

**THE 2020 RACHEL CARSON SCIENCE, TECHNOLOGY AND SOCIETY LECTURE**

*This lecture is made possible by the George L. and Helen B. Long Science, Technology and Society Endowment in Natural Sciences.*

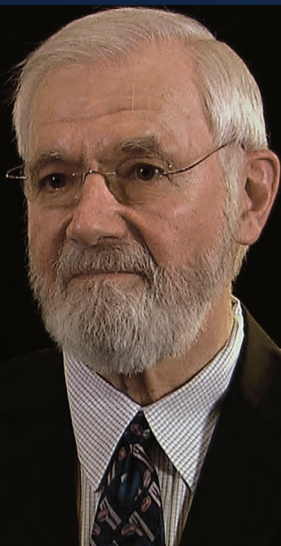

# Why to Avoid a Life Plan

**FOEUGE**  
William Foege, M.D. '57, PLU Biology  
University of Washington School of Medicine '61

Karen Hille Phillips Center, Feb. 20th, 7:30 p.m.

“Rachel Carson forced us to see the future implications of our current actions. What are the things that we should be focusing on as threats to our very survival, and what are some of the most important things we could now do to reduce those threats and improve the future if humanity does survive?” - Dr. William Foege

Please join us as we welcome home professor, author and global health champion, Dr. Bill Foege.

*Senior Medical Advisor for the Bill and Melinda Gates Foundation*

*Presidential Medal of Freedom Award Winner 2012*
