COURSE OVERVIEW

In this one-month course, students will be teaching assistants for approximately 2-3 weeks in elementary schools located in Zurich. All students will compare and contrast educational practices in Switzerland and the United States. This experience will be augmented by study tours throughout the region.

Why Study Education in Switzerland?

Education systems vary greatly around the world. How we choose to educate children, expose them to music and movement, and provide access to bi-cultural and bi-literate content at an early age are significantly different in many parts of the world. This course will provide a strong foundation upon which to build a global-oriented, professional career working with children.
