

2026 Rachel Carson Science, Technology, & Society Lecture

# MIGRANT ECOLOGIES: PLANT WORLDS AND THE AFTERLIFE OF EMPIRE

Sponsored by a generous endowment from George L. and Helen B. Long

**Monday, February 23**

**Anderson University Center,**

**Chris Knutzen Hall**

**7:00 P.M.**

Community dinner at 5:30 p.m.

Pre-registration required

Dr. Banu Subramaniam, Luella LaMer Professor of Women's and Gender Studies at Wellesley College, will explore the lasting impact of colonialism on plant science. Her talk will trace how foundational ideas about gender, race, sexuality, and nation continue to shape its language and theories.
