This advising guide is for advising purposes only and does not denote a contract with the student or Pacific Lutheran University. Many programs have specific deadlines for application or declaration; contact the department or program chair for information. This information is accurate as of May 17, 2022; please check with your program chair for updates to the program. The university reserves the right to make necessary changes at its discretion.

General education course requirements are listed assuming that major classes will not count toward the general education course requirements. If a course counts towards a major and a general education requirement (e.g. PSYC 101 if the student is a psychology major), students will still need to take enough courses (shown here as electives) to reach the 128 credits needed to graduate.

Department requirements

- Course Prerequisites: A grade of C- or higher must have been earned in a course in order for it to qualify as a prerequisite and to apply towards the major.
- Experiential Learning: All Psychology majors are required to take a minimum of 2 semester hours of PSYC 495, 496 or 497.
- Capstone: Psychology majors are required to complete a capstone project and present this project as part of PSYC 499 at the Psychology Research Conference held every term.

General Degree Requirements

- A minimum of 128 semester hours must be completed with a GPA of 2.00 or higher
- In addition to the requirements of this major, students must complete all other requirements of the University as listed in the catalog
- At least 8 semester hours for the major must be taken in residence at PLU.
