

Program Cost Sheet AY2022

Master of Science in Marketing Analytics (Hybrid Track)

The MSMA program requires 36 semester credits for completion. The hybrid track follows the same curriculum as the online track and allows students to choose from two schedule options:

1. One-Year Option – Students will take online classes and participate in at least one course per term that will be held on the PLU campus in a traditional classroom setting. New international students are eligible for F-1 or J-1 visa status while studying in the U.S. for the full year.

2. Two-Year Option – Students will complete their first year remotely with fully online classes and complete the second year with a combination of online and in-person classes on the PLU campus. In the first year, international students study online from their home country without being in the F-1 or J-1 visa status. In the second year, students will be eligible for entering the U.S. in F-1 or J-1 status to study on the PLU campus.

Total program tuition: \$38,196 (\$1,061 per semester hour)

Additional fees include: technology fee (\$250/year), wellness fee (\$100/year), a one-time matriculation fee (\$200), books and materials for coursework.

| One-Year Option | | |
|--------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
