

A Research Experience for Undergraduates

REU 2020: Nanoscale Assembly of Molecules and Materials at Indiana University – Chemistry

Analytical – Synthesis – Materials – Chemical Biology – Physical

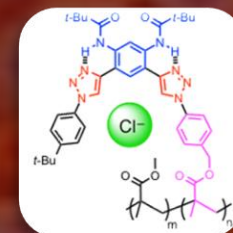

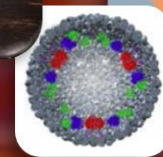

Nanoscale
Characterization

Nanomaterial
Synthesis &
Assembly

Polymers &
Biomaterials

This IU REU program offers summer fellowships to do world-class research in our chemistry department on the beautiful Bloomington campus.

Participants receive a summer stipend, travel and meal allowances, and on-campus housing.

10 Weeks Summer Experience

Apply by Jan 31st, 2020
