

MACR

Macromolecular Science and Engineering
Doctoral & Master's Programs

MACROMOLECULES
INNOVATION INSTITUTE
VIRGINIA TECH.

Competitive stipends and tuition reimbursement!

Interdisciplinary graduate degree program (Ph.D. & M.S.)

- At the intersection of chemistry, polymer science, and engineering
- Exciting research collaborations across multiple departments & disciplines
- Free grad student access to brand-new Materials Characterization Lab

Research with renowned faculty in: Polymer Synthesis, Processing, Additive Manufacturing, Polymer Morphology, Mechanics, Composites, Biopolymers, Pharmaceuticals, Adhesion & Surface Science, Electronics, and more!

Over 35 engineering and science courses offered in:

- Chemistry
- Chemical Engineering
- Civil & Environmental Engineering
- Biomedical Engineering and Mechanics
- Mechanical Engineering
- Sustainable Biomaterials

Applications due January 15th - Learn more at www.mii.vt.edu
