

MESA FUN STEM SUMMER CAMP 2021

Tacoma/South Puget Sound MESA is offering a virtual series of one-week summer camps for middle school and high school students covering STEM topics, such as Sound Engineering, Robotics, and Food Science. The summer camp is designed to focus on three STEM topics and will be held throughout July 12th- July 29th. Each camp will serve 25 students. Students will be allowed to participate in one camp only, Monday through Thursday, and attend a field trip at the end of each camp.

Theme: “Imagining our Future Now”

Purpose: MESA STEM summer weekly camps encourage and inspire students entering 6th-12th grade to develop a passion for science, technology, engineering, mathematics, and develop the leadership and academic skills necessary to pursue a career in STEM fields.

Learning Objective: During the STEM weekly camps, students will have opportunities to develop their skill set, meet professionals in the STEM field, work on projects, and make new friends! Students will have the opportunity to enroll one in the following camps: Music and Engineering, Robotics, or Food Science week camp.

Dates: Monday-Thursday

July 12th-July 15th | Engineering and Music Production

In this summer camp, students will explore and learn STEM concepts about music and sound engineering. In addition to learning how to create/modify sounds, students will learn about drum beats and patterns.

July 19th-July 22nd | Robotics

In this summer camp, students will explore STEM concepts through computer coding.

July 26th-July 29th | Food Science

In this summer camp, students will explore STEM concepts of food and science connection.

Time: Middle School | 9:00 am-10:30 am

High School | 10:30 am-12:00pm

Who can apply: The camps are designed for middle school and high school students. Students must be entering middle school or high school by Fall of 2021.

Registration Deadline: July 8th
