and/or elective credits on off-campus programs that span the globe and the calendar.

Semester Programs

• Gateway Programs:

These PLU faculty-developed programs offer coursework, study tours, and immersion in regions that are significant to the fields of study PLU students pursue. The academic focus and program dates vary in these Gateway locations: China; Oxford, England; Mexico; Namibia; Oslo, Norway; Telemark, Norway; and Trinidad & Tobago; and Tacoma, Washington.

• Featured Programs:

PLU also offers programs hosted in conjunction with other universities through consortia in which PLU participates. Featured programs are located in England and Spain.

• Approved Programs:

PLU students participate in the Gateway and Featured Programs listed above every year. However, sometimes a student's particular academic goals are better served by a different program. Through study abroad program providers, PLU offers an array of semester and year-long study away programs with courses in a wide variety of academic disciplines.

• International Internships:

PLU offers internship opportunities in selected locations around the globe, providing students the chance to apply their knowledge in an international work setting. Currently, international internships can be completed as a featured component of a study away program in China, England, Mexico, Namibia, among others through the Approved Programs.

Short Term Programs

• January Term:

A wide variety of off-campus "J-Term" courses led by PLU faculty take students around the globe to destinations ranging from Neah Bay to New Zealand, often on all seven continents. Nearly 300 students participate annually in these intensive J-Term learning experiences, which fulfill many degree requirements.

• Summer Programs:

Short-term study away programs are also available during the summer months. PLU awards academic credit for approved programs and locations.

• Research Grants:

The Wang Center for Global Education awards grants on a competitive basis to students interested in advanced research and experiential learning in a global context, building on previous international experience.

Non-Approved Programs

Opportunities to study away are made available through many other organizations and colleges in the United States, or students choose to enroll directly in an overseas university. In these cases, it is the student's responsibility to arrange in advance for appropriate credit transfer. PLU financial aid is not applicable.

Grading Policy and Credits

Students participating on PLU approved study away programs receive PLU credit and letter grades for their coursework. Courses, credits and grades are recorded on the PLU transcript. However, study away grades are only calculated into the PLU GPA for courses taught by PLU faculty. All study away grades are calculated in the School of Business GPA requirement. Study away courses are not pass/fail.

Program Costs and Financial Aid

Study away costs vary by program; while abroad, students continue to be billed by PLU and are expected to maintain their payment plan arrangements. Financial aid may be applied to all PLU approved programs. This includes State and Federal financial aid (with the exception of work study), university grants and scholarships, and government loans. Students may use their PLU aid on any Gateway or Featured Program, and may use PLU aid on one PLU Approved Program. Tuition Remission and Exchange Tuition remission benefits apply to the cost of study away tuition on PLU approved programs, but not to housing and meal charges.

Tuition exchange benefits apply only to the tuition component of these PLU-directed programs: China, Norway, England (Oxford), Mexico, Namibia, Trinidad and Tobago, Tacoma, Washington and PLU International Internships. Tuition exchange benefits do not apply to any other study away programs offered through Featured or Approved Programs. Global Scholar Awards provide students with financial need greater access to participate in PLU's study away programs. Students may receive up to \$2,500 for a Gateway or Featured semester-long study away program. For a J-Term study away course, the program fee may be reduced by up to 20%. The FAFSA is used to determine eligibility for an award.

Health Professions, College of

253.535.8284	https://www.plu.edu/health-professions/	healthprof@plu.edu
David Ward, Ph.D., Dean		

The College of Health Professions is a community of faculty, staff, and students who carry out PLU's mission of inquiry, service, leadership and care through preparation for vocations in health professions.

Descriptions of specific course offerings and degree requirements offered within the College of Health Professions are listed as follows:

Undergraduate

Kinesiology

Nursing

Social Work

Graduate

Doctor of Nursing Practice (D.N.P.)

Master of Arts – Marriage & Family Therapy (M.A.)

Master of Science – Kinesiology (M.S.)

Master of Science in Nursing (M.S.N.)

History

253.535.7132	www.plu.edu/history/	hist@plu.edu
Rebekah Mergenthal, Ph.D., Chair		

History students at Pacific Lutheran University develop the skills needed to ask important questions, collect and evaluate evidence, work collaboratively with others, and offer clear and evidence-based explanations of past events and phenomena.

Through research and writing projects, internships, lively discussions, class presentations and other opportunities, students build their confidence as poised critical thinkers and effective communicators. History students can study off campus for a month or a semester in many parts of the world, earning credit that counts toward a History major or minor.

Make choices about your future while studying the past. History faculty provide individual advising that supports students as they develop their vocational interests, career paths, and graduate study plans.

Bachelor of Arts Degree

Major in History

Minimum of 36 semester hours; including 4 semester hours of historical methods and research (HIST 301) and 4 semester hours of seminar credits (HIST 499). Completion of the seminar course satisfies the core requirement for a senior seminar/project.

Students are expected to work closely with the department's faculty advisors to ensure the most personalized programs and instruction possible. Writing is emphasized across the curriculum.

All History majors must take 20 semester hours of upper-division work in History for the major.

All courses applied to the History major must be completed with grades of C- or better.

Students will not be allowed to enroll in HIST 301 until they have formally declared their History major.

For the major at least 20 semester hours must be completed at PLU, including HIST 301 before taking HIST 499.

Those majors who are preparing for public school teaching can meet the state history requirement by enrolling in HIST 351.

Minor

Minimum of 16 semester hours; including 4 semester hours from courses numbered above 300.

For the minor at least 8 semester hours must be completed at PLU, including 4 of upper-division courses.

Maintain a minimum 2.50 GPA in courses to be counted towards the minor.

Continuation Policy

To remain in the major, junior and senior-level students must:

- maintain a minimum 2.50 overall GPA, and
- maintain a minimum 2.50 GPA in history courses.

History (HIST) - Undergraduate Courses

HIST 102 : The Pre-Modern World: Explorations & Encounters - ES, GE

An introductory survey of world civilizations from the pre-modern era (c. 3,000 BCE to c. 1500 CE), paying close attention to themes of cross-cultural encounter, the rise and fall of empires, and explorations over land and sea. We will explore global

patterns of trade, technology, and expansion; the spread of ideas, religious traditions, and philosophies; the relationship between warfare, colonization, and the rise of the nation state; and how different cultural, social, and religious encounters have shaped the emergence of the modern world. (4)

HIST 103 : Conflicts and Convergences in the Modern World - ES, GE

A survey of the major historical trends that have led to conflict and convergence in the modern world, with particular attention to the effects of these historical trends on the present day. The course focuses on the following historical developments: the spread of religion, especially Islam into Africa and Christianity into Latin America and Africa; colonialism and decolonization in Latin America, India, and Africa; imperialism, especially European, Mughal, Ottoman, and Russian; the development of the world economic system, especially comparing the West with China and Japan; and cultural globalization in the late 20th and early 21st centuries. (4)

HIST 107 : Ancient Near East - IT, GE

Surveys the history of the ancient Near East and Mediterranean regions, including ancient Sumer, Egypt, Israel, Persia, Greece, and Rome. Major themes include empire building, religion, law, art, and literature. Students learn to investigate historical problems, use sources, and write historical essays. (4)

HIST 109 : East Asian Societies - ES, GE

The broad sweep of East Asian history is examined with foci on the founding Chinese dynasty, unification wars in Korea, and the rape of Nanking in 1937. Throughout, students will confront scholarly fertile and politically tendentious topics which are analyzed via short essays, examinations, maps quizzes, original research, and role-playing exercises. (4)

HIST 121 : History in Video Games - CX

Surveys the social and cultural impact of video games in American history, including how historical figures and events have been represented in popular games during the past 40 years. Combines the study of visual media theories and the creative process with social and political issues in games, including ethical action, violence, gender, ethnicity, religion, and environmental concerns. (4)

HIST 210 : Contemporary Global Issues: Migration, Poverty, and Conflict - ES, GE

This course introduces students to central concepts in global studies and the perspectives of different peoples, states, and organizations as they relate to world events. Through specific units on global movements and reactions, global poverty and inequality, and global conflict and cooperation, students will gain global literacy and knowledge of contemporary issues. May be cross-listed with GLST 210. (4)

HIST 218 : Women and Gender in World History - ES, GE

This course uses a comparative and historical approach to understand gender ideologies and particularly women's roles in modern world history (1500 - present). The course examines gender constructs for both men and women within specific historical and geographical contexts. It covers major areas of the world including India, Western and Eastern Europe, and parts of Asia, Africa, and Latin America to understand historical and global trends in the cultural construction of gender. (4)

HIST 220 : Modern Latin American History - ES, GE

Introduction to modern Latin American history, from 1810 to the present. (4)

HIST 224 : Modern European History - ES

In this course students will be asked to explore the interaction of Europeans with each other and with the larger world. We will study the rise and fall of European nation-states, the wars which dominated the 20th Century, modern genocides, the rise of modern ideologies, and cultural and social structural shifts over the course of the 19th and 20th centuries. Throughout the course students will continually be asked to consider what makes Europe "modern." (4)

HIST 237 : History at the Movies - IT, GE

Many people watch movies for entertainment, yet, at the same time, they are actually learning about the past. But what are they really learning through movies? This class will use international comparisons to explore how history has been depicted and consumed. We will consider thematic approaches (e.g. movies for children, movies depicting slavery) and genres (e.g. Westerns, Samurai movies) to consider what the movie-viewing public is learning about the past and why that matters. Film screenings, as

well as contextual and analytic readings, will enable us to explore history at the movies. (4)

HIST 247 : U.S. Capitalism: From Railroads to Netflix - ES

Surveys the history of American business and the economy from the rise of big business and labor unions after the American Civil War through the era of globalization. Topics include technological change, government regulation, business organization, economic thought, business ethics, the role of the entrepreneur, and the place of women and minorities in American business society. (4)

HIST 248 : Innovation, Ethics, & Society - ES

A history of innovation, problem solving, and creativity in the global economy, emphasizing the ethical considerations that arise as a result of new products and initiatives, disruptive technologies, globalization, and cultural change. Draws attention to stages in the innovation process and the importance of teamwork, effective communication, and design. (4)

HIST 251 : Colonial American History - IT

The history of what became the United States, from the settlement of America to the election of Thomas Jefferson as the third President of the United States in 1800. It will pay particular attention to three periods - the years of settlement, the era of adjustment to an imperial system around the turn of the 18th century, and the revolt against that system in the second half of the 18th century, which culminated in the creation of the American union. Emphasizes certain themes: the origins of racism and slavery, the course of the religious impulse in an increasingly secularized society, and finally, the ideological and constitutional transition from royal government and the rights of Englishmen to republicanism, and popular sovereignty. (4)

HIST 252 : 19th-Century U.S. History - ES

Political, economic, and social transformations in the U.S. during the nineteenth century. Two main themes: struggles over expansion of the American nation-state and over expansion and contraction of the national community. The Civil War is explored as pivotal, but the limitations of its effect are also examined. (4)

HIST 254 : Hanford and the Atomic Age - ES

This course will examine the issues of sustainable energy and nuclear weapons proliferation through the history of the Hanford, Washington nuclear site. We will read and analyze comparative sources from the U.S., Japan, and Russia to examine cross-cultural perspectives on nuclear energy and nuclear weapons. We will also read sources from alternative perspectives on multiple forms of sustainable energy within the U.S. Students will gain an understanding of the viewpoints of those who have been directly involved in the industry as well as those who have been affected by the industry through lectures by experts. (4)

HIST 260 : Early Modern European History: 1400 to 1700 - ES

The foundations of early modern Europe, an era associated with Renaissance and Reformation movements, technological innovation, economic expansion, the revival of learning and visual culture, and the exploration of new geographic worlds. Particular attention to artistic innovation, Protestant and Catholic renewal movements, and the exploration and colonization of the New World. (4)

HIST 287 : Special Topics in U.S. History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 288 : Special Topics in European History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 289 : Special Topics in Non-Western History

This course offers students the opportunity to enhance cultural understanding through the examination of non-Western cultures. (1 to 4)

HIST 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

HIST 301 : Introduction to Historical Methods and Research

Focus on historical methodology, research techniques, and the writing of history from a wide range of historical primary sources. Required for all history majors before taking the senior seminar. Prerequisite: sophomore standing or consent of instructor, and declaration of History major. (4)

HIST 305 : Slavery in the Americas - ES, GE

The comparative history of how slavery (and freedom) were constituted over time and in different parts of the Americas. Topics covered include: Atlantic slave trade, Native slavery, development of slavery and racism, rise of antislavery thought, plantation society, slave resistance and revolts, and the reconstruction of society after emancipation. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 321 : Greek Civilization

The political, social, and cultural history of Ancient Greece from the Bronze Age to the Hellenistic period. Special attention to the literature, art, and intellectual history of the Greeks. Cross-listed with CLAS 321. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 322 : Roman Civilization

The history of Rome from the foundation of the city to CE 337, the death of Constantine. Emphasis on Rome's expansion over the Mediterranean and on its constitutional history. Attention to the rise of Christianity within a Greco-Roman context. Cross-listed with CLAS 322. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 323 : The Middle Ages - IT, GE

Surveys the history of Western Europe during the Middle Ages, from late antiquity (c. 200) to the High Middle Ages (c. 1300). Major themes include the late Roman Empire, early Christianity and monasticism, Germanic and Anglo-Saxon culture, Carolingian Europe, the First Crusade, trade networks and economic revival, and medieval Judaism. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 329 : Europe and the World Wars: 1914 to 1945 - ES

World War I; revolution and return to "normalcy"? depression and the rise of fascism; World War II. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 332 : Tudor England - IT

Political, social, and religious developments in early modern England during the Tudor monarchies (1485 to 1603). Themes include the economic and demographic changes in England, Scotland, and Wales; Henry VIII's "Great Matter"; the Protestant Reformation and Anglicanism; Thomas More's Utopia; wars with France and Spain; and film study. Typically offered in J-Term. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 333 : Colonization and Genocide in Native North America - ES, GE

This course explores the centrality and implications of colonialism in the making of North America. We will also consider where and why the concept of genocide can help in understanding the experience of Native groups, the limits of the concept, as well as the basis for objections to applying it to the context of indigenous North America. (4)

HIST 335 : Slavery, Pirates, and Dictatorships: The History of the Caribbean - IT, GE

This course surveys the major aspects of colonial and post-colonial history in the Caribbean, paying particular attention to Cuba and Haiti. It focuses on the major themes of slavery, piracy, and dictatorship to illustrate the region's history. (4)

HIST 337 : The History of Mexico - IT, GE

The political, economic, social, and cultural changes that have taken place in Mexico from 1350 to the present. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 338 : Modern China - C, SO

The beginning of China's modern history, with special emphasis on the genesis of the Chinese revolution and China's position in an increasingly integrated world. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 346 : History of Innovation and Technology - ES

Surveys the role of innovation and technology in Western societies from the industrial revolution to the computer age. Major themes include the development of forms of transportation, communication, industrial production, and computer technologies. Draws attention to stages in the innovation process and to developing an ethical vocabulary for business and entrepreneurial activity. (4)

HIST 348 : Lewis and Clark: History and Memory - IT, GE

Examines the Lewis and Clark expedition of 1804-1806 and its broader impact, including its costs and consequences for both the expanding U.S. and the people affected by it. Course emphasizes Native American perspectives of the expedition and how it has been depicted and commemorated in U.S. popular culture. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 349 : U.S. Civil War and Reconstruction - ES

Examines the history of the American Civil War (1861 to 1865) and the subsequent period of Reconstruction. Course uses a wide range of historical sources to understand the social, political, and military histories of the war itself and the legacies of Reconstruction. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 351 : History of the Western and Pacific Northwest U.S. - ES, GE

How "the West" was defined and geographically situated has changed greatly over time. Yet, "the West" - as both a place and an idea - has played a critical role in the development of the American nation. Course explores historiography and the evolving definitions and understandings of region in the United States. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 360 : The Holocaust: The Destruction of the European Jews - ES, GE

Investigation of the development of modern anti-Semitism, its relationship to fascism, the rise of Hitler, the structure of the German dictatorship, the evolution of Nazi Jewish policy, the mechanics of the Final Solution, the nature of the perpetrators, the experience and response of the victims, the reaction of the outside world, and the post-war attempt to deal with an unparalleled crime through traditional judicial procedures. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 362 : Christians in Nazi Germany

This course will study the response of Christians in Germany to Hitler and the Holocaust, analyzing why some Christians opposed the regime but also why a large number found Hitler's ideology and policies attractive. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 366 : Life in Nazi Germany - ES

How was Hitler possible in the modern and advanced nation of Germany? This course seeks to explore that question by examining some of the conditions that were present in German life which helped prepare the soil in which Hitler and the Nazi Party came to flourish. We then address Hitler in power and how Nazi policies impacted the lives of German people, resulting in world war and the Holocaust. (4)

HIST 370 : Environmental History of the United States - ES

Uses historical methods to investigate the interrelationship between people and their environment in the United States. Explores the ways in which humans have interacted with, shaped, and been shaped by their physical environments in the past. Examines the fact that nature, too, has a history, one profoundly shaped by humans. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 387 : Special Topics in U.S. History

This course provides specific opportunities for students to examine chronologically, topically or geographically focused areas of study in U.S. History. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 388 : Special Topics in European History

This course provides specific opportunities for students to examine chronologically, topically or geographically focused areas of study in European History. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 389 : Special Topics in Non-Western History

This course provides specific opportunities for students to examine chronologically, topically or geographically focused areas of study in Non-Western History through the examination of non-Western cultures. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 487 : Special Topics in History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 488 : Special Topics in History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 489 : Special Topics in History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

HIST 495 : Internship

A research and writing project in connection with a student's approved off-campus work or travel activity, or a dimension of it. Prerequisite: sophomore standing plus one course in history, and consent of the department. (1 to 6)

HIST 499 : Seminar: History - SR

Students write a substantial research paper using appropriate collection and analysis of primary source materials or extensive use of secondary sources and engagement of issues in a strongly historiographical manner. Prerequisite: HIST 301. (4)

Holocaust & Genocide Studies

253.535.7312	www.plu.edu/hgst/minor/	marcusls@plu.edu
Lisa Marcus, Ph.D., Director		

The Holocaust and Genocide Studies program is strongly grounded in PLU's educational commitment to helping its students develop as global citizens, future leaders, and whole, richly informed persons. As the University's statement on General Education notes, PLU offers an education not only in values, but in valuing, and asserts strongly that "life gains meaning when dedicated to a good larger than oneself." Close study of the Holocaust and other examples of mass violence challenges us to push far beyond our comfort zones. Students who choose to earn a minor in Holocaust and Genocide Studies will join a scholarly community that believes that the Holocaust and other genocides must be studied, its victims must be remembered, human rights and dignity must be honored through our daily beliefs, and yet the search for "lessons" drawn from the Holocaust and genocide is a never-ending process.

Minor

20 semester hours (a minimum of 12 semester hours of upper division) to include:

- HGST 200 (4)
- HIST 360 (4)
- Elective courses (12 semester hours, a minimum of 8 hours upper division)
- No more than 12 semester hours may be used from an individual department or IHON program.
- No more than 8 semester hours may be used to satisfy the HGST minor and any other minors or majors.
- A minimum of 12 semester hours must be earned in residence at PLU.

It is highly recommended that students complete HGST 200 before enrolling in HIST 360. Elective course hours may be earned in two ways.

1. Approved courses and elective options (listed below) may be selected and completed without consulting the HGST program director.
2. Other elective courses and options (described below) can only be counted toward the minor after consultation with the HGST program director and submission to the Office of the Registrar for inclusion in the student's degree plan.

HGST Approved Elective Courses

- ARTD 383: Studies in Art History: Art and Memory
- HGST 287/288/289: Special Topics in Holocaust and Genocide Studies
- HGST 387/388/389: Special Topics in Holocaust and Genocide Studies
- HGST 291/491: Independent Studies in Holocaust and Genocide Studies
- HGST 495: Internship in Holocaust and Genocide Studies
- HIST 329: Europe and the World Wars: 1914-1945
- HIST 362: Christians in Nazi Germany
- HIST 387/388/389: Special Topics in European History: Holocaust Memories in Berlin, Prague, and Poland
- RELI 230: Religion and Culture: Judaism in America
- RELI 237: Judaism

Other Electives that Require Consultation and Approval

- Special topic courses that pertain to HGST will be identified each semester/term as "approved" for elective credit in the program. Consult with the director of the HGST program for a list of such courses.
- Courses from any discipline for which at least 60% of the assignments center on themes or content that pertains to the study of the Holocaust, genocide, and/or examples of mass violence and oppression may be approved for elective credit. Consent of the instructor is required. Students should consult the director of the Holocaust and Genocide Studies program about this option before the course begins (when possible). To complete the process, students must also submit a syllabus, assignments,

- and other relevant materials to the HGST coordinating committee after completing the course.
- Selected semester-long study away programs may be used to meet up to 8 semester hours; consult the director of the HGST program for more information.

HGST 200 : Introduction to Holocaust and Genocide Studies - VW, GE

This multidisciplinary class examines the Holocaust and selected examples of genocide and systematic mass violence to probe the intersections of dehumanization, violent oppression, cultural destruction, and war in the last two centuries. Voices of resisters and case studies from the U.S. are included. (4)

HGST 287 : Special Topics in Holocaust & Genocide Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HGST 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

HGST 387 : Special Topics in Holocaust & Genocide Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HGST 491 : Independent Study in Holocaust & Genocide Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

HGST 495 : Internship in Holocaust & Genocide Studies

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

Liberal Studies, College of

253.535.7321	www.plu.edu/liberal-studies/	cols@plu.edu
Patricia Bixel, Ph.D., Interim Dean		

Degrees Offered

The College of Liberal Studies educates students to engage critically and creatively with what it means to be human and how humans form communities across diverse cultural contexts, time periods, and environments. Disciplines within the College are foundational to the Liberal Arts, our Core Curriculum, and interdisciplinary programs that reach across the University.

Our majors prepare students for careers grounded in their fields and for wide-ranging graduate study. All of our programs include the essential tools of a liberal arts education: critical thinking, collaborative learning, strategic problem solving, and the ability to thoughtfully and creatively make connections.

Our students work closely alongside faculty in discussion, research, and reflection, as we support and honor students as whole people, in a complex world.

The College of Liberal Studies offers B.A. degrees in most of the programs in our college, as well as minors, core courses that fulfill Core Curriculum elements, and a MFA in Creative Writing through our Rainier Writer's Workshop.

Descriptions of specific course offerings and degree requirements offered within the College of Liberal Studies are listed under their respective departmental pages below.

Undergraduate

- [Anthropology](#)
- [Economics](#)
- [English](#)
- [Gender, Sexuality, & Race Studies](#)
- [Global & Cultural Studies](#)
- [History](#)

Individualized Major

253.535.7209	www.plu.edu/individualized-majors/	bixelp@plu.edu
Patricia Bixel, Ph.D., Interim Dean		

Individualized Major in Interdisciplinary Studies

This program offers students the opportunity to develop and complete personally designed, interdisciplinary majors that are grounded in the liberal arts and build connections with professional programs.

Students may apply for the Individualized Major in Interdisciplinary Studies at any time during their years at PLU, but it is preferred they do so prior to beginning their senior year. All students seeking an Individualized Major in Interdisciplinary Studies work with a faculty member or the program director to develop a proposal that includes:

- 1. Statement of Objectives**

The student describes what the degree is expected to represent and why the individualized course of study is more appropriate than a traditional degree program. Students are encouraged to discuss vocational or career aspirations and how this course of study speaks to those goals. Applicants are encouraged to develop this statement in conversation with the program director or their faculty advisor.

- 2. A Program of Study**

The student describes how the objectives will be attained through regular coursework, independent study, possible study away, internships, or other means. This proposal must outline a complete schedule of courses to be completed over the time remaining until the granting of a degree. Students are encouraged to design a program of study that reflects the following guidelines:

1. At least 36 semester hours
2. At least 12 semester hours of upper division courses, not including a capstone
3. Courses from two or more disciplines
4. If the student has another major or minor, in most instances no more than 2 courses should “double-dip” with that other major or minor

- 3. Context and Background**

The student is encouraged to provide any additional context for their proposal. This may include discussion of previous academic course work, life experience, professional work experience, or other information they would like to share about why this pathway is a good choice for them at this time.

- 4. Name of Preferred Faculty Advisor(s)**

The student should identify one faculty member who may serve as their primary advisor. Students may also identify one or more additional faculty members who may serve as supporting advisors. Students are encouraged to consult with the program director if they would like guidance in identifying a possible advisor.

Upon receipt of the proposal, the program administrator will invite faculty advisors to complete a Faculty Recommendation Form, indicating their assessment of the student’s ability to meet their learning goals and their willingness to support the student as a primary or secondary advisor. Proposals will then be reviewed by the program director in consultation with faculty advisors and the director of undergraduate programs. The student will be notified if the proposal has been approved or if further revisions are necessary, most often within two weeks of submission. All subsequent changes in the study plan must be submitted in writing and approved by the program director in consultation with the student’s faculty advisor(s) and the director of undergraduate programs.

When completed, this approved course of study leads to the conferral of the B.A. degree with an individualized major in Interdisciplinary Studies.

Individualized Study (IDST) - Undergraduate

IDST 491 : Independent Study

Students will develop projects in consultation with faculty advisors. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

IDST 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-

based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4).

IDST 499 : Capstone: Research Seminar - SR

A culminating project with public presentation around the student's area of interest. (2 to 4)

Innovation Studies

253.535.7595	www.plu.edu/innovation-studies	halvormj@plu.edu
Michael Halvorson, Ph.D., Director		

The Innovation Studies program focuses on nurturing and developing original thought, transformative ideas, and breakthrough products in a team-driven context. The minor combines PLU's distinctive offerings in the liberal arts and the professional schools, as well as programming offered by the Benson Chair in Business and Economic History. The Innovation Studies minor is especially supportive of, and connected to, PLU initiatives that encourage diversity, justice, and sustainability.

Foundation courses in the minor build essential skills to understand the process of innovation in historical and ethical contexts and to learn fundamental concepts in economic theory, art & design, communication, and business management. A concluding seminar requires that students work in teams to envision their own innovative solutions to ethical concerns, pressing problems, and business opportunities.

The minor's flexible curriculum enables students to integrate their major into a rich interdisciplinary framework and to leverage their current proficiencies while discovering new ones. When students enter the workplace, they will have the preparation to think creatively, form teams, engage the marketplace, and collaborate across fields and departments.

Minor

20 semester hours

Students are expected to work closely with Innovation Studies faculty advisors to ensure the most personalized programs and instruction possible. In addition, outside-the-classroom activities form an important part of this interdisciplinary minor, which emphasizes teamwork, leadership, and collaborative problem solving. These activities include meetings in the Innovation Studies Makerspace, lectures, field trips, and contact with the Seattle/Tacoma business community.

Innovation Studies minors must complete a minimum of 20 credit hours in the following areas:

- Introduction to Innovation Studies (4)
- Innovation Principles (8)
- Elective (4)
- INOV 350: Innovation Seminar (4)

Students may complete curriculum requirements in any order and pathways into the program overlap with many majors and minors on campus. The only requirement is that the Innovation Seminar may not be taken until the Introduction to Innovation Studies and Innovation Principles coursework is complete. The course selected for Introduction to Innovation Studies may not be reused as an Elective course.

Up to eight (8) approved credits from supporting majors or minors can be applied to the Innovation Studies minor.

At least Junior status is required before students take the concluding Innovation Seminar.

Students may transfer in a maximum of 8 semester hours towards the Innovation Studies minor, unless they have permission from the program chair.

All courses counted towards the minor must be completed with grades of C- or higher and with a cumulative GPA of 2.5 or higher in those courses.

Program Requirements

Introduction to Innovation Studies

4 semester hours

Students select one of the following courses to receive an introduction to the discipline of Innovation Studies and key themes in the program. Course must be completed before taking the Innovation Seminar.

- HIST 121: History in Video Games (4)

- HIST 248: Innovation, Ethics, and Society (4)
- PHIL 248: Innovation, Ethics, and Society (4)
- HIST 346: History of Innovation and Technology (4)

Innovation Principles

8 semester hours

Students select one course from two of the three Innovation Principles subject areas below to anchor their understanding of innovation in an interdisciplinary framework. Courses must be completed before taking the Innovation Seminar.

Economic Principles:

- ECON 101: Principles of Microeconomics (4)

Business Principles:

- BUSA 201: Introduction to Business in the Global Environment (4)

Design and Communication Principles:

- ARTD 110: Graphic Design 1 (4)
- COMA 215: Writing in Communication Careers (4)

Elective

4 semester hours

Select at least one course from the following list of electives for deeper study in the process of innovation, creativity, problem solving, and related proficiencies:

- ARTD 202: 3D Design (4)
- ARTD 310: Graphic Design 3 (4)
- BUSA 340: Non-Profit Management (4)
- BUSA 358: Entrepreneurship (4)
- COMA 361: Public Relations: Principles and Practices (4)
- DATA 133: Introduction to Computational and Data Science (4)
- CSCI 144: Introduction to Computer Science (4)
- ENGL 323: Writing for Public and Professional Settings (4)
- HIST 121: History in Video Games (4)
- HIST 247: U.S. Capitalism: From Railroads to Netflix (4)
- HIST 248: Innovation, Ethics, and Society (4)
- HIST 346: History of Innovation and Technology (4)
- PHIL 225: Business Ethics (4)
- POLS 345: Government and Public Policy (4)
- PSYC 148: Minds, Brains, and Computer: Introduction to Cognitive Science (4)
- PSYC 448: Cognitive Psychology (4)

Innovation Seminar

4 semester hours

- INOV 350: Innovation Seminar (4)

Innovation Studies (INOV) - Undergraduate Courses

INOV 350 : Innovation Seminar

Hands-on seminar for Innovation Studies minors that exposes students to the conceptual, ethical, and logistic issues involved in developing and implementing an innovative idea, process, product, or campaign. Students form teams; analyze artistic, technological, and entrepreneurial factors; consider issues such as feasibility and market timing, and then present their proposal to the PLU community. Prerequisite: Junior status and permission of instructor. (4)

INOV 387 : Special Topics in Innovation Studies

This course provides specific opportunities for students to examine new or emerging topics in the discipline of Innovation Studies. (4)

INOV 491 : Independent Study

Provides individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the instructor in consultation with the student. Prerequisite: sophomore standing. (1 to 4)

INOV 495 : Internship

Involvement in an ongoing research project in Innovation Studies or off-campus work supervised by a faculty member. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. May be repeated for up to 8 semester hours. Prerequisite: sophomore standing. (1 to 8)

International Honors Program

253.535.7237	www.plu.edu/honors/	dowland@plu.edu
Seth Dowland, Ph.D., Director		

International Honors Requirements

7 courses, 28 semester hours distributed as follows:

- **IHON 111 - 112:** Origins of the Contemporary World
8 semester hours

Normally taken sequentially in the first year. These courses explore the historical roots and global dimensions of contemporary events, values and traditions.

- **IHON:** Four 200-level courses
16 semester hours

Normally taken in the second and third year. A wide range of these courses are offered every semester and often during J-Term.

- **IHON:** One 300-level course
4 semester hours

Taken after or with the last 200-level course.

Policies and Guidelines for International Honors

The three levels of IHON courses are built sequentially upon one another in terms of content and learning objectives. In order to acquire a common background, IHON students take the required IHON 111-112 sequence in their first year, before taking their 200-level courses. Exceptions to this sequence can be made for transfer students or for students who are accepted into the Honors Program during their first year at PLU. With prior approval by the IHON Director, an appropriate semester-long course abroad may take the place of one 200-level IHON course. Such a course must focus on a contemporary issue, be international in scope, interdisciplinary and require honors-level critical thinking and writing. One 301 modern language course intentionally designed to meet program objectives (Chinese, French, Spanish) may also replace one 200-level IHON course when the student completes supplementary IHON expectations. IHON students are allowed to count either an on-campus Language 301 course or a study away experience (semester long) for IHON credit. Students may not count both. Multiple sections of IHON 111 are offered every Fall Semester; and sections of IHON 112 every Spring Semester; varying IHON 200-level courses will be offered every semester and often in J-Term; IHON 300-level courses will be offered every semester. Students are strongly encouraged to complete the required seven courses in the IHON Program by the end of their junior year in order to focus on completion of majors and related research during their senior year. IHON students cannot pass/fail an international honors course

GPA Requirements

Students in the International Honors Program must maintain a cumulative overall GPA of 3.00. Names of students who fall below a 3.00 will be forwarded to the student's IHON advisor. Students will have one semester to bring their GPA up to a 3.00. If the 3.00 GPA is not achieved, students will be disenrolled from the program. Procedures for assignment of general education credits will be in place for students who do not complete the Honors Program.

International Honors (IHON) - Undergraduate Courses

IHON 111 : Origins, Ideas, and Encounters - H1

Examines innovative ideas and institutions from ancient, medieval, and early modern societies that have shaped the contemporary world. Themes include the rise of Judaism, Christianity, and Islam; influential models of authority and government; alternative models of coherence and diversity; religious reformations and utopian movements; technical innovation; and interpreting nature. (4)

IHON 112 : Liberty, Power, and Imagination - H1

Examines innovative ideas and institutions from the Enlightenment to today that have shaped the contemporary world. Themes include scientific, political, artistic, and commercial revolutions; emerging concepts of justice and natural rights; capitalism and imperialism; the experience of war; narratives of progress and their critics; and globalization, sustainability, and the environment. (4)

IHON 253 : Gender, Sexuality and Culture - H2

Uses multicultural, international, and feminist perspectives to examine issues such as socialization and stereotypes, relationships and sexuality, interpersonal and institutional violence, revolution and social change in the U.S. and in other selected international contexts. (4)

IHON 257 : The Human Experience - H2

The Human Experience course is a multidisciplinary study of selected topics that illuminates what it means to be human. Topics will vary by instructor and term but each section of the course will draw from one of the following disciplines: English, philosophy, religion, or languages & literatures. (4)

IHON 258 : Self, Culture, and Society - H2

This course is a multidisciplinary study of specific international topics that illuminate aspects of individual and collective human behavior, history, culture and institutions., Topics will vary by instructor and term, but each section of the course will draw from one of the following disciplines: anthropology, economics, history, political science, psychology or sociology. (4)

IHON 259 : The Natural World - H2

This course utilizes a multidisciplinary approach to explore the natural world around and within us and to provide expression of our human inclination to order what we see and to think in quantitative terms. Topics will vary by instructor and term but each section of the course will draw from one of the following disciplines: biology, chemistry, computer science and computer engineering, geosciences, mathematics, or physics. (4)

IHON 260 : The Arts in Society - H2

This course is a multidisciplinary study of selected topics that represents the breadth and influence of arts in society. Topics will vary by instructor and term, but each section of the course will draw from one of the following disciplines: art, communication, music or theatre. In addition to the primary discipline of the course, the second discipline may be drawn from the College of Professional Studies or from outside of the school. (4)

IHON 328 : Social Justice: Personal Inquiry and Global Investigations - H3, GE

Students will wrestle with complex contemporary social problems, evaluate multiple responses to those problems, and develop and articulate their own positions and commitments. Class themes vary, but every section includes cross-cultural and interdisciplinary analysis and a final culminating project. May be taken after or with the fourth and final 200-level IHON course. Instructor permission required. (4)

IHON 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

Kinesiology

253.535.7351	www.plu.edu/kinesiology/	kins@plu.edu
Mallory Mann, Ph.D., Chair		

The primary mission of the Department of Kinesiology is to provide quality academic professional preparation for undergraduate students in areas related to the study of human movement, especially as it supports the pursuit of lifelong physical activity and well being (i.e., health & fitness education, recreation, exercise science, pre-physical therapy, pre-athletic training and health & fitness management). We strive to prepare future leaders who will positively impact the health behaviors of individuals and of society through the education and promotion of life-sustaining and life-enhancing pursuits.

The successful completion of our majors demands a strong integration of the liberal arts and sciences with thorough professional preparation in light of respective state and national standards, accrediting bodies and certification programs. Internship experiences are an integral element of all majors in the department and allow for students to further develop and apply their education and training in real world, professional settings. In addition, we provide a diverse array of physical activity instruction for students as part of the General Education Program Element (GenEd) Requirements of the University.

The goals of these classes are to: (a) develop in each student a fundamental respect for the role of physical activity in living, including the assessment of physical condition and the development of personally designed, safe, effective and functional fitness programs with attention to lifetime activities, and (b) to expose students to a diversity of physical activities and experiences in a manner which enhances understanding of their educational, social, spiritual, ethical and moral relevance. Our programs provide opportunities for all participants to develop and apply a knowledge base regarding physical activity and psychomotor and behavioral skills, which encourages the development of lifelong health and wellness.

The department offers two degree programs: the Bachelor of Arts Degree in Kinesiology (B.A.K.) with teacher certification option, and the Bachelor of Science Degree in Kinesiology (B.S.K.) which offers two different pre-professional concentrations: exercise science and pre-physical therapy. Students completing these degrees often go on for further graduate study in physical therapy, sport psychology, athletic training, exercise science, recreation, public health etc., or enter into professions such as teaching, personal training, promotions and management, youth programming, coaching and other areas and do so in diverse settings such as schools, private health clubs, nonprofit agencies, corporations, professional sport teams, youth clubs, hospitals, parks and recreation departments and health departments, among others.

In addition, five distinct minors can be used to complement majors within the department, or can be pursued by majors outside the department in areas of personal or professional interest. These minors are coaching, exercise and sport psychology, kinesiology (general studies), personal training, and pre-athletic training.

Residency Requirements

- At least 32 credits of all majors must be taken in residency at PLU, and at least 16 of those must be taken from within the Department of Kinesiology.
- At least eight semester hours for all minors must be taken in residency at PLU and within the Department of Kinesiology.
- At least eight semester hours applied toward a kinesiology minor must be earned independently from the kinesiology major requirements.

Bachelor of Arts in Kinesiology Degree (B.A.K.)

Major in Kinesiology

• Health and Fitness Education Concentration

66 semester hours

- BIOL 205: Human Anatomy and Physiology I (4)
- BIOL 206: Human Anatomy and Physiology II (4)
- KINS 277: Foundations of Kinesiology (2)
- KINS 279: Teaching Physical Activity (2)
- KINS 280: Fitness and Recreation, Programming and Delivery (4)
- KINS 281: Sport Programming and Delivery (4)
- KINS 320: Nutrition, Health and Performance(4)

- KINS 478: Motor Learning and Human Performance (4)
- KINS 486: Applied Biomechanics and Kinesiology (4)
- KINS 495: Internship (4)
- KINS 499: Capstone: Senior Seminar (4)
- Elective: 4 semester hours in KINS 300-400 level courses

Bachelor of Science in Kinesiology Degree (B.S.K.)

Major in Kinesiology

• Exercise Science Concentration

58 semester hours

- BIOL 205: Human Anatomy and Physiology I (4)
- BIOL 206: Human Anatomy and Physiology II (4)
- CHEM 105: Chemistry of Life (4)
- STAT 231: Introductory Statistics (4)
OR STAT 232: Introductory Statistics for Psychology Majors (4)
- KINS 277: Foundations of Kinesiology (2)
- KINS 324: Physical Activity and Lifespan (4)
OR KINS 386: Social Psychology of Sport and Physical Activity (4)
- KINS 380: Exercise Physiology (4)
- KINS 383: Exercise Testing and Prescription (4)
- KINS 478: Motor Learning and Human Performance (4)
- KINS 483: Clinical Management for Special Populations (4)
- KINS 486: Applied Biomechanics and Kinesiology (4)
- KINS 495: Internship (4)
- KINS 499: Capstone: Senior Seminar (4)
- Elective: 8 semester hours in KINS 300-400 level courses

• Pre-Physical Therapy Concentration

72 or 73 semester hours

- BIOL 205: Human Anatomy and Physiology I (4)
- BIOL 206: Human Anatomy and Physiology II (4)
- BIOL 225: Molecules, Cells, and Organisms (4)
- BIOL 226: Genes, Evolution, Diversity, and Ecology (4)
- Two courses from:
 - CHEM 105: Chemistry of Life (4)
 - CHEM 115: General Chemistry I (4)
 - CHEM 116: General Chemistry II (4)
 - CHEM 331: Organic Chemistry I (4)
 - CHEM 333: Organic Chemistry I Lab (1)
- STAT 231: Introductory Statistics (4)
OR STAT 232: Introductory Statistics for Psychology Majors (4)
- KINS 277: Foundations of Kinesiology (2)
- KINS 380: Exercise Physiology (4)
- KINS 478: Motor Learning and Human Performance (4)
- KINS 486: Applied Biomechanics and Kinesiology (4)
- KINS 495: Internship (4)
- KINS 499: Capstone: Senior Seminar (4)
- Elective: 4 semester hours from KINS 300-400 level courses
- PHYS 125: College Physics I (4) **and** PHYS 135: College Physics Lab I (1)
- PHYS 126: College Physics II (4) **and** PHYS 136: College Physics Lab II (1)
- PSYC 101: Introduction to Psychology (4)
- PSYC 320: Development Across the Lifespan (4)
OR PSYC 315: Abnormal Psychology (4)

Minors

• Coaching

20 semester hours

- KINS 314: Team Building for High Performance Teams (4)
- KINS 320: Nutrition, Health, and Performance (4)
- KINS 334: Applied Training and Conditioning (2)
- KINS 361: Coaching Practicum (2)

- KINS 390: Applied Exercise and Sport Psychology (4)
- KINS 411: Coaching Effectiveness (4)
- Valid CPR and First Aid card required

• **Exercise and Sport Psychology**

20 semester hours

- KINS 366: Health Psychology (4)
- KINS 386: Social Psychology of Sport and Physical Activity (4)
- KINS 390: Applied Exercise and Sport Psychology (4)
- 4 semester hours from:
 - KINS 314: Team Building for High Performance Teams (4)
 - KINS 315: Body Image (4)
 - KINS 324: Physical Activity and Lifespan (4)
 - KINS 411: Coaching Effectiveness (4)
 - BIOL 444: Neurobiology (4)
- 4 semester hours from:
 - PSYC 310: Personality Theories (4)
 - PSYC 320: Development Across the Lifespan (4)
 - PSYC 330: Social Psychology (4)

• **Kinesiology (General Studies)**

16 semester hours of FTWL/KINS coursework

A maximum of six FTWL activity course hours (FT) may count toward the kinesiology minor and at least four semester hours in the minor must be earned in KINS courses at the 300-400 level. KINS 360, 361, 490, 495, and 499 may not be taken toward the general studies minor. Students with majors in the Department of Kinesiology are not eligible to earn the kinesiology general studies minor.

• **Personal Training**

20 semester hours

- KINS 280: Fitness and Recreation Programming and Delivery (4)
- KINS 320: Nutrition, Health, and Performance (4)
- KINS 334: Applied Training and Conditioning (2)
- KINS 360: Professional Practicum (2)
- KINS 383: Exercise Testing and Prescription (4)
- KINS 390: Applied Exercise and Sport Psychology (4)
- Valid CPR and First Aid card required

• **Pre-Athletic Training**

18 semester hours

- Must be a declared major in Kinesiology (B.S.K.) or have departmental approval.
- KINS 320: Nutrition, Health, and Performance (4)
- KINS 326: Adapted Physical Activity (4)
- KINS 360: Professional Practicum (2)
- KINS 380: Exercise Physiology (4)
- KINS 486: Applied Biomechanics and Kinesiology (4)
- Valid CPR and First Aid Card

Kinesiology (KINS) - Undergraduate Courses

KINS 277 : Foundations of Kinesiology

An introduction to the historical, biological, sociological, psychological, and mechanical concepts underlying human movement and the exploration of kinesiology as a field of study. Should be the initial professional course taken in the Department of Kinesiology. (2)

KINS 279 : Teaching Physical Activity

Generic teaching and management strategies, design of instructional materials and techniques for implementing them, and strategies for working with diverse learners in physical activity settings. This course is a prerequisite for all teaching methods courses and should be taken prior to or in conjunction with the education hub. (2)

KINS 280 : Fitness and Recreation Programming and Delivery

Focused on the planning, organization, delivery and evaluation of a variety of fitness and recreation activities in school and community settings. Topics and skills addressed include aerobic dance, step aerobics, drumming and creative rhythms, circuit training, core training, and selected recreational activities. Course content aligns to ACSM Group Exercise Instructor certification standards. (4)

KINS 281 : Sport Programming and Delivery

Addresses sport skill development, instructional skill development, and programming considerations in a variety of individual and team sport activities. Topics and skills addressed include net games (badminton, tennis, pickleball and/or racquetball), invasion games (soccer, team handball, lacrosse, and/or others), and target/fielding activities (softball, baseball, archery and/or bowling). (4)

KINS 287 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 288 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 289 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

KINS 314 : Team Building for High Performance Teams

Activities designed to facilitate the development of team camaraderie and effectiveness. Creative, fun, challenging, and applied team building activities, combined with traditional training tools to help create learning experiences for students to actively enhance team cohesion and group productivity. (4)

KINS 315 : Body Image - GE

Topics include: the connection between women and food, cultural definitions of beauty, eating disorders, nutrition, and biosocial factors affecting weight. (4)

KINS 320 : Nutrition, Health and Performance

An examination of the role of dietary choices in the maintenance of health, the prevention of disease and the optimizing of physical performance. Topics covered include: consumer nutrition skills, basic nutrients and nutritional science, energy balance, sport and performance nutrition including the use of supplements and ergogenic aids, lifespan nutrition, global nutrition and food

safety. (4)

KINS 322 : Physical Education in the Elementary School

Organization and administration of a developmental program for grades K-6; sequential and progressive programming; large repertoire of activities. Observation and/or practicum in public schools is required. (2)

KINS 324 : Physical Activity and Lifespan

The emphasis in this course will be on the role that physical activity plays in successful aging. An understanding of the influence of social learning on physical activity behavior through the lifespan and effective strategies for health promotion and activity programming with adult populations will be addressed. (4)

KINS 326 : Adapted Physical Activity

Emphasizes the theory and practice of adaptation in teaching strategies, curriculum, and service delivery for all persons with psychomotor problems, not just those labeled "disabled." (4)

KINS 334 : Applied Training and Conditioning

This course presents physiological and kinesiological applications to physical training and addresses fundamental training principles as they relate to physical fitness in the areas of cardiovascular fitness, muscular strength and endurance, flexibility and body composition. Focus is on training for safe and effective physical performance for both genders of all ages and activity interests. (2)

KINS 360 : Professional Practicum

Students work under the supervision of a coach, teacher, recreation supervisor, or health care provider. Prerequisite: departmental approval. Can be repeated up to four semester hours. (1 or 2)

KINS 361 : Coaching Practicum

Students work under the supervision of a coach. Prerequisite: departmental approval. (1 or 2)

KINS 366 : Health Psychology

This course examines how human physiology and psychology interact and influence personal health choices and behavior change. Topics surveyed include behavior change models; nicotine, alcohol and drug use and abuse; stress and stress management; psychological factors in the prevention, development and treatment of chronic disease; death and dying. (4)

KINS 380 : Exercise Physiology

Scientific basis for training and physiological effect of exercise on the human body. Lab is required. Prerequisite: BIOL 205, 206. (4)

KINS 383 : Exercise Testing and Prescription

Provides students involved in the promotion of physical activity with the basic knowledge necessary to safely conduct exercise, health and fitness assessments in a variety of community settings. Topics will include: history of assessment and its role in physical activity promotion; purpose and methods for pre-evaluation and screening; assessment and evaluation techniques; prescriptive program development for health and fitness; and bio-psycho-social implications of assessment and evaluation. Prerequisite: KINS 380. (4)

KINS 384 : Foundations of Health and Fitness Promotion

Provides students involved in the promotion of physical activity with the basic knowledge necessary to understand how health and fitness are managed in a variety of community settings. Topics will include: historical and philosophical basis of community-based health and fitness management; organizational assessment and evaluation issues; strategies for behavioral change; strategies for program development, implementation and marketing; specific examples of different community-based health and fitness management programs. (4)

KINS 386 : Social Psychology of Sport and Physical Activity

Questions of how social psychological variables influence motor behavior and how physical activity affects the psychological makeup of an individual will be explored. (4)

KINS 387 : Special Topics in Kinesiology

Provides the opportunity for the exploration of current and relevant issues in the areas of physical education and exercise science. (1 to 4)

KINS 388 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 389 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 390 : Applied Exercise and Sports Psychology

A practical, individually-oriented course designed to teach athletes, trainers, coaches, and teachers a comprehensive variety of skills and techniques aimed at enhancing sport performance. Psychological topics include: managing anxiety, imagery, goal setting, self-confidence, attention control, injury interventions, self-talk strategies, and team building. (4)

KINS 395 : Comprehensive School Health

This course explores the integrated nature of comprehensive school health programs. Students will use their health knowledge and resources to effectively communicate essential health content with an emphasis placed on environmental health, intentional and unintentional injury prevention, consumer health and sexuality education. The course addresses program planning, implementation and evaluation based on the needs of the learner. Prerequisites: KINS 320, 366. (4)

KINS 411 : Coaching Effectiveness

Presents foundational knowledge essential for coaching effectiveness and success in any sport at a youth, club, or school level. This course integrates sport science research with emphasis on practical applications. Organization of this course will be based on topics such as: coaching philosophy and ethics, communication and motivation, principles of teaching sport skills and tactics, evaluation, and team administration, organization, and management including liability prevention. The course is designed to meet or exceed NCACE, NASPE, PCA, and ASEP standards. (4)

KINS 478 : Motor Learning and Human Performance

Provides basic theories, research, and practical implications for motor learning, motor control, and variables affecting skill acquisition. (4)

KINS 483 : Clinical Management for Special Populations

Examination of pathophysiology and the use of exercise to manage chronic diseases and conditions including cardiovascular disease, pulmonary disease, diabetes, obesity, and other chronic illnesses. Selection and implementation of tests for health related fitness levels in a variety of populations, and the development of exercise prescriptions for patients with known disease. Prerequisite: KINS 383. (4)

KINS 486 : Applied Biomechanics and Kinesiology

Opportunity to increase knowledge and understanding about the human body and how the basic laws of mechanics are integrated in efficient motor performance. Prerequisite: BIOL 205. (4)

KINS 487 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 488 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 489 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 490 : Curriculum, Assessment and Instruction

An integrated and instructionally aligned approach to curriculum design, assessment, development and implementing instructional strategies consistent with Washington Essential Academic Learning Requirements. Intended as the final course prior to a culminating internship, a practicum in the school setting is required in conjunction with this four-semester hour course. Prerequisites: KINS 279, 281. (4)

KINS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: consent of the dean. (1 to 4)

KINS 495 : Internship - SR

Pre-professional experiences closely related to student's career and academic interests. Prerequisites: declaration of major, junior status, ten hours in the major, and department permission. (2 to 8)

KINS 499 : Capstone: Senior Seminar - SR

To enable senior students in an academic unit to share their work and receive group criticism. The title will be listed on the student term-based record as Capstone and may be followed by a specific title designated by the academic unit. Prerequisites: declaration of major, junior status, ten hours in the major, and department permission. (2 or 4)

Fitness and Wellness (FT) - Undergraduate Courses

FTWL 100 : Personalized Fitness Program - FT

To stimulate student interest in functional personally designed programs of physical activity; assessment of physical condition and skills; recommendation of specific programs for maintaining and improving physical health. Should be taken as a first-year student. (1)

FTWL 150 : Adaptive Physical Activity - FT

An individualized fitness and wellness course designed to meet the needs of students with diagnosed disabilities or long-term injury who, because of their medical condition, are unable to be accommodated through regular activity courses offered in the department. (1)

FTWL 151 : Beginning Golf - FT

Individual and dual activities course in beginning golf. (1)

FTWL 155 : Bowling - FT

Individual and dual activities course in bowling. (1)

FTWL 158 : Jogging and Running for Fitness - FT

Individual and dual activities course in jogging and running for fitness. (1)

FTWL 159 : Walking for Health - FT

Individual and dual activities course in walking for health. (1)

FTWL 162 : Beginning Tennis - FT

Individual and dual activities course in tennis. (1)

FTWL 163 : Beginning Badminton - FT

Individual and dual activities course in badminton. (1)

FTWL 164 : Pickleball - FT

Individual and dual activities course in pickleball. (1)

FTWL 173 : Mountaineering - FT

Individual and dual activities course in mountaineering. (1)

FTWL 177 : Weight Training - FT

Individual and dual activities course in weight training. (1)

FTWL 179 : Core and Stretch - FT

Individual and dual activities course in core and stretch. (1)

FTWL 182 : Low Impact Aerobics - FT

Individual and dual activities course in low impact aerobics. (1)

FTWL 183 : Power Aerobics - FT

Individual and dual activities course in power aerobics. (1)

FTWL 186 : Step Aerobics - FT

Individual and dual activities course in step aerobics. (1)

FTWL 188 : Boot Camp Conditioning - FT

Individual and dual activities course in boot camp conditioning. (1)

FTWL 189 : Kickboxing - FT

Individual and dual activities course in kickboxing. (1)

FTWL 192 : Intermediate Tennis - FT

Individual and dual activities course in intermediate tennis. (1)

FTWL 197 : Advanced Weight Training - FT

Individual and dual activities course in advanced weight training. (1)

FTWL 201 : Swimming for Non-Swimmers - FT

Aquatics course in swimming for non-swimmers. (1)

FTWL 205 : Skin & Scuba Diving - FT

Aquatics course in skin and scuba diving. (1)

FTWL 207 : Basic Sailing - FT

Aquatics course in basic sailing. (1)

FTWL 212 : Conditioning Swimming - FT

Aquatics course in conditioning swimming. (1)

FTWL 223 : Yoga - FT

Rhythms course in yoga. (1)

FTWL 224 : Salsa and Swing Dance - FT

Rhythms course in salsa and swing dance. (1)

FTWL 225 : Ballroom Dance - FT

Rhythms course in ballroom dance. (1)

FTWL 228 : Vinyasa Yoga - FT

Rhythms course in vinyasa yoga. (1)

FTWL 229 : Zumba - FT

Rhythms course in Zumba. (1)

FTWL 234 : Relaxation Techniques - FT

Rhythms course in relaxation techniques. (1)

FTWL 241 : Co-Ed Basketball - FT

Team activities course in co-ed basketball. (1)

FTWL 244 : Co-Ed Volleyball - FT

Team activities course in co-ed volleyball. (1)

FTWL 246 : Disc Sports - FT

Team activities course in disc sports. (1)

FTWL 248 : World Games and Sports - FT

Team activities course in world games and sports. (1)

FTWL 250 : Directed Sports

Team activities course in directed sports. May not be used to complete the General Education Fitness and Wellness requirement. (1)

FTWL 276 : Special Topics in Physical Activity - FT

Selected activities as announced by the department. Provides opportunities for activities not otherwise part of the regular activity course offerings. (1)

Mathematics

253.535.7400	www.plu.edu/math/	math@plu.edu
Ksenija Simic-Muller, Ph.D., Chair		

The mathematics program at PLU is designed to serve five main objectives:

- (a) to provide mathematical background for other disciplines,
- (b) to provide a comprehensive pre-professional program for those directly entering the fields of teaching and applied mathematics,
- (c) to provide a nucleus of essential courses that will develop the breadth and maturity of mathematical thought for continued study of mathematics at the graduate level,
- (d) to develop the mental skills necessary for the creation, analysis, and critique of mathematical and quantitative topics, and
- (e) to provide a view of mathematics as a humanistic endeavor.

Beginning Classes

Majors in mathematics, computer science, and other sciences usually take MATH 151 and MATH 152, if they have not placed above them. MATH 151 is also appropriate for any student whose high school mathematics preparation is strong. Those who have had calculus in high school may omit MATH 151 (see the Advanced Placement section) and enroll in MATH 152 after consultation with a student success advisor or a mathematics faculty member. Those who have less mathematics background may begin with MATH 140 before taking MATH 151. MATH 115 provides preparation for MATH 140.

Business majors may satisfy the requirement for the business degree by taking MATH 128, 151, or 152 (MATH 115 provides preparation for MATH 128).

Elementary education majors may satisfy the requirement for the education degree by taking MATH 123 and MATH 124 (MATH 115 provides preparation for MATH 123). Those majoring in a different area but planning to apply to PLU's Master of Arts in Education elementary program need to take MATH 123 only.

For students who plan to take only one mathematics course, a choice from MATH 105, 107, 123, 128, 140, or 151 is advised, depending on the student's interests, preparation and mathematics placement results.

Mathematics Placement Evaluation

A Math Placement test is required before registering for any math course at PLU unless one of the following holds:

1. the course prerequisites have been successfully completed at PLU,
2. the student has transferred in credits for courses equivalent to the course prerequisites, or
3. PLU has received AP or IBHL scores for the student that earn the student credit for the course prerequisites.

Students should take the Math Placement test as early as possible. The test can be accessed online by selecting the "Math Placement Evaluation" link through Self-Service Banner (bss.plu.edu). A student may take the placement test up to five times.

Note: Mathematics placement results are windows, not ceilings. A student cannot take classes at a level below their placement without permission of the department.

The policy of the Department of Mathematics regarding mathematics credit for students who have taken the AP Calculus exams (AB or BC) or the International Baccalaureate Higher Level Mathematics Exam (IBHL) is as follows:

Exam Score Credit	Score Credit	Credit
AB	3*	MATH 151*
AB	4,5	MATH 151

BC	3	MATH 151
BC	4,5	MATH 151 and 152
IBHL	4,5	MATH 151
IBHL	6,7	MATH 151 and 152

*Consult with instructor if planning to take MATH 152.

If a student has taken calculus in high school and did not take an AP exam or IBHL exam, then the student may enroll in MATH 152 after consultation with a student success advisor or a mathematics faculty member. In this case, no credit is given for MATH 151.

Minimum Entrance Requirements

PLU does not have a mathematics entrance requirement. However, we strongly recommend that students applying to PLU should have taken at least two years of college preparatory mathematics before arrival and that students planning to major in a quantitative field should have taken three to four years of college preparatory mathematics before arrival.

Mathematics and General Education Program Elements

The following mathematics courses will satisfy the Quantitative Reasoning (QR) element of the General Education Program: 105, 107, 115, 123, 124, 128, 140, 145, 151, 152, and 242. At least 4 semester hours are needed

Required Prerequisite Grades

A grade of C or higher is required in all prerequisite courses.

Bachelor of Arts Degree

Major in Mathematics

32 semester hours of mathematics, plus 4 semester hours of supporting courses

- 32 semester hours of mathematics: MATH 152, 242, 253, 317 or 318 or 319, 331, 433, 455, 499A, 499B
- 4 semester hours of computer science: CSCI 144
- Strongly recommended (but not required): one course from: CSCI 371, ECON 344, or PHYS 153/163 Lab

Bachelor of Science Degree

Major in Mathematics

36-40 semester hours of mathematics, plus 8 to 13 semester hours of supporting courses

- 32 semester hours of required mathematics courses: MATH 152, 242, 253, 317 or 318 or 319, 331, 433, 455, 499A, 499B
- 8 additional semester hours of electives from MATH 317, 318, 319*, 342, 348, 351**, 356, 381, 422, 480, or PHYS 354
(*At most, one of MATH 317, 318, and 319, not already used in the bullet point above, can be used towards the 8 additional semester hours of electives needed.
**Only one course from either MATH 351 or PHYS 354 may be used)
- 8 or 9 semester hours of supporting courses: CSCI 144 and one course from: CSCI 371, ECON 344, or PHYS 153/163 Lab

Major in Applied Mathematics

36-40 semester hours of mathematics/statistics, plus 8 to 13 semester hours of supporting courses

- 24 semester hours of required mathematics courses: MATH 152, 253, 318, 331, 422, 499A, 499B
- 4 semester hours of statistics from: MATH/STAT 145, STAT 231, or MATH/STAT 242
- 12 semester hours of electives from: MATH/STAT 342, MATH/STAT 348, either MATH 351 or PHYS 354, MATH 356, either MATH 433 or MATH 455, CSCI 330, CSCI 367, CSCI 371, CHEM 341, ECON 344, or PHYS 356
 - At least 8 semester hours of these must be taken from mathematics or statistics
- 4-5 semester hours of supporting courses from: CHEM 115, CSCI 270, ECON 101 or PHYS 153/163
- 4 semester hours from CSCI 144 or DATA 133
 - MATH 356 or another approved 300-level or 400-level mathematics course may be substituted for this requirement if a student is completing the Data Science minor

A maximum of eight (8) credits at the 300+ level may be double-counted for other major requirements and a maximum of eight (8) credits may be double-counted for other minor requirements. Petitions to substitute courses may be submitted to the department chair to address double-counting constraints. Students minoring in statistics may not use any of their "8 additional semester hours of statistics" toward the Applied Mathematics major.

Major in Mathematics Education

36 semester hours of mathematics, plus 8 to 9 semester hours of supporting courses

- 36 semester hours of mathematics: MATH 152, 242, 253, 317 or 318, 319, 331, 433, 499A, 499B, and MATH/EDUC 446
- 4 semester hours of education: EDUC 205
- One course (4-5 semester hours) from: PHYS 125/135 Lab, PHYS 153/163 Lab, or CHEM 115
- Strongly recommended (but not required): MATH 455

A minimum of 128 semester hours must be completed with a GPA of 2.50 or higher. MATH/EDUC 446 must be completed with a B- or higher. MATH 433, 499A, and 499B must be completed with grades of C- or higher. All other mathematics courses counted toward a mathematics education major must be completed with grades of C or higher.

Note: The B.S. degree with a major in mathematics education together with a master's degree in education provides a path to teacher certification in secondary mathematics in Washington State. Passing the NES exam in mathematics is required for teacher certification in secondary mathematics. Completion of the required math courses listed for the degree gives adequate preparation for the NES exam.

Minors

Actuarial Science

A minimum of 24 semester hours, chosen from the following courses:

- BUSA 302, 335, 437, 438
- ECON 101, 301, 344
- MATH 331, 342, 348, 356
- At least 12 semester hours must be taken from mathematics and at least 4 semester hours from economics

Also strongly recommended: MATH 253, DATA 133

A maximum of 8 credit hours can simultaneously count towards both an actuarial science minor and a mathematics major. Courses taken for the actuarial science minor cannot be simultaneously used to satisfy a mathematics or statistics minor.

Mathematics

16 semester hours of mathematics courses, including:

- MATH 152 and either 245 or 253; and 8 semester hours of upper-division mathematics courses (excluding MATH/EDUC 446) and PHYS 354*.

*Only one course from either MATH 245 or MATH 318 may be used; only one course from either MATH 351 or PHYS 354 may be used.

Statistics

16 semester hours, to include:

- CSCI 120 or 144; or DATA 133
- STAT 231, 232, or 233; or MATH/STAT 242
- And at least: 8 additional semester hours of statistics selected from BUSA 467, ECON 344, PSYC 242, MATH/STAT 342, MATH/STAT 348.
(Additional courses may be approved by the chair of the Department of Mathematics. See the Statistics section of this catalog for more details.)

A maximum of 8 credit hours can simultaneously count towards both a statistics minor and a mathematics major. Courses taken for the statistics minor cannot be simultaneously used to satisfy a mathematics or actuarial science minor.

Mathematics (MATH) - Undergraduate Courses

MATH 105 : Mathematics of Personal Finance - QR

Emphasizes financial transactions important to individuals and families: annuities, loans, insurance, interest, investment, time value of money. Prerequisite: Eligibility based on PLU Math Placement Exam, or permission of instructor. (4)

MATH 107 : Mathematical Explorations - QR

Mathematics and modern society. Emphasis on numerical and logical reasoning. Designed to increase awareness of applications of mathematics, to enhance enjoyment of and self-confidence in mathematics, and to sharpen critical thought in mathematics. Topics selected by the instructor. Prerequisite: Eligibility based on PLU Math Placement Exam, or permission of instructor. (4)

MATH 115 : College Algebra and Trigonometry - QR

A review of algebra emphasizing problem solving skills. The notion of function is introduced via examples from polynomial, rational, trigonometric, logarithmic and exponential functions. We also explore inverse trigonometric functions, identities, graphing and the solving of triangles. Appropriate as preparation for Math 123, 128 and 140. Prerequisite: PLU math placement exam and two years of high school algebra. (4)

MATH 123 : Modern Elementary Mathematics I: Number Sense and Algebraic Sense - QR

Numeration systems and concepts underlying traditional computations. Field axioms, number theory, set theory. Patterns and variables, functions, proportionality, linear versus exponential growth. Emphasis on conceptual understanding of mathematics through problem solving, reasoning, and communication. Analyzing children's problem solving strategies. Intended for elementary teaching majors. Prerequisites: A qualifying score on the math placement test or a grade of C or higher in MATH 115. (4)

MATH 124 : Modern Elementary Mathematics II: Measurement, Geometric Sense, Statistics and Probability - QR

The units, systems and processes of measurement. Classification and measurement of geometric objects. Symmetry, transformations, congruence, dilations, similar figures. Display, analysis, and interpretation of data. Basic probability. Emphasis on conceptual understanding of mathematics through problem solving, reasoning, and communication. Analyzing children's problem solving strategies. Intended for elementary teaching majors. Prerequisite: A grade of C or higher in MATH 123. (4)

MATH 128 : Linear Models and Calculus: An Introduction - QR

Matrix theory, linear programming, and introduction to calculus. Concepts developed stressing applications, particularly to business. Prerequisites: Two years of high school algebra or MATH 115. Cannot be taken for credit if MATH 151 (or the equivalent) has been previously taken with a grade of C or higher. (4)

MATH 140 : Precalculus - QR

Different types of functions, their properties and graphs, especially trigonometric functions. Algebraic skill, problem solving, and mathematical writing are emphasized. Prepares students for calculus. Prerequisites: MATH 115 or equivalent high school material. (4)

MATH 145 : Statistics for Biologists - QR

An introduction to statistics with a focus on topics and data relevant to biologists. Descriptive statistics and data representations, correlation and regression, experimental design, basic probability, binomial and normal distributions, confidence intervals, hypothesis testing, chi-squared test, ANOVA. Cross-listed with STAT 145. Prerequisite: MATH 140 or proficiency through MATH 140 as determined by the math placement exam. (4)

MATH 151 : Calculus I - QR

Functions, limits, derivatives, the fundamental theorem of calculus, and an introduction to integrals with applications. Emphasis on derivatives. Prerequisite: MATH 140 or PLU Math Placement into MATH 151. (4)

MATH 152 : Calculus II - QR

Continuation of MATH 151. Techniques and applications of integrals, improper integrals, ordinary differential equations and power series, with applications. Prerequisite: MATH 151. (4)

MATH 203 : History of Mathematics

A study in the vast adventure of ideas that is mathematics from ancient cultures to the 20th Century. The evolution of the concepts of number, measurement, demonstration, and the various branches of mathematics in the contexts of the varied cultures in which they arose. Prerequisite: MATH 152 or consent of instructor. (4)

MATH 242 : Introduction to Mathematical Statistics - QR

Data description, probability, discrete and continuous random variables, expectations, special distributions, statements of law of large numbers and central limit theorem, sampling distributions, theory of point estimators, confidence intervals, hypothesis tests, regression (time permitting). Cross-listed with STAT 242. Previously was MATH/STAT 341. Prerequisite: MATH 151. (4)

MATH 245 : Discrete Structures

Topics that are of relevance to computer scientists and computer engineers, including quantified logic, sets, relations, functions, recursion, combinatorics, and probability. Tools of logical reasoning, such as induction, proof by contradiction, and predicate calculus, will be taught and applied. Prerequisite: MATH 151 or placement into MATH 152. (4)

MATH 253 : Multivariable Calculus

An introduction to vectors, partial derivatives, multiple integrals, and vector analysis. Prerequisite: MATH 152. (4)

MATH 287 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 288 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 289 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 291 : Directed Study

Supervised study of topics selected to meet the individual's needs or interests; primarily for students awarded advanced placement. Admission only by departmental invitation. (1 to 4)

MATH 317 : Introduction to Proofs: Number Theory

Introduces ideas of elementary number theory while emphasizing the importance of proof-related concepts such as mathematical grammar, logical equivalence, direct proofs, indirect proofs, proof by contradiction, and proof by induction. Content may include modular arithmetic, prime numbers, divisibility, number systems, and Diophantine equations. Prerequisite: MATH 152. (4)

MATH 318 : Introduction to Proofs: Combinatorics

Introduces ideas of combinatorial reasoning while emphasizing the importance of proof-related concepts such as mathematical grammar, logical equivalence, direct proofs, indirect proofs, proof by contradiction, and proof by induction. Content may include basic counting principles, permutations and combinations, binomial coefficient identities, generating functions, recurrence relations, inclusion-exclusion, graph theory, and algorithms. Prerequisite: MATH 152. (4)

MATH 319 : Introduction to Proofs: Geometry

Introduces the foundations of geometry while emphasizing the importance of proof-related concepts such as mathematical grammar, logical equivalence, direct proofs, indirect proofs, proof by contradiction, and proof by induction. Content may include Euclidean, projective, and non-Euclidean geometries (possibly including spherical geometry and hyperbolic geometry). Prerequisite: MATH 152. (4)

MATH 331 : Linear Algebra

Vectors and abstract vector spaces, matrices, inner product spaces, linear transformations. Proofs will be emphasized. Prerequisites: MATH 253 or one of 317/318/319 or both MATH 245 and CSCI 270. (4)

MATH 342 : Probability and Statistical Theory

Continuation of MATH 242. Topics may include: joint and conditional distributions, correlation, functions of random variables, moment generating functions, Bayesian and non-parametric inference, convergence of distributions. Cross-listed with STAT 342. Prerequisite: MATH 152 and four hours from STAT 231, 232, 233, or MATH/STAT 242. MATH 253 (or concurrent enrollment) is strongly recommended. (4)

MATH 348 : Statistical Computing and Consulting

Topics include qualitative data analysis, as well as the use of R statistical software to create data visualizations and to conduct, present, and interpret statistical analyses such as multiple regression and nonlinear (e.g. logistic) regression. Students will learn about issues that arise when working with real data such as data cleaning, data preparation, ethical guidelines for statistical practice, and the logical connections between study design and the appropriate inferences that can be made. Statistical consulting strategies and communication of statistical ideas to nonstatistical clients will guide the course topics as students perform consulting services for peers, faculty, and/or the surrounding community. Cross-listed with STAT 348. Prerequisite: DATA 133, CSCI 144, or MATH 151, and one of MATH/STAT 145, 242, STAT 231, 232, or 233. Strongly recommended: Prior experience with the programming languages R or Python. (4)

MATH 351 : Differential Equations

An introduction to differential equations emphasizing the applied aspect. First and second order differential equations, systems of differential equations, power series solutions, non-linear differential equations, numerical methods. Prerequisite: MATH 253. (4)

MATH 356 : Numerical Analysis

How computers store and handle numbers, how to efficiently perform mathematical computations, how to build useful functions to interpolate from discrete data, and how to create algorithms to find or approximate mathematical solutions. Topics and applications will be selected from the solution of linear, nonlinear and differential equations; computational matrix theory; numerical integration and differentiation; and other areas of instructor interest. Prerequisites: MATH 152 and CSCI 144. (4)

MATH 381 : Seminar in Problem Solving

Designed to improve advanced problem solving skills for mathematical competitions, especially the Putnam Competition and the Mathematical Contest in Modeling. Pass/Fail only. May be taken more than once for credit. Prerequisite: consent of instructor. (1)

MATH 387 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 388 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 389 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 422 : Mathematical Modeling

This course introduces students to mathematical modeling of various problems in biology, environmental science, and physics using curve fitting, difference and differential equations, simulations, discrete probabilistic models, and other methods. In addition to mathematical techniques, the formulation and analysis of models and the interpretation of mathematical results in

context are also emphasized. Students will have a chance to work on a project of their choosing and to build writing skills. Prerequisites: MATH 245 or 253 and one of MATH 331, 351, or PHYS 354. (4)

MATH 433 : Abstract Algebra

The algebra of axiomatically defined objects, such as groups, rings, and fields, with emphasis on theory and proof. Prerequisites: MATH 317 or 318 or 319 and 331. (4)

MATH 446 : Mathematics in the Secondary School

Methods and materials in teaching secondary mathematics. Introduction to Common Core State Standards in Mathematics, effective and equitable mathematics teaching practices, and curriculum design. This course includes a field experience component. Cross-listed with EDUC 446. Prerequisite: EDUC 205 and MATH 253 or 331. (4)

MATH 455 : Mathematical Analysis

Theoretical treatment of topics introduced in elementary calculus. Prerequisites: MATH 253, one of 317, 318, or 319, and 331. (4)

MATH 480 : Topics in Mathematics

Selected topics of current interest or from: combinatorics, complex analysis, differential geometry, dynamical systems chaos and fractals, graph theory, group representations, number theory, operations research, partial differential equations, topology, transform methods, abstract algebra, analysis. May be taken more than once for credit. Prerequisites: vary depending on the topic. (1 to 4)

MATH 487 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 488 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 489 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: consent of department chair. (1 to 4)

MATH 499A : Capstone: Senior Seminar I - SR

Preparation for oral and written presentation of information learned in individual research under the direction of an assigned instructor. Discussion of methods for communicating mathematical knowledge. Selection of topic and initial research. With MATH 499B meets the senior seminar/project requirement. Prerequisites: MATH 331 and senior (or second semester junior) standing, or permission of instructor. (2)

MATH 499B : Capstone: Senior Seminar II - SR

Continuation of MATH 499A with emphasis on individual research and oral and written presentation. With MATH 499A meets the senior seminar/project requirement. Prerequisite: MATH 499A. (2)

[Theatre & Dance](#)

Music (MUSI) - Undergraduate Courses

MUSI 101 : Introduction to Music - CX

Introduction to music literature with emphasis on listening, structure, period, and style. Designed to enhance the enjoyment and understanding of music. Not open to majors. (4)

MUSI 103 : History of Jazz - CX

Survey of America's unique art form—Jazz: Emphasis on history, listening, structure, and style from early developments through recent trends. (4)

MUSI 105 : The Arts of China

Exploration of a number of Chinese art forms, primarily music but also including calligraphy, painting, tai chi, poetry, Beijing opera, film and cuisine. (4)

MUSI 106 : Music of Scandinavia and the Nordic Region - CX, GE

A survey of Nordic and Scandinavian music from the Bronze Age to the present, including the classical, folk, and popular traditions found within the region. (4)

MUSI 120 : Music and Culture - CX, GE

Introduction to the study of Western and non-Western music with an emphasis on musical history, style, and social context. Restricted to music majors and minors. (4)

MUSI 125 : Ear Training I - CX

Development of aural skills, including interval recognition, sight-singing, rhythmic, melodic and harmonic dictation. (1)

MUSI 126 : Ear Training II - CX

Continuation of MUSI 125. Prerequisite: MUSI 125 or consent of instructor. (1)

MUSI 133 : Music Theory & Analysis IA

Introduces basic underlying elements of music theory: reading and notating music, key signatures, intervals, chords, scales, etc.

Previous music-reading experience highly recommended, but not required. (2)

MUSI 135 : Music Theory & Analysis IB

A continuation of MUSI 133. Minor scales, intervals, triads, diatonic 7th chords, basic analysis, etc. (2)

MUSI 136 : Music Theory & Analysis II

A continuation of MUSI 135. Further study of the materials and syntax of musical expression through an examination of harmonic and melodic analysis, composition, part-writing, figured bass, non-chord tones, small formal structures, secondary functions, etc. Prerequisite: MUSI 135 or consent of instructor. (3)

MUSI 151 : Keyboard Musicianship I

Beginning skills in piano and general musicianship in a group piano setting, including reading in treble and bass clef, building coordination and technique, sight-reading, improvisation, playing by ear, harmonization of melodies, lead-sheet realization, transposing, ensemble playing, and public performance. Requires no previous keyboard experience. Intended for music majors or minors, but students of all areas are welcome. (1)

MUSI 152 : Keyboard Musicianship II

Development of piano and musicianship skills in a group piano setting, including sight-reading, harmonization of melodies, lead-sheet realization, open-score reading, scales and technique, improvisation, transposing, accompanying and public performance. Prerequisite: MUSI 151 or consent of instructor. Intended for music majors, but open to students in all areas. (1)

MUSI 199 : Music in Performance

For students concurrently registered in Private Instruction Performance or Composition (MUSI 201-219, 327, 399, 401-419, 421, and 499 Capstone Student Project: Senior Recital or Project). Students experience a broad range of repertory through attendance at live performances and relevant music events. Graded Pass/Fail. (0)

MUSI 201 : Private Instruction: Jazz - CX

Prerequisite: Two semesters of non-jazz study (MUSI 202-219) or permission of the director of jazz studies. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 201A for 1 hour; 201B for 2 hours; 201C for 3 or 4 hours. (1 to 4)

MUSI 202 : Private Instruction: Piano - CX

Private instruction for Piano. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 202A for 1 hour; 202B for 2 hours; 202C for 3 or 4 hours. (1 to 4)

MUSI 203 : Private Instruction: Organ - CX

Private instruction for Organ. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 203A for 1 hour; 203B for 2 hours; 203C for 3 or 4 hours. (1 to 4)

MUSI 204 : Private Instruction: Voice - CX

Private instruction for Voice. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 204A for 1 hour; 204B for 2 hours; 204C for 3 or 4 hours. (1 to 4)

MUSI 205 : Private Instruction: Violin/Viola - CX

Private instruction for Violin/Viola. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 205A for 1 hour; 205B for 2 hours; 205C for 3 or 4 hours. (1 to 4)

MUSI 206 : Private Instruction: Cello/Bass - CX

Private Instruction for Cello/Bass. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 206A for 1 hour; 206B for 2 hours; 206C for 3 or 4 hours. (1 to 4)

MUSI 207 : Private Instruction: Flute - CX

Private instruction for Flute. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 207A for 1 hour; 207B for 2 hours; 207C for 3 or 4 hours. (1 to 4)

MUSI 208 : Private Instruction: Oboe/English Horn - CX

Private instruction for Oboe/English Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 208A for 1 hour; 208B for 2 hours; 208C for 3 or 4 hours. (1 to 4)

MUSI 209 : Private Instruction: Bassoon - CX

Private instruction for Bassoon. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 209A for 1 hour; 209B for 2 hours; 209C for 3 or 4 hours. (1 to 4)

MUSI 210 : Private Instruction: Clarinet - CX

Private instruction for Clarinet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 210A for 1 hour; 210B for 2 hours; 210C for 3 or 4 hours. (1 to 4)

MUSI 211 : Private Instruction: Saxophone - CX

Private instruction for Saxophone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 211A for 1 hour; 211B for 2 hours; 211C for 3 hours. (1 to 4)

MUSI 212 : Private Instruction: Trumpet - CX

Private instruction for Trumpet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 212A for 1 hour; 212B for 2 hours; 212C for 3 or 4 hours. (1 to 4)

MUSI 213 : Private Instruction: French Horn - CX

Private instruction for French Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 213A for 1 hour; 213B for 2 hours; 213C for 3 or 4 hours. (1 to 4)

MUSI 214 : Private Instruction: Trombone - CX

Private instruction for Trombone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 214A for 1 hour; 214B for 2 hours; 214C for 3 or 4 hours. (1 to 4)

MUSI 215 : Private Instruction: Baritone/Tuba - CX

Private instruction for Baritone/Tuba. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 215A for 1 hour; 215B for 2 hours; 215C for 3 or 4 hours. (1 to 4)

MUSI 216 : Private Instruction: Percussion - CX

Private instruction for Percussion. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 216A for 1 hour; 216B for 2 hours; 216C for 3 or 4 hours. (1 to 4)

MUSI 217 : Private Instruction: Guitar - CX

Private instruction for Guitar. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 217A for 1 hour; 217B for 2 hours; 217C for 3 or 4 hours. (1 to 4)

MUSI 218 : Private Instruction: Harp - CX

Private instruction for Harp. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 218A for 1 hour; 218B for 2 hours; 218C for 3 or 4 hours. (1 to 4)

MUSI 219 : Private Instruction: Harpsichord CX

Private instruction for Harpsichord. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 219A for 1 hour; 219B for 2 hours; 219C for 3 or 4 hours. (1 to 4)

MUSI 225 : Ear Training III - CX

A continuation of MUSI 126. Prerequisite: MUSI 126 or consent of instructor. (1)

MUSI 226 : Ear Training IV - CX

A continuation of MUSI 225. Prerequisite: MUSI 225 or consent of instructor. (1)

MUSI 235 : Music Theory & Analysis III

A continuation of MUSI 136. Further study of the materials and syntax of musical expression through an examination of modulation, larger formal structures, mode mixture, borrowed chords, augmented sixth chords, chromatic harmony, composition, etc. Prerequisite: MUSI 136 or consent of instructor. (3)

MUSI 236 : Music Theory & Analysis IV

Introduction to post-tonal techniques and the craft of the 21st century composer/arranger, including counterpoint, orchestration, and the development of thematic material into a composition. Prerequisite: MUSI 235 or consent of department chair. (4)

MUSI 240 : Introduction to Music Education

Introduction to the profession. History and philosophy of music education. Developmental characteristics of students and learning styles. Introduction to national and state standards. Lesson design with emphasis on writing objectives. 15 hour practicum required. Music education majors only. (3)

MUSI 241 : String Lab I

Methods and materials of teaching and playing string instruments in the public schools. Intended for music education majors. (1)

MUSI 242 : String Lab II

Methods and materials of teaching and playing string instruments in the public schools. Intended for music education majors. (1)

MUSI 243 : Woodwind Lab I

Group instruction on flute, clarinet, and saxophone; methods and materials of teaching and playing single reeds in the public schools. Intended for music education majors. (1)

MUSI 244 : Woodwind Lab II

Group instruction on oboe and bassoon; methods and materials of teaching and playing double reed instruments in the public schools. Intended for music education majors. (1)

MUSI 245 : Brass Lab I

Group Instruction on trumpet and horn; methods and materials of teaching and playing high brass instruments in the public schools. Intended for music education majors. (1)

MUSI 246 : Brass Lab II

Group instruction on trombone, euphonium, and tuba; methods and materials of teaching and playing low brass instruments in the public schools. Intended for music education majors. (1)

MUSI 247 : Percussion Lab

Methods and materials of teaching and playing percussion instruments in the public schools. (1)

MUSI 251 : Keyboard Musicianship III

Continued development of piano and musicianship skills in a group piano setting, including scales and technique, accompanying, harmonization of melodies, lead-sheet realization, singing and playing, improvisation, transposing, open-score reading, hymn sight-reading, and public performance. Prerequisite: MUSI 152 or consent of instructor. Intended for music majors, but open to students in all areas. Culminates in the Keyboarding Proficiency Assessment. (1)

MUSI 287 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 288 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 289 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

MUSI 301 : Music in Historical Context I

Music History in theory and practice from the Middle Ages through the Age of the Enlightenment. In this course students will study the development of Western music of the Middle Ages, Renaissance, Baroque, and Classical era through examination and performance of representative works of each time period. Prerequisites: MUSI 120 and MUSI 136. (4)

MUSI 302 : Music in Historical Context II

Music History in theory and practice from Beethoven's innovations to those of the present day. In this course students will study the development of Western music of the Romantic, Modernist, and Post-Modernist periods through examination of representative works of each time period. Prerequisites: MUSI 120 and 136. (4)

MUSI 321 : Guitar Lab

Group instruction on acoustic guitar; methods and materials of teaching and playing guitar in the public schools. Intended for music education majors. (1)

MUSI 325 : Class Composition I

A systematic introduction to neo-tonal compositional languages, styles, and techniques resulting in individually composed chamber pieces. MUSI 325 and 326 are prerequisites for private study in Composition (MUSI 327). Students intending to major in Composition should take these courses in their first year of music study. Students majoring in other areas may take these courses after completing MUSI 236. MUSI 325 and MUSI 326 need not be taken in sequence. Prerequisite: MUSI 236 or consent of instructor. (2)

MUSI 326 : Class Composition II

A systematic introduction to pan-tonal compositional languages, styles, and techniques resulting in individually composed chamber pieces. MUSI 325 and MUSI 326 are prerequisites for private study in Composition (MUSI 327). Students intending to major in Composition should take these courses in their first year of music study. Students majoring in other areas may take these courses after completing MUSI 236. MUSI 325 and MUSI 326 need not be taken in sequence. Prerequisite: MUSI 236 or consent of instructor. (2)

MUSI 327 : Classical Music Composition - CX

A systematic approach to contemporary musical composition; students create and notate works for solo, small and large ensembles. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students register in 327A for 1 hour; 327B for 2 hours; 327C for 3 or 4 hours. Prerequisites: MUSI 325 and 326 or consent of instructor.

MUSI 329 : Popular Songwriting and Media Music - CX

A systematic approach to the creation and recording of popular and commercial music. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students register in MUSI 329A for 1 hour; MUSI 329B for 2 hours; MUSIC 329C for 3 or 4 hours (1 to 4)

MUSI 340 : Managing the Classroom and Curriculum

Classroom management, classroom technology, and assessment. Unit and lesson planning with introduction to the edTPA. 15 hour practicum required. Prerequisite: MUSI 240. (3)

MUSI 341 : Music for Classroom Teachers

Methods and procedures in teaching elementary school music as well as infusing the arts in the curriculum. Offered for students preparing for elementary classroom teaching (non-music education majors). (2)

MUSI 345 : Conducting I - CX

Introduction to basic patterns, gestures, and conducting techniques. (1)

MUSI 346 : Conducting II

Continuation of MUSI 345; observation of advanced conducting students in laboratory ensemble. (1)

MUSI 351 : Collaborative Piano Studies - CX

Laboratory experience in accompanying representative vocal and instrumental solo literature in the soloist's private lesson studio. Prerequisite: consent of instructor. (1)

MUSI 352 : Organ Improvisation - CX

Basic techniques of improvisation, particularly as related to hymn tunes. Private instruction: Special Fee in addition to tuition. Prerequisite: consent of instructor. (1)

MUSI 353 : Solo Vocal Literature - CX

Survey of solo vocal literature. (2)

MUSI 355 : Diction I (English/Italian) - CX

An introduction to the International Phonetic Alphabet (IPA) and its practical applications for singers of English and Italian texts. (1)

MUSI 356 : Diction II (French/German)

Continuation of MUSI 355 with applications for singers of French and German texts. (1)

MUSI 360 : Choir of the West - CX

A study of a wide variety of choral literature and technique through rehearsal and performance of both sacred and secular music. Auditions at the beginning of fall semester. (1)

MUSI 361 : University Chorale - CX

A study of choral literature and technique through rehearsal and performance of both sacred and secular music. Auditions at the beginning of fall semester. (1)

MUSI 362 : Knights Chorus - CX

The study and performance of repertoire for tenor and bass voices. Emphasis on individual vocal and musical development. (1)

MUSI 363 : University Singers - CX

The study and performance of repertoire for soprano and alto voices. Emphasis on individual vocal and musical development. (1)

MUSI 366 : Opera - CX

Production of chamber opera, opera scenes, and full operas. Participation in all facets of production. Prerequisite: consent of instructor. (1)

MUSI 370 : University Wind Ensemble - CX

Study and performance of selected wind and percussion literature using various size ensembles. Membership by audition. (1)

MUSI 371 : University Concert Band - CX

Study of selected band literature through rehearsal and performance. Designed for the general university student. Prerequisite: having played instrument through at least junior year of high school or consent of instructor. (1)

MUSI 375 : University Jazz Ensemble - CX

Study of selected big band literature through rehearsal and performance. Membership by audition. (1)

MUSI 380 : University Symphony Orchestra - CX

Study of selected orchestral literature through rehearsal and performance. Membership by audition. (1)

MUSI 381 : Chamber Ensemble - CX

Reading, rehearsal, and performance of selected music for smaller ensembles. Prerequisite: consent of instructor. (1)

MUSI 383 : Piano Ensemble - CX

Techniques and practice in the performance of two-piano and piano duet literature; includes sight reading and program planning. Prerequisite: consent of instructor. (1)

MUSI 387 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 388 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 389 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 390 : Intensive Performance Study: Ensemble Tour - CX

Intensive study and rehearsal of your repertoire; off-campus tour of major performance venues; special fee in addition to tuition.

Prerequisite: consent of instructor. (4)

MUSI 395 : Music Centers of the World - CX

Exploration of music and other arts in environments off campus. Offered January Term to facilitate study abroad, or in cultural centers of the United States. (4)

MUSI 399 : Junior Recital

Preparation and presentation of a juried half recital, normally in the junior year. Declared Bachelor of Music majors only. Private instruction; special fee in addition to tuition. Prerequisite: consent of instructor is required. (3)

MUSI 401 : Private Instruction:Jazz CX

Prerequisite: Two semesters of non-jazz study (202-219) or permission of the Director of Jazz Studies. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 401A for 1 hour; 401B for 2 hours; 401C for 3 or 4 hours. (1 to 4)

MUSI 402 : Private Instruction: Piano - CX

Private instruction for Piano. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 402A for 1 hour; 402B for 2 hours; 402C for 3 or 4 hours. (1 to 4)

MUSI 403 : Private Instruction: Organ - CX

Private instruction for Organ. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 403A for 1 hour; 403B for 2 hours; 403C for 3 or 4 hours. (1)

MUSI 404 : Private Instruction: Voice CX

Private instruction for Voice. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 404A for 1 hour; 404B for 2 hours; 404C for 3 or 4 hours. (1)

MUSI 405 : Private Instruction: Violin/Viola - CX

Private instruction for Violin/Viola. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 405A for 1 hour; 405B for 2 hours; 405C for 3 or 4 hours. (1 to 4)

MUSI 406 : Private Instruction: Cello/Bass - CX

Private instruction for Cello/Bass. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 406A for 1 hour; 406B for 2 hours; 406C for 3 or 4 hours. (1 to 4)

MUSI 407 : Private Instruction: Flute - CX

Private instruction for Flute. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 407A for 1 hour; 407B for 2 hours; 407C for 3 or 4 hours. (1 to 4)

MUSI 408 : Private Instruction: Oboe/English Horn - CX

Private instruction for Oboe/English Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 408A for 1 hour; 408B for 2 hours; 408C for 3 or 4 hours. (1 to 4)

MUSI 409 : Private Instruction: Bassoon - CX

Private instruction for Bassoon. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 409A for 1 hour; 409B for 2 hours; 409C for 3 or 4 hours. (1 to 4)

MUSI 410 : Private Instruction: Clarinet - CX

Private instruction for Clarinet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 410A for 1 hour; 410B for 2 hours; 410C for 3 or 4 hours. (1 to 4)

MUSI 411 : Private Instruction: Saxophone - CX

Private instruction for Saxophone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 411A for 1 hour; 411B for 2 hours; 411C for 3 or 4 hours. (1 to 4)

MUSI 412 : Private Instruction: Trumpet - CX

Private instruction for Trumpet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 412A for 1 hour; 412B for 2 hours; 412C for 3 or 4 hours. (1 to 4)

MUSI 413 : Private Instruction: French Horn - CX

Private instruction for French Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 413A for 1 hour; 413B for 2 hours; 413C for 3 or 4 hours. (1 to 4)

MUSI 414 : Private Instruction: Trombone - CX

Private instruction for Trombone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 414A for 1 hour; 414B for 2 hours; 414C for 3 or 4 hours. (1 to 4)

MUSI 415 : Private Instruction: Baritone/Tuba - CX

Private instruction for Baritone/Tuba. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 415A for 1 hour; 415B for 2 hours; 415C for 3 or 4 hours. (1 to 4)

MUSI 416 : Private Instruction: Percussion - CX

Private instruction for Percussion. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 416A for 1 hour; 416B for 2 hours; 416C for 3 or 4 hours. (1 to 4)

MUSI 417 : Private Instruction: Guitar - CX

Private instruction for Guitar. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 417A for 1 hour; 417B for 2 hours; 417C for 3 or 4 hours. (1 to 4)

MUSI 418 : Private Instruction: Harp - CX

Private instruction for Harp. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 418A for 1 hour; 418B for 2 hours; 418C for 3 or 4 hours. (1 to 4)

MUSI 419 : Private Instruction: Harpsichord - CX

Private instruction for Harpsichord. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 419A for 1 hour; 419B for 2 hours; 419C for 3 or 4 hours. (1 to 4)

MUSI 420 : Private Instruction: Pedagogy - CX

Methods and materials for teaching specific instrumental media in the studio; special fee in addition to tuition. Students register in MUSI 420A for 1 hour and 420B for 2 hours. (1 or 2)

MUSI 421 : Functional Piano for the Professional Musician

Advanced development of piano and musicianship skills in a group piano setting, focusing on the necessary skills for choir direction, including vocal warm-ups, open score reading, sight-reading, hymn sight-reading, singing and playing, and accompanying. Prerequisite: MUSI 251, with a grade of C or better, and/or successful completion of the Keyboarding Proficiency Assessment. Required for Choral Music Education, Organ, and Piano majors, but open to students in all areas. (2)

MUSI 427 : Advanced Orchestration/Arranging - CX

Prerequisite: MUSI 325 and 326 or consent of instructor. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students are registered in 427A for 1 hour; 427B for 2 hours; 427C for 3 or 4 hours. (1 to 4)

MUSI 430 : Piano Literature I - CX

Study of representative piano repertoire from the 18th and early 19th Century. (2)

MUSI 431 : Piano Literature II - CX

Study of representative piano compositions of the late 19th and 20th Century. (2)

MUSI 445 : Conducting III

Refinement of patterns, gestures, and conducting techniques; application to appropriate vocal and instrumental scores. Prerequisite: MUSI 346. (1)

MUSI 451 : Piano Pedagogy I - CX

Teaching techniques for prospective teachers of piano, including techniques for individual and group instruction. Methods and materials will cover beginning to intermediate levels. Includes a practical teaching component. Required for piano majors, but open to all advanced pianists. (2)

MUSI 453 : Vocal Pedagogy - CX

Physiological, psychological, and pedagogical aspects of singing. (2)

MUSI 460 : Elementary Music Methods

A survey of materials and pedagogical approaches to teaching in the elementary music classroom. Prerequisite: MUSI 340. (3)

MUSI 461 : Band Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary band setting. Prerequisite: MUSI 340. (3)

MUSI 462 : Choral Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary choral setting. Prerequisite: MUSI 340. (3)

MUSI 463 : Orchestral Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary orchestral setting. Prerequisite: MUSI 340. (3)

MUSI 464 : Practicum in Music Education I

Music education students complete a minimum of 30 hours of field experience in local schools. Prerequisite: MUSI 340. Students enroll 2-3 semesters prior to student teaching.

MUSI 465 : Practicum in Music Education II (Pre-Student Teaching)

Music education students complete a minimum of 60 hours of field experience in a local school. Students enroll in the semester immediately preceding student teaching. Prerequisite: MUSI 340; 460; 461, 462, or 463 (depending on area of concentration); and 464. (1)

MUSI 469 : Student Teaching Seminar

Student teaching experiences shared and analyzed; exploration of related issues regarding entering the public school music teaching profession. Concurrent enrollment with EDUC 468 required. (2)

MUSI 487 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 488 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 489 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: consent of instructor. May be repeated for additional credit. (1 to 4)

MUSI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

MUSI 499 : Capstone: Senior Project - SR

A culminating project of substantial proportions, presented in a public forum, undertaken in the senior year. For the Bachelor of Arts degree, the project integrates musical studies with a broader liberal arts context; for the Bachelor of Musical Arts degree, the project integrates musical studies with the cognate field; for Bachelor of Music Education and Bachelor of Music degrees, the project consists of a juried recital. Private instruction; special fee in addition to tuition. Students register first in 499A for 1 hour and then in the next term 499B for 2 to 4 hour option. Prerequisite: consent of instructor. (1 to 4)

Theatre (THEA) - Undergraduate Courses

THEA 160 : Introduction to Theatre - CX

An exploration of live theatre and its many elements; including, the contributions of its writers, directors, performers, designers, technicians, and audiences. (4)

THEA 225 : Running Crew I

A practicum course, students work backstage or in production shops on a faculty-directed production. Repeatable for a maximum of 8 semester hours. (1-8)

THEA 250 : Acting I - Fundamentals - CX

An introductory course to acting in which students perform scenes and monologues and learn about scene selection, memorization, imagination, character, and presentation. (4)

THEA 252 : Fundamentals of Scenic Design - CX

An introduction to the process used by scenic designers to create a physical environment for the stage. (4)

THEA 254 : Fundamentals of Lighting Design - CX

An introductory examination of the controllable properties of light and their application to the functions of theatrical lighting. (4)

THEA 255 : Theatrical Production - CX

An introduction to the backstage elements of theatre; including, costumes, scenery, props, lighting, and makeup. (4)

THEA 275 : Scenic Painting: Techniques

Color theory and hands-on painting techniques for theatrical productions. (2)

THEA 276 : Scenic Painting: Textures

Painting techniques and texture painting for theatrical productions. (2)

THEA 279 : Hand Drafting

Hand drafting techniques to create light plots or scenic draftings for theatrical applications. (2)

THEA 280 : Computer-Aided Drafting

The use of computers and software to create light plots or scenic draftings for theatrical applications. Prerequisite: THEA 279. (2)

THEA 285 : Costume Crafts and Construction

Costume production techniques, including sewing, use of equipment, knowledge of available materials, dyeing, and 3-D. (4)

THEA 287 : Special Topics in Theatre

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

THEA 290 : Stage Management

The study and practice of stage management and its vital role in the theatrical production process. (2)

THEA 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

THEA 299 : The Profession of Theatre

An introduction of the various elements necessary to prepare for a life in the theatre, including portfolio and audition materials, agents and unions, graduate schools and the profession. (2)

THEA 300 : Improvisation

Long and/or short form improvisation techniques in addition to a variety of exercises exploring terminology, character work and elements of comedy. (2)

THEA 330 : Script Analysis

Discussion of the ideas, forms, structures, and elements of contemporary plays and musicals. (4)

THEA 345 : Playwriting

Techniques for writing short plays and an analysis of dramatic structure. (4)

THEA 346 : The Audition

Techniques for choosing and preparing effective audition material, cold and prepared readings, and head shots and résumés for stage, television, and film. (2)

THEA 347 : The Vocal Audition

Techniques for choosing and preparing effective audition songs and cuttings for musical theatre. (2)

THEA 350 : Scene Study

Analyzing and performing scenes and monologues to deepen performances and prepare audition material. Prerequisite: THEA 250 or consent of instructor. (4)

THEA 351 : Stage Makeup

Basic techniques in theatrical makeup application including corrective, aging, three-dimensional, and special effects. (4)

THEA 355 : Lighting Design

A practical application of electrical, programming, and artistic skills needed for theatrical lighting design. Prerequisite: THEA 254. (4)

THEA 360 : Theatre History: Origins - ES

A survey of theatre's origins as an institution that reflects history while forming new social values and ideas. (4)

THEA 362 : Musical Theatre History - ES

A survey of Broadway musical theatre as an institution that reflects history while forming new social values and ideas. (4)

THEA 365 : Theatre History II - ES

A survey of theatre in modern and contemporary times as an institution that reflects history while forming new social values and ideas. (4)

THEA 380 : Directing I

The process of analyzing and making choices about scripts, casting, revealing the focus of scenes, and constructing the mood, rhythm, pace and main idea of productions. Prerequisite: THEA 250. (4)

THEA 385 : Musical Theatre Performance: Golden Age

An exploration of singing musical theatre from America's Golden Age in a studio setting. (4)

THEA 386 : Musical Theatre Performance: Modern

An exploration of singing musical theatre from America's modern era in a studio setting. (4)

THEA 387 : Topics in Theatre

This course will be offered as needed, and it will allow the faculty and guest artists to explore areas of expertise and interest that are not normally taught as part of the curriculum. Concentrated study of a major theatrical period, movement, author, theme, genre, performance style, culture, or technology. (2 to 4)

THEA 390 : Visual History: Period Costume and Décor - ES

A survey of the architecture, interiors, clothing, culture, and aesthetic of the western world through exposure to art, historical documents, and popular perspectives. (4)

THEA 400 : Theatre Rehearsal and Performance

Students perform in a faculty-directed production. Repeatable for a maximum of 12 semester hours. (0-4)

THEA 425 : Running Crew II

A practicum course, students work on intermediate and advanced-level running crew assignments or in production shops on a faculty-directed production. Repeatable for a maximum of 8 semester hours. (1-8)

THEA 450 : Styles

Analyzing and performing styles of acting representing various time periods and genres. Prerequisites: THEA 250 or consent of instructor. (4)

THEA 453 : Costume Design - CX

Development of artistic and technical abilities in the field of costume design incorporating history, patterns, and renderings. (4)

THEA 455 : Scenic Design

Explores the process used by scenic designers to create a physical environment for the stage through analyzing a theatrical text, formulating and expressing an approach through research, and executing their ideas through models and simple drafting. Prerequisite: THEA 252. (4)

THEA 480 : Directing II

Builds on techniques learned in Directing I to develop stage productions. This includes interpreting text, analyzing premise, developing visual concepts, translating words and concepts into actions, and the process of communication between actors and designers. Prerequisite: THEA 380. (4)

THEA 485 : Theatre Management

The study of issues related to managing a theatre company and producing plays. (2)

THEA 491 : Independent Studies

Investigations or research in area of special interest not covered by regular courses; open to qualified junior or senior students. Requires pre-registration approved by a departmental sponsor. (1 to 4)

THEA 495 : Internship in Theatre

Internship or cooperative education experiences in the theatre. (1 to 4)

THEA 499 : Capstone - SR

Preparation of portfolios and project work that reflects both academic and practical knowledge gained through the study of theatre. (2)

Dance (DANC) - Undergraduate Courses

DANC 170 : Introduction to Dance - CX

An introduction to Western concert dance forms. The course combines discussion and movement practice. (4)

DANC 222 : Beginning/Intermediate Musical Theatre Dance - CX, FT

Students practice musical theatre and jazz dance technique, musical theatre and jazz choreography, and learn the history of musical theatre and jazz dance. Designed for students who have never taken a musical theatre or jazz dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 240 : Dance Concert Ensemble - CX

Students perform in the faculty-directed dance concert. Repeatable for credit up to 4 times. (0 to 1)

DANC 251 : Beginning/Intermediate Ballet - CX, FT

Students practice ballet technique, ballet choreography, and learn the history of ballet. Designed for students who have never taken a ballet class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 252 : Beginning/Intermediate Contemporary - CX, FT

Students practice contemporary dance technique, contemporary choreography, and learn the history of contemporary and modern dance. Designed for students who have never taken a contemporary dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 254 : Beginning/Intermediate Tap - CX, FT

Students practice tap dance technique, tap choreography, and learn the history of tap dance. Designed for students who have never taken a tap dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 255 : Beginning/Intermediate Hip Hop - CX, FT

Students practice hip hop dance technique, hip hop choreography, and learn the history of hip hop. Designed for students who have never taken a hip hop dance class before, as well as more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 287 : Special Topics in Dance

Provides undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

DANC 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

DANC 301 : Dance and Culture - ES, GE

An examination of the history and culture of dance forms and choreographic methods from around the world. A seminar-based class that includes physical movement. (4)

DANC 322 : Advanced Musical Theatre Dance

Designed for intermediate/advanced students, this course further develops musical theatre and jazz dance technique and performance. Repeatable for credit up to 4 times. Prerequisite: consent of instructor or DANC 222. (2)

DANC 340 : Dance Composition and Choreography

A study of the principles of dance composition. Students engage in concentrated creative practice through choreographic projects, exercises, and guided improvisation. (2)

DANC 351 : Advanced Ballet

Designed for intermediate/advanced students, this course further develops ballet technique and performance. Repeatable for credit up to 4 times. Prerequisite: consent of instructor or DANC 251. (2)

DANC 352 : Advanced Contemporary

Designed for intermediate/advanced students, this course further develops contemporary dance technique and performance. Prerequisite: DANC 252 or consent of instructor. Repeatable for credit up to 4 times. (2)

DANC 440 : Dance Concert Choreography

Students choreograph original works for the faculty-directed dance concert. Repeatable for credit up to 4 times. Prerequisite: consent of instructor. (0 to 2)

DANC 487 : Special Topics in Dance

Provides undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

DANC 491 : Independent Study

Provides individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

Music

253.535.7602	www.plu.edu/music/	music@plu.edu
Brian Galante, D.M.A., Associate Dean		

Major Requirements

No courses in music (MUSI) may be taken for credit by examination.

First-Year Students

Students intending to major in music should begin the major music sequences in the first year. Failure to do so may mean an extra semester or year to complete the program.

Required first year courses are:

- MUSI 120: Music and Culture (4)
- MUSI 125: Ear Training I (1)
- MUSI 126: Ear Training II (1)
- MUSI 133: Music Theory & Analysis IA (2)
- MUSI 135: Music Theory & Analysis IB (2)
- MUSI 136: Music Theory & Analysis II (3)
- MUSI 151: Keyboard Musicianship I (1) **and/or** MUSI 152: Keyboard Musicianship II (1)
 - **or** MUSI 251: Keyboard Musicianship III (1)
 - **or** successful completion of the Keyboarding Proficiency Assessment

All first-year students should complete the Theory online placement test before class registration. Students will be placed in the appropriate level Music Theory & Analysis course based on the test outcome. MUSI 133 and 135 are half-semester courses.

Music Major Degrees

General Requirements

- **Entrance Audition:**
To be admitted to a music major program, prospective students must audition for the music faculty.
- **Declaration of Major:**
Students interested in majoring in music should declare a music major during their first semester of enrollment in the program. They will be assigned a music faculty advisor who will assure that the student receives help in exploring the various majors and in scheduling music study in the most efficient and economical manner. Majors can always be changed later.
- **Ensemble Requirement:**
Music majors are required to participate every semester in one of the music ensembles specified in their major. (Exception: semesters involving study away and/or student teaching.)
- **Keyboard Proficiency:**
Basic keyboard skills are required in all music majors (B.M., B.M.E., B.M.A., B.A.). For students pursuing the B.A. degree, attainment of adequate keyboard skills is determined by successful completion of MUSI 152: Keyboard Musicianship II, with a grade of C or better. Students in all other programs must complete MUSI 251: Keyboard Musicianship III, with a grade of C or better and/or successfully pass the Keyboarding Proficiency Assessment. Students who do not pass the Keyboarding Proficiency Assessment by the end of their sixth semester (spring of junior year) may not be permitted to continue in the B.M., B.M.E., or B.M.A. degree.
- **Language Requirement:**
Vocal performance majors are required to take at least one year of language study in French.
- **Music Electives:**
Unless specified in the degree program, music electives must be at the 300-level or higher.
- **Grades and Grade Point Policy:**
Only grades of C or higher in music courses may be counted toward the major. Courses in which the student receives lower than a C must be repeated, unless the department authorizes substitute course work. Majors must maintain a 2.50 cumulative grade point average in academic music courses (private lessons and ensembles excluded) to remain in the program.
- **Music Major Assessment:**
Students pursuing Bachelor of Music (B.M.), Bachelor of Music Education (B.M.E.), Bachelor of Musical Arts (B.M.A.) or Bachelor of Arts in Music (B.A.) degrees will have their progress and potential assessed at the end of the first, sophomore, junior and

senior years. Assessments are made by the music faculty via progress reviews, juries and public presentations. Outcomes are pass/fail; students who fail an assessment will not be allowed to continue in the music program.

Music Core

27 semester hours for the B.A.; 33 semester hours for the B.M., B.M.E., and B.M.A.

The following core is required in all music degree programs:

- MUSI 120: Music and Culture (4)
- MUSI 125 Ear Training I (1)
- MUSI 126: Ear Training II (1)
- MUSI 133: Music Theory & Analysis IA (2)
- MUSI 135: Music Theory & Analysis IB (2)
- MUSI 136: Music Theory & Analysis II (3)
- MUSI 151: Keyboard Musicianship I (1)
- MUSI 152: Keyboard Musicianship II (1)
- MUSI 225: Ear Training III (1)
- MUSI 226: Ear Training IV (1) (*not for B.A.*)
- MUSI 235: Music Theory & Analysis III (3)
- MUSI 236: Music Theory & Analysis IV (4)*
- MUSI 251: Keyboard Musicianship III (1) (*not for B.A.*)
- MUSI 301: Music in Historical Context I (4)*
- MUSI 302: Music in Historical Context II (4)*

*Students pursuing the B.A. degree choose two courses among MUSI 236, 301, and 302.

Required Music Core Sequence

All entering first-year students who intend to major in music must follow the required music core sequence in the indicated years. All students will complete diagnostic placement testing prior to (or during) the first week of Fall classes and must complete the core sequence as prescribed by the music faculty.

Year One: Fall Semester

- MUSI 125: Ear Training I (1)
- MUSI 133 and MUSI 135: Music Theory & Analysis IA (2)/IB (2)

Year One: Spring Semester

- MUSI 120: Music and Culture (4) (if not taken in the Fall Semester)
- MUSI 126: Ear Training II (1)
- MUSI 136: Music Theory & Analysis II (3)
- MUSI 151: Keyboard Musicianship I (1)

Year Two: Fall Semester

- MUSI 225: Ear Training III (1)
- MUSI 235: Music Theory & Analysis III (3)
- MUSI 152: Keyboarding Musicianship II (1)
- MUSI 301: Music in Historical Context I (4)

Year Two: Spring Semester

- MUSI 226: Ear Training IV (1)
- MUSI 236: Music Theory & Analysis IV (4)
- MUSI 251: Keyboarding Musicianship III (1)
- MUSI 302: Music in Historical Context II (4)

Bachelor of Arts (B.A.) Degree

Major in Music

44 semester hours in music, plus cognate

- Music Core: (27)

- Ensembles (6)
 - Choose from: MUSI 360-383
- Applied Lessons (6)
 - Choose from: MUSI 201-219, 401-419
- Capstone Sequence (2)
 - MUSI 499: Capstone Senior Project (2)
- Electives (3)
 - Choose any MUSI 300-498 not already used in the major

Also required for the B.A. degree are:

- Take a non-music arts elective course in visual arts, theatre or dance.
- Cognate: An academic minor or second major outside of music.

Bachelor of Music Education (B.M.E.) Degree

The music education program is demanding of students' time and energies. Successful continuation in the program is predicated on meeting the program requirements by the end of the Fall Semester of the sophomore year. Transfer students should meet the requirements by Fall Semester of their first year at PLU. Program requirements are listed below:

- 2.50 cumulative G.P.A.
- PSYC 101
- Two semesters of keyboarding (from MUSI 151/152) or successful completion of the Keyboard Proficiency Assessment
- MUSI 240 with a grade of B or better; this course will include the preparation of documents required for application to the B.M.E. program:
 - personal statement describing why you wish to become a music teacher
 - recommendation from a person who knows of your work with children/students
 - completed evaluation forms from studio teacher and ensemble director

Major in Music

87 semester hours in music; total 104 semester hours

First-Year, sophomore, junior and senior assessments required.

- Bachelor of Music Education: K-12 Choral
- Bachelor of Music Education: K-12 Instrumental (Band)
- Bachelor of Music Education: K-12 Instrumental (Orchestra)

Music Education Core

12 semester hours

All B.M.E. degrees include the following music education core courses:

- MUSI 240: Introduction to Music Education (3)
- MUSI 340: Managing the Classroom and Curriculum (3)
- MUSI 345: Conducting I (1)
- MUSI 346: Conducting II (1)
- MUSI 464: Practicum in Music Education I (1)
- MUSI 465: Practicum in Music Education II (1)
- MUSI 469: Student Teaching Seminar (2)

School of Education Sequence

17 semester hours

In addition to the music courses listed, all music education majors are required to take the following courses in the School of Education.

- EDUC 391: Foundations of Learning (3)
- EPSY 361: Psychology for Teaching (3)
- EDUC 320: Issues in Child Abuse and Neglect (1)
- EDUC 468: Student Teaching – Secondary (10)

The WEST-E exam in the appropriate area of concentration is taken during the senior year and must be passed prior to student teaching.

Admission to the School of Education requires completion of WRIT 101 (or equivalent) and PSYC 101, each of which also satisfies an element in the General Education Program required of all students.

K-12 Choral

- Music Core (33)
- Ensembles (8)
 - Choose from: MUSI 360-363 (1 each semester)
- Applied Lessons (16)
 - Choose from: MUSI 204 and 404 (14)
 - MUSI 499: Capstone: Senior Project (senior recital) (2)
- Music Education Core (12)
- Concentration (18): Choose Secondary or Elementary focus
 - Secondary Focus (18)
 - MUSI 355: Diction I (1)
 - MUSI 356: Diction II (1)
 - MUSI 421: Functional Piano for the Professional Musician (2)
 - MUSI 445: Conducting III (1)
 - MUSI 453: Vocal Pedagogy (2)
 - MUSI 460: Elementary Music Methods (3)
 - MUSI 462: Choral Repertoire and Rehearsal (3)
 - Choose five credits from the following:
 - MUSI 241: String Lab I (1) **or** MUSI 242: String Lab II (1)
 - MUSI 243: Woodwind Lab I (1) **or** MUSI 244: Woodwind Lab II (1)
 - MUSI 245: Brass Lab I (1) **or** MUSI 246: Brass Lab II (1)
 - MUSI 247: Percussion Lab (1)
 - MUSI 321: Guitar Lab (1)
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 451: Piano Pedagogy (2)
 - Elementary Focus (18)
 - MUSI 247: Percussion Lab I (1)
 - MUSI 321: Guitar Lab (1)
 - MUSI 421: Functional Piano for the Professional Musician (2)
 - MUSI 460: Elementary Music Methods (3)
 - MUSI 462: Choral Repertoire and Rehearsal (3)
 - DANC 301: Dance in World Cultures (4)
 - Choose four credits from the following:
 - DANC 252: Beginning/Intermediate Contemporary (2)
 - DANC 255: Beginning/Intermediate Hip Hop (2)
 - MUSI 241: String Lab I (1) **or** MUSI 242: String Lab II (1)
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 445: Conducting III (1)
 - MUSI 451: Piano Pedagogy (2)
 - MUSI 453: Vocal Pedagogy (2)

K-12 Instrumental (Band Emphasis)

- Music Core (33)
- Ensembles (8)
 - Choose from large ensemble: MUSI 370-371, 380 (8)
- Applied Lessons (16)
 - Choose from: MUSI 202-219, 402-419
 - MUSI 499: Capstone: Senior Project (recital) (2)
- Music Education Core (12)
- Concentration (18): Choose Secondary or Elementary Focus
 - Secondary Focus (18):
 - MUSI 241: String Lab I (1) **or** MUSI 242: String Lab II (1)
 - Lab Electives – Choose 4 semester hours from:
 - MUSI 243/244: Woodwind Lab I, II (1,1)
 - MUSI 245/246: Brass Lab I, II (1,1)
 - MUSI 247: Percussion Lab (1)
 - MUSI 445: Conducting III (1)
 - MUSI 460: Elementary Music Methods (3)
 - MUSI 461: Band Repertoire and Rehearsal (3)
 - Choose six credits from the following:
 - MUSI 321: Guitar Lab (1)

- MUSI 325: Class Composition I (2)
- MUSI 326: Class Composition II (2)
- MUSI 360-363: Choral Ensemble (1, repeatable for credit)
- MUSI 381: Chamber Ensemble (1, repeatable for credit)
- MUSI 421: Functional Piano for the Professional Musician (2)
- Elementary Focus (18)
 - MUSI 241: String Lab I (1) **or** MUSI 242: String Lab II (1)
 - Lab Electives – Choose 4 semester hours from:
 - MUSI 243/244: Woodwind Lab I, II (1,1)
 - MUSI 245/246: Brass Lab I, II (1,1)
 - MUSI 247: Percussion Lab (1)
 - MUSI 321: Guitar Lab (1)
 - MUSI 460: Elementary Music Methods (3)
 - MUSI 461: Band Repertoire and Rehearsal (3)
 - DANC 301: Dance in World Cultures (4)
 - Choose two credits from the following:
 - DANC 252: Beginning/Intermediate Contemporary (2)
 - DANC 255: Beginning/Intermediate Hip Hop (2)
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 360-363: Choral Ensemble (1, repeatable for credit)
 - MUSI 381: Chamber Ensemble (1, repeatable for credit)
 - MUSI 445: Conducting III (1)

K-12 Instrumental (Orchestra Emphasis)

- Music Core (33)
- Ensembles (8)
 - Choose from large ensemble: MUSI 370-371, 380 (8)
- Applied Lessons (16)
 - Choose from: MUSI 202-219, 402-419
 - MUSI 499: Capstone: Senior Project (recital) (2)
- Music Education Core (12)
- Concentration (18): Choose Secondary or Elementary Focus
 - Secondary Focus (18)
 - MUSI 241/242: String Lab I, II (1,1)
 - MUSI 243: Woodwind Lab I (1) **or** MUSI 244: Woodwind Lab II (1)
 - MUSI 245: Brass Lab I (1) **or** MUSI 246: Brass Lab II (1)
 - MUSI 247: Percussion Lab (1)
 - MUSI 445: Conducting III (1)
 - MUSI 460: Elementary Music Methods (3)
 - MUSI 463: Orchestral Repertoire and Rehearsal (3)
 - Choose six credits from the following:
 - MUSI 321: Guitar Lab (1)
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 360-363: Choral Ensemble (1, repeatable for credit)
 - MUSI 381: Chamber Ensemble (1, repeatable for credit)
 - MUSI 421: Functional Piano for the Professional Musician (2)
 - Elementary Focus (18)
 - MUSI 241/242: String Lab I, II (1,1)
 - MUSI 243: Woodwind Lab I (1) **or** MUSI 244: Woodwind Lab II (1)
 - MUSI 245: Brass Lab I (1) **or** MUSI 246: Brass Lab II (1)
 - MUSI 247: Percussion Lab (1)
 - MUSI 321: Guitar Lab (1)
 - MUSI 460: Elementary Music Methods (3)
 - MUSI 463: Orchestral Repertoire and Rehearsal (3)
 - DANC 301: Dance in World Cultures (4)
 - Choose two credits from the following:
 - DANC 252: Beginning/Intermediate Contemporary (2)
 - DANC 255: Beginning/Intermediate Hip Hop (2)
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 360-363: Choral Ensemble (1, repeatable for credit)
 - MUSI 381: Chamber Ensemble (1, repeatable for credit)
 - MUSI 445: Conducting III (1)

Bachelor of Musical Arts (B.M.A.) Degree

Major in Music

62 semester hours, plus cognate

- Music Core (33)
- Ensembles (8)
 - Choose from: MUSI 360-383 (one each semester)
- Applied Lessons (8)
 - Choose from: MUSI 201-219, 401-419 (8)
- Conducting (2)
 - MUSI 345: Conducting I (1)
 - MUSI 346: Conducting II (1)
- Capstone Sequence
 - MUSI 499: Capstone Senior Project (2)
- Electives (9)
 - Choose any MUSI 300-498 not already used in the major
- Cognate: An academic minor or second major outside of music. First-year, sophomore, junior and senior assessments required.

Bachelor of Music (B.M.) Degree

Major in Music

84-88 semester hours

- First-year, sophomore, junior and senior assessments required.
- For vocal performance: language study required.
- Applied Lessons are to be taken in consecutive Fall/Spring Semesters; continuous non-jazz study throughout the program required.

Concentrations

Composition

84 semester hours

- Music Core (33)
- Ensembles (10)
 - MUSI 360-383 (one each semester, 8)
 - MUSI 381: Chamber Ensemble (world music focus) (2)
- Applied Lessons (8)
 - Choose from: MUSI 201-219, 401-419 (8)
- Concentration Module (26)
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 327: Classical Music Composition (4-12)
 - MUSI 329: Popular Songwriting and Media Music (4-12)
 - MUSI 345: Conducting I (1)
 - MUSI 346: Conducting II (1)
 - MUSI 499: Capstone: Senior Project (4)
- Music Electives (7)
 - Choose any MUSI 300-498 not already used in the major

Instrumental (Performance)

84 semester hours

- Music Core (33)
- Ensembles (8) (1 each semester)
 - Choose from: MUSI 370-371, 380
- Applied Lessons (22)
 - Principal Instrument (15)
 - Choose from: MUSI 205-219, 405-419 (15)
 - MUSI 399: Junior Recital (3)
 - MUSI 499: Capstone: Senior Project (Senior Recital) (4)
- Concentration Module (13)
 - MUSI 345: Conducting I (1)

- MUSI 346: Conducting II (1)
- MUSI 381: Chamber Ensemble (2)
- MUSI 420: Private Instruction: Pedagogy (2)
- Choose seven credits from the following:
 - MUSI 201-219, 401-419: Private Instruction (in secondary area) (1-2)
 - MUSI 241: String Lab I (1)
 - MUSI 242: String Lab II (1)
 - MUSI 243: Woodwind Lab I (1)
 - MUSI 244: Woodwind Lab II (1)
 - MUSI 245: Brass Lab I (1)
 - MUSI 246: Brass Lab II (1)
 - MUSI 247: Percussion Lab (1)
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 421: Functional Piano for the Professional Musician (2)
 - MUSI 445: Conducting III (1)
- Electives (8)
 - Choose any MUSI 300-498 not already used in the major

Organ (Performance)

84 semester hours

- Music Core (33)
- Ensemble (8)
 - MUSI 381: Chamber Ensemble (1)
 - Music Ensembles (7)
 - Choose from: MUSI 360-383 (one each semester)
- Applied Lessons (22)
 - MUSI 203: Private Instruction: Organ (8)
 - MUSI 403: Private Instruction: Organ (7)
 - MUSI 399: Keystone: Junior Recital (3)
 - MUSI 499: Capstone: Senior Project (Senior Recital) (4)
- Concentration Module (13)
 - MUSI 219: Harpsichord (1)
 - MUSI 345: Conducting I (1)
 - MUSI 346: Conducting II (1)
 - MUSI 352: Organ – Improvisation (1)
 - MUSI 420: Private Instruction: Pedagogy (2)
 - MUSI 421: Functional Piano for the Professional Musician (2)
 - Choose five credits from the following:
 - MUSI 325: Class Composition I (2)
 - MUSI 326: Class Composition II (2)
 - MUSI 445: Conducting III (1)
 - MUSI 451: Piano Pedagogy (2)
 - MUSI 453: Vocal Pedagogy (2)
- Electives (8)
 - Choose any MUSI 300-498 not already used in the major

Piano (Performance)

84 semester hours

- Music Core (33)
- Ensembles (8)
 - Choose from: MUSI 360-363, 370-371, 380 (2)
 - MUSI 351: Collaborative Piano Studies (2)
 - MUSI 383: Piano Ensemble (2)
 - Piano ensemble electives (2)
 - Choose from: MUSI 351, 360-363, 370-371, 380, 383
- Applied Lessons (22)
 - MUSI 202 **or** 402: Private Instruction – Piano (15)
 - MUSI 399: Junior Recital (3)
 - MUSI 499: Capstone: Senior Project (Senior Recital) (4)
- Concentration Module (11)
 - MUSI 219: Harpsichord (1) **or** MUSI 203: Organ (1)

- MUSI 345: Conducting I (1)
- MUSI 346: Conducting II (1)
- MUSI 421: Functional Piano for the Professional Musician (2)
- MUSI 430: Piano Literature 1 (2)
- MUSI 431: Piano Literature 2 (2)
- MUSI 451: Piano Pedagogy (2)
- Electives (10)
 - Choose any MUSI 300-498 not already used in the major

Voice (Performance)

88 semester hours

- Music Core (33)
- Ensembles (8)
 - Choral Ensemble: Choose from: MUSI 360-363 (one each semester)
- Applied Lessons (22)
 - MUSI 204 **or** 404: Private Instruction – Voice (15)
 - MUSI 399: Junior Recital (3)
 - MUSI 499: Capstone: Senior Project (Senior Recital) (4)
- J-Term – One Required (4)
 - MUSI 366: Opera (4)
- Concentration Module (10)
 - MUSI 345: Conducting I (1)
 - MUSI 346: Conducting II (1)
 - MUSI 353: Solo Vocal Lit (2)
 - MUSI 355: Diction I (1)
 - MUSI 356: Diction II (1)
 - MUSI 366: Opera (2)
 - MUSI 453: Vocal Pedagogy (2)
- Electives (3)
 - Choose any MUSI 300-498 not already used in the major
- Language (one year required) (8)
 - Choose from FREN 101, 102, 201, 202, 301, 302

Minors

General Minor

22 semester hours including:

- MUSI 120: Music and Culture (4)
- MUSI 125, 126, 136 (5)
- One of the following: MUSI 151, 152, **or** 251 (1)
- 4 semester hours of Private Instruction: (MUSI 201-219, 401-419)
- 4 semester hours of Ensemble (MUSI 360-383)
- One of the following: MUSI 101-106, 301-302

Specialized Minor

32 semester hours

- Includes courses required in the General Minor as listed above (22 semester hours), plus:
 - 4 additional semester hours of Private Instruction (MUSI 401-419)
 - 6 additional hours from one of the Bachelor of Music concentration modules (see above) or in jazz study as listed below.

Jazz Study at PLU

Students interested in pursuing the academic study of jazz at PLU have three options:

Specialized Music Minor in Jazz

32 semester hours, including:

- Courses in the general minor (22 semester hours), plus 4 additional semester hours of private instruction.
- Six additional semester hours, including: MUSI 103 and 427
- Jazz students may fulfill the ensemble requirement in jazz-related ensembles.

Jazz study in combination with an outside, non-music field (Bachelor of Musical Arts degree)

62 semester hours

Jazz students may major in music under the B.M.A. degree while combining music studies with a non-music academic minor or second major. In this program, all private lesson and ensemble credit may be in jazz.

Jazz study in combination with non-jazz (classical) performance study (Bachelor of Music degree)

84 semester hours

Instrumental jazz students may major in performance (see Bachelor of Music above) in which up to half the studio instruction and recital literature can be in jazz (see academic program contract for details).

Private Music Lessons

Special fee in addition to tuition. Private music lesson fees are non-refundable.

One Semester Hour

Fall and Spring Semesters: One half-hour private lesson per week (12 weeks) in addition to daily practice. Students in piano, voice, and guitar may be assigned to class instruction at the discretion of the music faculty.

Two Semester Hours

Fall and Spring Semesters: One-hour lesson per week (12 weeks) in addition to daily practice.

Three or Four Semester Hours

By permission of department only.

Music (MUSI) - Undergraduate Courses

MUSI 101 : Introduction to Music - CX

Introduction to music literature with emphasis on listening, structure, period, and style. Designed to enhance the enjoyment and understanding of music. Not open to majors. (4)

MUSI 103 : History of Jazz - CX

Survey of America's unique art form—Jazz: Emphasis on history, listening, structure, and style from early developments through recent trends. (4)

MUSI 105 : The Arts of China

Exploration of a number of Chinese art forms, primarily music but also including calligraphy, painting, tai chi, poetry, Beijing opera, film and cuisine. (4)

MUSI 106 : Music of Scandinavia and the Nordic Region - CX, GE

A survey of Nordic and Scandinavian music from the Bronze Age to the present, including the classical, folk, and popular traditions found within the region. (4)

MUSI 120 : Music and Culture - CX, GE

Introduction to the study of Western and non-Western music with an emphasis on musical history, style, and social context. Restricted to music majors and minors. (4)

MUSI 125 : Ear Training I - CX

Development of aural skills, including interval recognition, sight-singing, rhythmic, melodic and harmonic dictation. (1)

MUSI 126 : Ear Training II - CX

Continuation of MUSI 125. Prerequisite: MUSI 125 or consent of instructor. (1)

MUSI 133 : Music Theory & Analysis IA

Introduces basic underlying elements of music theory: reading and notating music, key signatures, intervals, chords, scales, etc. Previous music-reading experience highly recommended, but not required. (2)

MUSI 135 : Music Theory & Analysis IB

A continuation of MUSI 133. Minor scales, intervals, triads, diatonic 7th chords, basic analysis, etc. (2)

MUSI 136 : Music Theory & Analysis II

A continuation of MUSI 135. Further study of the materials and syntax of musical expression through an examination of harmonic and melodic analysis, composition, part-writing, figured bass, non-chord tones, small formal structures, secondary functions, etc. Prerequisite: MUSI 135 or consent of instructor. (3)

MUSI 151 : Keyboard Musicianship I

Beginning skills in piano and general musicianship in a group piano setting, including reading in treble and bass clef, building coordination and technique, sight-reading, improvisation, playing by ear, harmonization of melodies, lead-sheet realization, transposing, ensemble playing, and public performance. Requires no previous keyboard experience. Intended for music majors or minors, but students of all areas are welcome. (1)

MUSI 152 : Keyboard Musicianship II

Development of piano and musicianship skills in a group piano setting, including sight-reading, harmonization of melodies, lead-sheet realization, open-score reading, scales and technique, improvisation, transposing, accompanying and public performance. Prerequisite: MUSI 151 or consent of instructor. Intended for music majors, but open to students in all areas. (1)

MUSI 199 : Music in Performance

For students concurrently registered in Private Instruction Performance or Composition (MUSI 201-219, 327, 399, 401-419, 421, and 499 Capstone Student Project: Senior Recital or Project). Students experience a broad range of repertory through attendance at live performances and relevant music events. Graded Pass/Fail. (0)

MUSI 201 : Private Instruction: Jazz - CX

Prerequisite: Two semesters of non-jazz study (MUSI 202-219) or permission of the director of jazz studies. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 201A for 1 hour; 201B for 2 hours; 201C for 3 or 4 hours. (1 to 4)

MUSI 202 : Private Instruction: Piano - CX

Private instruction for Piano. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 202A for 1 hour; 202B for 2 hours; 202C for 3 or 4 hours. (1 to 4)

MUSI 203 : Private Instruction: Organ - CX

Private instruction for Organ. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 203A for 1 hour; 203B for 2 hours; 203C for 3 or 4 hours. (1 to 4)

MUSI 204 : Private Instruction: Voice - CX

Private instruction for Voice. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 204A for 1 hour; 204B for 2 hours; 204C for 3 or 4 hours. (1 to 4)

MUSI 205 : Private Instruction: Violin/Viola - CX

Private instruction for Violin/Viola. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 205A for 1 hour; 205B for 2 hours; 205C for 3 or 4 hours. (1 to 4)

MUSI 206 : Private Instruction: Cello/Bass - CX

Private Instruction for Cello/Bass. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 206A for 1 hour; 206B for 2 hours; 206C for 3 or 4 hours. (1 to 4)

MUSI 207 : Private Instruction: Flute - CX

Private instruction for Flute. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 207A for 1 hour; 207B for 2 hours; 207C for 3 or 4 hours. (1 to 4)

MUSI 208 : Private Instruction: Oboe/English Horn - CX

Private instruction for Oboe/English Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 208A for 1 hour; 208B for 2 hours; 208C for 3 or 4 hours. (1 to 4)

MUSI 209 : Private Instruction: Bassoon - CX

Private instruction for Bassoon. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 209A for 1 hour; 209B for 2 hours; 209C for 3 or 4 hours. (1 to 4)

MUSI 210 : Private Instruction: Clarinet - CX

Private instruction for Clarinet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 210A for 1 hour; 210B for 2 hours; 210C for 3 or 4 hours. (1 to 4)

MUSI 211 : Private Instruction: Saxophone - CX

Private instruction for Saxophone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 211A for 1 hour; 211B for 2 hours; 211C for 3 hours. (1 to 4)

MUSI 212 : Private Instruction: Trumpet - CX

Private instruction for Trumpet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 212A for 1 hour; 212B for 2 hours; 212C for 3 or 4 hours. (1 to 4)

MUSI 213 : Private Instruction: French Horn - CX

Private instruction for French Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 213A for 1 hour; 213B for 2 hours; 213C for 3 or 4 hours. (1 to 4)

MUSI 214 : Private Instruction: Trombone - CX

Private instruction for Trombone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 214A for 1 hour; 214B for 2 hours; 214C for 3 or 4 hours. (1 to 4)

MUSI 215 : Private Instruction: Baritone/Tuba - CX

Private instruction for Baritone/Tuba. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 215A for 1 hour; 215B for 2 hours; 215C for 3 or 4 hours. (1 to 4)

MUSI 216 : Private Instruction: Percussion - CX

Private instruction for Percussion. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 216A for 1 hour; 216B for 2 hours; 216C for 3 or 4 hours. (1 to 4)

MUSI 217 : Private Instruction: Guitar - CX

Private instruction for Guitar. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 217A for 1 hour; 217B for 2 hours; 217C for 3 or 4 hours. (1 to 4)

MUSI 218 : Private Instruction: Harp - CX

Private instruction for Harp. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 218A for 1 hour; 218B for 2 hours; 218C for 3 or 4 hours. (1 to 4)

MUSI 219 : Private Instruction: Harpsichord CX

Private instruction for Harpsichord. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 219A for 1 hour; 219B for 2 hours; 219C for 3 or 4 hours. (1 to 4)

MUSI 225 : Ear Training III - CX

A continuation of MUSI 126. Prerequisite: MUSI 126 or consent of instructor. (1)

MUSI 226 : Ear Training IV - CX

A continuation of MUSI 225. Prerequisite: MUSI 225 or consent of instructor. (1)

MUSI 235 : Music Theory & Analysis III

A continuation of MUSI 136. Further study of the materials and syntax of musical expression through an examination of modulation, larger formal structures, mode mixture, borrowed chords, augmented sixth chords, chromatic harmony, composition, etc. Prerequisite: MUSI 136 or consent of instructor. (3)

MUSI 236 : Music Theory & Analysis IV

Introduction to post-tonal techniques and the craft of the 21st century composer/arranger, including counterpoint, orchestration, and the development of thematic material into a composition. Prerequisite: MUSI 235 or consent of department chair. (4)

MUSI 240 : Introduction to Music Education

Introduction to the profession. History and philosophy of music education. Developmental characteristics of students and learning styles. Introduction to national and state standards. Lesson design with emphasis on writing objectives. 15 hour practicum required. Music education majors only. (3)

MUSI 241 : String Lab I

Methods and materials of teaching and playing string instruments in the public schools. Intended for music education majors. (1)

MUSI 242 : String Lab II

Methods and materials of teaching and playing string instruments in the public schools. Intended for music education majors. (1)

MUSI 243 : Woodwind Lab I

Group instruction on flute, clarinet, and saxophone; methods and materials of teaching and playing single reeds in the public schools. Intended for music education majors. (1)

MUSI 244 : Woodwind Lab II

Group instruction on oboe and bassoon; methods and materials of teaching and playing double reed instruments in the public schools. Intended for music education majors. (1)

MUSI 245 : Brass Lab I

Group Instruction on trumpet and horn; methods and materials of teaching and playing high brass instruments in the public schools. Intended for music education majors. (1)

MUSI 246 : Brass Lab II

Group instruction on trombone, euphonium, and tuba; methods and materials of teaching and playing low brass instruments in the public schools. Intended for music education majors. (1)

MUSI 247 : Percussion Lab

Methods and materials of teaching and playing percussion instruments in the public schools. (1)

MUSI 251 : Keyboard Musicianship III

Continued development of piano and musicianship skills in a group piano setting, including scales and technique, accompanying, harmonization of melodies, lead-sheet realization, singing and playing, improvisation, transposing, open-score reading, hymn sight-reading, and public performance. Prerequisite: MUSI 152 or consent of instructor. Intended for music majors, but open to students in all areas. Culminates in the Keyboarding Proficiency Assessment. (1)

MUSI 287 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 288 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 289 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

MUSI 301 : Music in Historical Context I

Music History in theory and practice from the Middle Ages through the Age of the Enlightenment. In this course students will study the development of Western music of the Middle Ages, Renaissance, Baroque, and Classical era through examination and performance of representative works of each time period. Prerequisites: MUSI 120 and MUSI 136. (4)

MUSI 302 : Music in Historical Context II

Music History in theory and practice from Beethoven's innovations to those of the present day. In this course students will study the development of Western music of the Romantic, Modernist, and Post-Modernist periods through examination of representative works of each time period. Prerequisites: MUSI 120 and 136. (4)

MUSI 321 : Guitar Lab

Group instruction on acoustic guitar; methods and materials of teaching and playing guitar in the public schools. Intended for music education majors. (1)

MUSI 325 : Class Composition I

A systematic introduction to neo-tonal compositional languages, styles, and techniques resulting in individually composed chamber pieces. MUSI 325 and 326 are prerequisites for private study in Composition (MUSI 327). Students intending to major in Composition should take these courses in their first year of music study. Students majoring in other areas may take these

courses after completing MUSI 236. MUSI 325 and MUSI 326 need not be taken in sequence. Prerequisite: MUSI 236 or consent of instructor. (2)

MUSI 326 : Class Composition II

A systematic introduction to pan-tonal compositional languages, styles, and techniques resulting in individually composed chamber pieces. MUSI 325 and MUSI 326 are prerequisites for private study in Composition (MUSI 327). Students intending to major in Composition should take these courses in their first year of music study. Students majoring in other areas may take these courses after completing MUSI 236. MUSI 325 and MUSI 326 need not be taken in sequence. Prerequisite: MUSI 236 or consent of instructor. (2)

MUSI 327 : Classical Music Composition - CX

A systematic approach to contemporary musical composition; students create and notate works for solo, small and large ensembles. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students register in 327A for 1 hour; 327B for 2 hours; 327C for 3 or 4 hours. Prerequisites: MUSI 325 and 326 or consent of instructor.

MUSI 329 : Popular Songwriting and Media Music - CX

A systematic approach to the creation and recording of popular and commercial music. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students register in MUSI 329A for 1 hour; MUSI 329B for 2 hours; MUSIC 329C for 3 or 4 hours (1 to 4)

MUSI 340 : Managing the Classroom and Curriculum

Classroom management, classroom technology, and assessment. Unit and lesson planning with introduction to the edTPA. 15 hour practicum required. Prerequisite: MUSI 240. (3)

MUSI 341 : Music for Classroom Teachers

Methods and procedures in teaching elementary school music as well as infusing the arts in the curriculum. Offered for students preparing for elementary classroom teaching (non-music education majors). (2)

MUSI 345 : Conducting I - CX

Introduction to basic patterns, gestures, and conducting techniques. (1)

MUSI 346 : Conducting II

Continuation of MUSI 345; observation of advanced conducting students in laboratory ensemble. (1)

MUSI 351 : Collaborative Piano Studies - CX

Laboratory experience in accompanying representative vocal and instrumental solo literature in the soloist's private lesson studio. Prerequisite: consent of instructor. (1)

MUSI 352 : Organ Improvisation - CX

Basic techniques of improvisation, particularly as related to hymn tunes. Private instruction: Special Fee in addition to tuition. Prerequisite: consent of instructor. (1)

MUSI 353 : Solo Vocal Literature - CX

Survey of solo vocal literature. (2)

MUSI 355 : Diction I (English/Italian) - CX

An introduction to the International Phonetic Alphabet (IPA) and its practical applications for singers of English and Italian texts. (1)

MUSI 356 : Diction II (French/German)

Continuation of MUSI 355 with applications for singers of French and German texts. (1)

MUSI 360 : Choir of the West - CX

A study of a wide variety of choral literature and technique through rehearsal and performance of both sacred and secular music. Auditions at the beginning of fall semester. (1)

MUSI 361 : University Chorale - CX

A study of choral literature and technique through rehearsal and performance of both sacred and secular music. Auditions at the beginning of fall semester. (1)

MUSI 362 : Knights Chorus - CX

The study and performance of repertoire for tenor and bass voices. Emphasis on individual vocal and musical development. (1)

MUSI 363 : University Singers - CX

The study and performance of repertoire for soprano and alto voices. Emphasis on individual vocal and musical development. (1)

MUSI 366 : Opera - CX

Production of chamber opera, opera scenes, and full operas. Participation in all facets of production. Prerequisite: consent of instructor. (1)

MUSI 370 : University Wind Ensemble - CX

Study and performance of selected wind and percussion literature using various size ensembles. Membership by audition. (1)

MUSI 371 : University Concert Band - CX

Study of selected band literature through rehearsal and performance. Designed for the general university student. Prerequisite: having played instrument through at least junior year of high school or consent of instructor. (1)

MUSI 375 : University Jazz Ensemble - CX

Study of selected big band literature through rehearsal and performance. Membership by audition. (1)

MUSI 380 : University Symphony Orchestra - CX

Study of selected orchestral literature through rehearsal and performance. Membership by audition. (1)

MUSI 381 : Chamber Ensemble - CX

Reading, rehearsal, and performance of selected music for smaller ensembles. Prerequisite: consent of instructor. (1)

MUSI 383 : Piano Ensemble - CX

Techniques and practice in the performance of two-piano and piano duet literature; includes sight reading and program planning. Prerequisite: consent of instructor. (1)

MUSI 387 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 388 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 389 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 390 : Intensive Performance Study: Ensemble Tour - CX

Intensive study and rehearsal of your repertoire; off-campus tour of major performance venues; special fee in addition to tuition. Prerequisite: consent of instructor. (4)

MUSI 395 : Music Centers of the World - CX

Exploration of music and other arts in environments off campus. Offered January Term to facilitate study abroad, or in cultural centers of the United States. (4)

MUSI 399 : Junior Recital

Preparation and presentation of a juried half recital, normally in the junior year. Declared Bachelor of Music majors only. Private instruction; special fee in addition to tuition. Prerequisite: consent of instructor is required. (3)

MUSI 401 : Private Instruction:Jazz CX

Prerequisite: Two semesters of non-jazz study (202-219) or permission of the Director of Jazz Studies. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 401A for 1 hour; 401B for 2 hours; 401C for 3 or 4 hours. (1 to 4)

MUSI 402 : Private Instruction: Piano - CX

Private instruction for Piano. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 402A for 1 hour; 402B for 2 hours; 402C for 3 or 4 hours. (1 to 4)

MUSI 403 : Private Instruction: Organ - CX

Private instruction for Organ. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 403A for 1 hour; 403B for 2 hours; 403C for 3 or 4 hours. (1)

MUSI 404 : Private Instruction: Voice CX

Private instruction for Voice. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 404A for 1 hour; 404B for 2 hours; 404C for 3 or 4 hours. (1)

MUSI 405 : Private Instruction: Violin/Viola - CX

Private instruction for Violin/Viola. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 405A for 1 hour; 405B for 2 hours; 405C for 3 or 4 hours. (1 to 4)

MUSI 406 : Private Instruction: Cello/Bass - CX

Private instruction for Cello/Bass. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 406A for 1 hour; 406B for 2 hours; 406C for 3 or 4 hours. (1 to 4)

MUSI 407 : Private Instruction: Flute - CX

Private instruction for Flute. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 407A for 1 hour; 407B for 2 hours; 407C for 3 or 4 hours. (1 to 4)

MUSI 408 : Private Instruction: Oboe/English Horn - CX

Private instruction for Oboe/English Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 408A for 1 hour; 408B for 2 hours; 408C for 3 or 4 hours. (1 to 4)

MUSI 409 : Private Instruction: Bassoon - CX

Private instruction for Bassoon. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 409A for 1 hour; 409B for 2 hours; 409C for 3 or 4 hours. (1 to 4)

MUSI 410 : Private Instruction: Clarinet - CX

Private instruction for Clarinet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 410A for 1 hour; 410B for 2 hours; 410C for 3 or 4 hours. (1 to 4)

MUSI 411 : Private Instruction: Saxophone - CX

Private instruction for Saxophone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 411A for 1 hour; 411B for 2 hours; 411C for 3 or 4 hours. (1 to 4)

MUSI 412 : Private Instruction: Trumpet - CX

Private instruction for Trumpet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 412A for 1 hour; 412B for 2 hours; 412C for 3 or 4 hours. (1 to 4)

MUSI 413 : Private Instruction: French Horn - CX

Private instruction for French Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 413A for 1 hour; 413B for 2 hours; 413C for 3 or 4 hours. (1 to 4)

MUSI 414 : Private Instruction: Trombone - CX

Private instruction for Trombone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 414A for 1 hour; 414B for 2 hours; 414C for 3 or 4 hours. (1 to 4)

MUSI 415 : Private Instruction: Baritone/Tuba - CX

Private instruction for Baritone/Tuba. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 415A for 1 hour; 415B for 2 hours; 415C for 3 or 4 hours. (1 to 4)

MUSI 416 : Private Instruction: Percussion - CX

Private instruction for Percussion. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 416A for 1 hour; 416B for 2 hours; 416C for 3 or 4 hours. (1 to 4)

MUSI 417 : Private Instruction: Guitar - CX

Private instruction for Guitar. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 417A for 1

hour; 417B for 2 hours; 417C for 3 or 4 hours. (1 to 4)

MUSI 418 : Private Instruction: Harp - CX

Private instruction for Harp. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 418A for 1 hour; 418B for 2 hours; 418C for 3 or 4 hours. (1 to 4)

MUSI 419 : Private Instruction: Harpsichord - CX

Private instruction for Harpsichord. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 419A for 1 hour; 419B for 2 hours; 419C for 3 or 4 hours. (1 to 4)

MUSI 420 : Private Instruction: Pedagogy - CX

Methods and materials for teaching specific instrumental media in the studio; special fee in addition to tuition. Students register in MUSI 420A for 1 hour and 420B for 2 hours. (1 or 2)

MUSI 421 : Functional Piano for the Professional Musician

Advanced development of piano and musicianship skills in a group piano setting, focusing on the necessary skills for choir direction, including vocal warm-ups, open score reading, sight-reading, hymn sight-reading, singing and playing, and accompanying. Prerequisite: MUSI 251, with a grade of C or better, and/or successful completion of the Keyboarding Proficiency Assessment. Required for Choral Music Education, Organ, and Piano majors, but open to students in all areas. (2)

MUSI 427 : Advanced Orchestration/Arranging - CX

Prerequisite: MUSI 325 and 326 or consent of instructor. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students are registered in 427A for 1 hour; 427B for 2 hours; 427C for 3 or 4 hours. (1 to 4)

MUSI 430 : Piano Literature I - CX

Study of representative piano repertoire from the 18th and early 19th Century. (2)

MUSI 431 : Piano Literature II - CX

Study of representative piano compositions of the late 19th and 20th Century. (2)

MUSI 445 : Conducting III

Refinement of patterns, gestures, and conducting techniques; application to appropriate vocal and instrumental scores. Prerequisite: MUSI 346. (1)

MUSI 451 : Piano Pedagogy I - CX

Teaching techniques for prospective teachers of piano, including techniques for individual and group instruction. Methods and materials will cover beginning to intermediate levels. Includes a practical teaching component. Required for piano majors, but open to all advanced pianists. (2)

MUSI 453 : Vocal Pedagogy - CX

Physiological, psychological, and pedagogical aspects of singing. (2)

MUSI 460 : Elementary Music Methods

A survey of materials and pedagogical approaches to teaching in the elementary music classroom. Prerequisite: MUSI 340. (3)

MUSI 461 : Band Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary band setting. Prerequisite: MUSI 340. (3)

MUSI 462 : Choral Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary choral setting. Prerequisite: MUSI 340. (3)

MUSI 463 : Orchestral Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary orchestral setting. Prerequisite: MUSI 340. (3)

MUSI 464 : Practicum in Music Education I

Music education students complete a minimum of 30 hours of field experience in local schools. Prerequisite: MUSI 340. Students enroll 2-3 semesters prior to student teaching.

MUSI 465 : Practicum in Music Education II (Pre-Student Teaching)

Music education students complete a minimum of 60 hours of field experience in a local school. Students enroll in the semester immediately preceding student teaching. Prerequisite: MUSI 340; 460; 461, 462, or 463 (depending on area of concentration); and 464. (1)

MUSI 469 : Student Teaching Seminar

Student teaching experiences shared and analyzed; exploration of related issues regarding entering the public school music teaching profession. Concurrent enrollment with EDUC 468 required. (2)

MUSI 487 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 488 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 489 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: consent of instructor. May be repeated for additional credit. (1 to 4)

MUSI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

MUSI 499 : Capstone: Senior Project - SR

A culminating project of substantial proportions, presented in a public forum, undertaken in the senior year. For the Bachelor of Arts degree, the project integrates musical studies with a broader liberal arts context; for the Bachelor of Musical Arts degree, the project integrates musical studies with the cognate field; for Bachelor of Music Education and Bachelor of Music degrees, the project consists of a juried recital. Private instruction; special fee in addition to tuition. Students register first in 499A for 1 hour and then in the next term 499B for 2 to 4 hour option. Prerequisite: consent of instructor. (1 to 4)

Theatre & Dance

253.538.8275	www.plu.edu/theatre-dance	theatre-dance@plu.edu
Amanda Sweger, M.F.A, Chair		

The **Bachelor of Fine Arts (B.F.A.)** with a major in theatre is a pre-professional degree intended to equip students for careers and graduate programs focusing on particular professional fields.

Courses in Theatre and Dance that satisfy General Education Program Elements

- The following courses from theatre and dance may be used to meet the General Education Program element in Creative Expression (CX):
 - THEA 160, 250, 252, 254, 255, 453; DANC 170, 222, 240, 251, 252, 254, 255
- The following courses from theatre and dance may be used to meet the General Education Program element in Engaging Self & Society (ES):
 - THEA 360, 362, 365, 390; DANC 301
- DANC 222, 251, 252, 254, 255 meet the General Education Program element in Fitness and Wellness (FT)
- DANC 301 meets the General Education Program element in Global Engagement (GE)

Declaration of Major

Students wishing to declare a major in theatre (B.A. or B.F.A. degree options) must have a cumulative grade point average of 2.50 or higher. Entrance Audition: to be admitted into a B.F.A. degree, prospective students must audition/interview for the theatre faculty. No prior coursework in theatre is required.

Minor Requirement for Theatre Majors

The Bachelor of Arts (B.A.) in theatre requires the completion of either a minor approved by the major advisor or a self-directed study program that includes the following areas:

- 4 semester hours in English (Writing)
- 4 semester hours in English (Literature)
- 8 semester hours in social sciences

Bachelor of Arts (B.A.) Degree

Major in Theatre

44 semester hours, plus a minor

- THEA 160: Introduction to Theatre (4) **or** THEA 102: FYEP 102: DJS Seminar (4)
- THEA 225: Running Crew I (4)
- THEA 250: Acting I – Fundamentals (4)
- THEA 255: Theatrical Production (4)
- THEA 290: Stage Management (2)

Minors

Theatre

16 semester hours of any THEA courses; at least 4 semester hours must be upper-division (300 or 400 level).

Dance

16 semester hours, including:

12 semester hours of DANC courses plus 4 semester hours chosen from: additional DANC courses, KINS 277, 280, FTWL 223, 224, 225, MUSI 101, 120, THEA 250, 254, 285, 355, 453. At least 4 semester hours must be upper-division (300 or 400 level).

Dance (DANC) - Undergraduate Courses

DANC 170 : Introduction to Dance - CX

An introduction to Western concert dance forms. The course combines discussion and movement practice. (4)

DANC 222 : Beginning/Intermediate Musical Theatre Dance - CX, FT

Students practice musical theatre and jazz dance technique, musical theatre and jazz choreography, and learn the history of musical theatre and jazz dance. Designed for students who have never taken a musical theatre or jazz dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 240 : Dance Concert Ensemble - CX

Students perform in the faculty-directed dance concert. Repeatable for credit up to 4 times. (0 to 1)

DANC 251 : Beginning/Intermediate Ballet - CX, FT

Students practice ballet technique, ballet choreography, and learn the history of ballet. Designed for students who have never taken a ballet class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 252 : Beginning/Intermediate Contemporary - CX, FT

Students practice contemporary dance technique, contemporary choreography, and learn the history of contemporary and modern dance. Designed for students who have never taken a contemporary dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 254 : Beginning/Intermediate Tap - CX, FT

Students practice tap dance technique, tap choreography, and learn the history of tap dance. Designed for students who have never taken a tap dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 255 : Beginning/Intermediate Hip Hop - CX, FT

Students practice hip hop dance technique, hip hop choreography, and learn the history of hip hop. Designed for students who

have never taken a hip hop dance class before, as well as more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 287 : Special Topics in Dance

Provides undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

DANC 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

DANC 301 : Dance and Culture - ES, GE

An examination of the history and culture of dance forms and choreographic methods from around the world. A seminar-based class that includes physical movement. (4)

DANC 322 : Advanced Musical Theatre Dance

Designed for intermediate/advanced students, this course further develops musical theatre and jazz dance technique and performance. Repeatable for credit up to 4 times. Prerequisite: consent of instructor or DANC 222. (2)

DANC 340 : Dance Composition and Choreography

A study of the principles of dance composition. Students engage in concentrated creative practice through choreographic projects, exercises, and guided improvisation. (2)

DANC 351 : Advanced Ballet

Designed for intermediate/advanced students, this course further develops ballet technique and performance. Repeatable for credit up to 4 times. Prerequisite: consent of instructor or DANC 251. (2)

DANC 352 : Advanced Contemporary

Designed for intermediate/advanced students, this course further develops contemporary dance technique and performance. Prerequisite: DANC 252 or consent of instructor. Repeatable for credit up to 4 times. (2)

DANC 440 : Dance Concert Choreography

Students choreograph original works for the faculty-directed dance concert. Repeatable for credit up to 4 times. Prerequisite: consent of instructor. (0 to 2)

DANC 487 : Special Topics in Dance

Provides undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

DANC 491 : Independent Study

Provides individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

Theatre (THEA) - Undergraduate Courses

THEA 160 : Introduction to Theatre - CX

An exploration of live theatre and its many elements; including, the contributions of its writers, directors, performers, designers, technicians, and audiences. (4)

THEA 225 : Running Crew I

A practicum course, students work backstage or in production shops on a faculty-directed production. Repeatable for a maximum of 8 semester hours. (1-8)

THEA 250 : Acting I - Fundamentals - CX

An introductory course to acting in which students perform scenes and monologues and learn about scene selection, memorization, imagination, character, and presentation. (4)

THEA 252 : Fundamentals of Scenic Design - CX

An introduction to the process used by scenic designers to create a physical environment for the stage. (4)

THEA 254 : Fundamentals of Lighting Design - CX

An introductory examination of the controllable properties of light and their application to the functions of theatrical lighting. (4)

THEA 255 : Theatrical Production - CX

An introduction to the backstage elements of theatre; including, costumes, scenery, props, lighting, and makeup. (4)

THEA 275 : Scenic Painting: Techniques

Color theory and hands-on painting techniques for theatrical productions. (2)

THEA 276 : Scenic Painting: Textures

Painting techniques and texture painting for theatrical productions. (2)

THEA 279 : Hand Drafting

Hand drafting techniques to create light plots or scenic draftings for theatrical applications. (2)

THEA 280 : Computer-Aided Drafting

The use of computers and software to create light plots or scenic draftings for theatrical applications. Prerequisite: THEA 279. (2)

THEA 285 : Costume Crafts and Construction

Costume production techniques, including sewing, use of equipment, knowledge of available materials, dyeing, and 3-D. (4)

THEA 287 : Special Topics in Theatre

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

THEA 290 : Stage Management

The study and practice of stage management and its vital role in the theatrical production process. (2)

THEA 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

THEA 299 : The Profession of Theatre

An introduction of the various elements necessary to prepare for a life in the theatre, including portfolio and audition materials,

agents and unions, graduate schools and the profession. (2)

THEA 300 : Improvisation

Long and/or short form improvisation techniques in addition to a variety of exercises exploring terminology, character work and elements of comedy. (2)

THEA 330 : Script Analysis

Discussion of the ideas, forms, structures, and elements of contemporary plays and musicals. (4)

THEA 345 : Playwriting

Techniques for writing short plays and an analysis of dramatic structure. (4)

THEA 346 : The Audition

Techniques for choosing and preparing effective audition material, cold and prepared readings, and head shots and résumés for stage, television, and film. (2)

THEA 347 : The Vocal Audition

Techniques for choosing and preparing effective audition songs and cuttings for musical theatre. (2)

THEA 350 : Scene Study

Analyzing and performing scenes and monologues to deepen performances and prepare audition material. Prerequisite: THEA 250 or consent of instructor. (4)

THEA 351 : Stage Makeup

Basic techniques in theatrical makeup application including corrective, aging, three-dimensional, and special effects. (4)

THEA 355 : Lighting Design

A practical application of electrical, programming, and artistic skills needed for theatrical lighting design. Prerequisite: THEA 254. (4)

THEA 360 : Theatre History: Origins - ES

A survey of theatre's origins as an institution that reflects history while forming new social values and ideas. (4)

THEA 362 : Musical Theatre History - ES

A survey of Broadway musical theatre as an institution that reflects history while forming new social values and ideas. (4)

THEA 365 : Theatre History II - ES

A survey of theatre in modern and contemporary times as an institution that reflects history while forming new social values and ideas. (4)

THEA 380 : Directing I

The process of analyzing and making choices about scripts, casting, revealing the focus of scenes, and constructing the mood, rhythm, pace and main idea of productions. Prerequisite: THEA 250. (4)

THEA 385 : Musical Theatre Performance: Golden Age

An exploration of singing musical theatre from America's Golden Age in a studio setting. (4)

THEA 386 : Musical Theatre Performance: Modern

An exploration of singing musical theatre from America's modern era in a studio setting. (4)

THEA 387 : Topics in Theatre

This course will be offered as needed, and it will allow the faculty and guest artists to explore areas of expertise and interest that are not normally taught as part of the curriculum. Concentrated study of a major theatrical period, movement, author, theme, genre, performance style, culture, or technology. (2 to 4)

THEA 390 : Visual History: Period Costume and Décor - ES

A survey of the architecture, interiors, clothing, culture, and aesthetic of the western world through exposure to art, historical documents, and popular perspectives. (4)

THEA 400 : Theatre Rehearsal and Performance

Students perform in a faculty-directed production. Repeatable for a maximum of 12 semester hours. (0-4)

THEA 425 : Running Crew II

A practicum course, students work on intermediate and advanced-level running crew assignments or in production shops on a faculty-directed production. Repeatable for a maximum of 8 semester hours. (1-8)

THEA 450 : Styles

Analyzing and performing styles of acting representing various time periods and genres. Prerequisites: THEA 250 or consent of instructor. (4)

THEA 453 : Costume Design - CX

Development of artistic and technical abilities in the field of costume design incorporating history, patterns, and renderings. (4)

THEA 455 : Scenic Design

Explores the process used by scenic designers to create a physical environment for the stage through analyzing a theatrical text, formulating and expressing an approach through research, and executing their ideas through models and simple drafting. Prerequisite: THEA 252. (4)

THEA 480 : Directing II

Builds on techniques learned in Directing I to develop stage productions. This includes interpreting text, analyzing premise, developing visual concepts, translating words and concepts into actions, and the process of communication between actors and designers. Prerequisite: THEA 380. (4)

THEA 485 : Theatre Management

The study of issues related to managing a theatre company and producing plays. (2)

THEA 491 : Independent Studies

Investigations or research in area of special interest not covered by regular courses; open to qualified junior or senior students. Requires pre-registration approved by a departmental sponsor. (1 to 4)

THEA 495 : Internship in Theatre

Internship or cooperative education experiences in the theatre. (1 to 4)

THEA 499 : Capstone - SR

Preparation of portfolios and project work that reflects both academic and practical knowledge gained through the study of theatre. (2)

Native American & Indigenous Studies

253.535.7217	www.plu.edu/nais	jamesja@plu.edu
Jenny James, Ph.D., Chair		

Native American and Indigenous Studies is an interdisciplinary program grounded in a partnership between students, faculty, staff and local communities, with a global Indigenous focus centered in local and regional contexts. We empower students to recognize, honor and value Indigenous ways of knowing, so that they can work in collaboration with Indigenous communities and all their relations.

Minor

22 semester hours

Core courses in Native American and Indigenous studies

6 semester hours

Students must take the following core courses that introduce the field of Native American and Indigenous Studies and explore key approaches and issues within it.

- NAIS 111: Interconnections (1)
- NAIS 112: Interconnections (1)
- NAIS 250: Introduction to Native American and Indigenous Studies (4)

Northwest Language and Worldview

8 semester hours

Students will take 8 semester hours that explore Indigenous language and worldviews of the Pacific Northwest. Equivalent coursework or demonstrated fluency to an equivalent level in another Indigenous language may be substituted for SOLU 101 and SOLU 102.

- SOLU 101: Southern Lushootseed: Introduction to Oral Language (4)

And one of these three courses exploring Northwest Indigenous language and worldviews.

- NAIS 495: Internship (1-4)
- RELI 397: Indigenous Religions and Cultures of the Pacific Northwest (4)
- SOLU 102: Southern Lushootseed: Oral Language Dialogue (4)

Electives

8 semester hours

Students select 8 semester hours from the following courses that study Indigenous topics and perspectives.

- ENGL 213: Topics in Literature (4)
(when the topic is 'Literature of the PNW')
- ENGL 288: Special Topics in English (4)
(when the topic is 'Indigenous Literature of North America')
- HISP 322: Latin American Cultural Studies (4)
- HIST 333: Colonization and Genocide in Native North America (4)
- HIST 348: Lewis and Clark: History and Memory (4)
- HIST 351: History of Western and Pacific Northwestern U.S. (4)
- NAIS 230: Indigenous Creation Narratives of the Americas (4)
- NAIS 321: Visual Sovereignty and Indigenous Film (4)
- NAIS 244: Environmental Justice and Indigenous Peoples (4)
- NAIS 286: Sámi Film and the Indigenous North (4)
- NAIS 363: Race and Indigeneity (4)
- NURS 404: Healthcare Diversity (4)
- RELI 227: Introduction to Christian Theologies (4)
(when the topic is 'Native American Theologies')

- RELI 236: Native American Religious Traditions (4)
- RELI 397: Indigenous Religions and Culture of the Pacific Northwest (4)
(if not used to satisfy the Northwest Language and Worldview requirement above)
- SOLU 101: Southern Lushootseed: Introduction to Oral Language (4)
(if not used to satisfy the Northwest Language and Worldview requirement above)
- SOLU 102: Southern Lushootseed: Oral Language Dialogue (4)
(if not used to satisfy the Northwest Language and Worldview requirement above)
- Approved Study Away courses (4-8)
 - Up to 8 study away semester hours may be applied toward the minor upon completion of PLU's semester-long Gateway program in Oaxaca, when accompanied by an internship experience with an Indigenous-led organization. Students may also petition the chair to count up to 8 study away semester hours applied toward the minor from our Gateway program in Namibia or from our Featured programs in Australia and New Zealand.

NAIS 111 : Interconnections

A weekly meeting with program students and faculty to discuss progress, challenges, and the intersection of Indigenous approaches and the university experience. Students are encouraged to attend for no credit in subsequent semesters. Graded A/Pass/Fail. (1)

NAIS 112 : Interconnections

A weekly meeting with program students and faculty to discuss progress, challenges, and the intersection of Indigenous approaches and the university experience. Students are encouraged to attend for no credit in subsequent semesters. Graded A/Pass/Fail. (1)

NAIS 230 : Indigenous Creation Narratives of the Americas and their Resonance - IT, GE

Through encounters with a variety of creation narratives, literature, film, and visual art from native peoples of the Americas, students examine changing relationships with the land, the cosmos, and other living beings. (4)

NAIS 244 : Environmental Justice and Indigenous People - ES, GE

This course examines the struggle against environmental destruction as fundamental to Indigenous experiences, tracing its history as a central feature of settler colonialism in the United States and globally. It focuses on Indigenous responses and decolonial strategies, and on the sometimes rocky relationship between Indigenous people and environmentalist movements. Students read works by Indigenous historians, environmental scholars, and activists, while also addressing real world environmental colonialism in the local community. (4)

NAIS 250 : Introduction to Native American & Indigenous Studies - ES, GE

Introduces students to the scope, methodologies, and intellectual traditions of Native American and Indigenous Studies, focusing on such topics as Indigeneity, settler colonialism, sovereignty, resilience, and the intersectionality of Indigeneity with gender and sexuality. May include community-based service learning components. (4)

NAIS 286 : Sámi Film and the Indigenous North - IT, GE

By studying film, video, and television created by this Indigenous Arctic people, students will be introduced to the Sámi of northern Scandinavia and Russia, and will develop an understanding of Sámi culture, history, and worldviews as well as of contemporary issues concerning the Sámi and other Indigenous peoples and how film can express and address these issues. In English. (4)

NAIS 287 : Special Topics in Native American & Indigenous Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NAIS 288 : Special Topics in Native American & Indigenous Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NAIS 321 : Visual Sovereignty and Indigenous Film - IT, GE

Working with Indigenous and film studies theory, students will develop a familiarity with themes and trends in Indigenous film and related media, while also developing the critical tools and analytical skills necessary to analyze and discuss them and how they relate to broader issues of Indigeneity. (4)

NAIS 361 : Storied Survivance: Seminar on Indigenous Literatures - IT, GE

Stories have an immense importance for Indigenous people globally and that importance is reflected in the many Indigenous literatures that have emerged since Colonization. This seminar exposes students to Indigenous literature and critical approaches from around the world, helping them to understand why Indigenous literatures matter. (4)

NAIS 363 : Race and Indigeneity - ES, GE

This course examines ways that settler colonial ideologies of race have been developed and applied to Indigenous. Relying on critical readings on the intersection of race and Indigeneity in US and global contexts, this seminar equips students with important intellectual tools to understand the complexities of these intersections. (4)

NAIS 387 : Special Topics in Native American & Indigenous Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NAIS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

NAIS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

Natural Sciences, College of

253.535.7560	www.plu.edu/nsci/	nsci@plu.edu
Ann Auman, Ph.D., Dean		

The College of Natural Sciences fulfills a two-fold purpose, preparing its majors for careers as science professionals and providing all students grounding in the scientific awareness vital for being a citizen in the modern world and participating in a democracy. Opportunities for close interactions abound and the development of the whole person is a central concern.

The College of Natural Sciences offers B.S. and B.A. degrees in most programs, minors, and core courses that fulfill General Education Program elements. The departments provide supporting courses for interdisciplinary programs within the sciences and for other colleges of the University. Courses for B.A. in Education degrees with majors and minors in natural sciences are available; see the [Department of Education](#) section of this catalog for the specific degree requirements. See also the sections on the Health Sciences (located in the [pre-professional programs](#) section), Engineering Dual Degree program (located in the [undergraduate courses and curricula](#) section), and the STEM Education Minor (also located in the [undergraduate courses and curricula](#) section) for related programs.

Descriptions of specific course offerings and degree requirements offered within the College of Natural Sciences are listed under:

- [Biology](#)
- [Chemistry](#)
- [Computer Science](#)
- [Earth Science & Environmental Studies](#)
- [Mathematics](#)
- [Physics](#)
- [Psychology](#)
- [STEM Education](#)

The following courses are offered under Natural Sciences. Other courses suitable for satisfying General Education (GenEd) program elements may be found in the listings for each of the departments in the college.

Natural Sciences (NSCI) Undergraduate Courses

NSCI 287 : Special Topics in NSCI

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

NSCI 350 : STEM Education Partnership Program

This course introduces students to STEM teaching and provides opportunities for gaining teaching experience in a K-8 classroom. Teams of students will partner with K-8 teachers to co-develop and co-teach classroom lessons. Topics include Next Generation Science Standards and Common Core Standards in Mathematics, STEM-specific teaching strategies, issues of classroom equity and access, and designing assessments of STEM learning. Prerequisites: Consent of instructor and completion of one of the following with a grade of C- or above: BIOL 226 or CHEM 116 or CSCI 270 or GEOS 201 or MATH 152 or PHYS 154/164. (4)

NSCI 387 : Special Topics in NSCI

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

NSCI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

Nursing

Undergraduate Programs

The traditional undergraduate program is designed for students who do not hold licensure in practical or registered nursing. The L.P.N. to B.S.N. program is designed for Licensed Practical Nurses who have completed a practical nursing program. The school collaborates with nearly 100 health agencies to provide optimal clinical learning experiences for its students, under the supervision of its faculty members.

Graduates who successfully complete the program will earn the Bachelor of Science in Nursing (B.S.N.) degree and are eligible to sit for the NCLEX-RN examination for licensure as registered nurses in all 50 states and two U.S. Territories. They are prepared to begin professional nursing positions throughout the health care system. The undergraduate programs provide a strong foundation for graduate study in nursing.

Membership

The School of Nursing is a member of the American Association of Colleges of Nursing (AACN) and the National League for Nursing (NLN).

Washington State Approval

The School of Nursing is approved by the Washington State Nursing Care Quality Assurance Commission.

Accreditation

The BSN program is accredited and approved by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>) and Washington State Nursing Care Quality Assurance Commission.

High School Preparation

Applicants are expected to have completed a program in high school that includes: four years of English; two years of mathematics (preferably algebra and geometry); two years of social sciences; two years of one foreign language; and two years of laboratory sciences (including chemistry).

Liberal Arts Foundation

An understanding and appreciation of the liberal arts and of the art and science of nursing is necessary for success in the B.S.N. program. Admitted B.S.N. students are expected to have completed at least 12 semester hours of liberal arts courses prior to beginning the nursing program, in such study areas as anthropology, fine arts, history, languages, literature, philosophy, political science, religion or writing. Graduates are required to meet the PLU 48-semester-hour general education program. Courses in the classic liberal arts & sciences are integral to developing the baccalaureate-prepared nurse.

Admission to the University

Applicants must be accepted by the University before consideration for acceptance by the School of Nursing. Pacific Lutheran University welcomes applications from all students who have demonstrated capacity for success at the baccalaureate level. Students who present appropriate academic records and personal qualities may apply for admission to the Fall or Spring Semester. Application procedures and other details are found elsewhere in this catalog.

Admission to the School of Nursing

All application materials, including official transcripts, are reviewed by the School of Nursing's Recruitment, Admission and Progression (RAP) Committee and evaluated according to the admission criteria.

The selection of students for admission is competitive. Students who have completed the pre-nursing sequence of courses and have made progress on general education program requirements may be selected to begin the nursing major in the Fall or Spring Semester each year. When applications exceed capacity, qualified candidates may be placed on a waitlist; persons on the waitlist who are not admitted, but who continue to desire admission to the nursing major, must submit a new application to be

considered the following year.

Two modes of application to the School of Nursing are offered:

1. Direct Application to the School of Nursing

College students seeking admission to the nursing major must submit separate applications to the University (if not currently enrolled at PLU) and to the School of Nursing. This mode of application applies to transfer students, L.P.N. to B.S.N. applicants and currently-enrolled PLU students of all levels who did not seek or were not offered simultaneous freshman admission to PLU and nursing. The application to the School of Nursing is available on the School of Nursing website at www.plu.edu/nursing/.

2. Simultaneous/Conditional Freshman Admission to PLU and Nursing

Highly-qualified high school seniors may be considered for conditional admission to the nursing major based on their application to the University. The application is reviewed by both the University and nursing admission committees. Contact the Office of Admission for details, criteria, and deadlines (253.535.7151, www.plu.edu/admission/).

All prospective or pre-nursing students are urged to seek early academic advisement in order to enroll for appropriate prerequisite courses and avoid unnecessary loss of time. Individuals whose applications have been received after the priority deadline for all terms will be considered on a space-available basis. The School of Nursing reserves the right to revise and modify programs and curricula.

Admission Criteria

Traditional B.S.N. and L.P.N. to B.S.N.

Applicants must be admitted to Pacific Lutheran University before being considered for admission to the School of Nursing. Admission to the University does not imply or guarantee admission to the School of Nursing. Admission is a selective process and meeting minimum requirements does not imply or guarantee admission.

Minimum criteria for admission to the traditional B.S.N. or L.P.N. to B.S.N. programs of study include the following:

- Successful completion, or pending satisfactory completion, of specific prerequisite courses at PLU, an accredited community college or another accredited university.
- Successful completion, or pending completion, of at least 30 semester credits or 45 quarter credits (sophomore class standing).
- Competitive grade point average. Admitted students usually have significantly higher grade point averages than the minimum because of the competitiveness of the program:
 - A minimum grade of 2.50 (or B-) on a 4.00 scale in each nursing prerequisite and co-requisite course.
 - A minimum cumulative grade point average of 3.00 on a 4.00 scale in the prerequisite and corequisite courses.
 - A minimum PLU cumulative grade point average of 3.00 on a 4.00 scale. Transfer students who matriculate to PLU and the School of Nursing simultaneously must meet the cumulative transfer grade point average as determined by the Registrar's Office.
- No more than one repeat of any single prerequisite or co-requisite course. Applicants who have repeated single or multiple courses, both general and nursing-specific, due to failure, or have withdrawn from courses, are considered less competitive.
- Completion of the University Math Entrance Requirement, which is intermediate algebra at the college level with a minimum grade of 2.50 (or B-) on a 4.00 scale, or completion of two years of college preparatory (high school) algebra with average grades of 3.00 on a 4.00 scale.
- Completion of the University's Language Entrance Requirement: Two years of a single foreign language in high school or one-year of college-level foreign language (or American Sign Language).
- Physical and mental health with emotional stability sufficient to meet the School of Nursing Essential Qualifications for all generalist nursing roles, and to provide timely and safe patient care.
- Fluency in speaking, reading, writing and comprehending university-level English is necessary for academic success and for patient safety. Students whose first language is not English must take the TOEFL-iBT or the IELTS test. Test fees are the responsibility of the applicant. Score guidelines and the English Proficiency Policy may be found in the School of Nursing application or by contacting the School of Nursing Office at 253.535.7672 or nurs@plu.edu, or online as www.plu.edu/nursing/application/english-proficiency-policy/.
- Civil, administrative and criminal history clearance in all states as well as any other applicable territory or country.
- Submission of all required application documents to the School of Nursing by the School's designated yearly deadlines:
 - Priority deadline is February 1.
 - Final deadline is May 1.
- Students who have completed transferable nursing credit from another accredited institution should seek advisement from the admissions coordinator in the School of Nursing regarding their prospective curriculum plan. All transfer credit from other nursing programs must be approved before beginning the program.

Continuation Policies

- All nursing courses are sequential. For admitted students, completion of all courses in one semester is prerequisite to enrollment in the next semester's courses. All students admitted to the nursing major must adhere to the curriculum sequence as outlined in this catalog. Failure to progress according to the program plan for any reason may result in dismissal or a

significant delay in graduation.

- A minimum grade of 2.00 on a 4.00 scale (C) must be achieved in all required nursing courses. A student receiving a grade less than a 2.00 in any course that is prerequisite to another nursing course may not continue in the nursing sequence until the prerequisite course is repeated with a grade of 2.00 or above on a 4.00 scale. No course may be repeated more than one time.
- Withdrawal from a course in failing status is considered equivalent to a course failure.
- Students who do not earn a 2.50 (or B-) or better in a corequisite course while enrolled in the nursing program will be placed on academic probation, and may be dismissed from the nursing program.
- Failure or withdrawal in failing status from any two nursing courses will result in dismissal from the School of Nursing.
- Incomplete grades in nursing courses must be converted to a passing grade (2.00 or above on a 4.00 scale) before the first day of class of the subsequent term.
- Students taking approved withdrawals from nursing courses may return to the School of Nursing in accordance with policies listed in the Nursing Student Handbook on a space-available basis, noting that they may be subject to new program requirements.
- The School of Nursing reserves the right to withdraw nursing students who fail to achieve and maintain academic or clinical competence, or who do not demonstrate professional accountability or conduct. Unsafe and/or unethical practice constitutes grounds for immediate dismissal from the clinical component and/or the program.
- All students must comply with confidentiality according to Health Insurance Portability and Accountability Act (HIPAA), School of Nursing, and University regulations.
- Other policies regarding progression/continuation are found in the School of Nursing Student Handbook.
- Nursing majors who, for any reason, withdraw from or drop a nursing course without prior permission of the School of Nursing will be subject to dismissal from the major.

Health

As professional role models and health care providers, nursing students are responsible for demonstrating optimal health practices. All students at PLU are required to submit a health History Form and accurate immunization record prior to enrollment at PLU. In addition, all nursing students are required to submit separate specific health-related documentation and certification before beginning the program, and must be current throughout the course of study. It is the responsibility of each student to provide appropriate and timely documentation as required. Students failing to comply with any of these requirements may be dismissed from the nursing program and/or be subject to monetary fine. It is the student's responsibility to report in writing to the School of Nursing any changes in his or her physical, emotional, or psychological health.

Drug Testing Policy

All nursing students will be required to submit to drug, marijuana and alcohol screening at least once yearly as part of their continuing School of Nursing health requirements. Students may be required to submit to additional drug screenings as required by the clinical agencies and School of Nursing, at the student's expense. The screenings may be scheduled or they may occur at random and unannounced. Students will be expected to adhere to any deadline set by the agencies and/or the School of Nursing.

Non-Majors Enrolled in Nursing Courses

Students who have not been admitted to the nursing major but wish to enroll in nursing courses must first obtain permission of the course instructor(s) and the dean of the School of Nursing.

Additional Costs

Course fees are charged to each student's account each semester. These fees support the purchase of equipment, materials and supplies in the practice labs and Learning Resource Center, clinical placements, external testing measures, as well as computer materials and software. The fee is paid with tuition following registration for specific courses.

In addition to regular university costs, students must provide their own transportation between the University campus and the clinical areas beginning with the first nursing course. Public transportation is limited, so provision for private transportation is essential.

Health requirement fees, laboratory fees, student uniforms, textbooks, other learning materials, and any necessary equipment are the responsibility of the student.

Programs of Study

Prerequisite and corequisite courses for the Nursing Major

Each prerequisite and corequisite course listed below must be completed with a minimum grade of 2.50 (or B-) on a 4.00 scale in order to be considered successfully completed.

• Traditional B.S.N. Sequence:

Students must successfully complete Biology 201, 205, and 206, Chemistry 105, Statistics 231, Psychology 320 (Development

Across the Lifespan), and Nutrition (NURS 120 or equivalent) before beginning the nursing program. (See Admission Criteria for GPA requirements in prerequisite and corequisite courses.)

- **RN-with non-nursing baccalaureate degree or higher to M.S.N. Program.**

See options for registered nurses in the [Master of Science in Nursing section](#) of this catalog.

The School of Nursing may add, amend, delete or deviate from the sample curricula and apply such changes to registered and accepted students. Deviations may include, and are not limited to, requiring attendance in summer and/or January terms.

B.S.N. Nursing Program Courses

The curriculum plan for the traditional student, who does not hold practical or registered nursing licensure, is designed to foster growth and professional accountability.

- NURS 305 Patho/Pharm I (4)
- NURS 306 Foundations of Care Delivery & Health Promotion (3)
- NURS 307 Health & Physical Assessment (3)
- NURS 308 Clinical Practicum I (3)
- NURS 309 Professional Foundations & Principles of Leadership (2)
- NURS 310 Scholarly Writing Concepts (1)
- NURS 311 Patho/Pharm II (2)
- NURS 314 Care of Chronic Conditions (3)
- NURS 315 Psych/Mental Health (2)
- NURS 316 Clinical Practicum II (5)
- NURS 317 Theory & Evidence (1)
- NURS 318 Research Methods (2)
- NURS 319 Healthcare Technology (1)
- NURS 401 Care of Complex Conditions (3)
- NURS 402 Patho/Pharm III (2)
- NURS 403 Clinical Practicum III (5)
- NURS 404 Healthcare Diversity (4)
- NURS 405 Informed Practice (2)
- NURS 406 Continuity of Care (3)
- NURS 407 Clinical Practicum IV (6)
- NURS 408 Organizational & Economic Context of Care (2)
- NURS 409 Health Policy (2)
- NURS 483 Transition to Practice (1)
- NURS 498 Capstone Project (2)

Note: A minimum of 128 semester hours is required for the baccalaureate degree. The sequence of required nursing courses comprises 64 semester hours. General university and other specific requirements needed for completion of the baccalaureate degree are not listed above. Applicants with previous college credits are strongly encouraged to seek advising from the School of Nursing Admission Coordinator(s) for gap analysis of previous courses and assistance with the completion of their program of study.

Please note that, due to clinical site availability, any student may be required to take a nursing course in Summer or January Term instead of Fall or Spring Semesters.

Minor in Health Services

Health care is a complex system, which now represents more than 16% of the U.S. Gross National Product. Many disciplines outside of nursing require familiarity with systems and issues within health care. The Health Services minor is designed to support non-nursing majors, including biology, business, chemistry, social work and other fields. Prior to declaration for a minor in health services, student must receive advising and approval from the School of Nursing. The health services minor requires the completion of 18 semester hours.

- **Required Core Courses**

- NURS 100: Medical Terminology (1 or 2)
- NURS 460: Health Care Systems and Policy (2)
- PHIL 223: Biomedical Ethics (4)
- **At least three courses from the following areas:**
 - **Diversity**
 - ANTH 102: Intro to Human Cultural Diversity (4)
 - ANTH 380: Sickness, Madness, and Health (4)
 - NURS 365: Culturally Congruent Healthcare (4)
 - **Administration**
 - NURS 360: Nursing Research and Informatics

- NURS 420: Introduction to Leadership & Resource Management in Nursing (4)
- **Physiologic Functioning**
 - NURS 280: Human Pathological Processes (4)
 - NURS 330: Pharmacology & Therapeutic Modalities (4)
 - KINS 380: Exercise Physiology (4)
- **Applied Health Care**
 - KINS 320: Nutrition, Health and Performance (4)
 - KINS 278: Injury Prevention and Therapeutic Care (2)
 - NURS 270: Health Assessment and Promotion (4)
 - KINS 384: Health & Fitness Promotion (4)

No more than eight semester hours from any one department will be counted toward the minor.

Master of Science in Nursing (M.S.N.)

Consult the [Graduate and Post-Baccalaureate Programs section](#) of this catalog for details of the program leading to the Master of Science in Nursing degree and/or contact the School of Nursing Graduate Program at 253.535.7672 or Office of Graduate Admission at 253.535.7723.

Entry-Level Master of Science in Nursing

A cohort program designed for those who have previously earned a baccalaureate or higher degree in an academic discipline other than nursing. Those interested are advised to attend a monthly information session. A seat in one of these sessions can be reserved by contacting the School of Nursing at 253.535.7672. See [Graduate and Post-Baccalaureate Programs section](#) of this catalog for further details.

School Nurse Certification

Contact the School of Nursing, Office of Continuing Nursing Education (253.535.7683).

Workshops and Short Courses

Contact the School of Nursing, Office of Continuing Nursing Education (253.535.7683). The information contained herein reflects an accurate picture of the programs of study leading to degrees in Nursing from Pacific Lutheran University at the time of publication. However, the university reserves the right to make necessary changes in procedures, policies, calendar, curriculum and costs.

Nursing (NURS) - Undergraduate Courses

NURS 110 : Success in Nursing

Affirming students' past experiences, this course assists pre-nursing students' successful navigation of the complex transition into Pacific Lutheran University. This course is designed to identify and overcome unforeseen barriers in adjusting to college academic and social life, to help students better understand the nursing field, and to give student an opportunity to create a community with fellow students. (1 credit, didactic)

NURS 120 : Nutrition in Healthcare

This course provides an introduction into the science of nutrition and the foundational concepts of diet and nutrition related to health across the lifespan within the context of healthcare professions. This course is open to students in any discipline and is a prerequisite to enter the nursing program. (1)

NURS 287 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 288 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 289 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The

title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

NURS 305 : Patho/Pharm I

This is the first course in a series of 3 that provide an integrated understanding of the human response to pathological conditions and the associated pharmacological principles of major drug classifications, therapeutic modalities, and alternatives to pharmacologic interventions of these conditions. (4)

NURS 306 : Foundations of Care Delivery & Health Promotion

Focuses on the core knowledge and competencies necessary to promote health and provide nursing care across the lifespan. (3)

NURS 307 : Health & Physical Assessment

Focuses on the core knowledge and competencies necessary to perform health and physical assessment across the lifespan. (3)
(2 credits didactic, 1 credit lab)

NURS 308 : Clinical Practicum I

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (3)

NURS 309 : Professional Foundations & Principles of Leadership

Focuses on the core knowledge and competencies of nursing practice. (2)

NURS 310 : Scholarly Writing Concepts

Focuses on the basic rules of APA Style in writing term papers, research reports, and journal articles. (1)

NURS 311 : Patho/Pharm II

This is the second course in a series of 3 that provide an integrated understanding of the human response to pathological conditions and the associated pharmacological treatment modalities and alternatives to pharmacologic interventions of these conditions. (2)

NURS 314 : Care of Chronic Conditions

Focuses on the core knowledge necessary to apply the nursing process to care of the patients across the lifespan living with chronic conditions (3).

NURS 315 : Psych/Mental Health

Focuses on the core knowledge necessary to apply the nursing process to care of the patients across the lifespan experiencing mental health issues. (2)

NURS 316 : Clinical Practicum II

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (5)

NURS 317 : Theory & Evidence

Explores the philosophies, theories, and history of the science of nursing. (1)

NURS 318 : Research Methods

Focuses on the core knowledge of research required to assess research quality and its applicability to nursing practice. (2)

NURS 319 : Healthcare Technology

Examines current and emerging health care technologies in healthcare. (1)

NURS 387 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 388 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 389 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 401 : Care of Complex Conditions

Focuses on the core knowledge necessary to apply the nursing process to care of the patients across the lifespan with exacerbations of chronic and/or acute conditions in complex care situations. (3)

NURS 402 : Patho/Pharm III

This is the final course in a series of 3 that provide an integrated understanding of the human response to pathological conditions and the associated pharmacological principles of major drug classifications, therapeutic modalities, and alternatives to pharmacologic interventions of these conditions. (2)

NURS 403 : Clinical Practicum III

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (5)

NURS 404 : Healthcare Diversity - GE

Focuses on core knowledge and competencies necessary to give culturally congruent care to people from diverse populations. Open to non-nursing students with instructor permission. (4)

NURS 405 : Informed Practice

Focuses on the core knowledge of research required to assess research quality and its applicability to nursing practice. (2)

NURS 406 : Continuity of Care

Focuses on the core knowledge necessary to apply the nursing process to ensure continuity of care across settings for individuals and populations. (3)

NURS 407 : Clinical Practicum IV

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (6)

NURS 408 : Organizational & Economic Context of Care

Focuses on the core knowledge vocabulary, concepts in organizational behavior, financial management and strategy to plan, create, implement and monitor initiatives, and effectively communication within the healthcare environment. (2)

NURS 409 : Health Policy

Analysis of the social, political, legal, and economic factors that influence health care including trends in health policy and ethical issues relevant to health care delivery. Open to non-nursing students with permission of the instructor. (2)

NURS 420 : Introduction to Leadership and Resource Management in Nursing

Focuses on core knowledge and competencies related to beginning leadership and resource management skills. Prerequisites: NURS 360, 370, 380, achievement of Senior I status. (4) (4 credits didactic)

NURS 460 : Health Care Systems and Policy

Analysis of the social, political, legal, and economic factors that influence health care including trends in health policy and ethical issues relevant to health care delivery. Open to non-nursing students with permission of the instructor. Prerequisites for majors: NURS 260, Senior II status. (2) (2 credits didactic)

NURS 483 : Transition to Practice

Transition and socialization into the BSN prepared Registered Nurse role is explored. Role transition includes the BSN's professional practice, certification, and licensure requirements. (1)

NURS 487 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 488 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 489 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 490 : NCLEX Synthesis

Course content will reinforce critical thinking in test taking, the nursing process, and the client needs categories of the NCLEX-RN® test plan. Utilize test taking strategies to determine item responses and rationale. Explore complex case studies and simulation situations to enhance the ability to delegate and prioritize nursing practice. (2)

NURS 491 : Independent Study

Prerequisite: permission of the dean. (1 to 4)

NURS 498 : Capstone Seminar - SR

Focuses on the practical application of nursing knowledge by synthesizing core knowledge, competencies, professional values, and leadership skills in nursing situations as evidenced by completion of a scholarly project. (2)

Philosophy

253.535.7218	www.plu.edu/philosophy/	phil@plu.edu
Michael Schleeter, Ph.D., Chair		

Department Policy

For transfer students, at least eight semester hours must be taken at PLU. Non-PLU courses must be approved by the department chair.

Bachelor of Arts Degree

Major in Philosophy

Minimum of 32 semester hours, including:

- PHIL 499
- Two courses from: PHIL 311, 312, 313, 314
- Five additional PHIL lower- or upper-division courses (20 semester hours)
- GLST 325 may count as an elective credit toward the major.
- On approval of the department, one course (4 semester hours) in another field of study may be used for a double major in philosophy if it has a direct relationship to the student's philosophy program. Transfer students will normally take 16 or more of their 32 hours at PLU. Students intending to major in philosophy should formally declare this with the department chair and choose a departmental advisor.
- Students must be a declared philosophy major in order to be eligible for departmental scholarships.

Honors Major

In addition to the above requirements for the major:

- PHIL 493: Honors Research Project, including an honors thesis written under the supervision of one or more faculty members and presented to the department.
 - Completion of the departmental reading program of primary sources. Honors majors in philosophy are expected to complement their regular courses by reading and discussing three or four important works under the personal supervision of department faculty. The reading list should be obtained at an early date from the department chair. It is best that the reading program not be concentrated into a single semester, but pursued at a leisurely pace over an extended period.
 - At least a 3.30 grade point average in philosophy courses, including at least a B in PHIL 493.

Minor

16 semester hours, including at least 4 upper-division hours

- GLST 325 may count as an elective credit toward the minor.

Philosophy (PHIL) - Undergraduate Courses

PHIL 121 : The Examined Life - VW

Introduces philosophy by considering perennial topics and issues, such as what makes an action right or wrong and whether belief in God is reasonable. Includes a focus on developing skills in critical and systematic thinking. (4)

PHIL 125 : Ethics and the Good Life - VW

Major moral theories of Western civilization, including contemporary moral theories. Critical application to selected moral issues.

(4)

PHIL 128 : Politics and the Good Society - VW

An examination of major political theories in the Western philosophical tradition, with a focus on questions regarding the nature of just political institutions. Can count toward a minor in Politics and Government. (4)

PHIL 220 : Philosophy and Gender - VW

An examination of past and present conceptions and critiques of the nature and status of men/masculinity and women/femininity, with an additional focus on the historical and contemporary relationship between sex/gender and the discipline of philosophy. (4)

PHIL 223 : Bioethics - VW

An inquiry into the ethical issues surrounding birth, health, and death. Specific topics may include the ethics of conception and genetic manipulation, domestic and international health care policy, abortion, and euthanasia, as well as the nature of human flourishing. (4)

PHIL 225 : Business Ethics - VW

An inquiry into the ethics of the marketplace and the activities that take place within its context. Specific topics may include the ethics of anticompetitive practices, corporate subsidies and bailouts, pollution, exploitation, and fraud as they related to specific industries. Pass/fail options do not apply to business majors either declared or intending to declare. (4)

PHIL 226 : Environmental Ethics - VW

Apply ethical theories to determine what we should do in the face of environmental issues and dilemmas such as whether and why animals have rights, what kind of value nature possesses, the proper focus of an environmental ethic, and what ecology has to do with economics and justice. (4)

PHIL 227 : Philosophy and Race - VW

An examination of philosophical assumptions behind concepts of race. Beginning with the question "what is race?" the course addresses the notion of racial identities, metaphysical issues surrounding racial designations, and the ethical/political effects of such questions. (4)

PHIL 229 : Human Rights - VW

This course examines historical development of philosophical notions associated with "rights-based" language in domestic and international political life, and how these concepts are essential to understand the emergency and dominant discourse of human rights post 1948. (4)

PHIL 231 : Ancient Philosophy - VW

The development of philosophical thought and methods from the Pre-Socratic period to the end of the fourth century CE. Emphasis on Plato and Aristotle. (4)

PHIL 238 : Existentialism and the Meaning of Life - VW

An introduction to the philosophical movement known as Existentialism. The course will explore themes central to human experience (such as alienation, guilt, suffering, joy and boredom), with a goal of asking how existentialism engages these ideas relative to the question of human meaning. As an introductory course we will survey specifically the major thinkers of this tradition and illustrate how existentialism connects to other areas such as religion, psychology and literature. (4)

PHIL 248 : Innovation, Ethics, & Society - ES

A history of innovation, problem solving, and creativity in the global economy, emphasizing the ethical considerations that arise as a result of new products and initiatives, disruptive technologies, globalization, and cultural change. Draws attention to stages in the innovation process and the importance of teamwork, effective communication, and design. (4)

PHIL 287 : Special Topics in Philosophy

Explores an area of contemporary interest through the lens of philosophical inquiry. Acquaints students with the questions, methods, and skills of philosophy. May be repeated once for credit. (4)

PHIL 288 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 289 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 291 : Directed Studies

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

PHIL 311 : Topics in Ethics - VW

Examination of an ethical issue or question in light of one or more of the major currents in Western ethical philosophy. May be repeated for credit once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 312 : Topics in Philosophy and Politics - VW

Examinations of a political issue or question in the light of one or more of the major political theories in the Western philosophical tradition. May be repeated for credit once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 313 : Topics in Philosophy, Science, and Religion - VW

Exploration of selected topics in philosophy of science, philosophy of religion, or the relationship between science and religion. May be repeated once for credit, once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 314 : Topics in the History of Philosophy - VW

Study of selected topics or historical figures in the history of philosophy. May be repeated for credit once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 327 : Environmental Philosophy - VW

Examines concepts such as wilderness, nature/natural, and consciousness. This examination leads to consideration of issues such as resource distribution and consumption, obligations to future generations and other than human life. Specifically the preservation of endangered species, animal experimentation, farming, resource consumption, pollution, and population growth will be addressed. Prerequisite: sophomore standing. (4)

PHIL 387 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 388 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 389 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 487 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 488 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 489 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 491 : Independent Reading and Research

Prerequisite: Departmental consent. (1 to 4)

PHIL 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

PHIL 499 : Capstone: Advanced Seminar in Philosophy - SR

Exploration in a seminar format of an important philosophical issue, thinker, or movement. Topic to be announced at the time course is offered. Prerequisite: Three philosophy courses or consent of instructor. May be repeated once for credit. (4)

Physics

253.535.7536	www.plu.edu/physics/	physics@plu.edu
Bret Underwood, Ph.D., Chair		

Physics is the scientific study of the material universe at its most fundamental level: the mathematical description of space and time and the behavior of matter from the elementary particles to the universe as a whole. A physicist might study the inner workings of atoms and nuclei, the size and age of the universe, the behavior of high-temperature superconductors or the life cycles of stars.

Physicists use high-energy accelerators to search for quarks; they design new laser systems for applications in medicine and communications; they heat hydrogen gases to temperatures higher than the sun's core in the attempt to develop nuclear fusion as an energy resource. From astrophysics to nuclear physics to optics and crystal structure, physics encompasses some of the most fundamental and exciting ideas ever considered.

Physics Major

The physics major offers a challenging program emphasizing a low student-faculty ratio and the opportunity to engage in independent research projects. There are two introductory course sequences, college physics and general physics; the general physics sequence incorporates calculus and is required for all majors and the minor.

Restrictions in Major and Minor

Restrictions for major in physics (B.A. degree), major in physics (B.S. degree), major in applied physics (B.S. degree), and the minor in physics: an average grade of C (2.00) is required for the three-course introductory sequence (Physics 153, 154, and 223) for them to be counted for a major or minor.

Bachelor of Arts Degree

Major in Physics

44 semester hours

- PHYS 153, 154, 163, 164, 223, 499A, 499B
- **Plus:** 12 additional, upper-division semester hours in physics
 - CHEM 341 or CHEM 342 may be counted as a substitution for 4 upper-division physics hours
- **Required supporting courses:** MATH 151, 152, 253; CSCI 144

Bachelor of Science Degree

Major in Physics

64 semester hours

- PHYS 153, 154, 163, 164, 223, 310, 331, 332, 336, 354, 401, 499A, 499B
- ENGR 333
- Strongly Recommended: ENGR 355
- CHEM 341 or PHYS 221 may be substituted for ENGR 333
- CHEM 342 may be substituted for PHYS 401
- MATH 351 may be substituted for PHYS 354
- **Required supporting courses:**
 - CHEM 115; MATH 151, 152, 253; DATA 133 or CSCI 144

Typical B.S. Physics Major Program Schedule

- **First Year:** PHYS 153, 163; MATH 151, 152

- **Sophomore Year:** PHYS 154, 164, 223, 354; MATH 253
- **Junior Year:** PHYS 310, 331, 336; CHEM 115; DATA 133 or CSCI 144
- **Senior Year:** ENGR 333, PHYS 332, 401, 499A, 499B

Bachelor of Science Degree - Applied Physics Major

70 semester hours

Also available is a major in applied physics, which includes a substantial selection of courses from engineering to provide a challenging and highly versatile degree. Applied physics can lead to research or advanced study in such areas as robotics—with application in space exploration or joint and limb prosthetics; growth of single-crystal metals, which would be thousands of times stronger than the best steels now available; mechanics of material failure, such as metal fatigue and fracture; turbulence in fluid flow; photovoltaic cell research for solar energy development; or applications of fluid flow and thermodynamics to the study of planetary atmospheres and ocean currents. While many applied physics graduates pursue professional careers in industry immediately after graduation from PLU, the program also provides excellent preparation for graduate study in nearly all fields of engineering.

- PHYS 153, 154, 163, 164, 223, 310, 331, 354, 499A, 499B
- ENGR 131, 334
- **Plus: four courses, one of which must be upper division, selected from:**
 - CSCI 302
 - ENGR 240, 333
 - Strongly Recommended: ENGR 355
 - MATH 331, MATH/STAT 242
 - PHYS 221, 332, 336, 401
 - CHEM 341 may be substituted for ENGR 333
 - CHEM 342 may be substituted for PHYS 401
 - MATH 351 may be substituted for PHYS 354
- **Required supporting courses:**
 - CHEM 115; DATA 133 or CSCI 144; MATH 151, 152, 253

Typical Applied Physics Program Schedule

- **First Year:** PHYS 153, 163; ENGR 131; MATH 151, 152
- **Sophomore Year:** PHYS 154, 164, 221, 223, 354; MATH 253
- **Junior Year:** ENGR 333; PHYS 310; CHEM 115; DATA 133 or CSCI 144
- **Senior Year:** PHYS 331, 499A, 499B; ENGR 240, 334, 355

Minors

Minor in Physics

22 semester hours

- PHYS 153; 154; 163; 164; 223
- Plus: 8 additional semester hours in physics (excluding PHYS 110), of which at least 4 hours must be upper division.

Minor in Engineering & Industry

28 semester hours

The curriculum of the Engineering & Industry Minor consists of engineering courses, courses in business, economics, and ethics with a special emphasis on industry and/or an internship. Students choosing the minor will learn the basics of engineering design and team problem solving, will gain familiarity with industry, and will obtain valuable skills ensuring their success in the workplace or in graduate studies.

An Advisory Board comprised of engineering and science professionals associated with PLU will advise students in the Engineering Internship process for students who choose that option, will evaluate the quality of internships, and will consult with the program leaders on curriculum.

The Engineering & Industry Minor is ideal for all students who would benefit from in-depth exposure to engineering and industry. Typically students in Natural Sciences, Business, Economics or any students who have completed the introductory calculus-

based physics sequence (PHYS 153/163, 154/164) would be a good fit for the minor. BS in Applied Physics students are NOT ALLOWED to add this minor, as it essentially is the minor aligned with the Applied Physics major.

- ENGR 131
- PHYS 153/163, 154/164 (calculus-based introductory physics plus laboratory)
- 8 additional semester hours chosen from:
 - ENGR 240, 333, 334, 355
- Plus: 8 additional semester hours chosen from:
 - ENGR 495 (credits vary depending on internship type and schedule)
 - Courses in business, economics, ethics, and history that introduce students to aspects of industry:
 - BUSA 201, 310, or 358
 - ECON 101 or 313
 - HIST 248, 254, 346, or 370
 - PHIL 125, 223, 225, 226, 248, or 327

All courses counted toward the minor must be completed with grades of C or higher.

Engineering (ENGR) - Undergraduate Courses

ENGR 131 : Introduction to Engineering

An introduction to the engineering profession and development of basic skills important to the profession; including, problem solving, engineering design, graphics, use of computers, computer programming, engineering economics, and ethics in engineering. Prerequisite: completion of college-preparatory mathematics. (2)

ENGR 240 : Engineering Statics

Engineering statics using vector algebra; equilibrium of rigid bodies; equivalent force and movement systems; centroids and center of gravity; trusses and frames; methods of virtual work; shear and bending moment diagrams; moments of inertia. Prerequisite: PHYS 153 with a C- or higher.

ENGR 333 : Engineering Thermodynamics

Classical, macroscopic thermodynamics with applications to physics, engineering, and chemistry. Thermodynamic state variables, cycles, and potentials; flow and non-flow systems; pure substances, mixtures, and solutions; phase transitions; introduction to statistical thermodynamics. Prerequisites: PHYS 153 with a C- or higher. (4)

ENGR 334 : Engineering Materials Science

Fundamentals of engineering materials including mechanical, chemical, thermal, and electrical properties associated with metals, polymers, composites, and alloys. Focus on how useful material properties can be engineered through control of microstructure. Prerequisites: PHYS 154 with a C- or higher and CHEM 115 with a C- or higher. (4)

ENGR 355 : Electrical Circuits

Introduction to the fundamental techniques and concepts of analysis and design of DC and AC circuits including Kirchhoff's Laws, circuit theorems, OP Amps, first and second order transient and steady state circuits, and frequency response. Computer simulation and laboratory work are essential parts of the course. Prerequisites: MATH 151; PHYS 154 or consent of instructor. (4)

ENGR 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student and the Advisory Board for the Engineering internship course and the Engineering & Industry Minor. (1 to 12)

Physics (PHYS) - Undergraduate Courses

PHYS 110 : Astronomy - NW

Stars and their evolution, galaxies and larger structures, cosmology, and the solar system. Emphasis on observational evidence. Evening observing sessions. Prerequisite: MATH 115 or equivalent by math placement exam. (4)

PHYS 125 : College Physics I - NW

An introduction to the fundamental topics of physics. It is a non-calculus sequence, involving only the use of trigonometry and college algebra. Prerequisites: MATH 128 or MATH 140 (or equivalent by placement exam) with a C- or higher. Prerequisite or corequisite: PHYS 135. (4)

PHYS 126 : College Physics II - NW

An introduction to fundamental topics of physics. It is a non-calculus sequence, involving only the use of trigonometry and college algebra. Prerequisite: PHYS 125 with a C- or higher. Prerequisite or corequisite: PHYS 136.(4)

PHYS 135 : College Physics I Laboratory

Basic laboratory experiments are performed in conjunction with the College Physics sequence. Concurrent registration in PHYS 125 is required. (1)

PHYS 136 : College Physics II Laboratory

Basic laboratory experiments are performed in conjunction with the College Physics sequence. Concurrent registration in PHYS 126 is required. (1)

PHYS 153 : General Physics I - NW

A calculus-level survey of the general fields of physics, including classical mechanics, wave motion, and thermodynamics. Concurrent registration in (or previous completion of) MATH 152 is strongly recommended. Prerequisite: MATH 151 with a C- or higher. Prerequisite or corequisite: PHYS 163. (4)

PHYS 154 : General Physics II - NW

A calculus-level survey of the general fields of physics, including electricity and magnetism, and optics. Prerequisites: MATH 152 with a C- or higher, PHYS 153 with a C- or higher. Prerequisite or corequisite: PHYS 164. (4)

PHYS 163 : General Physics I Laboratory

Basic laboratory experiments are performed in conjunction with the General Physics sequence. Concurrent registration in PHYS 153 is required. (1)

PHYS 164 : General Physics II Laboratory

Basic laboratory experiments are performed in conjunction with the General Physics sequence. Concurrent registration in PHYS 154 is required. (1)

PHYS 221 : Waves and Fluids

A systematic introduction to waves and fluids under the unifying theme of physics of continuous systems. The course covers harmonic oscillations and waves in their most common physical realizations: mechanical, electromagnetic, and quantum. It discusses the statics and dynamics of ideal and viscous fluids, and some topics from nonlinear dynamics. Prerequisites: PHYS 153, 154 with a C- or higher (or permission of instructor), MATH 151, 152 with C- or higher. Prerequisite or corequisite: MATH 253. (4)

PHYS 223 : Elementary Modern Physics

A selected treatment of various physical phenomena that are inadequately described by classical methods of physics. Interpretations that have been developed for these phenomena since approximately 1900 are presented at an elementary level. Prerequisites: PHYS 154 with a C- or higher and MATH 253 with a C- or higher. (4)

PHYS 287 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 288 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 289 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

PHYS 310 : Methods of Experimental Physics

A selected treatment of laboratory techniques; including, experimental design, error analysis, and communication of scientific results. Laboratory topics include circuits, electricity and magnetism, optics, and modern physics. Prerequisite: PHYS 154 with a C- or higher. (4)

PHYS 331 : Electromagnetic Theory

Electrostatics, dipole fields, fields in dielectric materials, electromagnetic induction, and magnetic properties of matter, in conjunction with the development of Maxwell's equations. Prerequisites: PHYS 153, 154 with a C- or higher, and MATH 253 with a C- or higher. (4)

PHYS 332 : Electromagnetic Waves and Physical Optics

Proceeding from Maxwell's equations, the generation and propagation of electromagnetic waves is developed with particular emphasis on their application to physical optics. Prerequisite: PHYS 331 with a C- or higher. (4)

PHYS 336 : Classical Mechanics

Applications of differential equations to particle dynamics; rigid body dynamics; including the inertia tensor and Euler's equations; calculus of variations; Lagrange's equations and the Hamiltonian formulation of mechanics; symmetries and conservation laws. Prerequisites: PHYS 154 with a C- or higher and MATH 253 with a C- or higher. (4)

PHYS 354 : Mathematical Physics

Ordinary differential equations, Laplace transforms, functions of a complex variable, and contour integration are developed in the context of examples from the fields of electromagnetism, waves, transport, vibrations, and mechanics. Prerequisites: MATH 253 with a C- or higher. Prerequisite or corequisite: PHYS 154 or permission of the instructor. (4)

PHYS 387 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 388 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 389 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 401 : Introduction to Quantum Mechanics

The ideas and techniques of quantum mechanics are developed. Prerequisites: PHYS 223 with a C- or higher. Prerequisite or Corequisite: PHYS 354 or MATH 351 with a C- or higher, or permission of the instructor. (4)

PHYS 487 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 488 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 489 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 491 : Independent Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

PHYS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

PHYS 499A : Capstone: Senior Seminar I - SR

Professional development, exploring career paths, case studies in ethics, literature review, experimental design, and the research process. With 499B meets the senior seminar/project requirement. Prerequisites: PHYS 223 with a C- or higher; two upper-division courses in physics, one of which may be taken concurrently with 499A. (1)

PHYS 499B : Capstone: Senior Seminar II - SR

Continuation of PHYS 499A with emphasis on design and implementation of a project under the guidance of the physics staff. With PHYS 499A meets the senior seminar/project requirement. Prerequisite: PHYS 499A with a C- or higher. (1)

Political Science

253.535.7646	www.plu.edu/political-science/	pols@plu.edu
Michael Artime, Ph.D., Chair		

Prerequisites, when required, are listed in the individual course descriptions. Prior consultation with the instructor of any advanced course is invited. Students wishing to pursue a major or minor in political science are requested to declare the major or minor with the department chair as soon as possible. All political science courses must be completed with a grade of C- or better.

Residency

A minimum of 12 semester hours for the major and 8 semester hours for the minor must be taken in residence at PLU.

Bachelor of Arts Degree

Majors should plan their course of study in consultation with their departmental advisor.

Major in Political Science

36 semester hours

- **Required Courses**

16 semester hours

- POLS 151, POLS 251, POLS 301, and POLS 499

- **Public Policy Requirement**

4 semester hours

- One 300-level course designated as a public policy course indicating that it explores the art and science of policymaking at the state, local, and national level. Courses that qualify are: POLS 345, 346, 354, 370.

- **Research and Writing Requirement**

4 semester hours

- One 300-level course designated as an "intensive writing course" indicating that it has a substantial research/writing component. Courses that qualify are: POLS 345, 354, 361, 365, 372, and 373.

- **International/Comparative Politics**

4 semester hours

- One 300-level course in GLST. Courses that qualify are: GLST 325, 331, 332, and 357.

- **Electives**

8 semester hours

- Any POLS course
- POLS/GLST double majors may request to take up to one 300-level GLST course as a POLS elective

Concurrent Attainment

No more than 8 semester hours taken to satisfy other major or minor requirements may also be applied to the political science major. No more than 4 such semester hours may also be applied to the political science minor.

Minors

Minor programs should be planned in consultation with the departmental chair or a designated adviser.

- **Minor in Political Science**

Minimum of 20 semester hours, including POLS 151

- **Minor in Pre-Law**

20 semester hours

- Foundations in the Law (*4 semester hours*)
 - BUSA 303: Business Law & Ethics
 - POLS 370: Prisons & Prisoners
 - POLS 371: Judicial Process
 - POLS 372: Constitutional Law

- POLS 373: Civil Rights & Civil Liberties
- RELI 361: Church History Studies
- Analytical Reasoning (*4 semester hours*)
 - ECON 101: Principles of Microeconomics
 - ECON 102: Principles of Macroeconomics
 - MATH 107: Mathematical Explorations (or higher level mathematics course)
 - Math placement or High School Math will not be accepted as a substitute
- Ethics (*4 semester hours*)
 - HIST 248: Innovation, Ethics, and Society
 - PHIL 125: Ethics & the Good Life
 - PHIL 128: Politics & the Good Society
 - PHIL 229: Human Rights
 - RELI 226: Christian Ethics
- Communication (*4 semester hours*)
 - COMA 212: Public Speaking
 - COMA 306: Persuasion
 - ENGL 323: Writing in Professional and Public Settings
 - ENGL 393: The English Language
 - PPAP 301: The Book in Society
 - PPAP 302: Publishing Procedures
- Close Reading (*4 semester hours*)
 - Any 300-level course with an LT designation
 - ENGL 400: Studies in Criticism & Theory
 - HIST 254: History of Hanford
 - HIST 305: Slavery in the Americas
 - HIST 346: Innovation & Technology
 - HIST 351: History of the West and Northwest
 - HIST 362: Christians in Nazi Germany
 - RELI 211: Religion and Literature of the Hebrew Bible
 - RELI 220: Early Christianity
 - RELI 221: Medieval Christianity
 - RELI 331: New Testament Studies

Pre-Law Advising

For information, see Pre-Professional Programs section of the catalog

• Minor in Public Affairs

24 semester hours, including POLS 345 (required) and 20 hours from economics, political science, sociology & criminal justice, or statistics

This minor offers an interdisciplinary study designed to support many major programs whose content has implications for public affairs and is particularly useful to students contemplating careers in public service or graduate study in public administration, public affairs, and related programs.

At least five additional courses from three of the following groups (courses which are taken as part of a major program may not also count toward the public affairs minor):

• Political Science

8 semester hours, if this group is selected

- POLS 151: American Government
- POLS 354: State and Local Government

• Economics

Minimum of 8 semester hours if this group is selected

- ECON 101: Principles of Microeconomics
- ECON 102: Principles of Macroeconomics

• Sociology & Criminal Justice

Minimum of 4 semester hours if this group is selected

- SOCI 240: Social Problems
- SOCI 413: Criminological Theories

• Statistics

4 semester hours, if this minor is selected

- STAT 231: Introductory Statistics

On approval by the public affairs advisor, up to 8 semester hours may be earned through participation in an internship program as a substitute for courses listed above (except POLS 345). Internship opportunities are offered through several departments, and through the Cooperative Education Program, and provide students with actual work experience in diverse public and private agencies. Students interested in internships are urged to consult with their academic advisors and with intern faculty advisors at an early date.

Students interested in the public affairs minor should declare the minor in the Department of Political Science and consult with the department's public affairs advisor.

- **Minor in Conflict Resolution**

20 semester hours, including:

- POLS/GLST 331, POLS 332; COMA 340, 441, and 4 elective hours from POLS/GLST 210 or COMA 304 or another course selected in consultation with the minor's faculty coordinator.

Political Science (POLS) - Undergraduate Courses

POLS 151 : American Government - ES

A survey of the constitutional foundations of the American political system and of institutions, processes, and practices relating to participation, decision-making, and public policy in American national government. (4)

POLS 231 : Current International Issues - ES, GE

A survey course in international relations with emphasis on current events. (4)

POLS 251 : Introduction to Political Science

This course is designed for political science majors and is an introduction to the discipline of Political Science. Throughout the semester we will learn about the various subfields of the discipline and contributions that the discipline has made to our understanding of American politics. Prerequisite: POLS 151. (4)

POLS 265 : Latino Politics - ES, GE

This course will discuss the demographics, histories, and racialization of Latinos in the U.S. Likewise, students will explore contemporary research that examines Latinos' quest for political empowerment and how they are transforming American politics and society. Likewise, students will engage in an in-depth examination of contemporary realities for Latino professionals, including ideas on how to increase the numbers of Latino professionals. Finally, the class will provide an intersectional framework for examining how, in addition to race, other identities such as gender, "illegality", and sexuality shape the political experiences of Latinos in U.S. society and politics (4)

POLS 287 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Prerequisite: POLS 151. (1 to 4)

POLS 288 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Prerequisite: POLS 151. (1 to 4)

POLS 289 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Prerequisite: POLS 151. (1 to 4)

POLS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

POLS 301 : Political Science Methods

How does political science approach analysis of the political world? This course covers the approaches borrowed and developed by the discipline, research design, and qualitative methods to conduct research. Upon completion, students should be able to critique, understand, and conduct research about politics. Prerequisite: POLS 251. (4)

POLS 345 : Government and Public Policy - ES

An integrated approach to the nature of public policy, with emphasis on substantive problems, the development of policy responses by political institutions, and the impacts of policies. Intensive writing course. (4)

POLS 346 : Environmental Politics and Policy - ES, GE

An examination of environmental problems from political perspectives, including international and domestic political contexts and methods of evaluating policies. (4)

POLS 354 : State and Local Government - ES

Governmental structures, processes, and policy at state, local, and regional levels of the American system. (4)

POLS 361 : Political Parties and Elections - ES

Study of party and electoral systems with particular emphasis on American parties and elections. Examination of party roles in elections and government; party financing; interest groups and political action committees; and voting behavior. Intensive writing course. Prerequisite: POLS 251. (4)

POLS 365 : Race and Ethnic Politics - ES, GE

An interdisciplinary examination of the way racial and ethnic conflict shapes and structures American political, social, and economic life focused on the best path toward democratic equality. Discussions center on the literature that examines the integration of disenfranchised ethno-racial groups into in U.S. society, addressing the contemporary implications of changing demographics on institutions of power and on democracy in the U.S. (Intensive writing course). Prerequisite: POLS 251. (4)

POLS 370 : Prisons & Prisoners

This course is an examination of the era of mass incarceration in the United States. We will explore the racial, economic, and gender dynamics of this issue as well as various alternatives to the current system. This course meets an elective requirement or a public policy requirement for the Political Science major or minor. (4)

POLS 371 : Judicial Process - IT

An examination of legal processes in various adjudicatory settings. Primary attention given to judicial processes focusing on American civil and criminal law. Prerequisite: POLS 251. (4)

POLS 372 : Constitutional Law - IT

The constitutional basis of governmental powers in the United States with special emphasis given to judicial review, separation of powers, federalism, interstate commerce, and political and constitutional restrictions on governmental power. Intensive writing course. Prerequisite: POLS 251. (4)

POLS 373 : Civil Rights and Civil Liberties - IT

The constitutional basis of rights and liberties in the United States with special emphasis given to freedom of expression and association, religious freedom, rights in criminal proceedings, due process, and equal protection. Intensive writing course. Prerequisite: POLS 251. (4)

POLS 387 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

POLS 388 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

POLS 389 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

POLS 450 : Internship in Politics

Internship in the political dimensions of non-governmental organizations. By departmental consent only. Prerequisite: POLS 251. (1 to 8)

POLS 464 : Internship in the Legislative Process

An opportunity to study the process from the inside by working directly with legislative participants at the national, state or local level. By department consent only. (Internships with the Washington State Legislature are open only to juniors and seniors with at least one year at PLU.) Prerequisite: POLS 251. (1 to 12)

POLS 487 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. POLS 151 strongly advised before taking upper division courses for POLS majors. (1 to 4)

POLS 488 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. POLS 151 strongly advised before taking upper division courses for POLS majors. (1 to 4)

POLS 489 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. POLS 151 strongly advised before taking upper division courses for POLS majors. (1 to 4)

POLS 491 : Independent Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. By department consent only. (1 to 4)

POLS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

POLS 499 : Capstone: Senior Seminar - SR

Intensive study into topics, concepts, issues, and methods of inquiry in political science. Emphasis on student research, writing, and presentation. By departmental consent only. Prerequisite: POLS 301 & completion of the Public Policy Requirement (4 credits from POLS 345, 346, 354, or 370). (4)

Pre-Professional Studies

Pre-Professional Studies includes the following career areas:

- Health Sciences
 - Medicine
 - Dentistry
 - Physician's Assistant School
 - Physical Therapy
 - Occupational Therapy
 - Veterinary Medicine
 - Pharmacy
 - Optometry
 - Law
 - Military Science (Army ROTC)
 - Peace Corps Prep Certificate
 - Theological Studies
-

Pre-Health Sciences

www.plu.edu/healthsciences/

The overwhelming majority of students entering the professional schools for the careers listed below have earned baccalaureate degrees, each securing a broad educational background in the process. This background includes a thorough preparation in the sciences as well as study in the social sciences and the humanities.

The Pre-Health Sciences Advising Team in the College of Natural Sciences advises students aspiring to careers in the health sciences. Students having such interests are encouraged to obtain a Pre-Health Sciences Team advisor early in their program. Summarized below are general pre-professional requirements for many health science areas; however, students should research the exact prerequisites for each specific program in which they are interested. Additional information is also available through the Pre-Health Sciences Advising Team.

Pre-Medicine

There is no pre-professional major for medicine at PLU; rather students each should select the major which best matches their interests and which best prepares them for alternative careers. In addition to the general university requirements and the courses needed to complete the student's major, the following courses are generally required for admission to medical school:

- BIOL 225, 226
 - Recommended courses include BIOL 330, 341, 342, 352, 357, 442, 453
- CHEM 115 & 116, 331 & 332 (with accompanying labs)
 - Some medical schools require CHEM 403
 - MATH 140 is a pre-requisite for CHEM 115
- ENGL - most medical schools require two English courses
- MATH -most medical schools require Math and/or Statistics
- PHYS 125 & 126 or 153 & 154 (with accompanying labs)
- PSYC 101
- SOCI 101

Pre-Dentistry

There is no pre-professional major for dentistry at PLU; rather students each should select the major which best matches their interests and which best prepares them for alternative careers. In addition to the general university requirements and the courses needed to complete the student's major, the following courses are generally required for admission to dental school:

- BIOL 225, 226
 - Many dental schools require BIOL 342 and 352
 - Recommended courses include BIOL 330, 341, 357, 442, 453
- CHEM 115 & 116, 331 & 332 (with accompanying labs)
 - Some dental schools require CHEM 403
 - MATH 140 is a pre-requisite for CHEM 115
- ENGL - most dental schools require two English courses
- MATH - some dental schools require Math and/or Statistics
- PHYS 125 & 126 or 153 & 154 (with accompanying labs)
- PSYC 101 - most dental schools require one semester of Psychology

Pre-Physician's Assistant School

In general, the following coursework satisfies the required and recommended courses for admission to physician assistant school. Note this represents general guidelines and requirements vary from one school to the next.

- BIOL 225, 226
 - Often PA schools require BIOL 342, 352 and/or 453
 - Additional recommended courses include BIOL 330, 448
- CHEM 115, 116, 331, 332 or 346 (with accompanying labs)
 - Most PA schools require CHEM 403
 - MATH 140 is a pre-requisite for CHEM 115
- MATH – most PA schools require one Math and/or Statistics course
- PSYC 315 and/or 320 are required by most PA schools
 - PSYC 101 is a pre-requisite for PSYC 315 and 320

Pre-Physical Therapy

At PLU, there are two routes to completing your prerequisites for admission to a PT program.

1. A BS in Kinesiology with a concentration in Pre-Physical Therapy – a concentration in Pre-Physical Therapy provides preparation for entry into Doctor of Physical Therapy degree programs throughout the United States. Visit plu.edu/kinesiology/quick-facts/ for details.
2. A major in a Natural Sciences discipline – a good approach with greater flexibility that might be right for you if you're unsure about committing to a PT program. This route allows you to fulfill the requirements for admission to a school of physical therapy but gives you more career options.

The requirements for admission to schools of physical therapy vary. In general, the following coursework satisfies the required and recommended courses for admission to a school of physical therapy:

- BIOL 225, 226
 - Most PT schools require BIOL 353 and 453
- CHEM 115, 116
 - CHEM 331 is recommended (with accompanying lab)
- MATH 140 is a pre-requisite for CHEM 115
- PHYS 125 & 126 or 153 & 154 (with accompanying labs)
- PSYC 101
- SOCI 101
- STAT – most PT schools require a Statistics course

Pre-Occupational Therapy

There are a few different choices for majors that will assist in becoming a certified occupational therapist. Some of these choices include anthropology, sociology, and psychology. In general, the following coursework satisfies the required and recommended courses for admission to a school of occupational therapy.

- BIOL 205, 206
- PSYCH 101, 320, 415
- SOCI 101
- STAT – most OT schools require a Statistics course

Pre-Veterinary Medicine

There is no pre-professional major for veterinary medicine at PLU; rather students each should select the major which best matches their interests and which best prepares them for alternative careers. In addition to the general university requirements and the courses needed to complete the student's major, the following courses are generally required for admission to veterinary school:

- BIOL 225, 226
 - Often vet schools require BIOL 330, 342, 352, 453
 - Recommended courses include BIOL 341, 357, 442
- CHEM 115 & 116, 331 & 332 (with accompanying labs)
 - Most vet schools require CHEM 403
 - MATH 140 is a pre-requisite for CHEM 115

- COMA 212 or 214 – many schools require a course in oral communication
- ENGL – most vet schools require two English courses
- MATH –most vet schools require Math and/or Statistics
- PHYS 125 & 126 or 153 & 154 (with accompanying labs)

Pre-Pharmacy

Although the pre-pharmacy requirements for individual schools vary, the following courses are usually required:

- BIOL 225, 226
- Recommended courses include BIOL 330, 341, 342, 352, 357, 442, 453
- CHEM 115, 116, 331, 332 (with accompanying labs)
 - Some pharmacy schools require CHEM 403
 - MATH 140 is a pre-requisite for CHEM 115
- COMA 212 or 214 – many schools require a course in oral communication
- ENGL – most pharmacy schools require two English courses
- MATH 151
 - Many pharmacy schools requires one Statistics course
- PHYS 125 & 126 or 153 & 154 (with accompanying labs)
- PSYC 101
- SOCI 101

Pre-Optometry

Although two years of pre-optometry study is the minimum required, most students accepted by schools of optometry have completed at least three years of undergraduate work. A large percentage of students accepted by schools of optometry have earned baccalaureate degrees. For those students who have not completed baccalaureate degrees, completion of such a degree must be done in conjunction with optometry professional studies.

The requirements for admission to the schools of optometry vary. However, the basic science and mathematics requirements are generally uniform and include the following courses:

- BIOL 225, 226
- Recommended courses include BIOL 342, 352, 453
- CHEM 115 & 116, 331 & 332 (with accompanying labs)
 - Most optometry schools require CHEM 403
 - MATH 140 is a pre-requisite for CHEM 115
- ENGL – most optometry schools require two English courses
- MATH – Calculus and Statistics
- PHYS 125 & 126 or 153 & 154 (with accompanying labs)
- PSYC 101

Law

253.535.7646 253.535.7306	www.plu.edu/prelaw/	Advisors: Michael Artime Ralph Flick
--	---	---

Preparation for law school at PLU is an advising system rather than a curriculum of prescribed major/minor or otherwise organized courses. The primary reason for such an approach is that the admissions committees of U.S. law schools generally recommend that applicants be well and broadly educated. They tend to seek applicants who are literate and numerate, who are critical thinkers and articulate communicators. In essence, they value exactly what a sound liberal arts education provides—indeed, requires.

Therefore, regardless of their declared majors and minors, students considering law school are encouraged to demonstrate proficiency in courses selected from across the disciplines and schools while undergraduates at PLU. An appropriate curricular program should be structured from a mix of the students' personal academic interests, their professional inclinations, and coursework aimed at developing intellectual skills and resources apt to generate success in legal study and practice.

Recent successful PLU applicants to law schools have taken such diverse courses as those in the anthropology of contemporary America, social science research methods, American popular culture, English Renaissance literature, news writing and argumentation, recent political thought, international relations, free-lance writing, animal behavior, neuropsychology, public finance, logic, and moral philosophy. Diversity and challenge are crucial to preparation for the study of law.

However, pre-law students are also advised to take courses, chosen in consultation with the pre-law advisor, that will help them to identify, develop, and explore perspectives on the character of U.S. law. Courses in U.S. government and history, judicial and legislative processes, research materials and methods, and internships may be particularly useful in this regard. Finally, students with an interest in the law are encouraged to participate in the activities of PLU's chapter of Phi Alpha Delta Fraternity International, a professional service organization composed of law and pre-law students, legal educators, attorneys, judges, and government officials. Students interested in pre-law advising and activities are invited to contact the pre-law advisor in the Department of Political Science.

Military Science (ROTC)

253.535.8200	www.plu.edu/rotc/	ROTC@plu.edu
--------------	--	--------------

The objective of the military science instruction within Army ROTC (Reserve Officer Training Corps) is to prepare academically and physically qualified college women and men for the rigor and challenge of serving as an officer in the United States Army-Active, National Guard, or Reserve. To that end, the program stresses service to country and community through the development and enhancement of leadership competencies which support and build on the concept of service leadership.

The 100- and 200-level Military Science courses are open to all full-time students, and are an excellent source of leadership and ethics training for any career. They do not require a military commitment for non-contracted students. The 300- and 400-level military science courses are only open to Contracted Cadets. ROTC is traditionally a four-year program; however, a sophomore may complete the program in three years, and those with prior service including the National Guard and the United States Army Reserve may be eligible to complete the program in two years. Contracted Cadets are required to attend summer training at Fort Knox, Kentucky. All students and Cadets participating in military science courses are required to attend physical training, labs, and two weekend Leadership Training Exercises each semester. Uniforms are provided to Contracted Cadets. Course material is on Blackboard; there are no textbooks.

Contracted Cadets are commissioned by Congress upon the completion of the program and receiving a university degree. Students and Cadets may compete for an Army ROTC Scholarship. Students interested in military science are strongly encouraged to meet with an ROTC adviser as early as possible to determine prerequisites, scholarship eligibility, and for specific requirements in contracting.

Scholarships cover 100% tuition and fees, plus a book allowance of \$1,200 per year and a monthly stipend of \$300-\$500. Additional information may be obtained by contacting the scholarship and enrollment officer.

Note: A maximum of 20 semester hours earned in ROTC programs may be applied toward a baccalaureate degree at PLU.

Advance course students must take or have taken a professional military education history course that includes one of the following:

- HGST 200: Introduction to Holocaust and Genocide Studies
- HIST 329: Europe and the World Wars, 1914-1945
- HIST 349: U.S. Civil War and Reconstruction
- HIST 352: The American Revolution
- IHON 257: The Human Experience (*Topic: The Experience of War*)
- PHIL 224: Military Ethics
- POLS 332: International Conflict Resolution
- other courses approved by the professor of military science

Military Science (MILS) - Undergraduate)

MILS 101 : Introduction to Military Science

An introduction to the United States Army. Includes an introduction to military science and its organization, leadership, land navigation, map reading, operation orders, and the traditions of the United States Army. Provides a look at the military as a profession and its ethical base. Course includes Army Physical Fitness Test and training. (2)

MILS 102 : Introduction to Military Science

An introduction to the United States Army. Includes an introduction to military science and its organization, leadership, land navigation, map reading, operation orders, and the traditions of the United States Army. Provides a look at the military as a profession and its ethical base. Course includes Army Physical Fitness Test and training. (2)

MILS 201 : Fundamentals of Leadership

A continuation of basic officer skills. Areas of emphasis are team building, squad tactics, operations orders, land navigation, ethics and professionalism, total fitness and military first aid. (2)

MILS 202 : Fundamentals of Leadership

A continuation of basic officer skills. Areas of emphasis are team building, squad tactics, operations orders, land navigation, ethics and professionalism, total fitness and military first aid. (2)

MILS 301 : Training Management

The overall objective of this course is to integrate the principles and practices of effective leadership, professional competence, adaptability, teamwork, comprehensive fitness, military operations, and personal development in order to adequately prepare the student to be an officer in the military. (3)

MILS 302 : Applied Leadership

The overall objective of this course is to integrate the principles and practices of effective leadership, professional competence, adaptability, teamwork, comprehensive fitness, military operations, and personal development in order to adequately prepare the student to be an officer in the military. (3)

MILS 401 : Professionalism and Ethics

Covers Army values, ethics, and professionalism, responsibilities to subordinates, self, and country, law of land warfare, and the resolution of ethical/value dilemmas. Also covers logistic and justice systems and the interaction of special staff and command functions. (3)

MILS 402 : Professionalism and Ethics

Covers Army values, ethics, and professionalism, responsibilities to subordinates, self, and country, law of land warfare, and the resolution of ethical/value dilemmas. Also covers logistic and justice systems and the interaction of special staff and command functions. (3)

MILS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. This course is not an alternate or substitute for the previous listed required courses. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

Peace Corps

Requirements for completion of the Peace Corps Prep Certificate

Students must complete all requirements by the end of the term in which the degree is to be awarded.

Work Sectors

12 semester hours in **one** of the following six work sectors

A. Education

12 semester hours from **one** of the following areas

- Biology
- Chemistry
- Computer Science
- Education
- English
- Geosciences
- Math
- Physics

B. Health

12 semester hours from any of the following

- Biology
 - BIOL 111: Biology and the Modern World
 - BIOL 201: Introductory Microbiology
 - BIOL 205: Human Anatomy and Physiology I
 - BIOL 206: Human Anatomy and Physiology II
 - BIOL 225: Molecules, Cells, and Organisms
 - BIOL 341: Developmental Biology
 - BIOL 342: Microbiology
 - BIOL 352: Comparative Anatomy
 - BIOL 444: Neurobiology
 - BIOL 448: Immunology
 - BIOL 449: Virology
 - BIOL 453: Mammalian Physiology
- Chemistry
 - CHEM 105: Chemistry of Life
 - CHEM 403: Biochemistry I
 - CHEM 405: Biochemistry II
- Kinesiology
 - KINS 277: Foundations of Kinesiology
 - KINS 279: Teaching Physical Activity
 - KINS 280: Fitness and Recreation Programming and Delivery
 - KINS 315: Body Image
 - KINS 320: Nutrition, Health, and Performance
 - KINS 324: Physical Activity and Lifespan
 - KINS 366: Health Psychology
 - KINS 384: Foundations of Health and Fitness Promotion
 - KINS 395: Comprehensive School Health
- Nursing (any NURS courses)
- Additional Courses
 - PSYC 337: Culture and Health
 - SOCW 325: Social Educational and Health Services in Tobago

C. Environment

12 semester hours from any of the following

- Biology
 - BIOL 116: Introductory Ecology
 - BIOL 226: Genes, Evolution, Diversity, and Ecology
 - Any course in the Ecology and Evolution track of the major
- Environmental Studies
 - Any ENVT course
 - ANTH 368: Edible Landscapes, The Foraging Spectrum
 - BIOL 116: Introductory Ecology
 - BIOL 367: Conservation Biology and Management
 - BIOL 368: Ecology
 - BIOL 369: Marine Biology
 - CHEM 104: Environmental Chemistry
 - ECON 101: Principles of Microeconomics
 - ECON 313: Environmental Economics
 - ENGL 234: Environmental Literature
 - GEOS 104: Conservation of Natural Resources
 - GEOS 332: Geomorphology
 - HIST 370: Environmental History of the U.S.
 - PHIL 226: Environmental Ethics
 - PHIL 327: Environmental Philosophy
 - POLS 346: Environmental Politics and Policy
 - RELI 239: Environment and Culture
 - RELI 365: Climate Justice
 - RELI 393: Topics in Comparative Religions (*when topic is "Native Traditions in PNW" only*)
- Geosciences
 - GEOS 103: Earthquakes, Volcanoes, and Geologic Hazards
 - GEOS 201: Geologic Principles
- Native American and Indigenous Studies
 - NAIS 244: Environmental Justice and Indigenous People

D. Agriculture

12 semester hours from any of the following

- ANTH 368: Edible Landscapes, The Foraging Spectrum
- BIOL 116: Introductory Ecology
- BIOL 356: Economic and Cultural Botany
- BIOL 358: Plant Physiology
- BIOL 367: Conservation Biology and Management
- BIOL 368: Ecology
- BIOL 443: Plant Development and Genetic Engineering
- BIOL 462: Plant Diversity and Distribution
- ECON 101: Principles of Microeconomics
- ENVT/GEOS 104: Conservation of Natural Resources

E. Youth in Development

12 semester hours from any of the following

- Education
 - Any course in Elementary Education or Secondary Education
- Gender, Sexuality, and Race Studies
 - Any course that counts for the major
- Global Studies
 - Any course in the Development and Social Justice Concentration
- Kinesiology
 - Any course in Health and Fitness Education Concentration
- Additional Courses
 - ENGL 235: Children's Literature
 - ENGL 334: Studies in Literature for Young Readers
 - PSYC 101: Introduction to Psychology
 - SOCI 101: Introduction to Sociology
 - SOCI 226: Delinquency and Juvenile Justice
 - SOCI 240: Social Problems
 - SOCI 330: The Family

- SOCW 320: Child Welfare, A Global Perspective
- SOCW 375: Social Services in the Community
- SOCW 460: Social Work Practice II: Families and Groups

F. Community Economic Development

12 semester hours from any of the following areas

Business
 Communication
 Computer Science
 Economics
 Global Studies: *Any course in the Development and Social Justice Concentration*
 Studio Arts: *Any course in Graphic Design*

Additional Requirements

Hands-on Experience

Completion of 50 semester hours of approved hands-on experience (internship, work experience, and/or volunteer project) in the same work sector as used to satisfy the Work Sector requirements, as certified by the program coordinator.

Foreign Language

Four semester hours in a foreign language or equivalent demonstrated proficiency. Note: Students wanting to serve in Spanish-speaking countries in Latin America must apply to the Peace Corps with strong intermediate proficiency (at least HISP 202 or equivalent). Students wanting to serve in French-speaking African countries should be proficient in French (FREN 201 or equivalent) or in some cases in another Romance language.

Intercultural Competence

Twelve semester hours in intercultural Competence, as follows:

- 4 semester hours from:
 - ANTH 102: Human Cultural Diversity
 - COMA 304: Intercultural Communication
 - ECON 333: Economic Development
 - GLST 210: Contemporary Global Issues: Migration, Poverty, and Conflict
 - HIST 103: Conflicts and Convergences in the Modern World
 - RELI 230: Religion and Culture
- 8 additional semester hours from any of the following list of courses (*Approved, semester-long study away programs may be substituted for some or all of these hours*):
 - ANTH 102: Introduction to Human Cultural Diversity
 - ANTH 203: Great Discoveries in Archaeology
 - ANTH 335: The Aztecs, Mayans, and their Predecessors
 - ANTH 343: East Asian Cultures
 - ANTH 368: Edible Landscapes: The Foraging Spectrum
 - ANTH 370: The Archaeology of Ancient Empires
 - CHIN 371: Chinese Literature in Translation
 - COMA 304: Intercultural Communication
 - DANC 301: Dance and Culture
 - ECON 333: Economic Development
 - EDUC 385: Comparative Education
 - ENGL 216: Topics in Literature
 - FREN 204: Postcolonial Francophone Fictions and Criticism
 - FREN 211: Francophone Africa in Global Context
 - FREN 305: French/Francophone Film (*when topic is "Francophone African Cinema"*)
 - FREN 311: Francophone Africa in Global Context
 - FREN 404: Postcolonial Francophone Fictions and Criticism
 - FREN 405: French/Francophone Film (*when topic is "Francophone African Cinema"*)
 - GLST 210: Contemporary Global Issues: Migration, Poverty, and Conflict
 - GLST 357: Global Development
 - HISP 231: Intensive Spanish in Latin America
 - HISP 301: Hispanic Voices for Social Change

- HISP 322: Latin American Cultural Studies
- HISP 325: Introduction to Hispanic Literary Studies
- HISP 331: Intensive Spanish in Latin America
- HISP 401: Introduction to Hispanic Linguistics
- HIST 102: The Pre-Modern World: Explorations & Encounters
- HIST 103: Conflicts and Convergences in the Modern World
- HIST 109: East Asian Societies
- HIST 210: Contemporary Global Issues: Migration, Poverty, and Conflict
- HIST 218: Women and Gender in World History
- HIST 220: Modern Latin American History
- HIST 335: Slavery, Pirates, and Dictatorships: The History of the Caribbean
- HIST 337: The History of Mexico
- MUSI 105: The Arts of China
- NAIS 230: Indigenous Creation Narratives of the Americas and their Resonance
- NAIS 361: Storied Survivance: Seminar on Indigenous Literatures
- PHIL 229: Human Rights
- PSYC 335: Cultural Psychology
- PSYC 337: Culture and Health
- RELI 131: The Religions of South Asia
- RELI 232: The Buddhist Tradition
- RELI 233: The Religions of China
- RELI 235: Islamic Traditions
- RELI 238: The Religions of Korea and Japan
- RELI 245: Global Christian Theologies

Professional Resume

Completion of a professional resume review with the Alumni & Student Connections office, as certified by the program coordinator.

Interview Skills

Completion of a class or workshop on interview skills with the Alumni & Student Connections office, as certified by the program coordinator.

Leadership Experience

Creation and completion of an approved, significant leadership experience, as certified by the program coordinator.

Theological Studies

Students intending to attend seminary should complete the requirements for the bachelor of arts degree. Besides the general degree requirements, the Association of Theological Schools recommends the following:

- **English:** literature, composition, speech, and related studies; at least six semester-long courses.
- **History:** ancient, modern European, and American; at least three semester-long courses.
- **Philosophy:** orientation in history, content, and methods; at least three semester-long courses.
- **Natural Sciences:** preferably physics, chemistry, and biology; at least two semester-long courses.
- **Social Sciences:** psychology, sociology, economics, political science, and education. At least six semesters, including at least one semester of psychology.
- **Foreign Languages - one or more of the following:** Latin, Greek, Hebrew, German, French. Students who anticipate post-graduate studies are urged to undertake these disciplines as early as possible (at least four semesters).
- **Religion:** a thorough knowledge of Biblical content together with an introduction to major religious traditions and theological problems in the context of the principal aspects of human culture as outlined above. At least three semester-long courses. Students may well seek counsel from the seminary of their choice.

Of the possible majors, English, philosophy, religion and the social sciences are regarded as the most desirable. Other areas are, however, accepted.

A faculty advisor will assist students in the selection of courses necessary to meet the requirements of the theological school of their choice. Consult the chair of the Department of Religion for further information.

Professional Studies, College of

253.535.7150	www.plu.edu/professional-studies/	profstudies@plu.edu
Cameron Bennett, D.M.A., Dean		

The College of Professional Studies is a dynamic community of educators, artists, and practitioners in professional programs reaching across a wide breadth of disciplines. The College fosters an inclusive culture of collaboration, connecting directly with our community and region, as well as with national and international engagements and partnerships.

Descriptions of specific course offerings and degree requirements offered within the College of Professional Studies are listed as follows:

Degrees Offered

Bachelor of Arts Degree

Major in Psychology

42 semester hours, including:

- PSYC 101, 242, 499
- One of PSYC 310, 315, 320, or 330
- Two of PSYC 440, 442, 448, or 481
- At least 2 semester hours from PSYC 495, 496, or 497
- 12 semester hours of elective psychology courses
- STAT 232 (psychology class) and accompanying lab are required.

Bachelor of Science Degree

Major in Psychology

62 semester hours, including:

- PSYC 101, 242, 481, 499
- One of PSYC 310, 315, 320, 330
- One of PSYC 440, 442, or 448
- At least 2 semester hours from PSYC 495, 496, or 497
- 12 semester hours of elective psychology courses
- STAT 232 (psychology class) and accompanying lab
- 20 semester hours in mathematics and other natural sciences are required. Of the 20 hours, at least 4 semester hours must be in mathematics and at least 8 semester hours in biology. Those students who, after graduating from PLU, plan to enter schools of dentistry, medicine, public health, or veterinary medicine should note the specific pre-professional mathematics and science requirements in the appropriate sections of this catalog.

Minor

20 semester hours, including:

- At least 12 semester hours must be taken in residence. If a statistics course is used as part of the 20-hour requirement, then it must be STAT 232 (psychology class) taught by a member of the psychology department.

The minor in psychology is designed to supplement another major in the liberal arts or a degree program in a professional school, such as business, education, or nursing.

Department Policies

- **Course Prerequisites:** A grade of C- or higher must have been earned in a course in order for it to qualify as a prerequisite and to apply towards the major.
- **Experiential Learning:** All Psychology majors are required to take a minimum of 2 semester hours of PSYC 495, 496 or 497.
- **Capstone:** Psychology majors are required to complete a capstone project and present this project as part of PSYC 499 at the Psychology Research Conference held every term.

Psychology (PSYC) - Undergraduate Courses

PSYC 101 : Introduction to Psychology - ES

An introduction to the scientific study of behavior and mental processes. Topics include learning, memory, perception, thinking, development, emotion, personality, mental illness, and social behavior. (4)

PSYC 148 : Minds, Brains, and Computer: Introduction to Cognitive Science

An introduction to the interdisciplinary study of the mind. Students will explore how the mind works through the lenses of philosophy, psychology, linguistics, neuroscience, and computer science. (4)

PSYC 242 : Advanced Statistics and Research Design

A continuation of Statistics 232 and accompanying lab taught by members of the psychology department. Topics include single- and multi-factor experimental designs and analyses of variance, multiple regression, quasi-experiments, surveys, and non-parametric statistical techniques. Students will learn to use computer programs to carry out statistical analyses and will have the opportunity to design and conduct their own research study. Lecture and laboratory. Prerequisite: STAT 232 and accompanying lab taught by members of the psychology department. (4)

PSYC 287 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 288 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 289 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

PSYC 310 : Personality Theories

Strategies for the study of personality. Review of theories and research. Discussion of implications for counseling. Prerequisite: PSYC 101. (4)

PSYC 315 : Clinical Psychology 1: Mental Health and Psychological Disorders

This course provides an overview of systems of classifying and diagnosing psychological symptoms and biopsychosocial/developmental models for understanding and treating mental disorders (previously termed Abnormal Psychology). Prerequisites: PSYC101. (4)

PSYC 320 : Development Across the Lifespan

Biological, cognitive, social, and emotional development from conception through adulthood to death. Prerequisite: PSYC 101. (4)

PSYC 330 : Social Psychology

The study of how an individual's thoughts and behaviors are influenced by the presence of others. Research and theory concerning topics such as person perception, attitudes, group processes, prejudice, aggression, and helping behaviors are discussed. Prerequisite: PSYC 101. (4)

PSYC 335 : Cultural Psychology - GE

The study of the relation between culture and human behavior. Topics include cognition, language, intelligence, emotion, development, social behavior, and mental health. Prerequisite: PSYC 101. (4)

PSYC 337 : Culture and Health

This course explores the role of culture on health issues around the world from a psychological perspective. Theories from health psychology, and secondarily from medical anthropology and medical sociology, are used to consider how culture impacts health behaviors and how behaviors and services might be improved. Major topics include mental and physical health, treatment, health services, and health promotion. Prerequisite: PSYC 101, SOCI 101, or ANTH 102. (4)

PSYC 360 : Psychology of Language

The study of language as a means of communication and structured human behavior. Topics include: biological foundations of language, psycholinguistics, speech perception and production, sentence and discourse comprehension, nonverbal communication, language acquisition, bilingualism, language disorders. Prerequisite: PSYC 101. (4)

PSYC 375 : Psychology of Women

Exploration of psychological issues pertinent to women. Includes such topics as sex differences; psychological ramifications of menarche, child bearing, menopause, sexual harassment, and rape; women's experiences with work and achievement, love and sexuality, and psychological disorders. Prerequisite: PSYC 101. (4)

PSYC 387 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 388 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 389 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 420 : Adolescent Psychology

Physical development, mental traits, social characteristics, and interests of adolescents; adjustments in home, school, and community. Prerequisite: PSYC 320. (4)

PSYC 435 : Clinical Psychology 2: Psychotherapy

Introduction to basic methods of counseling and psychotherapy, and examination of the theories from which these methods derive. Prerequisites: PSYC 315 or consent of instructor. (4)

PSYC 440 : Human Neuropsychology

Study of the neuroanatomical and neurophysiological mechanisms of behavior and mental function. Topics include perception, voluntary action, spatial processing, language, memory, emotion, social behavior, and consciousness. Prerequisite: STAT 232. (4)

PSYC 442 : Learning and Memory

A critical overview of the science of learning and memory. Prerequisite: STAT 232. (4)

PSYC 448 : Cognitive Psychology

The study of human thought. Topics include attention, perception, memory, knowledge and concept formation, language, problem-solving, and reasoning. Prerequisites: STAT 232. (4)

PSYC 481 : Research Seminar

An advanced course providing students the opportunity to design and conduct ongoing research and review current research in a psychology subdiscipline. May be repeated for credit. Prerequisite: PSYC 242 and consent of instructor. (4)

PSYC 483 : Seminar

Selected topics in psychology as announced. Prerequisite: consent of instructor. May be repeated for credit. (2 to 4)

PSYC 487 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 488 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 489 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 491 : Independent Study

A supervised reading, field, or research project of special interest for advanced undergraduate students. Prerequisite: Consent of supervising faculty. (1 to 4)

PSYC 495 : Internship

A practicum experience in the community in the clinical, social, and/or experimental areas. Classroom focus on case conceptualization and presentation. May be repeated for up to eight semester hours. Prerequisite: sophomore standing plus one course in psychology and consent of the department. (1 to 8)

PSYC 496 : Research Practicum

Research experience under the direct supervision of a faculty member, students may design and/or conduct research in a designated area of psychology. May be repeated for up to eight semester hours. Prerequisite: PSYC 101 or consent of instructor. (1 to 4)

PSYC 497 : Teaching Apprenticeship

Teaching experience under the direct supervision of a faculty member. Course provides the opportunity to learn how to effectively communicate information, understand classroom management, and develop teaching skills. Students may serve as a teaching assistant for the same psychology course no more than twice. May be repeated for up to four semester hours. Prerequisite: Grade of B or better in class for which a TA, a minimum 3.0 overall G.P.A., junior standing at time the course is offered, consent of instructor. (1 to 4)

PSYC 499 : Capstone: Senior Seminar - SR

Required for Psychology majors. Students will complete and present at an on-campus Psychology Research Conference held fall and spring terms. Students earning the B.S. degree must conduct empirical research projects whereas as students earning the B.A. degree may choose nonempirical projects. The projects may emerge from ideas and experiences in an upper-division psychology course, advanced research activity, or in response to an internship completed by the student. Prerequisites: PSYC 242, senior standing, and permission of instructor. (4)

Publishing & Printing Arts

253.535.7241	www.plu.edu/ppa/	solveig.robinson@plu.edu
Solveig Robinson, Ph.D., Director		

Pacific Lutheran University offers students a way to translate their love of books into an exciting professional career in publishing. The distinctive interdisciplinary curriculum in Publishing and Printing Arts (PPA) is highly respected by employers because it combines pre-professional skills and experience with the solid foundation of a liberal arts education. This five-course minor is designed to give students with talents and interests in writing, graphic design, communication, or business a head start into the world of publishing and a broad variety of related professions. The PPA program readily complements majors concerned with language and the written word, such as English, languages, education, history, public relations, journalism, marketing, and graphic design. But students majoring in a wide spectrum of disciplines—from biology to music to anthropology—have discovered the value of a PPA minor, too. PPA helps students connect publishing career opportunities in their fields and highlights the continuing importance of written communications in our modern world.

Publishing and Printing Arts Minor

20 semester hours including:

- Three core courses are required

12 semester hours

- PPAP 301/ENGL 311/COMA 321: The Book in Society (4)
- PPAP 302/ENGL 312/COMA 322: Publishing Procedures (4)
- PPAP 321/ENGL 313/ARTD 315: The Art of the Book I (4)

In addition to the above 12 semester hour core, students take two elective courses (8 semester hours) selected from two of the following categories:

• Writing/Editing

Approved courses in English, History, or Publishing & Printing Arts:

- ENGL 221: Research & Writing (4)
- ENGL 225: Autobiographical Writing (4)
- ENGL 227: Introduction to Creative Writing (4)
- ENGL 236: Introduction to Screenwriting (4)
- ENGL 320: Intermediate Creative Nonfiction (4)
- ENGL 323: Writing in Professional & Public Settings (4)
- ENGL 327: Intermediate Poetry Writing (4)
- ENGL 329: Intermediate Fiction Writing (4)
- ENGL 336: Digital Writing & Storytelling (4)
- ENGL 339: Special Topics in Creative Writing (4)
- ENGL 393: The English Language (4)
- ENGL 424: Seminar: Writing (4)
- ENGL 434: Seminar: Writing, Literature, & Public Engagement (4)
- COMA 215: Writing in Communication Careers (4)
- COMA 342: Communication Inquiry (4)
- COMA 343: Media Writing (4)
- PPAP 491: Independent Study (1-4)
- PPAP 495: Internship (1-4)

• Marketing/Management

Approved courses in Business, Communication, or Publishing and Printing Arts:

- COMA 361: Strategic Communication (4)
- COMA 421: Media, Ethics, and the Law (4)
- COMA 461: Advertising, PR, and Campaigns (4)
- BUSA 203: Managerial Accounting (4)
- BUSA 305: Behavior in Organizations (4)
- BUSA 308: Principles in Marketing (4)
- BUSA 340: Nonprofit Management (4)

- BUSA 358: Entrepreneurship (4)
- BUSA 361: e-Marketing (4)
- BUSA 363: Consumer Behavior (4)
- BUSA 366: Multicultural Marketing (4)
- PPAP 491: Independent Study (1-4)
- PPAP 495: Internship (1-4)

• **Design/Production**

Approved courses in Art, English, Communication, or Publishing & Printing Arts:

- COMA 226: MediaLab (1-2)
- COMA 229: Student Media (1-2)
- COMA 401: Contemporary Issues in Media and Visual Culture (4)
- COMA 426: Advanced MediaLab (1-2)
- COMA 429: Advanced Student Media (1-2)
- ARTD 110: Graphic Design 1 (4)
- ARTD 210: Graphic Design 2 (4)
- ARTD 220: Photography 1: B&W (4)
- ARTD 310: Graphic Design 3 (4)
- ARTD 320: Photography 2: Digital (4)
- ARTD 370: Printmaking 1 (4)
- ARTD 410: Graphic Design 4 (4)
- ARTD 420: Photography 3: Color (4)
- ARTD 470: Printmaking 2 (4)
- PPAP 322: Art of the Book II (4)
- PPAP 491: Independent Study (1-4)
- PPAP 495: Internship (1-4)

• **History**

Approved courses in English, History, or Publishing & Printing Arts:

- ENGL 235: Children's Literature (4)
- ENGL 334: Studies in Literature for Young Readers (4)
- HIST 248: Innovation, Ethics, Society (4)
- HIST 346: History of Innovation and Technology (4)
- PPAP 491: Independent Study (1-4)
- PPAP 495: Internship (1-4)

As part of their minor in Publishing and Printing Arts, students are encouraged to acquire practical experience in publishing-related work outside the classroom.

Publishing and Printing Arts (PPAP)

PPAP 301 : The Book in Society

A critical study of the history of book culture and the role of books in modern society. Cross-listed with COMA 321, ENGL 311. (4)

PPAP 302 : Publishing Procedures

A workshop introduction to the world of book publishing, involving students in decisions about what to publish and how to produce it. Cross-listed with COMA 322, ENGL 312. (4)

PPAP 321 : The Art of the Book I - CX

This studio course explores the history, aesthetics, and creative dimensions of book design and typography. Prerequisite: Declared PPA minor or permission of instructor. Cross-listed with ARTD 315, ENGL 313. (4)

PPAP 322 : The Art of the Book II - CX

Individual projects to explore further typography and fine bookmaking. Prerequisite: PPAP 321 / ARTD 315 / ENGL 313 with a B grade or better or permission of instructor. Cross-listed with ENGL 314. (4)

PPAP 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

PPAP 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

Religion

253.535.8499	www.plu.edu/religion/	zbarasgm@plu.edu
Michael Zbaraschuk, Ph.D., Chair		

Religion is an attempt to understand the meaning of human existence. Different religious and cultural communities express that meaning in many ways. Located within an ELCA-related university, the Department of Religion stands within a Lutheran Christian and global context.

In a university setting this means the serious academic study of the Bible, of the history of the Christian tradition, of Christian theology, and of world religious traditions. Critical study calls for open and authentic dialogue with other religious traditions and seeks to understand a common humanity as each tradition adds its unique contribution. It calls for a critical yet constructive interchange with contemporary society. Finally, it calls for a sharing of insights with other disciplines in the university as each sheds light on the human condition.

To these ends the Department of Religion offers a wide range of courses and opportunities. Furthermore it calls students, majors and non-majors alike, to consider questions of meaning, purpose, and value in a society that all too often neglects these questions.

Bachelor of Arts Degree

Major in Religion

32 semester hours

- RELI 499: Capstone Research Seminar (offered only in Spring semester)
- 8 semester hours RELI coursework from Line One: Christian Traditions (RC): RELI 212, 220-229, 245-257, 331, and 361-368.
- 8 semester hours RELI coursework from Line Two: Global Religious Traditions (RG): RELI 131, 211, 215, 230-241, 330, 342, and 390-397.
- **In addition:**
 - 12 semester hours RELI coursework from either Line RC or RG
 - At least 16 semester hours must be upper-division, not including RELI 499

Majors should plan their program early in consultation with departmental faculty. Closely related courses taught in other departments may be considered to apply toward the religion major in consultation with the chair of the department.

Transfer majors will normally take 20 semester hours in residence. A minimum grade of C- in all courses in the major or minor department and a cumulative 2.00 GPA in those courses is required.

Minor

16 semester hours

- 8 semester hours RELI coursework from Line One: Christian Traditions (RC): RELI 212, 220-229, 245-257, 331, and 361-368.
- 8 semester hours RELI coursework from Line Two: Global Religious Traditions (RG): RELI 131, 211, 215, 230-241, 330, 342, and 390-397.
- Minimum of 4 semester hours must be taken at the upper-division level (either RC or RG)

Transfer minors under this option must take at least 8 semester hours in residence.

Minor (Teacher Education Option)

24 semester hours, at least 4 hours in each of the two lines.

Transfer minors under this option normally take 16 semester hours in residence. Intended primarily for parochial school teachers enrolled in the [Department of Education](#).

Religion (RELI) - Undergraduate Courses

RELI 131 : The Religions of South Asia - RL, VW, GE

Hinduism, Buddhism, Jainism, and Sikhism - their origins and development, expansion, and contemporary issues. (4)

RELI 211 : Religion and Literature of the Hebrew Bible - RL, IT

This course introduces students to the critical study of the books in the Hebrew Bible Canon. Students will become familiar with the socio-historical context of these biblical books and their major theological themes; explore in depth a representative selection of Hebrew Bible texts; learn about a variety of historical, theological, and interpretive approaches by means of which to understand the historical context, literary artistry, and rhetorical power of scriptural texts; and explore the significance of these writings for the urgent challenges of today. (4)

RELI 212 : Religion and Literature of the New Testament - RL, IT

This course will introduce students to the scholarly study of the New Testament, as well as the Greco-Roman and Jewish contexts from which they emerged; students will also be introduced to the basic methods and issues in New Testament interpretation. Much of the course will focus on understanding these ancient texts in their historical contexts and what they reveal about the people who produced them, though there will be some consideration of their influence on some contemporary issues. No previous familiarity with the New Testament or its interpretation is expected. (4)

RELI 215 : Religions of the Ancient Mediterranean - RL, VW, GE

This course introduces the religiously, culturally, and socially diverse world of the Late Bronze Age. During this time, ancient Egypt, Anatolia, Mesopotamia, Syria-Palestine, and Greece created the world's first recorded unified economy. In 1300 BCE, humans believed that all duties were duties to the gods and all events had deity as their cause. Our research shows that three thousand years ago, humans were living productively in a religiously pluralistic society. The ancient Mediterranean cultures participated in and enjoyed the advantages of a religiously diverse community. This course examines the ways in which religion shaped the cultures of the ancient Mediterranean world. (4)

RELI 220 : Early Christian History - RL, IT

This course explores the social, cultural, and theological diversity and forms of self-definition of early Christian history across territories in which it emerged, including Western Asia, North and East Africa, and Western Europe. In this course, emphasis will be placed on the ways in which Christian groups established core elements flowering from the life of Jesus of Nazareth, affirmed or undermined social norms, and how those social norms impacted conceptions of gender, health, poverty, authority, and the sacred. (4)

RELI 221 : Medieval Christian History - RL, IT

This course introduces students to the history of Christianity in centuries identified as "medieval", 500-1500. Through original sources and contemporary studies, students will explore the interplay between Christian values and practices and diverse cultures in eastern and western Europe; the charisma of various types of sanctity (holy persons, sites, and relics); the development of ascetic behavior for monastics and laity; the relationship between Christians and diverse political systems; and the role of Christianity in the development of western culture. (4)

RELI 224 : Always Reforming: The Lutheran Heritage - RL, VW

This course is an introduction to the central insights, historical development, and formative practices of Lutheran Christianity. Through engaging texts from the sixteenth century to today, we will explore how this living tradition understands the meaning of human life. Lutheranism is a movement within the Christian tradition and the course examines it within the context of our diverse, pluralistic, and secular world. The course includes topics such as: the history of this tradition and its impact, grace and freedom, church and secular authority, and social advocacy in politics, race, and gender. (4)

RELI 226 : Christian Ethics - RL, VW

This course introduces and explores moral arguments in conversation with Christian traditions. We learn from the discipline of ethics to understand and think critically about arguments in historical, social, and experiential contexts and we engage in dialogue with sources from sacred Christian texts, from Christian social movement in the U.S., and from contemporary thinkers across the world. The primary goal of the course is to equip students with tools to think more deeply and more critically about moral issues in personal life, in community, and in politics. (4)

RELI 227 : Introduction to Christian Theologies - RL, VW

This course introduces contemporary theology and theological method while engaging topics such as the relation of faith and reason and the meaning of human suffering. This course focuses on a wide variety of theologies developed in the past 125 years from Europe, South and North America: Protestant, Catholic, feminist/womanist, Latin American liberation, and Black theologies. Students engage their own deepest convictions and beliefs and encounter tools to examine their ideas more clearly. RELI 247 for cross-cultural GenEd and RELI 257 for alternative perspective GenEd. (4)

RELI 229 : Health and Healing in Christian History - RL, IT

This course addresses the intersection of religion and medicine in Christian history. Students focus on approaches to health, healing, death and dying rooted in specific expressions of the Christian religion, universal and particular. Through analysis of primary and secondary source materials, students identify distinct Christian responses to physical, mental, and spiritual anguish as well as idiosyncrasies unique to social groups that identify as Christian. Students identify how historical context shapes Christian interpretations of health and well-being. (4)

RELI 230 : Religion and Culture - RL, VW, GE

Special topics course. Explores the interrelation and interaction of religion and culture in a variety of world religious traditions. Incorporates recognized methodologies in academic religious studies. May be repeated for credit with different topic (up to 12 credit hours). (4)

RELI 232 : The Buddhist Tradition - RL, VW, GE

Introduction to the history, teachings, and practice of Buddhist tradition in its South Asian, East Asian, and Western cultural contexts. (4)

RELI 233 : The Religions of China - RL, IT, GE

This course introduces students to the major traditions that have shaped Chinese culture, asking if we can understand them using the Western category of "religion". The course covers Daoism, Confucianism, Buddhism, Chinese folk practices, and Christianity. It closes with a study of the interplay of government policy and religious reality in China today. (4)

RELI 235 : Islamic Traditions - RL, VW, GE

An introduction to the history, teachings, and practices of Islam. (4)

RELI 236 : Native American Religious Traditions - RL, VW, GE

Introduction to a variety of Native American religious traditions, emphasizing the ways sacred traditions construct identity, promote individual and collective well-being, and respond to colonialism. Emphasis is also placed on notions of Indigenous religious traditions as expressions of a people's relationship with place, traditional ecological knowledge, and Indigenous ecological ethics. (4)

RELI 237 : Judaism - RL, IT, GE

Introduction to the history of the Jewish people and the religious tradition of Judaism. Emphasis is placed on the historical development of Judaism; the practice of Judaism and observation of Jewish law; impacts of and responses to anti-Semitism and the Holocaust. (4)

RELI 239 : Environment and Culture - RL, VW

This course focuses on ways environments and environmental issues are shaped by human culture, with particular attention to ways that religious traditions are responding to environmental degradation and environmental injustices. An introduction to humanistic study of the environment and the intercultural study of religion, the course equips students to more thoughtfully and critically analyze ideas and traditions in religious and indigenous communities and in the environmental movement. Centering democratic education, the class asks students to research, reflect, and practice communicating on current environmental concerns. (4)

RELI 240 : African American Religious Traditions - RL, VW, GE

Introduction to the history and diversity of African American and/or Afro-Caribbean religious traditions. Topics under

consideration may include religion as a means for addressing social injustice, diasporic identities, healing from trauma, or its expression within the arts, political activism, and theology. (4)

RELI 241 : Islam in the United States - RL, VW, GE

An introduction to the history and practices of Islam in the United States. Special attention paid to the intersection of race and gender in Muslim-American communities, the role of immigration in Muslim growth, and contemporary political issues involving Muslims and Islamophobia. (4)

RELI 245 : Global Christian Theologies - RL, VW, GE

Over the last 100 years, Christianity has been shrinking in its European (and Amer-European) historic strongholds and has been growing in Asia, Latin American, and Africa. This course examines writings by various writers who combine a Christian identity with their own cultural context and construct the theologies of the Christian future in Africa, Asia, and Latin America. (4)

RELI 247 : Christian Theology - RL, VW, GE

Survey of selected topics or movements in Christian theology designed to introduce the themes and methodologies of the discipline. RELI 247 for crosscultural GenEd and RELI 257 for alternative perspective GenEd. (4)

RELI 257 : Christian Theology - RL, VW, GE

Survey of selected topics or movements in Christian theology designed to introduce the themes and methodologies of the discipline. RELI 247 for cross-cultural GenEd and RELI 257 for alternative perspective GenEd. (4)

RELI 330 : Hebrew Bible Studies - RL, IT

The Hebrew Bible has been very influential for the development of three major monotheistic religions and has authoritative status for Judaism and Christianity. It has also left an indelible impact on secular culture. Courses under this designation may have a thematic focus, i.e. the prophets, psalms, wisdom literature, etc., and/or a topical focus, i.e. gender, sexuality, storytelling, mythology, etc. All courses read the text carefully, examine archaeological evidence, consider historical and cultural context, and analyze the formation of religious concepts before making responsible interpretive choices for both secular culture and living religious traditions. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 331 : New Testament Studies - RL, IT

Major areas of inquiry: intertestamental, synoptic, Johannine, or Pauline literature, or New Testament theology. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 342 : City of Gods: Ordinary Life and Religion in Late Antiquity - RL, VW

This course investigates the nature of religion in the late Roman Empire in regional, indigenous, mono-, di-, and poly-theistic systems, focusing on layers of life infused with distinctly religious significance: (1) family, (2) city, and (3) empire. Course content includes origin stories; operations of nature; locale and legitimacy of authority; ritual; forms and places of worship; definition and basis of moral behavior; public order; the body and sexuality; the nature of divinity; health; fertility; and death and the afterlife within the historical framework of Late Antiquity, broadly dated from the 4th century CE through the 7th century CE. (4)

RELI 361 : Church History Studies - RL, IT

Special topics course. Selected area of inquiry, such as Orthodox church history, religious experience among American minority communities, and the ecumenical movement. RELI 341 for cross cultural GenEd and RELI 351 for alternative perspective GenEd. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 362 : Luther and His Legacy - RL, VW

This course explores the events and movements leading to the Protestant Reformation as well as Luther's life and theology. It focuses on Luther's own writings and their impact in the sixteenth century up to today. Additionally, this course introduces Lutheran thinkers who emerged from Luther's theological legacy, such as: Dietrich Bonhoeffer (Germany), Søren Kierkegaard (Denmark), and Paul Tillich (Germany/United States). It addresses how the Lutheran tradition continues to shape secular and religious spheres in our contemporary context. (4)

RELI 364 : Theological Studies - RL, VW

Special topics course. Selected topic or movement within Christian theology. RELI 344 for cross cultural GenEd and RELI 354 for alternative perspective GenEd. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 365 : Climate Justice - RL, VW

This course offers in-depth exploration of how religious communities and religious leaders are responding to anthropogenic climate change and how the study of religion and theology shed light on political and moral debates on the issue. Special attention is paid to Christian perspectives, but texts are included from other religious traditions and from multiple global, racial, and socio-economic contexts. Students will create a research-based final project developing and defending a response to climatic change and global injustices. (4)

RELI 366 : Race, Gender, and Christianity - RL, VW, GE

This course examines the intersection of race, gender, and Christianity. We will study a variety of movements and religious writings to uncover how Christians have both supported and resisted dominant understandings of race and gender. Topics may include the civil rights movement, liberation theology, Christian feminism, and womanist theology. Students will learn academic methods in the study of religion and use those tools to conduct a major research project. (4)

RELI 367 : Major Religious Thinkers, Texts, and Genres - RL, VW

Special topics course. In-depth study of major figures, texts, or genres in Christian traditions, focusing especially on the theology and religious thought of Christianity. Topics in RELI 347, RELI 357, and RELI 367 may include Journeys Toward Faith, Process Theology, Liberation Theology, and Death and the Afterlife. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 368 : Feminist, Womanist, Latinx, and Queer Theologies - RL, VW, GE

A study of major Christian theological themes and issues through global perspectives on gender and intersectional identities. This course considers texts from 1666 to today, a long history of women engaging Christian theology and scripture in their work for social and religious liberation. This course explores a diversity of theological voices across race, gender, culture, politics, and economics. By comparing theologies, methods, and sources, we observe how experience forms new foundations for conceptions of God, salvation, human nature, evil, and social change. (4)

RELI 390 : Topics in Comparative Religions - RL, IT, GE

Special topics course. Historical study of specific non-Christian religions such as the traditions of India and China, Judaism, and Islam. RELI 393 is for alternative perspective general education element. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 391 : Sociology of Religion

An investigation of the American religious scene with particular emphasis on the new religious movements, along with attention to social settings and processes which these new religions reflect and produce. Cross-listed with SOCI 391. RELI 391 has no prerequisites. See listing for SOCI 391 for prerequisites. (4)

RELI 393 : Topics in Comparative Religions - RL, VW, GE

Special topics course. Historical study of specific non-Christian religions such as the traditions of India and China, Judaism, and Islam. RELI 390 is for cross-cultural general education element. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 396 : Health, Healing, and Religious and Cultural Diversity - RL, VW, GE

An exploration of diverse religious and cultural traditions and their role in health and healing. This course explores how religious traditions shape one's understanding of the origins of illness and the path toward healing. Emphasis is placed on how a better awareness of religious and cultural diversity can inform medical practice and work in caring professions such as social work, education, and nursing. (4)

RELI 397 : Indigenous Religions and Cultures of the Pacific Northwest - RL, VW, GE

This course explores the religious and cultural diversity of Indigenous communities in the Pacific Northwest, from Alaska to northern California, and east to northern Idaho. Emphasis is placed on the history and impacts of colonialism; the relationship between Indigenous people and place as reflected in food systems, ceremonies, visual arts, and oral traditions; and the relevance of traditional ecological knowledge in addressing environmental concerns. (4)

RELI 491 : Independent Study

For religion majors only and consent of the department is required. (1 to 4)

RELI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

RELI 499 : Capstone: Research Seminar - SR

Intended for and required of majors. Discussion of common readings and a major research and writing project with public presentation around the student's area of interest. Does not fulfill the Religion GenEd requirement and does not count toward the minor. (4)

Sociology & Criminal Justice

253.535.8305	www.plu.edu/sociology-criminal-justice/	soci@plu.edu
Laura McCloud, Ph.D., Chair		

Bachelor of Arts Degree

- Due to the shared core curriculum, students may not double major in sociology and criminal justice.
- Majors are required to attain a minimum grade of C- in sociology and criminal justice classes.

Major in Sociology

40 semester hours, including:

- SOCI 101, 232, 330 or 336, 496, 499
- STAT 233
- 4 semester hours of a 200-level SOCI course. Choose from 210, 240, or 287 (ST in Sociology).
- 4 semester hours of a 400-level SOCI course. Choose from 410, 494, or 495.
- **Plus:** 8 semester hours of SOCI electives not used above. Choose from 210, 240, 287 (ST in Sociology), 330, 332, 336, 378, 387 (ST in Sociology), 391, 410, 494, or 495.

Major in Criminal Justice

40 semester hours, including:

- SOCI 101, 201, 232, 336, 413, 495, 499
- STAT 233
- 4 semester hours of a SOCI Inequality Elective course. Choose from SOCI 210, 240, 332, or 410.
- 4 semester hours of a Criminal Justice Elective course. Choose from SOCI 226, 287 (ST in Criminal Justice), 387 (ST in Criminal Justice), 494, BUSA 303, PHIL 125, 128, 227, or 229.

Requirements for those majoring in both sociology and social work

84 semester hours including:

- SOCW 245, 250, 350, 360, 460, 465, 475, 476, 485, 486, 498, and 499
- SOCI 101, 210 or 240, 330 or 336 (330 is recommended), 496, 499, a 400-level elective, and 8 elective hours
- SOCI/SOCW 232
- STAT 233
- BIOL 111 and PSYC 101

Minors

- A maximum of 8 credits may be double-counted for a Sociology major and Criminal Justice minor, Criminal Justice major and Sociology minor, or a Sociology and Criminal Justice double minor.
- Minors are required to attain a minimum grade of C- in sociology and criminal justice classes.

Minor in Sociology

20 semester hours, including:

- SOCI 101
- 16 semester hours of sociology. Choose from SOCI 210, 232, 240, 287 (ST in Sociology), 330, 332, 336, 378, 387 (ST in Sociology), 391, 410, 494, 495, and 496.
- STAT 233 may be included in the minor

Minor in Criminal Justice

20 semester hours, including:

- SOCI 101 and 201
- 4 semester hours of a SOCI Inequality Elective course. Choose from SOCI 210, 240, 332, or 410.
- 4 semester hours of a SOCI Criminal Justice Elective course. Choose from SOCI 226, 287 (ST in Criminal Justice), 387 (ST in Criminal Justice), 413, 494, or 495.
- 4 semester hours of a Criminal Justice Elective course. Choose a SOCI course not already used above, including SOCI 226, 287 (ST in Criminal Justice), 387 (ST in Criminal Justice), 413, 494, 495, or approved courses outside SOCI, including BUSA 303, PHIL 125, 128, 227, or 229.

Prerequisites

SOCI 101 and/or SOCI 201 or consent of instructor are prerequisites to all 300- and 400-level courses.

Transfer Student Policy

The department accepts, for transfer credit from another college or university, only those courses equivalent to SOCI 101 (Introduction to Sociology) and SOCI 240 (Social Problems). If students wish to have additional courses considered for transfer to either their major or minor requirements, they must first meet with the department chair.

Majors may transfer in a maximum of 16 semester hours towards the Sociology or Criminal Justice major, unless they have permission from the chair of the Department of Sociology and Criminal Justice.

Minors may transfer in a maximum of 8 semester hours towards the Sociology or Criminal Justice minor, unless they have permission from the chair of the Department of Sociology and Criminal Justice.

Sociology (SOCI) - Undergraduate

SOCI 101 : Introduction to Sociology - ES

An introduction to the discipline of sociology. Features an analysis of contemporary American society with emphasis on the interconnections of race, class, and gender. Sociological concepts include socialization, social roles, stereotypes, power, and stratification. (4)

SOCI 201 : Introduction to Criminal Justice

An examination of the American Criminal Justice System. This course will address law enforcement, the court system and correctional system, along with attention to race, class, and gender inequalities. (4)

SOCI 210 : Gender and Society - ES

An examination of gender as a social construction and a system of stratification. Focus is on the structural aspects of gender and upon the intersection of gender with other social categories, such as race, class, and sexuality. (4)

SOCI 226 : Delinquency and Juvenile Justice

An examination of juvenile delinquency in relation to the family, peer groups, community and institutional structure. Includes consideration of processing the juvenile delinquent by formal agencies of control. (4)

SOCI 232 : Research Methods

An overview of the methods to explore, describe, and analyze the social world. General issues in the design and implementation of research projects, as well as specific issues that arise in conducting interviews and field observations, constructing and

administering surveys, analyzing existing data, and planning program evaluations. Required for sociology and social work majors. Prerequisite: SOCI 101, SOCI 201, or consent of instructor. (4)

SOCI 240 : Social Problems - ES

Critical examination of poverty, discrimination, drugs, crime, homelessness, violence, and family breakdown. Course addresses contemporary social problems, an analysis of their social roots, and an evaluation of the policies designed to eradicate them. (4)

SOCI 287 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 288 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 289 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

SOCI 330 : The Family

An examination of the institution of the family in the United States, with emphasis on how families are affected by social forces such as the economy, race and ethnicity, gender, and social politics. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 332 : Race and Racism - ES

A critical examination of race and racism in the United States. The course will explore the social construction of race and how racism shapes social institutions, such as the economy, education, and criminal justice. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 336 : Deviance

A general introduction to a variety of nonconforming, usually secretive, and illegal behavior, such as corporate crime, drug dealing, prostitution, industrial spying, child abuse, and suicide, with emphasis on the conflict of values and life-experiences within a society. Prerequisite: SOCI 101, SOCI 201, or consent of instructor. (4)

SOCI 378 : Consumption

An examination of the relationship between goods, individuals, and society. The course deconstructs the social bases of consumption to better understand the role consumption plays in shaping our identities and maintaining social distinctions. The course also addresses the relationship between consumption and social problems like consumer debt, inequality, and sustainability. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 387 : Special Topics in Sociology or Criminal Justice

Selected topics as announced by the department. Prerequisite: departmental consent. (1 to 4)

SOCI 388 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 389 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 391 : Sociology of Religion

An investigation of the American religious scene with particular emphasis on the new religious movements, along with attention to social settings and processes which these new religions reflect and produce. Prerequisite: SOCI 101, one religion course, or consent of instructor. Cross-listed with RELI 391. (4)

SOCI 410 : Social Stratification

An examination of the cultural and structural causes of social stratification and its consequence, social inequality. The course focuses on stratification and inequality on the basis of race, class, and gender, exploring what social forces shape individuals' differentiated access to society's valued resources. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 413 : Criminological Theories

An analysis of influential criminological theories of the 19th and 20th centuries, to the recent contemporary schools, and to the underlying patterns of thought which both unite and divide the criminological tradition. Required for senior criminal justice majors. Prerequisites: STAT 233, SOCI 101, 201, 232, and 336; declared major or minor in criminal justice. (4)

SOCI 487 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 488 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 489 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 491 : Independent Study

Readings or fieldwork in specific areas or issues of sociology or criminal justice under supervision of a faculty member. Prerequisite: departmental consent. (1 to 4)

SOCI 494 : Gender and Violence

An examination of gendered violence in American society. Focal topics will vary by semester and may include sexual violence, intimate partner violence, stalking, or masculinity and violence. The course will address how violence is gendered, theoretical explanations of gendered violence, and the response of the criminal justice system. Prerequisites: SOCI 101, SOCI 201, WMGS 201, or consent of instructor. Recommended: junior or senior standing. (4)

SOCI 495 : Internship

Students receive course credit for working in community organizations and integrating their experiences into an academic project. Placements are usually arranged by the student and may include the public school system, private and public social service organizations, criminal justice system agencies, local and state governmental agencies, and businesses. Prerequisite: SOCI 101 or SOCI 201. (1 to 4)

SOCI 496 : Sociological Theories

An analysis of influential sociological theories of the 19th and 20th centuries with attention to the classic theories of Marx, Durkheim, Weber, DuBois, and Gilman to the recent contemporary schools, and to the underlying patterns of thought which both unite and divide the sociological tradition. Required for senior sociology majors. Prerequisites: STAT 233, SOCI 101, 232, and

330 or 336; declared major or minor in sociology. (4)

SOCI 499 : Capstone: Senior Seminar - SR

Students design and carry through an independent research project involving the collection of data and the analysis of findings. Students demonstrate their mastery of the field by relating their research to the existing body of sociological literature and knowledge. Required for senior majors. Prerequisites: SOCI 496 or SOCI 413. (4)

Social Work

253.535.7595	www.plu.edu/social-work/	socw@plu.edu
Heidi Brocious, Ph.D., Chair		

Within a program that is firmly based in the liberal arts, the social work major is designed to prepare students for beginning professional social work practice as well as graduate study in social work. Social work has both a heavily multidisciplinary-based body of knowledge and its own continuously developing knowledge base. The complexity of social issues and social problems that confront the modern-day social worker require this broad theoretical perspective. Social workers are involved in areas that are influenced by political, economic, social, psychological and cultural factors. To that end, the program stresses an understanding of social science theories and methods. The curriculum provides a foundation for understanding the interaction of individual, family, and community systems, as the basis for generalist practice. Students learn a multi-method approach to social work practice that enables them to address a wide range of individual, family, group, community and organizational needs. Students enhance their commitment to informed action to remove inequities based on race, ethnicity, culture, gender, immigration status, social class, sexual orientation, disability and age.

Admission to the Social Work Program

Students seeking the Bachelor of Arts degree in social work must first apply and be accepted into the program. The social work program welcomes diversity and invites interest and applications from persons who seek to participate in a profession committed to helping people, now and in the future. Students may begin taking social work courses before being admitted to the program, but only admitted students are allowed to take 400-level courses. Students will be admitted to the Social Work Program for Fall Semester only. The priority date for applications is February 28th, though applications will be accepted until available positions are filled. Enrollment is competitive based on intended graduation date.

Admission is determined by faculty evaluation of student applications on the basis of the following criteria:

- Transcript that documents the completion of at least 40 semester hours of prescribed course work with a minimum grade point average of 2.75. In addition, the student must show successful completion of the following prerequisites: ANTH 102 or 334, BIOL 111, PSYC 101, SOCI 101, FYEP 101, and the PLU math entrance requirement. (Note: grades below C- do not transfer);
- A personal essay which addresses: (a) interest in social work as a career, (b) life experiences shaping an interest in social work, (c) professional social work goals, and (d) an evaluation of personal strengths and limitations (details may be obtained from Social Work Program);
- A summary of work and volunteer experience;
- Two letters of recommendation that evaluate and document the applicant's potential for success in social work education and practice;
- Washington State Patrol Criminal History clearance (Applicants with a criminal record will be urged to explore their prospects for registering as a counselor or later being licensed as a social worker with the State of Washington);
- Written agreement to comply with the National Association of Social Workers' Code of Ethics (a copy of which is available from the Social Work Program);
- Personal interview (may be requested).

Any falsification in the application for admission is grounds for dismissal from the program. Applicants who are not admitted to candidacy for the degree may reapply without prejudice. Application materials are available on the department webpage: <https://www.plu.edu/social-work/program/how-to-apply/>.

Continuation Policies

To remain in the program, a student must: (a) maintain a 2.75 grade point average in social work courses and a 2.50 overall grade point average, (b) demonstrate behavior which is consistent with the NASW Code of Ethics and University Code of Conduct, and (c) average 80% or better on benchmark assignments used to assess competence for practice.

Bachelor of Arts Degree

Major in Social Work

52 semester hours, including

- SOCW 245, 250, 350, 360, 460, 465, 475, 476, 485, 486, 498, and 499
- SOCW 232 or SOCI 232
- SOCI 101

- STAT 233 (must be completed at PLU)
- 4 semester hours in elective SOCI, SOCW, or PSYC 310, 315, or 337

Social Work majors are required to have the following prerequisites prior to entry to the program: ANTH 102 or 334, PSYC 101, and SOCI 101. BIOL 111 must be completed prior to graduation.

Minor

Minor

- SOCW 101 (190) or 245 (4)
- SOCW electives (8)
 - Choose from either course not used above, or from SOCW 250, 350, or 360
- Remaining elective (4)
 - Choose from any course not used above, or from SOCW 175, 287, 320, 325, 329, 345, 387, 491; SOCI 210, 226, 330, 332, 384, 410, 494; SOCW 232 or SOCI 232; PSYC 310, 315, 337; or COMA 340
- SOCW 375 (2)

Requirements for those majoring in both sociology & criminal justice and social work

84 semester hours including:

- SOCW 245, 250, 350, 360, 460, 465, 475, 476, 485, 486, 498, and 499
- SOCI 101, 210 or 240, 330 or 336 (330 is recommended), 496, 499, a 400-level elective, and 8 elective hours
- SOCI/SOCW 232
- STAT 233
- BIOL 111 and PSYC 101

Social Work (SOCW) - Undergraduate

SOCW 101 : Introduction to Social Work and Social Welfare - ES

An introduction to human need and the field of social work. Provides an overview of services, models of service delivery, and professional social work values. Students visit agency settings and meet with social work practitioners. A volunteer experience in the field is a required component of this seminar-style course. (4)

SOCW 175 : January on the Hill - VW, GE

An intense experience of service and community work on Tacoma's Hilltop District and/or Tacoma's eastside where students learn firsthand about poverty and participate in community projects. (4)

SOCW 232 : Research Methods

This course will prepare students to demonstrate basic competencies in the knowledge, values, and skills of research methodology to analyze the social world. This includes problem formulation, research designs, measurement, sampling, interviewing, and critical evaluation of research in social work and the social sciences. Required for social work majors. Prerequisite: SOCI 101. (4)

SOCW 245 : Human Behavior and the Social Environment - ES

Students examine developmental theory through the lens of an ecological systems perspective and a biopsychosocial-spiritual framework, emphasizing power, privilege, and cultural differences (particularly race/ethnicity, gender, and sexual orientation) as applied to individuals, families, groups, institutions, organizations, and communities locally and globally. Volunteer experience is required. (4)

SOCW 250 : Social Policy I: History of Social Welfare - ES

Exploration of power, privilege and oppression emphasizing political process and global social change in the development of the American welfare state and the profession of social work. Students reflect critically upon personal and social values, social welfare systems and their performance, the impact of political ideology and compromise on vulnerable populations, and the function of professional social work. (4)

SOCW 287 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 288 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 289 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

SOCW 320 : Child Welfare, A Global Perspective

An examination of child welfare, including child abuse and neglect; child welfare services, including CPS, permanency planning, foster care, adoption; and the current status of child well-being around the world, exploring the impact on children of such issues as poverty, war, nutrition, HIV/AIDS, access to education, access to health care, care for orphans, street children. (4)

SOCW 325 : Social, Educational, and Health Services in Tobago - VW, GE

Explore strengths and needs of Tobago and effects of history and colonialism on the development of community problems. Through service learning, interaction with agency staff and community members, readings and reflections, develop an understanding of the meaning of service in another culture and deepen one's own ethic of meaningful service. (4)

SOCW 350 : Social Policy II: Social Policy Analysis

Students develop legislative policy practice and advocacy skills, and examine the impact of policy implementation, administration, and governmental structure on services to vulnerable populations. Critical thinking is used to analyze contemporary global and local policy in income assistance, health/mental health, child welfare, homelessness, and services to seniors. Prerequisite: SOCW 250. (4)

SOCW 360 : Social Work Practice I: Interviewing and Overview of Generalist Practice

Students learn the conceptual framework of generalist practice and apply the ecological systems perspective to practice. This course introduces engagement, assessment, intervention, and evaluation in the context of social work both locally and globally. Students are able to learn intentional interviewing skills and apply those skills within various models of practice and across cultures. Prerequisite: SOCW 245. (4)

SOCW 375 : Social Services in the Community

Completion of a minimum of 50 hours of work in a community setting. Through written work, students reflect on their experiences, their personal growth, and the mission of the agency. May be repeated for credit up to two semester hours. Prerequisite: SOCW 175 or 245 or 360. (1)

SOCW 387 : Special Topics in Social Work

Selected topics as announced by the department. Topics relevant to current trends and issues in the field of social work. (2 to 4)

SOCW 388 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 389 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 460 : Social Work Practice II: Families and Groups

Grounded in the framework of generalist social work practice, the second social work practice course examines theoretical models and practice skills for assessment and intervention with families and groups. Emphasizes the importance of culturally sensitive practice. Introduces students to group dynamics and group development. Prerequisite: SOCW 245, 360. (4)

SOCW 465 : Social Work Practice III: Macropractice

Using the generalist social work practice framework, students develop engagement, assessment, intervention and evaluation skills for local and global practice with organizations, and communities. As professional social workers, students map community assets, examine community development, and advocate for diverse and marginalized groups. Students recognize social service organizations as a changing context for professional practice and research. Prerequisites: SOCW 245, 250, 350, 360, and 460. (4)

SOCW 475 : Field Experience I

Students are placed in social service agencies where, under supervision, they demonstrate the generalist skills of engagement, assessment, intervention, and evaluation of practice. They apply ethical principles in interactions with clients and staff, demonstrate critical thinking, engage and embrace diversity, demonstrate and apply knowledge of human behavior and the social environment. Pass/Fail. Prerequisites: SOCW 245, 350, and 360; to be taken concurrently with SOCW 460 and 485; requires consent of instructor. (3)

SOCW 476 : Field Experience II

Continuation of SOCW 475. Students practice and refine the generalist skills of engagement, assessment, intervention, and evaluation. Through their deepening identification with the social work profession, they analyze how their agency responds to changing contexts and reflect on ways to engage in policy and advocacy practice. Pass/Fail. Must be taken concurrently with SOCW 465 and 486. (3)

SOCW 485 : Field Experience Seminar I

Students integrate the theories and skills from their coursework with experiences in their field settings, applying theories of human behavior and the social environment. They write and analyze a case and practice self-reflection by developing a plan to evaluate their own practice. Must be taken concurrently with SOCW 475. (1)

SOCW 486 : Field Experience Seminar II

Students continue to grow in their professional identification and behavior. They make a formal case presentation to professional social workers, demonstrating their application of knowledge, values, and skills and their competence in engagement, assessment and intervention. They evaluate their own practice. Must be taken concurrently with SOCW 476. (1)

SOCW 487 : Special Topics in Social Welfare

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 488 : Special Topics in Social Welfare

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 489 : Special Topics in Social Welfare

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: Consent of instructor. (1 to 4)

SOCW 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

SOCW 498 : Capstone Proposal - SR

Students select a topic for their capstone, complete a preliminary literature review, and develop an outline for their final capstone, to be completed in SOCW 499. Prerequisites: SOCW 245, 350, and 360. (1)

SOCW 499 : Capstone: Senior Seminar - SR

This integrative seminar requires students to explore a field of generalist practice across all of the competencies of the social work profession, including reciprocal relationships between research and practice, the policies that impact practice, global perspectives, typical ethical issues, role of diversity, evidence-based interventions and ways they may evaluate their practice. This culminates in a paper and public presentation. Prerequisites: SOCW 245, 350, 360, 460, 475, 498, and SOCW 232 or SOCI 232. (3)

Statistics

253.535.7699 (Economics and Sociology & Criminal Justice)	253.535.7400 (Mathematics and Psychology)
--	--

Statistics (STAT), a branch of applied mathematics, studies the methodology for the collection and analysis of data and the use of data to make inferences under conditions of uncertainty. Statistics plays a fundamental role in the social and natural sciences, as well as in business, industry, and government. The Statistics program is offered cooperatively by the Departments of Economics, Mathematics, Psychology, and Sociology & Criminal Justice. The program is administered by an Interdisciplinary Statistics Committee comprised of the chairs or chair-appointed designees of the departments listed above and chaired by its Mathematics representative. The statistics minor is administered by the Department of Mathematics. Students interested in a statistics minor are encouraged to discuss course selection with a statistics faculty member from any discipline.

Minor

16 semester hours, including:

- CSCI 120 or 144; or DATA 133
- STAT 231, 232, or 233; or MATH/STAT 242
- And at least: 8 additional semester hours of statistics selected from BUSA 467, ECON 344, PSYC 242, MATH/STAT 342, MATH/STAT 348 (Additional courses may be approved by the chair of the Department of Mathematics.)

A maximum of 8 credit hours can simultaneously count towards both a statistics minor and a mathematics major. Courses taken for the statistics minor cannot be simultaneously used to satisfy a mathematics or actuarial science minor.

Statistics (STAT) - Undergraduate Courses

STAT 145 : Statistics for Biologists - QR

An introduction to statistics with a focus on topics and data relevant to biologists. Descriptive statistics and data representations, correlation and regression, experimental design, basic probability, binomial and normal distributions, confidence intervals, hypothesis testing, chi-squared test, ANOVA. Cross-listed with MATH 145. Prerequisite: MATH 140 or proficiency through MATH 140 as determined by the math placement exam. (4)

STAT 231 : Introductory Statistics - QR

Descriptive statistics: measures of central tendency and dispersion. Inferential statistics: generalizations about populations from samples by parametric and nonparametric techniques. Methods covered will include estimation, hypothesis testing, correlation analysis, regression, chi square, and ANOVA analysis. Includes a required computer lab. May not be taken for credit after MATH/STAT 242 has been taken. (4)

STAT 232 : Introductory Statistics for Psychology Majors - QR

Descriptive statistics: measures of central tendency and dispersion. Inferential statistics: generalizations about populations from samples by parametric and nonparametric techniques. Methods covered will include estimation, hypothesis testing, correlation analysis, regression, chi square, and ANOVA analysis. Includes a required computer lab. Students should register for the lab corresponding to their lecture section. This section is intended for psychology majors. Prerequisite: PSYC 101 or equivalent. (4)

STAT 233 : Introductory Statistics for Sociology, Criminal Justice, and Social Work Majors - QR

Descriptive statistics: measures of central tendency and dispersion. Inferential statistics: generalizations about populations from samples by parametric and nonparametric techniques. Methods covered will include estimation, hypothesis testing, correlation analysis, regression, chi square, and ANOVA analysis. Includes a required computer lab. Students should register for the lab corresponding to their lecture section. This section is intended for sociology, criminal justice, and social work majors. Prerequisite: SOCI 101 or equivalent. (4)

STAT 242 : Introduction to Mathematical Statistics - QR

Data description, probability, discrete and continuous random variables, expectation, special distributions, statements of law of large numbers and central limit theorem, sampling distributions, theory of point estimators, confidence intervals, hypothesis tests, regression (time permitting). Cross-listing with MATH 242. Previously was STAT/MATH 341. Prerequisite: MATH 151. (4)

STAT 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

STAT 342 : Probability and Statistical Theory

Continuation of STAT 242. Topics may include: joint and conditional distributions, correlation, functions of random variables, moment generating functions, Bayesian and non-parametric inference, convergence of distributions. Cross-listed with MATH 342. Prerequisite: MATH 152 and four hours from STAT 231, 232, 233, or MATH/STAT 242. MATH 253 (or concurrent enrollment) is strongly recommended. (4)

STAT 348 : Statistical Computing and Consulting

Topics include qualitative data analysis, as well as the use of R statistical software to create data visualizations and to conduct, present, and interpret statistical analyses such as multiple regression and nonlinear (e.g. logistic) regression. Students will learn about issues that arise when working with real data such as data cleaning, data preparation, ethical guidelines for statistical practice, and the logical connections between study design and the appropriate inferences that can be made. Statistical consulting strategies and communication of statistical ideas to nonstatistical clients will guide the course topics as students perform consulting services for peers, faculty, and/or the surrounding community. Cross-listed with MATH 348. Prerequisite: DATA 133, CSCI 144, or MATH 151, and one of MATH/STAT 145, 242, STAT 231, 232, or 233. Strongly recommended: Prior experience with the programming languages R or Python. (4)

STAT 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

STAT 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

STEM Education

253.538.6393	www.plu.edu/stem-education	munroam@plu.edu
Andrea Munro, Ph.D., Director		

There is a need for excellent teachers with strong content knowledge in Science, Technology, Engineering, and Mathematics (STEM) who are able to teach using culturally sustaining pedagogy. The STEM Education minor is supportive of, and connects to PLU's focus on diversity, justice, and sustainability and provides a program for students to explore teaching as a vocation. This interdisciplinary program is designed to guide students through courses in Education and Natural Sciences and includes service learning.

The STEM Education Minor, is well suited for any student interested in exploring the vocation of teaching or who enjoys science outreach and science communication. The coursework emphasizes content knowledge, culturally sustaining and relevant pedagogies, and effective communication. The STEM Education Minor will appeal to students majoring in the Natural Sciences who are interested in teaching. Students interested in pursuing a Master of Arts in Education will find the STEM Education Minor coursework aligns with the requirements for a middle level science endorsement, but that additional coursework will be needed. Students planning to pursue a Master of Arts in Education with a middle level science endorsement are encouraged to meet with an advisor in the School of Education.

Minor

20 semester hours, including:

- EDUC 205: Multicultural Perspectives in the Classroom (4)
- NSCI 350: STEM Education Partnership (4)

In addition, STEM Education minors must complete a minimum of 12 semester hours in the following areas:

Biology & Chemistry (4)

4 semester hours

Choose from the following courses:

- BIOL 225: Molecules, Cells, and Organisms
- BIOL 226: Genes, Evolution, Diversity, and Ecology
- CHEM 104: Environmental Chemistry
- CHEM 115: General Chemistry I
- CHEM 116: General Chemistry II

Geosciences & Physics (4)

4 semester hours

Choose from the following courses:

- GEOS 102: General Oceanography
- GEOS 103: Earthquakes, Volcanoes, and Geologic Hazards
- GEOS 104: Conservation of Natural Resources
- GEOS 105: Meteorology
- GEOS 106: Geology of National Parks
- GEOS 107: Global Climate Changes
- PHYS 110: Astronomy
- PHYS 125: College Physics I
- PHYS 126: College Physics II
- PHYS 153: General Physics I
- PHYS 154: General Physics II

Computer Science & Mathematics (4)

4 semester hours

Choose from the following courses:

- DATA 133: Introduction to Data Science I
- CSCI 144: Introduction to Computer Science
- MATH 123: Modern Elementary Mathematics I
- MATH/STAT 145: Statistics for Biologists
- MATH 151: Calculus I
- MATH 152: Calculus II
- MATH/STAT 242: Introduction to Mathematical Statistics
- MATH 319: Introduction to Proofs: Geometry
- MATH/EDUC 446: Mathematics in the Secondary School

Students are expected to work closely with STEM Education faculty advisors to ensure their program of study meets the requirements. Students may substitute a 4-credit NSCI 495 Internship for NSCI 350 at the discretion of the program chair. The program chair is the instructor for NSCI 495.

Up to eight (8) approved semester hours from supporting majors and minors can be applied to the STEM Education minor. At least 12 semester hours must be earned in residence at PLU.

NSCI 287 : Special Topics in NSCI

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

NSCI 350 : STEM Education Partnership Program

This course introduces students to STEM teaching and provides opportunities for gaining teaching experience in a K-8 classroom. Teams of students will partner with K-8 teachers to co-develop and co-teach classroom lessons. Topics include Next Generation Science Standards and Common Core Standards in Mathematics, STEM-specific teaching strategies, issues of classroom equity and access, and designing assessments of STEM learning. Prerequisites: Consent of instructor and completion of one of the following with a grade of C- or above: BIOL 226 or CHEM 116 or CSCI 270 or GEOS 201 or MATH 152 or PHYS 154/164. (4)

NSCI 387 : Special Topics in NSCI

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

NSCI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

Graduate Admission

253.535.8570	www.plu.edu/graduate/	gradadmission@plu.edu
---------------------	---	---

Pacific Lutheran University welcomes applications from students who exhibit capacities for success at the graduate level. Applicants must present evidence of scholastic ability and demonstrate qualities of good character in order to be accepted for admission. PLU reserves the right to admit, deny or withdraw admission for any applicant/student based on an individual's meeting these criteria. Admission decisions are made by the academic units in which the programs are located, and the decision may include consultation with the associate provost of graduate studies and continuing education. The communication of the admission decision is made by the graduate admission office. Applications for admission are evaluated without regard to race, color, creed, religion, gender, national origin, age, mental or physical disability, marital status, or sexual orientation.

Students seeking admission to any graduate or certificate program must hold a bachelor's degree from a regionally-accredited college or university or recognized international university at the start of the PLU graduate program. Applicants for the M.F.A. in creative writing may hold a bachelor's degree or equivalent qualifications. Students who meet or exceed all program requirements for admission are eligible to be considered for admission as regular status students. Students who present credentials below general standards for graduate study, who also exhibit potential for academic success, may be admitted as provisional status students. Provisionally-admitted students must complete eight or more semester hours of graduate work in the first term, as determined by the program, with a cumulative grade point average of 3.00 or higher to be granted regular status.

At the minimum, all application evaluations are based on scholastic qualifications, a statement of professional goals or essay, letters of recommendation, and preparation in the proposed field of study. Some graduate programs may require additional evidence for admission including, but not limited to, autobiographical statements, personal interviews, standardized tests, or other evidence of professional accomplishment. Listings for each program detail these additional admission requirements.

Refer to individual programs for application deadlines and prerequisites. Application materials are available from the Office of Graduate Admission, or via the website at www.plu.edu/graduate/.

Application Requirements (Graduate)

Doctor of Education in Educational Leadership

- A master's degree, in any major, from a regionally accredited institution with a cumulative GPA of 3.0 or higher
- For Ed.D. plus Superintendent Credential:
 - Valid Washington State teaching, administrator, or ESA certificate
 - Three years of building or district level leadership experience
- For Superintendent to Ed.D.:
 - Washington State Superintendent Certificate completed at a Professional Educator Standards Board approved superintendent program
 - Applicants who have completed superintendent credentials in other states may be able to transfer courses based on a course-by-course review
- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- Résumé
- Personal statement

Doctor of Nursing Practice

BSN to DNP

- A Bachelor of Science in Nursing from a regionally accredited institution with a cumulative GPA of 3.0 or higher

MSN to DNP

- Master of Science in Nursing from a regionally accredited institution with a cumulative GPA of 3.0 or higher

Additional Requirements for both pathways

- Current, unencumbered WA State RN license
- Completion of college-level statistics (both descriptive and inferential) with a 3.0 (B) or better
- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- Résumé
- Statement of professional goals

Master of Arts in Marriage and Family Therapy

- A bachelor's degree from a regionally accredited institution with a major in Family Studies, Human Services, Psychology, Sociology, Social Work, or the equivalent or a minimum of 15 semester hours (22.5 quarter hours) in Family Studies, Human Services, Psychology, Sociology, Social Work, or the equivalent
- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- Résumé
- Personal statement
- Interview, if invited
- Official TOEFL or IELTS score report (*for international applicants only*)

Master of Education Residency Certification and M.A.E. Alternative Routes

Standard Application

- A bachelor's degree, in any major, from a regionally accredited institution with a cumulative GPA of 3.0 or higher
- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation, one of which speaks to the applicant's work with youth
- Résumé
- Application essay
- Score reports on the WEST-B or equivalent
- Interview, if invited
- Post-admission requirements (if admitted):
 - A passing score (240) on the WEST-E and (220) on the NES (or equivalent)
 - Completion of all content coursework
- Official TOEFL or IELTS score report (*for international applicants only*)

Master of Business Administration

Standard Application

- A bachelor's degree, in any major, from a regionally accredited institution with a cumulative GPA of 3.0 or higher
- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- GRE or GMAT scores (*Optional*)
- Résumé
- Personal statement of educational and professional goals
- Official TOEFL or IELTS score report (*for international applicants only*)

Fast Track Application is for students and alumni from the following schools:

- Pacific Lutheran University
- Any AACSB-accredited school
- Any Bachelor of Applied Science program at a community or technical college in Washington State
- University of Puget Sound's Master of Public Health and Master of Education in Counseling programs

For Fast Track application and maintenance of Fast Track requirements as outlined by the School of Business, contact the program director.

Master of Fine Arts - Low Residency Creative Writing

- Online application
- Application fee (non-refundable)
- Two letters of recommendation
- Personal statement
- A creative writing sample
- A 500-word literary critique
- **Note:** Official transcript(s) of the highest previous degree earned do not need to be sent with the application. Transcripts will be requested of a student upon notification of pending acceptance.

Master of Science in Kinesiology

Standard Application

- A bachelor's degree, in any major, from a regionally accredited institution with a cumulative GPA of 3.0 or higher
- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- Résumé
- Personal statement
- Official TOEFL or IELTS score report (*for international applicants only*)

Fast Track Application is for students and alumni from University of Puget Sound's Master of Public Health and Master of

Education in Counseling programs.

For Fast Track application and maintenance of Fast Track requirement, as outlined by the Office of Graduate Admission, contact gradadmission@plu.edu for details.

Master of Science in Marketing Analytics

Standard Application

- A bachelor's degree, in any major, from a regionally accredited institution with a cumulative GPA of 3.0 or higher
- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- GRE or GMAT scores (*Optional*)
- Résumé
- Personal statement of professional goals and quantitative skills
- Official TOEFL or IELTS score report (*for international applicants only*)

Fast Track Application is for students and alumni from the following schools:

- Pacific Lutheran University
- Any AACSB-accredited school
- Any Bachelor of Applied Science program at a community or technical college in Washington State
- University of Puget Sound's Master of Public Health and Master of Education in Counseling programs

For Fast Track application and maintenance of Fast Track requirements as outlined by the School of Business, contact the program director.

Master of Science in Nursing

Entry-Level MSN

- (for Entry-Level MSN only) A bachelor's degree, in any major, from a regionally accredited institution with a cumulative GPA of 3.0 or higher
- Completion with a minimum grade of 3.0 (b) or better in each prerequisite course (see program website for requirements)
- Official TOEFL or IELTS score report (*for international applicants only*)

BSN to MSN

- A Bachelor of Science in Nursing from a regionally accredited institution with a cumulative GPA of 3.0 or higher
- Current, unencumbered WA State RN license
- Completion of college-level statistics (both descriptive and inferential) with a 3.0 (B) or better on a 4.0 scale

Additional Requirements for both pathways

- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- Résumé
- Statement of professional goals

Post-Graduate Nurse Practitioner Certificate

- Current, unencumbered WA State RN license or WA Advanced Registered Nurse Practitioner (ARNP) certification
- For Family Nurse and Psychiatric Mental Health NP Certificates
 - For candidates with an ARNP certification, a master's degree or above from a nationally-accredited school of nursing
 - For candidates with a RN license, a doctoral degree in any field from a nationally-accredited school
- For Emergency Nurse Practitioner certificate
 - Current, unencumbered WA State Advanced Registered Nurse Practitioner (ARNP) license or eligible to obtain WA state licensure
 - A current Family Nurse Practitioner (FNP) certification
 - Completion of prerequisites (see program website for requirements)

- Online application
- Application fee (non-refundable)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- Résumé
- Statement of professional goals

All records become part of the applicant's official file and can be neither returned nor duplicated for any purpose.

An offer of admission is good for one term in all graduate programs. Admitted students who have not enrolled in any coursework for the admitted term must reapply for another term or request permission for deferral. Approval for deferral is subject to the discretion of each program.

Accepting the Offer of Admission (Graduate)

All graduate and certificate students must do the following to officially accept the offer of admission.

Make the Advanced Tuition Payment

A non-refundable \$300 advanced tuition payment is required for all graduate students. This payment is the student's acknowledgment of acceptance and is credited to the student's account to be applied toward tuition for the first term of enrollment.

Submit Required Acceptance Forms

Submit online confirmation of acceptance of admission, which includes acknowledgment of all policies, advisements, and conditions of acceptance. Additional acceptance and acknowledgment forms may be required by individual programs.

International Student Application Requirements and Admission (Graduate)

In addition to the requirements applicable to all students, the following documents are necessary before an application for an international student can be processed:

Translation and Evaluation of Transcripts

Students applying with coursework and degrees from institutions outside the U.S. must submit the following documents:

- Official transcripts from each college or university attended in the past and present.
- Copy of university/college degree diploma
- English translations provided by PLU approved translation services if the transcripts and documents are in a language other than English.
- PLU reserves the right to request further evaluation by an approved credential evaluation agency. Refer to individual program websites for the list of approved evaluation agencies.

Demonstrated University-level Proficiency in the English Language

Proficiency in English is required for graduate study at Pacific Lutheran University. Applicants whose native language is not English must demonstrate English language proficiency.

Proficiency can be demonstrated by the official score from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). See below for the minimum requirements for each graduate program.

The English proficiency requirement can also be met if applicants have completed one of the following:

1. A bachelor's, master's, or doctoral degree from a regionally-accredited institution in the United States.
2. A baccalaureate degree or higher from a recognized college or university in an English-speaking country or region, including Australia, Canada (other than Quebec), Great Britain, Ireland, or New Zealand.
3. Both primary and secondary education in an English-speaking country or region, including Australia, Canada (other than Quebec), Great Britain, Ireland, New Zealand, or the United States. Students are considered to be a native English speaker.
4. A recognized Intensive English Program (IEP) in the United States and received an English proficiency level equivalent to the required minimum TOEFL/IELTS scores of the applied program.

Other waiver conditions may be allowed subject to the determination of individual graduate programs.

Minimum TOEFL or IELTS requirements are as follows:

- **Business**
 - **Master of Business Administration:** Minimum TOEFL-iBT of 83 or minimum IELTS score of 6.5.
 - **Master of Science in Marketing Analytics:** Minimum TOEFL-iBT of 83 or minimum IELTS score of 6.5.
- **Creative Writing**
 - **Master of Fine Arts in Creative Writing:** Minimum TOEFL-iBT score of 80 or minimum IELTS score of 6.5.
- **Education**
 - **Master of Arts in Education Non-Certification:** Minimum TOEFL-iBT score of 88 or minimum IELTS score of 6.5. All other programs: Minimum TOEFL-iBT score of 80 or minimum IELTS score of 6.5.
- **Kinesiology**
 - **Master of Science in Kinesiology:** Minimum TOEFL-iBT score of 80 or minimum IELTS score of 6.5.
- **Marriage and Family Therapy**
 - **Master of Arts (Marriage and Family Therapy):** Minimum TOEFL-iBT score of 80 or minimum IELTS score of 6.5.
- **Nursing (Master of Science in Nursing, Doctor in Nursing Practice, and Post-Graduate Nurse Practitioner Certificate)**

- Minimum combined TOEFL-iBT score of 86, with minimum individual scores of 26 in speaking, 20 in writing, 20 in reading, and 20 in listening or minimum IELTS (academic version) band score of 6.5, with a minimum individual band scores of 8 speaking, 5.5 writing, 6.5 reading, and 6.5 listening. The proof of English proficiency requirement is waived for applicants who hold current unrestricted United States Registered Nurse licensure.

Note: International students who do not meet the English language proficiency requirements are encouraged to join the University community through the International Pathways Program (IPP). See details in the International Pathway Program (Graduate Studies) section.

I-20 Processing

An I-20 form (Certificate of Eligibility for Non-immigrant Student Status) will be issued only after the student has been admitted and paid the non-refundable \$300.00 advanced tuition payment and has returned all required acceptance forms. The I-20 form should be taken to the U.S. Consulate when requesting a visa to come to the United States for a graduate program. The following items are not required for the application to be considered for admission, but are required prior to issuance of an I-20. To expedite admission processing, applicants should consider submitting the following with application documents:

- Declaration of Finances form, including proof of financial support. Certification of finances from banks or embassies is permissible.
- Copy of passport picture page
- Address and associated phone number to which to send the I-20 via courier service

International Student Arrival and Enrollment Requirements

International students are required by immigration regulations to enroll as full-time students (a minimum of 8 credit hours per semester for graduate studies). Students are also required to submit the appropriate medical forms to the university's Health Services. Students may also be required to have a physical exam.

Before enrolling for classes, all international students are required to have health and medical insurance, which is obtained through the University after arrival on campus.

International students must also report to International Student Services (253.535.7264).

International Pathway Program (Graduate Studies)

International students who do not meet the English language proficiency requirement for admission to the PLU graduate program of their interest are encouraged to join the University community through the International Pathway Program (IPP).

To be admitted to this program, students must have a Bachelor's degree or equivalent and are required to submit the following:

- A completed IPP application.
- Official transcripts from all colleges or universities attended in the United States, home country, or other country
- Copy of university/college degree diploma
- Evidence of English proficiency:
 - Test of English as a Foreign Language (TOEFL) with a minimum score of 60 or
 - International English Language Testing System (IELTS) with a minimum score of 5.5
- A completed International Student Declaration of Finances.

Students have up to nine months to complete the IPP. Upon completion of the IPP, students will be considered for admission to graduate study at PLU. For more information, please contact the Director of Graduate Admission at 253.535.8570 or email to gradprograms@plu.edu.

Graduate and Post-Baccalaureate Policies and Programs

Degrees and Certificates

Pacific Lutheran University offers graduate and post-baccalaureate certificate programs in advanced professional education within a context of the liberal arts tradition. Graduate degree programs in business, marketing analytics, creative writing, education, marriage and family therapy, kinesiology, social work, and nursing challenge students to increase their understanding and competence in theory, research and practice. Graduates are prepared to become thoughtful and effective leaders in their professions and communities. Graduate students have the opportunity to study in unusually close and supportive working relationships with full time doctorally-prepared faculty and professionally qualified part-time practitioners.

Business

The **Master of Business Administration (M.B.A.)** can be completed full- or part-time in as little as nine months. The M.B.A. is available to students from any academic background and includes a required 10-day faculty-led international experience. Students choose between tracks in Business Administration or Management Science and Quantitative Methods. The Business Administration track focuses on strategy, innovation, and effective decision making. In Management Science and Quantitative Methods, students will be introduced to the quantitative methods used in all areas of Business Analytics. Students may also choose to earn an emphasis with their degree in Entrepreneurship and Closely-Held Enterprise, Healthcare Management, Supply Chain Management, or Technology and Innovation Management. The M.B.A. is accredited by AACSB International—The Association to Advance Collegiate Schools of Business.

The **Master of Science in Marketing Analytics (M.S.)** is a STEM-designated program that offers an intimate, advanced learning environment, hands-on experience with clients and a healthy balance of rigor and support. The MSMA is offered as a fully online program or a hybrid program, which includes some on-campus classes. Through coursework, multiple client projects within industry and capstone consulting research with a regional or national company, MSMA candidates develop knowledge, skills and experience attractive to employers. The M.S. is accredited by AACSB International—The Association to Advance Collegiate Schools of Business.

Creative Writing

The **Master of Fine Arts (M.F.A.)** is a 36-month low-residency program in the fields of poetry, fiction and creative nonfiction intended for those wishing to develop and pursue careers as writers. M.F.A. students are on campus for a ten-day residency each summer, and work from home with a faculty mentor for the rest of the academic year. As part of Pacific Lutheran University, the M.F.A. program is accredited by the Northwest Commission on Colleges and Universities (NWCCU).

Education

The **Doctor of Education (Ed.D.)** in Educational Leadership is designed for working school leaders to obtain their Ed.D. in three years. The Ed.D. with Washington Superintendent Certification option includes a year-long internship in a P-12 district. Students in this pathway are eligible for the Superintendent certificate at the end of the second summer and can complete all degree requirements in three years. The second option provides a pathway for certified Superintendents to complete a doctoral degree within a three-year time frame.

The **Master of Arts in Education (M.A.E.)** with Teacher Certification can be completed in 12 months. Students complete a year-long internship in a local school and take classes in the late afternoons and evenings and a few Saturdays. An Alternative Routes Teacher Certification program can be completed in 10-12 months. It is designed for non-certificated paras and teachers working in schools in subject areas with known shortages. Most classes are on Saturdays and online. A second year of coursework is required to earn a master's degree in education.

Kinesiology

The **Master of Science in Kinesiology (M.S.)** can be completed in 14 months. The practitioner focused program blends strong theoretical knowledge with real-world application. Courses begin in the summer, extend through the academic year and conclude the following summer. Most classes are face-to-face in the evenings and on weekends, with some classes using a hybrid format.

This program is currently on hiatus.

Marriage and Family Therapy

The **Master of Arts (M.A.)** in Marriage and Family Therapy (MFT) is a 24- to 28-month program that trains students to practice

therapy from a systemically oriented, contextually competent worldview. The MFT program trains students to address a wide range of clinical concerns impacting individuals, couples, and families. Classes in the first year are typically twice a week, 3:00 to 6:30 p.m., with increasing time commitments in the second year. The M.A. MFT program is accredited by the Commission on Accreditation for Marriage and Family Therapy Education of the American Association for Marriage and Family Therapy.

Nursing

The **Doctor of Nursing Practice (D.N.P.)** is designed for nurses seeking a terminal degree at the highest level of nursing practice. The sequence of study recognizes the academic and professional success of the baccalaureate degree as the groundwork for graduate study. The Doctor of Nursing Practice degree prepares graduates in the advanced practice specialty area of Family Nurse Practitioner or Psychiatric Mental Health Nurse Practitioner. PLU also offers post-master's options for master's-prepared nurses who wish to complete the Family Nurse Practitioner or Psychiatric Mental Health Nurse Practitioner specialty and for advanced practice nurses who wish to complete the DNP. The DNP program is accredited by the Washington State Nursing Care Quality Assurance Commission and by the Commission on Collegiate Nursing Education (CCNE) (<http://www.ccneaccreditation.org/>).

The **Master of Science in Nursing (M.S.N.)** offers two pathways to entry. The Entry Level Master of Science in Nursing is a 27-month program designed for those with a non-nursing bachelor's degree. Classes are typically full-time, during the 15-month pre-licensure portion, and Thursday evenings and all day Fridays during the 12-month post-licensure portion of the program. The Master of Science in Nursing Care and Outcomes Manager is a 12-month program for registered nurses (RN) holding a Bachelor of Science in Nursing (BSN) who wish to further their education. Classes are typically Thursday evenings and all day Fridays. The PLU MSN program is accredited by the Commission of Collegiate Nursing Education (CCNE) (<http://www.ccneaccreditation.org/>) and Washington State Nursing Care Quality Assurance Commission.

Certificate Programs

- Certificate Programs Offered in Business
 - Certificate in Technology and Innovation Management
 - Certificate in Healthcare Management
 - Certificate in Entrepreneurship and Closely-Held Enterprises
 - Certificate in Supply Chain Management
 - Post-Baccalaureate Certificate in Accounting
- Coursework Leading to Certification in Education
 - Master of Arts in Education with Certification
 - Post-Master's Principal Certification
 - Doctor of Education in Educational Leadership with Superintendent Certification
- Certification Programs Offered in Nursing
 - Post-Graduate Certificate in Family Nurse Practitioner (FNP)
 - Post-Graduate Certificate in Psychiatric Mental Health Nurse Practitioner (PMHNP)
 - Post-Graduate Certificate in Emergency Nurse Practitioner (ENP)

Policies and Standards (Graduate)

Classification of Students

Students may be granted regular or provisional admission to graduate programs, which may come with conditions. Some students may be granted admission with conditions. Students are also classified as full-time or part-time depending on their semester hours of enrollment.

- **Regular Admission:** Students who meet or exceed all program requirements for admission are eligible to be considered for admission as regular status students.
- **Provisional Admission:** Students who present credentials below general standards for graduate study, who also exhibit potential for academic success, may be admitted as provisional status students. Students must complete eight or more semester hours of graduate work, as determined by the program, with a cumulative grade point average of 3.00 or higher to be granted regular status.
- **Conditional Status:** Students who apply for graduate or post-baccalaureate studies before completing undergraduate work or have unmet requirements are admitted with conditions. Although admitted to the program, coursework and/or student placements cannot begin until the conditions of acceptance have been met.
- **Non-Matriculated Students:** Students holding bachelor degrees who wish to pursue graduate coursework and are not admitted to a graduate program are classified as non-matriculated students. Note that many programs do not allow non-matriculated student enrollment and that non-matriculated students may take a maximum of nine semester hours of 500-level courses. Non-matriculated students may take an unlimited number of continuing education hours. Enrollment in a graduate program as a non-matriculated student requires approval from the dean or his/her designee (e.g., program director).

Enrollment Status

- **Full-time enrollment:** eight or more semester hours in fall, spring, or summer.
- **Half-time to three-quarter time enrollment:** four to seven semester hours in fall, spring or summer.

Change of Student Status

- **Provisional to Regular:** Student status will be changed from provisional to regular after the completion of eight or more semester hours of graduate work, as determined by the program, with a cumulative grade point average of 3.00 or higher.
- **Non-Matriculated to Regular/Provisional:** Student status will be changed from non-matriculated to regular/provisional after the non-matriculated student completes the normal application process and is accepted into a program. Credit earned during non-matriculated classification may count toward a graduate degree, but only as recommended by the dean or his/her designee (e.g., program director), and approved by the associate provost for graduate studies and continuing education after the student has been admitted to a degree program. No such credit can be counted that carries a grade lower than B-.
- **Conditional Status Removed:** Once all conditions of admission are met, the conditional status is removed.

Advising

Upon admission each student will be assigned an advisor within the academic unit for which they have been admitted. Students are required to meet with their advisors early in their programs.

Hours Required for the Master's Degree

A minimum of 32 semester hours is required. Individual programs may require more than the minimum number of semester hours, depending upon prior preparation and specific degree requirements. Any prerequisite courses taken during the graduate program shall not count toward fulfillment of graduate degree requirements.

Hours Required for the Doctor of Nursing Degree

A minimum of 79 semester hours are required for the Family Nurse Practitioner concentration, and a minimum of 90 semester hours are required for the Psychiatric Mental Health Nurse Practitioner concentration. Post-master's students may apply previous graduate level nursing coursework toward the requirement, based on approval of the courses by the dean or his/her designee (e.g., program director).

Graduate work from another institution may be accepted for transfer upon petition by the student and approval by the dean or his/her designee (e.g., program director). Eight semester hours may be transferable to a 32-semester-hour program. In degree programs requiring work beyond 32 semester hours, more than eight semester hours may be transferred. In any case, a master's student must complete at least 24 semester hours of the degree program at Pacific Lutheran University.

Transfer of credit for the Doctor of Nursing Practice is determined by a gap analysis conducted by the dean or his/her designee (e.g., program director), with a minimum of 30 semester hours of the degree program completed at Pacific Lutheran University.

Residency Requirement

All candidates for the master's degree must complete 24 semester hours of PLU courses. A Doctor of Nursing Practice student must complete at least 30 semester hours at Pacific Lutheran University.

Time Limit for Completion of Degree

All requirements for the master's degree, including credit earned before admission, must be completed within seven years. The seven-year limit covers all courses applied to the master's degree, credit transferred from another institution, and thesis, if applicable. The seven-year limit begins with beginning date of the first course applicable to the graduate degree.

All requirements for the Doctor of Nursing Practice degree must be completed within seven years from date of matriculation. Post-master's Doctor of Nursing Practice may transfer credit from another institution older than seven years upon the approval of the dean or his/her designee (e.g., program director).

A student who leaves the program and wants to apply for re-entry should contact their respective graduate program director for policy and procedure.

Courses Acceptable for Graduate Credit

All 500- and 600- numbered courses described in this catalog are graduate level. A maximum of four semester hours of continuing education credit may be accepted toward a master's degree. This applies to continuing education credit taken at PLU or transferred from another university. The School of Business and the School of Nursing do not accept continuing education coursework. All courses accepted for any master's degree are subject to the approval of the dean or his/her designee (e.g., program director) and the associate provost for graduate studies and continuing education.

All required undergraduate level coursework in nursing (or its equivalent) in the Entry-Level Master of Science in Nursing Program is considered part of the Entry-Level M.S.N. graduate program.

Graduate Credit for PLU Seniors

If during the last semester of the senior year a candidate for a baccalaureate degree finds it possible to complete all degree requirements with a registration of fewer than 16 semester hours of undergraduate credit, registration for graduate credit may be permissible. However, the total registration for undergraduate requirements and elective graduate credit shall not exceed 16 semester hours during the semester. A memorandum stating that all baccalaureate requirements are being met during the current semester must be signed by the appropriate department chair or school dean and presented to the associate provost for graduate studies and continuing education at the time of such registration. This registration does not apply toward a higher degree unless it is later approved by the student's graduate program advisor and/or advisory committee.

Procedure for Transfer of Credits/Petition for Program Changes

It is the student's responsibility to formally petition the graduate program's dean or his/her designee (e.g., program director) for transfer credit, change of program or advisor, or any exception to policy.

Standards of Work

The cumulative minimum standard acceptable for the master's degree or Doctor of Nursing Practice degree is a grade point average of 3.00 in all graduate work. In addition, graduate-level credit will not be given for any class in which the grade earned is lower than a C (2.00). Some programs may require earned grades to be higher than a C (see individual program section or program handbook).

Academic Probation and Dismissal

A student pursuing the master's degree or Doctor of Nursing Practice degree who fails to maintain a cumulative grade point average of 3.00 will be placed on academic probation. If in a subsequent term the student earns a cumulative grade point average of at least 3.00, academic probation status will be removed. A graduate student on probation who fails to attain a cumulative grade point average of 3.00 in the next term of enrollment may be dismissed from the program. A graduate student cannot earn a master's or Doctor of Nursing Practice degree with less than a 3.00 cumulative grade point average in all graduate-level work.

Appeal Process

A student who wants to appeal probation or dismissal decisions should contact their respective graduate program director for policy and procedure.

Academic Integrity

Both the value and the success of any academic activity, as well as the entire academic enterprise, have depended for centuries on the fundamental principle of absolute honesty. The University expects all its faculty, staff, and students to honor this principle scrupulously.

Since academic dishonesty is a serious breach of the universally recognized code of academic ethics, it is every faculty member's obligation to impose appropriate sanctions for any demonstrable instance of such misconduct on the part of a student.

The University's policy on academic integrity and its procedures for dealing with academic misconduct are detailed in the PLU Student Handbook at www.plu.edu/student-handbook/. Some graduate programs provide program-specific information and processes regarding academic integrity in their program handbooks. Students may be subject to dismissal from a graduate program for violating program-specific professional and academic standards.

Class Attendance and Participation

The University assumes that all registered students have freely accepted personal responsibility for regular class attendance. Course grades reflect the quality of students' academic performance as a whole, which normally includes regular participation in the total class experience and is evaluated accordingly. Absences may lead to a reduction of a student's final grade. In the event of unavoidable absence, students are expected to inform the instructor. Assignment of make-up work, if any, is at the discretion of the instructor.

Students unable to attend the first class meeting must notify the instructor prior to the first class. Students who miss the first two class meetings may be dropped from the class by the instructor; students who are dropped for non-attendance after the posted drop deadline for any semester or term will be charged the late registration fee. Faculty must notify the Office of the Registrar in order to drop the student.

Grading System

Students are graded according to the following designations:

Grade	Points Per Hour
A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
C-	1.67
D+	1.33
D	1.00
D-	0.67

E	0.00
---	------

In most programs, a C (2.00) or better is adequate to meet program requirements. Some programs require minimum grades to be higher than a C (2.00). See individual program sections of the catalog and program handbooks for this requirement. The grades listed below are not used in calculating grade point averages. No grade points are earned under these designations.

Grade	Description	Credits Awarded
P	Pass	Yes
F	Fail	No
I	Incomplete	No
IP	In Progress	No
AU	Audit	No
W	Withdrawal	No
WM	Medical Withdrawal	No
NG	No Grade Submitted	No

Pass (P) and Fail (F) grades are awarded to students who enroll in exclusive pass/fail courses. These grades do not affect a student's grade point average.

Grade Changes

Faculty may not change a grade once it has been recorded in the registrar's records unless an error was made in assigning the original grade. The error must be reported to the Office of the Registrar by the end of the following semester after which it was entered (by the Spring grade submission deadline for Fall and January, and by the Fall grade deadline for Spring and Summer). Any grade change requested after the designated date must be approved by the respective dean or his/her designee (program director). The Grade Change policy does not apply to I or IP grades, which are subject to separate policies.

Incomplete Grades

Incomplete (I) grades indicate that students did not complete their work because of circumstances beyond their control. To receive credit, all work must be completed and a passing grade recorded. Incompletes from Spring Semester and the Summer Term are due six weeks into the Fall Semester. Fall Semester and J-Term incompletes are due six weeks into the Spring Semester. Faculty may assign an earlier deadline for completion of the work by the student. The earned grade is recorded immediately following the I designation (for example, IB) and remains on the student record. Incomplete grades that are not completed are changed to the default grade assigned by the instructor when the incomplete grade is awarded at the end of the term. If a default grade was not indicated, the incomplete grade will be defaulted to an E or F grade upon expiration of the time limit for submitting grades for an incomplete from that term. An incomplete does not entitle a student to attend the class again without re-enrollment and payment of tuition. An incomplete contract is available and may be required by the faculty member.

In-Progress Grades

In-Progress (IP) grade signifies progress in a course that normally runs more than one term to completion. In Progress carries no credit until replaced by a permanent grade. A permanent grade must be submitted to the Office of the Registrar within one year of the original IP grade submission. Any IP grade that is not converted to a permanent grade within one year will automatically convert to an Incomplete (I) and will then be subject to the policy governing Incomplete grades.

Medical Withdrawal

Medical Withdrawal is entered when courses are not completed due to medical cause. A medical withdrawal does not affect a student's grade point average, but may affect timely completion of the degree. See section on Medical Withdrawal Policy.

No Grade (NG)

A temporary grade entered by the Office of the Registrar when no grade has been submitted by the faculty member by the established deadline.

Registration Procedures

Requirements Prior to Registration

Before a graduate or post-baccalaureate student can register for classes, the student must:

- Submit the non-refundable advance tuition deposit or statement of intent to register form
- Submit the required medical history form
- Submit the online payment contract
- If applicable, remove any holds on the student account

Registration Process

Depending on the graduate program, students will either register themselves or be registered by the program administrator. Information about registration processes (including acceptance of financial aid if applicable, and online payment contracts) is provided by Student Financial Services. Students are emailed basic registration information by the University prior to each registration period. Students may contact Student Financial Services with registration questions at 253.535.7161 or by email at sfs@plu.edu.

Adding or Dropping a Course

All add or drop activity must be completed by the listed add/drop deadline for the specific term or semester. All students are encouraged to consult with their academic advisor prior to making any significant schedule changes. Please go online to www.plu.edu/registrar/ for the most current information. Students may add a course without an instructor signature only during the first five business days of a full or half semester-length class. A student may drop a course without an instructor's signature only during the first ten business days of a full semester-length class or of a half semester-length class. In most cases, adding and dropping can be accomplished using Banner Web. To add/drop a course after classes have started in any other term, see dean or his/her designee (e.g., program director). Any registration changes may result in additional tuition charges and fees and may also affect the student's financial aid (if applicable). A \$100 late registration fee is charged for any registration changes after the published deadline dates.

Auditing Courses

To audit a course requires the permission of the instructor and enrollment is on a non-credit basis. An auditor is not held accountable for examinations or other written work and does not receive a grade. If the instructor approves, the course grade will be entered on the transcript as audit (AU). Auditing a class is the same price as regular tuition.

Repeating a Course

A graduate student may repeat a course only once. Please note that specific programs may prohibit repeating a course. If a course is repeated, the student's cumulative grade point average is computed using the highest of the grades earned.

Withdrawals

Official Withdrawal From a Course

A student may withdraw from a class with an instructor's signature after the add/drop deadline and before the withdrawal deadline of the specific term. Tuition is not refunded and any additional tuition will be charged for adding any other classes. A grade of W is recorded on the student's academic transcript.

If a student is enrolled in a class, has never attended and did not drop the course before the published deadline, tuition will be charged to the student's account, unless the instructor's signature has been obtained. If the student obtains the instructor's signature, tuition is not charged, but a \$100 late registration fee is assessed. In addition, there may be an impact on financial aid, if applicable.

The add/drop form may be obtained from Student Financial Services, filled in, instructor signature obtained, and returned to Student Financial Services by the appropriate dates that impact fee assessment. The add/drop form may also be found online at <https://www.plu.edu/registrar/documents/>.

Withdrawal from the University

- Term Withdrawal

Students are entitled to withdraw honorably from the University if their record is satisfactory and all financial obligations are satisfied. Students must complete and sign the "Notification of Student's Withdrawal" form in Student Financial Services. The student should also notify the graduate program advisor or administrator. Partial tuition refunds may be available depending on when the student withdraws. Refer to the [Tuition Information](#) section of this catalog for more

information. Grades of W will appear on the student's transcript for the term.

▫ Future Term Withdrawal

Students are required to notify PLU and the dean or his/her designee (e.g., program director) if they do not plan to return for the following term. Students are entitled to withdraw honorably from the University if their record is satisfactory and all financial obligations are satisfied. Students must complete and sign the [Notification of Student Withdrawal](#) form in Student Financial Services. Students who do not follow the above policy for withdrawal may not re-enter the program without a petition approved by the program director and dean.

▫ Medical Withdrawal

Students may petition to withdraw completely from the University for a term for medical reasons. The student must complete a Medical Withdrawal Petition, provide written evidence from a qualified health care professional and a personal explanation to the vice president for student life. This must be completed in a timely manner and in no case later than the last day in any given term. If granted, the grade of WM will appear on the student's transcript. Qualified health care professional clearance is required prior to re-enrollment.

For more information contact Office of Student Life, 105 Hauge Administration Building, 253.535.7191 or slif@plu.edu.

Thesis

Some programs require the completion of a thesis; others may allow a thesis option. Those students writing theses must submit their original theses for binding and microfilming by ProQuest of Ann Arbor, Michigan. In addition, a dissertation services publishing form and an abstract of 150 words or fewer must be submitted with the publishing fee, to the Office of the Provost and Associate Provost for Graduate Studies and Continuing Education, no later than three weeks before graduation. Fees for microfilming, publishing abstracts, and binding original theses for the permanent PLU library collection are paid by students (see [Charges, Fees, & Fines](#)).

Graduation and Commencement

All courses must be completed, final grades recorded, examinations passed, and thesis/research requirements fulfilled in order for a degree to be awarded. Graduate students must apply for graduation by the following dates:

Degree Completion Term	Application Deadline
December 2023	October 2, 2023
January 2024	December 1, 2023
May 2024	March 1, 2024
August 2024	June 3, 2024

Note: The thesis/research paper(s) must be signed by the thesis advisor and have been read by the entire committee before submission to the Office of the Provost and Associate Provost for Graduate Studies and Continuing Education. Graduation Application is done through the student's Banner Self-Service account.

Immunization Policy

All graduate students are required to submit a Health History and Consent form including documented record of two measles, mumps and rubella (MMR) immunizations after their first birthday. Documentation consists of official records signed by a health care professional. Those born before January 1, 1957 are exempt from immunization information, but still must complete the form. Students in compliance are considered cleared. Those students not in compliance are placed on medical hold and will not be allowed to register, drop or change classes after their initial (entry) registration.

Some International students are required to have a tuberculosis skin test which is administered by Health Services after arrival at the University. Please refer to the following link for a list of exempt countries: www.plu.edu/iss/life-at-plu/insurance-and-medical. International students are required to purchase the PLU International Student Health Insurance policy unless they have submitted a waiver form to their insurance company and the completed form is received by the PLU Health Center by the 10th day of the first class.

The Master of Science in Nursing and Doctor of Nursing Practice have additional health requirements.

Responsibilities and Deadlines

It is the responsibility of each graduate or post-baccalaureate student to know and follow the procedures outlined in this catalog

and to abide by established deadlines.

Students must read and abide by:

- *Graduate Programs; Policies and Standards* as stated in the PLU Catalog
- *University Guidelines* as stated in the PLU Catalog
- Guidelines and procedures as set forth by the individual program

Students must:

- Upon acceptance, meet with the assigned advisor as soon as possible to establish the program of study.
- Register for thesis as required. Deadline: The last acceptable registration date in the semester in which the student expects to receive his or her degree.
- Apply for graduation. File the application for graduation through Banner Web. Students are responsible for ordering their own cap, gown, and hood.
- *Note: If a student fails to complete the necessary requirements for graduation, the application for graduation will not automatically be forwarded to the next graduation date. Rather, a student must reapply for the subsequent graduation date, submitting all fees.*
- Submit thesis in final form to Office of the Provost and Associate Provost for Graduate Studies and Continuing Education three weeks prior to graduation. At this time the binding/microfilming fee must be paid.
- The information contained herein regarding Pacific Lutheran University is accurate at the time of the publication. However, the university reserves the right to make necessary changes in procedures, policies, calendar, curriculum, and costs at its discretion. Not all courses are offered each academic year, and faculty assignments may change. Any changes will be reflected on the university Web site at <https://www.plu.edu/catalog/>.

Doctor of Education (Ed.D.)

253.535.7272	www.plu.edu/education/	educ@plu.edu
Allison Drago, Ed.D., Associate Dean		

The Ed.D. in Educational Leadership prepares school leaders to meet the demands of school and district leadership. The program equips leaders to implement programs, policies, and practices to improve outcomes for all students.

Students can apply to one of two options within the doctorate of education:

1. The Ed.D. with Washington Superintendent Certification includes a year-long internship in a P-12 district. Candidates are eligible for the Superintendent certificate at the end of the second summer. Candidates can complete all degree requirements within a three-year time frame.
2. The second option provides a pathway for certified Superintendents to complete a doctoral degree. Candidates can complete all degree requirements within a three-year time frame.

Admission Criteria

- Master's Degree from a regionally accredited college or university
- A minimum cumulative GPA of 3.00 (B) on a 4.00 scale for all college work
- Submission of PLU Graduate Application forms and non-refundable fee
- Official transcripts from each college and university attended
- Current professional resumé
- Statement of professional goals
- Two letters of recommendation
- Three years of building or district level leadership experience
- For Ed.D. plus Superintendent Credential
 - Valid Washington State Teaching, Administrator, or ESA Certification
Applicants from other states who hold a certificate in that state may be admitted but will not be eligible for Washington state Superintendent Certification
 - Letter of District Internship Support
 - OSPI Forms-4001 F-C & 4201
- For Superintendent to Ed.D.
 - Washington state Superintendent Certificate completed at a Professional Educator Standard Board approved superintendent program.
Applicants who have completed superintendent credentials at regionally accredited college or universities in other states may be able to transfer courses. They will be reviewed on a course-by-course basis.

Ed.D. in Educational Leadership with Superintendent Certification

This terminal degree program is designed for school leaders to obtain their Ed.D. and superintendent credentials in three years. The P12 (preschool through grade 12) School District Superintendent Certificate is embedded in the first year of the program. The superintendent credential is followed by two years of advanced leadership and research course work. The program culminates with two job-embedded applied projects focused on program evaluation and instructional leadership equity impacts in P12 schools and districts.

Degree Requirements

Ed.D. with Superintendent Certification

60 semester hours

- **Superintendent Strand - 16 semester hours**
 - EDUC 741: Educational Law, Policy, and Governance (2)
 - EDUC 742: Human Resources in K-12 (2)
 - EDUC 743: Educational Finance in P12 (2)
 - EDUC 744: Community & Family Engagement (2)

- EDUC 745: School Board Relations (1)
- EDUC 746: Crisis, Conflict, Emergency Management (2)
- EDUC 747: Central Office and Programmatic Leadership (2)
- EDUC 795: Executive Leadership Internship (1)
 - Taken three times for a total of 3 credits

• **Educational Leadership Strand - 18 semester hours**

- EDUC 700: Educational/Instructional Leadership Orientation & Introduction (3)
- EDUC 731: Educational Leadership: Instructional Leadership (3)
- EDUC 732: Current Trends and Challenges in Educational Leadership (3)
- EDUC 760: Evaluation and Supervision in Educational Leadership (2)
- EDUC 761: Educational Leadership: Equity and Social Justice (3)
- EDUC 762: Educational Leadership: Systems Leadership (3)
- EDUC 763: Collaboration and Contributions to the Profession (1)

• **Applied Research Strand - 26 semester hours**

- EDUC 701: Educational Research I (4)
- EDUC 711: Educational Research II: Qualitative Research (1)
- EDUC 721: Educational Research III: Program Evaluation (2)
- EDUC 790: Program Evaluation Applied Project & Seminar (3)
- EDUC 791: Program Evaluation Applied Project & Seminar (4)
- EDUC 792: Applied Project Seminar (2)
- EDUC 793: Instructional Leadership & Equity Applied Project & Seminar (4)
- EDUC 794: Instructional Leadership & Equity Applied Project & Seminar (5)

Ed.D. for Certified Superintendents

47 semester hours

This program track is designed for individuals who have already completed a Superintendent credential program at another PESB-approved administrator program.

• **Advanced Educational Leadership Strand - 3 semester hours**

- EDUC 795: Executive Leadership Internship (1)
 - Taken three times for a total of 3 credits

• **Educational Leadership Strand - 18 semester hours**

- EDUC 700: Educational/Instructional Leadership Orientation & Introduction (3)
- EDUC 731: Educational Leadership: Instructional Leadership (3)
- EDUC 732: Current Trends and Challenges in Educational Leadership (3)
- EDUC 760: Evaluation and Supervision in Educational Leadership (2)
- EDUC 761: Educational Leadership: Equity and Social Justice (3)
- EDUC 762: Educational Leadership: Systems Leadership (3)
- EDUC 763: Collaboration and Contributions to the Profession (1)

• **Applied Research Strand - 26 semester hours**

- EDUC 701: Educational Research I (4)
- EDUC 711: Educational Research II: Qualitative Research (1)
- EDUC 721: Educational Research III: Program Evaluation (2)
- EDUC 790: Program Evaluation Applied Project & Seminar (3)
- EDUC 791: Program Evaluation Applied Project & Seminar (4)
- EDUC 792: Applied Project Seminar (2)
- EDUC 793: Instructional Leadership & Equity Applied Project & Seminar (4)
- EDUC 794: Instructional Leadership & Equity Applied Project & Seminar (5)

Continuation Requirements:

To continue in the program, a candidate must maintain a 3.00 GPA, demonstrate dispositions in line with the National Educational Leadership Preparation (NELP) standards and those published by the School of Education, and successfully complete the Superintendent Portfolio and each Applied Project.

Program Requirements for Washington State Superintendent Certification

Candidates who successfully complete a program of professional studies in the school, who meet all related academic requirements for a degree or a certificate, and who meet all state requirements will be recommended by the school for a Washington State superintendent certificate. Specific requirements for the Superintendent Certificate include completion of a supervised internship of 360 hours and completion of a professional portfolio.

Additional state requirements include: minimum age of 18, good moral character, and personal fitness as evidenced by completion of Washington State Patrol/FBI background check via fingerprint clearance, completion of state certification application, and payment of state certification fee. Information regarding all state requirements and procedures for certification is available from the certification officer in the school. State requirements are subject to immediate change. Candidates should meet with school advisors each semester and the certification officer for updates in program or application requirements.

Note: The school will make every reasonable attempt to obtain and distribute the most current information regarding Washington State certification requirements, but cannot guarantee that state requirements will remain unchanged.

Doctor of Education (EDUC) - Graduate Courses

EDUC 700 : Educational/Instructional Leadership Orientation & Introduction

This course is to prepare students for executive/advanced school leadership roles in districts. The course emphasizes the character, dispositions, and skills, as well as the values and beliefs, which inform effective school and organizational leadership and support the development of a districtwide vision. Additionally, this course will introduce students to the PLU Ed.D. program and build relationships among cohort members and faculty. (3)

EDUC 701 : Educational Research I

This course provides foundational concepts in educational research including various methodologies. The course will address criteria for evaluating and using educational research in their own practice. Students will develop skills in understanding and evaluating research claims. Course concepts include descriptive and inferential statistics and quantitative research designs. Students will also develop knowledge and skills of action research. (4)

EDUC 711 : Educational Research II: Qualitative Research

This second course in the research methods sequence addresses major concepts of qualitative research methods. Students will learn the major methodologies and ethical implications of qualitative research including appropriate research questions. Students will learn and implement qualitative data collection and analysis techniques. (2)

EDUC 721 : Educational Research III: Program Evaluation

This third course in the research methods sequence addresses major concepts of program evaluation. This course prepares students to plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation for their Applied Project. The course addresses the similarities and differences between program evaluation and other forms of education research and related ethical implications. Students will learn the steps in designing and conducting a program evaluation, as well as considerations when contracting for program evaluations, as many educational grants and programs require outside evaluation. (2)

EDUC 731 : Educational Leadership: Instructional Leadership

In this course, students will learn both the field's best knowledge of what high-quality learning is and how to generate it at a systems level. Students will read, discuss, collect and analyze data around learning at all levels of a school district's system; including, students, teachers, and school and district leaders. Concurrently, students will examine the leadership actions and formal and informal organizational systems that serve as levers for learning. Students will be guided by three key questions at each level of analysis: what is the learning, how does the learning occur, and when and under what conditions do people learn? (3)

EDUC 732 : Current Trends and Challenges in Educational Leadership

Educational leaders serve in districts impacted by many social, economic, and political factors; thus, leaders must maintain a clear understanding of these issues in order to implement change. This course will provide an in-depth analysis of current trends and issues impacting leadership. This will enable the candidate to focus on personal growth and development of characteristics of leadership. This course will explore and study the current issues and trends related to the field of education leadership through several case studies. Emphasis will be placed on current problems of practice, research, and analysis of practices related to effectiveness. (3)

EDUC 741 : Educational Law, Policy, and Governance

The primary goal of this course is to assist the school leader to develop the attitudes, knowledge, and skills necessary to effectively practice high quality, ethical and legal practices based on the law and appropriate policy application. This course explores federal and state law that school administrators and superintendents are responsible to know and administer. This course is a requirement for all students in the Ed.D. program and for the superintendent certification. (2)

EDUC 742 : Human Resources in P12

This course provides learning of concepts, skills, theories, and techniques involving human resource management and a review of examples of HR practices in P-12 school systems. This course extends what building leaders know and understand about HR and looks at it through a district and superintendent role. There will be an examination of human resource planning, development, and utilization in modern organizations. Topics include: recruitment, selection, training and development, performance appraisal, collective bargaining, contracts, benefit programs, relationships, and role of the human resource department. (2)

EDUC 743 : Educational Finance in P12

The primary goal of this course is to help aspiring school leaders understand school finance and the systemic and political impacts on P12. Students will look at school funding, applying an equity and instructional lens, to help prioritize and guide district level funding. Particular emphasis will be placed on the role of the superintendent or program leader in advocating for students and programs. (2)

EDUC 744 : Community & Family Engagement

The primary goal of this course is to assist district leaders in developing the knowledge, skills, and cultural understanding to improve learning and achievement by collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources. Students will explore the roles and responsibilities of school leaders in co-creating with families and communities to establish social networks of shared responsibility for student learning and development. This course is a requirement for all students in the Ed.D. program and for the superintendent certification. (2)

EDUC 745 : School Board Relations

The school board governs and the superintendent administers the school district. While this may sound simple, it is often the most difficult area for the board and superintendent to clarify. Not having a clear understanding of the board and superintendent's proper role can lead to poor communication, mistrust, and, in the end, conflict and educational failure. This course will focus on the role of the superintendent, board, and the relationship between the two. (1)

EDUC 746 : Crisis, Conflict, Emergency Management

Effectively managing crisis, conflict, and emergencies is a critical responsibility of a school leader. This course focuses on how educational leaders plan for, manage, and address crises at the institutional level. This course provides practical experiences where students analyze and apply knowledge related to crisis management systems essential to the health and safety of employees and students. (2)

EDUC 747 : Central Office and Programmatic Leadership

This course focuses on superintendent or school district leader roles in establishing effective central management and the integration of special programs; including, Title I, LAP, student services, early childhood, career and technical education, and special education. The course also includes systems and strategies to evaluate program leaders and principals across the system. Students will explore approaches to improve central district systems and student learning for historically underserved populations. (2)

EDUC 760 : Evaluation and Supervision in Educational Leadership

The primary goal of this course is to develop knowledge, skills, dispositions, and cultural competence required of the aspiring school leader to effectively assess instruction and provide feedback to teachers for the improvement of practice and pedagogy in the P-12 setting. This course will cover the evaluation and supervision of certificated staff; including, teachers, principals, and central office/program administrators. During this course, the school leader will conduct several classroom, school, and district observations using the Washington State Teacher and Principal Evaluation (TPEP), one of the three approved instructional frameworks, and the AWSP principal framework. (2)

EDUC 761 : Educational Leadership: Equity and Social Justice

This course will prepare students to serve as leaders who can demonstrate effective diversity leadership for all students; including, students of all races, students who are linguistically diverse, students with disabilities, students from low-income families, and students along the gender/sexual identity spectrum and their intersections. This course supports students in creating equitable and rich school and district cultures where staff, students, and members of the wider school community are engaged and work together to create a dynamic, inclusive learning environment. (3)

EDUC 762 : Educational Leadership: Systems Leadership

The goal of this course is to expand the students' understanding of systems thinking (a) the role of the leader in evaluating systems theory and frameworks used by educational organizations, particularly in the creation and maintenance of organizational identity; (b) knowledge and skill of policy formulation, evaluation, and advocacy; including, methods of influence, building strategic alliances, and setting policy agendas; (c) the role of the educational leader in working with multiple constituencies (government, legislature, lobbyists, special interest groups, media); and (d) purposes and effective strategies for building teams in leadership settings. (3)

EDUC 763 : Collaboration and Contributions to the Profession

This course supports Ed.D. students/candidates by offering opportunities for them to engage in providing and receiving professional growth and development, mentorship, and networking within the P-12 system. Students in this course will partner with local school and local system leaders, community leaders, current cohort members, and alumni to advance connections and identify next career steps. (1)

EDUC 790 : Program Evaluation Applied Project & Seminar

This is the first course in the Ed.D. Program Evaluation Applied Project Series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation. (3; 1 didactic, 2 clinical)

EDUC 791 : Program Evaluation Applied Project & Seminar

This is the second course in the Ed.D. Program Evaluation Applied Project Series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation. This course includes public presentation of the Program Evaluation to both an academic audience as well as the relevant client (e.g. school, district, state agency, and/or community organization). (4; 1 didactic, 3 clinical)

EDUC 792 : Applied Project Seminar

This course serves as an introduction to the Instructional Leadership and Equity Applied Project process. Students will build upon their research methods and leadership courses to develop their problem statement, research question(s), and outline for their project proposal. The course will also provide an overview of the IRB process. (2)

EDUC 793 : Instructional Leadership and Equity Applied Project & Seminar

This is the first course in the Ed.D. Instructional Leadership and Equity Applied Project series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of an Equity Focused Applied Project that represents a synthesis of the learning throughout the doctoral program. (4)

EDUC 794 : Instructional Leadership and Equity Applied Project & Seminar

This is the second course in the Ed.D. Instructional Leadership and Equity Applied Project series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of an Instructional Leadership and Equity Focused Applied Project that represents a synthesis of the learning throughout the doctoral program. This course includes public presentation of the project to both an academic audience as well as the relevant school, district, state agency, and/or community organization. (5; 1 didactic, 4 clinical)

EDUC 795 : Executive Leadership Internship

The superintendent internship is part of the professional preparation of school administrators. The basic function of the internship is to enable the intern/candidate to gain the necessary experience in the performance of the critical tasks of his/her profession while under the close supervision of a certified, experienced superintendent and a university field supervisor. The internship is 360 hours and will assist the aspiring school leader by building upon coursework and learning through practical field experience. NELP leadership standards that are in the foundation for the superintendent certification program frame this course. Will be repeated twice for certification and may be repeated up to four times total. (1)

Doctor of Nursing Practice (D.N.P.)

253.535.7674	www.plu.edu/dnp/	nurs@plu.edu
Carol Seavor, Ed.D., Dean	Kathleen Richardson, D.N.P., Associate Dean	

The School of Nursing offers the Doctor of Nursing Practice with a Family Nurse Practitioner or Psychiatric Mental Health Practitioner specialty.

Accreditation

The Doctor of Nursing Practice program and post-graduate APRN certificate programs at Pacific Lutheran University are accredited by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>) and Washington State Nursing Care Quality Assurance Commission.

The Family Nurse Practitioner curriculum meets the eligibility requirements for Family Nurse Practitioner Certification.

The Psychiatric Mental Health Nurse Practitioner curriculum meets the eligibility requirements for Psychiatric Mental Health Nurse Practitioner Certification.

The Emergency Nurse Practitioner curriculum meets the eligibility requirements for Emergency Nurse Practitioner Certification.

Admission Criteria

- B.S.N. to D.N.P.: Hold a baccalaureate degree in nursing from a nationally accredited school of nursing
- M.S.N. to D.N.P. post-master's: Completion of a master's degree in nursing from a nationally-accredited school of nursing
- A minimum cumulative GPA of 3.00 (B) on a 4.00 scale for all college work
- Submission of PLU Graduate Application forms and non-refundable fee
- Official transcripts from each college and university attended
- Professional résumé
- Statement of professional goals
- Two letters of recommendation
- Civil, administrative and criminal history clearance in all states as well as any other applicable territory or country
- Fluency in speaking, reading, writing and comprehending graduate-level English (see policy and procedures in the Graduate Application Addendum)
- Direct care RN experience preferred, but not required

Advance Deposit

There are limitations on the number of students accepted into the D.N.P. program each year. Applicants accepted into the program are required to make a non-refundable \$300 advance tuition payment to confirm their acceptance of an offer of admission within three weeks of their acceptance date.

Program Requirements

All admitted D.N.P. students must provide valid documentation of the following by designated dates and before enrollment in any practicum/clinical course:

- Unrestricted licensure as a registered nurse in the State of Washington
- Immunization and health status;
- CPR certification;
- Comprehensive personal health insurance; and
- Civil, administrative, and criminal history clearance in all states, as well as any other applicable territory or country.

Drug Testing Policy

All nursing students will be required to submit to a drug, marijuana and alcohol screening at least once yearly as part of their continuing School of Nursing health requirements. Students may be required to submit to additional drug screenings as required by the clinical agencies and School of Nursing. The screenings may be scheduled or they may occur at random and unannounced. Students will be expected to adhere to any deadline set by the agencies and/or the School of Nursing.

Advising

The DNP Program Director for the School of Nursing typically completes initial advising and program planning with interested applicants and admitted students. Post-master's students will meet with the DNP Program Director to conduct a Gap Analysis of previous master's coursework and develop a plan of study to meet the D.N.P. degree requirements. D.N.P. applicants are strongly encouraged to attend one of the regularly scheduled information sessions and review the website. Upon matriculation, all students are assigned a graduate faculty advisor.

Non-Matriculated Students

B.S.N. or M.S.N.-prepared registered nurses may, with permission of the Associate Dean for Academic Affairs, enroll in up to nine semester hours of D.N.P. courses on a non-matriculated basis. Non-matriculated students are, by definition, non-degree seeking individuals, and there is no guarantee that non-matriculated students will eventually be admitted. Non-matriculated students must formally apply to, and be accepted to, the D.N.P. program if they want to seek a D.N.P. degree. For more information on non-matriculated status, see the [Graduate School policies](#).

D.N.P. Program for B.S.N. (Prepared Registered Nurses)

D.N.P. Program for B.S.N. (Prepared Registered Nurses)

The Doctor of Nursing Practice program is designed for nurses seeking a terminal degree at the highest level of nursing practice. The sequence of study recognizes the academic and professional success of the baccalaureate degree as the groundwork for graduate study. A limited number of candidates are admitted each year and admission is competitive.

The PLU Doctor of Nursing Practice degree prepares graduates in the advanced practice specialty area of Family Nurse Practitioner or Psychiatric Mental Health Nurse Practitioner. Graduates are able to develop and evaluate quality within a health system, collaborate with inter-professional teams to improve health outcomes, and be leaders in the nursing profession. The D.N.P. curriculum consists of core coursework (theory, advanced practice roles, evaluation and outcomes research, leadership and management, and advanced health promotion, information systems and patient care technology, epidemiology, analytical methods, translating research into practice, and health policy), a D.N.P. Final Project and the specialty track coursework for either the Family Nurse Practitioner or Psychiatric Mental Health Nurse Practitioner specialty.

- The Family Nurse Practitioner specialty core coursework focuses on client-centered clinical practice, and prepares nurse practitioners to respond to the needs of today and tomorrow's health care consumers, to manage direct care based on advanced assessment and diagnostic reasoning, to incorporate health promotion and disease prevention interventions into health care delivery, and to recognize their potential for professional growth, responsibility, and autonomy. Successful completion of the D.N.P. Family Nurse Practitioner program qualifies students to sit for national certification examinations for Family Nurse Practitioner, making them eligible under Washington State law for Advanced Registered Nurse Practitioner (ARNP) licensure.
- The Psychiatric Mental Health Nurse Practitioner specialty coursework prepares nurses to provide comprehensive mental health, psychiatric and addictions care at the advanced practice level in hospitals, outpatient, and community settings. Scope of practice includes advanced practice psychiatric-mental health nursing assessment, psychopharmacology, group, individual and family therapy and advanced nursing interventions across the lifespan. Successful completion of the D.N.P. Psychiatric Mental Health Nurse Practitioner track qualifies students to sit for national certification examinations for Psychiatric Mental Health Nurse Practitioner, making them eligible under Washington State law for Advanced Registered Nurse Practitioner (ARNP) licensure.

Doctor of Nursing Practice Degree Requirements

80 semester hours

Prerequisite Course: Introductory Statistics (including inferential and descriptive) with a minimum grade of 3.0 (B).

◦ Core D.N.P. Courses - 42 semester hours

- NURS 700 Advanced Practice Roles (2)
- NURS 701: Theoretical Foundations and Evidence Based Practice (3)
- NURS 702: Information Systems and Patient Care Technology (3)
- NURS 703: Organizational and Systems Leadership (3)
- NURS 704: Policy and Politics: Implications for Health Care (3)
- NURS 705: Clinical Resource Management (3)
- NURS 720: Analytical Methods (Research I) (3)
- NURS 721: Epidemiology and Biostatistics (3)
- NURS 730: Advanced Pathophysiology (3)
- NURS 731: Advanced Pharmacotherapeutics (3)

- NURS 732: Advanced Physical Assessment (4)
 - NURS 733: Advanced Health Promotion (2)
 - NURS 734: Evaluation and Outcomes (Research II) (3)
 - NURS 790: Translating Research (3)
 - NURS 795: Transition to DNP Practice (1)
- **Doctor of Nursing Practice Scholarly Project Courses - 10 semester hours**
The D.N.P. Scholarly Project courses must be taken in the prescribed sequence.
- NURS 791: Proposal Seminar (1)
 - NURS 792: DNP Scholarly Project I (2)
 - NURS 793: DNP Scholarly Project II (2)
 - NURS 794: DNP Scholarly Project III (2)
 - NURS 799: DNP Scholarly Project IV (3)
- **Family Nurse Practitioner Core Courses - 28 semester hours**
The F.N.P. core courses may have required clinical hours and must be taken in a prescribed sequence.
- NURS 770: Primary Care Procedures and Diagnostics (3)
 - NURS 771: Psych for Primary Care (2)
 - NURS 772: FNP I: Diagnosis and management of Common Episodic and/or Stable Chronic Illnesses (5)
 - NURS 773: FNP II: Diagnosis and Management of Acute and Complex Health Problems (5)
 - NURS 774: Women and Children in Primary Care (4)
 - NURS 775: FNP III: Diagnosis and Management of Chronic and Complex Health Problems (5)
 - NURS 776: FNP IV: Diagnosis and Management of Complex Comorbid Patients (4)
- **Psychiatric Mental Health Nurse Practitioner Core Courses — 38 semester hours**
The P.M.H.N.P. core courses may have required clinical hours and must be taken in a prescribed sequence.
- NURS 651: Psychopharmacology Across the Lifespan (3)
 - NURS 652: Management of Substance-related and Addictive Disorders (2)
 - NURS 653: PMHNP I: Psychopathology, Assessment, Diagnosis and Management Across the Lifespan (7)
 - NURS 654: PMHNP II: Psychopathology, Assessment, Diagnosis and Management Across the Lifespan (7)
 - NURS 655: PMHNP III: Psychotherapies Across the Lifespan (5)
 - NURS 656: PMHNP IV: Psychotherapies Across the Lifespan (5)
 - NURS 657: PMHNP Capstone (4)
 - NURS 712: Trauma Informed Care (3)
 - NURS 750: Primary Care Essentials for Psychiatric-Mental Health Nurse Practitioners (2)

Post-Master's Doctor of Nursing Practice Degree for Advanced Practice Nurses

The post-master's D.N.P. degree builds on the master's degree in advanced practice nursing (Nurse Practitioner, Certified Nurse Midwife, Clinical Nurse Specialist, Certified Registered Nurse Anesthetist). Students complete the D.N.P. Core and D.N.P. Project coursework. A Gap Analysis is conducted to determine what previous coursework meets the D.N.P. competencies and which additional courses will be required for the PLU D.N.P. degree.

Post-Master's Doctor of Nursing Practice Degree for Those Seeking a Family Nurse Practitioner or Psychiatric Mental Health Nurse Practitioner Specialty

The post-master's D.N.P. for master's-prepared nurses who wish to complete the Family Nurse Practitioner (FNP) or Psychiatric Mental Health Nurse Practitioner (PMHNP) specialty builds on master's level coursework, with the student completing the FNP or PMHNP specialty core, the D.N.P. Core and the D.N.P. Scholarly Project coursework at PLU. A Gap Analysis is conducted to determine what previous coursework meets the D.N.P. competencies and which additional courses will be required for the PLU D.N.P. degree.

Post-Graduate Certificates

The School of Nursing offers a Post-Graduate Certificate for the Family Nurse Practitioner, Psychiatric Mental Health Practitioner, or Emergency Nurse Practitioner specialty.

Program Approval

The School of Nursing is a member of the American Association of Colleges of Nursing (AACN) and is approved by the Washington State Nursing Care Quality Assurance Commission. The Family Nurse Practitioner (FNP) curriculum meets requirements for national certification as a Family Nurse Practitioner. The Psychiatric Mental Health Nurse Practitioner (PMHNP) curriculum meets eligibility requirements for national certification as a Psychiatric Mental Health Nurse Practitioner. The

Emergency Nurse Practitioner (ENP) curriculum meets requirements for national certification as an Emergency Nurse Practitioner.

Post-Graduate Certificate Application Priority Deadlines

Post-Graduate Certificate candidates may apply for admission at any time during the year. However, application by the priority deadline will enhance the applicant's potential for admission and for arranging financial assistance.

- Priority Date #1: December 1
- Priority Date #2: January 15

Admission Criteria

- Completion of a master's degree or doctoral degree in nursing from a nationally-accredited school of nursing.
- A minimum cumulative 3.00 GPA (B) on a 4.00 scale for all college work.
- Submission of PLU Graduate Application via Nursing CAS.
- Official transcripts from each college and university attended.
- Professional résumé.
- Statement of professional goals.
- Two letters of recommendation.
- Civil, administrative, and criminal history clearance in all states as well as any other applicable territory or country.
- Fluency in speaking, reading, writing, and comprehending graduate-level English.
- Additional criteria for ENP Certificate applicants:
 - Nurse Practitioner certification
 - Must have or be eligible to obtain WA state licensure with prescriptive authority

Advance Deposit

There are limitations on the number of students accepted into the Post-Graduate Certificate program each year. Applicants accepted into the program are required to make a non-refundable \$300 advance tuition payment to confirm their acceptance of an offer of admission within three weeks of their acceptance date.

Program Requirements

All admitted Post-Graduate Certificate students must provide valid documentation of the following by designated dates and before enrollment in any practicum/clinical course:

- Unrestricted licensure as a registered nurse in the State of Washington;
- Verification of graduation from an accredited nursing masters or doctoral program;
- Immunization and health status;
- BLS certification;
- Comprehensive personal health insurance; and
- Civil, administrative, and criminal history clearance in all states, as well as any other applicable territory or country.
- ENP Certificate applicants must also have:
 - ACLS & PALS Certification
 - Primary Care Procedures (completed prior to program start date)
 - Primary Care of Women and Children (completed prior to program start date)

Drug Testing Policy

All nursing students will be required to submit to a drug, marijuana and alcohol screening at least once yearly as part of their continuing School of Nursing health requirements. Students may be required to submit to additional drug screenings as required by the clinical agencies and School of Nursing. The screenings may be scheduled or they may occur at random and unannounced. Students will be expected to adhere to any deadline set by the agencies and/or School of Nursing.

Advising

The associate dean for graduate nursing programs for the School of Nursing typically completes initial advising and program planning with applicants and admitted students. Post-Master's students will meet with the associate dean for graduate nursing programs to conduct a gap analysis of previous master's coursework and develop a plan of study to meet the Post-Masters Certificate requirements. Upon matriculation, all students are assigned a graduate faculty advisor.

Post-Graduate Certificate

The Post-Graduate Certificate prepares graduates in the advanced practice specialty areas of Family Nurse Practitioner, Psychiatric Mental Health Nurse Practitioner, and Emergency Nurse Practitioner. The curriculum consists of the specialty track coursework. A gap analysis of previous graduate coursework will be conducted for all applicants.

Family Nurse Practitioner Certificate

40 semester hours

The Family Nurse Practitioner (FNP) specialty core coursework focuses on client-centered clinical practice and prepares nurses to respond to the needs of today's and tomorrow's health care consumers, to manage direct care based on advanced assessment and diagnostic reasoning, to incorporate health promotion and disease prevention interventions into health care delivery, and to recognize their potential for professional growth, responsibility, and autonomy. Successful completion of the Family Nurse Practitioner Post-Graduate Certificate program qualifies students to sit for national certification examinations for Family Nurse Practitioner, making them eligible under Washington State law for Advanced Registered Nurse Practitioner (ARNP) licensure.

- NURS 730: Advanced Pathophysiology (3)
- NURS 731: Advanced Pharmacotherapeutics (3)
- NURS 732: Advanced Physical Assessment (4)
- NURS 733: Advanced Health Promotion (2)
- NURS 770: Primary Care Procedures and Diagnostics (3)
- NURS 771: Psych for Primary Care (2)
- NURS 772: FNP I: Diagnosis and Management of Common Episodic and/or stable Chronic Illnesses (5)
- NURS 773: FNP II: Diagnosis and Management of Acute and Complex Health Problems (5)
- NURS 774: Women and Children in Primary Care (4)
- NURS 775: FNP III: Diagnosis and Management of Chronic and Complex Health Problems (5)
- NURS 776: FNP IV: Diagnosis and Management of Complex Comorbid Patients (4)

Psychiatric Mental Health Nurse Practitioner (PMHNP) Certificate

50 semester hours

The Psychiatric Mental Health Nurse Practitioner specialty coursework prepared nurses to provide comprehensive mental health, psychiatric, and addictions care at the advanced practice level in hospitals, outpatient, and community settings. Scope of practice includes advanced practice psychiatric-mental health nursing assessment, psychopharmacology, group, individual and family therapy, and advanced nursing interventions across the lifespan. Successful completion of the Psychiatric Mental Health Nurse Practitioner Post-Graduate Certificate qualifies students to sit for national certification examinations for Psychiatric Mental Health Nurse Practitioner, making them eligible under Washington State law for Advanced Registered Nurse Practitioner (ARNP) licensure.

- NURS 730: Advanced Pathophysiology (3)
- NURS 731: Advanced Pharmacotherapeutics (3)
- NURS 732: Advanced Physical Assessment (4)
- NURS 733: Advanced Health Promotion (2)
- NURS 651: Psychopharmacology Across the Lifespan (3)
- NURS 652: Management of Substance-related and Addictive Disorders (2)
- NURS 653: PMHNP. I: Psychopathology, Assessment, Diagnosis, and Management Across the Lifespan (7)
- NURS 654: PMHNP III: Psychopathology, Assessment, Diagnosis, and Management Across the Lifespan (7)
- NURS 655: PMHNP III: Psychotherapies Across the Lifespan (5)
- NURS 656: PMHNP IV: Psychotherapies Across the Lifespan (5)
- NURS 657: PMHNP Capstone (4)
- NURS 712: Trauma Informed Care (3)
- NURS 750: Primary Care Essentials for Psychiatric-Mental Health Nurse Practitioners (2)

Emergency Nurse Practitioner (ENP) Certificate

14 semester hours

The Emergency Nurse Practitioner specialty coursework prepares certified family, acute care, and adult-gerontology primary care nurse practitioners, either currently working in the emergency or urgent care setting or who desire to make a change and work in the emergency setting. This rigorous program builds upon core nurse practitioner knowledge and experience and provides the education and skill necessary to function as a competent nurse practitioner and leader in the emergency and urgent care settings. This program of study includes a minimum of 300 clinical hours and an extensive procedure lab/seminar. Upon completion, students with FNP certification are eligible to sit for the Emergency Nurse Practitioner Certification Examination. Students with other NP certification desiring to sit for the board will have the opportunity to complete additional coursework to become eligible.

The ENP core courses may have required clinical hours and must be taken in a prescribed sequence. A gap analysis will be

conducted to determine individual course requirements.

- NURS 640: ENP Procedures (2)
- NURS 641: ENP I: Lifespan Emergency Care (4)
- NURS 642: ENP II: Trauma & Critical Illness (4)
- NURS 643: ENP III: Immersion & Seminar (4)

D.N.P. and Graduate Certificate Courses

NURS 538 : Program Development

Integrates theoretical models, clinical parameters, and program planning principles through the construction of a detailed program for care and outcomes management education track. (3) (3 credits didactic)

NURS 550 : Curriculum, Instruction, and Evaluation

Examination of the theory and practice of curriculum planning, development, implementation, and evaluation. Theoretical and philosophical principles of the teaching/learning process. Analysis of adult teaching strategies and the process of self and student evaluations. (3) (3 credits didactic)

NURS 640 : ENP Procedures

Provides the Emergency Nurse Practitioner student with a range of diagnostic and interventional skills used in urgent care and emergency settings; including, the ability to understand, manage, and safely perform these procedures. (2) (2 credits lab/seminar)

NURS 641 : ENP I: Lifespan Emergency Care

This course covers the skills of assessment, interpretation of diagnostic studies, interventions, and treatments unique to the Emergency Clinician Specialist (ECS). Students are taught the skills of assessment, interpretation of diagnostic studies, interventions, and treatments unique to the ECS at an advanced level, thereby enhancing clinical decision making for urgent/emergent illness and injury across the lifespan. (4) (2 seminar, 2 clinical - 120 hours)

NURS 642 : ENP II: Trauma & Critical Illness

Building upon prior clinical ENP experiences, this course teaches the student how to care for patients of the highest acuity levels. Topics of pre-hospital care, initiation of care to the trauma and critically ill patient, and transport of patients to a higher level of care. (4) (2 didactic, 2 lab simulation)

NURS 643 : ENP III: Immersion & Seminar

This is the final specialized clinical and seminar course facilitating application of previously learned concepts and skills, demonstration of ENP competency achievement, and assimilation into the ENP role. The culmination of the ENP education and transition into the ENP role is also covered. (4) (1 seminar, 3 clinical - 180 hours)

NURS 651 : Psychopharmacology Across the Lifespan

Focuses on the principles of psychiatric pharmacotherapy across the lifespan, biological mechanisms of action of psychotropic drugs, and the role of the advanced practice psychiatric nurse prescriber. The neurobiological underpinnings of symptom etiology and treatment will form the basis of clinical decision-making in all phases of psychopharmacological treatment for child/adolescent, adult, and geriatric populations. Prerequisite: NURS 731. (3)

NURS 652 : Management of Substance-related and Addictive Disorders

Provides an integrated approach to the neurobiology, assessment, diagnosis, and clinical management of substance-related and addictive disorders across the lifespan. Prerequisite: approval of course faculty. (2)

NURS 653 : PMHNP I: Psychopathology, Assessment, Diagnosis and Management Across the Lifespan

Provides an integrated approach to the assessment, diagnosis, and clinical management of psychopathology across the lifespan.

An in-depth exploration of the neurobiological underpinnings of mental health problems and psychiatric disorders will serve as the framework of the course. Students will apply principles of neurodevelopment to the assessment, diagnosis, and treatment of individuals across the lifespan with anxiety disorders; depressive disorders; obsessive-compulsive and related disorders; bipolar and related disorders; sleep-wake disorders; feeding and eating disorders; elimination disorders; and trauma - and stressor-related disorders. The role and scope of advanced psychiatric nursing practice including foundational legal and ethical issues are incorporated throughout the course. Prerequisites: NURS 730, 732. Corequisite: NURS 651 (7) (Didactic 3.5 credits, lab/seminar 0.5 credits, clinical 3 credits) (180 hours clinical)

NURS 654 : PMHNP II: Psychopathology, Assessment, Diagnosis and Management Across the Lifespan

Provides an integrated approach to the assessment, diagnosis, and clinical management of complex psychopathology across the lifespan. Students will apply concepts covered in PMHNP I to the assessment, diagnosis and treatment of individuals across the lifespan with schizophrenia spectrum and other psychotic disorders; neurocognitive disorders; disruptive, impulse control and conduct disorders; personality disorders; dissociative disorders; somatic symptoms and related disorders; and sexual, gender, and paraphilic disorders. The role and scope of advanced psychiatric nursing practice is expanded from what is covered in PMHNP I to include forensic mental health care. Prerequisite: NURS 653. (7) (Didactic 3 credits, lab/seminar 1 credit, clinical 3 credits) (180 hours clinical)

NURS 655 : PMHNP III: Psychotherapies Across the Lifespan

Examines methods and major conceptual frameworks of group and family psychotherapy. Group dynamics, systems theory and group therapy models will be applied to the treatment of psychiatric disorders in a variety of settings. An overview and critical analysis of family theories and conceptual models will inform psychotherapy with children, adolescents, adults, elders, and their families. Prerequisite: NURS 654. (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits) (120 hours clinical)

NURS 656 : PMHNP IV: Psychotherapies Across the Lifespan

An overview of the major schools of personality theory, psychological development, and derived individual psychotherapy treatment modalities, to better understand the dynamics of the patient and the therapeutic 1:1 relationship. Students will engage in the therapy process with individuals across the lifespan by implementing selected psychotherapeutic techniques. Prerequisite: NURS 655. (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits) (120 hours clinical)

NURS 657 : PMHNP Capstone

In this culminating clinical course students will demonstrate increased competency and accountability in the provision of comprehensive psychiatric-mental health care. Students will gain expertise by working with an identified population of choice and implementing selected psychotherapeutic and pharmacological interventions. Students will develop an individual learning plan to address any gaps in the attainment of required Psychiatric Mental Health Nurse Practitioner competencies. Professional practice issues including contract negotiation and requirements for certification and licensure are included. Prerequisite: NURS 656. (4) (Seminar 1 credit, clinical 3 credits) (180 hours clinical)

NURS 691 : Independent Study

Opportunities for advanced study in selected topic related to student's area of interest. Consent of the Dean required. (1-4)

NURS 700 : Advanced Practice Roles

This course is designed to provide the student a foundational understanding of the roles of the DNP prepared Advanced Practice Nurse and educator within healthcare. The student will explore advanced practice nursing roles through the analysis of ethical, professional, social and practice perspectives. (2)

NURS 701 : Theoretical Foundations and Evidence Based Practice

This course is designed to advance student understanding of the foundational nursing, scientific and theoretical underpinnings of advanced practice. Students in this course will explore, critique, integrate, and apply relevant theories from nursing and other disciplines. These theories provide guiding perspectives for the provision of evidence based, patient-centered, clinically measurable healthcare outcomes. (3)

NURS 702 : Information Systems and Patient Care Technology

This course is designed to provide the student with the knowledge and skills regarding the uses of information technology to support evidence-based nursing practice. The course focuses on the development of knowledge and technical skills to use data

management systems and technological resources for decision-making, implementation of quality improvement initiatives, and evaluation of patient care technologies. The course includes use of systems analysis, decision theory, consumer use of informatics for health care information, and consideration of ethical, regulatory, and legal issues. (3)

NURS 703 : Organizational and Systems Leadership

This course is designed to provide the student with organizational and systems leadership knowledge. This course explores leadership and organizational structure, models, and principles within the context of healthcare delivery models and organizational, political, cultural, and economic policies and sustainability. Designed to prepare the student for provision of quality cost-effective care, participation in the design and implementation of care, assumption of the leadership role, and managing resources within a healthcare organizational setting. (3)

NURS 704 : Policy and Politics: Implications for Health Care

This course focuses on the principles of policy and the influence of the political process as a systematic approach to health care in the United States and internationally. The interdependence of policy and practice will be evaluated, with a focus on the challenges of engaging and influencing health policy locally, nationally and globally. Students will analyze the ethical, legal, economic, and sociocultural factors influencing policy development. Health policy frameworks are analyzed from governmental, organizational, and clinical practice perspectives. (3)

NURS 705 : Clinical Resource Management

This course builds upon the resource management concepts first explored in Leadership and develops foundational financial cost and budgeting concepts necessary to enact an advance clinical practice role, including awareness of reimbursement and population health initiatives. (3)

NURS 712 : Trauma Informed Care

This course is designed to provide care providers an understanding of trauma informed care. (3)

NURS 720 : Analytical Methods (Research I)

Students will develop and demonstrate skills in the use of analytical methods required to distinguish research design and analytical methods (qualitative, quantitative, mixed) and quality improvement, and critique and evaluate validity and applicability or research to guide evidence based practice. Student locate, critically evaluate and synthesize evidence from research studies that support the improvement of outcomes in diverse populations. Students will identify practice questions and determine the appropriate method(s) to design and evaluate outcomes. Pre- or corequisite: NURS 721. (3)

NURS 721 : Epidemiology and Biostatistics

This course develops the student's ability to analyze epidemiological, biostatistical, occupational, and environmental data in the development, implementation and evaluation of clinical prevention and population health. Students will analyze epidemiological, biostatistical, environmental, and other appropriate data related to infectious diseases, emergency/disaster, and individual, aggregate, and population health as it relates to local, regional, national, and international goals of improving global health. (3)

NURS 730 : Advanced Pathophysiology

This course is designed for the advanced practice student and focuses on normal physiologic and pathologic mechanisms of disease. It provides primary components of the foundation for clinical assessment, decision-making and management of patients across the lifespan. (3)

NURS 731 : Advanced Pharmacotherapeutics

This course prepares the advanced practice student for prescriptive authority and focuses on the pharmacokinetic basis for and pharmacotherapeutic management of simple and complex disease processes. Includes ethical, legal, and procedural aspects of prescriptive authority. Pre- or Corequisite: NURS 730. (3)

NURS 732 : Advanced Physical Assessment

Development and performance of the skills needed for advanced health assessment of individuals, families, or communities throughout the lifespan. Prerequisite: Basic health assessment skills. (4) (Didactic 2 credits, lab/seminar 2 credits)

NURS 733 : Advanced Health Promotion

This course is designed to focus on identification of health risks and protective strategies for diverse populations as an advanced practice nurse and clinician. (2)

NURS 734 : Evaluation and Outcomes (Research II)

This course prepares the student with the knowledge and skills to measure and assess the impact of interventions on healthcare. Students explore the development and use of relevant outcome measures to evaluate research, quality improvement, and programs in order to inform and use new knowledge to provide, change, and evaluate delivery of healthcare initiatives focused on client-centered, clinically demonstrable care. Prerequisite: NURS 720. (3)

NURS 750 : Primary Care Essentials for Psychiatric-Mental Health Nurse Practitioners

Provides the PMHNP DNP student knowledge and skills to assist in the primary care management of co-morbid medical conditions commonly occurring in patients with psychiatric-mental health disorders. This course builds on the foundations of advanced pathophysiology, advanced clinical pharmacotherapeutics, and advanced health assessment and focuses on the attainment of positive clinical outcomes for the major chronic illnesses of diabetes, chronic obstructive pulmonary disease, asthma, hypothyroidism, and congestive heart failure. (2)

NURS 770 : Primary Care Procedures and Diagnostics

Provide the family nurse practitioner student with a range of office-based skills including the ability to understand, manage and perform common primary care procedures. (3) (Didactic 1 credit, lab/seminar 2 credits)

NURS 771 : Psych for Primary Care

This course is designed to provide foundational knowledge and skills to facilitate recognition and management of mental health conditions in the primary care setting. Focuses on the evaluation and management of common mental health issues in primary care including mood disorders, anxiety, ADHD, substance use/abuse, suicidal intent, self-injurious behavior, etc. Assessment tools, primary care management and criteria for referral to be included. (2)

NURS 772 : FNP I: Diagnosis and Management of Common Episodic and/or Stable Chronic Illnesses

This course is the first of four courses designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits)

NURS 773 : FNP II: Diagnosis and Management of Acute and Complex Health Problems

This course is the second of four designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. Prerequisite: NURS 772 (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits)

NURS 774 : Women and Children in Primary Care

This course covers common problems unique to women and children (pregnancy, postpartum care, gynecological conditions, perimenopausal, menopausal care, well-child, adolescent care, preventive care), common behavioral and developmental problems in children & adolescents (developmental delay, learning disabilities, autism, school issues, etc.), and cultural variations in parenting. Family and role transitions across the lifespan are explored. Prerequisite: NURS 772, 773. (4) (Didactic 2 credits, clinical 2 credits)

NURS 775 : FNP III: Diagnosis and Management of Chronic and Complex Health Problems

This course is the third of four courses designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. Prerequisite: NURS 773. (5) (Didactic 3 credits, clinical 2 credits)

NURS 776 : FNP IV: Diagnosis and Management of Complex Comorbid Patients

This course is the fourth of four courses designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. It is designed as the culminating clinical course in the Family Nurse Practitioner program. Students will demonstrate the ability to provide novice-level primary care to chronic, complex patients with multiple co-morbidities. Prerequisite: NURS 774, 775. (4) (seminar 2 credits, clinical 2 credits)

NURS 790 : Translating Research (Research III)

This course is designed to build upon previous courses and provide students a structured environment to begin the DNP project proposal. Students will develop strategies for translating research findings into sustainable improvements in patient and clinical outcomes for a diverse population. The use of information technology and interprofessional collaboration will be emphasized. Models used to guide the process of implementing and evaluating evidence based practice change will be examined. This course runs concurrently with DNP Scholarly Project I which serves to inform the translational research project proposal developed within this course. (3)

NURS 791 : Proposal Seminar

This is the proposal planning course for the DNP Scholarly Project series. This course is taken in conjunction with Translating Research (790). Students will identify their practice area and location. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. (1) (Didactic 0.5 credits, clinical 0.5 credits)

NURS 792 : DNP Scholarly Project I

This is the first course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. Prerequisite: NURS 791. (2) (Didactic 0.5 credits, clinical 1.5 credits)

NURS 793 : DNP Scholarly Project II

This is the second course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. Prerequisite: NURS 792. (2) (Didactic 0.5 credits, clinical 1.5 credits)

NURS 794 : DNP Scholarly Project III

This is the third course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. Prerequisite: NURS 793. (2) (Didactic 0.5 credits, clinical 1.5 credits)

NURS 795 : Transition to DNP Practice

Transition and socialization into the Doctorate of Nursing Practice (DNP) role is explored. Role transition includes the DNP's professional responsibility and accountability for advancing professional nursing practice. The DNP scholarship portfolio will be completed and evaluated. The portfolio will include reflection on evidence that demonstrates the student is a clinical scholar and documents competency in all domains of DNP practice as outlined in the American Association of Colleges of Nursing (AACN) Essentials of Doctoral education for Advanced Nurse Practice, the DNP Core Competencies by the National Association of Nurse Practitioner Faculties (NONPF) and PLU School of Nursing Doctoral Program Outcomes. Prerequisite: All other DNP coursework. Taken concurrently with NURS 775 and 799 for FNP students. Taken concurrently with NURS 657 and 799 for PMHNP students. (1)

NURS 799 : DNP Scholarly Project IV

This is the final course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. A primary focus of this class will be dissemination of results including final scholarly paper, presentation of results to community organization, and creation of a manuscript for submission for publication in a peer-reviewed professional journal. Prerequisite: NURS 794. (3) (Didactic 1 credit, clinical 2 credits)

Master of Arts - Marriage and Family Therapy (M.A.)

253.535.7659	www.plu.edu/mft/	mfth@plu.edu
Lindsey Nice, Ph.D., Chair		

Prerequisites

Applicants who have a degree in family studies, human services, psychology, sociology, social work, or the equivalent have met any program prerequisites. Applicants who do not have a degree in any of these areas are required to complete a minimum of 15 semester hours (22.5 quarter hours) in family social sciences, human services, psychology, sociology, or social work.

Admission

The MFT program is looking for individuals who have professional goals consistent with the program, volunteer or professional experience in the social services, the ability to handle the academic rigor of the program, and the personal qualities required of couple and family therapists. Our goal is to have a student body highly diverse in spirituality, age, race, ethnicity, gender, sexual orientation, and also inclusive of international students. To be considered for admission, applicants must: have a bachelor's degree, submit transcripts of all undergraduate work, have a specific interest in MFT, provide a current résumé, obtain two letters of recommendation, complete an application, and prepare a personal statement.

The personal statement (maximum of five double-spaced typed pages) should address the following questions:

- What significant cultural experiences have most influenced your present development and your desire to be a couple and family therapist?
- What are your professional career goals after completing your degree?
- What are your strengths that will help you achieve your professional goals?
- What do you consider to be areas for personal growth that may need the most attention during your training as a therapist at Pacific Lutheran University?

Based on a committee review of applicants' written materials, a pool of applicants to be interviewed is established. The primary purpose of the interview is to determine the fit between the applicants' professional goals and the purpose and mission of the MFT program.

Application Deadline for Fall

Application file completed in Office of Admission: January 31 Interview Notification: Mid-February through end of April. Interview date: To be determined.

Advance Deposit

Accepted applicants must make a non-refundable \$300 advanced tuition deposit to confirm their acceptance of an offer of admission within three weeks of their acceptance date.

Degree Requirements

48 semester hours

- MFTH 500: Biopsychosocial Health and Development Across the Lifespan (4)
- MFTH 503: Systems Approach to Marriage and Family Therapy (4)
- MFTH 504: Contextual Foundations of Systemic Practice (4)
- MFTH 505: Research Methods in Marriage and Family Therapy (3)
- MFTH 507: Comparative Marriage and Family Therapy (4)
- MFTH 510: Human Sexuality, Sex Therapy, and Couples Therapy (4)
- MFTH 511: Systemic and Mental Health Assessment, Diagnosis, and Treatment (4)
- MFTH 512: Professional Studies in Marriage and Family Therapy (4)
- MFTH 519: Practicum I (2)
- MFTH 520: Theory I (2)
- MFTH 521: Practicum II (2)
- MFTH 522: Theory II (2)
- MFTH 523: Practicum III (2)

- MFTH 524: Theory III (2)
- MFTH 525: Practicum IV (2)
- MFTH 526: Development of a Personal Integrated Theory (2)
- MFTH 529: J-term Practicum (1)
- **Elective**
 - MFTH 527: Extended Practicum V (2)
 - MFTH 590: Graduate Seminar (1 to 4)
 - MFTH 598: Graduate Research Project (4)

Master of Arts in Marriage and Family Therapy (MFTH) - Graduate Courses

MFTH 500 : Biopsychosocial Health and Development Across the Lifespan

This course leans heavily on biopsychosocialspiritual (BPSS) health and development across the lifespan. This course emphasizes clinical application and prepares students to work with clients across the lifespan with various health and developmental issues including trauma, abuse, and death. This course also invites students to engage with readings on established theories of development, participate in learning experiences and contextual influences. The goal of this course is to be able to use a biopsychosocialspiritual (BPSS) clinical approach when working with clients across the lifespan, considering how contextualized human development impacts relational interactions. (4)

MFTH 503 : Systems Approach to Marriage and Family Therapy

This course is an introduction to the field of marriage and family therapy and will also help students gain an understanding of traditional and contextually informed cybernetics and general systems theory. In addition, the course considers postmodern ideas, the feminist critique of systems theory, and common factors versus evidenced based approaches. Students will learn to apply a systemic lens personally and professionally. Strategies for systemically conceptualizing therapy will be taught. (4)

MFTH 504 : Contextual Foundations of Systemic Practice

This course provides an introduction to contemporary family developmental theory which explores issues of power, privilege, and oppression when considering family structure and development. We recognize that families' intersecting social contexts influence the meaning of family, relational functioning, and changes over time. Throughout the semester, we will study how race, gender, social class, immigration, religion, spirituality, sexual orientation, and other factors impact family development. You will take part in several projects, including a group cultural "immersion," a religious community observation, and on-going volunteer work in the community. (4)

MFTH 505 : Research Methods in Marriage and Family Therapy

This course focuses on helping students understand research methodologies related to assessment, quantitate research, and qualitative research. Contextual considerations are used to assess the strengths and limitations of these different methodologies. This course emphasizes understanding and evaluating existent research. (3)

MFTH 507 : Comparative Marriage and Family Therapy

This course is an intensive comparative study of the major theories within the field of marriage and family therapy that have been developed based on the systemic paradigm. By the end of the course students have an up-to-date view of the many therapy models used by marriage and family therapists. Prerequisite: MFTH 503. (4)

MFTH 510 : Human Sexuality, Sex Therapy, and Couples Therapy

This course will explore a sex positive approach to sex therapy, minimizing the negative messages around various forms of sexual expression. Basic principles and strategies of treatment for common sexual dysfunctions will be considered. The nature of sexual health, a brief review of the anatomy and physiology of the sexual response cycle and the biological and psychological determinants of sexual functioning will be considered. Students will learn to conduct a sexual history, considering the impact of larger contextual issues. Models of couples therapy will also be taught with attention to addressing sexual issues as another form of couple process. (4)

MFTH 511 : Systemic and Mental Health Assessment, Diagnosis, and Treatment

This course is designed to provide both a traditional and relational (systemic) understanding of the major behavior health disorders described in the DSM-5, including information on epidemiology, etiology, treatment models, and techniques for these disorders. Students will gain an understanding of the process of traditional assessment using the DSM-5, as well as other forms of assessment and diagnosis of behavioral health disorders. Attention will be given to contextual considerations as it relates to

assessment and diagnosis. (4)

MFTH 512 : Professional Studies in Marriage and Family Therapy

This course teaches AAMFT professional ethics and Washington State laws which affect the clinical practice of marriage and family therapists. Topics will include family law, legal responsibilities, rules of confidentiality, licensure and certification, contributing to the professional community, crisis intervention, and the intersection of marriage and family therapists and the larger mental health community. Students will consider the impact of their personal values on ethical decision-making. (4)

MFTH 519 : Practicum I

First semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples and families. (2)

MFTH 520 : Theory I

First semester of theory taken in conjunction with MFTH 519. (2)

MFTH 521 : Practicum II

Second semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. (2)

MFTH 522 : Theory II

Second semester of theory taken in conjunction with MFTH 521. (2)

MFTH 523 : Practicum III

Third semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. (2)

MFTH 524 : Theory III

The three semesters of theory taken in conjunction with MFTH 519, 521, and 523 constitute an in-depth study of one approach toward marriage and family therapy with an emphasis on applying theory in practice. (2)

MFTH 525 : Practicum IV

The four semesters of practica are part of a continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. The practica present a competency-based program in which each student is evaluated regarding: (a) case management skills; (b) relationship skills; (c) perceptual skills; (d) conceptual skills; (e) structuring skills; and (f) professional development skills. Practica requirements include 100 hours of supervision of 500 client contact hours. Faculty are AAMFT-Approved Supervisors or the equivalent and use live supervision and video tapes of student sessions as the primary methods of clinical supervision. (2)

MFTH 526 : Development of a Personal Integrated Theory

The fourth semester of theory taken in conjunction with MFTH 525 is an in-depth study of the student's preferred ideas, style, methods, and values. Students develop an integrated personal approach to marriage and family therapy that synthesizes their learning in the program. (2)

MFTH 527 : Extended Practicum V

For students who wish to complete their required practica in five rather than four semesters. This course is an extension of the previously described practica courses. (2)

MFTH 529 : J-term Practicum

J-term semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. (1)

MFTH 591 : Directed Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

MFTH 598 : Graduate Research Project

Students will work independently with faculty to develop, design, and complete (including a publishable research paper) a research project targeted for journal publication. (4).

Master of Arts in Education (M.A.E.)

253.535.7272	www.plu.edu/education/	educ@plu.edu
Allison Drago, Ed.D., Associate Dean		

The School of Education offers three programs leading to a graduate degree in education; including, two leading to teacher certification and one for international students. In addition, the school offers principal certification and add-on endorsement programs. All programs are aligned with the school's Guiding Principles.

1. The one-year master's degree with certification begins in June and includes a year-long internship in a K-12 school. Students complete all program requirements within a one year time frame.
2. The Alternative Routes to Certification (ARC) is for current paraeducators and conditional teachers or career changers endorsements in high needs areas with admission priority given to high need areas within the state (e.g., special education, mathematics, sciences, etc.). The program begins in June and includes a full-time, year-long mentored internship starting in September. Candidates complete 19-25 of the required 36 program semester hours in order to become certified. After completing certification, candidates have three additional years to complete the remaining program semester hours to obtain the M.A.E.

Master of Arts in Education (M.A.E.)

34-38 semester hours depending on program

M.A.E. with Teacher Certification

The Master of Arts in Education with Teacher Certification Program helps prepare preservice teachers to establish a socially just and responsible world. To facilitate this, the program encourages candidates to explore their vocation as teachers and to work for meaningful social change by recognizing the perspectives of the students and families in the communities they serve; by providing opportunities for powerful and authentic learning grounded in the lived experiences of their students; by facilitating candidate inquiry into the formulation of critical educational questions; by honoring the vast array of cultural and linguistic resources in schools, classrooms and communities; and by modeling the skills, habits, and ethical passions required for effective democratic citizenship.

The primary aim of the program is to prepare teachers to assume a variety of roles in 21st Century schools. Faculty work with students to develop understandings and skills for their work as leaders, inquirers, and curriculum/instructional specialists.

Program Overview

Students can apply to one of two options within the graduate teacher certification program:

- 1) The one-year option begins in June and includes a year-long internship in a K-12 school. Students complete all program requirements within a one year time frame.
- 2) The Alternative Routes to Certification (ARC) is for students seeking elementary or secondary endorsements with admission priority given to high need areas within the state (e.g., special education, mathematics, sciences, etc.). The program begins in June and includes a full-time, year-long mentored internship starting in September. Candidates complete 23 or 25 of the required 34 program semester hours in order to become certified. After completing certification, candidates have three additional years to complete the remaining program semester hours to obtain the M.A.E.

All teacher candidates must pass the WEST-B, WEST-E, or NES as mandated by the state for certification.

Prerequisites

For regular admission, applicants must have completed a baccalaureate degree from a regionally-accredited institution of higher education. Passing scores on the WEST-B or SAT/ACT equivalent and WEST-E or NES are required as well. Candidates not meeting these requirements may be granted conditional admission on a case-by-case basis. Candidates must also have background coursework corresponding with the subject they want to teach. Please consult the school for more information on endorsements.

Admission Procedures

Program Requirements for Washington State Teacher Certification

Candidates who successfully complete a program of professional studies in the school, who meet all related academic requirements for a degree or a certificate, and who meet all state requirements will be recommended by the school for a Washington State residency teaching certificate. Additional state requirements include a minimum age of 18, good moral character and personal fitness as evidenced by completion of state Pre-Residency Clearance and Washington State Patrol/FBI background check via fingerprint clearance, assessment by means of passing scores on WEST-B, WEST-E/NES/ACTFL exams and completion of state certification application and payment of state certification fee. Information regarding all state requirements and procedures for certification is available from the certification officer in the school. State requirements are subject to immediate change. Candidates should meet with school advisors each semester and the certification officer for updates in program or application requirements.

Note: The school will make every reasonable attempt to obtain and distribute the most current information regarding Washington State certification requirements, but cannot guarantee that state requirements will remain unchanged.

M.A.E. Certification

Elementary Program

38 semester hours

- **Summer I**

- EDUC 510: Teaching Reading and Language Arts (3)
- EDUC 514: Management and Student Engagement (2)
- EDUC 520: Issues of Child Abuse and Neglect (1)
- EDUC 544: Sociocultural Foundations of Education (2)
- EPSY 566: Advanced Cognition, Development, and Learning (2)
- SPED 580: Foundations and Instructional Strategies for Students with Disabilities (2)

- **Fall Semester**

- EDUC 562: Schools and Society (2)
- EDUC 563A: Integrating Seminar: Technology Embedded Instructional Design (2)
- EDUC 565: Elementary Reading, Language Arts, and Social Studies (2)
- EDUC 566: Elementary Math and Science (4)
- SPED 520: Teaching Students with Special Needs (2)

- **J-Term**

- EDUC 528: Reading and Writing Across the K-8 Curriculum (2)
- EDUC 564: The Arts, Mind, and Body (2)

- **Spring Semester**

- EDUC 563B: Integrating Seminar: Internship (4)
- EDUC 568: Internship in Teaching (6)

Secondary Program

36 semester hours

- **Summer I**

- EDUC 510: Teaching Reading and Language Arts (3)
- EDUC 514: Management and Student Engagement (2)
- EDUC 520: Issues of Child Abuse and Neglect (1)
- EDUC 544: Sociocultural Foundations of Education (2)
- EDUC 556: Critical Issues in Secondary Teaching (2)
- EPSY 566: Advanced Cognition, Development, and Learning (2)
- SPED 580: Foundations and Instructional Strategies for Students with Disabilities (2)

- **Fall Semester**

- EDUC 561: Instructional Methodology for Secondary Teachers (4)
- EDUC 562: Schools and Society (2)
- EDUC 563A: Integrating Seminar: Technology Embedded Instructional Design (2)
- SPED 520: Teaching Students with Special Needs (2)

- **J-Term**

- EDUC 529: Reading and Writing Across the Secondary Curriculum (2)

- **Spring Semester**

- EDUC 563B: Integrating Seminar: Internship (4)
- EDUC 568: Internship in Teaching (6)

M.A.E. Alternative Routes to Certification (ARC)

23-25 semester hours for certification, 34 semester hours for degree completion

The Master of Arts in Education-Alternative Routes to Certification program includes special pathways designed to meet the needs of individuals who are career changers in high needs areas (such as math, science, special education) or who have prior experience in schools as paraeducators or substitutes. The M.A.E.-ARC program is heavily, but not entirely, based in the field. During the field-based portion of this program, candidates are assigned mentors in a school district.

The certification portion of the M.A.E.-ARC program begins in June. Beginning in the fall, candidates enter an open ended internship in a K-12 school. If you are currently employed or have strong relationships with a school, we will work with you to explore the possibility of an appropriate internship where you are. Typical internships begin on the first teacher report day of the school year and continue through the school year. In rare cases, early completion can be arranged, however the state requires that all candidates must complete a minimum of one full K-12 semester. During this time, the candidates spend all day, every day in their internship gaining an intimate knowledge of how schools work.

After candidates have completed the initial certification portion of the program, they will have three years to complete the remaining credits in the M.A.E. degree. These classes will be made available on nights and weekends so candidates are able to work while finishing the degree.

Elementary Program

25 semester hours

- **Summer**

- EDUC 514: Management and Student Engagement (2)
- EDUC 520: Issues of Child Abuse and Neglect (1)
- EDUC 544: Sociocultural Foundations of Education (2)
- SPED 580: Foundations and Instructional Strategies for Students with Disabilities (2)

- **Fall Semester**

- EDUC 565: Elementary Reading, Language Arts, and Social Studies (2)
- EDUC 566: Elementary Math and Science (2)

- **J-term**

- EDUC 528: Reading and Writing Across the K-8 Curriculum (2)
- EDUC 564: The Arts, Mind, and Body (2)

- **Spring Semester**

- SPED 520: Teaching Students with Special Needs (2)
- EDUC 563B: Integrating Seminar: Internship (2)
- EDUC 568: Internship in Teaching (6)

Secondary Program

23 semester hours

- **Summer**

- EDUC 514: Management and Student Engagement (2)
- EDUC 520: Issues of Child Abuse and Neglect (1)
- EDUC 544: Sociocultural Foundations of Education (2)
- EDUC 556: Critical Issues in Secondary Teaching (2)
- SPED 580: Foundations and Instructional Strategies for Students with Disabilities (2)

- **Fall Semester**

- EDUC 561: Instructional Methodology for Secondary Teachers (4)

- **Spring Semester**

- EDUC 563B: Integrating Seminar: Internship (2)
- EDUC 568: Internship in Teaching (6)
- SPED 520: Teaching Students with Special Needs (2)

Candidates have the option to complete the following semester hours within three years to receive the Master of Arts in Education:

- EDUC 510: Teaching Reading and Language Arts (3)
- EDUC 529: Reading & Writing Across the Secondary Curriculum (2)
- EDUC 562: Schools and Society (2)
- EDUC 563A: Integrating Seminar: Technology Embedded Instructional Design (2)
- EPSY 566: Advanced Cognition, Development, & Learning (2)

M.A.E. Non-Certification: International Students Only

The Master of Arts Non-Certification Program provides an avenue for international candidates interested in pursuing a graduate degree in teaching without receiving state certification. To facilitate this, the program encourages candidates to explore their vocation as teachers and to work for meaningful social change by recognizing the perspectives of the students and families in the communities they serve; by providing opportunities for powerful and authentic learning grounded in the lived experiences of their students; by facilitating candidate inquiry into the formulation of critical educational questions; by honoring the vast array of cultural and linguistic resources in classrooms, schools, and communities; and by modeling the skills, habits and ethical passions required for effective democratic citizenship.

The primary aim of the program is to prepare teachers to assume a variety of roles in 21st Century schools. Faculty work with students to develop understandings and skills for their work as leaders, inquirers, and curriculum/instructional specialists.

Program Overview

Students in the M.A.E. Non-Certification Program enroll as part of a cohort in mid-June.

Prerequisites

For regular admission, applicants must have completed a baccalaureate degree from a regionally-accredited institution of higher education or provide an official evaluation stating that they possess an equivalent degree. See [Graduate Programs International Admissions section](#). A minimum grade point average of 3.00 is required.

Admission/Application

Please visit: www.plu.edu/mae-teaching/

Elementary Program

38 semester hours

- **Summer I**
 - EDUC 510: Teaching Reading and Language Arts (3)
 - EDUC 514: Management and Student Engagement (2)
 - EDUC 520: Issues of Child Abuse and Neglect (1)
 - EDUC 544: Sociocultural Foundation of Education (2)
 - EPSY 566: Advanced Cognition, Development, and Learning (2)
 - SPED 580: Foundations and Instructional Strategies for Students with Disabilities (2)
- **Fall Semester**
 - EDUC 562: Schools and Society (2)
 - EDUC 563A: Integrating Seminar: Technology Embedded Instructional Design (2)
 - EDUC 565: Elementary Reading, Language Arts, and Social Studies (2)
 - EDUC 566: Elementary Math and Science (2)
 - SPED 520: Teaching Students with Special Needs (2)
- **J-Term**
 - EDUC 528: Reading and Writing Across the K-8 Curriculum (2)
 - EDUC 564: The Arts, Mind, and Body (2)
- **Spring Semester**
 - EDUC 560: Practicum (2)
 - EDUC 563B: Integrating Seminar: Internship (4)
 - EDUC 585: Comparative Education (3)

Secondary Program

35 semester hours

- **Summer I**

- EDUC 510: Teaching Reading and Language Arts (3)
- EDUC 514: Management and Student Engagement (2)
- EDUC 520: Issues of Child Abuse and Neglect (1)
- EDUC 544: Sociocultural Foundations of Education (2)
- EDUC 556: Critical Issues in Secondary Teaching (2)
- EPSY 566: Advanced Cognition, Development, and Learning (2)
- SPED 580: Foundations and Instructional Strategies for Students with Disabilities (2)

• **Fall Semester**

- EDUC 561: Instructional Methodology for Secondary Teachers (4)
- EDUC 562: Schools and Society (2)
- EDUC 563A: Integrating Seminar: Technology Embedded Instructional Design (2)
- SPED 520: Teaching Students with Special Needs (2)

• **J-Term**

- EDUC 529: Reading and Writing Across the Secondary Curriculum (2)
- SPED 577: The Inclusive Classroom (2)

• **Spring Semester**

- EDUC 560: Practicum (2)
- EDUC 563B: Integrating Seminar: Internship (4)
- EDUC 585: Comparative Education (3)

M.A.E. Instructional Leadership Program

32 semester hours (for the preparation of teacher leaders)

The Instructional Leadership Program is not being offered at this time. Please contact the [School of Education](#) at 253.535.7272 for more information.

Concentration Objective

Recognizing that all educators in today's schools, both teachers and administrators, must work together as education leaders, PLU faculty have designed an innovative program to enhance the skills of 21st Century educators with a focus on leadership. This program is for practicing educators who are committed to enhancing their leadership and instructional roles. It prepares accomplished teachers to become instructional facilitators, mentors and coaches in their respective schools and districts. The program provides opportunities for candidates to both deepen their understanding of effective P-12 instruction and to acquire the knowledge and skills necessary for successful teacher leadership within the context of standards-based educational reform. The program develops the capacity of teacher leaders to guide and support others in the collection and analysis of evidence of student learning. It prepares teachers to provide passionate, informed, and ethical leadership for improvement at the school, district, and state levels. Candidates learn proven strategies to build professional learning communities aimed at developing meaningful and engaging partnerships with families and community stakeholders.

Prerequisites

Beyond the general prerequisites, applicants must hold a valid Washington State Professional Teaching Certificate or equivalent, and should ordinarily have successfully completed three years of teaching or related professional experience. A grade point average of at least 3.00 is required. Students not meeting these requirements may be granted provisional status on a case-by-case basis.

Required Courses

- For teachers who do not hold a professional certificate:
 - EDUC 580: Instructional Theory and Practice I: Culture, Context and Community (4)
 - EDUC 581: Instructional Theory and Practice II: Thinking, Doing and Knowing (4)
- All candidates must take:
 - EDUC 555B: Family and Community Engagement (1)
 - EDUC 558: Reflective Seminar in Teacher Leadership (4)
 - EDUC 582: Instructional Leadership I: Standards-based Teaching, Learning and Assessment (4)
 - EDUC 583: Instructional Leadership II: Teacher Development and the School Improvement Process (4)
 - EDUC 584: Schools and Districts as Learning Organizations (2)
 - EPSY 541A: Assessing Student and Staff Instructional Needs (1)
 - EPSY 541B: Assessing Student and Staff Instructional Needs (1)
 - EPSY 542: Group Dynamics and Instructional Leadership (2)
 - SPED 583: Current Issues in Exceptionality (2)

Entering candidates who demonstrate competencies aligned with Washington State Professional Certificate standards may be

awarded up to ten tuition-free credits toward the 32-semester hour degree. Candidates must submit a portfolio for juried review. Guidelines for portfolio submission are available online and in the School of Education.

M.A.E. Principal and Administrator Program

32 semester credits

This program is currently offering certification only. Applicants must have a master's degree. The Principal and Program Administrator Program educates creative, energetic, reform-minded administrators for the leadership positions in Washington schools. To achieve this, the program aims to develop leaders that:

- Respond to the diversity of their community
- Engage community support systems
- Understand the purpose and use of accountability measures
- Create an environment of instructional leadership
- Model a deep understanding of the ethical issues in schooling and leadership

Admission/Application For M.A.E. Program, please visit: <https://www.plu.edu/education/programs/master-of-arts-in-education/>

For Certification Only Program, please visit: www.plu.edu/education/programs/principal-preparation-program/

Required Courses by Track Option

M.A.E. with Principal or Program Administrator Certification Curriculum

32 semester hours

- EDUC 555B: Family and Community Engagement (1)
- EDUC 576: Personnel Development (3)
- EDUC 577: School Finance (2)
- EDUC 578: School Law (3)
- EDUC 582: Instructional Leadership I: Standards Based Teaching, Learning and Assessment (4)
- EDUC 583: Instructional Leadership II: Teacher Development and the School Improvement Process (4)
- EDUC 595: Internship in Educational Administration (2, 2)
- EDUC 596: Reflective Seminar (1, 1)
- EDUC 593: Culminating Professional Portfolio (2)
- EPSY 541A: Assessing Student and Staff Instructional Needs (1)
- EPSY 541B: Assessing Student and Staff Instructional Needs (1)
- EPSY 542: Group Dynamics and Instructional Leadership (2)
- SPED 583: Current Issues in Exceptionality (2)

Principal or Program Administrator Certification Only Curriculum

16 semester hours

All Candidates required to take:

- EDUC 576: Personnel Development (3)
- EDUC 577: School Finance (2)
- EDUC 578: School Law (3)
- EDUC 595: Internship in Educational Administration (2, 2)
- EDUC 596: Reflective Seminar (1, 1)
- EDUC 593: Culminating Professional Portfolio (2)

Candidates in the Certificate Only program may have equivalencies from their master's program for the courses listed below (16 semester hours). If they do not have equivalencies, they may need to take these courses as a part of their program in addition to the courses listed above.

- EDUC 555B: Family and Community Engagement (1)
- EDUC 582: Instructional Leadership I: Standards Based Teaching, Learning and Assessment (4)
- EDUC 583: Instructional Leadership II: Teaching Development and the School Improvement Process (4)
- EPSY 541A: Assessing Student and Staff Instructional Needs (1)
- EPSY 541B: Assessing Student and Staff Instructional Needs (1)
- EPSY 542: Group Dynamics and Instructional Leadership (2)
- SPED 583: Current Issues in Exceptionality (2)

Master of Arts in Education (EDUC) - Graduate Courses

EDUC 510 : Teaching Reading and Language Arts

Investigates how children learn to read, improve their fluency, and strengthen their vocabulary and comprehension. Includes required reading tutoring practicum. (3)

EDUC 514 : Management and Student Engagement

Introduces commonly used engagement and management strategies for increasing academic achievement. Includes a 15 hour practicum. (2)

EDUC 520 : Current Issues of Child Abuse and Neglect

Issues of child abuse, neglect, harassment, and violence. Includes identification and reporting procedures, and the legal and professional responsibilities of all mandated reporters. (1)

EDUC 528 : Reading and Writing Across the K-8 Curriculum

Investigates genres of contemporary children's literature and how to develop a personal repertoire of reading material for classroom use. Also examines strategies for teaching writing in K-8 classroom. (2)

EDUC 529 : Reading and Writing Across the Secondary Curriculum

Explores strategies for integrating young adult reading materials and written work and reading and writing instruction in all secondary content areas. (2)

EDUC 544 : Sociocultural Foundations of Education

Examines the purposes of K-12 schools, the root causes of the achievement gap, and the ways accomplished teachers adapt to the changing sociocultural context of schooling. (2)

EDUC 556 : Critical Issues in Secondary Teaching

Introduces what successful secondary teachers know and are able to do in the areas of curriculum and assessment, instructional methods, and classroom management. (2)

EDUC 561 : Instructional Methodologies for Secondary Teachers

This course will introduce the instructional methodologies being used currently in secondary schools, including curriculum design, instructional strategies, the use of assessments, and specific methodologies for content area instruction. (4)

EDUC 562 : Schools and Society

Individual and cooperative study of the socio-cultural and cultural, political, legal, historical, and philosophical foundations of current practices of schooling in America. Prerequisite: Admission to the M.A.E./Cert program or consent of instructor. (3)

EDUC 563A : Integrating Seminar: Technology Embedded Instructional Design

Students work cooperatively and individually to integrate education course work, field experience, and individual perspective during graduate degree programs. May be repeated for credit. (2)

EDUC 563B : Integrating Seminar: Internship

A seminar focusing on development of professionalism and competence in inquiry and reflective practice with opportunities to demonstrate your knowledge and skills related to the complexities of teaching. (2-4)

EDUC 564 : The Arts, Mind, and Body

An exploration of methods to facilitate creativity and meaning-making in the classroom through visual, musical, non-verbal/physical movement, and dramatic arts. (2)

EDUC 565 : Elementary Reading, Language Arts, Social Studies

Practice designing, implementing, and assessing lessons and units that integrate reading, language arts, and social studies content in K-8 classrooms. Introduces exemplary reading, language arts, and social studies classroom materials and examines what successful classroom managers in K-8 classrooms know and are able to do. (2)

EDUC 566 : Elementary Math and Science

Practice designing, implementing, and assessing math and science lessons and units in K-8 classrooms. Introduces exemplary math and science classroom materials and examines what successful classroom managers in K-8 classrooms know and are able to do. (2-4)

EDUC 568 : Internship in Teaching

Internship in classroom settings. Fourteen weeks of teaching under the direct supervision of cooperating teachers and university supervisors. Designed for students in the M.A.E./Cert program. (6)

EDUC 587 : History of Education

A study of great men and women whose lives and writings have shaped and continue to shape the character of American education. (3)

EDUC 588 : ST: Leadership in Higher Education

Leadership development for administrators and faculty. Focus on higher education leadership models as they relate to PLU. Restricted to PLU administrators and faculty. (1 to 4)

EDUC 589 : Philosophy of Education

Philosophical and theoretical foundations of American education as well as the social philosophy of growing diverse populations in the K-12 schools. (3)

EDUC 591 : Independent Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

EDUC 700 : Educational/Instructional Leadership Orientation & Introduction

This course is to prepare students for executive/advanced school leadership roles in districts. The course emphasizes the character, dispositions, and skills, as well as the values and beliefs, which inform effective school and organizational leadership and support the development of a districtwide vision. Additionally, this course will introduce students to the PLU Ed.D. program and build relationships among cohort members and faculty. (3)

EDUC 701 : Educational Research I

This course provides foundational concepts in educational research including various methodologies. The course will address criteria for evaluating and using educational research in their own practice. Students will develop skills in understanding and evaluating research claims. Course concepts include descriptive and inferential statistics and quantitative research designs. Students will also develop knowledge and skills of action research. (4)

EDUC 711 : Educational Research II: Qualitative Research

This second course in the research methods sequence addresses major concepts of qualitative research methods. Students will learn the major methodologies and ethical implications of qualitative research including appropriate research questions. Students will learn and implement qualitative data collection and analysis techniques. (2)

EDUC 721 : Educational Research III: Program Evaluation

This third course in the research methods sequence addresses major concepts of program evaluation. This course prepares students to plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation for their Applied Project. The course addresses the similarities and differences between program evaluation and other forms of education

research and related ethical implications. Students will learn the steps in designing and conducting a program evaluation, as well as considerations when contracting for program evaluations, as many educational grants and programs require outside evaluation. (2)

EDUC 731 : Educational Leadership: Instructional Leadership

In this course, students will learn both the field's best knowledge of what high-quality learning is and how to generate it at a systems level. Students will read, discuss, collect and analyze data around learning at all levels of a school district's system; including, students, teachers, and school and district leaders. Concurrently, students will examine the leadership actions and formal and informal organizational systems that serve as levers for learning. Students will be guided by three key questions at each level of analysis: what is the learning, how does the learning occur, and when and under what conditions do people learn? (3)

EDUC 732 : Current Trends and Challenges in Educational Leadership

Educational leaders serve in districts impacted by many social, economic, and political factors; thus, leaders must maintain a clear understanding of these issues in order to implement change. This course will provide an in-depth analysis of current trends and issues impacting leadership. This will enable the candidate to focus on personal growth and development of characteristics of leadership. This course will explore and study the current issues and trends related to the field of education leadership through several case studies. Emphasis will be placed on current problems of practice, research, and analysis of practices related to effectiveness. (3)

EDUC 741 : Educational Law, Policy, and Governance

The primary goal of this course is to assist the school leader to develop the attitudes, knowledge, and skills necessary to effectively practice high quality, ethical and legal practices based on the law and appropriate policy application. This course explores federal and state law that school administrators and superintendents are responsible to know and administer. This course is a requirement for all students in the Ed.D. program and for the superintendent certification. (2)

EDUC 742 : Human Resources in P12

This course provides learning of concepts, skills, theories, and techniques involving human resource management and a review of examples of HR practices in P-12 school systems. This course extends what building leaders know and understand about HR and looks at it through a district and superintendent role. There will be an examination of human resource planning, development, and utilization in modern organizations. Topics include: recruitment, selection, training and development, performance appraisal, collective bargaining, contracts, benefit programs, relationships, and role of the human resource department. (2)

EDUC 743 : Educational Finance in P12

The primary goal of this course is to help aspiring school leaders understand school finance and the systemic and political impacts on P12. Students will look at school funding, applying an equity and instructional lens, to help prioritize and guide district level funding. Particular emphasis will be placed on the role of the superintendent or program leader in advocating for students and programs. (2)

EDUC 744 : Community & Family Engagement

The primary goal of this course is to assist district leaders in developing the knowledge, skills, and cultural understanding to improve learning and achievement by collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources. Students will explore the roles and responsibilities of school leaders in co-creating with families and communities to establish social networks of shared responsibility for student learning and development. This course is a requirement for all students in the Ed.D. program and for the superintendent certification. (2)

EDUC 745 : School Board Relations

The school board governs and the superintendent administers the school district. While this may sound simple, it is often the most difficult area for the board and superintendent to clarify. Not having a clear understanding of the board and superintendent's proper role can lead to poor communication, mistrust, and, in the end, conflict and educational failure. This course will focus on the role of the superintendent, board, and the relationship between the two. (1)

EDUC 746 : Crisis, Conflict, Emergency Management

Effectively managing crisis, conflict, and emergencies is a critical responsibility of a school leader. This course focuses on how

educational leaders plan for, manage, and address crises at the institutional level. This course provides practical experiences where students analyze and apply knowledge related to crisis management systems essential to the health and safety of employees and students. (2)

EDUC 747 : Central Office and Programmatic Leadership

This course focuses on superintendent or school district leader roles in establishing effective central management and the integration of special programs; including, Title I, LAP, student services, early childhood, career and technical education, and special education. The course also includes systems and strategies to evaluate program leaders and principals across the system. Students will explore approaches to improve central district systems and student learning for historically underserved populations. (2)

EDUC 760 : Evaluation and Supervision in Educational Leadership

The primary goal of this course is to develop knowledge, skills, dispositions, and cultural competence required of the aspiring school leader to effectively assess instruction and provide feedback to teachers for the improvement of practice and pedagogy in the P-12 setting. This course will cover the evaluation and supervision of certificated staff; including, teachers, principals, and central office/program administrators. During this course, the school leader will conduct several classroom, school, and district observations using the Washington State Teacher and Principal Evaluation (TPEP), one of the three approved instructional frameworks, and the AWSP principal framework. (2)

EDUC 761 : Educational Leadership: Equity and Social Justice

This course will prepare students to serve as leaders who can demonstrate effective diversity leadership for all students; including, students of all races, students who are linguistically diverse, students with disabilities, students from low-income families, and students along the gender/sexual identity spectrum and their intersections. This course supports students in creating equitable and rich school and district cultures where staff, students, and members of the wider school community are engaged and work together to create a dynamic, inclusive learning environment. (3)

EDUC 762 : Educational Leadership: Systems Leadership

The goal of this course is to expand the students' understanding of systems thinking (a) the role of the leader in evaluating systems theory and frameworks used by educational organizations, particularly in the creation and maintenance of organizational identity; (b) knowledge and skill of policy formulation, evaluation, and advocacy; including, methods of influence, building strategic alliances, and setting policy agendas; (c) the role of the educational leader in working with multiple constituencies (government, legislature, lobbyists, special interest groups, media); and (d) purposes and effective strategies for building teams in leadership settings. (3)

EDUC 763 : Collaboration and Contributions to the Profession

This course supports Ed.D. students/candidates by offering opportunities for them to engage in providing and receiving professional growth and development, mentorship, and networking within the P-12 system. Students in this course will partner with local school and local system leaders, community leaders, current cohort members, and alumni to advance connections and identify next career steps. (1)

EDUC 790 : Program Evaluation Applied Project & Seminar

This is the first course in the Ed.D. Program Evaluation Applied Project Series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation. (3; 1 didactic, 2 clinical)

EDUC 791 : Program Evaluation Applied Project & Seminar

This is the second course in the Ed.D. Program Evaluation Applied Project Series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation. This course includes public presentation of the Program Evaluation to both an academic audience as well as the relevant client (e.g. school, district, state agency, and/or community organization). (4; 1 didactic, 3 clinical)

EDUC 792 : Applied Project Seminar

This course serves as an introduction to the Instructional Leadership and Equity Applied Project process. Students will build upon their research methods and leadership courses to develop their problem statement, research question(s), and outline for their project proposal. The course will also provide an overview of the IRB process. (2)

EDUC 793 : Instructional Leadership and Equity Applied Project & Seminar

This is the first course in the Ed.D. Instructional Leadership and Equity Applied Project series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of an Equity Focused Applied Project that represents a synthesis of the learning throughout the doctoral program. (4)

EDUC 794 : Instructional Leadership and Equity Applied Project & Seminar

This is the second course in the Ed.D. Instructional Leadership and Equity Applied Project series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of an Instructional Leadership and Equity Focused Applied Project that represents a synthesis of the learning throughout the doctoral program. This course includes public presentation of the project to both an academic audience as well as the relevant school, district, state agency, and/or community organization. (5; 1 didactic, 4 clinical)

EDUC 795 : Executive Leadership Internship

The superintendent internship is part of the professional preparation of school administrators. The basic function of the internship is to enable the intern/candidate to gain the necessary experience in the performance of the critical tasks of his/her profession while under the close supervision of a certified, experienced superintendent and a university field supervisor. The internship is 360 hours and will assist the aspiring school leader by building upon coursework and learning through practical field experience. NELP leadership standards that are in the foundation for the superintendent certification program frame this course. Will be repeated twice for certification and may be repeated up to four times total. (1)

Master of Arts in Education (EPSY) - Graduate Courses

EPSY 566 : Advanced Cognition, Development and Learning

The study of principles and current thought and research in cognition, development, and learning. Prerequisite: Admission to the MA/Cert program or consent of instructor. (2)

EPSY 587 : Special Topics in Educational Psychology

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EPSY 588 : Special Topics in Educational Psychology

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

EPSY 589 : Special Topics in Educational Psychology

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

Master of Arts in Education (SPED) - Graduate Courses

SPED 520 : Teaching Students with Special Needs

Introduction and overview of services for students with special needs at all levels. Includes procedural and substantive legal issues in special education, program modification, and classroom management. (2)

SPED 580 : Foundations and Instructional Strategies for Students with Disabilities

This course is designed to build a strong foundational understanding of the various issues related to special education and provide ways to apply strategies aimed at building inclusive, supportive, and positive classroom environments that are characterized by quality differentiated instruction. (2)

SPED 588 : Legal, Ethical, and Administrative Issues in Special Education

Investigation of special education administrative practices, pupil placement procedures, student staffing, program reimbursement procedures, and federal funding models. (2)

Master of Business Administration (M.B.A.)

253.535.7252	www.plu.edu/mba/	plumba@plu.edu
Mark Mulder, Ph.D., Dean	Juanita Reed, M.Ed., Associate Dean	

Admission

The PLU M.B.A. program offers two tracks: a general M.B.A. in Business Administration and an M.B.A. in Management Science & Quantitative Methods. Aspirants may apply for admission to either of the two tracks.

The PLU M.B.A. program is competitive. Selection is based on several criteria including work experience and potential contribution to the classroom experience. The Graduate Admission Committee bases decisions on a holistic assessment of the individual merits of each applicant. For questions regarding admission to the M.B.A. program, contact the M.B.A. director at 253.535.7252.

To apply submit the following:

- The PLU graduate application is available online at www.plu.edu/mba/
- A current résumé detailing work experience and community service
- All official transcripts from higher education institutions
- International transcripts should be translated into English. In some cases, a professional transcript evaluation may be required.
- A Statement of Professional Goals
- Official Graduate Management Assessment Test (GMAT) **or** Graduate Record Exam (GRE) (Optional)
- Two letters of recommendation
- Application Fee

International applicants must also submit:

- TOEFL **or** IELTS score report (determination of English proficiency is at the sole discretion of PLU)
- I-20 Evaluation Documents
- Declaration of Finances

An interview with the M.B.A. Graduate Admission Committee may be requested.

Applicants are evaluated individually, based on multiple factors indicating equivalence to admission standards, a promise of success in graduate school, qualities of good character, and potential contributions to the educational mission of graduate study.

Fast Track Admission

Fast Track is an abbreviated application process to the School of Business graduate programs. Students and recent alumni from PLU, any AACSB accredited school, or any Bachelor of Applied Science program at a community or technical college in Washington State, from any major, may be eligible to apply via this process. Applications may be submitted at any time during undergraduate studies. Eligible candidates remain admitted, provided that they complete their degree with minimum qualifications. Please contact the program director for details.

M.B.A. Repeat Policy

Master of Business Administration students may repeat an M.B.A. course one time. The cumulative grade point average is computed using the highest of the grades earned. Credit toward graduation is allowed only once. Under exceptional circumstances, a student may appeal to the dean to repeat a course a second time.

Master of Business Administration Degree (M.B.A.)

M.B.A. (Business Administration) Degree Requirements

36 semester hours; 44 semester hours with emphasis

Students are not required to have an area of emphasis

◦ **M.B.A.**

36 semester hours

- BMBA 509: Global Business Perspectives (4)
- BMBA 510: Legal, Ethical and Social Responsibilities of Business (4)
- BMBA 511: Accounting for Decision Making (4)
- BMBA 513: Marketing Management (4)
- BMBA 515: Organizations, Leadership and Change Management (4)
- BMBA 517: Understanding & Managing Financial Resources (4)
- BMBA 521: Supply Chain and Information Management (4)
- BMBA 522: Quantitative and Managerial Decision Analysis (4)
- BMBA 523: Business Strategy and Innovation Management (4)

M.B.A. Emphasis Areas

◦ **Healthcare Management Emphasis**

8 semester hours

- BMBA 560: Managing Health Care Enterprises (4)
- **And 4 semester hours from the following:**
 - BMBA 577: Project Management (4)
 - Approved BMBA 587/588/589: Special Topics (1 to 4)
 - BMBA 596: Internship (1 to 4)

◦ **Entrepreneurship and Closely-Held Enterprises Emphasis**

8 semester hours

- BMBA 550: Leading Family and Closely-Held Enterprises (4)
- **And 4 semester hours from the following:**
 - BMBA 577: Project Management (4)
 - Approved BMBA 587/588/589: Special Topics (1 to 4)
 - BMBA 595: Internship (1 to 4)

◦ **Technology and Innovation Management Emphasis (TIM)**

8 semester hours

- BMBA 570: Management and Marketing of Technology (4)
- **And 4 semester hours from the following:**
 - BMBA 577: Project Management (4)
 - Approved BMBA 587/588/589: Special Topics (1 to 4)
 - BMBA 595: Internship (1 to 4)

◦ **Supply Chain Management Emphasis**

8 semester hours

- BMBA 561: Advanced Supply Chain Management (4)
- **And 4 semester hours from the following:**
 - BMBA 577: Project Management (4)
 - Approved BMBA 587/588/589 Special Topics (1 to 4)
 - BMBA 595: Internship (1 to 4)

M.B.A. (Management Science & Quantitative Methods) Degree Requirements

44 semester hours

- BMBA 504: Quantitative Methods for Decision Making (4)
- BMBA 509: Global Business Perspectives (4)
- BMBA 510: Legal, Ethical and Social Responsibilities of Business (4)
- BMBA 511: Accounting for Decision Making (4)
- BMBA 513: Marketing Management (4)
- BMBA 515: Organizations, Leadership and Change Management (4)
- BMBA 517: Understanding & Managing Financial Resources (4)
- BMBA 521: Supply Chain and Information Management (4)
- BMBA 522: Quantitative and Managerial Decision Analysis (4)
- BMBA 523: Business Strategy and Innovation Management (4)
- BMBA 526: Big Data and Decision Analytics (4)

Certificates

Certificate in Technology and Innovation Management (TIM)

8 semester hours

Individuals holding a bachelor's degree in a business or technology related field from an accredited institution may pursue a Certificate in Technology and Innovation Management (TIM). Holders of bachelor's degrees in other fields with relevant industry experience are also considered.

- BMBA 570: Management and Marketing of Technology (4)
- BMBA 577: Project Management (4)
- Approved BMBA 587/588/589: Special Topics (1 to 4)

Certificate in Healthcare Management

8 semester hours

Individuals holding a bachelor's degree in a business or healthcare related field from an accredited institution may pursue a Certificate in Healthcare Management. Holders of bachelor's degrees in other fields with relevant industry experience are also considered.

- BMBA 560: Managing Health Care Enterprises (4)
- And 4 semester hours from the following:
 - BMBA 562: Health Care Regulation, Law & Ethics (4)
 - BMBA 577: Project Management (4)
 - Approved BMBA 587/588/589: Special Topics (1 to 4)

Certificate in Entrepreneurship and Closely-Held Enterprises

8 semester hours

Individuals holding a bachelor's degree in a business or related field from an accredited institution may pursue a Certificate in Entrepreneurship and Closely-Held Enterprises. Holders of bachelor's degrees in other fields with relevant industry experience are also considered.

- BMBA 550: Leading Family and Closely-Held Enterprises (4)
- And 4 semester hours from the following:
 - BMBA 577: Project Management (4)
 - Approved BMBA 587/588/589: Special Topics (1 to 4)

Certificate in Supply Chain Management

8 semester hours

Individuals holding a bachelor's degree in a business or related field from an accredited institution may pursue a Certificate in Supply Chain Management. Holders of bachelor's degrees in other fields with relevant industry experience are also considered.

- BMBA 561: Advanced Supply Chain Management (4)
- And 4 semester hours from the following:
 - BMBA 577: Project Management (4)
 - Approved BMBA 587/588/589: Special Topics (1 to 4)

Master of Business Administration (M.B.A.) - Graduate Courses

BMBA 504 : Quantitative Methods for Decision Making

Methods and techniques of quantitative research. Emphasis on research design, data collection, basic data analysis; including, chi-square, correlation, ANOVA and regression, as well as interpretation and presentation of results. Students will work in groups to provide a custom research project for a business or non-profit client. (4)

BMBA 509 : Global Business Perspectives

Evaluate cultural, economic, political and environmental contexts for global business. Develop value-adding strategies, organizational capabilities and personal competencies for business success across borders and cultures. On-campus course with embedded international experience. (4)

BMBA 510 : Legal, Ethical and Social Responsibilities of Business

A survey of legal topics essential to effective managerial decision making. Explore the legal, ethical, and social implications of legal strategies and practices. This course also examines the sources and development of conflict and develops negotiation as a tool for managing conflict situations. (4)

BMBA 511 : Accounting for Decision Making

An examination of financial and managerial accounting topics, including financial reporting, budgeting, and cost behavior. The focus is on using accounting to support business decision making. (4)

BMBA 513 : Marketing Management

A practical approach to understanding and applying customer-directed marketing strategies for achieving organizational goals. Students will examine theoretical concepts and apply contemporary approaches to the marketing of services, products and ideas in business, public, and nonprofit organizations. (4)

BMBA 515 : Organizations, Leadership, and Change Management

The leader's role in creating organizational designs, processes and cultures. Leader competencies and practices for developing and managing people to meet performance requirements and organization cultural fit, and analyzing needs for organizational change. (4)

BMBA 517 : Understanding and Managing Financial Resources

Corporate finance topics including cash flow forecasting, planning, budgeting, valuation models, cost of capital, leverage, and risk and return. Additional topics include ratio analysis, computer simulation, financial feasibility assessment, balance sheet analysis, determinants of interest rates, and the impact of business cycle fluctuations on shareholder value. (4)

BMBA 521 : Supply Chain and Information Management

Develops a managerial perspective on the role of manufacturing and service operations within the enterprise and in supply chains. Examine the strategic role of information technology and systems in enabling decision making for global competitive advantage. (4)

BMBA 522 : Quantitative and Managerial Decision Analysis

Provide an intensive introduction to quantitative methods for business applications. Examination of the context within which individual firm decisions must be made. Demand, cost, pricing decisions, and the economic and regulatory environment of the firm are emphasized. (4)

BMBA 523 : Business Strategy and Innovation Management

Apply a multidisciplinary approach to explore execution of business- and corporate-level strategies, such as differentiation, cost-leadership, diversification, alliances, and M&As, and managing innovation to generate sustainable competitive advantage in a global context. (4)

BMBA 526 : Big Data and Decision Analytics

This course provides a broad overview of analytic strategies for (structured and unstructured) data collected in interactive channels. Topics covered include: big data, key performance indicators, and how to optimize digital experiences by incorporating testing and experimentation. Prerequisites: BMBA 513. (4)

BMBA 550 : Leading Family and Closely-Held Enterprises

Explores issues unique to managing, working within, or advising closely held businesses. Role of closely held firms in global economy; control, fairness, and equity issues; succession; unique aspects of family firms including family dynamics inside and outside of the business. Prerequisite: BMBA 515. (4)

BMBA 560 : Managing Health Care Enterprises

Surveys policy and operational issues facing managers in the rapidly changing health care environment. Explores challenges of managing in health care settings, including hospitals, medical practice organizations, long-term care facilities and clinics. Discusses health care related organizations such as health insurance companies, consulting firms, managed care organizations, pharmaceutical companies, and other organizations that support the health care industry. Prerequisite: BMBA 515. (4)

BMBA 561 : Advanced Supply Chain Management

This course presents a range of advanced topics in integrated operations and supply chain management. Topics include strategic sourcing and procurement strategies, demand-driven performance, mitigation of supply chain risk, management of third party logistics, and management of supply chain security and risk. Critical to understanding supply chain operations is a review of conventional operations practices and the challenges of flow vs unit costs and the specific challenges of complex supply chains and complex technical systems. Prerequisite: BMBA 521. (4)

BMBA 570 : Management and Marketing of Technology

Examines the critical role that technology plays in achieving organizational effectiveness and competitive advantages. Topics include planning, developing, sourcing, and controls of technology and systems, technology transfer and commercialization, technology road mapping, technology integration, marketing of technology, science and technology policy, and global issues in technology management. Prerequisite: BMBA 521. (4)

BMBA 577 : Project Management

Study of project management principles and techniques including planning, network building, project control, reporting and closing to address the unique conditions and challenges associated with designing and managing major non-repetitive undertakings. May not be counted toward more than one concentration or certificate. Prerequisite: BMBA 515. (4)

BMBA 587 : Special Topics in Business Administration

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMBA 588 : Special Topics in Business Administration

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected

advanced topics. (1 to 4)

BMBA 589 : Special Topics in Business Administration

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMBA 591 : Independent Study

Individualized reading and studies. Minimum supervision after initial planning of student's work. Rarely granted and requires prior approval of M.B.A. director and consent of instructor. (1 to 4)

BMBA 595 : Internship

Application of business knowledge in field setting. Credit granted determined by hours spent in working environment and depth of project associated with course of study. Pass/fail. (1 to 4)

Master of Fine Arts - Creative Writing (M.F.A.)

253.535.7221	www.plu.edu/mfa/	mfa@plu.edu
Rick Barot, M.F.A., Director		

M.F.A. Degree Requirements

44 semester hours

▫ M.F.A. Summer Residency

An intensive ten-day residency during which students attend workshops, lectures, mini-courses in writing and design an independent course of study with a mentor for the upcoming year. Faculty will include distinguished writers, editors and literary agents. (4 credits per residency, 16 semester hours required for graduation)

▫ M.F.A. Writing Mentorship

One-on-one correspondence with a professional mentor in a genre or genres of choice. Each student spends approximately 15 hours per week on creative and critical writing. At the completion of the program, the students will produce a critical paper plus a book-length thesis. First year – 8 mailings. Second year – 5 mailings plus field experience. Third year – 6 mailings, critical paper, plus thesis. (4 to 12 semester hours per year, total of 28 semester hours required for graduation)

▫ Field Experience

An outside experience to introduce students to varied aspects of the writing life, to ongoing opportunities for community service and professional development, to voices and approaches other than those of our faculty, to an independent writing life. May include residencies at arts colonies and summer workshops, study abroad, community service projects, teaching or appropriate internships. (100 hours. Required for graduation)

▫ Graduation Residency

Special pre-graduation session leading to awarding of degree. Four semester hours. Required.

Master of Fine Arts in Creative Writing (M.F.A.) - English (ENGL) - Graduate Courses

ENGL 504 : Summer Residency I

16 hours of required workshops. 20 additional hours of lectures and mini-courses (topics in genre/topics in craft), readings. Design an independent course of study with a mentor for the upcoming year. (4)

ENGL 505 : Summer Residency II

16 hours of required workshops. 20 additional hours of lectures and mini-courses (topics in genre/topics in craft), readings. Design an independent course of study with a mentor for the upcoming year. (4)

ENGL 506 : Summer Residency III

16 hours of required workshops, 20 additional hours of lectures and mini-courses (topics in genre/topics in craft), readings. Design an independent course of study with a mentor for the upcoming year. (4)

ENGL 507 : Summer Residency IV

Teaching a class based on critical paper or outside experience. Public reading from creative thesis. Participation in workshops and classes. Graduation. (4)

ENGL 511 : Writing Mentorship I

One-on-one correspondence with a professional mentor in a genre or genres of choice. Approximately 15 hours of work per week on creative and critical writing. 8 mailings. Emphasis on original work. 24 required texts with approximately 40 pages of critical writing. (4 credits fall, 4 credits spring)

ENGL 512 : Writing Mentorship II

One-on-one correspondence with a professional mentor in a genre or genres of choice. Approximately 15 hours of work per week on creative and critical writing. 5 mailings. Continued emphasis on original work. 15 required texts with approximately 25 pages of critical writing. Implementation of a field experience (approximately 100 hours) to be set up in collaboration with the director of the program, who will act as advisor on the project. (4 credits fall, 4 credits spring)

ENGL 513 : Writing Mentorship III

One-on-one correspondence with a professional mentor in a genre or genres of choice. Approximately 15 hours of work per week on creative and critical writing. 3 mailings. Emphasis on critical paper (20-40 pages). (4)

ENGL 591 : Independent Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

ENGL 595 : Internship

To permit graduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ENGL 598 : Non-thesis Research Project

To provide graduate students with graduate-level non-thesis research opportunities. The title will be listed on the student term-based record as Project: followed by the specific title designated by the student. (1 to 4)

ENGL 599 : Thesis

One-on-one correspondence with a professional mentor in a genre or genres of choice. 3 mailings. Emphasis on organization of creative thesis (book-length manuscript), final revision, planning for public presentation (class or lecture). (8)

Master of Science - Kinesiology (M.S.)

253.535.8570	www.plu.edu/master-of-science-kinesiology/	gradadmission@plu.edu
Mallory Mann, Ph.D., Chair		

Admission

The Master of Science in Kinesiology program is on hiatus for the 2023-24 academic year.

Admission to the MS in Kinesiology is based on several criteria including academic preparation, work experience, and potential contribution to the classroom experience. The Graduate Admissions Committee bases decisions on a holistic assessment of the individual merits of each applicant. Academic preparation will be evaluated holistically by the program admission team with consideration given to the applicant's previous formal education and relevant professional certifications or experience. Students may be given conditional admission based on gaps in previous knowledge. Conditional admission may require the completion of necessary prerequisite coursework prior to the start of the program.

To be eligible for admission applicants must hold a bachelor's degree from a regionally accredited institution with a cumulative undergraduate GPA of 3.0 or higher.

To apply, submit the following:

Official transcripts from all universities attended

Two letters of recommendation, either academic or professional

A current resume

A letter of application not to exceed a total of five double spaced pages

Application processing fee

Master of Science - Kinesiology (M.S.)

34 semester hours

- KINS 500: Research Methods and Applications (4)
- KINS 505: Inclusive Leadership (4)
- KINS 510: Mentorship and Leadership (2)
- KINS 515: Applied Sport Psychology I (4)
- KINS 520: Adapted Training for Special Populations (4)
- KINS 592: Special Topics (4)
- KINS 595: Project + Defense (4)
- **Select one focus area from the following**
 - Applied Sport Psychology
8 semester hours
 - KINS 530: Current and Social Issues in Sport (4)
 - KINS 540: Applied Sport Psychology II (4)
 - Applied Exercise Science
8 semester hours
 - KINS 525: Applied Exercise Science I (4)
 - KINS 535: Applied Exercise Science II (4)

Master of Science - Kinesiology (M.S.) - Graduate Courses

KINS 500 : Research Methods and Application in Kinesiology

The course will introduce basic concepts in research methods and experimental design relevant to the area of Kinesiology. The course is designed to create a better understanding of the principles, concepts, terminology, and instruments used in measurement and analysis in the various sub-domains of Kinesiology. The course will focus on the scientific method, addressing both quantitative and qualitative research methodologies. Emphasis will be placed on developing evidence-based practitioners that critically utilize the scientific literature in their professional endeavors in Kinesiology. (4)

KINS 505 : Inclusive Leadership

The course is designed to explore cultural factors that influence people and human interaction. Specifically, students will study the role of diversity and the experiences of people with marginalized identities in United States sport organizations. The various ways that people may differ and how this diversity can impact experiences and outcomes in sport and exercise settings will be examined. Students will be challenged to critically think about the concept of diversity and its impact on individuals within the sport and society and critically reflect on how their own cultural biases, values, beliefs, attitudes and behaviors influence their professional practice and interactions with clients. Research-driven best practices for developing inclusion in sport and exercise will be provided. Students will gain an understanding of the knowledge, skills and competencies of inclusive leaders in sport and exercise. Evidence-based strategies for integrating the diverse talents of all contributors in order to develop high functioning and effective teams, organizations, classrooms, and exercise communities will be discussed. (4)

KINS 510 : Mentorship and Leadership

This course is designed to provide independent mentoring between a faculty member and a graduate student. The experience provides opportunities for leadership development and professional development appropriate to the student's interests and abilities. This is a Pass/Fail class only. A general outline of the student's final project is also expected to be developed as a function of the mentoring process. Can be repeated once for credit up to four semester hours. (2)

KINS 515 : Applied Sport Psychology I

Examination and analysis of theory and research relating to social psychological factors and group dynamics affecting sport and exercise behavior. This course will focus on theory, research and application related to individual and group factors (e.g., motivation, communication, feedback, attribution, leadership) that affect cognitions, behavior and performance in sport and physical activity. Current issues in exercise psychology including exercise adherence and behavioral change strategies will also be examined. (4)

KINS 520 : Adapted Training for Special Populations

The course will emphasize designing exercise programs for special populations, including adapted training, younger and older adults, and individuals with specific conditions and limitations. Emphasis will be placed on modifications and application of training programs. (4)

KINS 525 : Applied Exercise Science I

The course will address the physiological responses and adaptations to acute and chronic training. Additionally, students will understand how the energy systems impact design of training programs. Emphasis will also be placed on periodization and yearlong design in relation to development of training programs to improve or maintain agility, power, cardiovascular endurance, and balance. (4)

KINS 530 : Current and Social Issues in Sport

This course serves as a comprehensive introduction to current topics facing practitioners in sport and exercise psychology. The focus of the course will be to critically examine the challenges and opportunities facing athletes, exercisers, and non-sport performers as well as teams, franchises, leagues, national governing bodies (NGBs) and others with a vested interest in performance excellence. Given the seminar style of the course, topics will focus on the interests of each unique cohort. The purposes of the course is to help students develop the ability to make constructive, evidence-based, practical decisions regarding contemporary issues they may face in their profession. (4)

KINS 535 : Applied Exercise Science II

This course will address theoretical and practical bases of program design in weight training. Additionally, the course will cover functional anatomy and proper lifting techniques. Emphasis is placed on the design of individual and group exercise programs. The main goal after successfully completing this course is for the student to be able to perform safe and appropriate exercise testing and develop a safe and effective strength training program. (4)

KINS 540 : Applied Sport Psychology II

Examines theory, research, and professional practice related to psychological interventions in sport and physical activity. This course focuses on the use of educational psychological interventions to facilitate personal development, performance, and injury rehabilitation in a variety of physical activity settings. Students will learn evidence-based strategies and techniques aimed at enhancing psychological enjoyment, performance, and well-being commensurate with their age, skill level, and personal goals. Students will gain an understanding of existing best practices and literature with the purpose of integrating practical

performance psychology applications in a variety of professional settings. Scope of professional capabilities, education and training and how those variables impact ethical professional practice will be explored. (4)

KINS 591 : Independent Study

To provide individual graduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as "IS:" followed by the specific title designated by the student. Prerequisite: departmental approval and consent of mentor. Can be repeated up to three times for credit for a total of eight semester hours. (2)

KINS 592 : Special Topics

A seminar-style course focused on a particular topic of relevance to the field or a current issues, challenge, or trend in the discipline. (4)

KINS 595 : Final Project and Defense

This course encompasses the completion of the final written project and the public defense of the project. (4)

Master of Science - Marketing Analytics (M.S.)

253.535.7252	www.plu.edu/msma/	business@plu.edu
Mark Mulder, Ph.D., Dean	Juanita Reed, M.Ed., Associate Dean	

Admission

The PLU M.S.M.A. program is competitive. Admission decisions are based on a holistic assessment of the individual merits of each applicant including quantitative ability, potential contribution to the classroom experience and qualities of good character. For questions regarding admission to the M.S.M.A. program, contact the M.S.M.A. director at 253.535.7252.

To apply submit the following:

- The PLU graduate application is available online at www.plu.edu/msma/
- A current résumé detailing work experience and community service
- All official transcripts from higher education institutions
- International transcripts should be translated into English. In some cases, a professional transcript evaluation may be required.
- Statement of Professional Goals and Quantitative Skills
- Official Graduate Management Assessment Test (GMAT) or Graduate Record Exam (GRE) (Optional)
- Two letters of recommendation
- Application Fee

International applications must also submit:

- TOEFL **or** IELTS score report (determination of English proficiency is at the sole discretion of PLU)

The program is held fully online and in a hybrid modality. Only students in the hybrid track will be issued an I-20 for student visa applications.

An interview with the M.S.M.A. Graduate Admission Committee may be requested.

Applications are evaluated individually, based on multiple factors indicating equivalence to admission standards, a promise of success in graduate school, qualities of good character, and potential contributions to the educational mission of graduate study.

Fast Track Admission

Fast Track is an abbreviated application process to the School of Business graduate programs. Students and recent alumni from PLU, any AACSB accredited schools, or any Bachelor of Applied Science programs at a community or technical college in Washington State, from any major, may be eligible to apply via this process. Applications may be submitted at any time during undergraduate studies. Eligible candidates remain admitted, provided that they complete their undergraduate degree. Please contact the program director for details.

M.S.M.A. Repeat Policy

Master of Science in Marketing Analytics students may repeat an M.S.M.A. course one time. The cumulative grade point average is computed using the highest of the grades earned. Credit toward graduation is allowed only once. Under exceptional circumstances, a student may appeal to the dean to repeat a course a second time.

Master of Science - Marketing Analytics (M.S.)

36 semester hours

- **Fall Semester**
16 semester hours
 - BMMA 502: Marketing Strategy and Consumer Behavior (4)
 - BMMA 504: Quantitative Marketing Research (4)
 - BMMA 508: Qualitative Marketing Research (4)
 - BMMA 587/588/589: Special Topics in Marketing Analytics (4)

▫ **January Term**
4 semester hours

- BMMA 598: Graduate Research Project in Marketing (4)

▫ **Spring Semester**
16 semester hours

- BMMA 524: Advanced Research Methods (4)
- BMMA 526: Big Data and Digital Analytics (4)
- BMMA 530: Data Mining (4)
- BMMA 599: Graduate Research Project in Marketing II (4)

Master of Science - Marketing Analytics (M.S.) - Graduate Courses

BMMA 502 : Marketing Strategy and Consumer Behavior

Key topics in marketing strategy to identify target markets, develop/refine brands, and showcase points of parity and difference. Focuses on the thoughts and emotions of consumers, their behaviors, and their motivations to help implement strategies which are built upon innovative edge consumer behavior models. Practice Focus: In collaboration with real-world marketing challenges, students apply marketing strategies to help a business/organization improve their market position. (4)

BMMA 504 : Quantitative Marketing Research

Methods and techniques of quantitative marketing research. Emphasis on research design, data collection, basic data analysis including chi-square, correlation, ANOVA and regression as well as interpretation and presentation of results. Students will work in groups to provide a custom research project for a business or non-profit client. (4)

BMMA 508 : Qualitative Marketing Research

Methods and techniques of qualitative marketing research. Will examine focus groups, depth interviews, projective techniques, ethnography and other qualitative techniques. (4)

BMMA 524 : Advanced Research Methods

Emphasis on data analysis and interpretation using multivariate techniques including principal component and factor analysis, logistical regression, discriminant analysis, cluster analysis, perceptual mapping, structural equation modeling and other techniques. Prerequisites: BMMA 502, 504, 508. (4)

BMMA 526 : Big Data and Digital Analytics

This course provides a broad overview of analytic strategies for (structured and unstructured) data collected in interactive channels (online, mobile, social, etc). Topics covered include web analytics, big data, and key performance indicators, how to analyze the effectiveness of social media, and how to optimize the digital experience by incorporating testing and experimentation. Prerequisites: BMMA 502. (4)

BMMA 530 : Data Mining

This course will examine both descriptive and predictive techniques in data mining. The core topics to be covered in this course include classification, clustering, association analysis, and forecasting with an emphasis on the use of software tools for making evidenced-based decisions. Legal and ethical restrictions on use of customer information will be discussed. Prerequisites: BMMA 502. (4)

BMMA 577 : Project Management

Study of project management principles and techniques including planning, network building, project control, reporting, and closing to address the unique conditions and challenges associated with designing and managing major non-repetitive undertakings. (4)

BMMA 587 : Special Topics in Marketing Analytics

To provide graduate students with new and developing courses not yet available in the regular curriculum. The title will be listed

on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMMA 588 : Special Topics in Marketing Analytics

To provide graduate students with new and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMMA 589 : Special Topics in Marketing Analytics

To provide graduate students with new and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMMA 591 : Independent Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

BMMA 598 : Graduate Research Project in Marketing I

Application of learned marketing research and analytics skills. Students interact with clients to develop a detailed capstone project proposal with hands-on support from faculty to solve real-world marketing decision problems. Students will complete secondary data and qualitative data collection and analysis thus laying the foundation for quantitative research in Capstone Part II. Option for more theoretical academic capstone project. Field experience in data analytics to include industry site visits. Prerequisites: BMMA 502, 503, 504, 508. (4)

BMMA 599 : Graduate Research Project in Marketing II

Students will work independently with faculty to complete the marketing research project and write a publishable research article with intent to submit to a targeted journal. Prerequisite: BMMA 598. (4)

Master of Science in Nursing (M.S.N.)

253.535.7674	www.plu.edu/msn/	nurs@plu.edu
Carol Seavor, Ed.D., Dean	Kathleen Richardson, D.N.P., Associate Dean	

The School of Nursing offers three program options leading to the Master of Science in Nursing degree, each differing in the degree requirements for entry:

- Traditional Master of Science in Nursing (M.S.N.) program is designed for prepared registered nurses with a Bachelor of Science in Nursing (B.S.N.)
- The RN-B to M.S.N. program is designed for registered nurses with a baccalaureate degree in a non-nursing field.
- The Entry-Level Master of Science in Nursing program is a 27-month accelerated program designed for students with a prior non-nursing baccalaureate degree to earn RN licensure and achieve the advanced generalist M.S.N. degree.

Membership

The School of Nursing is a member of the American Association of Colleges of Nursing (AACN) and the National League for Nursing (NLN).

Accreditation and Approval

The MSN program is accredited and approved by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>) and Washington State Nursing Care Quality Assurance Commission.

The Care and Outcomes Manager (COM) curriculum meets the eligibility requirements for Clinical Nurse Leader Certification.

M.S.N. Application Priority Deadlines

M.S.N. candidates may apply for admission at any time during the year; however, application by the indicated program-specific priority deadline will enhance applicants' potential for admission and for arranging financial assistance.

- **B.S.N. to M.S.N.:** March 1/Rolling admissions for the following Fall Semester.
- **RN-B to M.S.N.:** November 15/Rolling admissions for the following Summer (June).
- **Entry-Level M.S.N.:** December 1 is a priority deadline for admissions for the following Summer (early June). No applications are accepted after January 15.

Admission Criteria

The following are the minimum criteria for consideration of admission to the Master of Science in Nursing program. Admission to the School of Nursing program is competitive; meeting minimum criteria does not guarantee admission:

- Completion of a baccalaureate degree from a regionally-accredited college or university.
- B.S.N. to M.S.N. applicants only: Hold a baccalaureate degree in nursing from a nationally accredited school of nursing.
- B.S.N. to M.S.N. and RN-B applicants only: Hold an active, unencumbered Washington State RN license.
- A minimum cumulative GPA of 3.00 (B) on a 4.00 scale for all college work.
- Minimum grade of 3.00 (B) on a 4.00 scale in each prerequisite course.
- Submission of application via Nursing CAS.
- Submission of School of Nursing Addendum packet, which includes:
 - Questions Relative to Licensure;
 - Policy/Procedures for students who have attended another school of nursing; and
 - Policy/Procedures Regarding English Proficiency; and
 - Essential Qualifications of Nurses preparing for Professional Practice.
- Official transcripts from each college and university attended;
- Professional résumé.
- Statement of professional goals.
- Two letters of recommendation.
- Civil, administrative and criminal history clearance in all states as well as any other applicable territory or country.
- Fluency in speaking, reading, writing and comprehending graduate-level English (see policy and procedures in the Graduate Application Addendum).
- Any Entry-Level M.S.N. applicant who has previously attended any school or college of nursing must submit a letter of good standing.
- Any B.S.N.- M.S.N. applicant who have previously attended any graduate nursing program must submit a letter of good

standing.

Program Prerequisites

All prerequisite courses must be completed at an accredited college or university with a minimum grade of 3.00 (B) or higher on a 4.00 scale before beginning the nursing program. Prerequisites vary for the M.S.N. program options; see individual program descriptions for a detailed list of prerequisite course requirements.

Advance Deposit

There are limitations on the numbers of students accepted into the M.S.N. programs and concentrations each year. Applicants accepted into the program are required to make a non-refundable \$300 advance tuition payment to confirm their acceptance of an offer of admission within three weeks of their acceptance date.

Program Requirements

All admitted nursing students must provide valid documentation of the following by designated dates and before enrollment in any practicum/clinical course:

- Immunization and health status;
- CPR certification;
- Comprehensive personal health insurance; and
- Civil, administrative, and criminal history clearance in all states, as well as any other applicable territory or country.

In addition to these requirements, all B.S.N. to M.S.N. and RN-B to M.S.N. students in M.S.N. concentration coursework must also provide documentation of:

- Unrestricted licensure as a registered nurse in the State of Washington.

Drug Testing Policy

All nursing students will be required to submit to a drug, marijuana, and alcohol screening at least once yearly as part of their continuing School of Nursing health requirements. Students may be required to submit to additional drug screenings as required by the clinical agencies and School of Nursing. The screenings may be scheduled or they may occur at random and unannounced. Students will be expected to adhere to any deadline set by the agencies and/or the School of Nursing.

Advising

The advising, admission, and student support coordinator for the School of Nursing typically completes initial advising and program planning with applicants and admitted students. M.S.N. applicants are strongly encouraged to seek advising prior to applying to the program. Upon matriculation, all students are assigned a graduate faculty advisor.

Non-Matriculated Students

B.S.N.-prepared registered nurses may, with permission from the Nursing department, enroll in up to nine semester hours of M.S.N. courses on a non-matriculated basis with Nursing department approval. Non-matriculated students are by definition non-degree seeking individuals. For more information on non-matriculated status, see the [Graduate School policies](#).

M.S.N. Program for B.S.N. Prepared Registered Students

The traditional Master of Science in Nursing program is designed for Bachelor of Science in Nursing (B.S.N.) prepared registered nurses. The sequence of study recognizes the academic and professional success of the nursing graduate as groundwork for graduate study. A limited number of candidates is admitted each year and admission is competitive.

The Master of Science (M.S.N.) degree prepares professional nurses for advanced nursing roles. The M.S.N. curriculum is evidence-based and practice-oriented, and consists of a common core (theory, advanced practice roles, evaluation and outcomes research, leadership and management, and advanced health promotion), specialty didactic and clinical/practicum experiences, and a capstone course (Scholarly Inquiry or Thesis). Each M.S.N. student completes coursework leading to the Care and Outcomes Manager concentration, which may be further differentiated through eligibility for Clinical Nurse Leader certification.

M.S.N. core requirements may be completed in 11 months full-time. Additional time may be needed if student pursues optional

concentrations. Part-time study is an option for students in the B.S.N. to M.S.N. track. Graduate-level nursing classes are structured to accommodate part-time employment in nursing.

The M.S.N. Care and Outcomes Manager (COM) program is designed to equip nurses with the knowledge and skills to lead change, promote health and elevate care in various roles and settings. The core M.S.N. curriculum prepares an advanced generalist, who has the knowledge and skills required for all masters-prepared nurses as determined by the AACN Essentials of Master's Education in Nursing (2011).

In the optional CNL focus, students meet the competencies for the Clinical Nurse Leader role through immersion in the CNL role in the clinical setting. In the optional CNE focus, students meet the competencies for the Clinical Nurse Educator role through immersion in the CNE role and completion of internship.

Master of Science in Nursing Degree Requirement

◦ **M.S.N. Core**

31 semester hours

- NURS 523: Role of the Advanced Nurse (2)
- NURS 525: Theoretical Foundations (3)
- NURS 526: Nursing Leadership and Management (3)
- NURS 527: Evaluation and Outcomes Research (3)
- NURS 530: Resource Management (3)
- NURS 531: Clinical Outcomes Management I (3)
- NURS 534: Informatics in Nursing and Healthcare (2)
- NURS 541: Advanced Health Assessment and Health Promotion (3)
- NURS 542: Advanced Pathophysiology and Pharmacology for Nursing Practice (3)
- NURS 544: Advanced Nursing Management of Illness and Disease (4)
- NURS 596: Scholarly Inquiry in Nursing Practice (2)

◦ **Optional Courses**

(for students desiring to take certification exams – optional courses are not required for the MSN degree)

- NURS 532: Clinical Outcomes Management II (5) *(course required to sit for CNL exam)*

OR

- MSN Nurse Educator Speciality Courses (additional 18+ credits) *(courses required to sit for CNE exam)*
- NURS 538: Program Development (3)
- NURS 550: Curriculum, Instruction, and Evaluation (3)
- NURS 595: Internship (2 to 12)

RN-B TO M.S.N. Program for Registered Nurses with a Non-Nursing Bachelor's Degree

This program is currently on hiatus.

The RN-B to M.S.N. Program is designed to allow registered nurses with a previous non-nursing bachelor's or higher degree to earn the M.S.N. degree in the Care and Outcomes Manager, Advanced Generalist area of focus; this program does not confer the B.S.N. degree. The sequence of study recognizes the academic success of the non-nursing graduate and RN licensure as groundwork for graduate study. The program is academically intensive to assure the student of adequate development as a master's prepared advanced generalist by the completion of the RN-B to M.S.N. program, but is structured to maximize the participant's ability to sustain employment. A limited number of candidates is admitted each year and admission is competitive.

All students are admitted to the RN-B to M.S.N. program in the Advanced Generalist focus, which is part of the Care and Outcomes Manager (COM) Concentration. Enrolled RN-B to M.S.N. students who demonstrate a strong potential for success in a specialty may, when space allows, apply to be considered for selection into clinical specializations, such as COM-Clinical Nurse Educator focus, etc. RN-B to M.S.N. students must apply and be selected for a change of COM focus area or concentration at the completion of the first semester of M.S.N. core coursework. Students who do not apply or are not selected for participation in an alternative COM focus area remain in the COM-Advanced Generalist M.S.N. program. Admission to the RN-B to M.S.N. program does not guarantee progression into any other COM focus area or specializations (CNL, Educator, etc.); admission to specialties is highly selective and space is not guaranteed or reserved for RN-B to M.S.N. students. Students admitted to a specialty will incur additional time and expense, and depending on the specialty, are advised that intensive practica may impact their ability to work outside the program.

RN-B to M.S.N. students follow the traditional M.S.N. Advanced Generalist curriculum (see above), with the additional requirement of NURS 430: Situations with Communities (5 semester hours). NURS 430 is offered Spring and Fall Semesters at PLU. Enrollment in NURS 430 at PLU requires approval; space is limited). Nursing courses taken off-campus toward fulfillment of this requirement must be approved for equivalency by the dean of the School of Nursing prior to admission to the program.

Entry-Level Master of Science in Nursing Program

Care and Outcomes Manager

The Entry-Level M.S.N. is a cohort program designed to prepare candidates with a previous bachelor's or higher degree to gain RN licensure and the M.S.N. degree. The sequence of study recognizes the academic success of the non-nursing graduate by providing a focused immersion into nursing followed by graduate study. Students do not receive a B.S.N. degree, but following successful completion of the first 15-months of study, they are eligible to sit for the NCLEX-RN for registered nurse licensure and to continue in the Care and Outcomes Manager (COM) M.S.N curriculum. A limited cohort is admitted each year and admission is competitive.

The Entry-Level M.S.N. program is clinically and academically intensive to assure the student of adequate exposure to the RN role and responsibilities. Entry-Level M.S.N. students must maintain full-time status throughout their entire program of study. Prior to entering graduate-level studies, Entry-Level M.S.N. students participate in a 15-month intensive program at the undergraduate level leading to RN eligibility. During the pre-licensure program component, outside employment is not recommended because it may significantly impair student performance. After obtaining RN licensure midway through the program, the students are encouraged and expected to work part-time as nurses while enrolled full-time in graduate-level courses. Participation in an RN residency program, however, is not recommended because scheduling conflicts with nursing courses and residency hours may significantly impair student performance. Students are expected to complete the entire 27-month program with their cohort.

Please note: Students withdrawing from the Entry-Level M.S.N. program after RN licensure, but before completing the graduate degree, will not have an academic nursing degree from PLU, and will not be able to sustain/obtain licensure in the State of Washington and/or other states.

Entry-Level M.S.N. Pre-Licensure and Care and Outcomes Manager Curriculum

56 semester hours (pre-licensure)

31 semester hours (post-licensure, at minimum)

• Prerequisite Courses

- Introductory Statistics (including inferential and descriptive) (4)
- Human Anatomy and Physiology I (with lab) (5)
- Human Anatomy and Physiology II (with lab) (5)
- Introductory Microbiology (with lab) (4)
- Lifespan Developmental Psychology (4)

• Pre-Licensure Coursework

- NURS 305: Patho/Pharm I (4)
- NURS 306: Foundations of Care Delivery/Health Promotion (3)
- NURS 307: Health & Physical Assessment (3)
- NURS 308: Clinical Practicum I (3)
- NURS 309: Professional Foundations & Principles of Leadership (2)
- NURS 310: Scholarly Writing Concepts (1)
- NURS 311: Patho/Pharm II (2)
- NURS 314: Care of Chronic Conditions (3)
- NURS 315: Psych/Mental Health (2)
- NURS 316: Clinical Practicum II (5)
- NURS 401: Care of Complex Conditions (3)
- NURS 402: Patho/Pharm III (2)
- NURS 403: Clinical Practicum III (5)
- NURS 404: Healthcare Diversity (4)
- NURS 405: Informed Practice (2)
- NURS 406: Continuity of Care (3)
- NURS 407: Clinical Practicum IV (6)
- NURS 483: Transition to Practice (1)
- NURS 499: Capstone Project (2)

After completing the pre-licensure curriculum and upon successfully obtaining RN licensure in Washington State, students

continue the Entry-Level M.S.N. Care and Outcomes Manager curriculum.

- **M.S.N. Core Coursework**

- NURS 523: Roles of the Advanced Nurse (2)
- NURS 525: Theoretical Foundations (3)
- NURS 526: Leadership and Management (3)
- NURS 527: Evaluation and Outcomes Research (3)
- NURS 530: Resource Management (3)
- NURS 531: Care and Outcomes Manager Practicum I (3)
- NURS 534: Informatics and Nursing and Healthcare (2)
- NURS 541: Advanced Health Assessment and Health Promotion (3)
- NURS 542: Advanced Pathophysiology and Pharmacology for Nursing Practice (3)
- NURS 544: Advanced Nursing Management of Illness and Disease (4)
- NURS 596: Scholarly Inquiry in Nursing Practice (2)

- **Optional Courses**

(for students desiring to take certification exams – optional courses are not required for the MSN degree)

- NURS 532: Clinical Outcomes Management II (5) *(course required to sit for CNL exam)*

OR

- MSN Nurse Educator Specialty Courses (additional 18+ credits) *(courses required to sit for CNE exam)*
- NURS 538: Program Development (3)
- NURS 550: Curriculum, Instruction, and Evaluation (3)
- NURS 595: Internship (2 to 12)

Master of Science in Nursing (M.S.N.) - Graduate Courses

NURS 523 : Roles of the Advanced Nurse

Facilitates the development and transition into the advanced nursing roles through analysis of ethical, professional, social and practice perspectives. (2) (2 credits didactic)

NURS 524 : Advanced Health Promotion

Identification of health risks and protective strategies for diverse populations. (2) (2 credits didactic)

NURS 525 : Theoretical Foundations

Preparation for critique, evaluation, and use of a range of relevant theories that provide guiding perspectives for the provision of client-centered, clinically measurable advanced nursing practice. (3) (3 credits didactic)

NURS 526 : Nursing Leadership and Management

Introduction to policy, organization, and financing of health care. Preparation for provision of quality cost-effective care, participation in the design and implementation of care, and assumption of the leadership role in managing resources. (3) (3 credits didactic)

NURS 527 : Evaluation and Outcomes Research

Preparation for the critique and use of new knowledge to provide, change, and evaluate advanced nursing practice focused on client-centered, clinically demonstrable care. (3) (3 credits didactic)

NURS 530 : Resource Management

Management of resources in the planning, coordination, and/or delivery of health care with an outcome perspective at the system level. Financial and human resources and systems management will be examined from a quality perspective. (3) (3 credits didactic)

NURS 531 : Clinical Outcomes Management I

Direct and/or indirect care given in a defined specialty setting with focus on evaluation and outcomes. Includes clinical practicum of 120 hours. Prerequisite: NURS 523. (3) (1 credit didactic, 2 credits clinical)

NURS 532 : Clinical Outcomes Management II

Direct care or indirect clinical management, supervision, or education to achieve client goals by implementing approaches, interventions, outcomes, and evaluation method. Includes clinical of 240 hours. Prerequisite: NURS 538 (or as a corequisite). (6) (2 credits didactic, 4 credits clinical)

NURS 534 : Informatics in Nursing and Healthcare

Develop an understanding of clinical and administrative information systems in the healthcare field. The focus will be on collaborating to design and utilize information systems to make better decisions to improve patient health and organizational performance. (2) (2 credits didactic)

NURS 538 : Program Development

Integrates theoretical models, clinical parameters, and program planning principles through the construction of a detailed program for care and outcomes management education track. (3) (3 credits didactic)

NURS 540 : Illness and Disease Management

Builds on the foundations of pathophysiology, pharmacology, and health assessment and focuses on the attainment of positive clinical outcomes for a cohort or population. Includes clinical practicum of 30 hours. (2) (1.5 credits didactic, 0.5 credits clinical)

NURS 541 : Advanced Health Assessment and Health Promotion

Development and performance of the skills needed for advanced health assessment of individuals, families, or communities throughout the lifespan. Prerequisites: Basic health assessment skills. (3) (2 credits didactic and 1 credit lab)

NURS 542 : Advanced Pathophysiology and Pharmacology for Nursing Practice

Integrates principles of advanced pathophysiology as the basis for nursing symptom assessment and management of disease processes. (2) (2 credits didactic)

NURS 544 : Advanced Nursing Management of Illness and Disease

Builds on the foundations of pathophysiology, pharmacology, and health assessment and focuses on the attainment of positive clinical outcomes for a cohort or population. Includes clinical practicum of 30 hours. (4) (2 credits didactic, 2 credits clinical)

NURS 550 : Curriculum, Instruction, and Evaluation

Examination of the theory and practice of curriculum planning, development, implementation, and evaluation. Theoretical and philosophical principles of the teaching/learning process. Analysis of adult teaching strategies and the process of self and student evaluations. (3) (3 credits didactic)

NURS 591 : Independent Study

Opportunities for advanced study in selected topic related to student's area of interest. Consent of dean required. (1 to 4)

NURS 595 : Internship

To permit graduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. Repeatable for credit. (1 to 12)

NURS 596 : Scholarly Inquiry in Nursing Practice

Development and submission of professional paper or project related to one's area of specialization based on an evaluation and outcomes model. Cross-listed with NURS 599. (2) (2 credits didactic)

NURS 599 : Thesis

Faculty-guided application of the research process. May involve replication of previous study, secondary analysis of research

data, an evaluation project, or an original investigation. Prerequisites: Completion of core courses, approval by School of Nursing. Minimum program requirement is four credits. Once enrolled, must continue to enroll for at least one credit each semester of the academic year until thesis is completed. Capstone course. Course may be taken more than once; this is a four-credit course; if repeated, credits may vary. (1 to 4) (1 to 4 credits didactic)

Financial Aid and Scholarships

253.535.7161 OR 800.678.3243	www.plu.edu/student-financial-services/	sfs@plu.edu
-------------------------------------	---	---

Recognizing that many students who want to attend Pacific Lutheran University would be unable to meet all expenses of enrollment from personal or family sources, the University attempts to provide financial assistance to all eligible students. Any student approved for enrollment or currently enrolled may request financial aid. Approximately 95 percent of the University's students receive help in the form of gift assistance (that is, scholarships, artistic achievement awards, or grants), low-interest deferred loans, or employment. In many cases, a financial aid award will be a combination of these forms of assistance.

Financial assistance is available to all qualified students regardless of race, color, creed, religion, gender, national origin, age, mental or physical disability, marital status, sexual orientation or any other status protected by law.

The offer of financial aid is based on the cost of attendance, which is the University's estimate of how much it costs students in various circumstances to attend PLU. A student's resources are subtracted from this estimated cost to determine financial need. The cost of attendance may vary, as it takes into account a student's tuition, the cost of books and supplies, housing, food, transportation and personal expenses.

A student's resources include parents' contributions (for all dependent students) as computed by completing the Free Application for Federal Student Aid (FAFSA) or the Washington Application for State Financial Aid (WASFA). Both of these applications determine parental and student ability to contribute toward the student's education. Spouses of married students are also expected to contribute toward their spouse's educational expenses.

If students or their families have unusual circumstances that cannot be reflected on the FAFSA (such as loss of employment or major medical expenses), Student Financial Services should be contacted. The student may qualify for additional assistance when unusual circumstances are considered. Unusual circumstances must be provided in writing, with the student's name, student PLU ID number and all documentation requested. The 2023-24 Special Circumstances Request Form may be found online at: <https://www.plu.edu/student-financial-services/>.

All applicants are offered the maximum amount of aid for which they qualify, as program limitations and funds permit. Students who receive scholarships from sources outside the University must inform Student Financial Services in writing with the name of the scholarship and its yearly award amount. PLU may be required by federal regulations to adjust a financial aid package when an outside scholarship is received. Loans and work study will be adjusted first. Scholarships and grants will be adjusted only as a last resort and only when required by federal regulations.

Financial Aid (Undergraduate)

Financial Aid Satisfactory Academic Progress

Introduction

When students accept financial aid at Pacific Lutheran University (PLU), they also accept the responsibility for maintaining Satisfactory Academic Progress (SAP).

The policy at PLU is required by Federal and Washington State financial aid regulations. It allows students to continue to receive financial assistance as long as they are in “good standing” and making satisfactory progress toward their degree or certificate. This policy is reviewed on an annual basis. Should the policy change students will be notified.

[Link to Undergraduate Student Satisfactory Academic Progress \(SAP\)](#)

Verification of FAFSA

The federal government requires verification to confirm the accuracy of the information submitted on a Free Application for Federal Student Aid (FAFSA) form.

Information may be found on the Financial Aid website at: <https://www.plu.edu/student-financial-services/what-is-verification/>

Scholarships and Grants

Grants and Scholarships

www.plu.edu/student-financial-services/types-aid/scholarships-and-grants

List of Active Restricted awards

Scholarships and grants are “gift assistance,” funds that do not have to be repaid. Gift assistance is included in a student’s award when eligibility criteria have been met and awarding guidelines and funding levels allow. Gift assistance programs are funded by the federal and state governments as well as PLU. When a student’s gift assistance funding is from PLU only, the combination of Tuition Remission/Exchange and/or PLU funded scholarships, grants, or awards cannot be in excess of the PLU annual tuition cost.

PLU grants and scholarships are awarded for Fall and Spring Semesters only. To receive this assistance, you must fulfill all of the following criteria:

- Be admitted to PLU as a matriculating student.
- Enrolled in a minimum of twelve credit hours each term. Financial aid is available for a repeated class only once.
- Have financial need, unless otherwise noted.
- Be an undergraduate student, pursuing your first undergraduate bachelor’s degree, unless otherwise noted.
- Maintain satisfactory academic progress as defined in the catalog.
- Cannot have 100% of tuition charges already covered by an outside scholarship agency, except under the ROTC program and some VA programs.
- Have qualified financial need for scholarships and grants designated as need-based programs on our website.

Pacific Lutheran University provides a wide variety of assistance to finance higher-education expenses through its scholarship and financial aid programs. Grants, scholarships, work programs, and student loans are available to help students meet their costs while attending PLU. Contributions from PLU donors (alumni, parents, employees, and friends of the University) are largely responsible for the generous level of academic, talent, or need-based scholarships that benefit students. Throughout the academic year, students who fit specific, donor-designated criteria, may be selected for Designated (named) scholarships. If you are selected, you will receive a revised aid offer which renames your scholarship/grant award with this funding source. In some cases, a named scholarship will replace a student’s existing PLU gift award. All named-scholarship recipients are expected to share how the scholarship(s) impacted their PLU experience with the generous donor(s) who provided the funding. For a complete listing of institutionally controlled scholarships, please visit www.plu.edu/student-financial-services.

PLU Academic, Artistic, Entitlement and Donor-Funded Scholarships and Grants

The maximum PLU gift award based on merit is established for each student at the time of admission and may be met by one or more PLU awards. Artistic Achievement Scholarships for music, theatre, dance, art, or forensics are the first dollars counted toward meeting the maximum merit award. The gift amount (not awarded on the basis of financial need) is guaranteed for up to eight semesters of undergraduate enrollment if entering as a first year student, provided the student maintains Satisfactory Academic Progress. Students entering PLU with accepted credit hours earned at another school will have the number of semesters of PLU gift assistance prorated according to the following:

Entering PLU with:	Will be eligible for up to:
0-29 cumulative credits	8 semesters of PLU gift assistance
30+ cumulative credits	6 semesters of PLU gift assistance

Students admitted as first year students with advanced standing because of running start, IB or AP credits are eligible for eight semesters of assistance.

Note: For specific examples of a typical financial aid gift package, please contact [Student Financial Services](#).

Student Employment

All PLU students at least 18 years of age are eligible and enrolled in at least six semester hours (or four semester hours for graduate students) for employment on the PLU campus. In order to be employed, you must complete the *Department of Homeland Security U.S. Citizen and Immigration Service I-9 Form*, which confirms your eligibility to work in the U.S.

To complete the I-9 form you must present original (not photocopied) documentation. Most students use a U.S. Passport or driver's license or social security card. The full list of acceptable documentation is included in the I-9. Students are limited to working no more than 19 hours per week while school is in session.

Campus jobs are available on a first-come, first-served basis. You can find postings for open positions on the [Student Employment](#) website. They are convenient, do not require transportation, and usually offer flexible schedules.

Direct Deposit is the University's preferred method of payment and is managed in the Payroll Office. Paychecks may be picked up in the Office of Financial Services. If paychecks are not claimed within three weeks of payday, they are mailed to the permanent address. Student paydays are the 5th and 20th of the month. When the date falls on a weekend, the payday is moved to the previous Friday.

Veterans Affairs and Vocational Rehabilitation

Pacific Lutheran University's academic programs of study are approved by the Washington State Student Achievement Council's State Approving Agency (WSAC/SAA) for enrollment of persons eligible to receive educational benefits under Title 38 and Title 10 USC.

Veterans, widows, widowers, and children of deceased or disabled veterans who wish to inquire about their eligibility for benefits should contact the Regional Office of the Veterans Administration, Federal Building, 915 Second Avenue, Seattle, WA 98174. Persons within the State of Washington may telephone 800.827.1000.

To ensure the university is in compliance with the Veterans Benefits and Transition Act of 2018, in which students that are entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits, will be permitted to attend or participate in the course of education and will not be imposed any penalty, including the assessment of late fees, the denial of access to classes, the library, or other institutional facilities, or requirement that additional funds be borrowed because of the inability to meet the financial obligations to the institution due to the delayed disbursement funding from the VA under chapter 31 and 33, the student must provide the School Certifying Official the following:

- 1) Submit a Certificate of Eligibility (COE) for entitlement to educational assistance no later than the first day of a course of education or a Statement of Benefits obtained from the Department of Veterans Affairs' eBenefits website. A student that is using Vocational Rehabilitation a VA Form 28-1905 form for chapter 31 authorization purposes must be received.
- 2) Submit required supporting in-house VA forms obtained in the School Certifying Officials (SCO) Office.

Students that have fees that will not be covered with the funding from VA under chapter 31 or 33 will be subject to being placed on a financial hold for those specific fees which may prohibit certain privileges and may incur interest charges.

Students receiving Veterans Affairs benefits must coordinate with the VA school certifying official in the Office of Financial Services. You may also reach the VA school certifying official at henkelnd@plu.edu or by calling 253.535.8317.

www.plu.edu/student-financial-services/military-benefits/

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

Financial Aid and Scholarships (Graduate)

There are many forms of financial assistance for graduate and post-baccalaureate students. Financial assistance from PLU, federal and state financial aid programs, outside resources, payment options, and careful planning help make PLU affordable. Questions regarding financial aid can be directed to Student Financial Services at 253.535.7161 or by email at sfs@plu.edu. Appointments can be made with Student Financial Services Specialists.

Satisfactory Progress Policy

Tuition Information 2023-24

UNDERGRADUATE TUITION RATES 2023-24

Semester or Term	Semester Hours	Full Time Status	Cost
Summer 2023	1 or more	-	\$800.00 per semester hour
Fall or Spring	1 to 11	No	\$1,546.00 per semester hour \$1,546.00 per semester for continuing students
Fall or Spring	12 to 17	Yes	\$27,436.00 per semester \$27,436.00 per semester for continuing students
Fall or Spring	More than 17	Yes	\$24,736.00 per semester + \$1,546.00 per semester hour over 17 \$24,736 per semester + \$1,546.00 per semester hour over 17 for continuing students
J-Term	1 to 5	-	\$108.00 per credit hour (students entering PLU 2020-21 and later)
	Please note: Figures listed with 2 asterisks (**) apply only to Continuing Students who entered PLU prior to the 2023-24 academic year.		
Credit by Examination Fee and Tuition	Credit by Examination Fee and Tuition: Students are charged tuition (at the per semester hour tuition rate) for any credit by exam registration in addition to the fees listed below. Contact the Office of the Registrar for information on registration and charges.		
	1		\$300
	2		\$500
	3		\$700
	4		\$900

***Disclaimer:** Students enrolled in PLU cohort programs are charged the cohort price per credit hour for the cohort program courses and the standard undergraduate or graduate price per credit hour for courses that are not included in the cohort program.

Note: Study Away students pay a program fee specific to the individual program sites. Contact the [Wang Center for Global Education](#) for complete details. Tuition and fees vary by program. Program specific information may be obtained through the Office of Admission, Graduate programs website, www.plu.edu/graduate/, or by contacting the [specific graduate program](#).

Standard Graduate Tuition

Per Semester Hour: Most graduate programs have cohort pricing that differs from the regular tuition. Contact Student Financial Services at 253.535.7161 or specific program for more information on pricing.

Charges and Fees

For information on charges and fees, please go to [Charges, Fees, and Fines section](#) of this catalog.

Charges, Fees, and Fines

All fees are non-refundable whether a student withdraws from the semester or withdraws from a course. This includes course fees, graduation fees, health insurance plan fees, private music lesson fees, etc.

Alternative Transportation Subsidy

PLU encourages students and with benefits faculty/staff to use alternative transportation by subsidizing the cost of a transit pass and by providing carpool and bicycle parking. PLU pays \$49 a month per eligible commuter towards the purchase of a transit pass. A description of the transit benefit program is available in the [Personnel Manual](#). Apply for a carpool parking pass by registering your carpool at Campus Safety.

Course Fees

These fees are charged in addition to tuition. Lab fees for individual courses are shown in the class schedule listings.

Diversity, Justice, and Sustainability Fee

Offers financial support for student driven projects that advance green energy credits and sustainability in any aspect of PLU Life. This fee cannot be waived. Full-time undergraduate students: Fall – \$10; Spring – \$10.

Duplicate Diploma Fee

There is a fee of \$55 for lost or replacement diplomas.

Health Services Charges

Health Services will charge a student's account, or a student may pay directly, for immunizations, lab work and prescriptions.

Late Cancel/No Show Fines: Health Services and Counseling Services assess a fine for students who no show for appointments, cancel a scheduled appointment less than 24 hours in advance or who arrive later than 15 minutes after their scheduled appointment time. Students receive a warning for their first missed appointment for each academic year and are charged \$30 for each subsequent infraction. Missed appointments are counted separately for the Health Services and Counseling Services.

Late Registration Fee

Students adding a course(s) after the last day of the listed add/drop deadlines for a specific term or semester will be assessed a \$105 Late Registration fee per transaction. These dates are listed under "Important Dates" on the Office of the Registrar webpage for each semester or term.

LuteCard Fee

A fee of \$35 is charged to replace lost or stolen student IDs. If an ID card has been damaged, it can be brought to the Business Operations Office in AUC 207 for replacement.

Matriculation Fee

A one-time matriculation fee is charged to all degree-seeking students in their first term. The fee, \$260 for undergraduates and \$205 for graduates, covers the creation of the academic record, new student orientation, and academic ceremonies. This fee cannot be waived.

Orientation Program Fee

On the Road is an orientation program expected of all new students. Select On the Road trips include nominal fees that are noted at the time of trip registration. When requesting to participate in On the Road trips with fees, students agree to incur that the trip's fee will be billed to their student account by Student Involvement and Leadership.

Parking and Vehicle Registration Fees

Parking on the PLU campus is by decal only. Students must register their vehicles within 48 hours of the vehicle being brought to campus. Registration decal rates are published at www.plu.edu/campus-safety/parking/. Failure to register will result in a fine.

Parking Decals	Fees
Residents (All Class Levels)	\$50
Commuter Students (All Class Levels)	\$50
South Hall (per year)	\$130

Private Music Lesson Fees

These fees are charged in addition to tuition. All fees are non-refundable.

Semester Hours	Fees
1	\$300
2 or more	\$600

Special Course Fees

Check online at www.plu.edu under Current Students, Academics, Calendar & Schedules, Interactive Schedule (https://bss.plu.edu/pap/hxskschd.P_PLUSchedule) to view additional course fees.

Student Resource and Activity Fee

Offers financial support for student-initiated activities through ASPLU that adds to the extracurricular life at PLU. This fee can not be waived. The fee is \$20 per semester for undergraduate students.

Technology Fee

The Technology Fee helps provide all students access to electronic resources, technology support, and enhancements across campus. The fee is \$130 per semester for undergraduate students and \$130 per semester for graduate students. During summer sessions, this fee is \$70.00 per person.

Thesis Binding Fee

A fee of \$100 is charged per thesis.

Transcript Fee

www.studentclearinghouse.org

The National Student Clearinghouse is now the online web management agent for ordering PLU official transcripts. The National Student Clearinghouse offers a fast, simple and secure way to order your official transcripts. Processing directions, payments, and consent forms are posted on their website (listed above). It operates in full compliance with the Family Educational Rights and Privacy Act (FERPA) which supports students' privacy rights in their education records. A fee of \$10.00 - \$15.00 plus a Student Clearinghouse processing fee is charged for each official transcript. The Clearinghouse does not accept money orders or checks. If an account is on any type of hold, requests for official transcripts will not be processed. It is the student's responsibility to resolve the hold and they must resubmit the request. Students can also come into the Office of the Registrar to request an official transcript. Transcript fees cannot be charged to a student's account. Payment can be made to the business office by regular check, money order, cashier's check, by mail or in person. Cash will also be accepted as an in-person transaction only. Credit cards are not accepted in the business office for official transcripts.

Unpaid Fine

Unpaid fines such as those for parking violations, overdue library materials, etc., will be charged to the student account. Students must pay these fines as incurred to avoid interest charges and financial holds.

Wellness Access Plan

All undergraduate and graduate students are automatically enrolled and this fee cannot be waived. The Wellness Access Plan begins August 15 and is valid for 12 months, provided the student is enrolled in both the Fall and Spring Semesters. The charge is \$240 per semester for domestic undergraduate students and \$55 per semester for graduate and international students. Go to: <https://www.plu.edu/chws/health/insurance-wap-info/wellness-access-plan/>.

Housing Charges, Fees, and Discounts

Room and Meals

All full-time (12 semester hours) undergraduate students must live on campus in university housing unless they are: (a) living with their parent, spouse or child within 25 driving miles of PLU's address (notarized/certified documentation required), or (b) at least 20 years old or have completed 60 semester credit hours by September 1 (for the next Fall Semester) or February 1 (for the next Spring Semester). Except for residents of South Hall, all students with an active housing assignment are required to be enrolled in a university meal plan during the academic year. This academic year's rates are shown below and available on the Residential Life website: www.plu.edu/residential-life/

Housing Rates

www.plu.edu/residential-life/rates-and-dates/

Although there is no J-Term charge for students residing on campus for Fall or Spring Semesters, students must cancel their J-Term housing if they are residing on campus for less than seven days during J-Term. Students with an active housing contract for J-Term must have a meal plan. For J-Term room costs only, contact the Office of Residential Life. South Hall is an alternative residential option with various apartment sizes, styles and costs. Contact the Office of Residential Life for information and applications. Limited housing is available on a daily fee basis during Winter Break. Students may remain in their rooms during Spring Break. Applications for single rooms and other special housing requests should be addressed to the Office of Residential Life at 253.535.7200 or emailed to rlif@plu.edu.

Residence Halls

www.plu.edu/residential-life/residence-halls/

Summer Housing

<https://www.plu.edu/hospitality/summer-housing/>

Independent, private, flexible-length housing is offered by Conference Services on a limited basis during the summer. Discounts apply for long-term stays. Meal plans are optional. Undergraduate and graduate students, newly graduated in transition, interns or students working on or off campus, and researcher and their significant others are eligible.

Living Off Campus

www.plu.edu/residential-life/living-off-campus/

Residential Life Policies

www.plu.edu/residential-life/policies/

Meal Plans

With the exception of Stuen and South Hall residents, students with an active housing assignment must enroll in one of the following four meal plans: A, B, C or D. Stuen residents must enroll in one of the following five plans: A, B, C, D or E. South Hall residents and commuter students are not required to purchase a meal plan, but are encouraged to purchase Dining Dollars. Dining Dollars are not subject to sales tax and are available for purchase in any increment.

Find descriptions for all meal plans and information about purchasing Dining Dollars at: <https://www.plu.edu/dining/meal-descriptions/>

Billing and Payments

Rights and Responsibilities

The student and their parent(s) or legal guardian (if the student is under 18 years of age) are required to complete and submit a Student Financial Agreement to the University each academic year, prior to registration for the first term the student will be enrolled for that academic year.

It is the student's responsibility to see that all financial aid accepted on the Offer of Financial Aid is credited to their student account. Financial aid includes but is not limited to loan applications, verification forms, entrance counseling, etc. All financial aid and other resources must be applied to your student account by September 1 for Fall Semester, January 1 for both J-term and Spring Semester registration and February 1 for Spring Semester registration only.

Payment Information

Students may choose to make student account payments at the following website under "Payments": www.plu.edu/sfs

Billing Questions

Questions regarding the student bill should be directed to The Office of Financial Services. If you believe an error has occurred, the University must be contacted in writing within 60 days of the statement date of the first bill on which the error appeared. After 60 days it is presumed that there were no errors and the billing was correct.

Graduation and Your Student Account

All students who have applied to graduate must have their student account paid in full before they can be cleared for graduation. Students with an owing balance are required to contact the Office of Financial Services for assistance. Diplomas will not be released until the student account is paid in full.

Enrollment Deposit

A \$200 enrollment deposit is required of new undergraduate students to confirm their offer of admission. The payment is refundable until May 1 for Fall Semester, December 1 for the January Term, and January 1 for Spring Semester. Requests for a refund must be made in writing to the Admission Office.

Returning students wanting to reserve a room for the following year must sign a Master Housing & Meal Agreement. Cancellations must be submitted in writing to the Residential Life Office. Traditional hall housing cancellations received before June 1 will not be subject to a penalty. Cancellations received between June 1 and June 30 will be subject to a \$200 penalty charge. Cancellations received after July 1 will be subject to a \$400 penalty charge. South Hall penalty dates and rates differ, see Residential Life for details at www.plu.edu/residential-life/.

Credit Balances

If a credit balance occurs on a student account, the University calculates and issues refunds according to pertinent federal, state, banking and University regulations. Title IV, HEA program funds are refunded according to the Code of Federal Regulations 34 CFR Ch. VI Section 668.164. Bank card payments are refunded, to the extent of the original payment(s), back to the bank card that made the original payment(s). All other refunds will be issued via check or ACH. Refund requests are processed by the Student Financial Services Office.

Student Holds

There are 34 types of holds that are placed on student accounts and records for different circumstances. Each hold prevents basic University privileges, such as, but not limited to the right to register, add/drop classes, cash checks or receive copies of unofficial/official transcripts or a diploma. Listed below are the types of holds that are placed on accounts and the offices to contact regarding them.

Code	Type of Hold	Responsible Office
AD	Admission	Admission
AH	Academic	Registrar
AS	Academic	Academic Advising
CB	Credit Balance	Student Financial Services

CH	Collection	Accounts Receivable
CP	Collection Paid	Accounts Receivable
CW	Collection Write Off	Accounts Receivable
ED	Education	School of Education
EH	Exit Interview	Student Loans
EP	Expulsion	Student Conduct
FH	Financial	Student Financial Services
HR	Housing Restriction Hold	Student Conduct
IH	International	International Student Services
JR	Undeclared Major Hold	Registrar
MH	Medical	Health Services
MP	Monthly Payment Hold	Accounts Receivable
MW	Medical Withdrawal	Student Life
NA	No Address	Registrar
NS	NSF Check Hold	Accounts Receivable
OP	Out of School Promissory Note	Accounts Receivable
OS	Overdue Sanction	Student Conduct
PC	Pre-collection	Accounts Receivable
PG	Parent/Legal Guardian	Student Financial Services
PL	Collection Perkins Loan	Student Loans
PN	Restricted from Campus	Campus Safety
PO	Payment Option	Student Financial Services
PR	Academic Probation	Academic Advising
RH	Residential Life	Residential Life
SA	Study Away	Wang Center
SH	Student Conduct Hold	Student Conduct
SU	Suspension	Student Conduct
SS	No SSN on File	Accounts Receivable
TR	Transcript	Registrar
VA	Veteran's	Student Financial Services
WO	Write-Off	Accounts Receivable

Academic Hold

The Office of the Registrar can place an account on academic hold. Registration for classes is precluded until any pending matter with the office is settled.

Collection Hold

The collections holds will permanently remain on a student account. Any student wishing to return to the University must pay in full all of their estimated charges prior to registration. Clearance to return to the University is issued by the Student Accounts area in the Office of Financial Services.

Credit Balance Hold

Any student with a credit balance on their student account who is not registered for a future term or is listed as a graduating senior will be placed on a Credit Balance Hold. The Revised Code of Washington (RCW) 63.29 Uniform Unclaimed Property Act requires the University to forward all unclaimed student account balances to the Washington State Department of Revenue

unless the student requests a refund or donates their credit balance to the University.

Financial Hold

If a student account is past due, a financial hold will be placed. If tuition and fees charged to a student's account after August 25th for Fall Semester and January 25th for J-term and Spring Semester are not paid immediately, a financial hold will be placed. If a student withdraws with an owing balance, a financial hold will be placed.

Medical Hold

A medical hold prevents a student from registering if Health Services has not received the Student Immunization History form or if the student does not have the necessary immunizations.

No Address Hold

All students are required to keep a current permanent address with the University. If mail becomes undeliverable, an address hold will be placed.

Non-Sufficient Funds Hold

Any student who has written two non-sufficient funds checks or has had checks returned for other reasons will be permanently placed on a Non-Sufficient Funds Hold. Any student with this hold is prohibited from writing checks to any University department.

Student Financial Agreement Hold

All students are required to electronically sign a Student Financial Agreement and select a payment option for each academic year they attend.

Pre-Collection Hold

Any student with a delinquent student account balance who is not registered will be placed on a Pre-Collection Hold and assessed a \$25.00 pre-collection fee.

Withdrawals

Withdrawal From a Single Course

Tuition and fees will not be refunded for single course withdrawals occurring after the last day to add/drop without fee for a semester/term. These dates are listed in the important dates area on the Office of the Registrar webpage. If the student does not wish to continue a course after the add/drop period, the student must withdraw from the course by completing the Course Withdrawal form on the Registrar's webpage.

Full Withdrawal

Students who wish to withdraw from all courses must submit the Withdrawal form, which can be found in the Documents section of the Center for Student Success webpage.

If a student withdraws with an owing balance, the balance is due immediately. A financial hold will be placed on the account upon notification of withdrawal until the balance is paid in full.

Medical Withdrawal

Students may petition to withdraw completely from the University for a specific term for medical reasons. The student must complete a Medical Withdrawal Petition, provide written evidence from a physician, and provide a personal explanation to the dean of students. The petition and the accompanying materials must be completed and submitted before finals week for the specific term and in no case later than the last day of class in the specific term. If granted, the notation of WM in lieu of grades will appear on the student's transcript. Physician clearance is required prior to re-enrollment. For more information contact the dean of students at 253.535.7159 or srr@plu.edu.

Refunds

- **Fall & Spring Tuition and Fees**
 - 100% refund on or before the tenth day of class (effective Fall 2022)
 - Tuition refunds prorated on a daily basis beginning the eleventh day of class until more than 60% of the semester has elapsed
 - No tuition refunds once more than 60% of the semester has elapsed
- **Summer & J-Term Tuition and Fees**
 - 100% refund up to the last day to add/drop without fee for term (see [Important Dates, Office of the Registrar](#) webpage).
 - No refund after the last day to add/drop without fee for term (see [Important Dates, Office of the Registrar](#) webpage).
- **Summer, Fall, J-Term & Spring Fees**
 - 100% refund up to the last day to add/drop without fee for term (see [Important Dates, Office of the Registrar](#) webpage)
 - No refund after the last day to add/drop without fee for term (see [Important Dates, Office of the Registrar](#) webpage)
- **Summer, Fall, J-Term & Spring Housing and Meal Plans**
 - Housing refunds prorated on a daily basis.
 - Meal plan refunds prorated on a weekly basis.

Policies and Procedures Relating to the Return of Title IV and Institutional Financial Aid Funds if a Student Withdraws from the University

The University calculates and returns Title IV funds according to Federal Title IV policy 34CRF 668.22. The amount of Title IV funds (other than Federal Work Study) that must be returned to the Title IV programs is based solely on the length of time the student was enrolled before withdrawing. This policy is effective for complete or full withdrawal from a semester in which a student receives Title IV federal funds. **If a student receives a tuition refund due to completely withdrawing from the University, all PLU gift aid will be canceled and removed from the student's account.**

For Fall and Spring Semester only, if a student withdraws before more than 60% of the semester has elapsed, a percentage of Title IV funds will be returned to the federal program based on the length of time the student was enrolled before withdrawal. After 60% of the semester has elapsed, the student is considered to have earned all aid received for the semester. The return of Title IV funds is dependent upon the date a student withdraws during the semester or the last date of attendance.

Withdrawal date is defined as one of the following:

- The date the student began the withdrawal process; the date the student otherwise provided the school with official notification of the intent to withdraw; **or**

- For the student who does not begin the University's withdrawal process or notify the school of the intent to withdraw, the midpoint of the payment period or period of enrollment for which Title IV assistance was disbursed (unless the university can document a later date); If attendance is taken, the withdrawal date is determined from the attendance records.

The University will:

- Determine date of withdrawal
- Calculate the percentage of aid deemed to have been earned by the student
- Calculate the percentage of aid not earned by the student, which must be returned to federal programs

Order of Return of Title IV Funds

If the withdrawal date results in a percentage of Title IV aid not earned by the student, then return of Title IV aid will occur in the following order:

- Federal Direct Unsubsidized Stafford Loans (other than PLUS loans)
- Federal Direct Subsidized Stafford loans
- Federal Direct Parent PLUS Loans
- Federal Direct Graduate PLUS Loans
- Federal Pell Grants
- Federal SEOG Grants
- TEACH Grant
- Iraq Afghanistan Service Grant for which a return is required
- Other assistance under this Title for which a return of funds is required

Please note that Tuition Assistance Program funds due to Military Service are also returned based on the percentage of the term completed, up to and including 60% of the payment period.

Procedures for Obtaining a Refund Upon Full Withdrawal from the University

- Student submits Withdrawal form
- Financial Aid processes the student withdrawal request according to the Federal Title IV policy 34CFR 668.22, revising aid in accordance with federal policy
- Tuition adjustment processed, if applicable
- Examples of the Return of Title IV Funds if a student withdraws are available in the Office of Financial Services

Note: *Please be aware that withdrawing from the University can adversely affect what is owed to the University by the student. A tuition adjustment is applied to the student account, but aid is also adjusted, sometimes creating a larger owing balance. Students should check with Student Financial Services to determine the effect a withdrawal will have on their student account.*

Student Life and Campus Resources

Pacific Lutheran University offers many services for students and provides a rich array of resources to encourage academic success. Students are encouraged to become familiar with the offices and services described in this section of the catalog. Additional information about these resources is available from each of the offices or from the Division of Student Life and the Office of the Provost.

Inclusive Language

PLU supports the efforts of faculty, students, staff, and administrators to employ and augment the inclusive language guidelines of their professions or disciplines, and to reflect upon the cultural conditions which have made such guidelines integral to contemporary language use. General ELCA guidelines suggest that inclusive language avoid stereotypes and biases and not alienate, demean, or misrepresent persons based on gender, race, physical or mental ability, sexual orientation, class, nationality, religion, family, age, or status. PLU promotes the use of language that includes and affirms groups that have often been misrepresented in or left out of discourse, directs our attention to the nuances of social reference and calls us to address all individuals with respect.

Board of Regents

Ownership, Support, Government:

The University is owned and operated by Pacific Lutheran University, Inc., a Washington corporation whose purpose is higher learning. The PLU corporation meets annually on the PLU campus to elect regents and to conduct other business. The corporation consists of up to 50 delegates from the six synods of Region I of the Evangelical Lutheran Church in America. The Board of Regents includes members of ELCA congregations, representatives from the Alumni Association, at-large members, bishops from the synods of Region I, and the University president.

The policymaking and governing body of the University is the Board of Regents. On the basis of recommendations made by the president, it charts a course for the University and strives to provide essential funds. The student body and the faculty have non-voting representatives who meet with the board. The installation of new Board of Regents Officers occurs each October. The Board of Regents for the Academic Year of 2023-24 will be installed in October 2023.

PLU-Wide Common Course Numbers

PLU Course Numbers by Level

100-299 Lower-Division Courses: Open to first-year students and sophomores unless otherwise restricted.

300-499 Upper-Division Courses: Generally open to juniors and seniors unless otherwise specified. Also open to graduate students, and may be considered part of a graduate program provided the courses are not specific requirements in preparation for graduate study.

500-699 Graduate Courses: Normally open to graduate students only. If, during the last semester of the senior year, a candidate for a baccalaureate degree finds it possible to complete all degree requirements with a registration of fewer than 16 semester hours of undergraduate credit, registration for graduate credit is permissible. However, the total registration for undergraduate requirements and elective graduate credit shall not exceed 16 semester hours during the semester. A memorandum stating that all baccalaureate requirements are being met during the current semester must be signed by the appropriate department chair or school dean and presented to the dean of graduate studies at the time of such registration. This registration does not apply toward a higher degree unless it is later approved by the student's advisor and/or advisory committee.

800-899 Continuing Education Undergraduate Courses: Courses reserved for undergraduate-level continuing education classes.

900-999 Continuing Education Graduate Courses: Courses reserved for graduate-level continuing education classes.

Note: Lower-division students may enroll in upper-division courses if prerequisites have been met.

PLU-Wide Course Numbers

When academic units choose to use the following types of courses, they do so under these specific headings and numbers. Departments that offer any of the listed courses below must do so in compliance with the Educational Policies Committee approved course titles and numbers.

• Independent Study

291 - Directed Studies (1 to 4 semester hours): to provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student.

491 - Independent Studies (1 to 4 semester hours): to provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student.

591 - Independent Studies (1 to 4 semester hours): to provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student.

598 - Non-thesis Research Project (1 to 4 semester hours): to provide graduate students with graduate-level non-thesis research opportunities. The title will be listed on the student term-based record as Project: followed by the specific title designated by the student.

599 - Thesis (1 to 4 semester hours): To permit graduate students to demonstrate their ability to do independent research. The title will be listed on the student term-based record as Thesis: followed by the specific title designated by the student.

• Internships

495 - Internship (1 to 12 semester hours): to permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student.

595 - Internship (1 to 12 semester hours): to permit graduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student.

- **Senior Seminar - Undergraduate General Education Element**

499 - Capstone (1 to 4 semester hours): to enable senior students in an academic unit to share their work and receive group criticism. The title will be listed on student term-based records as Capstone and may be followed by a specific title designated by the academic unit. Please note: Some departments do not require the 499 capstone. Please check the department listings for the senior seminar undergraduate general education element.

- **Special Topics**

287, 288, 289 (1 to 4 semester hours): to provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit.

387, 388, 389 (1 to 4 semester hours): to provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit.

487, 488, 489 (1 to 4 semester hours): to provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit.

587, 588, 589 (1 to 4 semester hours): to provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit.

- **Study Away Designators**

150SA, 250SA: for courses taken off campus through Wang Center for Global Education Programs, not taught by PLU faculty, and transferred back to PLU as a lower-division credit.

350SA, 450SA: for courses taken off campus through Wang Center for Global Education Programs, not taught by PLU faculty, and transferred back to PLU as an upper-division credit.

Course Offerings

Most listed courses are offered every year. A system of alternating upper-division courses is practiced in some departments, thereby assuring a broader curriculum. The University reserves the right to modify specific course requirements, to discontinue classes in which the registration is regarded as insufficient, and to withdraw courses as well as clinical placements, preceptorships, and rotations. Most courses have a value of four semester hours. Parenthetical numbers immediately after the course description or title indicates the number of semester hour credit given.

PLU Directory of Courses

All Courses

AICE 276 : Part-Time Internship

A supervised educational experience in a work setting on a part-time basis, no less than two four-hour work periods per week. Intended for students who have not yet declared a major or for students seeking an exploratory experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (1 to 8)

AICE 476 : Part-Time Advanced Internship

A supervised educational experience in a work setting on a part-time basis, no less than two four-hour work periods per week. Intended for students enrolled in a major who are seeking a professionally-related experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (1 to 8)

ANTH 101 : Introduction to Human Biological Diversity - NW

Introduction to biological anthropology with a special focus on human evolution, the fossil evidence for human development, the role of culture in human evolution, and a comparison with the development and social life of the nonhuman primates. (4)

ANTH 102 : Introduction to Human Cultural Diversity - ES, GE

Introduction to social-cultural anthropology, concentrating on the exploration of the infinite variety of human endeavors in all aspects of culture and all types of societies: religion, politics, law, kinship, and art. (4)

ANTH 103 : Introduction to Archaeology and World Prehistory - ES, GE

Introduction to the ideas and practice of archaeology used to examine the sweep of human prehistory from the earliest stone tools to the development of agriculture and metallurgy and to enrich our understanding of extinct societies. (4)

ANTH 203 : Great Discoveries in Archaeology - ES, GE

This course will teach you the basics of archaeology and about a few of the more exciting archaeological discoveries worldwide (Kennewick Man, King Tut, Machu Picchu, etc.). This will include seeing the instructor make flaked stone tools out of obsidian and discuss how such knowledge helps to inform us about the past. The course will also explore what has influenced the nature of "knowledge" about archaeological discoveries by looking at how they have been interpreted and understood in the sociopolitical contexts of the modern countries where they are located. Science makes lofty claims that it is an objective mode of inquiry. In other words, science claims that the analysis and interpretation of data (in this case, bones, stones, and pottery, etc.) is carried out free of bias. This course will take care to evaluate this proposition. This course may substitute for ANTH 103 under special circumstances with consent of department chair. (4)

ANTH 287 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 288 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 289 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ANTH 335 : The Aztecs, Mayans, and Their Predecessors - ES, GE

This course is an archaeological and ethnohistoric survey of the emergence and nature of complex societies in ancient Mesoamerica. Besides the Aztecs and Mayans, other fascinating cultures of study include the Olmecs, Teotihuacanos, and the Toltecs. Emphasis is placed on how these Mesoamerican societies were structured and how they changed over time. (4)

ANTH 343 : East Asian Cultures - ES, GE

A survey of the cultures and peoples of Eastern Asia, concentrating on China but with comparative reference to Japan, Korea, and Vietnam. Cultural similarities as well as differences between these nations are stressed. Topics include religion, art, politics, history, kinship, and economics. (4)

ANTH 368 : Edible Landscapes: The Foraging Spectrum - ES, GE

The course examines foragers in Africa, North America, and Australia. Using classic ethnographic literature, it provides a cultural ecological perspective of foraging societies in a variety of environments. It also examines how foraging studies inform archaeological research and the challenges that these peoples now face in a rapidly changing world. (4)

ANTH 370 : The Archaeology of Ancient Empires - ES, GE

The origins of agriculture, writing, cities, and the state in many parts of the world, comparing and contrasting the great civilizations of antiquity, including Mesopotamia, Egypt, India, Asia, Mesoamerica, and South America. (4)

ANTH 387 : Special Topics in Anthropology

Selected topics as announced by the department. Course will address important issues in archaeology and cultural anthropology. (1 to 4)

ANTH 388 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 389 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 480 : Anthropological Inquiry

Historic and thematic study of the theoretical foundations of anthropology: research methods; how theory and methods are used to establish anthropological knowledge. Required of majors in their junior or senior year. Prerequisite: at least two 300-level anthropology courses or consent of instructor. (4)

ANTH 487 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 488 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 489 : Special Topics in Anthropology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ANTH 491 : Independent Studies: Undergraduate Readings

Reading in specific areas or issues of anthropology under supervision of a faculty member. Prerequisite: departmental consent. (1 to 4)

ANTH 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ANTH 499 : Capstone: Seminar in Anthropology - SR

Examine anthropological methods and apply anthropological theory to an investigation of a selected topic in contemporary anthropology. Required of majors in their junior or senior year. Prerequisite: at least two 300-level anthropology courses or consent of instructor. Prerequisite for non-majors: departmental approval. (4)

ARTD 101 : Drawing I - CX

A course dealing with the basic techniques and media of drawing. (4)

ARTD 102 : 2D Design/Color Theory - CX

This course combines course work in color and composition. Students will develop a better understanding in pictorial composition, color theory, patterning, materials, and methods in the two-dimensional arts, perspective, and a range of conceptual design strategies. Required for all B.A./B.F.A. majors. (4)

ARTD 110 : Graphic Design 1 - CX

An introduction to design through the study of basic techniques, color theory, and composition. (4)

ARTD 180 : History of Western Art I - CX

A survey tracing the development of Western art and architecture from prehistory to the end of the Middle Ages. (4)

ARTD 181 : History of Western Art II - CX

A survey of Western art and architecture from the Renaissance to the 20th century. (4)

ARTD 201 : Drawing 2: Figure Drawing - CX

Drawing taken beyond the basics of 101. Expansion of media forms and solutions to compositional problems. Possibility of pursuing special individual interests, with permission. Prerequisite: ARTD 101 or consent of instructor. (4)

ARTD 202 : 3D Design - CX

Students will develop an understanding in three-dimensional design with an emphasis on spatial awareness, problem-solving, and the many varieties of sculptural form. Required for all B.A. and B.F.A. majors. (4)

ARTD 210 : Graphic Design 2

An investigation of the process of creative problem solving in a methodical and organized manner. Includes projects in a variety of design areas. Prerequisite: ARTD 110 or consent of instructor. (4)

ARTD 220 : Photography I: BW Photography - CX

A studio class in photography as an art form. Primary concentration in basic camera and darkroom techniques. Students produce a portfolio of prints with an emphasis on creative expression and experimentation. (4)

ARTD 230 : Ceramics 1 - CX

Introduction to ceramic materials, tools, and techniques including hand-built and wheel-thrown methods and glaze application. Includes a survey of ceramic art. (4)

ARTD 280 : Art Methodology and Theory - CX

Explores art historical and critical methods used for the analysis of art, including formalism, iconography, iconology, economic/social contexts, psychology, feminism, and structuralism/semiotics. Relates methods to broader cultural theories from Kant to Edward Said. (4)

ARTD 287 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 288 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 289 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ARTD 310 : Graphic Design 3

Design and execution of printed materials; emphasis on technical procedures and problems in mass communication. Prerequisite: ARTD 210 or consent of instructor. (4)

ARTD 315 : The Art of the Book I - CX

This studio course explores the history, aesthetics and creative dimensions of book design and typography. Prerequisite: Declared PPA minor or permission of instructor. Cross-listed with PPAP 321, ENGL 313. (4)

ARTD 320 : Photography 2: Digital Photography - CX

An introduction to computer-assisted photography in which students learn applications, develop aesthetic strategies, and engage the ethical issues of this new technology. Emphasis on creative exploration and problem solving within the Macintosh environment. May be taken twice. (4)

ARTD 330 : Ceramics 2

Advanced techniques in ceramic construction and experiments in glaze formation. Focus on form and craftsmanship. Prerequisite: ARTD 230 or consent of the instructor. (4)

ARTD 355 : 3D Digital Modeling - CX

An introduction to three-dimensional modeling. Students will learn to design and manipulate objects in 3D digital space. (4)

ARTD 365 : Painting I

Media and techniques of painting in oil or acrylics. Prerequisite: ARTD 101. (4)

ARTD 370 : Printmaking 1

Methods and media of fine art printmaking; both hand and photo processes involving lithographics, intaglio, and screen printing.

Prerequisite: ARTD 101 or consent of instructor. (4)

ARTD 380 : Modern Art - CX

The development of art from 1900 to the present, with a brief look at European and American antecedents as they apply to contemporary directions. (4)

ARTD 383 : Studies in Art History - CX

A selected area of inquiry, such as a history of American art, Asian art, the work of Picasso, or similar topics. May be repeated for credit. (4)

ARTD 387 : Special Topics in Art

This course is intended for unique opportunities to explore artistic expression, provided by visiting artists or artists in residence who intend to focus on a particular style, element or technique used in creative and artistic expression. (1 to 4)

ARTD 388 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 389 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 410 : Graphic Design 4

Design and execution of printed materials; emphasis on technical procedures and problems in mass communication. Explores advanced techniques with multiple color, typography, and other complex problems. Prerequisite: ARTD 310 or consent of instructor. (4)

ARTD 465 : Painting 2

Media and techniques of painting in oil or acrylics. May be taken twice. Prerequisite: ARTD 365 or consent of instructor. (4)

ARTD 466 : Painting 3

Explore and develop student's portfolio of work within the area of painting. Independent project emphasis with instructor's input. Emphasis on student's development of individual style and problem solving. May be taken twice. Prerequisite: ARTD 365 or consent of instructor. (4)

ARTD 470 : Printmaking 2

Methods and media of fine art printmaking; both hand and photo processes involving lithographics, intaglio, and screen printing. May be taken twice. Prerequisite: ARTD 370 or consent of instructor. (4)

ARTD 483 : Studio Practice

This course is focused on the student's individual research towards the capstone exhibition in collaboration with their faculty mentor or advisor. Requires senior standing and may be taken twice for credit. Required for all BFA majors. (1 to 4)

ARTD 484 : Research in Art History - Theory

A tutorial course for major students with research into a particular aspect of art history or theory. May be repeated for credit. Prerequisites: senior status, consent of instructor and program approval by department faculty. (1 to 4)

ARTD 487 : Special Topics in Art

This course is intended for unique opportunities to explore artistic expression provided by visiting artists or artists in residence

who intend to focus on a particular style, element, or technique used in creative and artistic expression. (1 to 4)

ARTD 488 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 489 : Special Topics in Art

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ARTD 490 : Gender and Art - CX

Studies the effects of race and class on the construction of femininity and masculinity in art and visual culture in the United States and in Europe, with an emphasis on 19th and 20th century modernism. May not be repeated for credit. (4)

ARTD 491 : Independent Studies: Special Projects

Exploration of the possibilities of selected studio areas, including experimental techniques. Emphasis on development of individual styles, media approaches, and problem solutions. May be repeated for credit. Prerequisites: junior status, minimum of two courses at 200 level or above in affected medium with minimum 2.50 GPA, consent of instructor and department chair. (1 to 4)

ARTD 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ARTD 499A : Keystone - SR

This "Keystone" course is intended for upper-division students to develop the process of educational assessment and program competencies. Focus is on integrating student learning objectives with student experience through initial development of portfolio projects and other assignments. Not repeatable. One of two courses required to fulfill the Senior Seminar General Education Element. Recommended as two semester hours. (1 to 4)

ARTD 499B : Capstone - SR

Capstone course for the BA in Studio Arts or Art History and the BFA in Graphic Design. Focus is on integrating student learning objectives with student experience through development and presentation of portfolio projects and other assignments. One of two courses required to fulfill the Senior Seminar General Education Element. Prerequisite: Must have completed and passed ARTD 499A. Recommended as two semester hours. (1 to 4)

BIOL 111 : Biology and the Modern World - NW

This course is intended to introduce students to the principles and concepts that pertain to all living organisms, with special emphasis on those topics typically encountered in everyday life, including human physiology and disease, environmental issues, and the fundamentals of genetics. Lecture and laboratory. Not intended for biology majors. (4)

BIOL 116 : Introductory Ecology - NW

A study of the interrelationships between organisms and their environment examining concepts in ecology that lead to understanding the nature and structure of ecosystems and how humans impact ecosystems. Includes laboratory. Not intended for biology majors. (4)

BIOL 201 : Introductory Microbiology - NW

The structure, metabolism, growth and genetics of microorganisms, especially bacteria and viruses, with emphasis on their roles in human disease. Laboratory focuses on cultivation, identification, and control of growth of bacteria. Prerequisite: CHEM 105. Not intended for biology majors. (4)

BIOL 205 : Human Anatomy and Physiology I - NW

The first half of a two-course sequence. Students are introduced to human form and function and, in particular, to the integration and connections between the cellular function and the synergetic functions of the body's organ systems. Topics include chemistry, cellular biology, tissues, the integument, and the anatomy and physiology of four systems: skeletal, muscular, nervous, and endocrine. Laboratory includes anatomical structure identification on preserved human cadavers, dissection of preserved organs, and experiments in physiology. Not intended for biology majors. Prerequisite: PLU Math placement in MATH 140 or higher; or completion of MATH 115 with a C or higher. (4)

BIOL 206 : Human Anatomy and Physiology II - NW

The second half of a two-course sequence. The integration and connections between the cellular function and the synergetic functions of the body's organ systems are further expanded. Topics include metabolism, temperature regulation, development, inheritance, and the anatomy and physiology of five systems: circulatory, respiratory, digestive, excretory, and reproductive. Laboratory includes cat and preserved organ dissection, anatomical structure identification on human cadavers, physiology experiments, and study of developing organisms. Not intended for biology majors. Prerequisite: BIOL 205 with a C- or better. (4)

BIOL 225 : Molecules, Cells, and Organisms - NW

An introduction to the concepts and study of the molecular, cellular, and organismal levels of biological organization. Cell structure and function, energy transformation, the central dogma of molecular biology, plant and animal anatomy and physiology, response to environmental changes, plant and animal reproduction, and development. Includes laboratory. Prerequisite: Math placement in MATH 140 or higher; or completion of MATH 115 with a C or higher. One year of high school chemistry is recommended. (4)

BIOL 226 : Genes, Evolution, Diversity, and Ecology - NW

An introduction to the concepts and study of Mendelian and population genetics, evolution, ecology, and a systematic survey of life on earth. Includes laboratory. Prerequisite: BIOL 225 with a C- or better. (4)

BIOL 287 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 288 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 289 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

BIOL 305 : Cadaver Prosection

This course is a practicum in which students dissect a human cadaver and prepare anatomical specimens for use in Pacific Lutheran University Human Anatomy and Physiology classes. Students will learn proper dissection techniques and pertinent details of the human form needed to complete quality dissection work. Prerequisites: Consent of instructor; and students must have successfully completed BIOL 205/206 or BIOL 352. Prospective students must apply for placement in the course during the semester preceding enrollment. (1)

BIOL 330 : Genetics

Basic concepts considering the molecular basis of gene expression, recombination, genetic variability, as well as cytogenetics and Mendelian and transmission genetics. Laboratory includes molecular biology techniques and problem solving exercises.

Prerequisite: BIOL 226. (4)

BIOL 341 : Developmental Biology

The embryonic and larval development of multicellular organisms (primarily animals). Examples are chosen from popular contemporary model systems, and the emphasis is on cellular, and molecular aspects of development. The laboratory includes descriptive and quantitative experiments, as well as student-planned projects. Prerequisite: BIOL 226. (4)

BIOL 342 : Microbiology

The structure, physiology, genetics, and metabolism of microorganisms with emphasis on their diversity and ecology. The laboratory emphasizes design, implementation, and evaluation of both descriptive and quantitative experiments as well as isolation of organisms from natural sources. Prerequisites: BIOL 226; CHEM 331 with CHEM 333 recommended. (4)

BIOL 352 : Comparative Anatomy

An evolutionary approach to the study of structural and functional relationships in the vertebrate body. Includes examination and dissection of major organs and organ systems using preserved animal organs and cadavers (including humans). The course emphasizes the analysis of similarities and differences across groups to assess the significance of adaptations and explore the historical and present diversity of vertebrate morphology. Prerequisite: BIOL 226. (4)

BIOL 354 : Natural History of Vertebrates

A systematic survey of vertebrate diversity including fishes, amphibians, non-avian reptiles, and mammals. Coverage emphasizes phylogenetic relationships, evolutionary trends, natural history, and anatomy. Field trips and laboratory focus on observation and identification of local species. Prerequisite: BIOL 226. (4)

BIOL 355 : Ornithology

The study of birds inclusive of their anatomy, physiology, behavior, ecology, and distribution. Special emphasis on those attributes of birds that are unique among the vertebrates. Laboratory emphasis on field identification, taxonomy, and anatomy/topology. Prerequisite: BIOL 226 or consent of instructor. (4)

BIOL 356 : Economic and Cultural Botany

Botany of plants used by humans in a global context; traditional and contemporary uses of plants. General plant morphology and anatomy, overview of taxonomy of plants useful to humans, evolution of plant secondary metabolites, medical botany (medicines, poisons, psychoactive plants), genetic engineering, bio-prospecting, and socio-economic issues surrounding botanical commodities. Prerequisite: BIOL 226. (4)

BIOL 358 : Plant Physiology

A study of how plants obtain and utilize nutrients, react to environmental factors, and adapt to stress. Focuses on mechanisms at the molecular, cellular, and organismal levels. Explores connections to agriculture and ecology. Relies significantly on primary literature. Includes laboratory. Prerequisite: BIOL 226. (4)

BIOL 359 : Biology of Reproduction

This course will explore human reproduction focusing on anatomical and physiological aspects but also examining its influence on behavior and society. Although the main attention will be focused on humans, examples will be drawn from other vertebrate species ranging from the effects of testosterone on songbird vocalizations to the estrous cycle in rats to seasonal reproduction in sheep in order to provide comparative perspectives. Prerequisite: BIOL 226. (4)

BIOL 362 : Animal Behavior

A survey of the field of animal behavior with an emphasis on integrating behavioral analyses into an explicitly evolutionary framework. An understanding of both the proximate and ultimate mechanisms underlying behavior is emphasized. Laboratory/discussion in addition to lecture. Prerequisite: BIOL 226. (4)

BIOL 367 : Conservation Biology and Management

Based upon the principles of population ecology and ecological genetics, an integrated study of the impacts of people on

nature—specifically the diversity of plants and animals. Includes practical applications, techniques, and case studies in forest, fish, wildlife, and land management. Laboratories and field trips concern resource management and use. Course may not be repeated for credit. Prerequisite: BIOL 226 or consent of instructor. (4)

BIOL 368 : Ecology

Organisms in relation to their environment, including organismal adaptations, population growth and interactions, and ecosystem structure and function. Laboratory/discussion in addition to lecture. Prerequisite: BIOL 226. (4)

BIOL 369 : Marine Biology

The ocean as environment for plant and animal life; an introduction to structure, dynamics, and history of marine ecosystems. Lab, field trips, and term project in addition to lecture. Prerequisite: BIOL 226. (4)

BIOL 387 : Special Topics in Biology

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

BIOL 388 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 389 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 442 : Cell Biology

Focuses on cellular organization and function, enzyme kinetics, membrane structure and function, energetics, signaling, and cell cycle. Laboratory employs modern techniques including animal cell culture, cell fractionation, molecular, genetic, and biochemical assays, and microscopy (light, phase contrast, fluorescence). Prerequisite: BIOL 330 and CHEM 331 with 333, or consent of instructor. (4)

BIOL 443 : Plant Development and Genetic Engineering

A study of how plant structures form and change through the life cycle and how genetic engineering is used to alter plant biology for research and commercial applications. Specific GMOs considered as case studies. Focus on molecular biology and application of concepts. Prerequisite: BIOL 330. Recommended: BIOL 358, 442, or 445. (4)

BIOL 444 : Neurobiology

Neurobiology is the study of the nervous system and its relationship to behavior and disease. This course examines the structure and function of neurons and glia, neural development, gross organization of the brain, sensory and motor systems, and higher functions such as learning, memory, and speech. Prerequisite: BIOL 330 or consent of instructor. (4)

BIOL 445 : Molecular Biology

An introduction to molecular biology, emphasizing the central role of DNA: structure of DNA and RNA, structure and expression of genes, genome organization and rearrangement, methodology, and applications of recombinant DNA technology. Laboratory features basic recombinant DNA techniques. Prerequisite: BIOL 330. (4)

BIOL 448 : Immunology

Explores the physical, cellular, and molecular components of innate and adaptive immune responses. Emphasizes an integrated approach to exploring immunological concepts within the context of human health and disease. Prerequisites: BIOL 330 and one of the following courses BIOL 341, 342, 352, 442, 445, or 453. (4)

BIOL 449 : Virology

The diversity that exists among viruses is staggering, and there is no type of life on Earth that is not subject to infection by viruses. This course will explore viral origins, replication, transmission, pathogenesis, oncogenesis, and host immunity. Emerging viruses, pandemics, and vaccines will also be discussed. Students will gain hands-on experience in a wide range of techniques and will work with both bacteriophages and animal viruses. Prerequisite: BIOL 330. (4)

BIOL 453 : Mammalian Physiology

An investigation of the principles of physiological regulation. Part I: fundamental cellular, neural, and hormonal mechanisms of homeostatic control; Part II: interactions in the cardiovascular, pulmonary, renal, and neuromuscular organ systems. Laboratory allows direct observation of physiological regulation in living animals. Prerequisites: BIOL 330, CHEM 115; BIOL 352 recommended. (4)

BIOL 461 : Evolution

An introduction to evolutionary theory and its broad explanatory power in biology. Coverage includes: a brief history of evolutionary thought, population genetics and the mechanisms of evolutionary change, phylogenetics, speciation, macroevolutionary processes, origins of life on earth, and evo-devo. Laboratory includes simulations and empirical examples of concepts covered in lecture. Prerequisite: BIOL 330. (4)

BIOL 462 : Plant Diversity and Distribution

A systematic introduction to plant diversity. Interaction between plants, theories of vegetational distribution. Emphasis on higher plant taxonomy. Includes laboratory and field trips. Prerequisite: BIOL 330. (4)

BIOL 487 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 488 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 489 : Special Topics in Biology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BIOL 491 : Independent Studies

Investigations or research in areas of special interest not covered by regular courses. Open to qualified junior and senior majors. Prerequisite: Written proposal for the project approved by a faculty sponsor and the department chair. (1 to 4)

BIOL 495 : Internship in Biology

An approved off-campus work activity in the field of biology with a private or public sector agency, organization, or company. Students will be expected to adhere to and document the objectives of a learning plan developed with and approved by a faculty sponsor. Credit will be determined by hours spent in the working environment and the depth of the project associated with the course of study. Prerequisites: BIOL 226 and consent of department chair. (1 to 4)

BIOL 499 : Capstone: Senior Seminar - SR

Capstone is a topical course in which students will work in small groups with a faculty mentor to explore the primary literature in a topic within that faculty member's area of expertise. Students will develop their skills interpreting, summarizing, and critically analyzing the primary literature. They will produce written and oral products as a result of the semester's work. Meets the senior seminar requirement. Prerequisites: Consent of instructor; and students must have successfully completed, with a C- or better, at least two upper-division classes in addition to BIOL 330 prior to enrolling in Capstone. Student performance in courses in the Capstone distribution area influences student placement into Capstone sections. (2)

BMBA 504 : Quantitative Methods for Decision Making

Methods and techniques of quantitative research. Emphasis on research design, data collection, basic data analysis; including, chi-square, correlation, ANOVA and regression, as well as interpretation and presentation of results. Students will work in groups to provide a custom research project for a business or non-profit client. (4)

BMBA 509 : Global Business Perspectives

Evaluate cultural, economic, political and environmental contexts for global business. Develop value-adding strategies, organizational capabilities and personal competencies for business success across borders and cultures. On-campus course with embedded international experience. (4)

BMBA 510 : Legal, Ethical and Social Responsibilities of Business

A survey of legal topics essential to effective managerial decision making. Explore the legal, ethical, and social implications of legal strategies and practices. This course also examines the sources and development of conflict and develops negotiation as a tool for managing conflict situations. (4)

BMBA 511 : Accounting for Decision Making

An examination of financial and managerial accounting topics, including financial reporting, budgeting, and cost behavior. The focus is on using accounting to support business decision making. (4)

BMBA 513 : Marketing Management

A practical approach to understanding and applying customer-directed marketing strategies for achieving organizational goals. Students will examine theoretical concepts and apply contemporary approaches to the marketing of services, products and ideas in business, public, and nonprofit organizations. (4)

BMBA 515 : Organizations, Leadership, and Change Management

The leader's role in creating organizational designs, processes and cultures. Leader competencies and practices for developing and managing people to meet performance requirements and organization cultural fit, and analyzing needs for organizational change. (4)

BMBA 517 : Understanding and Managing Financial Resources

Corporate finance topics including cash flow forecasting, planning, budgeting, valuation models, cost of capital, leverage, and risk and return. Additional topics include ratio analysis, computer simulation, financial feasibility assessment, balance sheet analysis, determinants of interest rates, and the impact of business cycle fluctuations on shareholder value. (4)

BMBA 521 : Supply Chain and Information Management

Develops a managerial perspective on the role of manufacturing and service operations within the enterprise and in supply chains. Examine the strategic role of information technology and systems in enabling decision making for global competitive advantage. (4)

BMBA 522 : Quantitative and Managerial Decision Analysis

Provide an intensive introduction to quantitative methods for business applications. Examination of the context within which individual firm decisions must be made. Demand, cost, pricing decisions, and the economic and regulatory environment of the firm are emphasized. (4)

BMBA 523 : Business Strategy and Innovation Management

Apply a multidisciplinary approach to explore execution of business- and corporate-level strategies, such as differentiation, cost-leadership, diversification, alliances, and M&As, and managing innovation to generate sustainable competitive advantage in a global context. (4)

BMBA 526 : Big Data and Decision Analytics

This course provides a broad overview of analytic strategies for (structured and unstructured) data collected in interactive channels. Topics covered include: big data, key performance indicators, and how to optimize digital experiences by incorporating testing and experimentation. Prerequisites: BMBA 513. (4)

BMBA 550 : Leading Family and Closely-Held Enterprises

Explores issues unique to managing, working within, or advising closely held businesses. Role of closely held firms in global economy; control, fairness, and equity issues; succession; unique aspects of family firms including family dynamics inside and outside of the business. Prerequisite: BMBA 515. (4)

BMBA 560 : Managing Health Care Enterprises

Surveys policy and operational issues facing managers in the rapidly changing health care environment. Explores challenges of managing in health care settings, including hospitals, medical practice organizations, long-term care facilities and clinics. Discusses health care related organizations such as health insurance companies, consulting firms, managed care organizations, pharmaceutical companies, and other organizations that support the health care industry. Prerequisite: BMBA 515. (4)

BMBA 561 : Advanced Supply Chain Management

This course presents a range of advanced topics in integrated operations and supply chain management. Topics include strategic sourcing and procurement strategies, demand-driven performance, mitigation of supply chain risk, management of third party logistics, and management of supply chain security and risk. Critical to understanding supply chain operations is a review of conventional operations practices and the challenges of flow vs unit costs and the specific challenges of complex supply chains and complex technical systems. Prerequisite: BMBA 521. (4)

BMBA 570 : Management and Marketing of Technology

Examines the critical role that technology plays in achieving organizational effectiveness and competitive advantages. Topics include planning, developing, sourcing, and controls of technology and systems, technology transfer and commercialization, technology road mapping, technology integration, marketing of technology, science and technology policy, and global issues in technology management. Prerequisite: BMBA 521. (4)

BMBA 577 : Project Management

Study of project management principles and techniques including planning, network building, project control, reporting and closing to address the unique conditions and challenges associated with designing and managing major non-repetitive undertakings. May not be counted toward more than one concentration or certificate. Prerequisite: BMBA 515. (4)

BMBA 587 : Special Topics in Business Administration

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMBA 588 : Special Topics in Business Administration

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMBA 589 : Special Topics in Business Administration

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMBA 591 : Independent Study

Individualized reading and studies. Minimum supervision after initial planning of student's work. Rarely granted and requires prior approval of M.B.A. director and consent of instructor. (1 to 4)

BMBA 595 : Internship

Application of business knowledge in field setting. Credit granted determined by hours spent in working environment and depth of project associated with course of study. Pass/fail. (1 to 4)

BMMA 502 : Marketing Strategy and Consumer Behavior

Key topics in marketing strategy to identify target markets, develop/refine brands, and showcase points of parity and difference. Focuses on the thoughts and emotions of consumers, their behaviors, and their motivations to help implement strategies which are built upon innovative edge consumer behavior models. Practice Focus: In collaboration with real-world marketing challenges, students apply marketing strategies to help a business/organization improve their market position. (4)

BMMA 504 : Quantitative Marketing Research

Methods and techniques of quantitative marketing research. Emphasis on research design, data collection, basic data analysis including chi-square, correlation, ANOVA and regression as well as interpretation and presentation of results. Students will work in groups to provide a custom research project for a business or non-profit client. (4)

BMMA 508 : Qualitative Marketing Research

Methods and techniques of qualitative marketing research. Will examine focus groups, depth interviews, projective techniques, ethnography and other qualitative techniques. (4)

BMMA 524 : Advanced Research Methods

Emphasis on data analysis and interpretation using multivariate techniques including principal component and factor analysis, logistical regression, discriminant analysis, cluster analysis, perceptual mapping, structural equation modeling and other techniques. Prerequisites: BMMA 502, 504, 508. (4)

BMMA 526 : Big Data and Digital Analytics

This course provides a broad overview of analytic strategies for (structured and unstructured) data collected in interactive channels (online, mobile, social, etc). Topics covered include web analytics, big data, and key performance indicators, how to analyze the effectiveness of social media, and how to optimize the digital experience by incorporating testing and experimentation. Prerequisites: BMMA 502. (4)

BMMA 530 : Data Mining

This course will examine both descriptive and predictive techniques in data mining. The core topics to be covered in this course include classification, clustering, association analysis, and forecasting with an emphasis on the use of software tools for making evidenced-based decisions. Legal and ethical restrictions on use of customer information will be discussed. Prerequisites: BMMA 502. (4)

BMMA 577 : Project Management

Study of project management principles and techniques including planning, network building, project control, reporting, and closing to address the unique conditions and challenges associated with designing and managing major non-repetitive undertakings. (4)

BMMA 587 : Special Topics in Marketing Analytics

To provide graduate students with new and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMMA 588 : Special Topics in Marketing Analytics

To provide graduate students with new and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMMA 589 : Special Topics in Marketing Analytics

To provide graduate students with new and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

BMMA 591 : Independent Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

BMMA 598 : Graduate Research Project in Marketing I

Application of learned marketing research and analytics skills. Students interact with clients to develop a detailed capstone project proposal with hands-on support from faculty to solve real-world marketing decision problems. Students will complete secondary data and qualitative data collection and analysis thus laying the foundation for quantitative research in Capstone Part II. Option for more theoretical academic capstone project. Field experience in data analytics to include industry site visits. Prerequisites: BMMA 502, 503, 504, 508. (4)

BMMA 599 : Graduate Research Project in Marketing II

Students will work independently with faculty to complete the marketing research project and write a publishable research article with intent to submit to a targeted journal. Prerequisite: BMMA 598. (4)

BUSA 201 : Introduction to Business in the Global Environment

Introduces global business as a connected form of decision-making and problem solving across disciplines such as marketing, accounting, finance, operations, and management. Introduces value-generating innovation and explores ethical, cultural, operational, and legal issues in both smaller entrepreneurial organizations and larger global entities. Provides opportunity to explore potential disciplines and careers in business. (4)

BUSA 202 : Financial Accounting

Accounting for financial performance for the use of external decision-makers considering investment in a business organization. Origins and uses of financial information; accounting concepts and principles; logic, content, and format of financial statements; accounting issues in the U.S. and other nations. Prerequisite: MATH 128 or 151 or higher or co-enrollment in MATH 128 or 151 or higher. (4)

BUSA 203 : Managerial Accounting

Introduction to the use of accounting data for decision making, managerial planning, and operational control. Topics include cost-volume-profit relationships, costing systems, budgeting, and performance evaluation. Familiarity with Microsoft Excel or other spreadsheet software is expected. Prerequisite: BUSA 202. (4)

BUSA 287 : Special Topics in Business

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 288 : Special Topics in Business

Seminar on selected topic in business. (1 to 4)

BUSA 289 : Special Topics in Business

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

BUSA 300 : Certificate in Diversity and Equity in Business

This course leads to a certificate in Diversity and Equity in Business. The course introduces students to historical and emergent perspectives on business and social justice. Students will learn to see their role as future business leaders and, in particular, explore historical and present case examples of inequity in business. Students will also explore the issues of diversity and justice

through interaction and engagement with community and business leaders and seek to address inequity and inequality in business. A certificate will be awarded upon the successful completion of the course with a Pass grade. Prerequisites: Sophomore level standing. Open to Sophomore, Junior, and Senior students. (0 to 1)

BUSA 302 : Business Finance

Introduces principles used in financing and investment decisions to maximize stakeholders' value. Covers the fundamental process of ethical planning for, acquiring, and allocating funds by a business enterprise. Explores general financial decision tools including time value of money, basic bond valuation, basic stock valuation, the cost of capital, capital budgeting, working capital management, and other key finance topics. Prerequisites: BUSA 202, ECON 101, and STAT 231. (4)

BUSA 303 : Business Law and Ethics

Explores business law as a management tool for risk decision-making and management of business organizations from formation through capital raising, asset acquisition and protection, business regulation, and bankruptcy. Explore the interrelationship of business management, business ethics, legal risk management, and the global business environment. Prerequisite: BUSA 201. (4)

BUSA 305 : Behavior in Organizations

Working with and leading others in the global environment at individual, group, and organizational levels. Learning skills to organize and manage people with emphasis on individual and team dynamics, personality and values, diversity, motivation, leadership, decision-making, conflict, organizational culture, and change. Prerequisite: BUSA 201. (4)

BUSA 308 : Principles of Marketing

Introduces the role of sustainable marketing in a global society. Topics covered include marketing planning, consumer behavior, marketing research, and an emphasis on marketing mix decisions for firms and nonprofit organizations. Prerequisite: BUSA 201 or 340. (4)

BUSA 309 : Operations and Supply Chain Management

Creating value through the production and distribution of goods, services, and other economic activities with a focus on quantitative problem solving techniques. Operations and supply chain management applications through modeling tools including forecasting, resource allocation, capacity management, quality control, and materials requirement planning. Prerequisites: BUSA 201, STAT 231 and MATH 128 or 151 or higher. (4)

BUSA 310 : Information Systems and Database Management

Introduction to information technology and systems from a management perspective. Strategic use of technology and systems, and impacts on industry competition, corporate strategy, organization structure, and the firm's value creation process. Basic concepts, strategies, and features of database design and management and how database applications support managerial decision-making and business operations. Prerequisite: BUSA 201. Recommended: CSCI 120. (4)

BUSA 320 : Accounting Information Systems and Data Analytics

Study of the flow of accounting information through an enterprise, systems documentation, internal controls, and database applications in accounting. It also includes data analytics and visualization in Excel, Access, and other data analytic tools. Prerequisite: BUSA 201 and 202. (4)

BUSA 321 : Intermediate Accounting I

Concentrated study of the conceptual framework of accounting, valuation theories, asset and income measurement, and financial statement disclosures in the U.S. and abroad. Familiarity with Microsoft Excel is expected. Prerequisite: BUSA 201 and 202. (4)

BUSA 322 : Intermediate Accounting II

Advanced study of, and research on measurement and valuation of assets, liabilities and income, and financial statement disclosure issues. Includes evaluation of U.S. framework relative to those of other international frameworks. Prerequisite: BUSA 321. (4)

BUSA 323 : Cost Accounting and Control Systems

A critical examination of systems for cost accounting and managerial control. Emphasis on development of skills to critique cost and control systems and to understand the dynamic relationship between systems, operations, strategy, and performance evaluation. Prerequisite: BUSA 203. (4)

BUSA 335 : Investments and Portfolio Management

Theory and practice of securities (e.g., stocks, bonds, derivatives, hybrids) valuation as well as portfolio construction and evaluation. Emphasis on applying classroom concepts in real-time to student-managed portfolios. Exposure to complicating factors including taxes, the risk-return relationship, pricing anomalies, and behavioral issues in investing. Prerequisite: BUSA 302. (4)

BUSA 337 : International Finance and Risk Management

Management of cross-border financial issues, including managing exchange rates, accessing global capital markets, conducting foreign investment, and financing foreign trade. Techniques (e.g., options, swaps, futures, insurance) and firm decisions (degrees of economic, operating, and financial leverage) are considered both generally (to firm risk) and specifically to international issues. Prerequisite: BUSA 302. (4)

BUSA 340 : Nonprofit Management

Overview of the nonprofit sector. Topics include: scope and context of the sector; operating strategies and organizing principles of nonprofit entities; nonprofit financial literacy; management and leadership challenges unique to the sector such as HRM strategies and accountability mechanisms, working with volunteers, fundraising, ethics, stewardship, and compliance/legal issues. Students will have the opportunity to engage with leaders of nonprofit organizations. No prerequisites and open to any major. (4)

BUSA 342 : Human Resource Management

Introduction to the essential skills necessary to hire, retain, and manage the right people for the right job at the right time in organizations. Topics include workforce planning, job analysis and design, staffing, talent and performance management, diversity, compensation, retention, risk management, and employee and labor relations, in the global environment. Prerequisite: BUSA 305. (4)

BUSA 352 : Global Management

Integrated study of challenges faced by managers in large and small organizations as they do business globally. Competencies involved in communicating, negotiating, strategizing, organizing, making decisions, leading people, and managing a multicultural workforce across borders and cultures. Prerequisite: BUSA 305. (4)

BUSA 358 : Entrepreneurship

Intensive study of issues and challenges associated with start-up, growth, and maturation of a new enterprise. Emphasizes reduction of risk through planning for and assessing possible future conditions. Prerequisite: BUSA 201. (4)

BUSA 361 : e-Marketing

Provides an overview of marketing issues associated with marketing by electronic means, including the Internet, by businesses and nonprofit organizations. Explores how e-marketing fits in the organization's overall marketing strategy. Prerequisite: BUSA 308. (4)

BUSA 363 : Consumer Behavior

Processes involved as consumers gain awareness, establish purchasing criteria, screen information, make decisions and dispose of consumer goods, services, ideas, or experiences. Consumer behavior will be examined to identify how it affects marketing, strategy and how marketing affects behavior. Prerequisite: BUSA 308. (4)

BUSA 366 : Multicultural Marketing

Application of marketing principles to identify and reach the growing ethnic subcultures in the U.S. Historical context and ethical implications of multicultural marketing activities. Emphasis on practical aspects of multicultural business development.

Prerequisite: BUSA 308. (4)

BUSA 387 : Special Topics in Business Administration

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 388 : Special Topics in Business Administration

Special Topics. (1 to 4)

BUSA 389 : Special Topics in Business Administration

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 401 : Certificate in Consulting for Business and Entrepreneurship

This course leads to a certificate in Consulting for Business and Entrepreneurship. The course trains students in the art and science of consulting with small businesses and entrepreneurial firms. Students will learn the requisite skills and knowledge through interaction and engagement with industry experts, alumni, and businesses, with the purpose to help nourish businesses in the community. The program provides a focus on women and minority-owned businesses. Students will develop their skills through experiential assignments, helping businesses in the community identify areas for improvement and to generate a plan to develop those areas. A certificate will be awarded upon the successful completion of the course with a Pass grade.

Prerequisites: Junior level standing. Open to Junior and Senior students. (0 to 1)

BUSA 402 : Certificate in Consultative Engagements and Professional Sales

This course leads to a certificate in Consultative Engagements and Professional Sales. Students will learn the practical skills to navigate decision steps, ask high-gain questions, explore consequences and payoffs, lead problem-solving sessions, persuade through involvement, and develop trust with clients in for-profit, non-profit, and governmental sectors. Focus on practical career tools. A certificate will be awarded upon the successful completion of the course with a Pass grade. Prerequisites: Junior level standing. Open to Junior and Senior students. (0 to 1)

BUSA 422 : Advanced Accounting

Concentrated study of equity measurement including the accounting aspects of partnerships, corporations, and consolidations. Also includes accounting for multinational corporations. Prerequisite: BUSA 321 and senior standing. (4)

BUSA 423 : Accounting for Nonprofits and Governmental Entities

Study of fund accounting, including its conceptual basis, its institutional standard setting, framework, and current principles and practices. Prerequisite: BUSA 202. (4)

BUSA 424 : Auditing

Comprehensive study of auditing concepts and procedures. Recommended: BUSA 320 as prerequisite or co-requisite. (4)

BUSA 427 : Tax Accounting

Study of income tax concepts, regulation, and tax planning principles. Both individual income taxation and business taxation are discussed. Prerequisite: BUSA 202. (4)

BUSA 430 : Finance for Entrepreneurial and Privately-Held Firms

Methods of financing and managing privately-held firms. Topics include private firm valuation issues, financing sources and methods, venture and private equity markets, and exit and outcomes for entrepreneurial and privately-held firms. Prerequisite: BUSA 302. (4)

BUSA 432 : Financial Derivatives and Trends

Examines financial derivatives including forward and futures contracts, swaps, and options. Topics include the role of derivative instruments in capital markets; mechanics and basic pricing techniques of forward and futures, swaps, and options; and hedging strategies based on derivatives. Trends of financial markets such as cryptocurrencies and fintech are also discussed. Prerequisite: BUSA 302. (4)

BUSA 437 : Financial Analysis and Strategy

Intermediate treatment of capital budgeting (and decision-making), valuation, forecasting, risk and return analysis, capital structure, and cost of capital. This course covers the essential tools of corporate finance, while illustrating corporate finance/corporate strategy interdependences through the use of cases. Prerequisite: BUSA 302. (4)

BUSA 438 : Empirical Finance

Covers selected seminal finance theories, as well as relevant empirical methods. Applying empirical methods to test key asset pricing and corporate finance topics using real data. Theories covered and empirical methods employed will depend on instructor. Prerequisites: BUSA 302 and four hours from BUSA 335, 337, 430, or 437; or BUSA 302 and co-enrollment in one of BUSA 335, 337, 430, or 437; or permission of instructor. (4)

BUSA 442 : Leadership and Change

Developing leaders and leadership competencies in individual and organizational context with emphasis on creating change in organizations. Learning leadership skills to advance change through systemic learning, respect for diversity, organizational culture change, cross cultural perspective, coaching others, and organizational development. Prerequisite: BUSA 305. (4)

BUSA 444 : Project Management

Applications and experiences in planning, scheduling, organizing, and managing projects for a variety of settings. Emphasis on the project management process and tools. Specific outcomes include understanding concepts, techniques, and decision tools available to project managers, how to apply work breakdown structures and networks to projects, how to recognize and manage problems that can occur on projects, and how to effectively participate as a project team member. Focus is on learning and applying practical tools that are valuable in the workplace. Prerequisite: BUSA 305. (4)

BUSA 449 : Strategic Human Resource Management

Seminar course on topics of strategic transformation: HRM as a decision science to measure its impact and build competitive advantage and workforce engagement in alignment with organizational strategy, and internal/external environments. Advanced business students, in consultation with the instructor, select appropriate topics for research and discussion. Prerequisite: BUSA 342 or co-enrollment in BUSA 342. (4)

BUSA 460 : International Marketing

Introduction to marketing problems and opportunities in an international context. Investigation of economic, cultural, and business forces that require changes in marketing plans for international companies. Prerequisites: BUSA 308 or permission of instructor for non-business majors. (4)

BUSA 467 : Marketing Research

Investigation of techniques and uses of marketing research in the business decision-making process. Research design, survey methods, sampling plans, data analysis, and field projects. Prerequisites: BUSA 308, STAT 231. (4)

BUSA 468 : Marketing Management

Choosing target markets, acquiring and keeping customers by creating, delivering, and communicating customer value. The course may include a service-learning project. Prerequisites: BUSA 363, 467. (4)

BUSA 485 : Study Away in Business

PLU-sponsored academic or experiential study in other countries. (0 to 32)

BUSA 487 : Special Topics in Business Administration

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The

title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

BUSA 488 : Special Topics in Business Administration

Seminar on specifically selected topics in business. (1 to 4)

BUSA 489 : Special Topics in Business Administration

Seminar on specifically selected topics in business. (1 to 4)

BUSA 491 : Independent Study

Individualized studies in consultation with an instructor. Prerequisites: junior standing, instructor approval, and approval by dean or his/her designate. (1 to 4)

BUSA 495 : Internship

Application of business knowledge in field setting. Credit granted determined by hours spent in working environment and depth of project associated with the course of study. Internships do not apply to concentration requirements. Pass/Fail. (1 to 4)

BUSA 499 : Capstone: Strategic Management - SR

Capstone seminar for business majors. Strategic decision-making by integrating all business functions to formulate and implement business policies and strategies to achieve organizational objectives; apply appropriate methodologies, concepts, and tools pertinent to strategic analyses; and discuss implications of industry structure, organization resources and capabilities, business ethics and social responsibility, sustainability, and global competitive conditions in selecting courses of action. Prerequisites: BUSA 203, 302, 303 or 304, 305, 308, 309, 310, and senior standing. Last semester or permission of dean or his/her designate. (4)

CHEM 101 : Introductory Chemistry

An introduction to basic chemical principles, reactions and mathematical skills relating to chemistry. Specifically tailored to students with limited previous chemical experience or those that desire a review of these topics before taking CHEM 105/115. (1)

CHEM 103 : Food Chemistry - NW

Basic chemistry and the scientific method are applied to cooking, baking, and food preparation. This course includes laboratory experiences and written laboratory reports. No prerequisites. (4)

CHEM 104 : Environmental Chemistry - NW

Basic principles of chemistry and reactions, with applications to human activities and the natural environment. Includes laboratory. No prerequisites. Suitable for environmental studies, general science teachers, elementary education, B.A. in geosciences, or fulfilling university general education requirements. (4)

CHEM 105 : Chemistry of Life

Basic organic and biochemistry applied to chemical processes in human systems; suitable for liberal arts students, nursing students, physical education majors, and prospective teachers. Students who have not completed high school chemistry recently should take CHEM 101 before taking CHEM 105. Prerequisite: Math placement in MATH 140 or higher; or completion of MATH 115 with a C or higher. (4)

CHEM 115 : General Chemistry I - NW

Topics explored include the structure of matter, nomenclature, atomic and molecular theory, periodic relationships, states of matter, quantitative relationships, and thermochemistry. The course includes laboratory experiences. Corequisite: MATH 140 or math placement in MATH 151 or higher. Recommended: one year of high school chemistry. (4)

CHEM 116 : General Chemistry II - NW

Introduces students to chemical kinetics, chemical equilibrium, acid-base chemistry thermodynamics, electrochemistry, chemistry of the elements, and coordination compounds. The course includes laboratory experiences. Prerequisite: MATH 140 or higher and CHEM 115. (4)

CHEM 287 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 288 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 289 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

CHEM 320 : Analytical Chemistry

Chemical methods of quantitative analysis, including volumetric, gravimetric, and selected instrumental methods. Includes laboratory. Prerequisites: CHEM 116; MATH 140. (4)

CHEM 331 : Organic Chemistry I

An introduction to structure, reactivity, and general properties of organic molecules. Prerequisite: CHEM 116. Corequisite: CHEM 333. (4)

CHEM 332 : Organic Chemistry II

Chemistry of aromatic compounds, carbonyl-containing functional groups, amines, phenols, and an introduction to biologically important molecules. Prerequisites: CHEM 331 and 333. Corequisite: CHEM 334 or 336. (4)

CHEM 333 : Organic Chemistry I Laboratory

Reactions and methods of synthesis, separation and analysis of organic compounds. Microscale techniques. Practical investigation of reactions and classes of compounds discussed in CHEM 331. Corequisite: CHEM 331. (1)

CHEM 334 : Organic Chemistry II Laboratory

Synthesis of organic compounds, including instrumental and spectroscopic analyses. Practical investigation of reactions and classes of compounds discussed in CHEM 332. Prerequisite: CHEM 333. Corequisite: CHEM 332. (1)

CHEM 336 : Organic Special Projects Laboratory

Individual projects emphasizing current professional-level methods of synthesis and property determination of organic compounds. This course is an alternative to CHEM 334 and typically requires somewhat more time commitment. Students who wish to prepare for careers in chemistry or related areas should apply for departmental approval of their admission to this course. Corequisite: CHEM 332. (1)

CHEM 341 : Physical Chemistry

A study of the relationship between the energy content of systems, work, and the physical and chemical properties of matter. Classical and statistical thermodynamics, thermochemistry, solution properties, phase equilibria, and chemical kinetics. Prerequisites: CHEM 116, MATH 152, PHYS 154. (4)

CHEM 342 : Physical Chemistry

A study of the physical properties of atoms, molecules and ions, and their correlation with structure. Classical and modern quantum mechanics, bonding theory, atomic and molecular structure, spectroscopy. Prerequisites: CHEM 116, MATH 152, PHYS 154. (4)

CHEM 343 : Physical Chemistry Laboratory

Experiments in kinetics and thermodynamics. Attention given to data handling, error analysis, instrumentation, computational analysis, and correlation with theory. Prerequisite or corequisite: CHEM 341. (1)

CHEM 344 : Physical Chemistry Laboratory

Experiments in molecular structure and spectroscopy. Attention given to data handling, error analysis, instrumentation, computational analysis, and correlation with theory. Prerequisite or corequisite: CHEM 342. (1)

CHEM 387 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 388 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 389 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 403 : Biochemistry I

An overview of the structures, function, and regulation of proteins, carbohydrates, lipids, and nucleic acids, and an introduction to metabolic and regulatory cellular processes. Majors are encouraged to take both CHEM 403 and 405 for a comprehensive exposure to biochemical theory and techniques. Prerequisites: CHEM 332 and 334 (or 336) (4)

CHEM 405 : Biochemistry II

A continuation of CHEM 403 that provides further insight into cellular metabolism and regulation, enzyme kinetics and mechanisms of catalysis, protein synthesis, nucleic acid chemistry, and biotechnology. Concepts introduced in Physical Chemistry and Biochemistry I will be applied to this course. Laboratory designed to stimulate creativity and problem-solving abilities through the use of modern biochemical techniques. Prerequisite: CHEM 403. (3)

CHEM 410 : Introduction to Research

An introduction to laboratory research techniques, use of the chemical literature, including computerized literature searching, research proposal, and report writing. Students develop an independent chemical research problem chosen in consultation with a member of the chemistry faculty. Students attend seminars as part of the course requirement. (2)

CHEM 420 : Instrumental Analysis

Theory and practice of instrumental methods along with basic electronics. Special emphasis placed on electronics, spectrophotometric, chromatographic, and mass spectrometric methods. Prerequisites: CHEM 320; 341 and/or CHEM 342; 343. (4)

CHEM 440 : Advanced Organic Chemistry

Students will develop a repertoire of synthetic methodology and a general understanding of a variety of organic reaction mechanisms. Synthetic organic strategies and design, the analysis of classic and recent total syntheses from the literature, and advanced applications of instrumentation in organic chemistry. Prerequisite: CHEM 332. (2)

CHEM 450 : Inorganic Chemistry

Techniques of structural determination (IR, UV, VIS, NMR, X-ray, EPR), bonding principles, nonmetal compounds, coordination chemistry, organometallics, donor/acceptor concepts, reaction pathways, and biochemical applications are covered. Laboratory: synthesis and characterization of non-metal, coordination and organometallic compounds. Prerequisites: CHEM 332, 341; Prerequisite or corequisite: CHEM 342. (3)

CHEM 456 : Polymers and Biopolymers

A course presenting the fundamentals of polymer synthesis, solution thermodynamic properties, molecular characterization, molecular weight distribution, and solution kinetics. Free radical, condensation, ionic, and biopolymer systems, with emphasis on applications. Prerequisite: CHEM 341; prerequisite or corequisite: CHEM 342. (3)

CHEM 487 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 488 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 489 : Special Topics in Chemistry

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHEM 491 : Independent Studies

Library and/or laboratory study of topics not included in regularly offered courses. Proposed project must be approved by department chair and supervisory responsibility accepted by an instructor. May be taken more than once. A specific title for the project may be appended to the general title of Independent Studies for CHEM 491. (1 to 4)

CHEM 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

CHEM 497 : Research

Experimental or theoretical investigation open to upper-division students with consent of department chair. May be taken more than once. Generally consists of a research project developed in consultation with a chemistry faculty member. A specific title for the project may be appended to the general title of Research for CHEM 497. (1 to 4)

CHEM 499A : Capstone Seminar I - SR

Students are trained in the practice of scientific writing and presentation by initiation of a project developed through independent library or laboratory research under the mentorship of a faculty advisor. Effective oral presentation skills are critically evaluated in seminars by practicing scientists and fellow students. Participation by all senior chemistry majors is required; meets the senior seminar/project requirement with CHEM 499B. (1)

CHEM 499B : Capstone Seminar II - SR

Continuation of CHEM 499A with emphasis on completion of an independent library or laboratory research project with a faculty advisor. This includes presentation of their research in a department seminar and submission of the final capstone paper. Participation by all senior chemistry majors is required; meets the senior seminar/project requirements with CHEM 499A. (1)

CHIN 101 : Elementary Chinese - GE

Introduction to Mandarin Chinese. Basic skills in listening, speaking, reading, and writing with an emphasis on appropriate use of language in cultural context. Laboratory practice required. (4)

CHIN 102 : Elementary Chinese - GE

A continuation of CHIN 101 or equivalent. Introduction to Mandarin Chinese. Basic skills in listening, speaking, reading, and writing with an emphasis on appropriate use of language in cultural context. Laboratory practice required. (4)

CHIN 201 : Intermediate Chinese - VW, GE

A continuation of CHIN 102 or equivalent. Develops further the ability to communicate in Mandarin Chinese, using culturally authentic material. Laboratory practice required. (4)

CHIN 202 : Intermediate Chinese - VW, GE

A continuation of CHIN 102 or equivalent. Develops further the ability to communicate in Mandarin Chinese, using culturally authentic material. Laboratory practice required. (4)

CHIN 287 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 288 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 289 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

CHIN 301 : Composition and Conversation - IT, GE

Review of grammar with emphasis on idiomatic usage; reading of contemporary authors as models of style; and conversation on topics of student interest. Conducted in Chinese. Prerequisite: CHIN 202. (4)

CHIN 302 : Composition and Conversation - IT, GE

Review of grammar with emphasis on idiomatic usage; reading of contemporary authors as models of style; and conversation on topics of student interest. Conducted in Chinese. Prerequisite: CHIN 202. (4)

CHIN 371 : Chinese Literature in Translation - IT, GE

An introduction to the most important works and writers of Chinese literary traditions, from early times to the modern period. Poetry, prose, drama, and fiction included. Film presentations supplement the required readings. No knowledge of Chinese required. (4)

CHIN 387 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 388 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 389 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 487 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 488 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 489 : Special Topics in Chinese

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHIN 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

CHIN 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

CHSP 287 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4).

CHSP 288 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 289 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 387 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 388 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 389 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 487 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 488 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 489 : Special Topics in Chinese Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CHSP 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

CHSP 499 : Capstone: Senior Project - SR

A project, thesis, or internship which demonstrates competence in language and other dimensions of Chinese Studies. Must be approved in advance by chair of the Chinese Studies Program; tally card required. Upon prior application of the student, seminars in other departments or programs may substitute for this course. (4)

COMA 101 : Introduction to Communication

Introduces the study of human communication. Students will learn and apply a wide array of analytical theory and techniques across diverse human experiences from interpersonal to public communication and mass communication contexts to become more aware and effective communicators. (4)

COMA 120 : Introduction to Media Studies - CX

This course combines the study of visual media theories and analysis with the processes of actual media production. Initially, the class examines contemporary and classical genres of creative media, such as television, narrative and non-narrative film, advertising, PR, marketing and promotional campaigns to explore meanings, values and the ways in which media have become major parts of human existence, experience and expression globally. Reflecting ongoing developments in media, the course also provides an overview of the languages of creative media, exploring topics such as: fundamentals of scriptwriting, cinematography, editing, the soundtrack, directors, and the numerous and varied tasks involved with production, all culminating in student-generated creative works. (4)

COMA 211 : Debate

This course introduces the practice of academic and political debate. It introduces principles and theories of argument. Students will have opportunities for in-class and public debates. May be repeated up to 2 semester hours. (0 to 2)

COMA 212 : Public Speaking

Introduces the basic techniques of public speaking. Students complete several speeches and learn the basic skills of speechmaking, including topic selections, research, organization, audience analysis, and delivery. (4)

COMA 215 : Writing in Communication Careers

Introduces students to the fundamental standards and expectations in communication writing. Includes styles and formats routinely used in both academic and professional communication writing and research. Also includes writing for multiple audiences. Reviews basic grammar, sentence and paragraph structures. This course will conclude with an EXIT EXAM (grammar/syntax/clarity) that must be passed to proceed to any major/concentration in the department. (4)

COMA 226 : MediaLab

Students engage in all aspects of multimedia productions for various student media outlets. Professional standards of production

and ethics will be used to evaluate all productions. May be repeated up to 2 semester hours. (0 to 2)

COMA 229 : Student Media

This course offers students who participate in student media outlets vast opportunities to rigorously reflect on their collective and individual projects. Each student will develop her/his own list of student media products and design deadlines and outcomes for her/his work. Students will routinely discuss the ethical and production issues involved in student media productions. Any student participating in student media is welcome to take this course. May be repeated up to 2 semester hours. (0 to 2)

COMA 287 : Special Topics in Communication

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

COMA 288 : Special Topics in Communication

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

COMA 289 : Special Topics in Communication

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

COMA 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

COMA 301 : Media and Cultural Criticism

This course examines the role of media in producing systems of meanings and artifacts that shape popular culture and ideology. Students learn to use critical perspectives as lenses for studying texts of popular culture and for writing cultural criticism for popular and specialized audiences. (4)

COMA 303 : Gender and Communication - IT

This class provides an overview of how gender and communication relate in social and cultural contexts. Focusing on contemporary American culture, we will explore how communication enables and constrains performances of gender and sexuality in everyday life. The course explores vocabulary, media, institutions, and the body. Prerequisites: COMA 101 or consent of instructor. (4)

COMA 304 : Intercultural Communication - IT, GE

Studies the nature of communication among people of diverse cultures. The course examines contemporary theory and research and examines a variety of cultural variables including: cultural backgrounds, perception, social organization, language, and nonverbal aspects of messages. Prerequisites: COMA 101 or consent of instructor. (4)

COMA 305 : Argumentation and Advocacy

Studies how people use reason giving in social decision-making. Analysis of genres, forms, and techniques of arguers. Focus is on methods of creating, understanding, and criticizing arguments. (4)

COMA 306 : Persuasion

The study of persuasion as a means of personal and social influence through rhetoric. Examines both rhetorical and social scientific traditions of study, ethical and social implications of contemporary persuasion in political, commercial, and other contexts. Opportunity for original research projects. Prerequisites: COMA 101, 120, or consent of instructor. (4)

COMA 321 : The Book in Society

A critical study of the history of book culture and the role of books in modern society. Cross-listed with PPAP 301, ENGL 311. (4)

COMA 322 : Publishing Procedures

A workshop introduction to the world of book publishing, involving students in decisions about what to publish and how to produce it. Cross-listed with PPAP 302, ENGL 312. (4)

COMA 340 : Conflict and Communication

Studies the role of communication in the development and management of human and global conflict. Research and theories of prominent conflict and peace scholars along with significant case studies are used to analyze and understand sources of conflict and methods for building peace. Prerequisite: COMA 101 or consent of instructor. (4)

COMA 342 : Communication Inquiry

An investigation of research methods critical to professional and academic communication. Key methods and constructs include informational interviewing, database search, survey and focus group design and administration, and basic data analysis. Prerequisite: COMA 215 or consent of instructor. (4)

COMA 343 : Media Writing

Introduces students to various professional methods of writing across multimedia platforms. Students will engage in research, organization and presentation of non-fiction multimedia stories. In addition, students will learn to evaluate various multimedia products. Prerequisite: COMA 215 or consent of instructor. (4)

COMA 344 : Multimedia Production

Course incorporates contemporary methods, styles and formats used in production and editing for multimedia products. Students will oversee development and design of non-fiction multimedia presentations while adhering to professional standards of media structure. Prerequisite: COMA 101, 215 or consent of instructor. (4)

COMA 357 : Media Literacy in a Post-Truth Era

This course will examine the phenomenon of "fake news" - and the misappropriation of that term - within the context of revelations surrounding social media, disinformation campaigns, and U.S. presidential elections. Lectures, discussions, viewings, and workshops will support the objective of developing critical media literacy skills within an emerging media landscape where expertise is shunned, facts are disputed, and a "post-truth" era invites controversies about the basic premises of reality. (4)

COMA 361 : Strategic Communication

Introduces the theories, methods, and practice of public relations. Emphasizes technical and analytical skills. Prerequisites: COMA 101, 212, 215, or consent of instructor. (4)

COMA 387 : Topics in Communication

Special topics in communication s intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 388 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 389 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum (1 to 4)

COMA 401 : Contemporary Issues in Media and Visual Culture

Examines the central role of visual representation in contemporary culture and the ways in which we use, understand and are

used by images. Emphasis on photography, film, television, new media, and commemorative art and architecture in the realms of advertising, politics, news, public advocacy and popular culture. Students will conduct research projects that analyze elements of visual culture. Prerequisites: COMA 101, 212, 215, or consent of instruction. (4)

COMA 411 : Advanced Debate

This course is the advanced practice of academic and political debate. It builds on principles and theories of argument. Students will have opportunities for in-class and public debates. May be repeated up to 6 semester hours. Prerequisites: COMA 211, 212, or consent of instructor. (0 to 2)

COMA 421 : Media, Ethics, & the Law

Focuses on the principles of communication law and its application to various communication practices. Examines court cases, federal and state statutes, and First Amendment theories. Prerequisites: COMA 101, 120, 212, 215, or consent of instructor. (4)

COMA 426 : Advanced MediaLab

Students engage in all aspects of multimedia productions for various student media outlets. Professional standards of production and ethics will be used to evaluate all productions. May be repeated for up to 6 semester hours. (0 to 2)

COMA 429 : Advanced Student Media

This course offers students who participate in student media outlets vast opportunities to rigorously reflect on their collective and individual projects. Each student will develop her/his own list of student media products and design deadlines and outcomes for her/his work. Students will routinely discuss the ethical and production issues involved in student media productions. Any student participating in student media is welcome to take this course. May be repeated for up to 6 semester hours. (0 to 2)

COMA 461 : Advertising, PR + Campaigns

Examination of issues such as campaign planning, issue management, crisis communication, global public relations, grassroots mobilization, message strategy, and design. Integrates theoretical foundations and ethics. Focus on measurement and evaluation techniques. Prerequisite: COMA 361. (4)

COMA 487 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 488 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 489 : Topics in Communication

Special topics in communication is intended for unique opportunities to explore communication issues, methods, and viewpoints outside the normal curriculum. (1 to 4)

COMA 491 : Independent Studies

Investigations or research in area of special interest not covered by regular courses; open to qualified junior or senior students. A student should not begin registration for independent study until the specific area for investigation has been approved by a departmental sponsor. May be repeated for credit. (1 to 4)

COMA 499 : Capstone - SR

The capstone focuses on integrating student-learning objectives with student experience through development and presentation of portfolio or projects. Students will make a public presentation of their capstone. (4)

COOP 276 : Full-Time Internship

A supervised educational experience in a work setting on a full-time basis. Student must work at least 360 hours in their internship. Intended for students who have not declared a major or who are seeking an exploratory experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (12)

COOP 476 : Full-Time Advanced Internship

A supervised educational experience in a work setting on a full-time basis. Student must work at least 360 hours in their internship. Intended for students enrolled in a major or who are seeking a professional experience. Requires the completion of a Learning Agreement in consultation with a faculty sponsor. (12)

COOP 477 : International Work Experience

To be arranged and approved through the Wang Center for Global Education and a faculty sponsor. Prerequisites: completion of a minimum of one full year (32 credits) in residence prior to the program start. Recommended: a minimum GPA of 3.00, relevant work experience or academic background, language competency and significant cross-cultural experience. (1 to 12)

CSCI 115 : Solve It With the Computer - QR

Teaches how computer use combined with mathematical reasoning can solve "real world" problems. Students use computer tools to solve everyday problems involving mathematics, data, and computing. Prerequisite: fulfillment of PLU entrance requirement in mathematics. (4)

CSCI 120 : Computerized Information Systems - QR

Introduction to computers including net-centric computing, computer ethics, operation systems, spreadsheets, graphics, and related topics. Includes a computer laboratory component. Prerequisite: MATH 128 or 140 or equivalent. (4)

CSCI 144 : Introduction to Computer Science - QR

An introduction to computer science including problem solving, algorithm design, object-oriented programming, numerical and non-numerical applications, and use of data files. Ethical and social impacts of computing. Prerequisite: four years of high school mathematics or MATH 140 or equivalent. (4)

CSCI 270 : Data Structures

Study of object-oriented programming techniques and fundamental data structure abstractions and implementations including list, stack, queue, and trees with applications to sorting, searching, and data storage. Prerequisite: CSCI 144. (4)

CSCI 287 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 288 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 289 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 291 : Directed Studies

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. Prerequisite: consent of department chair. (1 to 4)

CSCI 302 : Computer Organization

Introduction to how computer hardware implements high level language statements and data. Topics include data representations, machine level implementation of C programs, and processor architecture (Instruction Set Architecture, sequential, and pipelined processors). Laboratory component includes examining bit-level manipulations of data, reverse engineering binary code to C code, and runtime manipulation of the stack to exploit programming errors. Prerequisite: CSCI 270 or consent of instructor. (4)

CSCI 330 : Introduction to Artificial Intelligence

An introduction to the field of Artificial Intelligence (AI), the theory and practice behind the development of software systems that perform tasks that normally require human intelligence. Covers effective AI techniques (e.g. neural networks, support vector machine, clustering), usage of machine learning tools, and their application to solve programs in different fields (e.g. business, biology). Ethical and social dilemmas posed by AI will be considered. Prerequisite: CSCI 270. (4)

CSCI 340 : Formal Languages

Study of formal models of computation (finite automata, pushdown automata, and Turing machines). Study of formal language concepts, such as regular expressions and grammars. There will be a significant programming component where students implement and test algorithms. Prerequisite: CSCI 270. (4)

CSCI 343 : Programming Language Concepts

A study of the fundamental concepts of computer programming languages. Topics include: a comparison of features of modern languages, criteria for evaluating languages, and an introduction to syntax and lexical analysis including grammars and parsing. The imperative, object-oriented, functional and declarative paradigms will be studied. Prerequisite: CSCI 270. (4)

CSCI 367 : Databases and Web Programming

An introduction to the fundamental concepts necessary for design, use, and implementation of database systems, with application to web-based software. The entity-relationship and relational models are studied in detail. Individual, organization, and societal concerns related to accuracy and privacy of data. Major small group project. Prerequisite: successful completion of, or concurrent enrollment in, CSCI 270. (4)

CSCI 371 : Design and Analysis of Algorithms

Develops competencies associated with problem-solving, algorithms, and algorithm analysis. Includes efficient algorithms, time and space complexity, algorithm design techniques, and advanced data structures. Includes a programming component where students will implement and test algorithms. Prerequisites: CSCI 270 and one of MATH 245 or MATH 317. (4)

CSCI 386 : Computer Networks

An introduction to computer networks and computer communication protocols from the physical layer through the transport layer. Topics include connection oriented and connectionless networks, error detection and correction, LANs, sockets, and routing. Application layer topics can include HTTP, DNS, and email. Prerequisite: CSCI 270. Recommended: MATH 242. (4)

CSCI 387 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 388 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 389 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 390 : Objects and Design

Object-oriented programming techniques, tools, and best practices for dealing with large programs. Topics include object-

oriented design and programming, specifications, quality processes, effective debugging, and software testing. Prerequisite: CSCI 270. (4)

CSCI 391 : Problem Solving and Programming Seminar

Designed to improve advanced problem solving and programming skills, including advanced data structures. A goal of the course is participation in the regional ACM programming competition. Pass/Fail only. Students may take this course more than once. Prerequisite: CSCI 270 or consent of instructor. (1)

CSCI 412 : Computer Graphics

An introduction to the principles of computer graphics in two and three dimensions. Topics may include: triangle meshes, transformations, 3D rendering, shader programming, shading techniques, 3D projection, antialiasing, texture mapping, scene graphs, and ray tracing. Course work includes several programming assignments plus a project. Prerequisites: CSCI 270, MATH 331. Recommended: PHYS 153. (4)

CSCI 444 : Operating Systems

An introduction to computer operating systems including process scheduling, memory management, and file systems. Major small group project. Prerequisite: CSCI 302 and MATH 245. Recommended: CSCI 343. (4)

CSCI 487 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 488 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 489 : Special Topics in Computer Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

CSCI 491 : Independent Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. Proposed project must be approved by the department chair and supervisory responsibility accepted by an instructor. The title will be listed on the student's term-based record as "IS:" followed by the specific title designated by the student. (1 to 4)

CSCI 495 : Computer Science Internship

To permit undergraduate students to relate theory and practice in a work situation. Students will be expected to adhere to and document the objectives of a learning plan developed with and approved by a faculty sponsor. Credit will be determined by hours spent in the working environment and the depth of the project associated with the course of study. The title will be listed on the student term-based record as "Intern:" followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

CSCI 499A : Capstone: Senior Seminar - SR

Written and oral presentation of a project in a topic of interest by the student under the supervision of a faculty member. Students normally work in small groups (two or three students). Includes gathering requirements from the client/customer, taking a product through the full life cycle, technical communication and a study of the social implications of computing. The capstone is a two-semester sequence beginning in the fall semester. May graduates should start the course in the fall of their senior year and December graduates should begin the course in the fall of their junior year. With CSCI 499B meets the senior seminar/project requirement. Prerequisites: Prerequisites depend on the major and degree. The B.S. in computer science requires CSCI 390. The B.A. in computer science requires CSCI 270; and CSCI 367 or 390. (2)

CSCI 499B : Capstone: Senior Seminar - SR

Continuation of CSCI 499A. With CSCI 499A meets the senior seminar/project requirement. Prerequisite: CSCI 499A. (2)

DANC 170 : Introduction to Dance - CX

An introduction to Western concert dance forms. The course combines discussion and movement practice. (4)

DANC 222 : Beginning/Intermediate Musical Theatre Dance - CX, FT

Students practice musical theatre and jazz dance technique, musical theatre and jazz choreography, and learn the history of musical theatre and jazz dance. Designed for students who have never taken a musical theatre or jazz dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 240 : Dance Concert Ensemble - CX

Students perform in the faculty-directed dance concert. Repeatable for credit up to 4 times. (0 to 1)

DANC 251 : Beginning/Intermediate Ballet - CX, FT

Students practice ballet technique, ballet choreography, and learn the history of ballet. Designed for students who have never taken a ballet class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 252 : Beginning/Intermediate Contemporary - CX, FT

Students practice contemporary dance technique, contemporary choreography, and learn the history of contemporary and modern dance. Designed for students who have never taken a contemporary dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 254 : Beginning/Intermediate Tap - CX, FT

Students practice tap dance technique, tap choreography, and learn the history of tap dance. Designed for students who have never taken a tap dance class before, as well as for more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 255 : Beginning/Intermediate Hip Hop - CX, FT

Students practice hip hop dance technique, hip hop choreography, and learn the history of hip hop. Designed for students who have never taken a hip hop dance class before, as well as more experienced dancers. Repeatable for credit up to 4 times. Fulfills one course towards the FT GenEd Element. (2)

DANC 287 : Special Topics in Dance

Provides undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

DANC 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

DANC 301 : Dance and Culture - ES, GE

An examination of the history and culture of dance forms and choreographic methods from around the world. A seminar-based class that includes physical movement. (4)

DANC 322 : Advanced Musical Theatre Dance

Designed for intermediate/advanced students, this course further develops musical theatre and jazz dance technique and performance. Repeatable for credit up to 4 times. Prerequisite: consent of instructor or DANC 222. (2)

DANC 340 : Dance Composition and Choreography

A study of the principles of dance composition. Students engage in concentrated creative practice through choreographic projects, exercises, and guided improvisation. (2)

DANC 351 : Advanced Ballet

Designed for intermediate/advanced students, this course further develops ballet technique and performance. Repeatable for credit up to 4 times. Prerequisite: consent of instructor or DANC 251. (2)

DANC 352 : Advanced Contemporary

Designed for intermediate/advanced students, this course further develops contemporary dance technique and performance. Prerequisite: DANC 252 or consent of instructor. Repeatable for credit up to 4 times. (2)

DANC 440 : Dance Concert Choreography

Students choreograph original works for the faculty-directed dance concert. Repeatable for credit up to 4 times. Prerequisite: consent of instructor. (0 to 2)

DANC 487 : Special Topics in Dance

Provides undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

DANC 491 : Independent Study

Provides individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

DATA 133 : Introduction to Data Science I

Introduction to computer programming and problem-solving using real datasets from a variety of domains such as science, business, and the humanities. Introduces the basics of data science concepts through computational thinking, modeling and simulation and data visualization using the Python programming language and R statistical software. Intended for students without prior programming experience. Prerequisite: completion of PLU MATH 140 or an equivalent college-level course with a grade of C or better; or PLU mathematics placement into PLU MATH 151 or a higher numbered PLU mathematics course. (4)

DATA 233 : Introduction to Data Science II

Continuation of DATA 133, topics may include data manipulation, cleaning and visualization techniques, machine learning techniques, natural language processing, databases, text mining, data science ethics/privacy, etc. Students will collaborate with help of version control systems like GitHub. Python is the main programming language used. Prerequisite: DATA 133 or CSCI 144. Recommended: One of MATH/STAT 145, STAT 231, 232, 233, or MATH/STAT 242. (4)

ECON 101 : Principles of Microeconomics - ES

Introduces the study of economic decision making by firms and individuals and analyzes the effect of public policies on these. Economic tools and concepts such as markets, supply and demand, efficiency, and externalities will be applied to contemporary issues such as pollution, international trade, and health care. (4)

ECON 102 : Principles of Macroeconomics - ES

Introduces the economy as a whole and major issues such as inflation, unemployment, economic growth, and international trade. (4)

ECON 215 : Investigating Environmental and Economic Change in Europe - ES, GE

An introduction to the environmental economic problems and policy prospects of modern Europe. Focus on economic incentives and policies to solve problems of air and water pollution, sustainable forestry, global warming, and wildlife management in Austria, Germany, Hungary, the Czech Republic, and Italy. Prerequisite: ECON 101 or consent of instructor. (4)

ECON 287 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 288 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 289 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ECON 301 : Intermediate Microeconomic Analysis

Theory of consumer behavior; product and factor prices under conditions of monopoly, competition, and intermediate markets; welfare economics. Prerequisites: ECON 101 or consent of instructor; and MATH 128 or 151. (4)

ECON 302 : Intermediate Macroeconomic Analysis

National income determination including policy implications within the institutional framework of the U.S. economy. Prerequisites: ECON 101; ECON 102; MATH 128 or 151. (4)

ECON 313 : Environmental Economics

Examines the theory of externalities, pollution regulation, open-access conditions as a basis for environmental degradation, methods of non-market valuation of environmental amenities, and valuation of a statistical life. Attention will be given to both domestic and global examples. Prerequisites: ECON 101 or consent of instructor. (4)

ECON 331 : International Trade and Commercial Policy

Theories of trade based on labor productivity, factor endowments, and scale economies. Welfare analysis of commercial policy instruments. Political economy of interest groups and trade policy. Critical analysis of multilateral efforts to promote trade. Theoretical and empirical linkages among trade policy, renewable resource depletion, and environmental degradation. Prerequisites: ECON 101 or consent of instructor. (4)

ECON 333 : Economic Development - GE

Analysis of the theoretical framework for development with applications to alternative economic development strategies used in developing countries. Emphasis on comparison between countries, assessments of the relative importance of cultural values, historical experience, and governmental policies in the development process. Prerequisites: ECON 101 or consent of instructor. (4)

ECON 337 : International Macroeconomics

An introduction to international macroeconomic theory and policy, including the balance of payments accounts, foreign exchange markets, theory of exchange rates, policies under fixed and flexible exchange rates, economic integration, global financial crises, policy coordination. Prerequisite: ECON 102 or consent of instructor. (4)

ECON 344 : Econometrics

Introduction to the methods and tools of econometrics as the basis for applied research in economics. Specification, estimation, and testing in the classical linear regression model. Prerequisite: ECON 101; ECON 102; STAT 231 or equivalent, or consent of instructor. (4)

ECON 387 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 388 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 389 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 487 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 488 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 489 : Special Topics in Economics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ECON 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisites: ECON 301 or 302 and consent of the department. (1 to 4)

ECON 495 : Internship

A research and writing project in connection with a student's approved off-campus activity. Prerequisites: ECON 101; ECON 301 or 302, sophomore standing, and consent of the department. (1 to 4)

ECON 499 : Capstone: Senior Seminar - SR

Seminar in economic problems and policies with emphasis on encouraging the student to integrate problem-solving methodology with tools of economic analysis. Topic(s) selected by class participants and instructor. Prerequisite: ECON 101, 102, 301 or 302, senior standing; satisfactory completion of two 300-level economics courses other than ECON 301 or 302, all with grade of a C- or above, and declared economics major; or consent of instructor. (4)

EDUC 205 : Multicultural Perspectives in the Classroom

Examination of issues of race, class, gender, sexual orientation, etc. as they relate to educational practices. (4)

EDUC 287 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 288 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 289 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

EDUC 320 : Issues in Child Abuse and Neglect

Issues of child abuse, neglect, harassment, and violence. Includes identification and reporting procedures, and the legal and professional responsibilities of all mandated reporters. (1)

EDUC 327 : Instructional Systems and Design

Explores instructional systems and design and provides a foundation for knowing how to design, plan, adapt, and modify instruction that meets the needs of diverse learners. Careful attention is given to understanding and meeting the needs of historically marginalized students, integrating skills and strategies into lesson design, and using assessment to guide instructional and programmatic decisions. Integrating concepts of anti-racist pedagogy and universal design for learning provides a foundation for the practical work. (3)

EDUC 330 : Professional Practice I

Teacher candidates will be required to complete a minimum of 45 hours of fieldwork in a local school. (0)

EDUC 332 : Communities, Schools, and Students

Explores the purposes of P-12 education, how schools intersect with local communities, and the range of differences within learners. (2)

EDUC 361 : Teaching and Learning of Science

Provides a hands-on, minds-on course designed to help pre-service elementary teachers learn to teach science to students in grades K-8 in ways that are consistent with what is known about science education and the physical, emotional, and cognitive development of children. The course will focus on inquiry learning and sense-making driven by the Next Generation Science Standards (NGSS) that serve to guide curriculum and instructional development in the state of Washington. (4)

EDUC 370 : Professional Practice II

Teacher candidates will be required to complete a minimum of 90 hours of fieldwork in a local school. Required to coregister in EDUC 371. (0)

EDUC 372 : Teaching and Learning of Reading

This course focuses on developmental stages of literacy development. Reading components phonemic awareness, phonics, fluency, vocabulary, and comprehension are addressed. Assessments and instructional activities to support students' learning in responsive, differentiated ways are taught and practiced. (4)

EDUC 373 : Teaching and Learning of Mathematics

Provides a hands-on, minds-on course designed to help pre-service elementary teachers learn to teach math to students in grades K-8 in ways that are consistent with what is known about math education and physical, emotional, and cognitive development of children. The course will focus on facilitating student discourse to drive procedural fluency through conceptual understanding grounded in the components of effective teaching and learning as outlined by National Council of Teachers of Mathematics (NCTM) and the Common Core State Standards for math (CCSS-M) that serve to guide curriculum and instructional development in the state of Washington. (4)

EDUC 374 : Management and Student Engagement

Develops management strategies for student engagement and increasing academic achievement (4)

EDUC 375 : Technology Integration

The integration of technology tools for the classroom. (2)

EDUC 385 : Comparative Education - GE

Comparison and investigation of materials and cultural systems of education throughout the world. Emphasis on applying knowledge for greater understanding of diverse populations in the K-12 educational system. (2 or 4 credits)

EDUC 387 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 388 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 389 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 391 : Foundations of Learning

Investigation into theories of learning and development and into historical and current practices, values, and beliefs that influence efforts to shape learning in educational settings. Topics include: self as learner, theories of learning, others as learners, exceptionalities, technology, values literacy, and factors influencing learning and literacy. Limited to music and health and fitness education majors. Prerequisite: admission to the School of Education and Kinesiology; completion of MUSI 340 for music education majors, and co-enrollment in KINS 490 for both health and fitness education majors. (3)

EDUC 402 : Internship I

Teacher candidates will be required to complete a minimum of 90 hours of fieldwork in a local school. (0)

EDUC 403 : Building Professional Learning Communities

Seminar groups to provide a critical inquiry bridge between university-based coursework and P-8 fieldwork through the unit's core values of care, competence, difference, service, and leadership. (2)

EDUC 404 : Teaching and Learning of Social Studies

Integration of literacy for the teaching of social studies strategies that can be incorporated into P-8 instructional models and assessments with applications to the development of lesson sequences. (4)

EDUC 405 : Teaching and Learning Art in the Elementary Classroom

Methods and procedures in teaching elementary school art as well as infusing the arts in the curriculum. (2)

EDUC 407 : Teaching and Learning of Writing

This course focuses on the multimodal teaching of writers across developmental stages, emphasizing culturally sustaining practices. This includes developmental and writing processes, genre exploration, the role of identity and community in writing, writing strategies and skills, and formative assessment and feedback. (2)

EDUC 423 : Language and Literacy Development for Multilingual Learners

This course examines stages of second language acquisition; including, examining conceptual, pedagogical, and instructional practices to support bilingualism and differentiate content instruction according to language proficiency. (2)

EDUC 428 : Assessments in Literacy

This course introduces frameworks for understanding reading difficulties and responsive assessment. Teacher candidates learn how to administer and interpret literacy assessments in order to identify areas of instructional focus and indicate those in professional reports communicated across various stakeholders. Purposes, advantages, and limitations of standardized and other assessment tools are explored. (2)

EDUC 429 : Diversity Responsive Children's Literature

Explores diversity responsive children's literature and why these texts are imperative for all readers. Emphasizing identifying, selecting, and evaluating high-quality, diversity responsive books across genres and formats (e.g. novels in verse, graphic novels, print/digital) as well as strategies for advocacy and use in K-6 classrooms. (2)

EDUC 438 : Learner-Centered Literacy Instruction

Focuses on learner-centered literacy instruction, fostering student agency, and literacy identities. Special attention is placed on instructional strategies and methods that cultivate deep comprehension, intrinsic motivation, perspective taking, and critical thinking. (2)

EDUC 446 : Mathematics in the Secondary School

Methods and materials in teaching secondary mathematics. Introduction to Common Core State Standards in Mathematics, effective and equitable mathematics teaching practices, and curriculum design through the exploration of concepts in secondary mathematics. This course includes a field experience component. Cross-listed with MATH 446. Prerequisite: EDUC 205 and MATH 253 or 331. (4)

EDUC 450 : Seminar - SR

A seminar for all education students focusing development of professionalism and competence in inquiry and reflective practice. (2)

EDUC 455 : Internship II

Teacher candidates will be required to complete a minimum of 450 hours of student teaching experience in local public schools under the supervision of PLU-assigned supervisors and classroom teachers. (15)

EDUC 460 : Professional Learning Communities

Seminar groups to provide a critical inquiry bridge between university-based coursework and P-8 fieldwork through the department's/unit's core values of care, competence, difference, service, and leadership. (2)

EDUC 468 : Student Teaching - Secondary

Teaching in public schools under the direction of classroom and university teachers. Prerequisites: Formal application; senior standing; cumulative GPA of 2.50 or higher. Concurrent with EDUC 450. (10)

EDUC 487 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 488 : ST: Higher Education Leadership

Explores the foundations of leadership. Focus is on leadership in higher education. Restricted to PLU administrations and faculty. (1 to 4)

EDUC 489 : Special Topics in Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EDUC 490 : Linguistics and Language Acquisition

Investigation of how young children acquire their first language and what they know as a result of this learning. This course explores first language acquisition and development; including, phonology, syntax, morphology, pragmatics, and semantics. These concepts are examined in relation to standard language ideologies and supporting linguistic justice. (2)

EDUC 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

EDUC 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

EDUC 497 : Special Project

Individual study and research on education problems or additional laboratory experience in public school classrooms. Prerequisite: consent of the dean. (1 to 4)

EDUC 510 : Teaching Reading and Language Arts

Investigates how children learn to read, improve their fluency, and strengthen their vocabulary and comprehension. Includes required reading tutoring practicum. (3)

EDUC 514 : Management and Student Engagement

Introduces commonly used engagement and management strategies for increasing academic achievement. Includes a 15 hour practicum. (2)

EDUC 520 : Current Issues of Child Abuse and Neglect

Issues of child abuse, neglect, harassment, and violence. Includes identification and reporting procedures, and the legal and professional responsibilities of all mandated reporters. (1)

EDUC 528 : Reading and Writing Across the K-8 Curriculum

Investigates genres of contemporary children's literature and how to develop a personal repertoire of reading material for classroom use. Also examines strategies for teaching writing in K-8 classroom. (2)

EDUC 529 : Reading and Writing Across the Secondary Curriculum

Explores strategies for integrating young adult reading materials and written work and reading and writing instruction in all secondary content areas. (2)

EDUC 544 : Sociocultural Foundations of Education

Examines the purposes of K-12 schools, the root causes of the achievement gap, and the ways accomplished teachers adapt to the changing sociocultural context of schooling. (2)

EDUC 556 : Critical Issues in Secondary Teaching

Introduces what successful secondary teachers know and are able to do in the areas of curriculum and assessment, instructional methods, and classroom management. (2)

EDUC 561 : Instructional Methodologies for Secondary Teachers

This course will introduce the instructional methodologies being used currently in secondary schools, including curriculum design, instructional strategies, the use of assessments, and specific methodologies for content area instruction. (4)

EDUC 562 : Schools and Society

Individual and cooperative study of the socio-cultural and cultural, political, legal, historical, and philosophical foundations of current practices of schooling in America. Prerequisite: Admission to the M.A.E./Cert program or consent of instructor. (3)

EDUC 563A : Integrating Seminar: Technology Embedded Instructional Design

Students work cooperatively and individually to integrate education course work, field experience, and individual perspective during graduate degree programs. May be repeated for credit. (2)

EDUC 563B : Integrating Seminar: Internship

A seminar focusing on development of professionalism and competence in inquiry and reflective practice with opportunities to demonstrate your knowledge and skills related to the complexities of teaching. (2-4)

EDUC 564 : The Arts, Mind, and Body

An exploration of methods to facilitate creativity and meaning-making in the classroom through visual, musical, non-verbal/physical movement, and dramatic arts. (2)

EDUC 565 : Elementary Reading, Language Arts, Social Studies

Practice designing, implementing, and assessing lessons and units that integrate reading, language arts, and social studies content in K-8 classrooms. Introduces exemplary reading, language arts, and social studies classroom materials and examines what successful classroom managers in K-8 classrooms know and are able to do. (2)

EDUC 566 : Elementary Math and Science

Practice designing, implementing, and assessing math and science lessons and units in K-8 classrooms. Introduces exemplary math and science classroom materials and examines what successful classroom managers in K-8 classrooms know and are able to do. (2-4)

EDUC 568 : Internship in Teaching

Internship in classroom settings. Fourteen weeks of teaching under the direct supervision of cooperating teachers and university supervisors. Designed for students in the M.A.E./Cert program. (6)

EDUC 587 : History of Education

A study of great men and women whose lives and writings have shaped and continue to shape the character of American education. (3)

EDUC 588 : ST: Leadership in Higher Education

Leadership development for administrators and faculty. Focus on higher education leadership models as they relate to PLU. Restricted to PLU administrators and faculty. (1 to 4)

EDUC 589 : Philosophy of Education

Philosophical and theoretical foundations of American education as well as the social philosophy of growing diverse populations in the K-12 schools. (3)

EDUC 591 : Independent Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

EDUC 700 : Educational/Instructional Leadership Orientation & Introduction

This course is to prepare students for executive/advanced school leadership roles in districts. The course emphasizes the character, dispositions, and skills, as well as the values and beliefs, which inform effective school and organizational leadership

and support the development of a districtwide vision. Additionally, this course will introduce students to the PLU Ed.D. program and build relationships among cohort members and faculty. (3)

EDUC 701 : Educational Research I

This course provides foundational concepts in educational research including various methodologies. The course will address criteria for evaluating and using educational research in their own practice. Students will develop skills in understanding and evaluating research claims. Course concepts include descriptive and inferential statistics and quantitative research designs. Students will also develop knowledge and skills of action research. (4)

EDUC 711 : Educational Research II: Qualitative Research

This second course in the research methods sequence addresses major concepts of qualitative research methods. Students will learn the major methodologies and ethical implications of qualitative research including appropriate research questions. Students will learn and implement qualitative data collection and analysis techniques. (2)

EDUC 721 : Educational Research III: Program Evaluation

This third course in the research methods sequence addresses major concepts of program evaluation. This course prepares students to plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation for their Applied Project. The course addresses the similarities and differences between program evaluation and other forms of education research and related ethical implications. Students will learn the steps in designing and conducting a program evaluation, as well as considerations when contracting for program evaluations, as many educational grants and programs require outside evaluation. (2)

EDUC 731 : Educational Leadership: Instructional Leadership

In this course, students will learn both the field's best knowledge of what high-quality learning is and how to generate it at a systems level. Students will read, discuss, collect and analyze data around learning at all levels of a school district's system; including, students, teachers, and school and district leaders. Concurrently, students will examine the leadership actions and formal and informal organizational systems that serve as levers for learning. Students will be guided by three key questions at each level of analysis: what is the learning, how does the learning occur, and when and under what conditions do people learn? (3)

EDUC 732 : Current Trends and Challenges in Educational Leadership

Educational leaders serve in districts impacted by many social, economic, and political factors; thus, leaders must maintain a clear understanding of these issues in order to implement change. This course will provide an in-depth analysis of current trends and issues impacting leadership. This will enable the candidate to focus on personal growth and development of characteristics of leadership. This course will explore and study the current issues and trends related to the field of education leadership through several case studies. Emphasis will be placed on current problems of practice, research, and analysis of practices related to effectiveness. (3)

EDUC 741 : Educational Law, Policy, and Governance

The primary goal of this course is to assist the school leader to develop the attitudes, knowledge, and skills necessary to effectively practice high quality, ethical and legal practices based on the law and appropriate policy application. This course explores federal and state law that school administrators and superintendents are responsible to know and administer. This course is a requirement for all students in the Ed.D. program and for the superintendent certification. (2)

EDUC 742 : Human Resources in P12

This course provides learning of concepts, skills, theories, and techniques involving human resource management and a review of examples of HR practices in P-12 school systems. This course extends what building leaders know and understand about HR and looks at it through a district and superintendent role. There will be an examination of human resource planning, development, and utilization in modern organizations. Topics include: recruitment, selection, training and development, performance appraisal, collective bargaining, contracts, benefit programs, relationships, and role of the human resource department. (2)

EDUC 743 : Educational Finance in P12

The primary goal of this course is to help aspiring school leaders understand school finance and the systemic and political impacts on P12. Students will look at school funding, applying an equity and instructional lens, to help prioritize and guide

district level funding. Particular emphasis will be placed on the role of the superintendent or program leader in advocating for students and programs. (2)

EDUC 744 : Community & Family Engagement

The primary goal of this course is to assist district leaders in developing the knowledge, skills, and cultural understanding to improve learning and achievement by collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources. Students will explore the roles and responsibilities of school leaders in co-creating with families and communities to establish social networks of shared responsibility for student learning and development. This course is a requirement for all students in the Ed.D. program and for the superintendent certification. (2)

EDUC 745 : School Board Relations

The school board governs and the superintendent administers the school district. While this may sound simple, it is often the most difficult area for the board and superintendent to clarify. Not having a clear understanding of the board and superintendent's proper role can lead to poor communication, mistrust, and, in the end, conflict and educational failure. This course will focus on the role of the superintendent, board, and the relationship between the two. (1)

EDUC 746 : Crisis, Conflict, Emergency Management

Effectively managing crisis, conflict, and emergencies is a critical responsibility of a school leader. This course focuses on how educational leaders plan for, manage, and address crises at the institutional level. This course provides practical experiences where students analyze and apply knowledge related to crisis management systems essential to the health and safety of employees and students. (2)

EDUC 747 : Central Office and Programmatic Leadership

This course focuses on superintendent or school district leader roles in establishing effective central management and the integration of special programs; including, Title I, LAP, student services, early childhood, career and technical education, and special education. The course also includes systems and strategies to evaluate program leaders and principals across the system. Students will explore approaches to improve central district systems and student learning for historically underserved populations. (2)

EDUC 760 : Evaluation and Supervision in Educational Leadership

The primary goal of this course is to develop knowledge, skills, dispositions, and cultural competence required of the aspiring school leader to effectively assess instruction and provide feedback to teachers for the improvement of practice and pedagogy in the P-12 setting. This course will cover the evaluation and supervision of certificated staff; including, teachers, principals, and central office/program administrators. During this course, the school leader will conduct several classroom, school, and district observations using the Washington State Teacher and Principal Evaluation (TPEP), one of the three approved instructional frameworks, and the AWSPP principal framework. (2)

EDUC 761 : Educational Leadership: Equity and Social Justice

This course will prepare students to serve as leaders who can demonstrate effective diversity leadership for all students; including, students of all races, students who are linguistically diverse, students with disabilities, students from low-income families, and students along the gender/sexual identity spectrum and their intersections. This course supports students in creating equitable and rich school and district cultures where staff, students, and members of the wider school community are engaged and work together to create a dynamic, inclusive learning environment. (3)

EDUC 762 : Educational Leadership: Systems Leadership

The goal of this course is to expand the students' understanding of systems thinking (a) the role of the leader in evaluating systems theory and frameworks used by educational organizations, particularly in the creation and maintenance of organizational identity; (b) knowledge and skill of policy formulation, evaluation, and advocacy; including, methods of influence, building strategic alliances, and setting policy agendas; (c) the role of the educational leader in working with multiple constituencies (government, legislature, lobbyists, special interest groups, media); and (d) purposes and effective strategies for building teams in leadership settings. (3)

EDUC 763 : Collaboration and Contributions to the Profession

This course supports Ed.D. students/candidates by offering opportunities for them to engage in providing and receiving professional growth and development, mentorship, and networking within the P-12 system. Students in this course will partner

with local school and local system leaders, community leaders, current cohort members, and alumni to advance connections and identify next career steps. (1)

EDUC 790 : Program Evaluation Applied Project & Seminar

This is the first course in the Ed.D. Program Evaluation Applied Project Series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation. (3; 1 didactic, 2 clinical)

EDUC 791 : Program Evaluation Applied Project & Seminar

This is the second course in the Ed.D. Program Evaluation Applied Project Series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of a job-embedded Program Evaluation. This course includes public presentation of the Program Evaluation to both an academic audience as well as the relevant client (e.g. school, district, state agency, and/or community organization). (4; 1 didactic, 3 clinical)

EDUC 792 : Applied Project Seminar

This course serves as an introduction to the Instructional Leadership and Equity Applied Project process. Students will build upon their research methods and leadership courses to develop their problem statement, research question(s), and outline for their project proposal. The course will also provide an overview of the IRB process. (2)

EDUC 793 : Instructional Leadership and Equity Applied Project & Seminar

This is the first course in the Ed.D. Instructional Leadership and Equity Applied Project series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of an Equity Focused Applied Project that represents a synthesis of the learning throughout the doctoral program. (4)

EDUC 794 : Instructional Leadership and Equity Applied Project & Seminar

This is the second course in the Ed.D. Instructional Leadership and Equity Applied Project series. Throughout this sequence the Ed.D. student will plan, implement, evaluate, and disseminate the results of an Instructional Leadership and Equity Focused Applied Project that represents a synthesis of the learning throughout the doctoral program. This course includes public presentation of the project to both an academic audience as well as the relevant school, district, state agency, and/or community organization. (5; 1 didactic, 4 clinical)

EDUC 795 : Executive Leadership Internship

The superintendent internship is part of the professional preparation of school administrators. The basic function of the internship is to enable the intern/candidate to gain the necessary experience in the performance of the critical tasks of his/her profession while under the close supervision of a certified, experienced superintendent and a university field supervisor. The internship is 360 hours and will assist the aspiring school leader by building upon coursework and learning through practical field experience. NELP leadership standards that are in the foundation for the superintendent certification program frame this course. Will be repeated twice for certification and may be repeated up to four times total. (1)

ENGL 213 : Topics in Literature: Themes and Authors - IT

A variable-content course that focuses on the act of reading and interpreting texts. (4)

ENGL 214 : Introduction to Major Literary Genres - IT

Introduction to one or more of the major literary genres (fiction, poetry or drama). Focus of course varies with instructor and term. May be taken more than once for credit with approval of department chair. (4)

ENGL 216 : Topics in Literature - IT, GE

A variable-content course that focuses on literature from non-Euro-American societies. Because course topics may vary considerably, course may be repeated for credit with approval of department chair. (4)

ENGL 217 : Topics in Literature - IT, GE

A variable-content course that focuses on literature that fosters an awareness and understanding of diversity in the United States. Courses may be repeated for credit with approval of department chair. (4)

ENGL 221 : Research and Writing

Strategies for writing academic research papers are practiced, including developing appropriate research topics, locating and using a variety of relevant sources, substantiating generalizations, and using paraphrase and citation accurately. (2 or 4)

ENGL 225 : Autobiographical Writing - CX

Reading autobiography and writing parts of one's own, with an emphasis on how writing style and personal identity complement each other. (4)

ENGL 227 : Introduction to Creative Writing - CX

A beginning workshop in creative writing, focusing on the major genres of poetry, short fiction, and creative nonfiction. Includes a study of techniques and forms to develop critical standards and an understanding of the writing process. Prerequisite: WRIT 101 or its equivalent, Advanced Placement, or consent of instructor. (4)

ENGL 232 : Women's Literature - IT, GE

An introduction to fiction, poetry, and other literatures by women writers. Includes an exploration of women's ways of reading and writing. (4)

ENGL 234 : Environmental Literature - IT

Examines representations of nature in literature, and the ways in which humans define themselves and their relationship with nature through those representations. Focuses on major texts from various cultures and historical periods. Includes poetry, fiction, and non-fiction. (4)

ENGL 235 : Children's Literature - IT

An introduction to the critical reading of picture books, chapter books, novels, and nonfiction for young readers, addressing historical and cultural contexts. (4)

ENGL 236 : Intro to Screenwriting - CX

Introduces students to the elements of screenwriting; including, structure, character, dialogue, and setting. Students will learn to critically read and evaluate scripted media and to produce their own original scripts. (4)

ENGL 241 : American Traditions in Literature - IT

Selected themes that distinguish American literature from British traditions, from colonial or early national roots to current branches: for example, confronting the divine, inventing selfhood, coping with racism. (4)

ENGL 251 : British Traditions in Literature - IT

Selected themes that define British literature as one of the great literatures of the world, from Anglo-Saxon origins to post-modern rebellions: for example, identity, society, and God; love and desire; industry, science, and culture. (4)

ENGL 275 : Literary Passages: An Introduction to Literatures in English

An introduction to literatures in English from around the globe, focusing on the imaginative, critical, and social power of reading and literary study. This theme-based course is centered around an in-depth study of one of Shakespeare's plays, with other readings branching out from this seed text. Students will encounter texts from a variety of historical and geographic contexts, exploring how literary form and genre develop over time and within specific communities. Organizing themes may include: Race and Empire, Nature and the Human, Language and Power, and Gender and Sexuality. Required for all English major and strongly recommended for first-years. (4)

ENGL 287 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 288 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 289 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ENGL 300 : Living Stories

A gateway course for the intermediate-level courses in each of the English major concentrations, focusing on the imaginative, critical, and social power of reading and writing. Students will read and write in a variety of genres, engage criticism and theory, and reflect on the broad question of why reading and writing matter, with a special focus on storytelling. Required for all English majors before taking senior seminar ENGL 424 or 434. Strongly recommended for sophomore or junior year. (4)

ENGL 311 : The Book in Society

A critical study of the history of book culture and the role of books in modern society. Cross-listed with PPAP 301, COMA 321. (4)

ENGL 312 : Publishing Procedures

A workshop introduction to the world of book publishing, involving students in decisions about what to publish and how to produce it. Cross-listed with PPAP 302, COMA 322. (4)

ENGL 313 : The Art of the Book I - CX

This studio course explores the history, aesthetics, and creative dimensions of book design and typography. Prerequisites: Declared PPA minor or permission of instructor. Cross-listed with PPAP321, ARTD 315. (4)

ENGL 314 : The Art of the Book II - CX

Individual projects to explore further typography and fine bookmaking. Prerequisite: PPAP 321 / ARTD 315 / ENGL 313 with a B grade or better or permission of instructor. Cross-listed with PPAP 322. (4)

ENGL 320 : Intermediate Creative Nonfiction

Intermediate-level writing workshop that focuses on the analysis and writing of creative nonfiction. Course may focus on one or more specific sub-genres (personal essay, lyric essay, place-based writing, free-lance writing, memoir, biography, environmental writing, social justice writing, etc.). Prerequisite: ENGL 227. (4)

ENGL 323 : Writing in Professional and Public Settings - CX

Students working in professional settings analyze the rhetorical demands of their job-related writing. (4)

ENGL 327 : Intermediate Poetry Writing

An intermediate-level workshop that focuses on the analysis and writing of poems. Prerequisite: ENGL 227. (4)

ENGL 328 : Theories of Reading and Writing - ES

Students are introduced to philosophical, social, and pragmatic issues confronting teachers of writing. Required for certification by the School of Education and Kinesiology. (4)

ENGL 329 : Intermediate Fiction Writing - CX

An intermediate-level workshop that focuses on the analysis and writing of fiction. Prerequisite: ENGL 227. (4)

ENGL 334 : Studies in Literature for Young Readers - IT

Study of literature and media produced for and about young audiences, from early childhood to adolescence. Possible topics include genres, themes, historical periods, and traditions. Course content varies. Course is repeatable once with different topic. (4)

ENGL 336 : Digital Writing and Storytelling

Students analyze and practice various genres of creative and professional digital writing, visual rhetoric and narrative, and storytelling in the context of Internet and print history and culture. Students read theory, engage in research, collaborate in workshops, and learn project development. (4)

ENGL 339 : Special Topics in Creative Writing

Intermediate-level writing workshop that focuses on the analysis and writing of fiction, poetry, or nonfiction in a particular style or genre. Course topic varies by year. May be repeated once for credit. Prerequisite: ENGL 227 or instructor approval. (4)

ENGL 360 : Studies in British Literature - IT

Study of specific historical periods, literary movements, socio-cultural issues and themes, or major authors in British literature. Emphasis is on careful interpretation of literary texts with attention to their contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 370 : Studies in American Literature - IT

Study of specific historical periods, literary movements, socio-cultural issues and themes, or major authors in American literature. Emphasis is on careful interpretation of literary texts with attention to their contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 380 : Studies in Global Anglophone Literature - IT, GE

Study of specific historical periods, literary movements, socio-cultural issues and themes, or major authors in global Anglophone literature. Emphasis is on careful interpretation of literary texts with attention to their contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 387 : Topics in Rhetoric, Writing and Culture

Provides writers with a grounding in Rhetoric, the art of shaping discourse to respond to cultural context and to produce cultural and social effects. Strategies for generating discourse, appealing to audiences, and crafting a style will be studied in light of their historical origins, theoretical assumptions, social and ethical implications, and practical utility. Recommended for writing majors. (4)

ENGL 388 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 389 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 393 : The English Language

Studies in the structure and history of English, with emphasis on syntactical analysis and issues of usage. (4)

ENGL 394 : Studies in Literature and the Environment IT, GE

Study of literature and media on landscape, human/animal categories, conservation, sustainability, climate, and planet. Approaches may involve ecocritical, ecofeminist, animal studies, or green standpoints. Texts come from genres and movements including ecopoetics, realist fiction, speculative fiction, sf, creative nonfiction, blogs, film, performance, and public art. Course content varies. Course is repeatable once with different topic. (4)

ENGL 395 : Studies in Literature, Gender, and Sexuality - IT, GE

Study of literature through the lens of gender and sexuality. Students practice feminist and queer approaches to literature from a range of historical periods, genres, and 13 national/global contexts. Additionally, this course creates a venue for students and faculty to study literature written by and about sexual and gendered minority communities, including women writers of color and LGBTQ authors. Course content varies. Course is repeatable once with different topic. (4)

ENGL 396 : Studies in Literature, Race, and Ethnicity - IT, GE

Study of literature through the lens of race and ethnicity. Students explore English-language texts written by authors of color, and/or writers from marginalized ethnic, immigrant, or indigenous communities. Focus may be on specific authors, themes, genres, or historical periods. Course content varies. Course is repeatable once with different topic. (4)

ENGL 397 : Literatures of Genocide and the Holocaust - IT, GE

Study of representations and narratives that attempt to engage and make sense of the Holocaust and other genocides. Texts may include a variety of literature written in multiple genres (poetry, fiction, creative nonfiction, life writing) and media (film, television, plays, photography, blogs) from a range of historical periods and national/global contexts. Course content varies. Course is repeatable once with different topic. (4)

ENGL 424 : Seminar: Writing - SR

An advanced seminar in revision in which students produce a portfolio of their writing (in at least two genres) for public presentation. Prerequisites: ENGL 300 plus two intermediate-level writing workshop courses (ENGL 322 through 329; 339; 385; 387) or instructor permission. (4)

ENGL 434 : Seminar: Writing, Literature, and Public Engagement - SR

An advanced seminar exploring how various genres of writing, literature, and criticism function as forms of public engagement. Students compile a portfolio of work from their major and produce one substantial project for public presentation. Prerequisites: ENGL 227, 275, and 300; plus two intermediate (300-level) courses from either the Literature or the Professional, Public, and Digital Literacies concentrations; or instructor permission. (4)

ENGL 487 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 488 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 489 : Special Topics in English

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENGL 491 : Independent Study

An intensive course in reading. May include a thesis. Intended for majors only. (4)

ENGL 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-

based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ENGL 504 : Summer Residency I

16 hours of required workshops. 20 additional hours of lectures and mini-courses (topics in genre/topics in craft), readings. Design an independent course of study with a mentor for the upcoming year. (4)

ENGL 505 : Summer Residency II

16 hours of required workshops. 20 additional hours of lectures and mini-courses (topics in genre/topics in craft), readings. Design an independent course of study with a mentor for the upcoming year. (4)

ENGL 506 : Summer Residency III

16 hours of required workshops, 20 additional hours of lectures and mini-courses (topics in genre/topics in craft), readings. Design an independent course of study with a mentor for the upcoming year. (4)

ENGL 507 : Summer Residency IV

Teaching a class based on critical paper or outside experience. Public reading from creative thesis. Participation in workshops and classes. Graduation. (4)

ENGL 511 : Writing Mentorship I

One-on-one correspondence with a professional mentor in a genre or genres of choice. Approximately 15 hours of work per week on creative and critical writing. 8 mailings. Emphasis on original work. 24 required texts with approximately 40 pages of critical writing. (4 credits fall, 4 credits spring)

ENGL 512 : Writing Mentorship II

One-on-one correspondence with a professional mentor in a genre or genres of choice. Approximately 15 hours of work per week on creative and critical writing. 5 mailings. Continued emphasis on original work. 15 required texts with approximately 25 pages of critical writing. Implementation of a field experience (approximately 100 hours) to be set up in collaboration with the director of the program, who will act as advisor on the project. (4 credits fall, 4 credits spring)

ENGL 513 : Writing Mentorship III

One-on-one correspondence with a professional mentor in a genre or genres of choice. Approximately 15 hours of work per week on creative and critical writing. 3 mailings. Emphasis on critical paper (20-40 pages). (4)

ENGL 591 : Independent Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

ENGL 595 : Internship

To permit graduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ENGL 598 : Non-thesis Research Project

To provide graduate students with graduate-level non-thesis research opportunities. The title will be listed on the student term-based record as Project: followed by the specific title designated by the student. (1 to 4)

ENGL 599 : Thesis

One-on-one correspondence with a professional mentor in a genre of genres of choice. 3 mailings. Emphasis on organization of creative thesis (book-length manuscript), final revision, planning for public presentation (class or lecture). (8)

ENGR 131 : Introduction to Engineering

An introduction to the engineering profession and development of basic skills important to the profession; including, problem solving, engineering design, graphics, use of computers, computer programming, engineering economics, and ethics in engineering. Prerequisite: completion of college-preparatory mathematics. (2)

ENGR 240 : Engineering Statics

Engineering statics using vector algebra; equilibrium of rigid bodies; equivalent force and movement systems; centroids and center of gravity; trusses and frames; methods of virtual work; shear and bending moment diagrams; moments of inertia. Prerequisite: PHYS 153 with a C- or higher.

ENGR 333 : Engineering Thermodynamics

Classical, macroscopic thermodynamics with applications to physics, engineering, and chemistry. Thermodynamic state variables, cycles, and potentials; flow and non-flow systems; pure substances, mixtures, and solutions; phase transitions; introduction to statistical thermodynamics. Prerequisites: PHYS 153 with a C- or higher. (4)

ENGR 334 : Engineering Materials Science

Fundamentals of engineering materials including mechanical, chemical, thermal, and electrical properties associated with metals, polymers, composites, and alloys. Focus on how useful material properties can be engineered through control of microstructure. Prerequisites: PHYS 154 with a C- or higher and CHEM 115 with a C- or higher. (4)

ENGR 355 : Electrical Circuits

Introduction to the fundamental techniques and concepts of analysis and design of DC and AC circuits including Kirchhoff's Laws, circuit theorems, OP Amps, first and second order transient and steady state circuits, and frequency response. Computer simulation and laboratory work are essential parts of the course. Prerequisites: MATH 151; PHYS 154 or consent of instructor. (4)

ENGR 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student and the Advisory Board for the Engineering internship course and the Engineering & Industry Minor. (1 to 12)

ENVT 104 : Conservation of Natural Resources - NW

Principles and problems of public and private stewardship of our resources with specific reference to the Pacific Northwest. Cross-listed with ESCI 104. (4)

ENVT 287 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 288 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 289 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ENVT 350 : Environmental Methods

Study of a watershed using and integrating techniques and principles of environmental sciences, political science, economics, and ethics. Includes laboratory. Prerequisite: ESCI 104, ECON 101, or RELI 101; declared ENVT major or minor; or consent of instructor. (4)

ENVT 387 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 388 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 389 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 487 : Special Topics in Environmental Studies

Selected topics as announced by the program. Course will address current interdisciplinary issues in environmental studies. (1 to 4)

ENVT 488 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 489 : Special Topics in Environmental Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ENVT 491 : Independent Study

Opportunity to focus on specific topics or issues in environmental studies under the supervision of a faculty member. (1 to 4)

ENVT 495 : Internship in ENVT

An internship with a private or public sector agency, organization, or company involved in environmental issues. By consent of the chair of environmental studies only. (4)

ENVT 499A : Capstone: Senior Project - SR

An initiation of an interdisciplinary research project of the student's design that integrates the methods and contents of various academic perspectives to develop approaches to complex environmental challenges. A written prospectus is required. This course is required for all ENVT majors. Prerequisite: ENVT 350. (1)

ENVT 499B : Capstone: Senior Project - SR

An interdisciplinary research project of the student's design that integrates the methods and contents of various academic perspectives to develop approaches to complex environmental challenges. A written and oral presentation is required. Prerequisite: ENVT 499A. (3)

EPSY 361 : Psychology for Teaching

Principles and research in human development and learning, especially related to teaching and to the psychological growth, relationships, and adjustment of individuals. For music education majors only. Admission to the School of Education and

Kinesiology and completion of MUSI 340. (3)

EPSY 566 : Advanced Cognition, Development and Learning

The study of principles and current thought and research in cognition, development, and learning. Prerequisite: Admission to the MA/Cert program or consent of instructor. (2)

EPSY 587 : Special Topics in Educational Psychology

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

EPSY 588 : Special Topics in Educational Psychology

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

EPSY 589 : Special Topics in Educational Psychology

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

ESCI 102 : General Oceanography - NW

Oceanography and its relationship to other fields; physical, chemical, biological, climatic, and geological aspects of the sea. Includes labs and field trips. (4)

ESCI 103 : Earthquakes, Volcanoes, and Geologic Hazards - NW

Study of the geologic environment and its relationship to humans, with emphasis on geologic features and processes that create hazards when encroached upon by human activity; including, earthquakes, volcanic eruptions, landslides and avalanches, and solutions to problems created by these hazards. Includes labs and field trips. (4)

ESCI 104 : Conservation of Natural Resources - NW

Principles and problems of public and private stewardship of our resources with special reference to the Pacific Northwest. Includes labs and field trips. (4)

ESCI 106 : Geology of National Parks - NW

Study of the significant geologic features, processes, and history as illustrated by selected National Parks. Relationship between human history and geology and the impact of geology on our lives will be included. (4)

ESCI 107 : Global Climate Changes - NW

A survey of current climate change research. Students will develop and apply a fundamental understanding of earth systems through evaluation of geologic and other scientific evidence for long- and short-term climate change. (4)

ESCI 109 : The Geology of Energy - NW

Geoscientific exploration of natural systems and processes that create non-renewable and renewable energy resources. Issues of extraction and exploitation of diverse energy resources in a global context. Includes labs. (4)

ESCI 201 : Geologic Principles - NW

This course prepares students for upper-division classes in earth science by investigating earth materials and tectonic processes across spatial scales from the microscopic to the planetary and through geologic time. Emphasis is placed on learning how to form and answer geologically appropriate questions. Includes labs and field trips outside of class time. This course meets state education certification requirements for content in physical and historical geology. (4)

ESCI 287 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 288 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 289 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

ESCI 325 : Structural Geology

The form and spatial relationships of various rock masses and an introduction to rock deformation; consideration of basic processes to understand mountain building and continental formation; laboratory emphasizes practical techniques which enable students to analyze regional structural patterns. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 327 : Stratigraphy and Sedimentation

Formational principles of surface-accumulated rocks, and their incorporation in the stratigraphic record. This subject is basic to field mapping and structural interpretation. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 331 : Maps: Computer-Aided Mapping and Analysis

Computer-based Geographic Information Systems, digital maps, and data sources. The creation, interpretation, and analysis of digital maps from multiple data sources. Analysis of spatial information from sciences, social sciences, and humanities using sets of digital maps. Prerequisite: previous science (earth science preferred), math or computer science course or consent of instructor. Familiarity with maps recommended. (4)

ESCI 332 : Geomorphology

Study of the processes that shape the Earth's surface with emphasis on the effects of rock type, geologic structure, and climate on the formation and evolution of landforms. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 336 : Geochemistry

Study of fundamental geochemistry principles with focus on applications to investigations into a wide-range of earth and atmospheric processes and systems. Analysis and interpretation of student-collected and published field and lab data. Includes labs. Prerequisite: ESCI 201 and either CHEM 104 or 115 or consent of instructor. (4)

ESCI 342 : Climate and Earth Systems

Study of climate and climate change, past and present, including the impact of climate changes on earth systems, and the disproportionate impact these changes will have on communities around the globe. Prerequisite: ESCI 201. (4)

ESCI 345 : Tectonic Petrology

This class introduces igneous and metamorphic petrology by following rock compositions through several tectonic processes to see how petrology can be used to better understand large-scale tectonics. Students will interpret rock samples and 8 datasets to produce a comprehensive petro-tectonic analysis in a research-group like setting. Includes labs. Prerequisite: ESCI 201 or consent of instructor. (4)

ESCI 387 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 388 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 389 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 401 : Field Trip

Field and on-campus study of major geologic sites in western U.S. Trips take place during spring break or at end of spring semester. Prerequisite: ESCI 201 or consent of instructor. A minimum of 4 semester hours of 300-level earth science courses. Pass/Fail. (1)

ESCI 487 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 488 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 489 : Special Topics in Earth Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

ESCI 491 : Independent Study

Investigations or research in areas of special interest not covered by regular courses. Requires regular supervision by a faculty member. (1 to 4)

ESCI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

ESCI 498 : Seminar

Discussion of professional papers and introduction to directed research for the Capstone project. Required of all majors in their senior year. December graduates should complete the sequence (ESCI 498-499) in their final full year. Prerequisite: at least 8 semester hours of 300-level or above courses in earth science. Pass/Fail. (1)

ESCI 499 : Capstone: Senior Seminar - SR

Culminating experience applying geological methods and theory through original literature or field or laboratory research under the guidance of a faculty mentor, with written and oral presentation of results. Required of all majors in their senior year. Prerequisite: ESCI 498. (4)

FREN 101 : Elementary French - GE

Develop basic communicative proficiency in French and learn about French-speaking culture in Europe, Africa, Asia, and/or the

Americas. Intended for true beginners. (4)

FREN 102 : Elementary French - GE

A continuation of FREN 101 or equivalent. Develop basic communicative proficiency in French and learn about French-speaking cultures in Europe, Africa, Asia, and/or the Americas. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 201 : Intermediate French - VW, GE

A continuation of FREN 102 or equivalent. Review grammar, develop vocabulary, and improve oral expression through cultural content emphasizing the diverse heritage of French-speaking societies in Europe, Africa, Asia, and/or the Americas. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 202 : Intermediate French - VW, GE

A continuation of FREN 201 or equivalent. Review grammar, develop vocabulary, and improve oral expression through cultural content emphasizing the diverse heritage of French-speaking societies in Europe, Africa, Asia, and/or the Americas. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 203 : Topics in French Literature - IT, GE

The exploration of an enduring aspect of the human experience in French literature from any era. Course taught in English. No prerequisite. (4)

FREN 204 : Postcolonial Francophone Fictions and Criticism - IT, GE

Issues and debates in the fictions of French-speaking Africa, Asia, and/or the Americas, through the lens of postcolonial criticism. Course taught in English. No prerequisite. (4)

FREN 205 : French/Francophone Film - IT, GE

The history of French cinema or the thematic study of film from any region of the French-speaking world, with an introduction to film analysis. Course taught in English. No prerequisite. May be repeated once for credit. (4)

FREN 206 : French/Francophone Feminisms - IT, GE

The development of feminist thought in the literatures of French-speaking societies in Europe, Africa, Asia, and/or the Americas. Course taught in English. No prerequisite. May be repeated once for credit. (4)

FREN 210 : French History, Culture, Society - VW, GE

An introduction to a decisive episode in French history; to an iconic aspect of French culture; or to social issues in contemporary France. Course taught in English. No prerequisite. (4)

FREN 211 : Francophone Africa in Global Context - VW, GE

An introduction to the study of Francophone Africa and African Diasporas with a focus on (post)colonial development. Course taught in English. No prerequisite. (4)

FREN 287 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 288 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 289 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

FREN 301 : Advanced French - VW, GE

A continuation of FREN 202 or equivalent. Advanced grammar, composition, and conversation with an introduction to French and/or Francophone literature and film. Students with prior background in French should consult the Language Placement Guide before enrolling. (4)

FREN 305 : French/Francophone Film - IT, GE

The history of French cinema or the thematic study of film from any region of the French-speaking world, with an introduction to film analysis. Course taught in English. No prerequisite. May be repeated once for credit. (4)

FREN 310 : French History, Culture, Society - VW, GE

An introduction to a decisive episode in French history; to an iconic aspect of French culture; or to social issues in contemporary France. Coursework in French. Prerequisites: FREN 202, 301, or permission of instructor. May be repeated once for credit. (4)

FREN 311 : Francophone Africa in Global Context - VW, GE

An introduction to the study of Francophone Africa and African Diasporas with a focus on (post)colonial development. Coursework in French. Prerequisites: FREN 202, 301, or permission of instructor. May be repeated once for credit. (4)

FREN 387 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 388 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 389 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 403 : Topics in French Literature - IT, GE

The exploration of an enduring aspect of the human experience in French literature from any era. Coursework in French. Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 404 : Postcolonial Francophone Fictions and Criticism - IT, GE

Issues of identity and justice in French language literature/film from North Africa, West Africa, North America, and/or the Caribbean, with attention to historical context and aesthetic innovation. Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 405 : French/Francophone Film - IT, GE

The history of French cinema or the thematic study of film from any region of the French-speaking world, with an introduction to film analysis. Coursework in French. Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 406 : French/Francophone Feminisms - IT, GE

The development of feminist thought in the literatures of French-speaking societies in Europe, Africa, Asia and/or the Americas. Coursework in French. Prerequisites: FREN 301 or permission of instructor. May be repeated once for credit. (4)

FREN 487 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 488 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 489 : Special Topics in French

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

FREN 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

FREN 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

FREN 499 : Capstone: Senior Project - SR

With faculty guidance and peer support, students design and develop a research or experiential project with skills acquired in French & Francophone Studies coursework, then present their findings to the public. May be combined with a capstone project in another major contingent on approval by faculty in both units. (4)

FTWL 100 : Personalized Fitness Program - FT

To stimulate student interest in functional personally designed programs of physical activity; assessment of physical condition and skills; recommendation of specific programs for maintaining and improving physical health. Should be taken as a first-year student. (1)

FTWL 150 : Adaptive Physical Activity - FT

An individualized fitness and wellness course designed to meet the needs of students with diagnosed disabilities or long-term injury who, because of their medical condition, are unable to be accommodated through regular activity courses offered in the department. (1)

FTWL 151 : Beginning Golf - FT

Individual and dual activities course in beginning golf. (1)

FTWL 155 : Bowling - FT

Individual and dual activities course in bowling. (1)

FTWL 158 : Jogging and Running for Fitness - FT

Individual and dual activities course in jogging and running for fitness. (1)

FTWL 159 : Walking for Health - FT

Individual and dual activities course in walking for health. (1)

FTWL 162 : Beginning Tennis - FT

Individual and dual activities course in tennis. (1)

FTWL 163 : Beginning Badminton - FT

Individual and dual activities course in badminton. (1)

FTWL 164 : Pickleball - FT

Individual and dual activities course in pickleball. (1)

FTWL 173 : Mountaineering - FT

Individual and dual activities course in mountaineering. (1)

FTWL 177 : Weight Training - FT

Individual and dual activities course in weight training. (1)

FTWL 179 : Core and Stretch - FT

Individual and dual activities course in core and stretch. (1)

FTWL 182 : Low Impact Aerobics - FT

Individual and dual activities course in low impact aerobics. (1)

FTWL 183 : Power Aerobics - FT

Individual and dual activities course in power aerobics. (1)

FTWL 186 : Step Aerobics - FT

Individual and dual activities course in step aerobics. (1)

FTWL 188 : Boot Camp Conditioning - FT

Individual and dual activities course in boot camp conditioning. (1)

FTWL 189 : Kickboxing - FT

Individual and dual activities course in kickboxing. (1)

FTWL 192 : Intermediate Tennis - FT

Individual and dual activities course in intermediate tennis. (1)

FTWL 197 : Advanced Weight Training - FT

Individual and dual activities course in advanced weight training. (1)

FTWL 201 : Swimming for Non-Swimmers - FT

Aquatics course in swimming for non-swimmers. (1)

FTWL 205 : Skin & Scuba Diving - FT

Aquatics course in skin and scuba diving. (1)

FTWL 207 : Basic Sailing - FT

Aquatics course in basic sailing. (1)

FTWL 212 : Conditioning Swimming - FT

Aquatics course in conditioning swimming. (1)

FTWL 223 : Yoga - FT

Rhythms course in yoga. (1)

FTWL 224 : Salsa and Swing Dance - FT

Rhythms course in salsa and swing dance. (1)

FTWL 225 : Ballroom Dance - FT

Rhythms course in ballroom dance. (1)

FTWL 228 : Vinyasa Yoga - FT

Rhythms course in vinyasa yoga. (1)

FTWL 229 : Zumba - FT

Rhythms course in Zumba. (1)

FTWL 234 : Relaxation Techniques - FT

Rhythms course in relaxation techniques. (1)

FTWL 241 : Co-Ed Basketball - FT

Team activities course in co-ed basketball. (1)

FTWL 244 : Co-Ed Volleyball - FT

Team activities course in co-ed volleyball. (1)

FTWL 246 : Disc Sports - FT

Team activities course in disc sports. (1)

FTWL 248 : World Games and Sports - FT

Team activities course in world games and sports. (1)

FTWL 250 : Directed Sports

Team activities course in directed sports. May not be used to complete the General Education Fitness and Wellness requirement. (1)

FTWL 276 : Special Topics in Physical Activity - FT

Selected activities as announced by the department. Provides opportunities for activities not otherwise part of the regular activity course offerings. (1)

FYEP 101 : Writing Seminar - FW

Students will learn strategies for writing, thinking, speaking, and reading. They encounter writing as a way of thinking, of learning, and of discovering and ordering ideas. Working with interdisciplinary themes, students practice the various academic conventions of writing. (4)

GLCS 271 : Literature Around the World

Study of canonical, marginal, and/or emerging works of literature that together articulate a crucial development within an established tradition or shed light on contemporary challenges within a community, be it local, global, or virtual. All readings in English. (4)

GLCS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

GLCS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

GLCS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

GLST 210 : Contemporary Global Issues: Migration, Poverty, and Conflict - ES, GE

This course introduces students to central concepts in global studies and the perspectives of different peoples, states, and organizations as they relate to world events. Through specific units on global movements and reactions, global poverty and inequality, and global conflict and cooperation, students will gain global literacy and knowledge of contemporary issues. May be cross-listed with HIST 210. (4)

GLST 287 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 288 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 289 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

GLST 325 : Global Political Thought - ES, GE

A survey of major political thinkers from ancient to modern times, with particular emphasis on non-Western twentieth-century contributors. Can count for a philosophy major or minor. (4)

GLST 331 : International Relations - ES, GE

A systematic analysis of the international system highlighting patterns in state interaction. (4)

GLST 332 : American Foreign Policy - ES, GE

This course explores how factors such as the U.S. Constitution and domestic politics shape American foreign policy. In doing so, it grounds itself in two major approaches: the theoretical framework of international relations and the historical development of American foreign policy. Core themes and issues may change based on events, but may include topics such as climate change, the U.N. and NATO, humanitarian initiatives, and U.S. policy in the Middle East.

GLST 357 : Global Development - ES, GE

This course examines the emergence of international development as an idea, its effects on the livelihoods of billions of people around the world, and seeks potentials for improving the practice of development. Drawing on literature from anthropology, political science, geography, and economics, we cover theories of progress, the concept of participation, global poverty and inequality, and individual charity. (4)

GLST 387 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 388 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 389 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 431 : Advanced International Relations

Examines various theories of international conflict management, including in-depth analysis of historical examples. The development of international law and international governmental organizations are also considered. Prerequisite:GLST 331. (4)

GLST 487 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 488 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 489 : Special Topics in Global Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GLST 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

GLST 495 : Internship

A project, usually undertaken during a study-abroad experience and supervised by a PLU faculty member, that combines field

experience, research, and writing on issues related to the student's issue concentration in Global Studies. Local internships that involve transnational issues and constituencies will also be considered. Prerequisite: prior consent of the chair of the global studies committee and of the supervising PLU faculty member. (1 to 12)

GLST 499 : Capstone: Research Seminar - SR

Required of all students majoring and minoring in Global Studies, this is a capstone seminar that culminates in the writing of an extensive research paper. Prerequisite: GLST/HIST 210. (4)

GNUR 701 : Foundations of Scholarly Writing & Communication

Reinforces composition and writing skills for academic purposes. APA is stressed; including, writing, citations, and references. Written communication of ideas to inform and persuade a reader on a topic through a variety of dissemination methods. (2)

GNUR 702 : Advanced Practice Roles & Collaboration

Focuses on the role of an advanced practice nurse and interprofessional collaboration, change management and systems thinking to improve outcomes. Includes an historical perspective of nursing roles as well as the evolution of advanced practice nursing. Students will explore advanced practice nursing roles through analysis of ethical, professional, social, and practice perspectives. (1)

GNUR 703 : Theoretical Foundations & Evidence Based Practice

Advances student understanding of the foundational nursing, scientific, and theoretical underpinnings of advanced practice. Provides a broad overview of evidence-based advanced practice nursing. Philosophical, conceptual, and theoretical perspectives as well as research methods are examined. (3)

GNUR 704 : Population Health, Policy, & Politics

Provides theoretical foundation and a framework for examining health promotion, population health, health equity, and health policy that focus on advanced practice nursing and advocacy. The interdependence of policy and practice will be evaluated, with a focus on the challenges of engaging and influencing health policy locally, nationally, and globally. Students will analyze the ethical, legal, economic, and sociocultural factors influencing policy development. Health policy frameworks are analyzed from governmental, organizational, and clinical practice perspectives. (2)

GNUR 705 : Information Systems & Patient Care Technology

Focuses on nursing informatics knowledge and skills needed to assess, evaluate, and optimize health information systems and technology to support communication, the delivery of high-quality evidence-based care, and improvement of population health. Includes use of systems analysis, decision theory, consumer use of informatics for health care information, and consideration of ethical, regulatory, and legal issues. (2)

GNUR 706 : Biostatistics, Analytical Methods, & Epidemiology

Prepares students to think quantitatively and assess data critically. Examines principles of statistical inference and their application to the analysis and interpretation for answering practice questions. Students gain experience in interpreting qualitative and quantitative data. (3)

GNUR 707 : Quality Improvement & Research Methods

Explores the theoretical foundations and application of quality improvement methods, tools, and strategies needed to increase organizational effectiveness. Focuses on measurement and accountability in health care delivery systems through the examination and analysis of data, structure, processes, and outcomes. Students explore the development and use of relevant outcome measures to evaluate research, quality improvement, and programs in order to inform and use new knowledge to provide, change, and evaluate delivery of healthcare initiatives focused on client-centered, clinically demonstrable care. (3)

GNUR 708 : Advanced Practice Leadership & Resource Management

Prepared students to ethically lead and practice in organizations that advance high reliability principles, patient safety, inter-professional teamwork, and continuous learning. Provides a comprehensive systems-thinking approach to include policy, economics, and financial principles to promote high quality health care delivery to individuals, families, and communities. Develops foundational financial cost and budgeting concepts integral to advanced practice nursing; including, entrepreneurship, management of resources, productivity, reimbursements, and cost effective care. (3)

GNUR 710 : Advanced Pathophysiology

Focuses on normal physiologic and pathologic mechanisms of disease for the advanced practice student. It provides primary components of the foundation for clinical assessment, decision making, and management of patients across the lifespan. (3)

GNUR 711 : Advanced Pharmacotherapeutics

Prepares the advanced practice student for prescriptive authority and focuses on the pharmacokinetic basis for and pharmacotherapeutic management of simple and complex disease processes. Includes ethical, legal, and procedural aspects of prescriptive authority. (3)

GNUR 712 : Advanced Pharmacotherapeutics Discussion

Discussion on pharmacology topics specific to population focus. Co-requisite: GNUR 711. (1 seminar)

GNUR 713 : Advanced Physical Assessment

Development and performance of the skills needed for advanced health assessment of individuals, families, or communities through the lifespan. Provides knowledge to complete a comprehensive history, physical, and mental health exam leading to the development of a differential diagnosis. Incorporates assessing wellness, screening, and chief complaint. (3; 1 didactic, 2 lab)

GNUR 714 : Advanced Practice Clinical Diagnosis & Management

A focus on the symptoms/health problem assessment and selection and interpretation of screening and diagnostic tests in order to formulate a differential diagnosis and treatment plan. Emphasis is on acquisition and analysis of relevant data for the development of a comprehensive and holistic assessment with an understanding of population health and care of diverse populations. (2)

GNUR 715 : Psych/Mental Health Essentials for Primary Care

Provides foundational knowledge and skills to facilitate recognition and management of mental health conditions in the primary care setting. Focuses on the evaluation and management of common mental health issues in primary care; including, mood disorders, anxiety, ADHD, substance use/abuse, suicidal intent, self-injurious behavior, etc. Assessment tools, primary care management, and criteria for referral to be included. (2)

GNUR 716 : Primary Care Essentials for PMHNPs

Provides the PMHNP student knowledge and skills to assist in the primary care management of co-morbid medical conditions commonly occurring in patients with psychiatric-mental health disorders. (2)

GNUR 717 : Management of Substance Abuse & Addiction

Provides an integrated approach to the neurobiology, assessment, diagnosis, and clinical management of substance-related and addictive disorders across the lifespan. (2)

GNUR 718 : Management of Complex Trauma

Focus on the principles and inter-professional practices of Trauma-Informed Care. Includes an overview of the major theories of trauma assessment and treatment, including care for the patient and self-care for the practitioner. Evidence-based psychotherapies will be emphasized and students will learn about the use of medications as adjuncts for psychiatric symptoms that are often comorbid with trauma. (2)

GNUR 720 : Primary Care Procedures & Diagnostics

Provides the family nurse practitioner student with a range of office-based skills; including, the ability to understand, manage, and perform common primary care procedures. (3; 1 didactic, 2 lab)

GNUR 721 : FNP 1

Application of theory, research, and diagnostic reasoning related to health care conditions and the management of individuals with common episodic and/or stable chronic conditions across the lifespan with a focus on wellness, including topics specific to women and children. (2)

GNUR 722 : FNP 2

Application of theory, research, and diagnostic reasoning related to health care conditions and the management of individuals with complex chronic conditions across the lifespan. (2)

GNUR 723 : FNP 3

Application of theory, research, and diagnostic reasoning related to health care conditions and the management of individuals with multiple complex chronic conditions across the lifespan. (2)

GNUR 724 : FNP 4

Application of theory, research, and diagnostic reasoning related to health care conditions and the management of individuals with complex comorbid patients across the lifespan. (1)

GNUR 731 : FNP 1 Seminar/Clinical

Discussion of FNP 1 course concepts and real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to develop physical and mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals with common conditions. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 732 : FNP 2 Seminar/Clinical

Discussion of FNP 2 course concepts and real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to develop physical and mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals with multiple chronic conditions. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 733 : FNP 3 Seminar/Clinical

Discussion of FNP 3 course concepts and real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to develop physical and mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals with multiple complex chronic conditions. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 734 : FNP 4 Seminar/Clinical

Discussion of FNP core concepts and real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to demonstrate independent physical and mental health exam, differential diagnosis, diagnostic reasoning and plan of care for individuals. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 735 : FNP 5 Seminar/Clinical

Discussion of advanced FNP core concepts and real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to demonstrate effective independent physical and mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals. (4; 2 seminar, 2 clinical) (120 hours)

GNUR 736 : FNP Capstone Seminar/Clinical

In this culminating clinical course students will demonstrate increased competency and accountability in the provision of comprehensive primary health care. Professional practice issues including contract negotiation and requirements for certification and licensure are included. Culminating clinical practice preceptorship to demonstrate independent, competent, appropriate care of individuals across the lifespan. (6; 2 seminar, 4 clinical) (240 hours)

GNUR 740 : Psychopharmacology Across the Lifespan

Focuses on the principles of psychiatric pharmacotherapy across the lifespan, biological mechanisms of action of psychotropic drugs, and the role of the advanced practice psychiatric nurse prescriber. The neurobiological underpinnings of symptom etiology and treatment will form the basis of clinical decision-making in all phases of psychopharmacological treatment for child/adolescent, adult, and geriatric populations. (3)

GNUR 741 : PMHNP 1

An integrated approach to the assessment, diagnosis, and clinical management of psychopathology across the lifespan is covered in this course. An in-depth exploration of the neurobiological underpinnings of mental health problems and psychiatric disorders will serve as the framework of the course. (2)

GNUR 742 : PMHNP 2

Provides an integrated approach to the assessment, diagnosis, and clinical management of complex psychopathology across the lifespan. (2)

GNUR 743 : PMHNP 3

Provides an integrated approach to the assessment, diagnosis, and clinical management of complex psychopathology across the lifespan. (2)

GNUR 744 : PMHNP 4

Examines methods and major conceptual frameworks of individual, group, and family psychotherapy. An overview of the major schools of family and personality theory, psychological development, and derived individual psychotherapy treatment modalities, to better understand the dynamics of the patient and the therapeutic relationship with children, adolescents, adults, elders, families, and groups. (1)

GNUR 751 : PMHNP 1 Seminar/Clinical

Discussion of PMHNP 1 course concepts with real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to develop mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals with common mental health conditions. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 752 : PMHNP 2 Seminar/Clinical

Discussion of PMHNP 2 course concepts with real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to develop mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals with complex mental health conditions. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 753 : PMHNP 3 Seminar/Clinical

Discussion of PMHNP 3 course concepts with real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to develop mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals and groups in psychotherapy. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 754 : PMHNP 4 Seminar/Clinical

Discussion of PMHNP 4 course concepts with real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to demonstrate progressively independent mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals. (3; 1 seminar, 2 clinical) (120 hours)

GNUR 755 : PMHNP 5 Seminar/Clinical

Discussion of advanced PMHNP core concepts and real-life scenarios. Includes demonstration of clinical concepts; including, assessment, differential diagnosis, and documentation. Clinical practice preceptorship to demonstrate independent mental health exam, differential diagnosis, diagnostic reasoning, and plan of care for individuals. (4; 2 seminar, 2 clinical) (120 hours)

GNUR 756 : PMHNP Capstone Seminar/Clinical

In this culminating clinical course, students will demonstrate increased competency and accountability in the provision of comprehensive psychiatric-mental health care. Students will gain expertise by working with an identified population of choice and implementing selected psychotherapeutic and pharmacological interventions. Students will develop an individual learning

plan to address any gaps in the attainment of required Psychiatric Mental Health Nurse Practitioner competencies. Professional practice issues including contract negotiation and requirements for certification and licensure are included. Culminating clinical practice preceptorship to demonstrate independent, competent, appropriate care of individuals across the lifespan. (6; 2 seminar, 4 clinical) (240 hours)

GNUR 791 : Independent Study

Opportunities for advanced study in selected topic related to student's area of interest. Consent of the Dean required. (1-4)

GNUR 795 : DNP Project Proposal

Builds upon previous DNP courses and provides students a structured environment to begin the DNP project process, including developing strategies for translating research findings into sustainable improvements in patient and clinical outcomes for a diverse population. The use of information technology and interprofessional collaboration will be emphasized. Models used to guide the process of implementing and evaluating evidence-based practice change will be examined. (1)

GNUR 796 : DNP Project Proposal Seminar

Mentorship and guidance for successful proposal of DNP project. May be repeated for credit until project successfully proposed. (2)

GNUR 797 : DNP Project Seminar

Student will plan, implement, evaluate, and disseminate the results of a DNP project. This seminar course is repeated for credit every semester after DNP Project proposal is accepted until their final semester. Students will take the Final Seminar in their final semester. Each semester will focus on different aspects of the project; including, planning, implementation, and data analysis. (1)

GNUR 798 : DNP Project Clinical Hours

Variable credit DNP Project Experience course for students to progress through the DNP Project sequence. Required number of clinical credits will be between 5 and 15 depending on their program. Required number of credits will be delineated by the APC at the beginning of the student's program (1-5)

GNUR 799 : DNP Project Final Seminar

Dissemination of results of the DNP Project through writing, presentation, and peer-review. May be repeated for credit until project successfully completed and disseminated. (2)

GSRS 201 : Introduction to Gender, Sexuality, and Race Studies - VW

An interdisciplinary introduction to the concepts, themes, topics, and methods that are central to the study of gender, sexuality, race, and their relationship to other identity categories. Central concepts include knowledge production, the social construction of identity, theories of intersectionality, reflecting on power and privilege, and experimenting with different aspects of praxis and activism. Open to all students; required for GSRS majors and minors. (4)

GSRS 287 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 288 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 289 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 301 : Theories of Gender, Sexuality, and Race

This course explores theories of gender, sexuality, and race from global and intersectional perspectives. Students will also examine the interdisciplinary applications of such theories as well as their relevance to social justice movements and activist work. Prerequisites: GSRS 201, major/minor status, or permission of instructor; required for GSRS majors and minors. (4)

GSRS 387 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 388 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 389 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 487 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 488 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 489 : Special Topics in Gender, Sexuality, and Race Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

GSRS 491 : Independent Study

Readings, research projects, or service learning projects in areas of issues of gender, sexuality, and race studies, under the supervision of a faculty member. (1 to 4)

GSRS 495 : Internship

A pragmatic, employer-based experience in which students apply knowledge already acquired, build competence, and test values in settings like those in which they may seek employment. Internships require the approval of a GSRS faculty member who will supervise the work of the agency or organization supervisor who will directly supervise the student. (1 to 4)

GSRS 499 : Senior Capstone - SR

During their culminating seminar, Gender, Sexuality, and Race Studies majors will develop an academic project that applies theories of gender, sexuality, and/or race and feminist, queer, and/or anti-racist methodologies to their experiences in a community-based practicum. Prerequisites: GSRS 301, major status, or permission of instructor. Students are advised to have completed at least twelve hours of cross-listed coursework counting towards the GSRS major in addition to GSRS prerequisites. (4)

HGST 200 : Introduction to Holocaust and Genocide Studies - VW, GE

This multidisciplinary class examines the Holocaust and selected examples of genocide and systematic mass violence to probe the intersections of dehumanization, violent oppression, cultural destruction, and war in the last two centuries. Voices of resisters and case studies from the U.S. are included. (4)

HGST 287 : Special Topics in Holocaust & Genocide Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HGST 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

HGST 387 : Special Topics in Holocaust & Genocide Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HGST 491 : Independent Study in Holocaust & Genocide Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

HGST 495 : Internship in Holocaust & Genocide Studies

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

HISP 101 : Elementary Spanish - GE

Development of basic communicative proficiency in listening, speaking, reading and writing in Spanish, through learning aspects of the cultures in which it is spoken. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 102 : Elementary Spanish - GE

A continuation of HISP 101 or equivalent. Development of basic communicative proficiency in listening, speaking, reading and writing in Spanish, through learning aspects of the cultures in which it is spoken. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 103 : Accelerated Elementary Spanish - GE

An overview of HISP 101 and 102 ideal for beginners or students seeking comprehensive review of introductory level Spanish. Development of basic communicative proficiency in listening, speaking, reading, and writing in Spanish, through learning aspects of the culture in which it is spoken. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 201 : Intermediate Spanish - VW, GE

A continuation of Elementary Spanish; reading selections which reflect Iberian, Latin American, and US Latinx cultural heritage as well as contemporary materials. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 202 : Intermediate Spanish - VW, GE

A continuation of HISP 201 or equivalent; reading selections which reflect Iberian, Latin American, and US Latinx cultural heritage as well as contemporary materials. Students cannot take both HISP 202 and 252 for credit. Students with prior background in Spanish should consult with the Language Placement Guide before enrolling. (4)

HISP 231 : Intensive Spanish (Study Away) - VW, GE

An intensive Spanish course offered in a Spanish speaking country and geared to students at the intermediate language level (equivalent to HISP 201, 202, or 252). Course typically includes an intensive language class, a home stay, a service project, excursions, and guest lectures on a variety of topics related to the history and culture of the host country. Prerequisite: HISP 102 or the equivalent. (4)

HISP 252 : Spanish for Heritage Speakers - VW, GE

A course designed for students who have been exposed to the Spanish language at home. The course affirms and builds upon the student's Spanish language abilities through conversation about literary and cultural texts, vocabulary expansion, composition and writing activities, and explicit study of grammar structures. Students cannot take both HISP 202 and 252 for credit. Heritage language students should consult the Language Placement Guide before enrolling. (4)

HISP 287 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 288 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 289 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 291 : DS: Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

HISP 301 : Hispanic Voices for Social Change - VW, GE

HISP 301 is a content-based intensive reading and writing course that offers an examination of diverse texts from different times and places in Spanish speaking countries, to focus on how people establish different yet coherent strategies of resistance and adaptation which in turn respond to experiences of social injustice, inequality, geographical displacement and human rights violations in their respective communities. Prerequisite: HISP 202. (4)

HISP 321 : Iberian Cultural Studies - VW, GE

Interdisciplinary exploration of the construction of "Spanish" national identity through literary and cultural productions as it relates to religion, culture, race, class and gender. Prerequisite: HISP 301 or 351. (4)

HISP 322 : Latin American Cultural Studies - VW, GE

Interdisciplinary exploration of the construction of "Latin America" throughout history as it relates to conditions of coloniality and negotiations of culture, race, religion, class, and gender. Prerequisite: HISP 301 or 351. (4)

HISP 325 : Introduction to Hispanic Literary Studies - IT, GE

Acquaints students with techniques of literary analysis, as applied to examples of narrative, poetry, drama, and essay in the Spanish and Latin American literary traditions. Reading, writing, and speaking-intensive. Ongoing review of advanced grammar. Prerequisite: HISP 301 or 351. (4)

HISP 331 : Intensive Spanish (Study Away) - VW, GE

An intensive Spanish course offered in a Spanish speaking country and geared to students at the 300-level (equivalent to 301 or 351). Course typically includes an intensive language class, a home stay, a service project, excursions, and guest lectures on a variety of topics related to the history and culture of the host country. Prerequisite: HISP 202, 252, or the equivalent. (4)

HISP 351 : Hispanic Voices for Social Change for Heritage Speakers - VW, GE

A course designed for students who have been exposed to the Spanish language at home. HISP 351 is a content-based intensive reading and writing course that offers an examination of diverse texts from different times and places in Spanish speaking countries, to focus on how people establish different yet coherent strategies of resistance and adaptation, which in turn respond to experiences of social injustice, inequality, geographical displacement and human rights violations in their respective

communities. Students cannot take both HISP 301 and 351 for credit. Prerequisite: HISP 252 recommended, but not required. Heritage language students should consult the Language Placement Guide before enrolling. (4)

HISP 387 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 388 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 389 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 401 : Introduction to Hispanic Linguistics

HISP 401 is an advanced-level content-based course with an in-depth analysis of Spanish syntax, phonology, and morphology along with the evolution of the Spanish language, including the study of dialects and the history of indigenous languages. Prerequisite: HISP 301 or 351. (4)

HISP 403 : Advanced Spanish (Study Away)

An intensive language and culture course offered in a Spanish speaking country and geared to students at the 400-level. Course typically includes an intensive language course, a home stay, a service project, excursions, and guest lectures on a variety of topics related to the history and culture of the host country. Repeatable for general elective credit, but not for additional HISP major or minor credit. Prerequisite: HISP 301 or 351. (4)

HISP 423 : Special Topics in Iberian Literature & Cultures - IT, GE

An opportunity to pursue an in-depth study of a specific aspect or topic in Iberian literary and cultural productions. Topics may include: Migration; Afro-Iberian Writers; Memory and Trauma; Iberian Cities and Andalusian Spectres. May be repeated for credit with different topic. Prerequisite: HISP 321 or 325. (4)

HISP 433 : Special Topics in Latin American Literatures & Cultures - IT, GE

An opportunity to pursue an in-depth study of a specific topic, genre, or time period in Latin American literary and cultural productions. Topics may include: Memory, trauma, and testimonio in the Southern Cone; Mexican indigenismo and indigenist discourses; Caribbean and Central American migration and diaspora studies. May be repeated for credit with different topic. Prerequisite: HISP 322 or 325. (4)

HISP 487 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 488 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 489 : Special Topics in Hispanic Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HISP 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

HISP 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

HISP 499 : Capstone: Senior Project - SR

An opportunity for students to integrate learning objectives and demonstrate competence in Hispanic and Latino Studies through a research project, experiential learning placement, or combined project with a complementary major. With the guidance of a faculty mentor, students will work individually and as a cohort to produce written and oral products in Spanish as a result of the semester's work. (4)

HIST 102 : The Pre-Modern World: Explorations & Encounters - ES, GE

An introductory survey of world civilizations from the pre-modern era (c. 3,000 BCE to c. 1500 CE), paying close attention to themes of cross-cultural encounter, the rise and fall of empires, and explorations over land and sea. We will explore global patterns of trade, technology, and expansion; the spread of ideas, religious traditions, and philosophies; the relationship between warfare, colonization, and the rise of the nation state; and how different cultural, social, and religious encounters have shaped the emergence of the modern world. (4)

HIST 103 : Conflicts and Convergences in the Modern World - ES, GE

A survey of the major historical trends that have led to conflict and convergence in the modern world, with particular attention to the effects of these historical trends on the present day. The course focuses on the following historical developments: the spread of religion, especially Islam into Africa and Christianity into Latin America and Africa; colonialism and decolonization in Latin America, India, and Africa; imperialism, especially European, Mughal, Ottoman, and Russian; the development of the world economic system, especially comparing the West with China and Japan; and cultural globalization in the late 20th and early 21st centuries. (4)

HIST 107 : Ancient Near East - IT, GE

Surveys the history of the ancient Near East and Mediterranean regions, including ancient Sumer, Egypt, Israel, Persia, Greece, and Rome. Major themes include empire building, religion, law, art, and literature. Students learn to investigate historical problems, use sources, and write historical essays. (4)

HIST 109 : East Asian Societies - ES, GE

The broad sweep of East Asian history is examined with foci on the founding Chinese dynasty, unification wars in Korea, and the rape of Nanking in 1937. Throughout, students will confront scholarly fertile and politically tendentious topics which are analyzed via short essays, examinations, maps quizzes, original research, and role-playing exercises. (4)

HIST 121 : History in Video Games - CX

Surveys the social and cultural impact of video games in American history, including how historical figures and events have been represented in popular games during the past 40 years. Combines the study of visual media theories and the creative process with social and political issues in games, including ethical action, violence, gender, ethnicity, religion, and environmental concerns. (4)

HIST 210 : Contemporary Global Issues: Migration, Poverty, and Conflict - ES, GE

This course introduces students to central concepts in global studies and the perspectives of different peoples, states, and organizations as they relate to world events. Through specific units on global movements and reactions, global poverty and inequality, and global conflict and cooperation, students will gain global literacy and knowledge of contemporary issues. May be cross-listed with GLST 210. (4)

HIST 218 : Women and Gender in World History - ES, GE

This course uses a comparative and historical approach to understand gender ideologies and particularly women's roles in modern world history (1500 - present). The course examines gender constructs for both men and women within specific historical and geographical contexts. It covers major areas of the world including India, Western and Eastern Europe, and parts

of Asia, Africa, and Latin America to understand historical and global trends in the cultural construction of gender. (4)

HIST 220 : Modern Latin American History - ES, GE

Introduction to modern Latin American history, from 1810 to the present. (4)

HIST 224 : Modern European History - ES

In this course students will be asked to explore the interaction of Europeans with each other and with the larger world. We will study the rise and fall of European nation-states, the wars which dominated the 20th Century, modern genocides, the rise of modern ideologies, and cultural and social structural shifts over the course of the 19th and 20th centuries. Throughout the course students will continually be asked to consider what makes Europe "modern." (4)

HIST 237 : History at the Movies - IT, GE

Many people watch movies for entertainment, yet, at the same time, they are actually learning about the past. But what are they really learning through movies? This class will use international comparisons to explore how history has been depicted and consumed. We will consider thematic approaches (e.g. movies for children, movies depicting slavery) and genres (e.g. Westerns, Samurai movies) to consider what the movie-viewing public is learning about the past and why that matters. Film screenings, as well as contextual and analytic readings, will enable us to explore history at the movies. (4)

HIST 247 : U.S. Capitalism: From Railroads to Netflix - ES

Surveys the history of American business and the economy from the rise of big business and labor unions after the American Civil War through the era of globalization. Topics include technological change, government regulation, business organization, economic thought, business ethics, the role of the entrepreneur, and the place of women and minorities in American business society. (4)

HIST 248 : Innovation, Ethics, & Society - ES

A history of innovation, problem solving, and creativity in the global economy, emphasizing the ethical considerations that arise as a result of new products and initiatives, disruptive technologies, globalization, and cultural change. Draws attention to stages in the innovation process and the importance of teamwork, effective communication, and design. (4)

HIST 251 : Colonial American History - IT

The history of what became the United States, from the settlement of America to the election of Thomas Jefferson as the third President of the United States in 1800. It will pay particular attention to three periods - the years of settlement, the era of adjustment to an imperial system around the turn of the 18th century, and the revolt against that system in the second half of the 18th century, which culminated in the creation of the American union. Emphasizes certain themes: the origins of racism and slavery, the course of the religious impulse in an increasingly secularized society, and finally, the ideological and constitutional transition from royal government and the rights of Englishmen to republicanism, and popular sovereignty. (4)

HIST 252 : 19th-Century U.S. History - ES

Political, economic, and social transformations in the U.S. during the nineteenth century. Two main themes: struggles over expansion of the American nation-state and over expansion and contraction of the national community. The Civil War is explored as pivotal, but the limitations of its effect are also examined. (4)

HIST 254 : Hanford and the Atomic Age - ES

This course will examine the issues of sustainable energy and nuclear weapons proliferation through the history of the Hanford, Washington nuclear site. We will read and analyze comparative sources from the U.S., Japan, and Russia to examine cross-cultural perspectives on nuclear energy and nuclear weapons. We will also read sources from alternative perspectives on multiple forms of sustainable energy within the U.S. Students will gain an understanding of the viewpoints of those who have been directly involved in the industry as well as those who have been affected by the industry through lectures by experts. (4)

HIST 260 : Early Modern European History: 1400 to 1700 - ES

The foundations of early modern Europe, an era associated with Renaissance and Reformation movements, technological innovation, economic expansion, the revival of learning and visual culture, and the exploration of new geographic worlds. Particular attention to artistic innovation, Protestant and Catholic renewal movements, and the exploration and colonization of the New World. (4)

HIST 287 : Special Topics in U.S. History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 288 : Special Topics in European History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 289 : Special Topics in Non-Western History

This course offers students the opportunity to enhance cultural understanding through the examination of non-Western cultures. (1 to 4)

HIST 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

HIST 301 : Introduction to Historical Methods and Research

Focus on historical methodology, research techniques, and the writing of history from a wide range of historical primary sources. Required for all history majors before taking the senior seminar. Prerequisite: sophomore standing or consent of instructor, and declaration of History major. (4)

HIST 305 : Slavery in the Americas - ES, GE

The comparative history of how slavery (and freedom) were constituted over time and in different parts of the Americas. Topics covered include: Atlantic slave trade, Native slavery, development of slavery and racism, rise of antislavery thought, plantation society, slave resistance and revolts, and the reconstruction of society after emancipation. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 321 : Greek Civilization

The political, social, and cultural history of Ancient Greece from the Bronze Age to the Hellenistic period. Special attention to the literature, art, and intellectual history of the Greeks. Cross-listed with CLAS 321. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 322 : Roman Civilization

The history of Rome from the foundation of the city to CE 337, the death of Constantine. Emphasis on Rome's expansion over the Mediterranean and on its constitutional history. Attention to the rise of Christianity within a Greco-Roman context. Cross-listed with CLAS 322. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 323 : The Middle Ages - IT, GE

Surveys the history of Western Europe during the Middle Ages, from late antiquity (c. 200) to the High Middle Ages (c. 1300). Major themes include the late Roman Empire, early Christianity and monasticism, Germanic and Anglo-Saxon culture, Carolingian Europe, the First Crusade, trade networks and economic revival, and medieval Judaism. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 329 : Europe and the World Wars: 1914 to 1945 - ES

World War I; revolution and return to "normalcy"? depression and the rise of fascism; World War II. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 332 : Tudor England - IT

Political, social, and religious developments in early modern England during the Tudor monarchies (1485 to 1603). Themes include the economic and demographic changes in England, Scotland, and Wales; Henry VIII's "Great Matter"; the Protestant Reformation and Anglicanism; Thomas More's Utopia; wars with France and Spain; and film study. Typically offered in J-Term.

Prerequisite: sophomore standing or consent of instructor. (4)

HIST 333 : Colonization and Genocide in Native North America - ES, GE

This course explores the centrality and implications of colonialism in the making of North America. We will also consider where and why the concept of genocide can help in understanding the experience of Native groups, the limits of the concept, as well as the basis for objections to applying it to the context of indigenous North America. (4)

HIST 335 : Slavery, Pirates, and Dictatorships: The History of the Caribbean - IT, GE

This course surveys the major aspects of colonial and post-colonial history in the Caribbean, paying particular attention to Cuba and Haiti. It focuses on the major themes of slavery, piracy, and dictatorship to illustrate the region's history. (4)

HIST 337 : The History of Mexico - IT, GE

The political, economic, social, and cultural changes that have taken place in Mexico from 1350 to the present. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 338 : Modern China - C, SO

The beginning of China's modern history, with special emphasis on the genesis of the Chinese revolution and China's position in an increasingly integrated world. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 346 : History of Innovation and Technology - ES

Surveys the role of innovation and technology in Western societies from the industrial revolution to the computer age. Major themes include the development of forms of transportation, communication, industrial production, and computer technologies. Draws attention to stages in the innovation process and to developing an ethical vocabulary for business and entrepreneurial activity. (4)

HIST 348 : Lewis and Clark: History and Memory - IT, GE

Examines the Lewis and Clark expedition of 1804-1806 and its broader impact, including its costs and consequences for both the expanding U.S. and the people affected by it. Course emphasizes Native American perspectives of the expedition and how it has been depicted and commemorated in U.S. popular culture. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 349 : U.S. Civil War and Reconstruction - ES

Examines the history of the American Civil War (1861 to 1865) and the subsequent period of Reconstruction. Course uses a wide range of historical sources to understand the social, political, and military histories of the war itself and the legacies of Reconstruction. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 351 : History of the Western and Pacific Northwest U.S. - ES, GE

How "the West" was defined and geographically situated has changed greatly over time. Yet, "the West" - as both a place and an idea - has played a critical role in the development of the American nation. Course explores historiography and the evolving definitions and understandings of region in the United States. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 360 : The Holocaust: The Destruction of the European Jews - ES, GE

Investigation of the development of modern anti-Semitism, its relationship to fascism, the rise of Hitler, the structure of the German dictatorship, the evolution of Nazi Jewish policy, the mechanics of the Final Solution, the nature of the perpetrators, the experience and response of the victims, the reaction of the outside world, and the post-war attempt to deal with an unparalleled crime through traditional judicial procedures. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 362 : Christians in Nazi Germany

This course will study the response of Christians in Germany to Hitler and the Holocaust, analyzing why some Christians opposed the regime but also why a large number found Hitler's ideology and policies attractive. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 366 : Life in Nazi Germany - ES

How was Hitler possible in the modern and advanced nation of Germany? This course seeks to explore that question by examining some of the conditions that were present in German life which helped prepare the soil in which Hitler and the Nazi Party came to flourish. We then address Hitler in power and how Nazi policies impacted the lives of German people, resulting in world war and the Holocaust. (4)

HIST 370 : Environmental History of the United States - ES

Uses historical methods to investigate the interrelationship between people and their environment in the United States. Explores the ways in which humans have interacted with, shaped, and been shaped by their physical environments in the past. Examines the fact that nature, too, has a history, one profoundly shaped by humans. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 387 : Special Topics in U.S. History

This course provides specific opportunities for students to examine chronologically, topically or geographically focused areas of study in U.S. History. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 388 : Special Topics in European History

This course provides specific opportunities for students to examine chronologically, topically or geographically focused areas of study in European History. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 389 : Special Topics in Non-Western History

This course provides specific opportunities for students to examine chronologically, topically or geographically focused areas of study in Non-Western History through the examination of non-Western cultures. Prerequisite: sophomore standing or consent of instructor. (4)

HIST 487 : Special Topics in History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 488 : Special Topics in History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 489 : Special Topics in History

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

HIST 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

HIST 495 : Internship

A research and writing project in connection with a student's approved off-campus work or travel activity, or a dimension of it. Prerequisite: sophomore standing plus one course in history, and consent of the department. (1 to 6)

HIST 499 : Seminar: History - SR

Students write a substantial research paper using appropriate collection and analysis of primary source materials or extensive use of secondary sources and engagement of issues in a strongly historiographical manner. Prerequisite: HIST 301. (4)

IDST 491 : Independent Study

Students will develop projects in consultation with faculty advisors. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

IDST 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4).

IDST 499 : Capstone: Research Seminar - SR

A culminating project with public presentation around the student's area of interest. (2 to 4)

IHON 111 : Origins, Ideas, and Encounters - H1

Examines innovative ideas and institutions from ancient, medieval, and early modern societies that have shaped the contemporary world. Themes include the rise of Judaism, Christianity, and Islam; influential models of authority and government; alternative models of coherence and diversity; religious reformations and utopian movements; technical innovation; and interpreting nature. (4)

IHON 112 : Liberty, Power, and Imagination - H1

Examines innovative ideas and institutions from the Enlightenment to today that have shaped the contemporary world. Themes include scientific, political, artistic, and commercial revolutions; emerging concepts of justice and natural rights; capitalism and imperialism; the experience of war; narratives of progress and their critics; and globalization, sustainability, and the environment. (4)

IHON 253 : Gender, Sexuality and Culture - H2

Uses multicultural, international, and feminist perspectives to examine issues such as socialization and stereotypes, relationships and sexuality, interpersonal and institutional violence, revolution and social change in the U.S. and in other selected international contexts. (4)

IHON 257 : The Human Experience - H2

The Human Experience course is a multidisciplinary study of selected topics that illuminates what it means to be human. Topics will vary by instructor and term but each section of the course will draw from one of the following disciplines: English, philosophy, religion, or languages & literatures. (4)

IHON 258 : Self, Culture, and Society - H2

This course is a multidisciplinary study of specific international topics that illuminate aspects of individual and collective human behavior, history, culture and institutions., Topics will vary by instructor and term, but each section of the course will draw from one of the following disciplines: anthropology, economics, history, political science, psychology or sociology. (4)

IHON 259 : The Natural World - H2

This course utilizes a multidisciplinary approach to explore the natural world around and within us and to provide expression of our human inclination to order what we see and to think in quantitative terms. Topics will vary by instructor and term but each section of the course will draw from one of the following disciplines: biology, chemistry, computer science and computer engineering, geosciences, mathematics, or physics. (4)

IHON 260 : The Arts in Society - H2

This course is a multidisciplinary study of selected topics that represents the breadth and influence of arts in society. Topics will vary by instructor and term, but each section of the course will draw from one of the following disciplines: art, communication, music or theatre. In addition to the primary discipline of the course, the second discipline may be drawn from the College of Professional Studies or from outside of the school. (4)

IHON 328 : Social Justice: Personal Inquiry and Global Investigations - H3, GE

Students will wrestle with complex contemporary social problems, evaluate multiple responses to those problems, and develop and articulate their own positions and commitments. Class themes vary, but every section includes cross-cultural and interdisciplinary analysis and a final culminating project. May be taken after or with the fourth and final 200-level IHON course. Instructor permission required. (4)

IHON 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

INOV 350 : Innovation Seminar

Hands-on seminar for Innovation Studies minors that exposes students to the conceptual, ethical, and logistic issues involved in developing and implementing an innovative idea, process, product, or campaign. Students form teams; analyze artistic, technological, and entrepreneurial factors; consider issues such as feasibility and market timing, and then present their proposal to the PLU community. Prerequisite: Junior status and permission of instructor. (4)

INOV 387 : Special Topics in Innovation Studies

This course provides specific opportunities for students to examine new or emerging topics in the discipline of Innovation Studies. (4)

INOV 491 : Independent Study

Provides individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the instructor in consultation with the student. Prerequisite: sophomore standing. (1 to 4)

INOV 495 : Internship

Involvement in an ongoing research project in Innovation Studies or off-campus work supervised by a faculty member. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. May be repeated for up to 8 semester hours. Prerequisite: sophomore standing. (1 to 8)

KINS 277 : Foundations of Kinesiology

An introduction to the historical, biological, sociological, psychological, and mechanical concepts underlying human movement and the exploration of kinesiology as a field of study. Should be the initial professional course taken in the Department of Kinesiology. (2)

KINS 279 : Teaching Physical Activity

Generic teaching and management strategies, design of instructional materials and techniques for implementing them, and strategies for working with diverse learners in physical activity settings. This course is a prerequisite for all teaching methods courses and should be taken prior to or in conjunction with the education hub. (2)

KINS 280 : Fitness and Recreation Programming and Delivery

Focused on the planning, organization, delivery and evaluation of a variety of fitness and recreation activities in school and community settings. Topics and skills addressed include aerobic dance, step aerobics, drumming and creative rhythms, circuit training, core training, and selected recreational activities. Course content aligns to ACSM Group Exercise Instructor certification standards. (4)

KINS 281 : Sport Programming and Delivery

Addresses sport skill development, instructional skill development, and programming considerations in a variety of individual and team sport activities. Topics and skills addressed include net games (badminton, tennis, pickleball and/or racquetball), invasion games (soccer, team handball, lacrosse, and/or others), and target/fielding activities (softball, baseball, archery and/or bowling). (4)

KINS 287 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 288 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 289 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

KINS 314 : Team Building for High Performance Teams

Activities designed to facilitate the development of team camaraderie and effectiveness. Creative, fun, challenging, and applied team building activities, combined with traditional training tools to help create learning experiences for students to actively enhance team cohesion and group productivity. (4)

KINS 315 : Body Image - GE

Topics include: the connection between women and food, cultural definitions of beauty, eating disorders, nutrition, and biosocial factors affecting weight. (4)

KINS 320 : Nutrition, Health and Performance

An examination of the role of dietary choices in the maintenance of health, the prevention of disease and the optimizing of physical performance. Topics covered include: consumer nutrition skills, basic nutrients and nutritional science, energy balance, sport and performance nutrition including the use of supplements and ergogenic aids, lifespan nutrition, global nutrition and food safety. (4)

KINS 322 : Physical Education in the Elementary School

Organization and administration of a developmental program for grades K-6; sequential and progressive programming; large repertoire of activities. Observation and/or practicum in public schools is required. (2)

KINS 324 : Physical Activity and Lifespan

The emphasis in this course will be on the role that physical activity plays in successful aging. An understanding of the influence of social learning on physical activity behavior through the lifespan and effective strategies for health promotion and activity programming with adult populations will be addressed. (4)

KINS 326 : Adapted Physical Activity

Emphasizes the theory and practice of adaptation in teaching strategies, curriculum, and service delivery for all persons with psychomotor problems, not just those labeled "disabled." (4)

KINS 334 : Applied Training and Conditioning

This course presents physiological and kinesiological applications to physical training and addresses fundamental training principles as they relate to physical fitness in the areas of cardiovascular fitness, muscular strength and endurance, flexibility and body composition. Focus is on training for safe and effective physical performance for both genders of all ages and activity interests. (2)

KINS 360 : Professional Practicum

Students work under the supervision of a coach, teacher, recreation supervisor, or health care provider. Prerequisite: departmental approval. Can be repeated up to four semester hours. (1 or 2)

KINS 361 : Coaching Practicum

Students work under the supervision of a coach. Prerequisite: departmental approval. (1 or 2)

KINS 366 : Health Psychology

This course examines how human physiology and psychology interact and influence personal health choices and behavior change. Topics surveyed include behavior change models; nicotine, alcohol and drug use and abuse; stress and stress management; psychological factors in the prevention, development and treatment of chronic disease; death and dying. (4)

KINS 380 : Exercise Physiology

Scientific basis for training and physiological effect of exercise on the human body. Lab is required. Prerequisite: BIOL 205, 206. (4)

KINS 383 : Exercise Testing and Prescription

Provides students involved in the promotion of physical activity with the basic knowledge necessary to safely conduct exercise, health and fitness assessments in a variety of community settings. Topics will include: history of assessment and its role in physical activity promotion; purpose and methods for pre-evaluation and screening; assessment and evaluation techniques; prescriptive program development for health and fitness; and bio-psycho-social implications of assessment and evaluation. Prerequisite: KINS 380. (4)

KINS 384 : Foundations of Health and Fitness Promotion

Provides students involved in the promotion of physical activity with the basic knowledge necessary to understand how health and fitness are managed in a variety of community settings. Topics will include: historical and philosophical basis of community-based health and fitness management; organizational assessment and evaluation issues; strategies for behavioral change; strategies for program development, implementation and marketing; specific examples of different community-based health and fitness management programs. (4)

KINS 386 : Social Psychology of Sport and Physical Activity

Questions of how social psychological variables influence motor behavior and how physical activity affects the psychological makeup of an individual will be explored. (4)

KINS 387 : Special Topics in Kinesiology

Provides the opportunity for the exploration of current and relevant issues in the areas of physical education and exercise science. (1 to 4)

KINS 388 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 389 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 390 : Applied Exercise and Sports Psychology

A practical, individually-oriented course designed to teach athletes, trainers, coaches, and teachers a comprehensive variety of skills and techniques aimed at enhancing sport performance. Psychological topics include: managing anxiety, imagery, goal setting, self-confidence, attention control, injury interventions, self-talk strategies, and team building. (4)

KINS 395 : Comprehensive School Health

This course explores the integrated nature of comprehensive school health programs. Students will use their health knowledge and resources to effectively communicate essential health content with an emphasis placed on environmental health, intentional and unintentional injury prevention, consumer health and sexuality education. The course addresses program planning, implementation and evaluation based on the needs of the learner. Prerequisites: KINS 320, 366. (4)

KINS 411 : Coaching Effectiveness

Presents foundational knowledge essential for coaching effectiveness and success in any sport at a youth, club, or school level. This course integrates sport science research with emphasis on practical applications. Organization of this course will be based on topics such as: coaching philosophy and ethics, communication and motivation, principles of teaching sport skills and tactics, evaluation, and team administration, organization, and management including liability prevention. The course is designed to meet or exceed NCACE, NASPE, PCA, and ASEP standards. (4)

KINS 478 : Motor Learning and Human Performance

Provides basic theories, research, and practical implications for motor learning, motor control, and variables affecting skill acquisition. (4)

KINS 483 : Clinical Management for Special Populations

Examination of pathophysiology and the use of exercise to manage chronic diseases and conditions including cardiovascular disease, pulmonary disease, diabetes, obesity, and other chronic illnesses. Selection and implementation of tests for health related fitness levels in a variety of populations, and the development of exercise prescriptions for patients with known disease. Prerequisite: KINS 383. (4)

KINS 486 : Applied Biomechanics and Kinesiology

Opportunity to increase knowledge and understanding about the human body and how the basic laws of mechanics are integrated in efficient motor performance. Prerequisite: BIOL 205. (4)

KINS 487 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 488 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 489 : Special Topics in Kinesiology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

KINS 490 : Curriculum, Assessment and Instruction

An integrated and instructionally aligned approach to curriculum design, assessment, development and implementing instructional strategies consistent with Washington Essential Academic Learning Requirements. Intended as the final course prior to a culminating internship, a practicum in the school setting is required in conjunction with this four-semester hour course. Prerequisites: KINS 279, 281. (4)

KINS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: consent of the dean. (1 to 4)

KINS 495 : Internship - SR

Pre-professional experiences closely related to student's career and academic interests. Prerequisites: declaration of major, junior status, ten hours in the major, and department permission. (2 to 8)

KINS 499 : Capstone: Senior Seminar - SR

To enable senior students in an academic unit to share their work and receive group criticism. The title will be listed on the student term-based record as Capstone and may be followed by a specific title designated by the academic unit. Prerequisites: declaration of major, junior status, ten hours in the major, and department permission. (2 or 4)

KINS 500 : Research Methods and Application in Kinesiology

The course will introduce basic concepts in research methods and experimental design relevant to the area of Kinesiology. The course is designed to create a better understanding of the principles, concepts, terminology, and instruments used in measurement and analysis in the various sub-domains of Kinesiology. The course will focus on the scientific method, addressing both quantitative and qualitative research methodologies. Emphasis will be placed on developing evidence-based practitioners that critically utilize the scientific literature in their professional endeavors in Kinesiology. (4)

KINS 505 : Inclusive Leadership

The course is designed to explore cultural factors that influence people and human interaction. Specifically, students will study the role of diversity and the experiences of people with marginalized identities in United States sport organizations. The various ways that people may differ and how this diversity can impact experiences and outcomes in sport and exercise settings will be examined. Students will be challenged to critically think about the concept of diversity and its impact on individuals within the sport and society and critically reflect on how their own cultural biases, values, beliefs, attitudes and behaviors influence their professional practice and interactions with clients. Research-driven best practices for developing inclusion in sport and exercise will be provided. Students will gain an understanding of the knowledge, skills and competencies of inclusive leaders in sport and exercise. Evidence-based strategies for integrating the diverse talents of all contributors in order to develop high functioning and effective teams, organizations, classrooms, and exercise communities will be discussed. (4)

KINS 510 : Mentorship and Leadership

This course is designed to provide independent mentoring between a faculty member and a graduate student. The experience provides opportunities for leadership development and professional development appropriate to the student's interests and abilities. This is a Pass/Fail class only. A general outline of the student's final project is also expected to be developed as a function of the mentoring process. Can be repeated once for credit up to four semester hours. (2)

KINS 515 : Applied Sport Psychology I

Examination and analysis of theory and research relating to social psychological factors and group dynamics affecting sport and exercise behavior. This course will focus on theory, research and application related to individual and group factors (e.g., motivation, communication, feedback, attribution, leadership) that affect cognitions, behavior and performance in sport and physical activity. Current issues in exercise psychology including exercise adherence and behavioral change strategies will also be examined. (4)

KINS 520 : Adapted Training for Special Populations

The course will emphasize designing exercise programs for special populations, including adapted training, younger and older adults, and individuals with specific conditions and limitations. Emphasis will be placed on modifications and application of training programs. (4)

KINS 525 : Applied Exercise Science I

The course will address the physiological responses and adaptations to acute and chronic training. Additionally, students will understand how the energy systems impact design of training programs. Emphasis will also be placed on periodization and yearlong design in relation to development of training programs to improve or maintain agility, power, cardiovascular endurance, and balance. (4)

KINS 530 : Current and Social Issues in Sport

This course serves as a comprehensive introduction to current topics facing practitioners in sport and exercise psychology. The focus of the course will be to critically examine the challenges and opportunities facing athletes, exercisers, and non-sport

performers as well as teams, franchises, leagues, national governing bodies (NGBs) and others with a vested interest in performance excellence. Given the seminar style of the course, topics will focus on the interests of each unique cohort. The purposes of the course is to help students develop the ability to make constructive, evidence-based, practical decisions regarding contemporary issues they may face in their profession. (4)

KINS 535 : Applied Exercise Science II

This course will address theoretical and practical bases of program design in weight training. Additionally, the course will cover functional anatomy and proper lifting techniques. Emphasis is placed on the design of individual and group exercise programs. The main goal after successfully completing this course is for the student to be able to perform safe and appropriate exercise testing and develop a safe and effective strength training program. (4)

KINS 540 : Applied Sport Psychology II

Examines theory, research, and professional practice related to psychological interventions in sport and physical activity. This course focuses on the use of educational psychological interventions to facilitate personal development, performance, and injury rehabilitation in a variety of physical activity settings. Students will learn evidence-based strategies and techniques aimed at enhancing psychological enjoyment, performance, and well-being commensurate with their age, skill level, and personal goals. Students will gain an understanding of existing best practices and literature with the purpose of integrating practical performance psychology applications in a variety of professional settings. Scope of professional capabilities, education and training and how those variables impact ethical professional practice will be explored. (4)

KINS 591 : Independent Study

To provide individual graduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as "IS:" followed by the specific title designated by the student. Prerequisite: departmental approval and consent of mentor. Can be repeated up to three times for credit for a total of eight semester hours. (2)

KINS 592 : Special Topics

A seminar-style course focused on a particular topic of relevance to the field or a current issues, challenge, or trend in the discipline. (4)

KINS 595 : Final Project and Defense

This course encompasses the completion of the final written project and the public defense of the project. (4)

LANG 271 : Literature Around the World - LT

Study of canonical, marginal, and/or emerging works of literature that together articulate a crucial development within an established tradition or shed light on contemporary challenges within a community, be it local, global, or virtual. All readings in English. (4)

LTST 241 : Introduction to Latino Studies - IT, GE

This course introduces students to the range of issues and analytical approaches that form the foundation of Latino studies. By tracing the history of the "Latino/a/x" concept in relation to key elements of sociocultural life, such as time, space, migration, identity, class, race, gender, community, power, language, nation, and rights, students will develop understandings of the particular ways in which Latino studies takes shape as a literary as well as intellectual, artistic and political enterprise. (4)

LTST 341 : Latino/a/x Experiences in the U.S. - IT, GE

Exploration of the histories, experiences, and contributions of Latino/a/x communities in the United States as they appear in Latino literary and cultural productions. Course content is enriched through related community engagement experience. (4)

LTST 342 : U.S. Latino/a/x Literary and Cultural Studies - IT, GE

Course introduces students to critical concepts in the field of Latino/a/x literature. Through an examination of narrative texts from different times and places, we will focus on how U.S. Latino/a/x writers reinscribe native roots, cultures, and languages in order to respond to the uncertainties of geographical displacement. English majors may count this course with prior approval from the chair of the English department. (4)

MATH 105 : Mathematics of Personal Finance - QR

Emphasizes financial transactions important to individuals and families: annuities, loans, insurance, interest, investment, time value of money. Prerequisite: Eligibility based on PLU Math Placement Exam, or permission of instructor. (4)

MATH 107 : Mathematical Explorations - QR

Mathematics and modern society. Emphasis on numerical and logical reasoning. Designed to increase awareness of applications of mathematics, to enhance enjoyment of and self-confidence in mathematics, and to sharpen critical thought in mathematics. Topics selected by the instructor. Prerequisite: Eligibility based on PLU Math Placement Exam, or permission of instructor. (4)

MATH 115 : College Algebra and Trigonometry - QR

A review of algebra emphasizing problem solving skills. The notion of function is introduced via examples from polynomial, rational, trigonometric, logarithmic and exponential functions. We also explore inverse trigonometric functions, identities, graphing and the solving of triangles. Appropriate as preparation for Math 123, 128 and 140. Prerequisite: PLU math placement exam and two years of high school algebra. (4)

MATH 123 : Modern Elementary Mathematics I: Number Sense and Algebraic Sense - QR

Numeration systems and concepts underlying traditional computations. Field axioms, number theory, set theory. Patterns and variables, functions, proportionality, linear versus exponential growth. Emphasis on conceptual understanding of mathematics through problem solving, reasoning, and communication. Analyzing children's problem solving strategies. Intended for elementary teaching majors. Prerequisites: A qualifying score on the math placement test or a grade of C or higher in MATH 115. (4)

MATH 124 : Modern Elementary Mathematics II: Measurement, Geometric Sense, Statistics and Probability - QR

The units, systems and processes of measurement. Classification and measurement of geometric objects. Symmetry, transformations, congruence, dilations, similar figures. Display, analysis, and interpretation of data. Basic probability. Emphasis on conceptual understanding of mathematics through problem solving, reasoning, and communication. Analyzing children's problem solving strategies. Intended for elementary teaching majors. Prerequisite: A grade of C or higher in MATH 123. (4)

MATH 128 : Linear Models and Calculus: An Introduction - QR

Matrix theory, linear programming, and introduction to calculus. Concepts developed stressing applications, particularly to business. Prerequisites: Two years of high school algebra or MATH 115. Cannot be taken for credit if MATH 151 (or the equivalent) has been previously taken with a grade of C or higher. (4)

MATH 140 : Precalculus - QR

Different types of functions, their properties and graphs, especially trigonometric functions. Algebraic skill, problem solving, and mathematical writing are emphasized. Prepares students for calculus. Prerequisites: MATH 115 or equivalent high school material. (4)

MATH 145 : Statistics for Biologists - QR

An introduction to statistics with a focus on topics and data relevant to biologists. Descriptive statistics and data representations, correlation and regression, experimental design, basic probability, binomial and normal distributions, confidence intervals, hypothesis testing, chi-squared test, ANOVA. Cross-listed with STAT 145. Prerequisite: MATH 140 or proficiency through MATH 140 as determined by the math placement exam. (4)

MATH 151 : Calculus I - QR

Functions, limits, derivatives, the fundamental theorem of calculus, and an introduction to integrals with applications. Emphasis on derivatives. Prerequisite: MATH 140 or PLU Math Placement into MATH 151. (4)

MATH 152 : Calculus II - QR

Continuation of MATH 151. Techniques and applications of integrals, improper integrals, ordinary differential equations and

power series, with applications. Prerequisite: MATH 151. (4)

MATH 203 : History of Mathematics

A study in the vast adventure of ideas that is mathematics from ancient cultures to the 20th Century. The evolution of the concepts of number, measurement, demonstration, and the various branches of mathematics in the contexts of the varied cultures in which they arose. Prerequisite: MATH 152 or consent of instructor. (4)

MATH 242 : Introduction to Mathematical Statistics - QR

Data description, probability, discrete and continuous random variables, expectations, special distributions, statements of law of large numbers and central limit theorem, sampling distributions, theory of point estimators, confidence intervals, hypothesis tests, regression (time permitting). Cross-listed with STAT 242. Previously was MATH/STAT 341. Prerequisite: MATH 151. (4)

MATH 245 : Discrete Structures

Topics that are of relevance to computer scientists and computer engineers, including quantified logic, sets, relations, functions, recursion, combinatorics, and probability. Tools of logical reasoning, such as induction, proof by contradiction, and predicate calculus, will be taught and applied. Prerequisite: MATH 151 or placement into MATH 152. (4)

MATH 253 : Multivariable Calculus

An introduction to vectors, partial derivatives, multiple integrals, and vector analysis. Prerequisite: MATH 152. (4)

MATH 287 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 288 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 289 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 291 : Directed Study

Supervised study of topics selected to meet the individual's needs or interests; primarily for students awarded advanced placement. Admission only by departmental invitation. (1 to 4)

MATH 317 : Introduction to Proofs: Number Theory

Introduces ideas of elementary number theory while emphasizing the importance of proof-related concepts such as mathematical grammar, logical equivalence, direct proofs, indirect proofs, proof by contradiction, and proof by induction. Content may include modular arithmetic, prime numbers, divisibility, number systems, and Diophantine equations. Prerequisite: MATH 152. (4)

MATH 318 : Introduction to Proofs: Combinatorics

Introduces ideas of combinatorial reasoning while emphasizing the importance of proof-related concepts such as mathematical grammar, logical equivalence, direct proofs, indirect proofs, proof by contradiction, and proof by induction. Content may include basic counting principles, permutations and combinations, binomial coefficient identities, generating functions, recurrence relations, inclusion-exclusion, graph theory, and algorithms. Prerequisite: MATH 152. (4)

MATH 319 : Introduction to Proofs: Geometry

Introduces the foundations of geometry while emphasizing the importance of proof-related concepts such as mathematical

grammar, logical equivalence, direct proofs, indirect proofs, proof by contradiction, and proof by induction. Content may include Euclidean, projective, and non-Euclidean geometries (possibly including spherical geometry and hyperbolic geometry).

Prerequisite: MATH 152. (4)

MATH 331 : Linear Algebra

Vectors and abstract vector spaces, matrices, inner product spaces, linear transformations. Proofs will be emphasized.

Prerequisites: MATH 253 or one of 317/318/319 or both MATH 245 and CSCI 270. (4)

MATH 342 : Probability and Statistical Theory

Continuation of MATH 242. Topics may include: joint and conditional distributions, correlation, functions of random variables, moment generating functions, Bayesian and non-parametric inference, convergence of distributions. Cross-listed with STAT 342.

Prerequisite: MATH 152 and four hours from STAT 231, 232, 233, or MATH/STAT 242. MATH 253 (or concurrent enrollment) is strongly recommended. (4)

MATH 348 : Statistical Computing and Consulting

Topics include qualitative data analysis, as well as the use of R statistical software to create data visualizations and to conduct, present, and interpret statistical analyses such as multiple regression and nonlinear (e.g. logistic) regression. Students will learn about issues that arise when working with real data such as data cleaning, data preparation, ethical guidelines for statistical practice, and the logical connections between study design and the appropriate inferences that can be made. Statistical consulting strategies and communication of statistical ideas to nonstatistical clients will guide the course topics as students perform consulting services for peers, faculty, and/or the surrounding community. Cross-listed with STAT 348. Prerequisite: DATA 133, CSCI 144, or MATH 151, and one of MATH/STAT 145, 242, STAT 231, 232, or 233. Strongly recommended: Prior experience with the programming languages R or Python. (4)

MATH 351 : Differential Equations

An introduction to differential equations emphasizing the applied aspect. First and second order differential equations, systems of differential equations, power series solutions, non-linear differential equations, numerical methods. Prerequisite: MATH 253. (4)

MATH 356 : Numerical Analysis

How computers store and handle numbers, how to efficiently perform mathematical computations, how to build useful functions to interpolate from discrete data, and how to create algorithms to find or approximate mathematical solutions. Topics and applications will be selected from the solution of linear, nonlinear and differential equations; computational matrix theory; numerical integration and differentiation; and other areas of instructor interest. Prerequisites: MATH 152 and CSCI 144. (4)

MATH 381 : Seminar in Problem Solving

Designed to improve advanced problem solving skills for mathematical competitions, especially the Putnam Competition and the Mathematical Contest in Modeling. Pass/Fail only. May be taken more than once for credit. Prerequisite: consent of instructor. (1)

MATH 387 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 388 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 389 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 422 : Mathematical Modeling

This course introduces students to mathematical modeling of various problems in biology, environmental science, and physics using curve fitting, difference and differential equations, simulations, discrete probabilistic models, and other methods. In addition to mathematical techniques, the formulation and analysis of models and the interpretation of mathematical results in context are also emphasized. Students will have a chance to work on a project of their choosing and to build writing skills.

Prerequisites: MATH 245 or 253 and one of MATH 331, 351, or PHYS 354. (4)

MATH 433 : Abstract Algebra

The algebra of axiomatically defined objects, such as groups, rings, and fields, with emphasis on theory and proof. Prerequisites: MATH 317 or 318 or 319 and 331. (4)

MATH 446 : Mathematics in the Secondary School

Methods and materials in teaching secondary mathematics. Introduction to Common Core State Standards in Mathematics, effective and equitable mathematics teaching practices, and curriculum design. This course includes a field experience component. Cross-listed with EDUC 446. Prerequisite: EDUC 205 and MATH 253 or 331. (4)

MATH 455 : Mathematical Analysis

Theoretical treatment of topics introduced in elementary calculus. Prerequisites: MATH 253, one of 317, 318, or 319, and 331. (4)

MATH 480 : Topics in Mathematics

Selected topics of current interest or from: combinatorics, complex analysis, differential geometry, dynamical systems chaos and fractals, graph theory, group representations, number theory, operations research, partial differential equations, topology, transform methods, abstract algebra, analysis. May be taken more than once for credit. Prerequisites: vary depending on the topic. (1 to 4)

MATH 487 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 488 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 489 : Special Topics in Mathematics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MATH 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: consent of department chair. (1 to 4)

MATH 499A : Capstone: Senior Seminar I - SR

Preparation for oral and written presentation of information learned in individual research under the direction of an assigned instructor. Discussion of methods for communicating mathematical knowledge. Selection of topic and initial research. With MATH 499B meets the senior seminar/project requirement. Prerequisites: MATH 331 and senior (or second semester junior) standing, or permission of instructor. (2)

MATH 499B : Capstone: Senior Seminar II - SR

Continuation of MATH 499A with emphasis on individual research and oral and written presentation. With MATH 499A meets the

senior seminar/project requirement. Prerequisite: MATH 499A. (2)

MFTH 500 : Biopsychosocial Health and Development Across the Lifespan

This course leans heavily on biopsychosocialspiritual (BPSS) health and development across the lifespan. This course emphasizes clinical application and prepares students to work with clients across the lifespan with various health and developmental issues including trauma, abuse, and death. This course also invites students to engage with readings on established theories of development, participate in learning experiences and contextual influences. The goal of this course is to be able to use a biopsychosocialspiritual (BPSS) clinical approach when working with clients across the lifespan, considering how contextualized human development impacts relational interactions. (4)

MFTH 503 : Systems Approach to Marriage and Family Therapy

This course is an introduction to the field of marriage and family therapy and will also help students gain an understanding of traditional and contextually informed cybernetics and general systems theory. In addition, the course considers postmodern ideas, the feminist critique of systems theory, and common factors versus evidenced based approaches. Students will learn to apply a systemic lens personally and professionally. Strategies for systemically conceptualizing therapy will be taught. (4)

MFTH 504 : Contextual Foundations of Systemic Practice

This course provides an introduction to contemporary family developmental theory which explores issues of power, privilege, and oppression when considering family structure and development. We recognize that families' intersecting social contexts influence the meaning of family, relational functioning, and changes over time. Throughout the semester, we will study how race, gender, social class, immigration, religion, spirituality, sexual orientation, and other factors impact family development. You will take part in several projects, including a group cultural "immersion," a religious community observation, and on-going volunteer work in the community. (4)

MFTH 505 : Research Methods in Marriage and Family Therapy

This course focuses on helping students understand research methodologies related to assessment, quantitative research, and qualitative research. Contextual considerations are used to assess the strengths and limitations of these different methodologies. This course emphasizes understanding and evaluating existent research. (3)

MFTH 507 : Comparative Marriage and Family Therapy

This course is an intensive comparative study of the major theories within the field of marriage and family therapy that have been developed based on the systemic paradigm. By the end of the course students have an up-to-date view of the many therapy models used by marriage and family therapists. Prerequisite: MFTH 503. (4)

MFTH 510 : Human Sexuality, Sex Therapy, and Couples Therapy

This course will explore a sex positive approach to sex therapy, minimizing the negative messages around various forms of sexual expression. Basic principles and strategies of treatment for common sexual dysfunctions will be considered. The nature of sexual health, a brief review of the anatomy and physiology of the sexual response cycle and the biological and psychological determinants of sexual functioning will be considered. Students will learn to conduct a sexual history, considering the impact of larger contextual issues. Models of couples therapy will also be taught with attention to addressing sexual issues as another form of couple process. (4)

MFTH 511 : Systemic and Mental Health Assessment, Diagnosis, and Treatment

This course is designed to provide both a traditional and relational (systemic) understanding of the major behavior health disorders described in the DSM-5, including information on epidemiology, etiology, treatment models, and techniques for these disorders. Students will gain an understanding of the process of traditional assessment using the DSM-5, as well as other forms of assessment and diagnosis of behavioral health disorders. Attention will be given to contextual considerations as it relates to assessment and diagnosis. (4)

MFTH 512 : Professional Studies in Marriage and Family Therapy

This course teaches AAMFT professional ethics and Washington State laws which affect the clinical practice of marriage and family therapists. Topics will include family law, legal responsibilities, rules of confidentiality, licensure and certification, contributing to the professional community, crisis intervention, and the intersection of marriage and family therapists and the larger mental health community. Students will consider the impact of their personal values on ethical decision-making. (4)

MFTH 519 : Practicum I

First semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples and families. (2)

MFTH 520 : Theory I

First semester of theory taken in conjunction with MFTH 519. (2)

MFTH 521 : Practicum II

Second semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. (2)

MFTH 522 : Theory II

Second semester of theory taken in conjunction with MFTH 521. (2)

MFTH 523 : Practicum III

Third semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. (2)

MFTH 524 : Theory III

The three semesters of theory taken in conjunction with MFTH 519, 521, and 523 constitute an in-depth study of one approach toward marriage and family therapy with an emphasis on applying theory in practice. (2)

MFTH 525 : Practicum IV

The four semesters of practica are part of a continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. The practica present a competency-based program in which each student is evaluated regarding: (a) case management skills; (b) relationship skills; (c) perceptual skills; (d) conceptual skills; (e) structuring skills; and (f) professional development skills. Practica requirements include 100 hours of supervision of 500 client contact hours. Faculty are AAMFT-Approved Supervisors or the equivalent and use live supervision and video tapes of student sessions as the primary methods of clinical supervision. (2)

MFTH 526 : Development of a Personal Integrated Theory

The fourth semester of theory taken in conjunction with MFTH 525 is an in-depth study of the student's preferred ideas, style, methods, and values. Students develop an integrated personal approach to marriage and family therapy that synthesizes their learning in the program. (2)

MFTH 527 : Extended Practicum V

For students who wish to complete their required practica in five rather than four semesters. This course is an extension of the previously described practica courses. (2)

MFTH 529 : J-term Practicum

J-term semester of practica required as part of the continuous process toward developing specific therapeutic competencies in work with individuals, couples, and families. (1)

MFTH 591 : Directed Study

To provide individual graduate students graduate-level study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

MFTH 598 : Graduate Research Project

Students will work independently with faculty to develop, design, and complete (including a publishable research paper) a

research project targeted for journal publication. (4).

MILS 101 : Introduction to Military Science

An introduction to the United States Army. Includes an introduction to military science and its organization, leadership, land navigation, map reading, operation orders, and the traditions of the United States Army. Provides a look at the military as a profession and its ethical base. Course includes Army Physical Fitness Test and training. (2)

MILS 102 : Introduction to Military Science

An introduction to the United States Army. Includes an introduction to military science and its organization, leadership, land navigation, map reading, operation orders, and the traditions of the United States Army. Provides a look at the military as a profession and its ethical base. Course includes Army Physical Fitness Test and training. (2)

MILS 201 : Fundamentals of Leadership

A continuation of basic officer skills. Areas of emphasis are team building, squad tactics, operations orders, land navigation, ethics and professionalism, total fitness and military first aid. (2)

MILS 202 : Fundamentals of Leadership

A continuation of basic officer skills. Areas of emphasis are team building, squad tactics, operations orders, land navigation, ethics and professionalism, total fitness and military first aid. (2)

MILS 301 : Training Management

The overall objective of this course is to integrate the principles and practices of effective leadership, professional competence, adaptability, teamwork, comprehensive fitness, military operations, and personal development in order to adequately prepare the student to be an officer in the military. (3)

MILS 302 : Applied Leadership

The overall objective of this course is to integrate the principles and practices of effective leadership, professional competence, adaptability, teamwork, comprehensive fitness, military operations, and personal development in order to adequately prepare the student to be an officer in the military. (3)

MILS 401 : Professionalism and Ethics

Covers Army values, ethics, and professionalism, responsibilities to subordinates, self, and country, law of land warfare, and the resolution of ethical/value dilemmas. Also covers logistic and justice systems and the interaction of special staff and command functions. (3)

MILS 402 : Professionalism and Ethics

Covers Army values, ethics, and professionalism, responsibilities to subordinates, self, and country, law of land warfare, and the resolution of ethical/value dilemmas. Also covers logistic and justice systems and the interaction of special staff and command functions. (3)

MILS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. This course is not an alternate or substitute for the previous listed required courses. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

MUSI 101 : Introduction to Music - CX

Introduction to music literature with emphasis on listening, structure, period, and style. Designed to enhance the enjoyment and understanding of music. Not open to majors. (4)

MUSI 103 : History of Jazz - CX

Survey of America's unique art form—Jazz: Emphasis on history, listening, structure, and style from early developments through recent trends. (4)

MUSI 105 : The Arts of China

Exploration of a number of Chinese art forms, primarily music but also including calligraphy, painting, tai chi, poetry, Beijing opera, film and cuisine. (4)

MUSI 106 : Music of Scandinavia and the Nordic Region - CX, GE

A survey of Nordic and Scandinavian music from the Bronze Age to the present, including the classical, folk, and popular traditions found within the region. (4)

MUSI 120 : Music and Culture - CX, GE

Introduction to the study of Western and non-Western music with an emphasis on musical history, style, and social context. Restricted to music majors and minors. (4)

MUSI 125 : Ear Training I - CX

Development of aural skills, including interval recognition, sight-singing, rhythmic, melodic and harmonic dictation. (1)

MUSI 126 : Ear Training II - CX

Continuation of MUSI 125. Prerequisite: MUSI 125 or consent of instructor. (1)

MUSI 133 : Music Theory & Analysis IA

Introduces basic underlying elements of music theory: reading and notating music, key signatures, intervals, chords, scales, etc. Previous music-reading experience highly recommended, but not required. (2)

MUSI 135 : Music Theory & Analysis IB

A continuation of MUSI 133. Minor scales, intervals, triads, diatonic 7th chords, basic analysis, etc. (2)

MUSI 136 : Music Theory & Analysis II

A continuation of MUSI 135. Further study of the materials and syntax of musical expression through an examination of harmonic and melodic analysis, composition, part-writing, figured bass, non-chord tones, small formal structures, secondary functions, etc. Prerequisite: MUSI 135 or consent of instructor. (3)

MUSI 151 : Keyboard Musicianship I

Beginning skills in piano and general musicianship in a group piano setting, including reading in treble and bass clef, building coordination and technique, sight-reading, improvisation, playing by ear, harmonization of melodies, lead-sheet realization, transposing, ensemble playing, and public performance. Requires no previous keyboard experience. Intended for music majors or minors, but students of all areas are welcome. (1)

MUSI 152 : Keyboard Musicianship II

Development of piano and musicianship skills in a group piano setting, including sight-reading, harmonization of melodies, lead-sheet realization, open-score reading, scales and technique, improvisation, transposing, accompanying and public performance. Prerequisite: MUSI 151 or consent of instructor. Intended for music majors, but open to students in all areas. (1)

MUSI 199 : Music in Performance

For students concurrently registered in Private Instruction Performance or Composition (MUSI 201-219, 327, 399, 401-419, 421, and 499 Capstone Student Project: Senior Recital or Project). Students experience a broad range of repertory through attendance at live performances and relevant music events. Graded Pass/Fail. (0)

MUSI 201 : Private Instruction: Jazz - CX

Prerequisite: Two semesters of non-jazz study (MUSI 202-219) or permission of the director of jazz studies. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 201A for 1 hour; 201B for 2 hours; 201C for 3 or 4 hours. (1 to 4)

MUSI 202 : Private Instruction: Piano - CX

Private instruction for Piano. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 202A for 1 hour; 202B for 2 hours; 202C for 3 or 4 hours. (1 to 4)

MUSI 203 : Private Instruction: Organ - CX

Private instruction for Organ. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 203A for 1 hour; 203B for 2 hours; 203C for 3 or 4 hours. (1 to 4)

MUSI 204 : Private Instruction: Voice - CX

Private instruction for Voice. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 204A for 1 hour; 204B for 2 hours; 204C for 3 or 4 hours. (1 to 4)

MUSI 205 : Private Instruction: Violin/Viola - CX

Private instruction for Violin/Viola. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 205A for 1 hour; 205B for 2 hours; 205C for 3 or 4 hours. (1 to 4)

MUSI 206 : Private Instruction: Cello/Bass - CX

Private Instruction for Cello/Bass. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 206A for 1 hour; 206B for 2 hours; 206C for 3 or 4 hours. (1 to 4)

MUSI 207 : Private Instruction: Flute - CX

Private instruction for Flute. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 207A for 1 hour; 207B for 2 hours; 207C for 3 or 4 hours. (1 to 4)

MUSI 208 : Private Instruction: Oboe/English Horn - CX

Private instruction for Oboe/English Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 208A for 1 hour; 208B for 2 hours; 208C for 3 or 4 hours. (1 to 4)

MUSI 209 : Private Instruction: Bassoon - CX

Private instruction for Bassoon. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 209A for 1 hour; 209B for 2 hours; 209C for 3 or 4 hours. (1 to 4)

MUSI 210 : Private Instruction: Clarinet - CX

Private instruction for Clarinet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 210A for 1 hour; 210B for 2 hours; 210C for 3 or 4 hours. (1 to 4)

MUSI 211 : Private Instruction: Saxophone - CX

Private instruction for Saxophone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 211A for 1 hour; 211B for 2 hours; 211C for 3 hours. (1 to 4)

MUSI 212 : Private Instruction: Trumpet - CX

Private instruction for Trumpet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 212A for 1 hour; 212B for 2 hours; 212C for 3 or 4 hours. (1 to 4)

MUSI 213 : Private Instruction: French Horn - CX

Private instruction for French Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 213A for 1 hour; 213B for 2 hours; 213C for 3 or 4 hours. (1 to 4)

MUSI 214 : Private Instruction: Trombone - CX

Private instruction for Trombone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 214A for 1 hour; 214B for 2 hours; 214C for 3 or 4 hours. (1 to 4)

MUSI 215 : Private Instruction: Baritone/Tuba - CX

Private instruction for Baritone/Tuba. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 215A for 1 hour; 215B for 2 hours; 215C for 3 or 4 hours. (1 to 4)

MUSI 216 : Private Instruction: Percussion - CX

Private instruction for Percussion. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 216A for 1 hour; 216B for 2 hours; 216C for 3 or 4 hours. (1 to 4)

MUSI 217 : Private Instruction: Guitar - CX

Private instruction for Guitar. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 217A for 1 hour; 217B for 2 hours; 217C for 3 or 4 hours. (1 to 4)

MUSI 218 : Private Instruction: Harp - CX

Private instruction for Harp. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 218A for 1 hour; 218B for 2 hours; 218C for 3 or 4 hours. (1 to 4)

MUSI 219 : Private Instruction: Harpsichord CX

Private instruction for Harpsichord. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Students register in 219A for 1 hour; 219B for 2 hours; 219C for 3 or 4 hours. (1 to 4)

MUSI 225 : Ear Training III - CX

A continuation of MUSI 126. Prerequisite: MUSI 126 or consent of instructor. (1)

MUSI 226 : Ear Training IV - CX

A continuation of MUSI 225. Prerequisite: MUSI 225 or consent of instructor. (1)

MUSI 235 : Music Theory & Analysis III

A continuation of MUSI 136. Further study of the materials and syntax of musical expression through an examination of modulation, larger formal structures, mode mixture, borrowed chords, augmented sixth chords, chromatic harmony, composition, etc. Prerequisite: MUSI 136 or consent of instructor. (3)

MUSI 236 : Music Theory & Analysis IV

Introduction to post-tonal techniques and the craft of the 21st century composer/arranger, including counterpoint, orchestration, and the development of thematic material into a composition. Prerequisite: MUSI 235 or consent of department chair. (4)

MUSI 240 : Introduction to Music Education

Introduction to the profession. History and philosophy of music education. Developmental characteristics of students and learning styles. Introduction to national and state standards. Lesson design with emphasis on writing objectives. 15 hour practicum required. Music education majors only. (3)

MUSI 241 : String Lab I

Methods and materials of teaching and playing string instruments in the public schools. Intended for music education majors. (1)

MUSI 242 : String Lab II

Methods and materials of teaching and playing string instruments in the public schools. Intended for music education majors. (1)

MUSI 243 : Woodwind Lab I

Group instruction on flute, clarinet, and saxophone; methods and materials of teaching and playing single reeds in the public schools. Intended for music education majors. (1)

MUSI 244 : Woodwind Lab II

Group instruction on oboe and bassoon; methods and materials of teaching and playing double reed instruments in the public schools. Intended for music education majors. (1)

MUSI 245 : Brass Lab I

Group Instruction on trumpet and horn; methods and materials of teaching and playing high brass instruments in the public schools. Intended for music education majors. (1)

MUSI 246 : Brass Lab II

Group instruction on trombone, euphonium, and tuba; methods and materials of teaching and playing low brass instruments in the public schools. Intended for music education majors. (1)

MUSI 247 : Percussion Lab

Methods and materials of teaching and playing percussion instruments in the public schools. (1)

MUSI 251 : Keyboard Musicianship III

Continued development of piano and musicianship skills in a group piano setting, including scales and technique, accompanying, harmonization of melodies, lead-sheet realization, singing and playing, improvisation, transposing, open-score reading, hymn sight-reading, and public performance. Prerequisite: MUSI 152 or consent of instructor. Intended for music majors, but open to students in all areas. Culminates in the Keyboarding Proficiency Assessment. (1)

MUSI 287 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 288 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 289 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

MUSI 301 : Music in Historical Context I

Music History in theory and practice from the Middle Ages through the Age of the Enlightenment. In this course students will study the development of Western music of the Middle Ages, Renaissance, Baroque, and Classical era through examination and performance of representative works of each time period. Prerequisites: MUSI 120 and MUSI 136. (4)

MUSI 302 : Music in Historical Context II

Music History in theory and practice from Beethoven's innovations to those of the present day. In this course students will study the development of Western music of the Romantic, Modernist, and Post-Modernist periods through examination of representative works of each time period. Prerequisites: MUSI 120 and 136. (4)

MUSI 321 : Guitar Lab

Group instruction on acoustic guitar; methods and materials of teaching and playing guitar in the public schools. Intended for music education majors. (1)

MUSI 325 : Class Composition I

A systematic introduction to neo-tonal compositional languages, styles, and techniques resulting in individually composed chamber pieces. MUSI 325 and 326 are prerequisites for private study in Composition (MUSI 327). Students intending to major in Composition should take these courses in their first year of music study. Students majoring in other areas may take these courses after completing MUSI 236. MUSI 325 and MUSI 326 need not be taken in sequence. Prerequisite: MUSI 236 or consent of instructor. (2)

MUSI 326 : Class Composition II

A systematic introduction to pan-tonal compositional languages, styles, and techniques resulting in individually composed chamber pieces. MUSI 325 and MUSI 326 are prerequisites for private study in Composition (MUSI 327). Students intending to major in Composition should take these courses in their first year of music study. Students majoring in other areas may take these courses after completing MUSI 236. MUSI 325 and MUSI 326 need not be taken in sequence. Prerequisite: MUSI 236 or consent of instructor. (2)

MUSI 327 : Classical Music Composition - CX

A systematic approach to contemporary musical composition; students create and notate works for solo, small and large ensembles. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students register in 327A for 1 hour; 327B for 2 hours; 327C for 3 or 4 hours. Prerequisites: MUSI 325 and 326 or consent of instructor.

MUSI 329 : Popular Songwriting and Media Music - CX

A systematic approach to the creation and recording of popular and commercial music. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students register in MUSI 329A for 1 hour; MUSI 329B for 2 hours; MUSI 329C for 3 or 4 hours (1 to 4)

MUSI 340 : Managing the Classroom and Curriculum

Classroom management, classroom technology, and assessment. Unit and lesson planning with introduction to the edTPA. 15 hour practicum required. Prerequisite: MUSI 240. (3)

MUSI 341 : Music for Classroom Teachers

Methods and procedures in teaching elementary school music as well as infusing the arts in the curriculum. Offered for students preparing for elementary classroom teaching (non-music education majors). (2)

MUSI 345 : Conducting I - CX

Introduction to basic patterns, gestures, and conducting techniques. (1)

MUSI 346 : Conducting II

Continuation of MUSI 345; observation of advanced conducting students in laboratory ensemble. (1)

MUSI 351 : Collaborative Piano Studies - CX

Laboratory experience in accompanying representative vocal and instrumental solo literature in the soloist's private lesson studio. Prerequisite: consent of instructor. (1)

MUSI 352 : Organ Improvisation - CX

Basic techniques of improvisation, particularly as related to hymn tunes. Private instruction: Special Fee in addition to tuition. Prerequisite: consent of instructor. (1)

MUSI 353 : Solo Vocal Literature - CX

Survey of solo vocal literature. (2)

MUSI 355 : Diction I (English/Italian) - CX

An introduction to the International Phonetic Alphabet (IPA) and its practical applications for singers of English and Italian texts. (1)

MUSI 356 : Diction II (French/German)

Continuation of MUSI 355 with applications for singers of French and German texts. (1)

MUSI 360 : Choir of the West - CX

A study of a wide variety of choral literature and technique through rehearsal and performance of both sacred and secular music. Auditions at the beginning of fall semester. (1)

MUSI 361 : University Chorale - CX

A study of choral literature and technique through rehearsal and performance of both sacred and secular music. Auditions at the beginning of fall semester. (1)

MUSI 362 : Knights Chorus - CX

The study and performance of repertoire for tenor and bass voices. Emphasis on individual vocal and musical development. (1)

MUSI 363 : University Singers - CX

The study and performance of repertoire for soprano and alto voices. Emphasis on individual vocal and musical development. (1)

MUSI 366 : Opera - CX

Production of chamber opera, opera scenes, and full operas. Participation in all facets of production. Prerequisite: consent of instructor. (1)

MUSI 370 : University Wind Ensemble - CX

Study and performance of selected wind and percussion literature using various size ensembles. Membership by audition. (1)

MUSI 371 : University Concert Band - CX

Study of selected band literature through rehearsal and performance. Designed for the general university student. Prerequisite: having played instrument through at least junior year of high school or consent of instructor. (1)

MUSI 375 : University Jazz Ensemble - CX

Study of selected big band literature through rehearsal and performance. Membership by audition. (1)

MUSI 380 : University Symphony Orchestra - CX

Study of selected orchestral literature through rehearsal and performance. Membership by audition. (1)

MUSI 381 : Chamber Ensemble - CX

Reading, rehearsal, and performance of selected music for smaller ensembles. Prerequisite: consent of instructor. (1)

MUSI 383 : Piano Ensemble - CX

Techniques and practice in the performance of two-piano and piano duet literature; includes sight reading and program planning. Prerequisite: consent of instructor. (1)

MUSI 387 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 388 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 389 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 390 : Intensive Performance Study: Ensemble Tour - CX

Intensive study and rehearsal of your repertoire; off-campus tour of major performance venues; special fee in addition to tuition. Prerequisite: consent of instructor. (4)

MUSI 395 : Music Centers of the World - CX

Exploration of music and other arts in environments off campus. Offered January Term to facilitate study abroad, or in cultural centers of the United States. (4)

MUSI 399 : Junior Recital

Preparation and presentation of a juried half recital, normally in the junior year. Declared Bachelor of Music majors only. Private instruction; special fee in addition to tuition. Prerequisite: consent of instructor is required. (3)

MUSI 401 : Private Instruction:Jazz CX

Prerequisite: Two semesters of non-jazz study (202-219) or permission of the Director of Jazz Studies. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 401A for 1 hour; 401B for 2 hours; 401C for 3 or 4 hours. (1 to 4)

MUSI 402 : Private Instruction: Piano - CX

Private instruction for Piano. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 402A for 1 hour; 402B for 2 hours; 402C for 3 or 4 hours. (1 to 4)

MUSI 403 : Private Instruction: Organ - CX

Private instruction for Organ. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 403A for 1 hour; 403B for 2 hours; 403C for 3 or 4 hours. (1)

MUSI 404 : Private Instruction: Voice CX

Private instruction for Voice. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 404A for 1 hour; 404B for 2 hours; 404C for 3 or 4 hours. (1)

MUSI 405 : Private Instruction: Violin/Viola - CX

Private instruction for Violin/Viola. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 405A for 1 hour; 405B for 2 hours; 405C for 3 or 4 hours. (1 to 4)

MUSI 406 : Private Instruction: Cello/Bass - CX

Private instruction for Cello/Bass. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 406A for 1 hour; 406B for 2 hours; 406C for 3 or 4 hours. (1 to 4)

MUSI 407 : Private Instruction: Flute - CX

Private instruction for Flute. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 407A for 1 hour; 407B for 2 hours; 407C for 3 or 4 hours. (1 to 4)

MUSI 408 : Private Instruction: Oboe/English Horn - CX

Private instruction for Oboe/English Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 408A for 1 hour; 408B for 2 hours; 408C for 3 or 4 hours. (1 to 4)

MUSI 409 : Private Instruction: Bassoon - CX

Private instruction for Bassoon. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 409A for 1 hour; 409B for 2 hours; 409C for 3 or 4 hours. (1 to 4)

MUSI 410 : Private Instruction: Clarinet - CX

Private instruction for Clarinet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 410A for 1 hour; 410B for 2 hours; 410C for 3 or 4 hours. (1 to 4)

MUSI 411 : Private Instruction: Saxophone - CX

Private instruction for Saxophone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 411A for 1 hour; 411B for 2 hours; 411C for 3 or 4 hours. (1 to 4)

MUSI 412 : Private Instruction: Trumpet - CX

Private instruction for Trumpet. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 412A for 1 hour; 412B for 2 hours; 412C for 3 or 4 hours. (1 to 4)

MUSI 413 : Private Instruction: French Horn - CX

Private instruction for French Horn. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 413A for 1 hour; 413B for 2 hours; 413C for 3 or 4 hours. (1 to 4)

MUSI 414 : Private Instruction: Trombone - CX

Private instruction for Trombone. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 414A for 1 hour; 414B for 2 hours; 414C for 3 or 4 hours. (1 to 4)

MUSI 415 : Private Instruction: Baritone/Tuba - CX

Private instruction for Baritone/Tuba. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 415A for 1 hour; 415B for 2 hours; 415C for 3 or 4 hours. (1 to 4)

MUSI 416 : Private Instruction: Percussion - CX

Private instruction for Percussion. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 416A for 1 hour; 416B for 2 hours; 416C for 3 or 4 hours. (1 to 4)

MUSI 417 : Private Instruction: Guitar - CX

Private instruction for Guitar. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 417A for 1 hour; 417B for 2 hours; 417C for 3 or 4 hours. (1 to 4)

MUSI 418 : Private Instruction: Harp - CX

Private instruction for Harp. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 418A for 1 hour; 418B for 2 hours; 418C for 3 or 4 hours. (1 to 4)

MUSI 419 : Private Instruction: Harpsichord - CX

Private instruction for Harpsichord. Special fee in addition to tuition. Concurrent registration in MUSI 199 required. Restricted to music majors who have passed the Sophomore Assessment Jury; or permission of the Department. Students register in 419A for 1 hour; 419B for 2 hours; 419C for 3 or 4 hours. (1 to 4)

MUSI 420 : Private Instruction: Pedagogy - CX

Methods and materials for teaching specific instrumental media in the studio; special fee in addition to tuition. Students register in MUSI 420A for 1 hour and 420B for 2 hours. (1 or 2)

MUSI 421 : Functional Piano for the Professional Musician

Advanced development of piano and musicianship skills in a group piano setting, focusing on the necessary skills for choir direction, including vocal warm-ups, open score reading, sight-reading, hymn sight-reading, singing and playing, and accompanying. Prerequisite: MUSI 251, with a grade of C or better, and/or successful completion of the Keyboarding Proficiency Assessment. Required for Choral Music Education, Organ, and Piano majors, but open to students in all areas. (2)

MUSI 427 : Advanced Orchestration/Arranging - CX

Prerequisite: MUSI 325 and 326 or consent of instructor. May be repeated for additional credit. Private instruction; special fee in addition to tuition. Students are registered in 427A for 1 hour; 427B for 2 hours; 427C for 3 or 4 hours. (1 to 4)

MUSI 430 : Piano Literature I - CX

Study of representative piano repertoire from the 18th and early 19th Century. (2)

MUSI 431 : Piano Literature II - CX

Study of representative piano compositions of the late 19th and 20th Century. (2)

MUSI 445 : Conducting III

Refinement of patterns, gestures, and conducting techniques; application to appropriate vocal and instrumental scores. Prerequisite: MUSI 346. (1)

MUSI 451 : Piano Pedagogy I - CX

Teaching techniques for prospective teachers of piano, including techniques for individual and group instruction. Methods and materials will cover beginning to intermediate levels. Includes a practical teaching component. Required for piano majors, but open to all advanced pianists. (2)

MUSI 453 : Vocal Pedagogy - CX

Physiological, psychological, and pedagogical aspects of singing. (2)

MUSI 460 : Elementary Music Methods

A survey of materials and pedagogical approaches to teaching in the elementary music classroom. Prerequisite: MUSI 340. (3)

MUSI 461 : Band Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary band setting. Prerequisite: MUSI 340. (3)

MUSI 462 : Choral Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary choral setting. Prerequisite: MUSI 340. (3)

MUSI 463 : Orchestral Repertoire and Rehearsal

A survey of repertoire and rehearsal techniques for teaching in a secondary orchestral setting. Prerequisite: MUSI 340. (3)

MUSI 464 : Practicum in Music Education I

Music education students complete a minimum of 30 hours of field experience in local schools. Prerequisite: MUSI 340. Students enroll 2-3 semesters prior to student teaching.

MUSI 465 : Practicum in Music Education II (Pre-Student Teaching)

Music education students complete a minimum of 60 hours of field experience in a local school. Students enroll in the semester immediately preceding student teaching. Prerequisite: MUSI 340; 460; 461, 462, or 463 (depending on area of concentration); and 464. (1)

MUSI 469 : Student Teaching Seminar

Student teaching experiences shared and analyzed; exploration of related issues regarding entering the public school music teaching profession. Concurrent enrollment with EDUC 468 required. (2)

MUSI 487 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 488 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 489 : Special Topics in Music

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The

title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

MUSI 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: consent of instructor. May be repeated for additional credit. (1 to 4)

MUSI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

MUSI 499 : Capstone: Senior Project - SR

A culminating project of substantial proportions, presented in a public forum, undertaken in the senior year. For the Bachelor of Arts degree, the project integrates musical studies with a broader liberal arts context; for the Bachelor of Musical Arts degree, the project integrates musical studies with the cognate field; for Bachelor of Music Education and Bachelor of Music degrees, the project consists of a juried recital. Private instruction; special fee in addition to tuition. Students register first in 499A for 1 hour and then in the next term 499B for 2 to 4 hour option. Prerequisite: consent of instructor. (1 to 4)

NAIS 111 : Interconnections

A weekly meeting with program students and faculty to discuss progress, challenges, and the intersection of Indigenous approaches and the university experience. Students are encouraged to attend for no credit in subsequent semesters. Graded A/Pass/Fail. (1)

NAIS 112 : Interconnections

A weekly meeting with program students and faculty to discuss progress, challenges, and the intersection of Indigenous approaches and the university experience. Students are encouraged to attend for no credit in subsequent semesters. Graded A/Pass/Fail. (1)

NAIS 230 : Indigenous Creation Narratives of the Americas and their Resonance - IT, GE

Through encounters with a variety of creation narratives, literature, film, and visual art from native peoples of the Americas, students examine changing relationships with the land, the cosmos, and other living beings. (4)

NAIS 244 : Environmental Justice and Indigenous People - ES, GE

This course examines the struggle against environmental destruction as fundamental to Indigenous experiences, tracing its history as a central feature of settler colonialism in the United States and globally. It focuses on Indigenous responses and decolonial strategies, and on the sometimes rocky relationship between Indigenous people and environmentalist movements. Students read works by Indigenous historians, environmental scholars, and activists, while also addressing real world environmental colonialism in the local community. (4)

NAIS 250 : Introduction to Native American & Indigenous Studies - ES, GE

Introduces students to the scope, methodologies, and intellectual traditions of Native American and Indigenous Studies, focusing on such topics as Indigeneity, settler colonialism, sovereignty, resilience, and the intersectionality of Indigeneity with gender and sexuality. May include community-based service learning components. (4)

NAIS 286 : Sámi Film and the Indigenous North - IT, GE

By studying film, video, and television created by this Indigenous Arctic people, students will be introduced to the Sámi of northern Scandinavia and Russia, and will develop an understanding of Sámi culture, history, and worldviews as well as of contemporary issues concerning the Sámi and other Indigenous peoples and how film can express and address these issues. In English. (4)

NAIS 287 : Special Topics in Native American & Indigenous Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NAIS 288 : Special Topics in Native American & Indigenous Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NAIS 321 : Visual Sovereignty and Indigenous Film - IT, GE

Working with Indigenous and film studies theory, students will develop a familiarity with themes and trends in Indigenous film and related media, while also developing the critical tools and analytical skills necessary to analyze and discuss them and how they relate to broader issues of Indigeneity. (4)

NAIS 361 : Storied Survivance: Seminar on Indigenous Literatures - IT, GE

Stories have an immense importance for Indigenous people globally and that importance is reflected in the many Indigenous literatures that have emerged since Colonization. This seminar exposes students to Indigenous literature and critical approaches from around the world, helping them to understand why Indigenous literatures matter. (4)

NAIS 363 : Race and Indigeneity - ES, GE

This course examines ways that settler colonial ideologies of race have been developed and applied to Indigenous. Relying on critical readings on the intersection of race and Indigeneity in US and global contexts, this seminar equips students with important intellectual tools to understand the complexities of these intersections. (4)

NAIS 387 : Special Topics in Native American & Indigenous Studies

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NAIS 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

NAIS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

NSCI 287 : Special Topics in NSCI

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

NSCI 350 : STEM Education Partnership Program

This course introduces students to STEM teaching and provides opportunities for gaining teaching experience in a K-8 classroom. Teams of students will partner with K-8 teachers to co-develop and co-teach classroom lessons. Topics include Next Generation Science Standards and Common Core Standards in Mathematics, STEM-specific teaching strategies, issues of classroom equity and access, and designing assessments of STEM learning. Prerequisites: Consent of instructor and completion of one of the following with a grade of C- or above: BIOL 226 or CHEM 116 or CSCI 270 or GEOS 201 or MATH 152 or PHYS 154/164. (4)

NSCI 387 : Special Topics in NSCI

Selected topics as announced by the department. May be repeated for credit. (1 to 4)

NSCI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

NURS 110 : Success in Nursing

Affirming students' past experiences, this course assists pre-nursing students' successful navigation of the complex transition into Pacific Lutheran University. This course is designed to identify and overcome unforeseen barriers in adjusting to college academic and social life, to help students better understand the nursing field, and to give student an opportunity to create a community with fellow students. (1 credit, didactic)

NURS 120 : Nutrition in Healthcare

This course provides an introduction into the science of nutrition and the foundational concepts of diet and nutrition related to health across the lifespan within the context of healthcare professions. This course is open to students in any discipline and is a prerequisite to enter the nursing program. (1)

NURS 287 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 288 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 289 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

NURS 305 : Patho/Pharm I

This is the first course in a series of 3 that provide an integrated understanding of the human response to pathological conditions and the associated pharmacological principles of major drug classifications, therapeutic modalities, and alternatives to pharmacologic interventions of these conditions. (4)

NURS 306 : Foundations of Care Delivery & Health Promotion

Focuses on the core knowledge and competencies necessary to promote health and provide nursing care across the lifespan. (3)

NURS 307 : Health & Physical Assessment

Focuses on the core knowledge and competencies necessary to perform health and physical assessment across the lifespan. (3) (2 credits didactic, 1 credit lab)

NURS 308 : Clinical Practicum I

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (3)

NURS 309 : Professional Foundations & Principles of Leadership

Focuses on the core knowledge and competencies of nursing practice. (2)

NURS 310 : Scholarly Writing Concepts

Focuses on the basic rules of APA Style in writing term papers, research reports, and journal articles. (1)

NURS 311 : Patho/Pharm II

This is the second course in a series of 3 that provide an integrated understanding of the human response to pathological conditions and the associated pharmacological treatment modalities and alternatives to pharmacologic interventions of these conditions. (2)

NURS 314 : Care of Chronic Conditions

Focuses on the core knowledge necessary to apply the nursing process to care of the patients across the lifespan living with chronic conditions (3).

NURS 315 : Psych/Mental Health

Focuses on the core knowledge necessary to apply the nursing process to care of the patients across the lifespan experiencing mental health issues. (2)

NURS 316 : Clinical Practicum II

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (5)

NURS 317 : Theory & Evidence

Explores the philosophies, theories, and history of the science of nursing. (1)

NURS 318 : Research Methods

Focuses on the care knowledge of research required to assess research quality and its applicability to nursing practice. (2)

NURS 319 : Healthcare Technology

Examines current and emerging health care technologies in healthcare. (1)

NURS 387 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 388 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 389 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 401 : Care of Complex Conditions

Focuses on the core knowledge necessary to apply the nursing process to care of the patients across the lifespan with exacerbations of chronic and/or acute conditions in complex care situations. (3)

NURS 402 : Patho/Pharm III

This is the final course in a series of 3 that provide an integrated understanding of the human response to pathological

conditions and the associated pharmacological principles of major drug classifications, therapeutic modalities, and alternatives to pharmacologic interventions of these conditions. (2)

NURS 403 : Clinical Practicum III

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (5)

NURS 404 : Healthcare Diversity - GE

Focuses on core knowledge and competencies necessary to give culturally congruent care to people from diverse populations. Open to non-nursing students with instructor permission. (4)

NURS 405 : Informed Practice

Focuses on the core knowledge of research required to assess research quality and its applicability to nursing practice. (2)

NURS 406 : Continuity of Care

Focuses on the core knowledge necessary to apply the nursing process to ensure continuity of care across settings for individuals and populations. (3)

NURS 407 : Clinical Practicum IV

Focuses on the practical application of core knowledge and competencies across the lifespan. Includes simulation, lab, and clinical practicum. (6)

NURS 408 : Organizational & Economic Context of Care

Focuses on the core knowledge vocabulary, concepts in organizational behavior, financial management and strategy to plan, create, implement and monitor initiatives, and effectively communication within the healthcare environment. (2)

NURS 409 : Health Policy

Analysis of the social, political, legal, and economic factors that influence health care including trends in health policy and ethical issues relevant to health care delivery. Open to non-nursing students with permission of the instructor. (2)

NURS 420 : Introduction to Leadership and Resource Management in Nursing

Focuses on core knowledge and competencies related to beginning leadership and resource management skills. Prerequisites: NURS 360, 370, 380, achievement of Senior I status. (4) (4 credits didactic)

NURS 460 : Health Care Systems and Policy

Analysis of the social, political, legal, and economic factors that influence health care including trends in health policy and ethical issues relevant to health care delivery. Open to non-nursing students with permission of the instructor. Prerequisites for majors: NURS 260, Senior II status. (2) (2 credits didactic)

NURS 483 : Transition to Practice

Transition and socialization into the BSN prepared Registered Nurse role is explored. Role transition includes the BSN's professional practice, certification, and licensure requirements. (1)

NURS 487 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 488 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The

title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 489 : Special Topics in Nursing

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

NURS 490 : NCLEX Synthesis

Course content will reinforce critical thinking in test taking, the nursing process, and the client needs categories of the NCLEX-RN® test plan. Utilize test taking strategies to determine item responses and rationale. Explore complex case studies and simulation situations to enhance the ability to delegate and prioritize nursing practice. (2)

NURS 491 : Independent Study

Prerequisite: permission of the dean. (1 to 4)

NURS 498 : Capstone Seminar - SR

Focuses on the practical application of nursing knowledge by synthesizing core knowledge, competencies, professional values, and leadership skills in nursing situations as evidenced by completion of a scholarly project. (2)

NURS 523 : Roles of the Advanced Nurse

Facilitates the development and transition into the advanced nursing roles through analysis of ethical, professional, social and practice perspectives. (2) (2 credits didactic)

NURS 524 : Advanced Health Promotion

Identification of health risks and protective strategies for diverse populations. (2) (2 credits didactic)

NURS 525 : Theoretical Foundations

Preparation for critique, evaluation, and use of a range of relevant theories that provide guiding perspectives for the provision of client-centered, clinically measurable advanced nursing practice. (3) (3 credits didactic)

NURS 526 : Nursing Leadership and Management

Introduction to policy, organization, and financing of health care. Preparation for provision of quality cost-effective care, participation in the design and implementation of care, and assumption of the leadership role in managing resources. (3) (3 credits didactic)

NURS 527 : Evaluation and Outcomes Research

Preparation for the critique and use of new knowledge to provide, change, and evaluate advanced nursing practice focused on client-centered, clinically demonstrable care. (3) (3 credits didactic)

NURS 530 : Resource Management

Management of resources in the planning, coordination, and/or delivery of health care with an outcome perspective at the system level. Financial and human resources and systems management will be examined from a quality perspective. (3) (3 credits didactic)

NURS 531 : Clinical Outcomes Management I

Direct and/or indirect care given in a defined specialty setting with focus on evaluation and outcomes. Includes clinical practicum of 120 hours. Prerequisite: NURS 523. (3) (1 credit didactic, 2 credits clinical)

NURS 532 : Clinical Outcomes Management II

Direct care or indirect clinical management, supervision, or education to achieve client goals by implementing approaches,

interventions, outcomes, and evaluation method. Includes clinical of 240 hours. Prerequisite: NURS 538 (or as a corequisite). (6) (2 credits didactic, 4 credits clinical)

NURS 534 : Informatics in Nursing and Healthcare

Develop an understanding of clinical and administrative information systems in the healthcare field. The focus will be on collaborating to design and utilize information systems to make better decisions to improve patient health and organizational performance. (2) (2 credits didactic)

NURS 538 : Program Development

Integrates theoretical models, clinical parameters, and program planning principles through the construction of a detailed program for care and outcomes management education track. (3) (3 credits didactic)

NURS 540 : Illness and Disease Management

Builds on the foundations of pathophysiology, pharmacology, and health assessment and focuses on the attainment of positive clinical outcomes for a cohort or population. Includes clinical practicum of 30 hours. (2) (1.5 credits didactic, 0.5 credits clinical)

NURS 541 : Advanced Health Assessment and Health Promotion

Development and performance of the skills needed for advanced health assessment of individuals, families, or communities throughout the lifespan. Prerequisites: Basic health assessment skills. (3) (2 credits didactic and 1 credit lab)

NURS 542 : Advanced Pathophysiology and Pharmacology for Nursing Practice

Integrates principles of advanced pathophysiology as the basis for nursing symptom assessment and management of disease processes. (2) (2 credits didactic)

NURS 544 : Advanced Nursing Management of Illness and Disease

Builds on the foundations of pathophysiology, pharmacology, and health assessment and focuses on the attainment of positive clinical outcomes for a cohort or population. Includes clinical practicum of 30 hours. (4) (2 credits didactic, 2 credits clinical)

NURS 550 : Curriculum, Instruction, and Evaluation

Examination of the theory and practice of curriculum planning, development, implementation, and evaluation. Theoretical and philosophical principles of the teaching/learning process. Analysis of adult teaching strategies and the process of self and student evaluations. (3) (3 credits didactic)

NURS 562 : Primary Care Management of Women and Children

This course covers common problems unique to women and children including pregnancy, postpartum care, gynecological conditions, perimenopausal, menopausal care, well child & adolescent care, preventive care, and common behavioral and developmental problems in children & adolescents (developmental delay, learning disabilities, autism, school issues, etc.), and cultural variations in parenting. Family and role transitions across the lifespan are explored. Includes clinical practicum of 120 hours. Prerequisite: NURS 584, NURS 585. (4) (2 credits didactic, 2 credits clinical)

NURS 563 : Primary Care Procedures

Provide the family nurse practitioner student with a range of office-based skills including the ability to understand, manage, and perform common primary care procedures. Prerequisite: NURS 582. (1 credit lab) (1)

NURS 585 : Family Nurse Practitioner II

Application of theory and research in the management of increasingly complex health problems across the lifespan. Demonstration of diagnostic reasoning for a wide range of acute and chronic conditions. Seminar and clinical. Includes clinical practicum of 195 hours. Prerequisite: NURS 584. (5) (2 credits didactic, 3 credits clinical)

NURS 587 : Special Topics in Nursing

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

NURS 591 : Independent Study

Opportunities for advanced study in selected topic related to student's area of interest. Consent of dean required. (1 to 4)

NURS 594 : Family Nurse Practitioner Clinical Capstone

This clinical course and seminar are designed as the culminating clinical course in the Family Nurse Practitioner program. Students will demonstrate the ability to provide novice-level primary care to chronic, complex patients with multiple co-morbidities. Professional practice issues are included. Students will develop an individual learning plan for clinical practicum that includes identifying gaps in Family Nurse Practitioner competencies. This course includes 120 clinical hours. Prerequisite: NURS 582, 584, 585, N561 (MH), N562 WH/Peds. (3) (1 credit didactic, 2 credits clinical)

NURS 595 : Internship

To permit graduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. Repeatable for credit. (1 to 12)

NURS 596 : Scholarly Inquiry in Nursing Practice

Development and submission of professional paper or project related to one's area of specialization based on an evaluation and outcomes model. Cross-listed with NURS 599. (2) (2 credits didactic)

NURS 599 : Thesis

Faculty-guided application of the research process. May involve replication of previous study, secondary analysis of research data, an evaluation project, or an original investigation. Prerequisites: Completion of core courses, approval by School of Nursing. Minimum program requirement is four credits. Once enrolled, must continue to enroll for at least one credit each semester of the academic year until thesis is completed. Capstone course. Course may be taken more than once; this is a four-credit course; if repeated, credits may vary. (1 to 4) (1 to 4 credits didactic)

NURS 627 : Policy and Politics: Implications for Health Care

Principles of policy and the influence of the political process as a systematic approach to health care in the United States and internationally. The interdependence of policy and practice will be evaluated, with a focus on the challenges of engaging and influencing health policy locally, nationally and globally. Students will analyze the ethical, legal, economic, and sociocultural factors influencing policy development. Health policy frameworks are analyzed from governmental, organizational, and clinical practice perspectives. (3) (3 credits didactic)

NURS 631 : Translating Research: Improving Practice and Outcomes

Students will develop strategies for translating research findings into sustainable improvements in patient and clinical outcomes for a diverse population. The use of information technology and inter-professional collaboration will be emphasized. Models used to guide the process of implementing and evaluating evidence-based practice change will be examined. (3) (3 credits didactic)

NURS 640 : ENP Procedures

Provides the Emergency Nurse Practitioner student with a range of diagnostic and interventional skills used in urgent care and emergency settings; including, the ability to understand, manage, and safely perform these procedures. (2) (2 credits lab/seminar)

NURS 641 : ENP I: Lifespan Emergency Care

This course covers the skills of assessment, interpretation of diagnostic studies, interventions, and treatments unique to the Emergency Clinician Specialist (ECS). Students are taught the skills of assessment, interpretation of diagnostic studies, interventions, and treatments unique to the ECS at an advanced level, thereby enhancing clinical decision making for urgent/emergent illness and injury across the lifespan. (4) (2 seminar, 2 clinical - 120 hours)

NURS 642 : ENP II: Trauma & Critical Illness

Building upon prior clinical ENP experiences, this course teaches the student how to care for patients of the highest acuity levels. Topics of pre-hospital care, initiation of care to the trauma and critically ill patient, and transport of patients to a higher level of care. (4) (2 didactic, 2 lab simulation)

NURS 643 : ENP III: Immersion & Seminar

This is the final specialized clinical and seminar course facilitating application of previously learned concepts and skills, demonstration of ENP competency achievement, and assimilation into the ENP role. The culmination of the ENP education and transition into the ENP role is also covered. (4) (1 seminar, 3 clinical - 180 hours)

NURS 651 : Psychopharmacology Across the Lifespan

Focuses on the principles of psychiatric pharmacotherapy across the lifespan, biological mechanisms of action of psychotropic drugs, and the role of the advanced practice psychiatric nurse prescriber. The neurobiological underpinnings of symptom etiology and treatment will form the basis of clinical decision-making in all phases of psychopharmacological treatment for child/adolescent, adult, and geriatric populations. Prerequisite: NURS 731. (3)

NURS 652 : Management of Substance-related and Addictive Disorders

Provides an integrated approach to the neurobiology, assessment, diagnosis, and clinical management of substance-related and addictive disorders across the lifespan. Prerequisite: approval of course faculty. (2)

NURS 653 : PMHNP I: Psychopathology, Assessment, Diagnosis and Management Across the Lifespan

Provides an integrated approach to the assessment, diagnosis, and clinical management of psychopathology across the lifespan. An in-depth exploration of the neurobiological underpinnings of mental health problems and psychiatric disorders will serve as the framework of the course. Students will apply principles of neurodevelopment to the assessment, diagnosis, and treatment of individuals across the lifespan with anxiety disorders; depressive disorders; obsessive-compulsive and related disorders; bipolar and related disorders; sleep-wake disorders; feeding and eating disorders; elimination disorders; and trauma - and stressor-related disorders. The role and scope of advanced psychiatric nursing practice including foundational legal and ethical issues are incorporated throughout the course. Prerequisites: NURS 730, 732. Corequisite: NURS 651 (7) (Didactic 3.5 credits, lab/seminar 0.5 credits, clinical 3 credits) (180 hours clinical)

NURS 654 : PMHNP II: Psychopathology, Assessment, Diagnosis and Management Across the Lifespan

Provides an integrated approach to the assessment, diagnosis, and clinical management of complex psychopathology across the lifespan. Students will apply concepts covered in PMHNP I to the assessment, diagnosis and treatment of individuals across the lifespan with schizophrenia spectrum and other psychotic disorders; neurocognitive disorders; disruptive, impulse control and conduct disorders; personality disorders; dissociative disorders; somatic symptoms and related disorders; and sexual, gender, and paraphilic disorders. The role and scope of advanced psychiatric nursing practice is expanded from what is covered in PMHNP I to include forensic mental health care. Prerequisite: NURS 653. (7) (Didactic 3 credits, lab/seminar 1 credit, clinical 3 credits) (180 hours clinical)

NURS 655 : PMHNP III: Psychotherapies Across the Lifespan

Examines methods and major conceptual frameworks of group and family psychotherapy. Group dynamics, systems theory and group therapy models will be applied to the treatment of psychiatric disorders in a variety of settings. An overview and critical analysis of family theories and conceptual models will inform psychotherapy with children, adolescents, adults, elders, and their families. Prerequisite: NURS 654. (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits) (120 hours clinical)

NURS 656 : PMHNP IV: Psychotherapies Across the Lifespan

An overview of the major schools of personality theory, psychological development, and derived individual psychotherapy treatment modalities, to better understand the dynamics of the patient and the therapeutic 1:1 relationship. Students will engage in the therapy process with individuals across the lifespan by implementing selected psychotherapeutic techniques. Prerequisite: NURS 655. (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits) (120 hours clinical)

NURS 657 : PMHNP Capstone

In this culminating clinical course students will demonstrate increased competency and accountability in the provision of comprehensive psychiatric-mental health care. Students will gain expertise by working with an identified population of choice and implementing selected psychotherapeutic and pharmacological interventions. Students will develop an individual learning plan to address any gaps in the attainment of required Psychiatric Mental Health Nurse Practitioner competencies. Professional practice issues including contract negotiation and requirements for certification and licensure are included. Prerequisite: NURS 656. (4) (Seminar 1 credit, clinical 3 credits) (180 hours clinical)

NURS 681 : D.N.P. Scholarly Proposal Seminar: Planning

Development, planning and refinement of student's D.N.P. scholarly proposal. A D.N.P. scholarly project must evaluate outcomes of practice, practice patterns, policies and/or systems of care within a practice setting, health care organization, or community. Students will complete 30 clinical hours related to project planning. Prerequisites: NURS 630, 631. (2) [1.5 didactic and 0.5 clinical]

NURS 682 : D.N.P. Scholarly Project: Implementation I

Collaboration with key stakeholders to implement student's evidence-based D.N.P. project. Students will incorporate change theory and other relevant theories to guide implementation and overcome anticipated and emerging barriers. Students will complete 120 clinical hours related to project implementation. Prerequisite: NURS 683. (3) [1 credit didactic and 2 credits clinical]

NURS 683 : D.N.P. Scholarly Project: Implementation II

D.N.P. students will complete the implementation phase of their scholarly project. Seminar is dedicated to review and critique of the implementation process and proposed evaluation strategy. Students will complete 30 clinical hours related to project completion. (2) [1.5 seminar and 0.5 clinical]

NURS 687 : Special Topics in Nursing

To provide graduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Selected advanced topics. (1 to 4)

NURS 691 : Independent Study

Opportunities for advanced study in selected topic related to student's area of interest. Consent of the Dean required. (1-4)

NURS 695 : Transition to D.N.P. Practice

Transition and socialization into the Doctorate of Nursing Practice role, to include the D.N.P.'s professional responsibility and accountability for social justice locally and globally. The D.N.P. scholarship portfolio will be completed and evaluated. The portfolio will include reflection on evidence that demonstrates the student is a clinical scholar and documents competency in all domains of D.N.P. practice as outlined in the American Association of Colleges of Nursing (AACN) Essentials of Doctoral Education for Advanced Nursing Practice and the D.N.P. Core Competencies by the National Association of Nurse Practitioner Faculties (NONPF). Prerequisites or corequisites: Taken concurrently with NURS 684 and NURS 699, all other DNP coursework must be completed. Prerequisites: NURS 623, 625, 627, 630, 631, 681, 683. Corequisites: NURS 684, 699. (1) (1 credit didactic)

NURS 699 : D.N.P. Scholarly Project: Capstone

Development and submission of a manuscript related to the D.N.P. Scholarly Project for publication in a peer-reviewed, professional journal or other approved scholarly venue. The course includes an intensive, systematic approach to the publication process. Capstone course. Prerequisites: NURS 681, 682, and 683. Corequisite: NURS 684. (2) (2 credits didactic)

NURS 700 : Advanced Practice Roles

This course is designed to provide the student a foundational understanding of the roles of the DNP prepared Advanced Practice Nurse and educator within healthcare. The student will explore advanced practice nursing roles through the analysis of ethical, professional, social and practice perspectives. (2)

NURS 701 : Theoretical Foundations and Evidence Based Practice

This course is designed to advance student understanding of the foundational nursing, scientific and theoretical underpinnings of advanced practice. Students in this course will explore, critique, integrate, and apply relevant theories from nursing and other disciplines. These theories provide guiding perspectives for the provision of evidence based, patient-centered, clinically measurable healthcare outcomes. (3)

NURS 702 : Information Systems and Patient Care Technology

This course is designed to provide the student with the knowledge and skills regarding the uses of information technology to support evidence-based nursing practice. The course focuses on the development of knowledge and technical skills to use data management systems and technological resources for decision-making, implementation of quality improvement initiatives, and evaluation of patient care technologies. The course includes use of systems analysis, decision theory, consumer use of informatics for health care information, and consideration of ethical, regulatory, and legal issues. (3)

NURS 703 : Organizational and Systems Leadership

This course is designed to provide the student with organizational and systems leadership knowledge. This course explores leadership and organizational structure, models, and principles within the context of healthcare delivery models and organizational, political, cultural, and economic policies and sustainability. Designed to prepare the student for provision of quality cost-effective care, participation in the design and implementation of care, assumption of the leadership role, and managing resources within a healthcare organizational setting. (3)

NURS 704 : Policy and Politics: Implications for Health Care

This course focuses on the principles of policy and the influence of the political process as a systematic approach to health care in the United States and internationally. The interdependence of policy and practice will be evaluated, with a focus on the challenges of engaging and influencing health policy locally, nationally and globally. Students will analyze the ethical, legal, economic, and sociocultural factors influencing policy development. Health policy frameworks are analyzed from governmental, organizational, and clinical practice perspectives. (3)

NURS 705 : Clinical Resource Management

This course builds upon the resource management concepts first explored in Leadership and develops foundational financial cost and budgeting concepts necessary to enact an advance clinical practice role, including awareness of reimbursement and population health initiatives. (3)

NURS 712 : Trauma Informed Care

This course is designed to provide care providers an understanding of trauma informed care. (3)

NURS 720 : Analytical Methods (Research I)

Students will develop and demonstrate skills in the use of analytical methods required to distinguish research design and analytical methods (qualitative, quantitative, mixed) and quality improvement, and critique and evaluate validity and applicability or research to guide evidence based practice. Student locate, critically evaluate and synthesize evidence from research studies that support the improvement of outcomes in diverse populations. Students will identify practice questions and determine the appropriate method(s) to design and evaluate outcomes. Pre- or corequisite: NURS 721. (3)

NURS 721 : Epidemiology and Biostatistics

This course develops the student's ability to analyze epidemiological, biostatistical, occupational, and environmental data in the development, implementation and evaluation of clinical prevention and population health. Students will analyze epidemiological, biostatistical, environmental, and other appropriate data related to infectious diseases, emergency/disaster, and individual, aggregate, and population health as it relates to local, regional, national, and international goals of improving global health. (3)

NURS 730 : Advanced Pathophysiology

This course is designed for the advanced practice student and focuses on normal physiologic and pathologic mechanisms of disease. It provides primary components of the foundation for clinical assessment, decision-making and management of patients across the lifespan. (3)

NURS 731 : Advanced Pharmacotherapeutics

This course prepares the advanced practice student for prescriptive authority and focuses on the pharmacokinetic basis for and pharmacotherapeutic management of simple and complex disease processes. Includes ethical, legal, and procedural aspects of prescriptive authority. Pre- or Corequisite: NURS 730. (3)

NURS 732 : Advanced Physical Assessment

Development and performance of the skills needed for advanced health assessment of individuals, families, or communities throughout the lifespan. Prerequisite: Basic health assessment skills. (4) (Didactic 2 credits, lab/seminar 2 credits)

NURS 733 : Advanced Health Promotion

This course is designed to focus on identification of health risks and protective strategies for diverse populations as an advanced practice nurse and clinician. (2)

NURS 734 : Evaluation and Outcomes (Research II)

This course prepares the student with the knowledge and skills to measure and assess the impact of interventions on healthcare. Students explore the development and use of relevant outcome measures to evaluate research, quality improvement, and programs in order to inform and use new knowledge to provide, change, and evaluate delivery of healthcare initiatives focused on client-centered, clinically demonstrable care. Prerequisite: NURS 720. (3)

NURS 750 : Primary Care Essentials for Psychiatric-Mental Health Nurse Practitioners

Provides the PMHNP DNP student knowledge and skills to assist in the primary care management of co-morbid medical conditions commonly occurring in patients with psychiatric-mental health disorders. This course builds on the foundations of advanced pathophysiology, advanced clinical pharmacotherapeutics, and advanced health assessment and focuses on the attainment of positive clinical outcomes for the major chronic illnesses of diabetes, chronic obstructive pulmonary disease, asthma, hypothyroidism, and congestive heart failure. (2)

NURS 770 : Primary Care Procedures and Diagnostics

Provide the family nurse practitioner student with a range of office-based skills including the ability to understand, manage and perform common primary care procedures. (3) (Didactic 1 credit, lab/seminar 2 credits)

NURS 771 : Psych for Primary Care

This course is designed to provide foundational knowledge and skills to facilitate recognition and management of mental health conditions in the primary care setting. Focuses on the evaluation and management of common mental health issues in primary care including mood disorders, anxiety, ADHD, substance use/abuse, suicidal intent, self-injurious behavior, etc. Assessment tools, primary care management and criteria for referral to be included. (2)

NURS 772 : FNP I: Diagnosis and Management of Common Episodic and/or Stable Chronic Illnesses

This course is the first of four courses designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits)

NURS 773 : FNP II: Diagnosis and Management of Acute and Complex Health Problems

This course is the second of four designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. Prerequisite: NURS 772 (5) (Didactic 2 credits, lab/seminar 1 credit, clinical 2 credits)

NURS 774 : Women and Children in Primary Care

This course covers common problems unique to women and children (pregnancy, postpartum care, gynecological conditions, perimenopausal, menopausal care, well-child, adolescent care, preventive care), common behavioral and developmental problems in children & adolescents (developmental delay, learning disabilities, autism, school issues, etc.), and cultural

variations in parenting. Family and role transitions across the lifespan are explored. Prerequisite: NURS 772, 773. (4) (Didactic 2 credits, clinical 2 credits)

NURS 775 : FNP III: Diagnosis and Management of Chronic and Complex Health Problems

This course is the third of four courses designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. Prerequisite: NURS 773. (5) (Didactic 3 credits, clinical 2 credits)

NURS 776 : FNP IV: Diagnosis and Management of Complex Comorbid Patients

This course is the fourth of four courses designed to teach the application of theory and research, diagnostic reasoning related to health care conditions, and the management of health problems across the lifespan. It is designed as the culminating clinical course in the Family Nurse Practitioner program. Students will demonstrate the ability to provide novice-level primary care to chronic, complex patients with multiple co-morbidities. Prerequisite: NURS 774, 775. (4) (seminar 2 credits, clinical 2 credits)

NURS 790 : Translating Research (Research III)

This course is designed to build upon previous courses and provide students a structured environment to begin the DNP project proposal. Students will develop strategies for translating research findings into sustainable improvements in patient and clinical outcomes for a diverse population. The use of information technology and interprofessional collaboration will be emphasized. Models used to guide the process of implementing and evaluating evidence based practice change will be examined. This course runs concurrently with DNP Scholarly Project I which serves to inform the translational research project proposal developed within this course. (3)

NURS 791 : Proposal Seminar

This is the proposal planning course for the DNP Scholarly Project series. This course is taken in conjunction with Translating Research (790). Students will identify their practice area and location. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. (1) (Didactic 0.5 credits, clinical 0.5 credits)

NURS 792 : DNP Scholarly Project I

This is the first course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. Prerequisite: NURS 791. (2) (Didactic 0.5 credits, clinical 1.5 credits)

NURS 793 : DNP Scholarly Project II

This is the second course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. Prerequisite: NURS 792. (2) (Didactic 0.5 credits, clinical 1.5 credits)

NURS 794 : DNP Scholarly Project III

This is the third course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. Prerequisite: NURS 793. (2) (Didactic 0.5 credits, clinical 1.5 credits)

NURS 795 : Transition to DNP Practice

Transition and socialization into the Doctorate of Nursing Practice (DNP) role is explored. Role transition includes the DNP's professional responsibility and accountability for advancing professional nursing practice. The DNP scholarship portfolio will be completed and evaluated. The portfolio will include reflection on evidence that demonstrates the student is a clinical scholar and documents competency in all domains of DNP practice as outlined in the American Association of Colleges of Nursing (AACN) Essentials of Doctoral education for Advanced Nurse Practice, the DNP Core Competencies by the National Association of Nurse Practitioner Faculties (NONPF) and PLU School of Nursing Doctoral Program Outcomes. Prerequisite: All other DNP coursework. Taken concurrently with NURS 775 and 799 for FNP students. Taken concurrently with NURS 657 and 799 for PMHNP students. (1)

NURS 799 : DNP Scholarly Project IV

This is the final course in the DNP Scholarly Project series. Throughout this sequence the DNP Student will plan, implement, evaluate, and disseminate the results of a DNP Scholarly Project. A primary focus of this class will be dissemination of results including final scholarly paper, presentation of results to community organization, and creation of a manuscript for submission for publication in a peer-reviewed professional journal. Prerequisite: NURS 794. (3) (Didactic 1 credit, clinical 2 credits)

PHIL 121 : The Examined Life - VW

Introduces philosophy by considering perennial topics and issues, such as what makes an action right or wrong and whether belief in God is reasonable. Includes a focus on developing skills in critical and systematic thinking. (4)

PHIL 125 : Ethics and the Good Life - VW

Major moral theories of Western civilization, including contemporary moral theories. Critical application to selected moral issues. (4)

PHIL 128 : Politics and the Good Society - VW

An examination of major political theories in the Western philosophical tradition, with a focus on questions regarding the nature of just political institutions. Can count toward a minor in Politics and Government. (4)

PHIL 220 : Philosophy and Gender - VW

An examination of past and present conceptions and critiques of the nature and status of men/masculinity and women/femininity, with an additional focus on the historical and contemporary relationship between sex/gender and the discipline of philosophy. (4)

PHIL 223 : Bioethics - VW

An inquiry into the ethical issues surrounding birth, health, and death. Specific topics may include the ethics of conception and genetic manipulation, domestic and international health care policy, abortion, and euthanasia, as well as the nature of human flourishing. (4)

PHIL 225 : Business Ethics - VW

An inquiry into the ethics of the marketplace and the activities that take place within its context. Specific topics may include the ethics of anticompetitive practices, corporate subsidies and bailouts, pollution, exploitation, and fraud as they related to specific industries. Pass/fail options do not apply to business majors either declared or intending to declare. (4)

PHIL 226 : Environmental Ethics - VW

Apply ethical theories to determine what we should do in the face of environmental issues and dilemmas such as whether and why animals have rights, what kind of value nature possesses, the proper focus of an environmental ethic, and what ecology has to do with economics and justice. (4)

PHIL 227 : Philosophy and Race - VW

An examination of philosophical assumptions behind concepts of race. Beginning with the question "what is race?" the course addresses the notion of racial identities, metaphysical issues surrounding racial designations, and the ethical/political effects of such questions. (4)

PHIL 229 : Human Rights - VW

This course examines historical development of philosophical notions associated with "rights-based" language in domestic and international political life, and how these concepts are essential to understand the emergency and dominant discourse of human rights post 1948. (4)

PHIL 231 : Ancient Philosophy - VW

The development of philosophical thought and methods from the Pre-Socratic period to the end of the fourth century CE. Emphasis on Plato and Aristotle. (4)

PHIL 238 : Existentialism and the Meaning of Life - VW

An introduction to the philosophical movement known as Existentialism. The course will explore themes central to human experience (such as alienation, guilt, suffering, joy and boredom), with a goal of asking how existentialism engages these ideas relative to the question of human meaning. As an introductory course we will survey specifically the major thinkers of this tradition and illustrate how existentialism connects to other areas such as religion, psychology and literature. (4)

PHIL 248 : Innovation, Ethics, & Society - ES

A history of innovation, problem solving, and creativity in the global economy, emphasizing the ethical considerations that arise as a result of new products and initiatives, disruptive technologies, globalization, and cultural change. Draws attention to stages in the innovation process and the importance of teamwork, effective communication, and design. (4)

PHIL 287 : Special Topics in Philosophy

Explores an area of contemporary interest through the lens of philosophical inquiry. Acquaints students with the questions, methods, and skills of philosophy. May be repeated once for credit. (4)

PHIL 288 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 289 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 291 : Directed Studies

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

PHIL 311 : Topics in Ethics - VW

Examination of an ethical issue or question in light of one or more of the major currents in Western ethical philosophy. May be repeated for credit once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 312 : Topics in Philosophy and Politics - VW

Examinations of a political issue or question in the light of one or more of the major political theories in the Western philosophical tradition. May be repeated for credit once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 313 : Topics in Philosophy, Science, and Religion - VW

Exploration of selected topics in philosophy of science, philosophy of religion, or the relationship between science and religion. May be repeated once for credit, once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 314 : Topics in the History of Philosophy - VW

Study of selected topics or historical figures in the history of philosophy. May be repeated for credit once with a different topic. Prerequisite: sophomore standing. (4)

PHIL 327 : Environmental Philosophy - VW

Examines concepts such as wilderness, nature/natural, and consciousness. This examination leads to consideration of issues such as resource distribution and consumption, obligations to future generations and other than human life. Specifically the preservation of endangered species, animal experimentation, farming, resource consumption, pollution, and population growth will be addressed. Prerequisite: sophomore standing. (4)

PHIL 387 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 388 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 389 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 487 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 488 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 489 : Special Topics in Philosophy

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHIL 491 : Independent Reading and Research

Prerequisite: Departmental consent. (1 to 4)

PHIL 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

PHIL 499 : Capstone: Advanced Seminar in Philosophy - SR

Exploration in a seminar format of an important philosophical issue, thinker, or movement. Topic to be announced at the time course is offered. Prerequisite: Three philosophy courses or consent of instructor. May be repeated once for credit. (4)

PHYS 110 : Astronomy - NW

Stars and their evolution, galaxies and larger structures, cosmology, and the solar system. Emphasis on observational evidence. Evening observing sessions. Prerequisite: MATH 115 or equivalent by math placement exam. (4)

PHYS 125 : College Physics I - NW

An introduction to the fundamental topics of physics. It is a non-calculus sequence, involving only the use of trigonometry and college algebra. Prerequisites: MATH 128 or MATH 140 (or equivalent by placement exam) with a C- or higher. Prerequisite or corequisite: PHYS 135. (4)

PHYS 126 : College Physics II - NW

An introduction to fundamental topics of physics. It is a non-calculus sequence, involving only the use of trigonometry and college algebra. Prerequisite: PHYS 125 with a C- or higher. Prerequisite or corequisite: PHYS 136.(4)

PHYS 135 : College Physics I Laboratory

Basic laboratory experiments are performed in conjunction with the College Physics sequence. Concurrent registration in PHYS 125 is required. (1)

PHYS 136 : College Physics II Laboratory

Basic laboratory experiments are performed in conjunction with the College Physics sequence. Concurrent registration in PHYS 126 is required. (1)

PHYS 153 : General Physics I - NW

A calculus-level survey of the general fields of physics, including classical mechanics, wave motion, and thermodynamics. Concurrent registration in (or previous completion of) MATH 152 is strongly recommended. Prerequisite: MATH 151 with a C- or higher. Prerequisite or corequisite: PHYS 163. (4)

PHYS 154 : General Physics II - NW

A calculus-level survey of the general fields of physics, including electricity and magnetism, and optics. Prerequisites: MATH 152 with a C- or higher, PHYS 153 with a C- or higher. Prerequisite or corequisite: PHYS 164. (4)

PHYS 163 : General Physics I Laboratory

Basic laboratory experiments are performed in conjunction with the General Physics sequence. Concurrent registration in PHYS 153 is required. (1)

PHYS 164 : General Physics II Laboratory

Basic laboratory experiments are performed in conjunction with the General Physics sequence. Concurrent registration in PHYS 154 is required. (1)

PHYS 221 : Waves and Fluids

A systematic introduction to waves and fluids under the unifying theme of physics of continuous systems. The course covers harmonic oscillations and waves in their most common physical realizations: mechanical, electromagnetic, and quantum. It discusses the statics and dynamics of ideal and viscous fluids, and some topics from nonlinear dynamics. Prerequisites: PHYS 153, 154 with a C- or higher (or permission of instructor), MATH 151, 152 with C- or higher. Prerequisite or corequisite: MATH 253. (4)

PHYS 223 : Elementary Modern Physics

A selected treatment of various physical phenomena that are inadequately described by classical methods of physics. Interpretations that have been developed for these phenomena since approximately 1900 are presented at an elementary level. Prerequisites: PHYS 154 with a C- or higher and MATH 253 with a C- or higher. (4)

PHYS 287 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 288 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 289 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

PHYS 310 : Methods of Experimental Physics

A selected treatment of laboratory techniques; including, experimental design, error analysis, and communication of scientific results. Laboratory topics include circuits, electricity and magnetism, optics, and modern physics. Prerequisite: PHYS 154 with a C- or higher. (4)

PHYS 331 : Electromagnetic Theory

Electrostatics, dipole fields, fields in dielectric materials, electromagnetic induction, and magnetic properties of matter, in conjunction with the development of Maxwell's equations. Prerequisites: PHYS 153, 154 with a C- or higher, and MATH 253 with a C- or higher. (4)

PHYS 332 : Electromagnetic Waves and Physical Optics

Proceeding from Maxwell's equations, the generation and propagation of electromagnetic waves is developed with particular emphasis on their application to physical optics. Prerequisite: PHYS 331 with a C- or higher. (4)

PHYS 336 : Classical Mechanics

Applications of differential equations to particle dynamics; rigid body dynamics; including the inertia tensor and Euler's equations; calculus of variations; Lagrange's equations and the Hamiltonian formulation of mechanics; symmetries and conservation laws. Prerequisites: PHYS 154 with a C- or higher and MATH 253 with a C- or higher. (4)

PHYS 354 : Mathematical Physics

Ordinary differential equations, Laplace transforms, functions of a complex variable, and contour integration are developed in the context of examples from the fields of electromagnetism, waves, transport, vibrations, and mechanics. Prerequisites: MATH 253 with a C- or higher. Prerequisite or corequisite: PHYS 154 or permission of the instructor. (4)

PHYS 387 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 388 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 389 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 401 : Introduction to Quantum Mechanics

The ideas and techniques of quantum mechanics are developed. Prerequisites: PHYS 223 with a C- or higher. Prerequisite or Corequisite: PHYS 354 or MATH 351 with a C- or higher, or permission of the instructor. (4)

PHYS 487 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 488 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 489 : Special Topics in Physics

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PHYS 491 : Independent Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

PHYS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

PHYS 499A : Capstone: Senior Seminar I - SR

Professional development, exploring career paths, case studies in ethics, literature review, experimental design, and the research process. With 499B meets the senior seminar/project requirement. Prerequisites: PHYS 223 with a C- or higher; two upper-division courses in physics, one of which may be taken concurrently with 499A. (1)

PHYS 499B : Capstone: Senior Seminar II - SR

Continuation of PHYS 499A with emphasis on design and implementation of a project under the guidance of the physics staff. With PHYS 499A meets the senior seminar/project requirement. Prerequisite: PHYS 499A with a C- or higher. (1)

PLUS 100 : Transitions to PLU

Specifically designed for first-year students. Affirming students' past experiences, this course assists an individual student's successful navigation of the complex transition to Pacific Lutheran University. This course is designed to identify and overcome unforeseen barriers in adjusting to college academic and social life. Course topics include increasing hope, understanding vocation, appreciating liberal arts, developing metacognition, maximizing campus resources, creating an academic plan, and learning professional communication skills. (1)

PLUS 110 : College Learning Strategies

Effective strategies for college learning. Emphasizes a metacognitive and self-regulated approach to deep learning through reading, note taking, test preparation and test taking strategies. Coursework supplemented by two individual academic counseling appointments. (1)

PLUS 115 : Career and Educational Planning: Finding Your Way

Personal decision-making process applied to career and educational choices, self-assessment, exploration of the world of work, educational planning, reality testing, and building career-related experience. Includes zero-hour required discussion section for required supplemental workshops. (1)

PLUS 287 : Special Topics in PLU Success

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PLUS 288 : Special Topics in PLU Success

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PLUS 320 : Effective Tutoring Methods

Typically offered during Summer Session II, this course is designed to train peer tutors in the application of learning theory to one-on-one and group tutoring situations. The online course will be followed by an on-site practical workshop at the beginning of the semester. Enrollment with instructor's permission. (0-1)

PLUS 387 : Special Topics in PLU Success

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

POLS 151 : American Government - ES

A survey of the constitutional foundations of the American political system and of institutions, processes, and practices relating to participation, decision-making, and public policy in American national government. (4)

POLS 231 : Current International Issues - ES, GE

A survey course in international relations with emphasis on current events. (4)

POLS 251 : Introduction to Political Science

This course is designed for political science majors and is an introduction to the discipline of Political Science. Throughout the semester we will learn about the various subfields of the discipline and contributions that the discipline has made to our understanding of American politics. Prerequisite: POLS 151. (4)

POLS 265 : Latino Politics - ES, GE

This course will discuss the demographics, histories, and racialization of Latinos in the U.S. Likewise, students will explore contemporary research that examines Latinos' quest for political empowerment and how they are transforming American politics and society. Likewise, students will engage in an in-depth examination of contemporary realities for Latino professionals, including ideas on how to increase the numbers of Latino professionals. Finally, the class will provide an intersectional framework for examining how, in addition to race, other identities such as gender, "illegality", and sexuality shape the political experiences of Latinos in U.S. society and politics (4)

POLS 287 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Prerequisite: POLS 151. (1 to 4)

POLS 288 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Prerequisite: POLS 151. (1 to 4)

POLS 289 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. Prerequisite: POLS 151. (1 to 4)

POLS 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

POLS 301 : Political Science Methods

How does political science approach analysis of the political world? This course covers the approaches borrowed and developed by the discipline, research design, and qualitative methods to conduct research. Upon completion, students should be able to critique, understand, and conduct research about politics. Prerequisite: POLS 251. (4)

POLS 345 : Government and Public Policy - ES

An integrated approach to the nature of public policy, with emphasis on substantive problems, the development of policy responses by political institutions, and the impacts of policies. Intensive writing course. (4)

POLS 346 : Environmental Politics and Policy - ES, GE

An examination of environmental problems from political perspectives, including international and domestic political contexts and methods of evaluating policies. (4)

POLS 354 : State and Local Government - ES

Governmental structures, processes, and policy at state, local, and regional levels of the American system. (4)

POLS 361 : Political Parties and Elections - ES

Study of party and electoral systems with particular emphasis on American parties and elections. Examination of party roles in elections and government; party financing; interest groups and political action committees; and voting behavior. Intensive writing course. Prerequisite: POLS 251. (4)

POLS 365 : Race and Ethnic Politics - ES, GE

An interdisciplinary examination of the way racial and ethnic conflict shapes and structures American political, social, and economic life focused on the best path toward democratic equality. Discussions center on the literature that examines the integration of disenfranchised ethno-racial groups into in U.S. society, addressing the contemporary implications of changing demographics on institutions of power and on democracy in the U.S. (Intensive writing course). Prerequisite: POLS 251. (4)

POLS 370 : Prisons & Prisoners

This course is an examination of the era of mass incarceration in the United States. We will explore the racial, economic, and gender dynamics of this issue as well as various alternatives to the current system. This course meets an elective requirement or a public policy requirement for the Political Science major or minor. (4)

POLS 371 : Judicial Process - IT

An examination of legal processes in various adjudicatory settings. Primary attention given to judicial processes focusing on American civil and criminal law. Prerequisite: POLS 251. (4)

POLS 372 : Constitutional Law - IT

The constitutional basis of governmental powers in the United States with special emphasis given to judicial review, separation of powers, federalism, interstate commerce, and political and constitutional restrictions on governmental power. Intensive writing course. Prerequisite: POLS 251. (4)

POLS 373 : Civil Rights and Civil Liberties - IT

The constitutional basis of rights and liberties in the United States with special emphasis given to freedom of expression and association, religious freedom, rights in criminal proceedings, due process, and equal protection. Intensive writing course. Prerequisite: POLS 251. (4)

POLS 387 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

POLS 388 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

POLS 389 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

POLS 450 : Internship in Politics

Internship in the political dimensions of non-governmental organizations. By departmental consent only. Prerequisite: POLS 251. (1 to 8)

POLS 464 : Internship in the Legislative Process

An opportunity to study the process from the inside by working directly with legislative participants at the national, state or local level. By department consent only. (Internships with the Washington State Legislature are open only to juniors and seniors with at least one year at PLU.) Prerequisite: POLS 251. (1 to 12)

POLS 487 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. POLS 151 strongly advised before taking upper division courses for POLS majors. (1 to 4)

POLS 488 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. POLS 151 strongly advised before taking upper division courses for POLS majors. (1 to 4)

POLS 489 : Special Topics in Political Science

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. POLS 151 strongly advised before taking upper division courses for POLS majors. (1 to 4)

POLS 491 : Independent Studies

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. By department consent only. (1 to 4)

POLS 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

POLS 499 : Capstone: Senior Seminar - SR

Intensive study into topics, concepts, issues, and methods of inquiry in political science. Emphasis on student research, writing, and presentation. By departmental consent only. Prerequisite: POLS 301 & completion of the Public Policy Requirement (4 credits from POLS 345, 346, 354, or 370). (4)

PPAP 301 : The Book in Society

A critical study of the history of book culture and the role of books in modern society. Cross-listed with COMA 321, ENGL 311. (4)

PPAP 302 : Publishing Procedures

A workshop introduction to the world of book publishing, involving students in decisions about what to publish and how to produce it. Cross-listed with COMA 322, ENGL 312. (4)

PPAP 321 : The Art of the Book I - CX

This studio course explores the history, aesthetics, and creative dimensions of book design and typography. Prerequisite: Declared PPA minor or permission of instructor. Cross-listed with ARTD 315, ENGL 313. (4)

PPAP 322 : The Art of the Book II - CX

Individual projects to explore further typography and fine bookmaking. Prerequisite: PPAP 321 / ARTD 315 / ENGL 313 with a B grade or better or permission of instructor. Cross-listed with ENGL 314. (4)

PPAP 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

PPAP 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

PSYC 101 : Introduction to Psychology - ES

An introduction to the scientific study of behavior and mental processes. Topics include learning, memory, perception, thinking, development, emotion, personality, mental illness, and social behavior. (4)

PSYC 148 : Minds, Brains, and Computer: Introduction to Cognitive Science

An introduction to the interdisciplinary study of the mind. Students will explore how the mind works through the lenses of philosophy, psychology, linguistics, neuroscience, and computer science. (4)

PSYC 242 : Advanced Statistics and Research Design

A continuation of Statistics 232 and accompanying lab taught by members of the psychology department. Topics include single- and multi-factor experimental designs and analyses of variance, multiple regression, quasi-experiments, surveys, and non-parametric statistical techniques. Students will learn to use computer programs to carry out statistical analyses and will have the opportunity to design and conduct their own research study. Lecture and laboratory. Prerequisite: STAT 232 and accompanying lab taught by members of the psychology department. (4)

PSYC 287 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 288 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 289 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

PSYC 310 : Personality Theories

Strategies for the study of personality. Review of theories and research. Discussion of implications for counseling. Prerequisite:

PSYC 315 : Clinical Psychology 1: Mental Health and Psychological Disorders

This course provides an overview of systems of classifying and diagnosing psychological symptoms and biopsychosocial/developmental models for understanding and treating mental disorders (previously termed Abnormal Psychology). Prerequisites: PSYC101. (4)

PSYC 320 : Development Across the Lifespan

Biological, cognitive, social, and emotional development from conception through adulthood to death. Prerequisite: PSYC 101. (4)

PSYC 330 : Social Psychology

The study of how an individual's thoughts and behaviors are influenced by the presence of others. Research and theory concerning topics such as person perception, attitudes, group processes, prejudice, aggression, and helping behaviors are discussed. Prerequisite: PSYC 101. (4)

PSYC 335 : Cultural Psychology - GE

The study of the relation between culture and human behavior. Topics include cognition, language, intelligence, emotion, development, social behavior, and mental health. Prerequisite: PSYC 101. (4)

PSYC 337 : Culture and Health

This course explores the role of culture on health issues around the world from a psychological perspective. Theories from health psychology, and secondarily from medical anthropology and medical sociology, are used to consider how culture impacts health behaviors and how behaviors and services might be improved. Major topics include mental and physical health, treatment, health services, and health promotion. Prerequisite: PSYC 101, SOCI 101, or ANTH 102. (4)

PSYC 360 : Psychology of Language

The study of language as a means of communication and structured human behavior. Topics include: biological foundations of language, psycholinguistics, speech perception and production, sentence and discourse comprehension, nonverbal communication, language acquisition, bilingualism, language disorders. Prerequisite: PSYC 101. (4)

PSYC 375 : Psychology of Women

Exploration of psychological issues pertinent to women. Includes such topics as sex differences; psychological ramifications of menarche, child bearing, menopause, sexual harassment, and rape; women's experiences with work and achievement, love and sexuality, and psychological disorders. Prerequisite: PSYC 101. (4)

PSYC 387 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 388 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 389 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 420 : Adolescent Psychology

Physical development, mental traits, social characteristics, and interests of adolescents; adjustments in home, school, and

community. Prerequisite: PSYC 320. (4)

PSYC 435 : Clinical Psychology 2: Psychotherapy

Introduction to basic methods of counseling and psychotherapy, and examination of the theories from which these methods derive. Prerequisites: PSYC 315 or consent of instructor. (4)

PSYC 440 : Human Neuropsychology

Study of the neuroanatomical and neurophysiological mechanisms of behavior and mental function. Topics include perception, voluntary action, spatial processing, language, memory, emotion, social behavior, and consciousness. Prerequisite: STAT 232. (4)

PSYC 442 : Learning and Memory

A critical overview of the science of learning and memory. Prerequisite: STAT 232. (4)

PSYC 448 : Cognitive Psychology

The study of human thought. Topics include attention, perception, memory, knowledge and concept formation, language, problem-solving, and reasoning. Prerequisites: STAT 232. (4)

PSYC 481 : Research Seminar

An advanced course providing students the opportunity to design and conduct ongoing research and review current research in a psychology subdiscipline. May be repeated for credit. Prerequisite: PSYC 242 and consent of instructor. (4)

PSYC 483 : Seminar

Selected topics in psychology as announced. Prerequisite: consent of instructor. May be repeated for credit. (2 to 4)

PSYC 487 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 488 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 489 : Special Topics in Psychology

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

PSYC 491 : Independent Study

A supervised reading, field, or research project of special interest for advanced undergraduate students. Prerequisite: Consent of supervising faculty. (1 to 4)

PSYC 495 : Internship

A practicum experience in the community in the clinical, social, and/or experimental areas. Classroom focus on case conceptualization and presentation. May be repeated for up to eight semester hours. Prerequisite: sophomore standing plus one course in psychology and consent of the department. (1 to 8)

PSYC 496 : Research Practicum

Research experience under the direct supervision of a faculty member, students may design and/or conduct research in a designated area of psychology. May be repeated for up to eight semester hours. Prerequisite: PSYC 101 or consent of

instructor. (1 to 4)

PSYC 497 : Teaching Apprenticeship

Teaching experience under the direct supervision of a faculty member. Course provides the opportunity to learn how to effectively communicate information, understand classroom management, and develop teaching skills. Students may serve as a teaching assistant for the same psychology course no more than twice. May be repeated for up to four semester hours.

Prerequisite: Grade of B or better in class for which a TA, a minimum 3.0 overall G.P.A., junior standing at time the course is offered, consent of instructor. (1 to 4)

PSYC 499 : Capstone: Senior Seminar - SR

Required for Psychology majors. Students will complete and present at an on-campus Psychology Research Conference held fall and spring terms. Students earning the B.S. degree must conduct empirical research projects whereas as students earning the B.A. degree may choose nonempirical projects. The projects may emerge from ideas and experiences in an upper-division psychology course, advanced research activity, or in response to an internship completed by the student. Prerequisites: PSYC 242, senior standing, and permission of instructor. (4)

RELI 131 : The Religions of South Asia - RL, VW, GE

Hinduism, Buddhism, Jainism, and Sikhism - their origins and development, expansion, and contemporary issues. (4)

RELI 211 : Religion and Literature of the Hebrew Bible - RL, IT

This course introduces students to the critical study of the books in the Hebrew Bible Canon. Students will become familiar with the socio-historical context of these biblical books and their major theological themes; explore in depth a representative selection of Hebrew Bible texts; learn about a variety of historical, theological, and interpretive approaches by means of which to understand the historical context, literary artistry, and rhetorical power of scriptural texts; and explore the significance of these writings for the urgent challenges of today. (4)

RELI 212 : Religion and Literature of the New Testament - RL, IT

This course will introduce students to the scholarly study of the New Testament, as well as the Greco-Roman and Jewish contexts from which they emerged; students will also be introduced to the basic methods and issues in New Testament interpretation. Much of the course will focus on understanding these ancient texts in their historical contexts and what they reveal about the people who produced them, though there will be some consideration of their influence on some contemporary issues. No previous familiarity with the New Testament or its interpretation is expected. (4)

RELI 215 : Religions of the Ancient Mediterranean - RL, VW, GE

This course introduces the religiously, culturally, and socially diverse world of the Late Bronze Age. During this time, ancient Egypt, Anatolia, Mesopotamia, Syria-Palestine, and Greece created the world's first recorded unified economy. In 1300 BCE, humans believed that all duties were duties to the gods and all events had deity as their cause. Our research shows that three thousand years ago, humans were living productively in a religiously pluralistic society. The ancient Mediterranean cultures participated in and enjoyed the advantages of a religiously diverse community. This course examines the ways in which religion shaped the cultures of the ancient Mediterranean world. (4)

RELI 220 : Early Christian History - RL, IT

This course explores the social, cultural, and theological diversity and forms of self-definition of early Christian history across territories in which it emerged, including Western Asia, North and East Africa, and Western Europe. In this course, emphasis will be placed on the ways in which Christian groups established core elements flowering from the life of Jesus of Nazareth, affirmed or undermined social norms, and how those social norms impacted conceptions of gender, health, poverty, authority, and the sacred. (4)

RELI 221 : Medieval Christian History - RL, IT

This course introduces students to the history of Christianity in centuries identified as "medieval", 500-1500. Through original sources and contemporary studies, students will explore the interplay between Christian values and practices and diverse cultures in eastern and western Europe; the charisma of various types of sanctity (holy persons, sites, and relics); the development of ascetic behavior for monastics and laity; the relationship between Christians and diverse political systems; and the role of Christianity in the development of western culture. (4)

RELI 224 : Always Reforming: The Lutheran Heritage - RL, VW

This course is an introduction to the central insights, historical development, and formative practices of Lutheran Christianity. Through engaging texts from the sixteenth century to today, we will explore how this living tradition understands the meaning of human life. Lutheranism is a movement within the Christian tradition and the course examines it within the context of our diverse, pluralistic, and secular world. The course includes topics such as: the history of this tradition and its impact, grace and freedom, church and secular authority, and social advocacy in politics, race, and gender. (4)

RELI 226 : Christian Ethics - RL, VW

This course introduces and explores moral arguments in conversation with Christian traditions. We learn from the discipline of ethics to understand and think critically about arguments in historical, social, and experiential contexts and we engage in dialogue with sources from sacred Christian texts, from Christian social movement in the U.S., and from contemporary thinkers across the world. The primary goal of the course is to equip students with tools to think more deeply and more critically about moral issues in personal life, in community, and in politics. (4)

RELI 227 : Introduction to Christian Theologies - RL, VW

This course introduces contemporary theology and theological method while engaging topics such as the relation of faith and reason and the meaning of human suffering. This course focuses on a wide variety of theologies developed in the past 125 years from Europe, South and North America: Protestant, Catholic, feminist/womanist, Latin American liberation, and Black theologies. Students engage their own deepest convictions and beliefs and encounter tools to examine their ideas more clearly. RELI 247 for cross-cultural GenEd and RELI 257 for alternative perspective GenEd. (4)

RELI 229 : Health and Healing in Christian History - RL, IT

This course addresses the intersection of religion and medicine in Christian history. Students focus on approaches to health, healing, death and dying rooted in specific expressions of the Christian religion, universal and particular. Through analysis of primary and secondary source materials, students identify distinct Christian responses to physical, mental, and spiritual anguish as well as idiosyncrasies unique to social groups that identify as Christian. Students identify how historical context shapes Christian interpretations of health and well-being. (4)

RELI 230 : Religion and Culture - RL, VW, GE

Special topics course. Explores the interrelation and interaction of religion and culture in a variety of world religious traditions. Incorporates recognized methodologies in academic religious studies. May be repeated for credit with different topic (up to 12 credit hours). (4)

RELI 232 : The Buddhist Tradition - RL, VW, GE

Introduction to the history, teachings, and practice of Buddhist tradition in its South Asian, East Asian, and Western cultural contexts. (4)

RELI 233 : The Religions of China - RL, IT, GE

This course introduces students to the major traditions that have shaped Chinese culture, asking if we can understand them using the Western category of "religion". The course covers Daoism, Confucianism, Buddhism, Chinese folk practices, and Christianity. It closes with a study of the interplay of government policy and religious reality in China today. (4)

RELI 235 : Islamic Traditions - RL, VW, GE

An introduction to the history, teachings, and practices of Islam. (4)

RELI 236 : Native American Religious Traditions - RL, VW, GE

Introduction to a variety of Native American religious traditions, emphasizing the ways sacred traditions construct identity, promote individual and collective well-being, and respond to colonialism. Emphasis is also placed on notions of Indigenous religious traditions as expressions of a people's relationship with place, traditional ecological knowledge, and Indigenous ecological ethics. (4)

RELI 237 : Judaism - RL, IT, GE

Introduction to the history of the Jewish people and the religious tradition of Judaism. Emphasis is placed on the historical development of Judaism; the practice of Judaism and observation of Jewish law; impacts of and responses to anti-Semitism and the Holocaust. (4)

RELI 239 : Environment and Culture - RL, VW

This course focuses on ways environments and environmental issues are shaped by human culture, with particular attention to ways that religious traditions are responding to environmental degradation and environmental injustices. An introduction to humanistic study of the environment and the intercultural study of religion, the course equips students to more thoughtfully and critically analyze ideas and traditions in religious and indigenous communities and in the environmental movement. Centering democratic education, the class asks students to research, reflect, and practice communicating on current environmental concerns. (4)

RELI 240 : African American Religious Traditions - RL, VW, GE

Introduction to the history and diversity of African American and/or Afro-Caribbean religious traditions. Topics under consideration may include religion as a means for addressing social injustice, diasporic identities, healing from trauma, or its expression within the arts, political activism, and theology. (4)

RELI 241 : Islam in the United States - RL, VW, GE

An introduction to the history and practices of Islam in the United States. Special attention paid to the intersection of race and gender in Muslim-American communities, the role of immigration in Muslim growth, and contemporary political issues involving Muslims and Islamophobia. (4)

RELI 245 : Global Christian Theologies - RL, VW, GE

Over the last 100 years, Christianity has been shrinking in its European (and Amer-European) historic strongholds and has been growing in Asia, Latin American, and Africa. This course examines writings by various writers who combine a Christian identity with their own cultural context and construct the theologies of the Christian future in Africa, Asia, and Latin America. (4)

RELI 247 : Christian Theology - RL, VW, GE

Survey of selected topics or movements in Christian theology designed to introduce the themes and methodologies of the discipline. RELI 247 for crosscultural GenEd and RELI 257 for alternative perspective GenEd. (4)

RELI 257 : Christian Theology - RL, VW, GE

Survey of selected topics or movements in Christian theology designed to introduce the themes and methodologies of the discipline. RELI 247 for cross-cultural GenEd and RELI 257 for alternative perspective GenEd. (4)

RELI 330 : Hebrew Bible Studies - RL, IT

The Hebrew Bible has been very influential for the development of three major monotheistic religions and has authoritative status for Judaism and Christianity. It has also left an indelible impact on secular culture. Courses under this designation may have a thematic focus, i.e. the prophets, psalms, wisdom literature, etc., and/or a topical focus, i.e. gender, sexuality, storytelling, mythology, etc. All courses read the text carefully, examine archaeological evidence, consider historical and cultural context, and analyze the formation of religious concepts before making responsible interpretive choices for both secular culture and living religious traditions. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 331 : New Testament Studies - RL, IT

Major areas of inquiry: intertestamental, synoptic, Johannine, or Pauline literature, or New Testament theology. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 342 : City of Gods: Ordinary Life and Religion in Late Antiquity - RL, VW

This course investigates the nature of religion in the late Roman Empire in regional, indigenous, mono-, di-, and poly-theistic systems, focusing on layers of life infused with distinctly religious significance: (1) family, (2) city, and (3) empire. Course content includes origin stories; operations of nature; locale and legitimacy of authority; ritual; forms and places of worship; definition and basis of moral behavior; public order; the body and sexuality; the nature of divinity; health; fertility; and death and the afterlife within the historical framework of Late Antiquity, broadly dated from the 4th century CE through the 7th century CE. (4)

RELI 361 : Church History Studies - RL, IT

Special topics course. Selected area of inquiry, such as Orthodox church history, religious experience among American minority communities, and the ecumenical movement. RELI 341 for cross cultural GenEd and RELI 351 for alternative perspective GenEd. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 362 : Luther and His Legacy - RL, VW

This course explores the events and movements leading to the Protestant Reformation as well as Luther's life and theology. It focuses on Luther's own writings and their impact in the sixteenth century up to today. Additionally, this course introduces Lutheran thinkers who emerged from Luther's theological legacy, such as: Dietrich Bonhoeffer (Germany), Søren Kierkegaard (Denmark), and Paul Tillich (Germany/United States). It addresses how the Lutheran tradition continues to shape secular and religious spheres in our contemporary context. (4)

RELI 364 : Theological Studies - RL, VW

Special topics course. Selected topic or movement within Christian theology. RELI 344 for cross cultural GenEd and RELI 354 for alternative perspective GenEd. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 365 : Climate Justice - RL, VW

This course offers in-depth exploration of how religious communities and religious leaders are responding to anthropogenic climate change and how the study of religion and theology shed light on political and moral debates on the issue. Special attention is paid to Christian perspectives, but texts are included from other religious traditions and from multiple global, racial, and socio-economic contexts. Students will create a research-based final project developing and defending a response to climatic change and global injustices. (4)

RELI 366 : Race, Gender, and Christianity - RL, VW, GE

This course examines the intersection of race, gender, and Christianity. We will study a variety of movements and religious writings to uncover how Christians have both supported and resisted dominant understandings of race and gender. Topics may include the civil rights movement, liberation theology, Christian feminism, and womanist theology. Students will learn academic methods in the study of religion and use those tools to conduct a major research project. (4)

RELI 367 : Major Religious Thinkers, Texts, and Genres - RL, VW

Special topics course. In-depth study of major figures, texts, or genres in Christian traditions, focusing especially on the theology and religious thought of Christianity. Topics in RELI 347, RELI 357, and RELI 367 may include Journeys Toward Faith, Process Theology, Liberation Theology, and Death and the Afterlife. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 368 : Feminist, Womanist, Latinx, and Queer Theologies - RL, VW, GE

A study of major Christian theological themes and issues through global perspectives on gender and intersectional identities. This course considers texts from 1666 to today, a long history of women engaging Christian theology and scripture in their work for social and religious liberation. This course explores a diversity of theological voices across race, gender, culture, politics, and economics. By comparing theologies, methods, and sources, we observe how experience forms new foundations for conceptions of God, salvation, human nature, evil, and social change. (4)

RELI 390 : Topics in Comparative Religions - RL, IT, GE

Special topics course. Historical study of specific non-Christian religions such as the traditions of India and China, Judaism, and Islam. RELI 393 is for alternative perspective general education element. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 391 : Sociology of Religion

An investigation of the American religious scene with particular emphasis on the new religious movements, along with attention to social settings and processes which these new religions reflect and produce. Cross-listed with SOCI 391. RELI 391 has no prerequisites. See listing for SOCI 391 for prerequisites. (4)

RELI 393 : Topics in Comparative Religions - RL, VW, GE

Special topics course. Historical study of specific non-Christian religions such as the traditions of India and China, Judaism, and Islam. RELI 390 is for cross-cultural general education element. May be repeated for credit with different topic (up to 8 credit hours). (4)

RELI 396 : Health, Healing, and Religious and Cultural Diversity - RL, VW, GE

An exploration of diverse religious and cultural traditions and their role in health and healing. This course explores how religious traditions shape one's understanding of the origins of illness and the path toward healing. Emphasis is placed on how a better awareness of religious and cultural diversity can inform medical practice and work in caring professions such as social work, education, and nursing. (4)

RELI 397 : Indigenous Religions and Cultures of the Pacific Northwest - RL, VW, GE

This course explores the religious and cultural diversity of Indigenous communities in the Pacific Northwest, from Alaska to northern California, and east to northern Idaho. Emphasis is placed on the history and impacts of colonialism; the relationship between Indigenous people and place as reflected in food systems, ceremonies, visual arts, and oral traditions; and the relevance of traditional ecological knowledge in addressing environmental concerns. (4)

RELI 491 : Independent Study

For religion majors only and consent of the department is required. (1 to 4)

RELI 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 4)

RELI 499 : Capstone: Research Seminar - SR

Intended for and required of majors. Discussion of common readings and a major research and writing project with public presentation around the student's area of interest. Does not fulfill the Religion GenEd requirement and does not count toward the minor. (4)

SOCI 101 : Introduction to Sociology - ES

An introduction to the discipline of sociology. Features an analysis of contemporary American society with emphasis on the interconnections of race, class, and gender. Sociological concepts include socialization, social roles, stereotypes, power, and stratification. (4)

SOCI 201 : Introduction to Criminal Justice

An examination of the American Criminal Justice System. This course will address law enforcement, the court system and correctional system, along with attention to race, class, and gender inequalities. (4)

SOCI 210 : Gender and Society - ES

An examination of gender as a social construction and a system of stratification. Focus is on the structural aspects of gender and upon the intersection of gender with other social categories, such as race, class, and sexuality. (4)

SOCI 226 : Delinquency and Juvenile Justice

An examination of juvenile delinquency in relation to the family, peer groups, community and institutional structure. Includes consideration of processing the juvenile delinquent by formal agencies of control. (4)

SOCI 232 : Research Methods

An overview of the methods to explore, describe, and analyze the social world. General issues in the design and implementation of research projects, as well as specific issues that arise in conducting interviews and field observations, constructing and administering surveys, analyzing existing data, and planning program evaluations. Required for sociology and social work majors. Prerequisite: SOCI 101, SOCI 201, or consent of instructor. (4)

SOCI 240 : Social Problems - ES

Critical examination of poverty, discrimination, drugs, crime, homelessness, violence, and family breakdown. Course addresses contemporary social problems, an analysis of their social roots, and an evaluation of the policies designed to eradicate them. (4)

SOCI 287 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 288 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 289 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

SOCI 330 : The Family

An examination of the institution of the family in the United States, with emphasis on how families are affected by social forces such as the economy, race and ethnicity, gender, and social politics. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 332 : Race and Racism - ES

A critical examination of race and racism in the United States. The course will explore the social construction of race and how racism shapes social institutions, such as the economy, education, and criminal justice. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 336 : Deviance

A general introduction to a variety of nonconforming, usually secretive, and illegal behavior, such as corporate crime, drug dealing, prostitution, industrial spying, child abuse, and suicide, with emphasis on the conflict of values and life-experiences within a society. Prerequisite: SOCI 101, SOCI 201, or consent of instructor. (4)

SOCI 378 : Consumption

An examination of the relationship between goods, individuals, and society. The course deconstructs the social bases of consumption to better understand the role consumption plays in shaping our identities and maintaining social distinctions. The course also addresses the relationship between consumption and social problems like consumer debt, inequality, and sustainability. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 387 : Special Topics in Sociology or Criminal Justice

Selected topics as announced by the department. Prerequisite: departmental consent. (1 to 4)

SOCI 388 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 389 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The

title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 391 : Sociology of Religion

An investigation of the American religious scene with particular emphasis on the new religious movements, along with attention to social settings and processes which these new religions reflect and produce. Prerequisite: SOCI 101, one religion course, or consent of instructor. Cross-listed with RELI 391. (4)

SOCI 410 : Social Stratification

An examination of the cultural and structural causes of social stratification and its consequence, social inequality. The course focuses on stratification and inequality on the basis of race, class, and gender, exploring what social forces shape individuals' differentiated access to society's valued resources. Prerequisite: SOCI 101 or consent of instructor. (4)

SOCI 413 : Criminological Theories

An analysis of influential criminological theories of the 19th and 20th centuries, to the recent contemporary schools, and to the underlying patterns of thought which both unite and divide the criminological tradition. Required for senior criminal justice majors. Prerequisites: STAT 233, SOCI 101, 201, 232, and 336; declared major or minor in criminal justice. (4)

SOCI 487 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 488 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 489 : Special Topics in Sociology or Criminal Justice

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCI 491 : Independent Study

Readings or fieldwork in specific areas or issues of sociology or criminal justice under supervision of a faculty member. Prerequisite: departmental consent. (1 to 4)

SOCI 494 : Gender and Violence

An examination of gendered violence in American society. Focal topics will vary by semester and may include sexual violence, intimate partner violence, stalking, or masculinity and violence. The course will address how violence is gendered, theoretical explanations of gendered violence, and the response of the criminal justice system. Prerequisites: SOCI 101, SOCI 201, WMGS 201, or consent of instructor. Recommended: junior or senior standing. (4)

SOCI 495 : Internship

Students receive course credit for working in community organizations and integrating their experiences into an academic project. Placements are usually arranged by the student and may include the public school system, private and public social service organizations, criminal justice system agencies, local and state governmental agencies, and businesses. Prerequisite: SOCI 101 or SOCI 201. (1 to 4)

SOCI 496 : Sociological Theories

An analysis of influential sociological theories of the 19th and 20th centuries with attention to the classic theories of Marx, Durkheim, Weber, DuBois, and Gilman to the recent contemporary schools, and to the underlying patterns of thought which both unite and divide the sociological tradition. Required for senior sociology majors. Prerequisites: STAT 233, SOCI 101, 232, and 330 or 336; declared major or minor in sociology. (4)

SOCI 499 : Capstone: Senior Seminar - SR

Students design and carry through an independent research project involving the collection of data and the analysis of findings. Students demonstrate their mastery of the field by relating their research to the existing body of sociological literature and knowledge. Required for senior majors. Prerequisites: SOCI 496 or SOCI 413. (4)

SOCW 101 : Introduction to Social Work and Social Welfare - ES

An introduction to human need and the field of social work. Provides an overview of services, models of service delivery, and professional social work values. Students visit agency settings and meet with social work practitioners. A volunteer experience in the field is a required component of this seminar-style course. (4)

SOCW 175 : January on the Hill - VW, GE

An intense experience of service and community work on Tacoma's Hilltop District and/or Tacoma's eastside where students learn firsthand about poverty and participate in community projects. (4)

SOCW 232 : Research Methods

This course will prepare students to demonstrate basic competencies in the knowledge, values, and skills of research methodology to analyze the social world. This includes problem formulation, research designs, measurement, sampling, interviewing, and critical evaluation of research in social work and the social sciences. Required for social work majors. Prerequisite: SOCI 101. (4)

SOCW 245 : Human Behavior and the Social Environment - ES

Students examine developmental theory through the lens of an ecological systems perspective and a biopsychosocial-spiritual framework, emphasizing power, privilege, and cultural differences (particularly race/ethnicity, gender, and sexual orientation) as applied to individuals, families, groups, institutions, organizations, and communities locally and globally. Volunteer experience is required. (4)

SOCW 250 : Social Policy I: History of Social Welfare - ES

Exploration of power, privilege and oppression emphasizing political process and global social change in the development of the American welfare state and the profession of social work. Students reflect critically upon personal and social values, social welfare systems and their performance, the impact of political ideology and compromise on vulnerable populations, and the function of professional social work. (4)

SOCW 287 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 288 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 289 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

SOCW 320 : Child Welfare, A Global Perspective

An examination of child welfare, including child abuse and neglect; child welfare services, including CPS, permanency planning, foster care, adoption; and the current status of child well-being around the world, exploring the impact on children of such issues

as poverty, war, nutrition, HIV/AIDS, access to education, access to health care, care for orphans, street children. (4)

SOCW 325 : Social, Educational, and Health Services in Tobago - VW, GE

Explore strengths and needs of Tobago and effects of history and colonialism on the development of community problems. Through service learning, interaction with agency staff and community members, readings and reflections, develop an understanding of the meaning of service in another culture and deepen one's own ethic of meaningful service. (4)

SOCW 350 : Social Policy II: Social Policy Analysis

Students develop legislative policy practice and advocacy skills, and examine the impact of policy implementation, administration, and governmental structure on services to vulnerable populations. Critical thinking is used to analyze contemporary global and local policy in income assistance, health/mental health, child welfare, homelessness, and services to seniors. Prerequisite: SOCW 250. (4)

SOCW 360 : Social Work Practice I: Interviewing and Overview of Generalist Practice

Students learn the conceptual framework of generalist practice and apply the ecological systems perspective to practice. This course introduces engagement, assessment, intervention, and evaluation in the context of social work both locally and globally. Students are able to learn intentional interviewing skills and apply those skills within various models of practice and across cultures. Prerequisite: SOCW 245. (4)

SOCW 375 : Social Services in the Community

Completion of a minimum of 50 hours of work in a community setting. Through written work, students reflect on their experiences, their personal growth, and the mission of the agency. May be repeated for credit up to two semester hours. Prerequisite: SOCW 175 or 245 or 360. (1)

SOCW 387 : Special Topics in Social Work

Selected topics as announced by the department. Topics relevant to current trends and issues in the field of social work. (2 to 4)

SOCW 388 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 389 : Special Topics in Social Work

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 460 : Social Work Practice II: Families and Groups

Grounded in the framework of generalist social work practice, the second social work practice course examines theoretical models and practice skills for assessment and intervention with families and groups. Emphasizes the importance of culturally sensitive practice. Introduces students to group dynamics and group development. Prerequisite: SOCW 245, 360. (4)

SOCW 465 : Social Work Practice III: Macropactice

Using the generalist social work practice framework, students develop engagement, assessment, intervention and evaluation skills for local and global practice with organizations, and communities. As professional social workers, students map community assets, examine community development, and advocate for diverse and marginalized groups. Students recognize social service organizations as a changing context for professional practice and research. Prerequisites: SOCW 245, 250, 350, 360, and 460. (4)

SOCW 475 : Field Experience I

Students are placed in social service agencies where, under supervision, they demonstrate the generalist skills of engagement, assessment, intervention, and evaluation of practice. They apply ethical principles in interactions with clients and staff, demonstrate critical thinking, engage and embrace diversity, demonstrate and apply knowledge of human behavior and the social environment. Pass/Fail. Prerequisites: SOCW 245, 350, and 360; to be taken concurrently with SOCW 460 and 485;

requires consent of instructor. (3)

SOCW 476 : Field Experience II

Continuation of SOCW 475. Students practice and refine the generalist skills of engagement, assessment, intervention, and evaluation. Through their deepening identification with the social work profession, they analyze how their agency responds to changing contexts and reflect on ways to engage in policy and advocacy practice. Pass/Fail. Must be taken concurrently with SOCW 465 and 486. (3)

SOCW 485 : Field Experience Seminar I

Students integrate the theories and skills from their coursework with experiences in their field settings, applying theories of human behavior and the social environment. They write and analyze a case and practice self-reflection by developing a plan to evaluate their own practice. Must be taken concurrently with SOCW 475. (1)

SOCW 486 : Field Experience Seminar II

Students continue to grow in their professional identification and behavior. They make a formal case presentation to professional social workers, demonstrating their application of knowledge, values, and skills and their competence in engagement, assessment and intervention. They evaluate their own practice. Must be taken concurrently with SOCW 476. (1)

SOCW 487 : Special Topics in Social Welfare

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 488 : Special Topics in Social Welfare

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 489 : Special Topics in Social Welfare

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SOCW 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. Prerequisite: Consent of instructor. (1 to 4)

SOCW 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

SOCW 498 : Capstone Proposal - SR

Students select a topic for their capstone, complete a preliminary literature review, and develop an outline for their final capstone, to be completed in SOCW 499. Prerequisites: SOCW 245, 350, and 360. (1)

SOCW 499 : Capstone: Senior Seminar - SR

This integrative seminar requires students to explore a field of generalist practice across all of the competencies of the social work profession, including reciprocal relationships between research and practice, the policies that impact practice, global perspectives, typical ethical issues, role of diversity, evidence-based interventions and ways they may evaluate their practice. This culminates in a paper and public presentation. Prerequisites: SOCW 245, 350, 360, 460, 475, 498, and SOCW 232 or SOCI 232. (3)

SOCW 505 : Social Work Theory and Practice: From a Racial Justice Perspective

This course is designed to introduce students to human behavior in the social environment through a critical race lens as students begin to explore theory and practice with diverse clients in healthcare settings. Students will explore the concepts of privilege, oppression, social justice in their work with diverse clients. This course will emphasize the impact discrimination and oppression by individuals and society on the developmental experience for people from culturally diverse backgrounds and orientations. Issues of power and oppression will be explored at the micro, mezzo, and macro levels of social work practice. (3)

SOCW 510 : Social Work Practice Skills Lab

Content on working with diverse populations will be integrated at all practice levels (micro, mezzo, and macro) to assist students in developing social work practice skills using various theoretical constructs (i.e. strengths perspective, problem-solving, empowerment) and evidence-informed practices. Additional focus will be to assist students in developing a professional self with an integration of social work values and ethics throughout the course. Skill building will be practiced using role plays, videos, and written assignments in preparing students for their field experience in the spring semester. (3)

SOCW 525 : Culturally Responsive Social Work Practice

In this course, human diversity is broadly explored and defined to include race, ethnicity, culture, nationality, religion, sexual orientation, gender identity and expression, and ability. The course content looks critically at privilege and the ways in which a society's cultural practices and structure may oppress, marginalize, and alienate some while enhancing power and privilege of others. Students will explore how awareness of these factors influences delivery of social work practice in healthcare and mental healthcare settings. (3)

SOCW 532 : Social Work Research Methods

Social work relies on careful collection and analysis of quantitative and qualitative data to answer theoretical, empirical, and applied research questions. This course will introduce students to methods of data collection and analysis in social work and provide students with the tools to engage in this central component of scientific inquiry. This course lays the foundation for social research, including an introduction to the scientific method and ethics. Students will learn about several of the most commonly used methods of research in criminal justice, sociology, and social work; including, experiments, surveys, interviews, field research, single subject design, content analysis, and analysis of secondary data. Following an introduction into these research methodologies, research design, conceptualization, and sampling will be covered. Students will apply methods in course assignments and will demonstrate their cumulative learning through preparation of a research proposal using one of the methods. (3)

SOCW 538 : Social Work Theory and Practice in Healthcare Settings

This advanced social work theory and practice in healthcare settings is designed to situate practice in healthcare settings within a biopsychosocial-spiritual perspective. Health behavior theory, practice, and research relevant to healthcare settings in work with individuals, families, groups, and communities will be addressed. Relevant theories and practice issues associated with patient-centered care, interdisciplinary teams, along with the significance of values and ethics in social work will be explored. Skill development in all phases of the helping process, including termination with clients, will be covered. Prerequisite: SOCW 505 or acceptance into the MSW program in advanced standing status. (3)

SOCW 542 : Social Work Research in Health Settings

This course builds on basic understanding of quantitative and qualitative research methods of Research Methods in Social Work (SOCW 532) and is designed and provides students with strategies for evaluating social work practice at multiple practice and system levels. Students will learn to assess and apply evaluation methods to address prevention, treatment, and programmatic services in health and mental health settings. This course also serves as the capstone course in the MSW program and is taken in the student's final semester. Prerequisite: SOCW 532 or acceptance into the MSW program in advanced standing status. (3)

SOCW 550 : History of Social Welfare & Healthcare Policy

This course reviews the history of the social work profession, social welfare programs, and healthcare policy in the U.S. The influence of values, politics, and economic forces on social welfare and healthcare policy are explored. An overview of the U.S. healthcare system (including behavioral and physical health) and the role of social work, historically and contemporarily, in the large variety of private and public healthcare settings is presented. The course content reflects the values of the profession of social work and emphasizes the role of the policy-informed social work practitioner in the delivery of health and mental health services with diverse individuals, families, and communities. (3)

SOCW 555 : Advanced Policy & Advocacy in Healthcare Systems

This course builds on policy content offered in the foundation policy course. The course provides students with knowledge, skills, and abilities for understanding the interrelationship between developments in health policy, the health care delivery system, and social work practice. Diversity, inequality, and social and economic justice are continuing themes of study in the advanced concentration year. Prerequisite: SOCW 550 or acceptance into the MSW program in advanced standing status. (3)

SOCW 560 : Mental Health Assessment and Intervention

This foundational course helps students develop a multi-dimensional assessment and intervention framework for clinical social work practice. This course builds on Social Work Theory and Practice from a Racial Justice Perspective and focuses on bio, psych, social, and spiritual assessment and intervention at the individual and family level and includes children, youth, adults, and older adults. The DSM-5 classification system is discussed within the context of social work values and ethics. Several empirically-based assessment tools and intervention techniques that are grounded in social work practice are explored to meet the needs of clients and families from diverse backgrounds. Prerequisite: SOCW 510 or acceptance into the MSW program in advanced standing status. (3)

SOCW 565 : Advanced Clinical Interventions in Health

This course builds on generalist social work theory and practice with a look at advanced assessment and intervention skills in healthcare settings across micro, mezzo, and macro practice settings. Theory will guide assessment and intervention selection for social work practice in healthcare settings. Issues of diversity and equity in practice will be addressed to meet the needs of multiple constituencies. Prerequisites: SOCW 538, 560. (3)

SOCW 575 : Field Experience I

Students are assigned to a field experience setting (e.g. healthcare, mental healthcare, or social service agency) and participate under social work (practicing MWS-degreed social worker) supervision and mentoring in the delivery of social work services. Students will have the opportunity to practice foundational social work skills; including, completing intakes, developing social histories, interviewing skills, developing intervention plans, analyzing politics relevant to practice, and other skills that the student, the field instructor, and faculty liaison mutually develop. The experience is a minimum of 300 clock hours. Graded pass/fail. Must be taken concurrently with SOCW 576. Prerequisite: SOCW 510 or acceptance into the MSW program in advanced standing status. (3)

SOCW 576 : Field Experience I Seminar

This seminar provides students with the opportunity to integrate the content of their courses with their field experience learning activities. Students develop a plan to monitor and evaluate their practice in their field experience setting. The course provides students with an opportunity to explore, question, and process their experiences in field. Must be taken concurrently with SOCW 575. (2)

SOCW 577 : Trauma-Informed Social Work Practice with Youth & Families

Grounded in the framework of clinical social work practice, this course will provide students with additional knowledge on addressing the needs of clients with trauma exposure. In this course, students will examine trauma exposure, the impact trauma exposure has on children, adolescents, and their families, and systems involved in the care of youth. The implications for improved cultural competence in trauma-informed assessment and interventions in youth and families will be discussed. (3)

SOCW 578 : Cognitive Behavioral Therapy in Social Work

As an advanced clinical elective, this course is designed to assist students to increase their cognitive behavioral therapy (CBT) knowledge and skills. Students will learn the theoretical foundations and the CBT practice model. Students will learn the continuum of care using a CBT approach that includes evidence-based assessments, case conceptualization, treatment planning, and intervention, as well as how to use other social work treatment theories (strengths-based, problem-focused interventions) in meeting the needs of diverse clients with complex presentations. (3)

SOCW 580 : Social & Behavioral Determinants of Health

In this course, the core concepts of social and behavioral determinants and how they influence the physical and mental health of individuals, families, groups, communities, and populations is explored. Students will explore how awareness of these factors influences delivery of social work practice in healthcare and behavioral healthcare settings. (3)

SOCW 585 : Advanced Field Experience II

Students are assigned to a field experience setting (e.g. healthcare, mental healthcare, or social service agency) and participate under social work (practicing MWS-degreed social worker) supervision and mentoring in the delivery of social work services. Building on their foundational skills, students will begin to practice advanced social work skills of assessing, intervening with research-informed practices, and assessing interventions with individual and families. The experience is a minimum of 360 clock hours. Graded pass/fail. Must be taken concurrently with SOCW 586. Prerequisite: SOCW 575 and 576 or acceptance into the MSW program in advanced standing status. (3)

SOCW 586 : Advanced Field Experience Seminar II

This seminar provides students with the opportunity to integrate the content in their courses with their field experience learning activities. Students develop a plan to monitor and evaluate their advanced practice in an opportunity to explore, question, and process their experiences in field related to advanced social work practices. Must be taken concurrently with SOCW 585. Prerequisites: SOCW 575 and 576 or acceptance into the MWS program in advanced standing status. (2)

SOCW 595 : Advanced Field Experience III

Students generally continue in the Field Experience I setting under social work (practicing MWS-degreed social worker) supervision and mentoring in the delivery of social work services. Building on skills from Advanced Field Experience II, students will begin to demonstrate their advanced abilities by implementing evidence-based interventions with greater independence. The experience is a minimum of 360 clock hours. Graded pass/fail. Must be taken concurrently with SOCW 596. Prerequisite: SOCW 585 and 586. (3)

SOCW 596 : Advanced Field Experience Seminar III

This seminar provides students with the opportunity to integrate the content of their courses with their field experience learning activities. Students develop a plan to monitor and evaluate their advanced practice in their advanced field experience setting. The course provides students with an opportunity to process and advance their field related experiences related to social-work-specific social work interventions. Students will develop a professional resume and explore the MSW job search process. Must be taken concurrently with SOCW 595. Prerequisites: SOCW 585 and 586. (2)

SOLU 101 : Southern Lushootseed: Introduction to Oral Language - VW, GE

Introduction to Southern Lushootseed language. Fundamentals of sound system, grammar, and basic speaking and listening comprehension, as well as cultural dynamics of the language and its users. (4)

SOLU 102 : Southern Lushootseed: Oral Language Dialogue - VW, GE

Continuing development of basic vocabulary, grammar, and speaking, with additional emphasis on dialogue. The course also further develops students' understanding of the cultural contexts of Southern Lushootseed language. (4)

SPED 287 : Special Topics in Special Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 288 : Special Topics in Special Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 289 : Special Topics in Special Education

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 307 : Foundations in Special Education

Provides an overview of foundational Special Education concepts, laws, and processes and is taken by all undergraduate education majors. Key content will include historical foundations leading to current laws and policies including ADA, IDEA, and 504, as well as the ways current laws influence policies and processes. This preparatory course will provide a foundation for

future discussion and topic exploration in theory and practice. (4)

SPED 342 : Methods of Assessment for Students with Disabilities

Provides the beginning special education candidate with the background, theories, and practice knowledge of assessment. This course will cover the basic core skills, terminology, and practice of assessments and evaluation across all categories of IDEA, using a multidisciplinary approach. Principles of RTI, MTSS, and PBIS will be covered using an embedded case study model. Principles of reducing potential bias will be explored across all categories and methods of assessment. (4)

SPED 376 : Instructional Methodologies for Inclusive Classrooms

Provides accommodations and remediation strategies connected to instructional models for the diverse learning needs of students. (3)

SPED 377 : Instructional Methodologies for Inclusive Classrooms

Provides accommodations and remediation strategies connected to instructional models for the diverse learning needs of students. (3)

SPED 404 : Collaboration, Team Building, and Supervision

Focuses on approaches and methodologies for establishing connections with communities, families, and various instructional staff members, including paraeducators. (2)

SPED 409 : Current Trends in Special Education

Provides special education undergraduate candidates with specific, current, and relevant information regarding students with disabilities who required specialized programming. This course will explore topics related to specialized supports and plans pertinent to academics, behavior, mental health, and social-emotional needs. This course will also cover topics related to transition planning for students and collaboration with outside community agencies. The course will also cover current pertinent issues related to law, policies, and practice. All topics will be covered with a focus on inclusion and evidence-based and culturally relevant practices. (4)

SPED 430 : Students with Emotional and Behavioral Disabilities

In-depth exploration of issues related to the identification of and service delivery to students with emotional and behavioral disabilities. Emphasis on specialized management techniques needed to teach this population. A field experience will be required. (3)

SPED 431 : Issues in Autism Spectrum Disorders

This course will provide an overview of Autism Spectrum Disorder for educators as well as other related professionals who may work with or serve children and families with this diagnosis. This course will explore the characteristics of children, youth and adults with autism, evidence-based practices for prevention and intervention, problems and issues in the field, methods of positive behavior support and collaborating with families. (2)

SPED 442 : Technology in Special Education

Current issues and uses of computer technology for learners with special needs. Emphasis on computer assisted instruction, and assistive technology services and devices. (2)

SPED 454 : Methods and Assessment of Students with Complex Support Needs

Exploration of the issues related to identification of and service delivery to this population. Specialized instruction, management techniques, and issues of transitioning from schools to community. A field experience component is included. (3)

SPED 487 : Special Topics in Special Education

To provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 488 : Special Topics in Special Education

To provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 489 : Special Topics

To provide undergraduate students with new, one-time and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

SPED 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

SPED 520 : Teaching Students with Special Needs

Introduction and overview of services for students with special needs at all levels. Includes procedural and substantive legal issues in special education, program modification, and classroom management. (2)

SPED 580 : Foundations and Instructional Strategies for Students with Disabilities

This course is designed to build a strong foundational understanding of the various issues related to special education and provide ways to apply strategies aimed at building inclusive, supportive, and positive classroom environments that are characterized by quality differentiated instruction. (2)

SPED 588 : Legal, Ethical, and Administrative Issues in Special Education

Investigation of special education administrative practices, pupil placement procedures, student staffing, program reimbursement procedures, and federal funding models. (2)

STAT 145 : Statistics for Biologists - QR

An introduction to statistics with a focus on topics and data relevant to biologists. Descriptive statistics and data representations, correlation and regression, experimental design, basic probability, binomial and normal distributions, confidence intervals, hypothesis testing, chi-squared test, ANOVA. Cross-listed with MATH 145. Prerequisite: MATH 140 or proficiency through MATH 140 as determined by the math placement exam. (4)

STAT 231 : Introductory Statistics - QR

Descriptive statistics: measures of central tendency and dispersion. Inferential statistics: generalizations about populations from samples by parametric and nonparametric techniques. Methods covered will include estimation, hypothesis testing, correlation analysis, regression, chi square, and ANOVA analysis. Includes a required computer lab. May not be taken for credit after MATH/STAT 242 has been taken. (4)

STAT 232 : Introductory Statistics for Psychology Majors - QR

Descriptive statistics: measures of central tendency and dispersion. Inferential statistics: generalizations about populations from samples by parametric and nonparametric techniques. Methods covered will include estimation, hypothesis testing, correlation analysis, regression, chi square, and ANOVA analysis. Includes a required computer lab. Students should register for the lab corresponding to their lecture section. This section is intended for psychology majors. Prerequisite: PSYC 101 or equivalent. (4)

STAT 233 : Introductory Statistics for Sociology, Criminal Justice, and Social Work Majors - QR

Descriptive statistics: measures of central tendency and dispersion. Inferential statistics: generalizations about populations from samples by parametric and nonparametric techniques. Methods covered will include estimation, hypothesis testing, correlation analysis, regression, chi square, and ANOVA analysis. Includes a required computer lab. Students should register for the lab corresponding to their lecture section. This section is intended for sociology, criminal justice, and social work majors. Prerequisite: SOCI 101 or equivalent. (4)

STAT 242 : Introduction to Mathematical Statistics - QR

Data description, probability, discrete and continuous random variables, expectation, special distributions, statements of law of large numbers and central limit theorem, sampling distributions, theory of point estimators, confidence intervals, hypothesis tests, regression (time permitting). Cross-listing with MATH 242. Previously was STAT/MATH 341. Prerequisite: MATH 151. (4)

STAT 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

STAT 342 : Probability and Statistical Theory

Continuation of STAT 242. Topics may include: joint and conditional distributions, correlation, functions of random variables, moment generating functions, Bayesian and non-parametric inference, convergence of distributions. Cross-listed with MATH 342. Prerequisite: MATH 152 and four hours from STAT 231, 232, 233, or MATH/STAT 242. MATH 253 (or concurrent enrollment) is strongly recommended. (4)

STAT 348 : Statistical Computing and Consulting

Topics include qualitative data analysis, as well as the use of R statistical software to create data visualizations and to conduct, present, and interpret statistical analyses such as multiple regression and nonlinear (e.g. logistic) regression. Students will learn about issues that arise when working with real data such as data cleaning, data preparation, ethical guidelines for statistical practice, and the logical connections between study design and the appropriate inferences that can be made. Statistical consulting strategies and communication of statistical ideas to nonstatistical clients will guide the course topics as students perform consulting services for peers, faculty, and/or the surrounding community. Cross-listed with MATH 348. Prerequisite: DATA 133, CSCI 144, or MATH 151, and one of MATH/STAT 145, 242, STAT 231, 232, or 233. Strongly recommended: Prior experience with the programming languages R or Python. (4)

STAT 491 : Independent Study

To provide individual undergraduate students with advanced study not available in the regular curriculum. The title will be listed on the student term-based record as IS: followed by the specific title designated by the student. (1 to 4)

STAT 495 : Internship

To permit undergraduate students to relate theory and practice in a work situation. The title will be listed on the student term-based record as Intern: followed by the specific title designated by the instructor in consultation with the student. (1 to 12)

THEA 160 : Introduction to Theatre - CX

An exploration of live theatre and its many elements; including, the contributions of its writers, directors, performers, designers, technicians, and audiences. (4)

THEA 225 : Running Crew I

A practicum course, students work backstage or in production shops on a faculty-directed production. Repeatable for a maximum of 8 semester hours. (1-8)

THEA 250 : Acting I - Fundamentals - CX

An introductory course to acting in which students perform scenes and monologues and learn about scene selection, memorization, imagination, character, and presentation. (4)

THEA 252 : Fundamentals of Scenic Design - CX

An introduction to the process used by scenic designers to create a physical environment for the stage. (4)

THEA 254 : Fundamentals of Lighting Design - CX

An introductory examination of the controllable properties of light and their application to the functions of theatrical lighting. (4)

THEA 255 : Theatrical Production - CX

An introduction to the backstage elements of theatre; including, costumes, scenery, props, lighting, and makeup. (4)

THEA 275 : Scenic Painting: Techniques

Color theory and hands-on painting techniques for theatrical productions. (2)

THEA 276 : Scenic Painting: Textures

Painting techniques and texture painting for theatrical productions. (2)

THEA 279 : Hand Drafting

Hand drafting techniques to create light plots or scenic draftings for theatrical applications. (2)

THEA 280 : Computer-Aided Drafting

The use of computers and software to create light plots or scenic draftings for theatrical applications. Prerequisite: THEA 279. (2)

THEA 285 : Costume Crafts and Construction

Costume production techniques, including sewing, use of equipment, knowledge of available materials, dyeing, and 3-D. (4)

THEA 287 : Special Topics in Theatre

To provide undergraduate students with new, one-time, and developing courses not yet available in the regular curriculum. The title will be listed on the student term-based record as ST: followed by the specific title designated by the academic unit. (1 to 4)

THEA 290 : Stage Management

The study and practice of stage management and its vital role in the theatrical production process. (2)

THEA 291 : Directed Study

To provide individual undergraduate students with introductory study not available in the regular curriculum. The title will be listed on the student term-based record as DS: followed by the specific title designated by the student. (1 to 4)

THEA 299 : The Profession of Theatre

An introduction of the various elements necessary to prepare for a life in the theatre, including portfolio and audition materials, agents and unions, graduate schools and the profession. (2)

THEA 300 : Improvisation

Long and/or short form improvisation techniques in addition to a variety of exercises exploring terminology, character work and elements of comedy. (2)

THEA 330 : Script Analysis

Discussion of the ideas, forms, structures, and elements of contemporary plays and musicals. (4)

THEA 345 : Playwriting

Techniques for writing short plays and an analysis of dramatic structure. (4)

THEA 346 : The Audition

Techniques for choosing and preparing effective audition material, cold and prepared readings, and head shots and résumés for

stage, television, and film. (2)

THEA 347 : The Vocal Audition

Techniques for choosing and preparing effective audition songs and cuttings for musical theatre. (2)

THEA 350 : Scene Study

Analyzing and performing scenes and monologues to deepen performances and prepare audition material. Prerequisite: THEA 250 or consent of instructor. (4)

THEA 351 : Stage Makeup

Basic techniques in theatrical makeup application including corrective, aging, three-dimensional, and special effects. (4)

THEA 355 : Lighting Design

A practical application of electrical, programming, and artistic skills needed for theatrical lighting design. Prerequisite: THEA 254. (4)

THEA 360 : Theatre History: Origins - ES

A survey of theatre's origins as an institution that reflects history while forming new social values and ideas. (4)

THEA 362 : Musical Theatre History - ES

A survey of Broadway musical theatre as an institution that reflects history while forming new social values and ideas. (4)

THEA 365 : Theatre History II - ES

A survey of theatre in modern and contemporary times as an institution that reflects history while forming new social values and ideas. (4)

THEA 380 : Directing I

The process of analyzing and making choices about scripts, casting, revealing the focus of scenes, and constructing the mood, rhythm, pace and main idea of productions. Prerequisite: THEA 250. (4)

THEA 385 : Musical Theatre Performance: Golden Age

An exploration of singing musical theatre from America's Golden Age in a studio setting. (4)

THEA 386 : Musical Theatre Performance: Modern

An exploration of singing musical theatre from America's modern era in a studio setting. (4)

THEA 387 : Topics in Theatre

This course will be offered as needed, and it will allow the faculty and guest artists to explore areas of expertise and interest that are not normally taught as part of the curriculum. Concentrated study of a major theatrical period, movement, author, theme, genre, performance style, culture, or technology. (2 to 4)

THEA 390 : Visual History: Period Costume and Décor - ES

A survey of the architecture, interiors, clothing, culture, and aesthetic of the western world through exposure to art, historical documents, and popular perspectives. (4)

THEA 400 : Theatre Rehearsal and Performance

Students perform in a faculty-directed production. Repeatable for a maximum of 12 semester hours. (0-4)

THEA 425 : Running Crew II

A practicum course, students work on intermediate and advanced-level running crew assignments or in production shops on a faculty-directed production. Repeatable for a maximum of 8 semester hours. (1-8)

THEA 450 : Styles

Analyzing and performing styles of acting representing various time periods and genres. Prerequisites: THEA 250 or consent of instructor. (4)

THEA 453 : Costume Design - CX

Development of artistic and technical abilities in the field of costume design incorporating history, patterns, and renderings. (4)

THEA 455 : Scenic Design

Explores the process used by scenic designers to create a physical environment for the stage through analyzing a theatrical text, formulating and expressing an approach through research, and executing their ideas through models and simple drafting.

Prerequisite: THEA 252. (4)

THEA 480 : Directing II

Builds on techniques learned in Directing I to develop stage productions. This includes interpreting text, analyzing premise, developing visual concepts, translating words and concepts into actions, and the process of communication between actors and designers. Prerequisite: THEA 380. (4)

THEA 485 : Theatre Management

The study of issues related to managing a theatre company and producing plays. (2)

THEA 491 : Independent Studies

Investigations or research in area of special interest not covered by regular courses; open to qualified junior or senior students. Requires pre-registration approved by a departmental sponsor. (1 to 4)

THEA 495 : Internship in Theatre

Internship or cooperative education experiences in the theatre. (1 to 4)

THEA 499 : Capstone - SR

Preparation of portfolios and project work that reflects both academic and practical knowledge gained through the study of theatre. (2)
