On-Campus Alternative Course Authorization Form

Under special circumstances students in the International Honors Program may request authorization to fulfill an International Honors requirement through an alternative on-campus course. These may include:

1. A 300-level foreign language course taken on campus that is specifically designed to meet the learning objectives of 200-level IHON courses.
2. On rare occasion and under extenuating circumstances, another university course, provided that a special arrangement has been made in advance with the course professor, the student, and the IHON chair.

Students seeking authorization to fulfill a required IHON course through one of the two above means will complete this form, obtain the required signatures, and return to the Student Services Center for processing.

Student Name: ______________________________       I.D. Number: ________________

Please print

Campus email address: ___________________     Expected date of graduation: _________
