

UC DAVIS

REQUEST MORE INFO!

FUNDING

PhD students are financially supported:

- tuition and fees
- health insurance
- stipend of approximately \$32,000/year

INTERESTED IN GRADUATE SCHOOL IN APPLIED CHEMISTRY?

Agricultural & Environmental Chemistry is an interdisciplinary program!

Areas of specialization:

- Environmental and analytical chemistry
- Biological and toxicological chemistry
- Food and wine chemistry
- Fiber and polymer chemistry

APPLICATION DEADLINE: JANUARY 5

RECENT RESEARCH TOPICS

- Chemistry of pollutants in water, air, and soil
- Biofuel production
- Climate change, agriculture, and water
- Toxicants in food and wine
- Sustainable/functional fibers
- Research at field stations (e.g. Tahoe Environmental Research Center, Bodega Marine Lab)
