

**Hazardous chemical spill?
Hazardous chemical exposure?
Notify nearest faculty member IMMEDIATELY!**

Was anyone injured or exposed?

Yes

No

Remove them from immediate harm.
Treat with available 1st Aid.
If injury is severe, **call 911**.

Next

Restrict access to spill by closing doors, posting warning signs.

Next

Faculty will decide whether or not the spill can be managed with supplies on hand. The size of the spill and its associated hazards will determine how to proceed.

Can the spill enter the floor drain?
Use absorbent material (booms, pads) or a drain cover to prevent the spill from entering the drain.
