INTRODUCTION AND OVERVIEW

Field instruction is an integral component of social work education and is critical in meeting PLU's department objective of preparing students for entry-level generalist social work practice. Indeed, the Council on Social Work Education has deemed field education to be the signature pedagogy of social work education:

Signature pedagogy represents the central form of instruction and learning in which a profession socializes its students to perform the role of practitioner. Professionals have pedagogical norms with which they connect and integrate theory and practice (Shulman, 2005). In social work, the signature pedagogy is field education. The intent of field education is to connect the theoretical and conceptual contribution of the classroom with the practical world of the practice setting. It is a basic precept of social work education that the two interrelated components of curriculum—classroom and field—are of equal importance within the curriculum, and each contributes to the development of the requisite competencies of professional practice. Field education is systematically designed, supervised, coordinated, and evaluated based on criteria by which students demonstrate the achievement of department competencies. (CSWE, 2008)

Through field instruction, students deepen their understanding of human behavior and develop and enhance skills in applying social work methods with diverse populations and situations. Through field experience, they are able to use theoretical and intellectual understanding of social policy to guide practical intervention, and they are able to utilize research skills and knowledge to access, evaluate, and modify interventions at all levels of social work practice. They also are able to evaluate their own practice.

The Social Work Department at PLU utilizes a concurrent model of field experience. Full-time students complete a field experience during the fall and spring semesters of their senior year, while completing the social work practice course sequence as well as the Senior Seminar. All other required course work in the major is completed prior to beginning field experience.

All students must complete a minimum of 460 hours in the agency setting. Total hours are generally completed in one agency setting, though under special circumstances, there may be a split placement.

Field liaison activities are carried out by the Coordinator of Field Instruction, Field Seminar Instructor, and other social work faculty. This linkage between field and school provides continuity for both students and the department and facilitates achievement of the goals of the field learning experience.

The Tacoma/Pierce County area offers rich opportunities to work with diverse populations. Agencies are required to provide experiences where students may be exposed to this diversity. In addition to client contact, this exposure may occur through readings, discussion, and visitation with other community resources in order to accomplish specific learning objectives regarding cultural diversity and the impact of race, class, gender, sexual orientation, and age on social work practice.

This manual is intended to provide guidance and direction for the Field Experience classes as they relate to the overall social work curriculum. It is intended to be used by faculty, field instructors, and students. This manual was developed with input from faculty, field instructors, students, and the Social Work Advisory Committee and is reviewed and updated annually.

MISSION OF SOCIAL WORK DEPARTMENT

**Mission:** “Educating caring, skillful generalists to be ethical agents for global and local change.”

The Pacific Lutheran University Social Work Department is dedicated to educating individuals for social work practice with individuals, families, households, groups, communities and organizations within a generalist framework that is based on a philosophy of social justice, egalitarianism, pluralism, and compassion for the oppressed.

The historical mission of the social work profession is dedicated to both personal development and social change; to the enhancement of individual, group, and community problem-solving capacities; and to the design and construction of a society committed to social justice and compassion for oppressed, vulnerable, and diverse populations. Professional education that prepares practitioners to pursue such a mission effectively must encourage not only intellectual rigor and professional ethics and standards, but also the qualities of courage, commitment, and compassion. It must prepare professionals for direct practice as well as providing them with knowledge and experience as they relate to group, community, and organizational structures.

Contemporary social work education and practice are grounded in the profession’s social purpose, which calls for a dual, simultaneous focus on the strengths of individuals, families, groups, organizations and communities as forces for growth and social change and on those organizational structures and social systems that provide the context for human growth, interaction, and change. Social work’s person-in-environment approach reflects its emphasis on the ecological perspective, which provides an adaptive and evolutionary view of human beings in constant interchange with all aspects of their social environments.

The Social Work Department at Pacific Lutheran University draws on the liberal arts. We recognize that social issues and social problems are always complex, interconnected, and interrelated. Therefore, social work education is strengthened and enriched by a cross-cultural and interdisciplinary perspective on social problems, social issues, and social inventions. It encourages a commitment to informed social action to remove structurally-based inequities and the use of a multi-method approach to social work practice in order to meet a wide range of individual, family, group, organizational, and community needs. The social work curriculum is organized to provide students with opportunities to develop awareness, apply methods and theories, and demonstrate competence.

The Tacoma/Pierce County area provides a rich, culturally diverse environment for study and practice. Recognizing that we live in a community that has been enriched by successive waves of immigrants and acknowledging that social work must be practiced in a global context, the social work department seeks to provide content and experiences that enhance students’ ability to practice in the 21st century. This includes activities in the classroom, in the community, and even across the globe.

ROLE OF FIELD EDUCATION IN THE CURRICULUM

As field education is the signature pedagogy of social work education, it plays a central role in the curriculum. This is the arena in which students integrate the theoretical and conceptual foundation of the classroom with the agency setting. Through their field experience, students are able to implement the knowledge and skills they have developed in their foundational coursework.

Within the field experience, students are provided opportunities to learn, develop, and demonstrate skills in generalist practice. This suggests that in their field sites, students will be engaged in work with individuals, families, groups, communities, and organizations and will utilize a variety of skills. Generalist social work practitioners identify with the social work profession, apply ethical principles and critical thinking, incorporate diversity in practice, advocate for human rights and social and economic justice, engage in evidence-based practice, apply knowledge of human behavior and the social environment, engage in policy
practice, respond to contexts that shape practice, and engage, assess, intervene and evaluate their practice with client systems of varying sizes. (2008 EPAS, CSWE; Pierce, 2008, Field Education in the 2008 EPAS)

OBJECTIVES OF THE SOCIAL WORK DEPARTMENT AND FIELD EDUCATION
The baccalaureate curriculum is organized by a set of educational outcomes and student competencies that focus the objectives for social work education in the classroom and in the field. These objectives are grounded in the 2008 Educational Policies and Accreditation Standards [EPAS] of the Council on Social Work Education [CSWE]. The objectives for each social work course can be found in its syllabus.

All social work majors must complete a minimum of 460 hours (two semesters) of Field Experience as part of their degree requirements. The primary objective of Field Experience is to provide a structured, supervised, individualized learning experience in a social work setting which will enable the student to apply and integrate theory and skills in practice situations. Additionally, this will enhance the student's understanding of and identification with the profession of social work. Upon completion of Field Experience, graduates should demonstrate each of the competencies of the social work department.

EDUCATIONAL POLICY AND ACCREDITATION STANDARDS
COUNCIL ON SOCIAL WORK EDUCATION

Educational Policy 2.1.1—Identify as a professional social worker and conduct oneself accordingly.
Social workers serve as representatives of the profession, its mission, and its core values. They know the profession’s history. Social workers commit themselves to the profession’s enhancement and to their own professional conduct and growth. Social workers
• advocate for client access to the services of social work;
• practice personal reflection and self-correction to assure continual professional development;
• attend to professional roles and boundaries;
• demonstrate professional demeanor in behavior, appearance, and communication;
• engage in career-long learning; and
• use supervision and consultation.

Educational Policy 2.1.2—Apply social work ethical principles to guide professional practice.
Social workers have an obligation to conduct themselves ethically and to engage in ethical decision-making. Social workers are knowledgeable about the value base of the profession, its ethical standards, and relevant law. Social workers
• recognize and manage personal values in a way that allows professional values to guide practice;
• tolerate ambiguity in resolving ethical conflicts; and
• apply strategies of ethical reasoning to arrive at principled decisions.
Educational Policy 2.1.3—Apply critical thinking to inform and communicate professional judgments.
Social workers are knowledgeable about the principles of logic, scientific inquiry, and reasoned
discernment. They use critical thinking augmented by creativity and curiosity. Critical thinking also requires
the synthesis and communication of relevant information. Social workers
• distinguish, appraise, and integrate multiple sources of knowledge, including research-based
knowledge, and practice wisdom;
• analyze models of assessment, prevention, intervention, and evaluation; and
• demonstrate effective oral and written communication in working with individuals, families,
groups, organizations, communities, and colleagues.

Educational Policy 2.1.4—Engage diversity and difference in practice.
Social workers understand how diversity characterizes and shapes the human experience and is critical to the
formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors
including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration
status, political ideology, race, religion, sex, and sexual orientation. Social workers appreciate that, as a
consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and
alienation as well as privilege, power, and acclaim. Social workers
• recognize the extent to which a culture’s structures and values may oppress, marginalize,
alienate, or create or enhance privilege and power;
• gain sufficient self-awareness to eliminate the influence of personal biases and values in
working with diverse groups;
• recognize and communicate their understanding of the importance of difference in shaping
life experiences; and
• view themselves as learners and engage those with whom they work as informants.

Educational Policy 2.1.5—Advance human rights and social and economic justice.
Each person, regardless of position in society, has basic human rights, such as freedom, safety, privacy, an
adequate standard of living, health care, and education. Social workers recognize the global interconnections
of oppression and are knowledgeable about theories of justice and strategies to promote human and civil
rights. Social work incorporates social justice practices in organizations, institutions, and society to ensure
that these basic human rights are distributed equitably and without prejudice. Social workers
• understand the forms and mechanisms of oppression and discrimination;
• advocate for human rights and social and economic justice; and
• engage in practices that advance social and economic justice.

Educational Policy 2.1.6—Engage in research-informed practice and practice-informed research.
Social workers use practice experience to inform research, employ evidence-based interventions, evaluate
their own practice, and use research findings to improve practice, policy, and social service delivery. Social
workers comprehend quantitative and qualitative research and understand scientific and ethical approaches to
building knowledge. Social workers
• use practice experience to inform scientific inquiry and
• use research evidence to inform practice.
Educational Policy 2.1.7—Apply knowledge of human behavior and the social environment.
Social workers are knowledgeable about human behavior across the life course; the range of social systems in which people live; and the ways social systems promote or deter people in maintaining or achieving health and well-being. Social workers apply theories and knowledge from the liberal arts to understand biological, social, cultural, psychological, and spiritual development. Social workers
• utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation; and
• critique and apply knowledge to understand person and environment.

Educational Policy 2.1.8—Engage in policy practice to advance social and economic well-being and to deliver effective social work services.
Social work practitioners understand that policy affects service delivery, and they actively engage in policy practice. Social workers know the history and current structures of social policies and services; the role of policy in service delivery; and the role of practice in policy development. Social workers
• analyze, formulate, and advocate for policies that advance social well-being; and
• collaborate with colleagues and clients for effective policy action.

Educational Policy 2.1.9—Respond to contexts that shape practice.
Social workers are informed, resourceful, and proactive in responding to evolving organizational, community, and societal contexts at all levels of practice. Social workers recognize that the context of practice is dynamic, and use knowledge and skill to respond proactively. Social workers
• continuously discover, appraise, and attend to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant services; and
• provide leadership in promoting sustainable changes in service delivery and practice to improve the quality of social services.

Educational Policy 2.1.10(a)–(d)—Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.
Professional practice involves the dynamic and interactive processes of engagement, assessment, intervention, and evaluation at multiple levels. Social workers have the knowledge and skills to practice with individuals, families, groups, organizations, and communities. Practice knowledge includes identifying, analyzing, and implementing evidence-based interventions designed to achieve client goals; using research and technological advances; evaluating department outcomes and practice effectiveness; developing, analyzing, advocating, and providing leadership for policies and services; and promoting social and economic justice.

Educational Policy 2.1.10(a)—Engagement
Social workers
• substantively and affectively prepare for action with individuals, families, groups, organizations, and communities;
• use empathy and other interpersonal skills; and
• develop a mutually agreed-on focus of work and desired outcomes.
Educational Policy 2.1.10(b)—Assessment
Social workers
• collect, organize, and interpret client data;
• assess client strengths and limitations;
• develop mutually agreed-on intervention goals and objectives; and
• select appropriate intervention strategies.

Educational Policy 2.1.10(c)—Intervention
Social workers
• initiate actions to achieve organizational goals;
• implement prevention interventions that enhance client capacities;
• help clients resolve problems;
• negotiate, mediate, and advocate for clients; and
• facilitate transitions and endings.

Educational Policy 2.1.10(d)—Evaluation
Social workers critically analyze, monitor, and evaluate interventions.

SOCIAL WORK CURRICULUM

The social work curriculum consists of 36 semester hours of required courses through the Social Work Department as well as several prerequisites and supporting courses outside of the department. In addition, a strong liberal arts background is a key component of the degree. Students may elect to take additional courses in the Social Work Department but may not count more than 44 within the Department toward the 128 hours required for the B.A., consistent with University requirements. An outline of courses follows:

SOCW 101 (FYEP 190): Introduction to Social Work. A, S2. An introduction to human need and the field of social work. Provides an overview of services, models of service delivery, and professional social work values. Students visit agency settings and meet with social work practitioners. A volunteer experience in the field is a required component of this seminar-style course. (4)

SOCW 245: Human Behavior and the Social Environment – S2 Students examine developmental theory through the lens of an ecological systems perspective and a biopsychosocial-spiritual framework, emphasizing power, privilege, and cultural differences (particularly race/ethnicity, gender, and sexual orientation) as applied to individuals, families, groups, institutions, organizations, and communities locally and globally. Volunteer experience is required. (4)

SOCW 250. Social Policy I: History of Social Welfare. Exploration of power, privilege and oppression emphasizing political process and global social change in the development of the American welfare state and the profession of social work. Students reflect critically upon personal and social values, social welfare systems and their performance, the impact of political ideology and compromise on vulnerable populations, and the function of professional social work. (4)

SOCW 350. Social Policy II: Policy Analysis. Students develop legislative policy practice and advocacy skills, and examine the impact of policy implementation, administration, and governmental structure on services to vulnerable populations. Critical thinking is used to analyze contemporary global and local policy in income assistance, health/mental health, child welfare, homelessness, and services to seniors. Prerequisites: 250. (4)

SOCW 360. Social Work Practice I: Interviewing and Interpersonal Helping. Students learn the conceptual framework of generalist practice and apply the ecological systems perspective to practice. This course introduces engagement, assessment, intervention, and evaluation in the context of social work both locally and globally. Students are able to learn intentional interviewing skills and apply those skills within various models of practice and across cultures. Must register concurrently for lab. Prerequisites: 250, 245. (4)

SOCW 460: Social Work Practice II: Families and Groups – S2. Grounded in the framework of generalist social work practice, the second social work practice course examines theoretical models and practice skills for assessment and intervention with families and groups. Emphasizes the importance of culturally sensitive practice. Introduces students to group dynamics and group development. Prerequisites: SOCW 245, 360. (4)

SOCW 465. Social Work Practice III: Macropractice. Using the generalist social work practice framework, students develop engagement, assessment, intervention and evaluation skills for local and global practice with organizations, and communities. As professional social workers, students map community assets, examine community development, and advocate for diverse and marginalized groups. Students recognize social service organizations as a changing context for professional practice and research. Prerequisites: 250, 360, 245, 350. (4)
**SOCW 475: Field Experience I.** Students are placed in a social service agency where, under supervision, they demonstrate the generalist skills of engagement, assessment, intervention, and evaluation of practice. They apply ethical principles in interactions with clients and staff, demonstrate critical thinking, engage and embrace diversity, demonstrate and apply knowledge of human behavior and the social environment. Prerequisites: SOCW 245, 350, 360; to be taken concurrently with SOCW 460 and 485; requires consent of instructor. Pass/Fail. (3)

**SOCW 476: Field Experience II.** Continuation of SOCW 475. Students practice and refine the generalist skills of engagement, assessment, intervention, and evaluation. Their identification with the social work profession deepens. They analyze how their agency responds to changing contexts and reflect on ways to engage in policy and advocacy practice. Must be taken concurrently with SOCW 465 and 486. Pass/Fail. (3)

**SOCW 485: Field Experience Seminar I.** Students integrate the theories and skills from their coursework with experiences in their field settings, applying theories of human behavior and the social environment. They write and analyze a case and practice self-reflection by developing a plan to evaluate their own practice. Must be taken concurrently with SOCW 475. (1)

**SOCW 486: Field Experience Seminar II.** Students continue to grow in their professional identification and behavior. They make a formal case presentation to professional social workers, demonstrating their application of knowledge, values, and skills and their competence in engagement, assessment and intervention. They evaluate their own practice. Must be taken concurrently with SOCW 476. (1)

**SOCW 498 and SOCW 499: Capstone: Senior Seminars.** This two-term integrative seminar requires students to explore a field of generalist practice across all of the competencies of the social work profession, including reciprocal relationships between research and practice, the policies that impact practice, global perspectives, typical ethical issues, role of diversity, evidence-based interventions and ways they may evaluate their practice. This culminates in a paper and public presentation. Prerequisites: SOCW 245, 350, 360, 460 and 475 and SOCI 232. (4)

**SOCl 232. Research Methods.** An overview of the methods to explore, describe and analyze the social world. General issues in the design and implementation of research projects, as well as specific issues that arise in conducting interviews and field observations, constructing and administering surveys, analyzing existing data and planning program evaluations. Required for junior Sociology and Social Work majors. Prerequisite: SOCI 101, junior status, or consent of instructor. (4)

**Additional Course Offerings:**

**SOCW 175: January on the Hill.** An intense experience of community work on Tacoma's Hilltop District and/or Tacoma's east side where students learn first hand about poverty and participate in community projects. (4)

**SOCW 320 – Child Welfare- A Global Perspective.** An examination of child welfare, including child abuse & neglect; child welfare services, including CPS, permanency planning, foster care, adoption; and the current status of child well-being around the world, exploring the impact on children of such issues as poverty, war, nutrition, HIV/AIDS, access to education, access to health care, care for orphans, street children. (4)

**SOCW 325 – Social, Educational, and Health Services in Tobago.** Explore strengths and needs of Tobago and effects of history and colonialism on the development of community problems. Through service learning, interaction with agency staff and community members, readings and reflections, develop an understanding of the meaning of service in another culture and deepen one’s own ethic of meaningful service. (4 credits)
SOCW 329—*Compassionate Practice: Spirituality and Contemplation in the Helping Professions.* An introduction to spirituality and contemplation designed for students who anticipate their career in the helping professions including, but not limited to, social work, psychology, nursing, sociology, and education. Students will have an opportunity to explore and develop their own spiritualities and also learn to incorporate spirituality and contemplation in their professional client assessment, and personal, professional development. (4)

SOCW 345—*Gerontology.* Explore the reality of growing older in America and around the world. Learn about adult development, needs and services for older adults, and advocacy with them. Consider providers of services to elderly adults. Ponder how society cares for older people. Calculate the fate of Social Security as baby boomers age. Explore Gerontology as a field of social work practice. Service learning is a vital component. (4)

SOCW 375: *Social Services in the Community.* Completion of a minimum of 50 hours of work in a community setting. Through written work, students reflect on their experiences, their personal growth, and the mission of the agency. May be repeated for credit up to 2 semester hours. Prerequisites: SOCW 175, 245, or 360. (1)

SOCW 387: *Special Topics in Social Work.* Selected topics as announced by the department. Topics relevant to current trends and issues in the field of social work. (2–4)

SOCW 491: *Independent Study.* Prerequisite: Consent of instructor. (1–4)

Additional required courses:

Biology 111
Anthropology 102
Sociology 101
Psychology 101
Statistics 233—*must be taken at PLU*
ADMINISTRATIVE ASPECTS OF FIELD INSTRUCTION

Responsibilities of Field Coordinator:
- to identify and recommend those agencies which meet the criteria for field experience;
- to confer with students regarding progress in field instruction and/or any problems in Field Experience;
- to maintain current information on each of the agencies regarding the type of experiences offered to students in each setting and credentials of field instructors;
- to contact agency to advise of potential student(s) for placement;
- to interview each student regarding educational goals for Field Experience and assign students to individual field instructors;
- to orient students to the expectations of Field Experience;
- to provide the individual field instructor with information about the background, abilities and interests of students to be assigned, within the limits of personal, professional, and University standards regarding confidentiality;
- to create and conduct orientation for field instructors and to develop, coordinate and present seminars and appropriate in-service learning opportunities for field instructors and faculty on the relationship between classroom and field;
- to maintain good working relationships between field learning sites and the Social Work Department;
- to maintain communication with the field instructor and students;
- to consult with students and/or field instructors regarding any problems or potential difficulties arising from student or agency performance;
- to maintain and update Field Experience Manual;
- to participate in the design of the explicit curriculum;
- to assist in the development and monitoring of integrative seminars and field liaison activities;
- to provide feedback to field instructors and agencies regarding student evaluations of their experiences in that setting;

Responsibilities of Field Seminar Instructor/Faculty Liaison
- to maintain good working relationships between field learning sites and the Social Work Department;
- to maintain communication with the field instructor and students;
- to assist in the integration of classroom and practice;
- to assign grades to students after obtaining input from field instructor;
- to act as faculty liaison, visiting each agency at least once each semester to monitor student progress;
- to assist students with development of learning plan and to approve final learning agreement;
- to consult with students and/or field instructors regarding any problems or potential difficulties arising from student or agency performance.

Responsibilities of Field Instructor:
The Field Instructor carries primary responsibility for the student's day-to-day experiences in the agency setting. Specific responsibilities are:
- to attend meetings for field instructors;
- to provide resume indicating completion of BSW or MSW from CSWE accredited program;
- to conduct pre-placement interview with student;
- to develop educational plan (Field Learning Agreement – Appendix) with student;
- to orient student to the agency, to policies, to expectations for field experience;
to provide regularly scheduled weekly individual or group supervision sessions to instruct in relevant content as well as review performance;
- to participate in evaluation conferences with the faculty liaison/field coordinator;
- to assess the student's performance, needs, progress and complete and discuss the Student Evaluation (Appendix);
- to notify faculty liaison of any problems or concerns with the student and/or the learning situation and work with faculty liaison and student to resolve such problems;
- to provide feedback to faculty liaison regarding recommendations for improving Field Experience.

Responsibilities of Student:
The student has a critical role in the field learning process and is expected to participate in the formulation and implementation of that process. The student is expected:
- to develop current resume of relevant educational, employment, and volunteer experience;
- to review videotape of interviewing skills with field coordinator and/or instructor of SOCW 360L;
- to schedule and actively participate in pre-placement interview with field coordinator;
- to obtain information with regard to agency function, structure, policies and programs and work in a manner which is consistent with these program and policies;
- to act in a professional manner as a representative of the agency in contacts with consumers, persons in the community, and other agency personnel;
- to comply with administrative procedures of agency and assume role as a member of agency's staff in adhering to agency personnel policies, regulations and procedures;
- to participate in the development of learning goals and objectives and in the evaluation of performance during the field experience through constructive and appropriate use of supervision and the formal evaluation process;
- to take the initiative in resolving learning difficulties or other concerns by communicating such concerns with the field instructor and faculty liaison;
- to practice in accordance with the NASW Code of Ethics;
- to participate in evaluation of performance in field setting;
- to complete evaluation of the field experience setting;
- to obtain signed and dated log of hours indicating completion of 460 hours of field experience.

Responsibilities of PLU/Social Work Department:
- to recognize that the agency's primary responsibility is to offer services to consumers;
- to provide faculty advisor to student throughout his/her educational program;
- to ensure that student's field experience is integrated with academic learning;
- to offer agency personnel the opportunity to participate on committees relative to field and classroom curriculum;
- to ensure that field experience program meets accreditation standards, involves field instructors in this process and informs them of results of accreditation review.
- To maintain current Statements of Understanding between the Division of Social Sciences, Pacific Lutheran University and Affiliated Agencies.
Responsibilities of Agency:

• to submit job description - what experiences are available for students; what types of students may best fit in with agency; expectations of students;
• to sign the Statement of Understanding between the Division of Social Sciences, Pacific Lutheran University and Affiliated Agencies;
• to provide administrative support for Field Experience (allowing field instructors time for supervision, attendance at meetings).

FIELD EXPERIENCE POLICIES

Eligibility for Field Experience
Only those students who have been admitted into the Social Work Department are eligible to register for Field Experience. As a part of their application, they will have signed a statement to practice in accordance with NASW Code of Ethics; they also will have been cleared through the Washington State Patrol background check. Students must have completed the foundation courses (245, 250, 350, 360) and must have a minimum GPA of 2.5 overall, 2.75 for coursework in the major; each individual SOCW course grade must be C- or higher. In addition, they must have presented a videotape of their interviewing skills and reviewed this tape with field coordinator and/or instructor for SOCW 360. They also complete a resume, application for field, and interview with the Field Coordinator.

Supervision
Field instructors for baccalaureate social work students must hold a CSWE-accredited baccalaureate or master’s social work degree. This supervision should occur weekly. In the event that the day-to-day supervisor (also referred to as the task supervisor) does not meet this requirement, in addition to weekly supervision with the task supervisor, the student must also have supervision with a social work supervisor at least bi-monthly in order to provide a social work perspective within the agency setting.

No student is to be supervised by a close relative, spouse, significant other person or close personal friend.

No student is to make separate monetary payment for supervision of field experience.

Field Learning Plans
A Learning Plan (Appendix) which defines the activities of student learning is to be developed by the student and field instructor(s) during the first five weeks of placement. It is designed to meet the educational needs of the student for the first semester of the placement, but may be renegotiated and modified to meet the changing needs of the student and/or agency. Each learning plan has some set learning activities that serve as benchmarks for competencies; as well, there are blank spaces on the learning plan for individual specific-activities designed for the field agency. A second learning plan, with new benchmark activities will be developed by the student and the field instructor(s) within the first three weeks of the second half of the field experience (i.e. generally within the first three weeks of spring semester).
Evaluation of Field Learning Plans
The Student Learning Plan Evaluation Form (Appendix) is designed to measure student performance of practice behaviors that operationalize the competencies of the department. Both the field instructor and student will complete the Student Evaluation Form. The field instructor is strongly encouraged to discuss the the evaluation with the student prior to its submission. Student field experience grades may be posted as an incomplete unless a completed and signed student evaluation form is submitted to the faculty field seminar instructor—accompanied by log of hours completed to date with student and field instructor signature—by noon on Friday December 12 (fall semester) and Friday May 15 (spring semester). Additionally, at the end of spring semester, students must complete and submit the Evaluation of the Field Experience (Appendix).

If a field instructor assesses a student's performance as unsatisfactory, he/she should confer with the faculty liaison immediately to discuss the severity of the situation and what steps should be taken to ameliorate the problem. If the student is in danger of receiving a failing grade, he/she must receive written warning from the faculty liaison by mid-semester.

Number of Hours Required
Students are required to take both Field Experience I and Field Experience II. Each course provides three semester hours of academic credit. Students are required to complete a minimum of 230 hours of work for each course (for a total of 460 hours of field work experience). Proper responsibility to agency and client may on occasion necessitate some additional time. This should not, however, interfere with the student's other educational responsibilities.

The student needs to keep track of field experience hours. At the end of each semester, a log of hours, signed by both student and field instructor, needs to be turned in to the Field Coordinator.

Use of Automobile
Students who will use a car as part of their placement are responsible for maintenance of current insurance. The insurance company should be made aware that the student is using the vehicle for business purposes. Regardless of personal insurance, no student may transport a client in a personal vehicle. Students may use agency vehicles to transport clients, but are strongly urged to explore the insurance coverage the agency provides for them.

Most agencies reimburse for mileage while conducting agency business. Students and agencies should clarify travel arrangements and requirements prior to the beginning of the placement.

Student Conduct
All students must adhere to the NASW Code of Ethics and observe clients' rights to confidentiality, whether guaranteed through FERPA or HIPAA or separate agency policies. Additionally, they must follow the Pacific Lutheran University Code of Conduct and be in compliance with agency codes of conduct.

Field Experience and Employment
Students may be placed in an agency in which they are a salaried employee, but only under the following conditions:

- the agency must be an approved field learning site;
- the placement must provide a viable educational experience for the student;
- the student, in the role of learning, must have opportunities that reflect the competencies of the social work department; these assignments may be distinguished from employment responsibilities;
- the student must have an identifiable learning experience different from previous work experience;
- Field liaison, student, agency, and field instructor must agree to this.
Field Experience Starting Date
Because liability coverage begins at the start of the semester, students must begin their field experience on or after the beginning of fall semester. There may be special circumstances in which the student may complete a minimal number of hours of agency orientation before the beginning of the semester as long as there is no client contact, but this must be approved by the Field Coordinator. Students are expected to work into May, but if they have reached their required number of hours, they may complete the experience up to two weeks prior to the end of the semester. Students may continue their hours through PLU holidays, but are not required to do so. They are expected to confer with their field instructor regarding their availability during school breaks, including January term.

Excused Absence from Field Experience
Students are expected to work on an agreed schedule. Continuity of service to clients is a primary consideration when arranging for absences from Field Experience. Students are excused from Field Experience on PLU and agency holidays, but need to communicate clearly with their field instructor regarding University and agency schedules. Students may choose to work on PLU holidays. Absences due to illness must be made up so that the student completes the required number of hours. Attendance at professional meetings may be required or encouraged by the field instructor. In such cases, this is considered part of the field experience and counts toward the minimum number of hours.

Excused Absence from Field Seminar and Other Social Work Classes
Field Instructors must notify the Field Coordinator by email of required training for the agency that may cause a student to miss social work classes at PLU. Other absences related to optional training for students may have an impact on the students’ ability to participate in class, and therefore impact their class grades.

Grading
Field Experience is graded pass-fail. In order to earn a grade of pass, students must receive an acceptable evaluation, complete the minimum of 230 hours per semester, and conduct themselves in a manner consistent with the NASW Code of Ethics.

Dismissal Policy
Consistent with the policies of the Council on Social Work Education, accrediting agency for undergraduate and graduate Social Work education, faculty members regularly review student performance throughout the academic year. Applicants to the Social Work Department give faculty permission to discuss their performance in the department when they sign and return the release of information form in the application packet.

Academic Dismissal
Academic performance is measured by the over-all and “within-major” cumulative grade point averages of students. At the start of each semester, Social Work faculty members review the academic record of all social work students. Students must maintain an overall grade point average of 2.5, and a grade point average of 2.75 within their major course of study to matriculate within the Social Work department and advance to the Practicum.

Students who fall below these grade point averages receive a letter at the conclusion of the first semester in which they do not meet the requirement. The letter invites them to meet with faculty if desired, but requires them to develop a plan for reaching the grade point standard, and suggests various resources within the University which might help them in this pursuit. Students who attain the grades needed are sent a letter congratulating them on their accomplishment.

Students who are unable to successfully complete their plan are not permitted to enter the practicum. Students apply for field placements in the spring semester of their junior year. Those students who are not permitted to apply for Field are invited to meet with faculty and a representative from the Advising office to
formulate an alternate plan of study to attain the necessary grade point average, or to explore other academic pursuits. Students who want to contest the dismissal may appeal to the Dean of the Division of Social Sciences, and may follow the Pacific Lutheran University Grievance Policy.

Non-academic Dismissal.
Non-academic performance refers to those interpersonal behaviors, skills, and values that are the vehicle for student’s work with peers, faculty and clients. Faculty anticipate and nurture the demonstration or development of compassion, empathy, genuineness, the purposeful use of self, warmth, creativity, initiative, leadership, active listening, flexibility, good judgement, interpersonal skill, self-awareness and knowledge. Non-academic behaviors and values that impede the ability of the students to successfully practice social work include, but are not limited to, values which conflict with the Social Work Code of Ethics, unresolved mental illness, behaviors that degrade or devalue others, distracting personal habits, significant difficulties in communication, poor work habits, and breaches of ethics. Examples of these behaviors can be found in the Appendix.

When these behaviors that impede practice are consistently observed in the classroom, during interactions with students or faculty, or in the field placement, all faculty members in the Department meet to discuss and describe the situation. The Department Chair and one other faculty member bring the questionable behavior to the attention of the student in a conference. The student is asked to formulate, communicate and implement a plan to address the behaviors of concern. A follow-up meeting time is set to review progress toward achieving the student’s plan.

Students who successfully complete their plan are sent written confirmation and congratulations. Students who are unable to successfully complete their plan are invited to meet with Social Work faculty and a representative from the Advising office to formulate a plan for exploring other academic pursuits. Students who want to contest the dismissal may appeal to the Dean of the Division of Social Sciences, and may follow the Pacific Lutheran University Grievance Policy.

Field Experience Placement Process:
Students registering for Field Experience must have senior standing, an overall GPA of 2.5, and a GPA of 2.75 within the social work major.

1) Students must demonstrate their intentions of entering the field by attending the Field Experience Interest Meeting held during Spring Semester. At this meeting, students complete the Field Experience Application (see Appendix).

2) Students schedule a personal interview with the Field Experience Coordinator to discuss interests and any special needs (such as transportation, accessibility). Students bring a completed resume to this meeting. Students also have successfully completed a videotaped interview for SOCW 360.

3) Two or three tentative agency placements are selected from list of qualified field experience settings and the student then schedules preliminary interviews with agencies.

4) The student, Field Coordinator, and Field Instructor make the joint decision regarding the appropriateness of placement.

5) The Learning Agreement must be completed and returned to the Field Seminar Instructor for final approval.

Students need to follow this process to insure quality field experience placements. If a student desires a specialized placement in a setting which is not on the list of qualified agencies, he/she needs to discuss this with the Field Experience Coordinator prior to making any arrangements with the agency. The Field Coordinator will contact the agency and determine whether it meets the standards for setting and field instructor.

---

Special Considerations in Placement of Students

The following factors are considered in making placement decisions:

- **Student's individual learning needs** - Throughout the course of the curriculum, areas for growth may be identified for particular students. Knowledge of expertise provided by particular field instructors and in specific agencies is used to place students in settings which facilitate personal and professional growth.

- **Student's expressed preference in terms of setting, population** - Whenever possible, a student's interest in working with a particular population is honored. However, the overall quality of the supervision is more important than working with a specific population.

- **Previous education and work experience** - Some settings are more appropriate for students who bring a certain amount of experience and/or education in a particular area.

- **Geographical location preferred by student** - As some students may commute a significant distance to school, every attempt is made to find an appropriate placement close to their home if so desired.

- **Special needs - transportation, accessibility** - Individual needs of students are considered when making placement decisions.
SELECTION AND PLACEMENT CRITERIA

Criteria for Selection of Agencies
A variety of agencies in the Tacoma - Pierce County area serve as field learning sites. Traditional human service settings, including community mental health centers, hospitals, corrections, state public welfare agencies, schools, and community-based agencies are utilized in this capacity. New field learning sites require an on-site visit and assessment by the Field Experience Coordinator.

Criteria for the selection of field agencies include:

• acceptance of professional education for social work as a part of the philosophy and practice of the agency;
• the ability of the agency to provide relevant and appropriate social work experiences for the student (where the student has direct client contact and can learn, practice, and develop social work skills - interviewing, assessment, contracting, developing intervention plan, termination, record-keeping, work with larger systems, etc.)
• willingness to provide the Social Work Department with information concerning the agency, its services, and community events which have an impact on field and/or class curricula;
• agency policies and practice which reflect the ethical standards of the social work profession and the department’s commitment to under-served, oppressed, and vulnerable populations;
• a climate conducive to student learning, including space, support services, and necessary equipment/supplies for students to work effectively.
• the availability of a qualified field instructor (see below) to provide a minimum of one hour of direct supervision to the student per week;
• willingness of the agency to provide adequate time for the field instructor to fulfill her/his responsibilities to the student and the Social Work Department; this includes participation in orientations and trainings provided by the University;
• a commitment to students, including a recognition of the importance of field instruction in social work education as well as viewing students in a learning role rather than as auxiliary staff members;
• agreement to treat all information including student evaluations, as confidential;
• a willingness to allow the student to use case records, with appropriate confidentiality, in classroom discussions and assignments;
• a willingness to allow students to participate in staff meetings, in-service staff training, interagency conferences, and other educational opportunities;

Criteria for Selection of Field Instructors
The role of field instructor is difficult, as it requires the assumption of multiple roles, including being a professional role model for students as well as an instructor who teachers and evaluates students. The field instructor should demonstrate sound social work practice and be able to explicate the concepts and principles that underlie that practice. In addition, the field instructor is strongly committed to teaching and accepts the responsibility for the preparation of future social work professionals. The field instructor should have the ability to evaluate her/his own practice and to provide critical evaluation to others in a professional manner. The field instructor also must be willing and able to attend and participate in field instructor seminars and other activities offered by the Social Work Department to enhance the learning experience for students.
Specific criteria considered in the selection of field instructors include:

- completion of MSW or BSW from an accredited school of social work. If valuable learning opportunities exist in a setting which does not have an on-site BSW or MSW, a person with those credentials outside the agency may provide supervision.
- a preference that the field instructor holds ACSW membership and is a Washington State Licensed Social Worker.
- two years post-degree social work experience.
- a minimum of 1 year experience at current agency setting
- clear personal and professional identification with the agency and the intent to remain there for the duration of the school year; familiarity with agency policies and philosophy.
- a familiarity with social work curriculum at PLU and an understanding of how Field Experience fits into the curriculum.
- adequate time to provide supervision.
- an appreciation and respect for all aspects of human diversity.

NON – ACADEMIC DISMISSAL BEHAVIORS

The Social Work Department creates a learning environment where students enhance or develop knowledge, values and skills for social work practice. For some students, this requires new awareness of values and interpersonal or personal behaviors which are dangerous to clients or which impede the student’s ability to work well with other professionals. The behaviors listed in the first column below are examples of those behaviors supported and encouraged in students. The second column includes behaviors that faculty will bring to the attention of students when observed.  

This list is not meant to be complete.

<table>
<thead>
<tr>
<th>Behaviors that Enhance Social Work Practice</th>
<th>Behaviors that Impede Social Work Practice</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ability to identify and resolve personal or family situations that effect professional practice</td>
<td>Preoccupation with personal problems impairs professional practice</td>

Statement of Understanding  
between the Division of Social Sciences, Pacific Lutheran University  
and Affiliated Agencies

Name of Agency | Division

---

I. Preamble
Inasmuch as Pacific Lutheran University’s Division of Social Sciences and many community agencies share common interests about the value of practicum, internship, and field experiences in education and since students register for and receive University credit for agency-supervised practicum or field experience education, therefore this letter of understanding delineates areas of responsibility for both University and Practicum Agencies.

II. Understanding
A. The Division of Social Science will, through Practicum and Internship Coordinators, carry out the functions and responsibilities specified in the following areas.

1. Placement of Students
   a. The University will confer with the Agency about the number and types of students it might accept for placement, the nature of the Agency learning experience, and its expectations of students in meeting Agency needs.
   b. The University will screen students carefully and endeavor to make appropriate placements. The University places students only with Agencies whose affirmative action policies with regard to both staff and clients prohibit discrimination on the basis of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability or status as a disabled veteran or Vietnam era veteran.
   c. The University will provide the Agency with appropriate information about each student’s background and professional interests.
   d. The University and each student shall comply with all applicable state, federal, and local laws regarding the confidentiality of patient information and medical records.

2. Liaison with Agencies and Practicum Sites
   a. The University will designate Practicum Liaison(s) for each Agency.
   b. The Practicum Liaison(s) will carry out such responsibilities as:
      i. assisting in the development of an Educational Contract’
      ii. reviewing and evaluating, with the Practicum Instructor, the progress of student learning.

B. The Agency, under the terms of this Statement of Understanding, will provide instructional opportunities to students enrolled in Pacific Lutheran University’s Division of Social Science.

1. Placement of Student
   a. The Agency reserved the right to interview and approve students proposed for placement consistent with Agency and University affirmative action
policies with regard to both staff and clients that prohibit discrimination against persons on the basis of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability or status as a disabled veteran or Vietnam era veteran.

b. The number of hours spent by the student in the Agency is determined by University credit requirements, but the specific scheduling of the hours is negotiable between the student and the Agency.

2. Practicum Instruction
   a. The Agency will designate, with the University’s concurrence, a qualified staff member who will serve as Practicum Instructor and will direct student learning. The Practicum Instructor and student will develop an Educational Contract.
   b. The Agency agrees to comply with the University expectations regarding performance evaluations of students.
   c. The Agency agrees to provide a minimum of 1 hour of direct supervision per week, provided by the Practicum Instructor(s).
   d. The Practicum Instructor(s) will confer with the appropriate PLU Practicum Liaison person about student progress.
   e. When student continuation in the placement is in question, the Practicum Instructor will contact the appropriate PLU Practicum Liaison.
   f. The Division of Social Science and/or the Practicum Agency has the right to terminate a student’s placement following consultation between the Practicum Instructor and the PLU Practicum Liaison and in accordance with the Division of Social Science Grievance Procedures and/or the Committee on Students Procedures.

3. Support Services
   a. The Agency will provide reasonable office, conference room, and classroom space and support services for students.
   b. The Agency will allocate reasonable time to Practicum Instructors to carry out their educational responsibilities.

The Agency retains full responsibility for client services and for establishing standards for the quality of services rendered by students. Students placed within the Agency for instruction function as representatives for the Agency, and the Agency will maintain administrative and professional supervision of students insofar as their presence affects the operation of the Agency and/or direct or indirect services to clients.

The university shall indemnify and hold Agency harmless for claims by third persons resulting from negligent actions of the employee, student and/or agent of the University only if the action is contrary to the Agency’s instruction and the Agency becomes liable for said actions. Agency shall indemnify and hold the University harmless for any and all other claims relating to the Educational Contract and this Statement of Understanding.

Students at Pacific Lutheran University WILL NOT transport clients in personal vehicles.
Students shall not be deemed employees of Agency, but are responsible to the Agency or the University under the terms of this agreement. They are students and shall not replace Agency personnel.

Division Faculty are not employees of the Agency, but are responsible to the Agency and the University for abiding to the terms of this agreement.

Errors or problems occurring within the course of the internship or practicum involving student (or faculty) will be reported immediately by said student or faculty member in accordance with established Division procedures, including completion of required reporting forms.

It is understood that this contract shall be in effect for three years. It may be revised or modified at any time by mutual consent. Such modifications and/or revisions shall be accomplished by the addition of an addendum until such time as the changes can be incorporated into the body of the agreement.

EVALUATION OF FIELD SETTING

SOCIAL WORK FIELD EXPERIENCE

Agency____________________________________

Supervisor___________________________________

Semester/Year________________________________

1. Was there a clear understanding of the student role within your agency?

   Were the expectations for you consistent with your experience, ability, and comfort level?

   Did you have adequate space to work? privacy when needed?

2. What kinds of learning opportunities were available for you?

   What types of tasks were assigned to you?

   Were you afforded opportunities for generalist practice, including work at different system levels (individual interviews, task or treatment group work, agency level work, community), work at different phases of the social work process (intake/engagement, assessment, intervention, evaluation)?

   Did you receive regular supervision?

   Did you receive adequate feedback on your performance as a student intern?
Were staff development opportunities made available to you? Describe.

3. How well were you oriented to the agency? Describe the process.

4. Evaluate the workload.

Quantity of work:

Complexity of assignments:

Nature of documentation required:

5. Were you able to accomplish your learning goals? (If not, what were the reasons?)

6. Would you recommend this practicum setting for future social work students? Why or why not?

Evaluation is a critical component of professional development. We expect that formal and informal evaluation occur throughout the semester through supervision, feedback, and discussion of the Learning Plan and Evaluation.

The evaluation is divided into sections that represent the competencies established by the Council on Social Work Education. Under each general section, there is space to list additional tasks or activities that constitute the Learning Plan and that are tailored to each individual student and site.

Each practice behavior is evaluated by the field instructor and the student. After completion, the student and field instructor then meet in an evaluation conference to discuss the student's performance and their respective assessment of learning. It is the student's responsibility to submit a completed, signed form to the Field Experience Seminar Instructor by the end of spring semester.

Practice behaviors will be evaluated using the following rating system:

AC  Advanced Competence – Expertly demonstrates awareness, knowledge, and skills with sufficient mastery to teach others.
C  Competence – Consistently demonstrates competence and confidence where this is integrated into their practice.
EC  Emerging Competence – Demonstrates beginning knowledge and skills where this is becoming more integrated in the student's practice.
NP  Non-sufficient Progress – The student has to consciously work at this area and rarely demonstrates awareness.
UP  Unacceptable Progress – The student has not achieved competence despite opportunities, supervision, and feedback.

This course is graded Pass/Fail. Emerging Competence (EC), Competence (C), and Advanced Competence (AC) meet minimum competency standards. This rating system does not equate to letter grades. Our expectation is that most students will achieve the Competence (C) level across most behaviors. We expect infrequent ratings of Advanced Competence (AC). A rating of Advanced Competence (AC), Non-sufficient Progress (NP), or Unacceptable Progress (UP) requires explanatory comments.
**Competency 1:** Student identifies as a professional social worker and conducts self accordingly.

Evaluation is a critical component of professional development. We expect that formal and informal evaluation occur throughout the semester through supervision, feedback, and discussion of the Learning Plan and Evaluation.

The evaluation is divided into sections that represent the competencies established by the Council on Social Work Education. Under each general section, there is space to list additional tasks or activities that constitute the Learning Plan and that are tailored to each individual student and site.

Each practice behavior is evaluated by the field instructor and the student. After completion, the student and field instructor then meet in an evaluation conference to discuss the student's performance and their respective assessment of learning. It is the student's responsibility to submit a completed, signed form to the Field Experience Seminar Instructor by the end of spring semester.

Practice behaviors will be evaluated using the following rating system:

AC Advanced Competence – Expertly demonstrates awareness, knowledge, and skills with sufficient mastery to teach others.
C Competence – Consistently demonstrates competence and confidence where this is integrated into their practice.
EC Emerging Competence – Demonstrates beginning knowledge and skills where this is becoming more integrated in the student's practice.
NP Non-sufficient Progress – The student has to consciously work at this area and rarely demonstrates awareness.
UP Unacceptable Progress – The student has not achieved competence despite opportunities, supervision, and feedback.

This course is graded Pass/Fail. Emerging Competence (EC), Competence (C), and Advanced Competence (AC) meet minimum competency standards. This rating system does not equate to letter grades. Our expectation is that most students will achieve the Competence (C) level across most behaviors. We expect infrequent ratings of Advanced Competence (AC). A rating of Advanced Competence (AC), Non-sufficient Progress (NP), or Unacceptable Progress (UP) requires explanatory comments.
**Competency 1:** Student identifies as a professional social worker and conducts self accordingly.
