### **Norwegian Language and Culture** (no credits)

When studying in Norway, you ought to know something about our history and culture as well as learning to speak basic Norwegian. *Norwegian Language and Culture* will make sure you scratch the surface of the “Norwegian-ness” and in return get more out of your time here.

The course will go on for most of the semester (12 weeks) and combines an online language course ([Norwegian on the Web](#)) with weekly two hour seminars with a teacher for questions, training and practice. As part of the course we organize various excursions where you will learn about Norwegian history and culture.
