

Yuri's Night Celebration

Celebrate Yuri's Night with the Division of Natural Sciences!

All of the PLU campus community and their families are invited to attend.

Yuri's Night is a global celebration of humanity's past, present, and future in space. Parties and events are held around the world every April in commemoration of Yuri Gagarin becoming the first human to venture into space in April, 1961, and the inaugural launch of the first Space Shuttle in April, 1981. Yuri's Night events combine space-themed partying with education and outreach. Visit <https://yurisnight.net> for more information.

Enjoy a night full of fun with:

- 🚀 A presentation by an esteemed faculty member about Yuri Gagarin's life, the Yuri's Night concept, and the challenges of space travel
- 🚀 A space-themed photo booth and a game with prizes!
- 🚀 The captivating documentary film Women In Space on the big screen (with snacks and drinks)
- 🚀 Feeling generous? A donation box will be set out for the Pierce County Humane Society in honor of the animal astronauts who made human spaceflight possible. Cash, check and new or lightly used pet supplies will be accepted.
- 🚀 Tours will be taken to the Keck Observatory for viewing, weather permitting
